Sponsor	Investment Manager	Trustee
Roadstar Infra Private Limited	**Roadstar Investment Managers Limited**	**Axis Trustee Services Limited**

Roadstar Infra Investment Trust ("**Trust**") is proposing a unit distribution of up to 455,477,143 units representing an undivided beneficial interest in the Trust (the "**Units**") to Eligible Creditors (as defined herein), on a private placement basis, by IL&FS Transportation Networks Limited, Infrastructure Leasing & Financial Services Limited, IL&FS Financial Services Limited and Sabarmati Capital One Limited (collectively, the "**Distributing Unitholders**") as per the Resolution Framework approved by the NCLAT (such distribution, the "**Unit Distribution**"). For details in relation to the background of the Resolution Framework, the formation of the Trust and the Unit Distribution, please see the sections "*The Unit Distribution*", "*Formation Transactions in relation to the Trust*" and "*Overview of the Trust*" on pages 19, 26 and 23, respectively.

Pursuant to SEBI's letter dated March 20, 2024, the Trust has received an exemption from strict enforcement of Regulation 12(3A) of the InvIT Regulations, with reference to the requirement of holding certain Units by the Sponsor and Sponsor Group entities for a certain period of time, subject to the Sponsor holding not less than 15% of the Units on a post-issue basis for a period of three years. Accordingly, 68,806,097 Units, equivalent to not less than 15% of total outstanding Units post the Unit Distribution, are proposed to be distributed to the Sponsor ("**Sponsor Lock-in Units**"), which will be held by the Sponsor for a period of at least three years from the date of listing of the Units. For details in respect of the Sponsor Lock-in Units, please see the section "*Unit Distribution Procedure and Information*" on page 392.

THE UNIT DISTRIBUTION IS BEING MADE ONLY TO ELIGIBLE CREDITORS IN ACCORDANCE WITH THE RESOLUTION FRAMEWORK APPROVED BY THE NATIONAL COMPANY LAW APPELATE TRIBUNAL.

The Units are proposed to be listed on the National Stock Exchange of India Limited ("**NSE**") and BSE Limited ("**BSE**", together with NSE, the "**Stock Exchanges**"). The Trust has received in-principle approvals from BSE and NSE for listing of the Units pursuant to letters, each dated July 22, 2024. The validity of the in-principle approval of NSE has been extended by way of letters dated October 28, 2024 and February 10, 2025. The validity of the in-principle approval of BSE has been extended by way of letters dated November 7, 2024 and February 10, 2025. NSE is the Designated Stock Exchange. Applications shall be made to the Stock Exchanges for obtaining the final listing and trading approvals for the Units to be distributed pursuant to the Unit Distribution. The Stock Exchanges assume no responsibility for the correctness of any statements made, opinions expressed or reports contained herein. Admission of the Units to be distributed pursuant to the Unit Distribution for trading on the Stock Exchanges should not be taken as an indication of the merits of the Trust or of the Units.

This is distribution of Units only to Eligible Creditors, and there is no formal market for the Units. No assurance can be given regarding an active or sustained market for trading in the Units or regarding the price at which the Units will be traded after the proposed listing. This Placement Memorandum has not been, and will not be, registered as a prospectus, will not be circulated or distributed to the public at large in India or any other jurisdiction, and will not constitute a public offer in India or any other jurisdiction.

A copy of the Draft Placement Memorandum and this Placement Memorandum has been filed with the Securities and Exchange Board of India ("**SEBI**") and delivered to the Stock Exchanges and a copy of the Final Placement Memorandum will be delivered to the SEBI and the Stock Exchanges.

The Investment Manager, having made all reasonable inquiries confirms that this Placement Memorandum contains all information with regard to the Trust, the Units and the Unit Distribution, which is material in the context of the Unit Distribution, that the information contained in this Placement Memorandum is true, correct and adequate in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and have been reached after considering all relevant circumstances and are based on reasonable assumptions and information presently available with the Investment Manager and that there are no other facts, the omission of which makes this Placement Memorandum as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect.

The Units have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**U.S. Securities Act**") and may not be offered, sold or distributed within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Units are only being offered, sold or distributed outside the United States in "offshore transactions" as defined in, and in reliance on, Regulation S under the U.S. Securities Act ("**Regulation S**") and the applicable law of the jurisdictions where such offers, sales or distributions occur. The Units are transferable only in accordance with the restrictions described under the section titled "*Selling and Transfer Restrictions*" on page 378.

THIS PLACEMENT MEMORANDUM IS PERSONAL TO EACH ELIGIBLE CREDITOR AND WOULD NOT CONSTITUTE AN OFFER OR INVITATION OR SOLICITATION OF AN OFFER TO THE PUBLIC OR ANY OTHER PERSON OR CLASS OF INVESTORS WITHIN OR OUTSIDE INDIA. THIS PLACEMENT MEMORANDUM HAS BEEN PREPARED BY THE TRUST SOLELY FOR PROVIDING INFORMATION IN CONNECTION WITH THE UNIT DISTRIBUTION.

YOU MAY NOT, AND ARE NOT AUTHORIZED TO, (1) DELIVER THIS PLACEMENT MEMORANDUM TO ANY OTHER PERSON; OR (2) REPRODUCE THIS PLACEMENT MEMORANDUM IN ANY MANNER WHATSOEVER. ANY DISTRIBUTION OR REPRODUCTION OF THIS PLACEMENT MEMORANDUM, IN WHOLE OR IN PART, IS UNAUTHORIZED. FAILURE TO COMPLY WITH THIS INSTRUCTION MAY RESULT IN A VIOLATION OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (INFRASTRUCTURE INVESTMENT TRUSTS) REGULATIONS, 2014, AS AMENDED OR OTHER APPLICABLE LAWS OF INDIA AND OF OTHER JURISDICTIONS.

THE UNITS HAVE NOT BEEN RECOMMENDED BY SEBI NOR DOES SEBI GUARANTEE ACCURACY OR ADEQUACY OF THE CONTENTS OF THIS PLACEMENT MEMORANDUM. EACH ELIGIBLE CREDITOR IS ADVISED TO CONSULT ITS OWN ADVISORS, ABOUT THE CONSEQUENCES OF HOLDING THE UNITS BEING DISTRIBUTED PURSUANT TO THIS FINAL PLACEMENT MEMORANDUM. ELIGIBLE CREDITORS ARE ALSO ADVISED TO CAREFULLY READ THIS PLACEMENT MEMORANDUM, INCLUDING THE SECTIONS "RISK FACTORS" AND "RIGHTS OF UNITHOLDERS" ON PAGES 63 AND 383, RESPECTIVELY.

For further details, please see the section "*Unit Distribution Procedure and Information*" on page 392. The distribution of the Draft Placement Memorandum, this Placement Memorandum or the Final Placement Memorandum, or the disclosure of their contents, without the Investment Manager's prior consent, to any person, other than the Eligible Creditors is unauthorized and prohibited. Each Eligible Creditor, by accepting delivery of this Placement Memorandum, agrees to observe the foregoing restrictions and to make no copies of this Placement Memorandum or any documents referred to in this Placement Memorandum.

The information on the website of the Trust, any website directly or indirectly linked to such website, or the website of the Trustee does not form part of this Placement Memorandum and any information contained in, or available through, any such websites, shall not be relied upon.

PURSUANT TO SEBI'S LETTER DATED MARCH 20, 2024, THE TRUST HAS RECEIVED AN EXEMPTION FROM STRICT ENFORCEMENT OF REGULATION 14(1)(C) OF THE INVIT REGULATIONS, WITH REFERENCE TO THE REQUIREMENT OF MINIMUM ISSUE SIZE OF AN INITIAL OFFER OF UNITS.

NOTICE TO ELIGIBLE CREDITORS

The statements contained in this Placement Memorandum relating to the Trust and the Units are, in all material respects, true, correct, adequate and not misleading. The opinions and intentions expressed in Placement Memorandum with regard to the Trust and the Units are honestly held, have been reached after considering all relevant circumstances and are based on reasonable assumptions and information presently available with the Investment Manager, the Sponsor or both, as applicable. There are no other facts in relation to the Trust and the Units, the omission of which would, in the context of the Unit Distribution, make any statement in this Placement Memorandum misleading in any material respect. Further, each of the Investment Manager and the Sponsor has made all reasonable enquiries to ascertain such facts and to verify the accuracy of all such information and statements disclosed in this Placement Memorandum in all material respects.

The Placement Agent has not separately verified any information (financial, legal or otherwise) contained in this Placement Memorandum. Accordingly, the Placement Agent or any of its shareholders, employees, counsel, officers, directors, representatives, agents, associates or affiliates do not make any express or implied representation, warranty or undertaking, and accept no responsibility or liability as to the accuracy or completeness of the information contained in this Placement Memorandum or any other information supplied in connection with the Unit Distribution or the distribution of the Units, other than in relation to themselves. Each Eligible Creditor receiving this Placement Memorandum acknowledges that such person has neither relied on the Placement Agent nor any of their shareholders, employees, counsel, officers, directors, representatives, agents, associates or affiliates in connection with their investigation of the accuracy of such information. Each Eligible Creditor must rely on its own examination of the Trust and the merits and risks involved in holding the Units. Eligible Creditors should not construe the contents of this Placement Memorandum as legal, tax, accounting or investment advice. Each Eligible Creditor receiving this Placement Memorandum acknowledges that they have relied solely on the information contained in this Placement Memorandum and the Final Placement Memorandum and not on any other disclosure or representation by the Investment Manager, the Project Manager, the Trustee, the Sponsor, the Placement Agent, the Distributing Unitholders or any other party. Save as expressly stated in this Placement Memorandum, nothing contained herein is, or may be relied upon as, a promise or representation as to the future performance of the Trust.

No person is authorized to give any information or to make any representation not contained in this Placement Memorandum and any information or representation not so contained must not be relied upon as having been authorized by or on behalf of the Trust or by, or on behalf, of the Sponsor, the Investment Manager, the Distributing Unitholders or the Placement Agent. The delivery of this Placement Memorandum, at any time, does not imply that the information contained in it is correct as of any time subsequent to its date. This Placement Memorandum shall not be relied upon by, and the Investment Manager, the Trustee, the Sponsor, the Project Manager, the Distributing Unitholders and/or the Placement Agent shall not be liable to, any subsequent acquirer, transferee or investor of the Units.

This Placement Memorandum is personal to each Eligible Creditor.

The distribution of the Draft Placement Memorandum and this Placement Memorandum and the Final Placement Memorandum or the disclosure of its contents to any person, other than the Eligible Creditors to whom it is addressed and those retained by such Eligible Creditors, is unauthorized and prohibited. Each Eligible Creditor, by accepting delivery of this Placement Memorandum and the Final Placement Memorandum agrees to observe the foregoing restrictions and make no copies of, this Placement Memorandum and the Final Placement Memorandum or any other material in connection with the Unit Distribution or the Units.

Certain U.S. Matters

The Units to be distributed pursuant to the Unit Distribution have not been approved, disapproved or recommended by any regulatory authority in any jurisdiction, including the United States Securities and Exchange Commission ("**SEC**"), any other federal or state authorities in the United States, the securities authorities of any non-United States jurisdiction or any other United States or non-United States regulatory authority. No authority has passed on or endorsed the merits of the Unit Distribution or the accuracy or adequacy of this Placement Memorandum. Any representation to the contrary is a criminal offence in the United States and may be a criminal offence in other jurisdictions.

The Units have not been and will not be registered under the U.S. Securities Act and may not be offered, sold or distributed within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Units are

only being offered, sold or distributed outside the United States in "*offshore transactions*" as defined in, and in reliance on, Regulation S and the applicable laws of the jurisdictions where those offers, sales or distributions occur. The Units are transferable only in accordance with the restrictions described under the section "*Selling and Transfer Restrictions*" on page 378.

Each recipient of the Units offered by this Placement Memorandum will be deemed to have made the representations, agreements and acknowledgments as described in this section "*Notice to Eligible Creditors – Representations by Eligible Creditors"* on page 2.

Notice to Eligible Creditors in certain other jurisdictions

The distribution of the Draft Placement Memorandum, this Placement Memorandum and the Final Placement Memorandum and the distribution of the Units in certain jurisdictions may be restricted by law. As such, the Draft Placement Memorandum, this Placement Memorandum and the Final Placement Memorandum do not constitute, and may not be used for, or in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it is unlawful to make such offer or solicitation. In particular, no action has been taken by the Investment Manager or the Placement Agent which would permit a distribution of the Units or distribution of the Draft Placement Memorandum, this Placement Memorandum and the Final Placement Memorandum in any jurisdiction, other than India. Accordingly, the Units will not be offered, sold or distributed, directly or indirectly, and neither the Draft Placement Memorandum, this Placement Memorandum and the Final Placement Memorandum nor any materials in connection with the Units be distributed or published in or from any country or jurisdiction that would require registration of the Units in such country or jurisdiction.

THE VALUE OF THE UNITS AND THE INCOME DERIVED FROM THEM MAY FLUCTUATE. THE UNITS ARE NOT OBLIGATIONS OF, DEPOSITS IN, OR GUARANTEED BY THE TRUST, THE TRUSTEE, THE SPONSOR, THE INVESTMENT MANAGER, THE PLACEMENT AGENT, THE DISTRIBUTING UNITHOLDERS OR ANY OF THEIR RESPECTIVE SHAREHOLDERS, EMPLOYEES, COUNSEL, OFFICERS, DIRECTORS, REPRESENTATIVES, AGENTS, ASSOCIATES OR AFFILIATES. AN INVESTMENT IN THE UNITS IS SUBJECT TO INVESTMENT RISKS, INCLUDING THE POSSIBLE LOSS OF THE PRINCIPAL AMOUNT INVESTED, FURTHER, LISTING OF THE UNITS ON THE STOCK EXCHANGES DOES NOT GUARANTEE A LIQUID MARKET FOR THE UNITS. UNITHOLDERS HAVE NO RIGHT TO REQUEST THE TRUST, THE TRUSTEE, THE SPONSOR, THE DISTRIBUTING UNITHOLDERS OR THE INVESTMENT MANAGER OR ANY OF THEIR RESPECTIVE SHAREHOLDERS, EMPLOYEES, COUNSEL, OFFICERS, DIRECTORS, REPRESENTATIVES, AGENTS, ASSOCIATES OR AFFILIATES TO REDEEM THEIR UNITS WHILE THE UNITS ARE LISTED, UNLESS OTHERWISE PERMITTED BY APPLICABLE LAW. THE PERFORMANCE OF ANY OF THE LISTED UNITS OF THE TRUST IS NOT NECESSARILY INDICATIVE OF THE FUTURE PERFORMANCE OF THE UNITS OF THE TRUST.

Representations by Eligible Creditors

References herein to "you" or "your" is to each Eligible Creditor in the Unit Distribution.

By receiving the Units pursuant to the Unit Distribution, you are deemed to have represented to the Trustee, the Investment Manager, the Sponsor and the Placement Agent, and acknowledge and agree as follows:

1. You are a creditor of a Distributing Unitholder, who has a valid admitted claim existing as of the Cut-Off Date (i.e. October 15, 2018) in terms of the Resolution Framework (as defined hereunder), and are eligible under applicable laws and regulations of India, and undertake (i) to receive, hold, manage or dispose of any of the Units that are distributed to you in accordance with InvIT Regulations, other applicable laws and under the laws of all relevant jurisdictions; and (ii) that you are entitled to receive and have all necessary capacity and have obtained all necessary consents, governmental or otherwise and authorisations to enable you to commit to this participation in this Unit Distribution and to perform your obligations in relation thereto (including, without limitation, in the case of any person on whose behalf you are acting, all necessary consents and authorisations to agree to the terms set out or referred to in the Draft Placement Memorandum, this Placement Memorandum and the Final Placement Memorandum) and will honour such obligations;

2. You will make all necessary filings and reporting, in relation to the Unit Distribution, with appropriate governmental, statutory or regulatory authorities, including the RBI, as may be required, in accordance with applicable law in India and in your respective jurisdiction, as applicable;

3. You agree to provide on request in a timely manner, and consent to the use and disclose (including to any taxation or other regulatory authorities) of, any information or documentation in relation to yourself and, if and to the extent required, the direct or indirect beneficial ownership of your Units (if any), as may be necessary for the Trust (or the Trustee and its agents) and the Investment Manager to comply with any regulatory obligations and/or prevent the withholding of tax or other penalties under FATCA, the CRS or other similar and applicable exchange of tax information regimes. You acknowledge and agree that you shall have no claim against the Trust (or the Trustee and its agents) and the Investment Manager for any losses suffered by you (including in relation to the direct or indirect beneficial ownership of your Units (if any)) as a result of such use or disclosure of such information or documentation to any regulatory, governmental or statutory authority;

4. You are aware that the Units have not been and will not be registered through a prospectus under the InvIT Regulations, or under any other law in force in India, and no Units will be distributed in India or overseas to the public or any members of the public in India or any other class of investors other than the Eligible Creditor. This Placement Memorandum has been filed with the Stock Exchanges and SEBI and would be displayed on the websites of SEBI and the Stock Exchanges;

5. None of the Sponsor, the Investment Manager, the Project Manager, the Trustee, the Distributing Unitholders or the Placement Agent or any of their respective shareholders, directors, officers, employees, counsel, representatives, agents or affiliates is making any recommendations to you or advising you regarding the suitability of any transactions it may enter into in connection with the Unit Distribution and that participation in the Unit Distribution is on the basis that you are not and will not, up to the Allotment, be a client of the Placement Agent. None of the Sponsor, the Trustee, the Investment Manager, the Project Manager, the Distributing Unitholders, the Placement Agent or any of their respective shareholders, employees, counsel, officers, directors, representatives, agents or affiliates have any duties or responsibilities to you for providing the protection afforded to their clients, or for providing advice in relation to the Unit Distribution and are in no way acting in a fiduciary capacity towards you;

6. All statements, other than statements of historical fact included in this Placement Memorandum, including, without limitation, those regarding the Trust's financial position, business strategy, plans and objectives for future operations, Investment Objectives and the Projections of Revenue from Operations and Cash Flow from Operating Activities, are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause actual results to be materially different from the results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on certain assumptions regarding the Trust's present and future business strategies and the environment in which the Trust will operate in the future. You should not place undue reliance on forward-looking statements, which speak only as of the date of this Placement Memorandum, and not regard such statements to be a guarantee or assurance of our future performance or return to creditors. The Trust, the Trustee, the Sponsor, the Placement Agent and the Investment Manager, the Distributing Unitholders or any of their respective shareholders, directors, officers, employees, counsel, representatives, advisors, agents, associates or affiliates assume no responsibility to update any of the forward-looking statements contained in this Placement Memorandum;

7. You have read this Placement Memorandum in its entirety, including, in particular, the section "*Risk Factors*" on page 63;

8. You have been provided with a serially numbered copy of this Placement Memorandum and will be deemed to have read this Placement Memorandum, in its entirety, including, in particular, the section "*Risk Factors*" on page 63. Further, if you are an Eligible Creditor who has been Allocated Units, you will be provided with a serially numbered copy of the Final Placement Memorandum and will be deemed to have read the Final Placement memorandum in its entirety, including in particular, the section "*Risk Factors"* on page 63 '

9. You are aware and understand that the Units are being distributed only to Eligible Creditors through this Placement Memorandum and the Final Placement Memorandum and are not being offered to the general public and the Allotment shall be on a discretionary basis in accordance with the Resolution Framework;

10. You are permitted to receive the Units under the laws of any applicable jurisdiction and that you have necessary capacity and authority, and have obtained all necessary consents and authorisations to enable you to commit to this participation in the Unit Distribution and to perform your obligations in relation thereto (including, without limitation, on behalf of any person) and honour such obligations;

11. You undertake to (i) hold, manage or dispose of any Units that are distributed to you in accordance with the InvIT Regulations and all other applicable laws; and (ii) to comply with all requirements under applicable law in relation to reporting obligations, if any, in this relation;

12. You understand that the Units have not been, and will not be, registered under the U.S. Securities Act or with any securities regulatory authority of any state of the United States and accordingly, may not be offered, sold or distributed within the United States, except in reliance on an exemption from the registration requirements of the U.S. Securities Act;

13. You are not receiving or acquiring or subscribing for the Units as a result of any "directed selling efforts" (as defined in Regulation S);

14. You are acquiring or receiving the Units in an "offshore transaction" as defined in Regulation S, and are not an affiliate of the Trust or the Placement Agent or a person acting on behalf of such an affiliate;

15. You understand and agree that the Units are transferable only in accordance with the restrictions described in the section entitled "*Selling and Transfer Restrictions*" on page 378, and you warrant that you will comply with such restrictions;

16. You agree and acknowledge that, in the event you hold 10% or more of the total outstanding Units of the Trust, you shall comply with the stewardship code as specified in Schedule VIII of the InvIT Regulations;

17. You have (i) relied on your own examination of the Trust, the Units and the terms of the Unit Distribution, including the merits and risks involved, (ii) made and will continue to make your own assessment of the Trust, the Units and the terms of the Unit Distribution based solely on the information contained in this Placement Memorandum and the Final Placement Memorandum, (iii) consulted your own independent advisors or otherwise have satisfied yourself concerning, without limitation, the effects of local laws, (iv) relied solely on the information contained in this Placement Memorandum and the Final Placement Memorandum, and no other disclosure or representation by the Sponsor or the Investment Manager or any other party, (v) received all information in this Placement Memorandum and the Final Placement Memorandum that you believe is necessary or appropriate, and (vi) relied upon your own investigation in relation to the Unit Distribution;

18. You have such knowledge and experience in financial, business and investment matters as to be capable of evaluating the merits and risks of holding the Units. You and any accounts for which you are receiving the Units, (i) are each able to bear the economic risk of the investment in the Units; (ii) will not, subject to the terms of this Placement Memorandum and the Final Placement Memorandum, look to any of the Investment Manager, the Trustee, the Sponsor, the Distributing Unitholders or the Placement Agent or any of their respective shareholders, employees, counsel, officers, directors, representatives, financial advisors, agents or affiliates for all, or part, of any such loss or losses that may be suffered due to your holding of the Units; and (iii) are able to sustain a complete loss on the holdings in the Units; (iv) have no need for immediate liquidity with respect to the holdings in the Units, and (v) have no reason to anticipate any change in your or their circumstances, financial or otherwise, which may cause or require any sale or distribution by you or them of all or any part of the Units. You acknowledge that holding the Units involves a high degree of risk and that the Units are, therefore, a speculative investment. You are seeking to receive the Units in the Unit Distribution as part of the Resolution Framework, and not with a view to resell or distribute in any manner that could characterise you as an underwriter or similar entity in any jurisdiction;

19. The Trustee, the Sponsor, the Investment Manager, the Placement Agent, the Distributing Unitholders or any of their respective shareholders, directors, officers, employees, counsel, representatives, advisors, agents or affiliates have not provided you with any legal, financial or tax advice or otherwise made any representations regarding the tax consequences of the Units (including but not limited to the Unit Distribution). You will obtain your own independent legal, financial or tax advice and will not rely on the Investment Manager, the Sponsor, the Trustee, the Placement Agent, the Distributing Unitholders or any of their respective shareholders, employees, counsel, officers, directors, representatives, advisors, agents or affiliates when evaluating the tax consequences in relation to the Units (including but not limited to the Unit Distribution). You waive and agree

not to assert any claim against the Placement Agent, the Sponsor, the Trustee, the Distributing Unitholders or the Investment Manager or any of their respective financial advisors, agents or affiliates with respect to the tax aspects of the Units or the Unit Distribution or as a result of any tax audits by tax authorities, in relation to the Units and the Unit Distribution, wherever situated;

20. You are not the Trustee, the Valuer or an employee of the Valuer involved in the valuation of the Project SPVs;

21. You are aware that (i) the Trust has received in-principle approvals from BSE and NSE for listing of the Units pursuant to letters, each dated July 22, 2024. The validity of the in-principle approval of NSE has been extended by way of letters dated October 28, 2024 and February 10, 2025. The validity of the in-principle approval of BSE has been extended by way of letters dated November 7, 2024 and February 10, 2025;; and (ii) the application for the final listing and trading approval will be made only after Allotment. There can be no assurance that the final approval for listing and trading of the Units will be obtained in a timely manner, or at all. The Trust, the Trustee, the Placement Agent the Investment Manager, the Distributing Unitholders or the Sponsor, shall not be responsible for any delay or non-receipt of such final approval (except to the extent prescribed under the InvIT Regulations) or any loss arising from such delay or non-receipt;

22. You shall not undertake any trade in the Units credited to your demat account until such time that the final listing and trading approval for the Units has been issued by the Stock Exchanges;

23. The only information you are entitled to rely on, and on which you have relied, in committing yourself to receive the Units is contained in this Placement Memorandum, such information being all that you deem necessary in respect of the Units and that you have neither received nor relied on any other information given or representations, warranties or statements made by the Trustee, the Placement Agent, the Investment Manager, the Distributing Unitholders or the Sponsor, and neither the Trustee, the Placement Agent, the Investment Manager, the Distributing Unitholders nor the Sponsor will be liable for your decision to participate in the Unit Distribution based on any other information, representation, warranty or statement that you have obtained or received;

24. You understand that the Units in this Unit Distribution will, when Allotted, be credited as fully paid and will rank pari passu in all respect with all other Units, including in respect of the right to receive all distributions declared, made or paid in respect of the Units after the Allotment. For details, please see the section "*Distribution*" on page 288;

25. You agree to indemnify and hold the Trustee, Investment Manager, the Sponsor, the Distributing Unitholders and the Placement Agent harmless from any and all costs, claims, liabilities and expenses (including legal fee and expenses) arising out of or in connection with any breach of the representations and warranties in this section;

26. The Trustee, the Investment Manager, the Sponsor, the Placement Agent, the Distributing Unitholders, their respective shareholders, employees, counsel, offices, directors, representatives, agents or affiliates, will rely on the truth and accuracy of the foregoing representations, warranties, acknowledgements and undertakings which are given to the Placement Agent on their own behalf and on behalf of the Trust, the Sponsor, the Investment Manager, the Trustee, the Distributing Unitholders and the same are irrevocable;

27. You are eligible to invest in India and are eligible to receive/hold the Units under applicable law, including the FEMA Rules, and have not been prohibited by SEBI or any other statutory, regulatory or judicial authority from buying, selling or dealing in securities;

28. You understand that, subject to the terms of this Placement Memorandum, neither the Placement Agent, the Investment Manager, the Sponsor, the Distributing Unitholders nor the Trustee has any obligation to purchase or subscribe to all, or any part, of the Units Allotted to you in the Unit Distribution, or to support any losses directly or indirectly sustained or incurred by you for any reason whatsoever in connection with the Unit Distribution;

29. Any dispute arising in connection with the Unit Distribution will be governed by, and construed in accordance with, the laws of the Republic of India and the courts at Mumbai, Maharashtra shall have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Unit Distribution;

30. You have made, or are deemed to have made, as applicable, the representations provided in this section and each of the representations, warranties, acknowledgements and agreements set out above shall continue to be true and accurate at all times, up to and including the Allotment, listing and trading of the Units; and
31. You are eligible to hold the Units, so Allotted. You are aware that your holding after the Allotment of the Units cannot exceed the investment level permissible as per any applicable law and regulations.

Available Information

The Investment Manager agrees to comply with any undertakings given by it from time to time in connection with the Units and, without prejudice to the generality of foregoing, shall furnish to the Unitholders all such information as may be required under the InvIT Regulations.

Disclaimer

This Placement Memorandum does not, directly or indirectly, relate to any invitation, offer or sale of any securities, instruments or loans (including listed non-convertible debentures or bonds, if any) that may be issued by the Trust after the listing of the Units. Any person or entity investing in such issue or transaction by the Trust should consult its own advisors. Neither the Placement Agent, nor their associates or affiliates have any responsibility or liability for such issue or transaction by the Trust.

DEFINITIONS AND ABBREVIATIONS

This Placement Memorandum uses the definitions and abbreviations provided below which you should consider when reading the information contained herein.

References to any legislation, act, regulations, rules, guidelines or policies shall be to such legislation, act, regulations, rules, guidelines or policies as amended, supplemented, or re-enacted from time to time and any reference to a statutory provision shall include any subordinate legislation made under that provision.

The words and expressions used in this Placement Memorandum, but not defined herein shall have the meaning ascribed to such terms under the InvIT Regulations, the SEBI Act, the SCRA, the Depositories Act, and the rules and regulations made thereunder.

Notwithstanding the foregoing, the terms not defined but used in the sections "Audited Special Purpose Combined Financial Statements", "Projections of Revenue from Operations and Cash Flow from Operating Activities", "Statement of Tax Benefits" and "Legal and Other Information" on pages 425, 524, 401 and 346, respectively, shall have the meanings ascribed to such terms in those respective sections.

In this Placement Memorandum, unless the context otherwise requires, a reference to "we", "us" and "our" refers to the Trust and the Project SPVs on a consolidated basis. For the sole purpose of the Audited Special Purpose Combined Financial Statements, reference to "we", "us" and "our" refers to the Project SPVs on a combined basis.

Trust Related Terms

PRESENTATION OF FINANCIAL DATA AND OTHER INFORMATION

Certain Conventions

All references in this Placement Memorandum to "India" are to the Republic of India, all references to the "U.S.", or the "United States" are to the United States of America.

Unless stated otherwise, all references to page numbers in this Placement Memorandum are to the page numbers of this Placement Memorandum.

Financial Data

Unless stated otherwise, the financial information in this Placement Memorandum is derived from the Audited Special Purpose Combined Financial Statements. The Trust was settled as a contributory irrevocable determinate trust on October 6, 2020, and has acquired ownership of MBEL (FY 2021-22), TRDCL (FY 2022-23), SBHL (FY 2021-22), HREL (FY 2022-23), PSRDCL (FY 2023-24) and BAEL (FY 2024-25). For further details, please see the section "*Formation Transactions in Relation to the Trust*" on page 26.

The Audited Special Purpose Combined Financial Statements have been prepared in accordance with the recognition and measurement principles of the Indian Accounting Standards, as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 prescribed under Section 133 of the Companies Act, 2013 read with the InvIT Regulations and the circulars issued thereunder and the Guidance Note on Combined and Carve-Out Financial Statements issued by the Institute of Chartered Accountants of India. For further details, please see the section "*Audited Special Purpose Combined Financial Statements*" on page 425.

Further, this Placement Memorandum includes projections of revenue from operations and cash flows from operating activities of the Trust on a combined basis and each of Project SPV, individually, for the financial years ended March 31, 2026, March 31, 2027 and March 31, 2028, prepared in accordance with the basis of preparation as set out the projections of revenue from operations and cash flow from operating activities (the "**Projections of Revenue from Operations and Cash Flow from Operating Activities**"). For further details, please see the section "*Projections of Revenue from Operations and Cash Flow from Operating Activities*" on page 524.

Further, this Placement Memorandum includes summaries of the audited financial statements of (i) the Sponsor, as of and for the financial years ended March 31, 2024, March 31, 2023 and March 31, 2022 prepared in accordance with Ind AS and the Companies Act, derived from the financial statements of the Sponsor for the respective years; and (ii) Investment Manager, as of and for the period ended March 31, 2024 March 31, 2023 and March 31, 2022, prepared in accordance with Ind AS and the Companies Act and derived from the financial statements of the Investment Manager. For further details, please see the sections "*Summary of Financial Information of the Sponsor*" and "*Summary of Financial Information of the Investment Manager*" on pages 34 and 38, respectively.

The financial year for the Trust, the Investment Manager, the Project SPVs and the Sponsor, commences on April 1 and ends on March 31 of the next year, and accordingly, all references to a particular financial year or fiscal year, unless stated otherwise, are to the 12-month period ended on March 31 of that year.

The degree to which the financial information included in this Placement Memorandum will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, the Companies Act, the Indian GAAP, Ind AS and the InvIT Regulations. The Investment Manager has not attempted to explain these differences or quantify their impact on the financial data included in this Placement Memorandum, and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Placement Memorandum should accordingly be limited.

In this Placement Memorandum, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures and percentage figures have been rounded off to two decimal places. However, where any figures may have been sourced from third-party industry sources, such figures may be rounded-off to such number of decimal points as provided in such respective sources.

Non-GAAP Measures

EBITDA and EBITDA Margin (together, "**Non-GAAP Measures**"), presented in this Placement Memorandum are a supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, Indian GAAP, IFRS or US GAAP. Further, these Non-GAAP Measures are not a measurement of our financial performance or liquidity under Ind AS, Indian GAAP, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the years/ period or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, Indian GAAP, IFRS or US GAAP. In addition, EBITDA and EBITDA Margin are not standardised terms, hence a direct comparison of these Non-GAAP Measures between companies may not be possible. Other companies may calculate these Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. Although such Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, the Investment Manager believes that they are useful to an investor in evaluating us as they are widely used measures to evaluate our operating performance.

Currency and Units of Presentation

All references to:

- "Rupees" or "₹" or "INR" or "Rs." are to Indian Rupees, the official currency of the Republic of India; and
- "USD" or "US$" or "$" or "U.S. dollars" are to United States Dollars, the official currency of the United States

Except otherwise specified, certain numerical information in this Placement Memorandum has been presented in "million" units. (i) One million represents 1,000,000; (ii) one billion represents 1,000,000,000; and (iii) one lakh represents 1,00,000. Unless the context requires otherwise, any percentage amounts, as set forth in this Placement Memorandum, have been calculated on the basis of the Audited Special Purpose Combined Financial Statements and the summary financial statements of (i) the Sponsor; and (ii) the Trust, as the case may be.

Exchange Rates

This Placement Memorandum contains conversion of certain other currency amounts into Indian Rupees. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate. The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Rupee and the US$ and the Rupee:

(in ₹)

Currency		Exchange Rate as on			
	December 31, 2024	September 30, 2024	March 31, 2024	March 31, 2023	March 31, 2022
1 US$	85.62	83.79	83.37	82.22	75.81

Source: https://www.fbil.org.in/#/home; www.xe.com.
Note: The reference rates are rounded off to two decimal places. If the reference rate is not available on a particular date due to a public holiday, exchange rates of the previous working day have been disclosed,

Industry and Market Data

Unless stated otherwise, industry and market data used in this Placement Memorandum has been obtained or derived from CRISIL Report. The Investment Manager has commissioned the CRISIL Report, to provide an independent estimation of the roads sector, which is based on historical data and certain assumptions.

Industry publications as well as government publications generally state that the information contained in such publications has been obtained from various sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Accordingly, no decisions should be based solely on such information. The data used in these sources may have been re-classified for the purposes of presentation. Data from these sources may also not be comparable. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those disclosed in the section "*Risk Factors- We have relied on data derived from (i) Technical Consultant Reports commissioned from the Technical Consultants, (ii) Traffic Reports commissioned from the Traffic Consultants and (iii) the CRISIL Report, which are based on certain estimates and assumptions and are subject to the limitations set out therein.*" on page 66. Accordingly, decisions should not be based solely on such information.

The extent to which the market and industry data used in this Placement Memorandum is meaningful depending on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which the business of the Trust is conducted, and methodologies and assumptions may vary widely among different industry sources. The CRISIL Report is subject to the following disclaimer:

"CRISIL Market Intelligence & Analytics (CRISIL MI&A), a division of CRISIL Limited (CRISIL) has taken due care and caution in preparing this report (Report) based on the Information obtained by CRISIL from sources which it considers reliable (Data). However, CRISIL does not guarantee the accuracy, adequacy or completeness of the Data / Report and is not responsible for any errors or omissions or for the results obtained from the use of Data / Report. This Report is not a recommendation to invest / disinvest in any entity covered in the Report and no part of this Report should be construed as an expert advice or investment advice or any form of investment banking within the meaning of any law or regulation. CRISIL especially states that it has no liability whatsoever to the subscribers / users / transmitters/ distributors of this Report. Without limiting the generality of the foregoing, nothing in the Report is to be construed as CRISIL providing or intending to provide any services in jurisdictions where CRISIL does not have the necessary permission and/or registration to carry out its business activities in this regard. Roadstar Investment Managers Limited will be responsible for ensuring compliances and consequences of non-compliances for use of the Report or part thereof outside India. CRISIL MI&A operates independently of, and does not have access to information obtained by CRISIL Ratings Limited, which may, in their regular operations, obtain information of a confidential nature. The views expressed in this Report are that of CRISIL MI&A and not of CRISIL Ratings Limited. No part of this Report may be published/reproduced in any form without CRISIL's prior written approval."

Valuation

The Valuation Report was commissioned by the Investment Manager for the purposes of the Unit Distribution.

Traffic Data

The Traffic Reports were commissioned by the Investment Manager.

Credit Rating

The Trust has obtained credit rating from ICRA Limited. The credit rating issued to the Trust is subject to the following disclaimer:

"ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents."

Websites

The information contained on the websites of the Trust, the Trustee, the Placement Agent, or the other websites referred in this Placement Memorandum or that can be accessed through our websites or such other websites, neither constitutes part of this Placement Memorandum, nor is it incorporated by reference therein and should not form the basis of any investment decision. For details of the websites of the Trust, Trustee and Placement Agent, please see the section "*General Information*" on page 96.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this Placement Memorandum that are not statements of historical fact constitute "forward-looking statements". Forward-looking statements can generally be identified by terminology such as "aim", "anticipate", "believe", "continue", "can", "could", "estimate", "expect", "intend", "likely", "may", "objective", "plan", "potential", "project", "pursue", "shall", "should", "target", "targeted", "will", "would", or other words or phrases of similar import. Similarly, statements that describe the strategies, objectives, plans or goals of the Trust are also forward-looking statements. However, these are not the exclusive means of identifying forward-looking statements.

All statements regarding the Trust's expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to the Trust's business strategy, planned projects, revenue and profitability (including, without limitation, any financial or operating projections or forecasts), new business and other matters discussed in this Placement Memorandum that are not historical facts. These forward-looking statements and any other projections contained in this Placement Memorandum (whether made by the Trustee, Investment Manager or any third party), are predictions and involve known and unknown risks, uncertainties, assumptions and other factors that may cause the Trust's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or other projections. Further, this Placement Memorandum also includes the section "*Projections of Revenue from Operating and Cash Flow from Operating Activities*" on page 524.

The Valuation Report included in this Placement Memorandum, is based on certain projections and accordingly, should be read together with assumptions and notes thereto. For further details, please see the "*Valuation Report*" attached as Annexure A. The Traffic Reports, attached at Annexure B, include projections and estimates in relation to routine and periodic maintenance, including operation and maintenance contracts review, and operational analysis and generation comparison and accordingly, should be read in conjunction with the relevant notes and assumptions thereto.

All forward-looking statements and financial projections are subject to risks, uncertainties and assumptions. Actual results may differ materially from those suggested by forward-looking statements and financial projections due to certain known or unknown risks or uncertainties associated with the Investment Manager's expectations with respect to, but not limited to, the actual growth in the infrastructure sector, the Investment Manager's ability to successfully implement the strategy, growth and expansion plans, technological changes, cash flow projections, exposure to market risks, general economic and political conditions in India, monetary and fiscal policies of India, inflation, deflation, foreign exchange rates, performance of financial markets in India or globally, changes in domestic laws, regulations and taxes, changes in competition in the infrastructure sector, the outcome of any legal or regulatory proceedings and the future impact of new accounting standards. By their nature, certain of the market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains, losses or impact on net income could materially differ from those that have been estimated.

Factors that could cause actual results, performance or achievements of the Trust to differ materially include, but are not limited to, those discussed under the sections "*Risk Factors*", "*Industry Overview*", "*Our Business*" and "*Discussion and analysis by the Directors of the Investment Manager of the financial condition, results of operations and cash flows of the Project SPVs of the Trust*", on pages 63, 153, 207 and 293, respectively. Some of the factors that could cause the Trust's actual results, performance or achievements to differ materially from those in the forward-looking statements, financial projections and financial information include, but are not limited to, the following:

- Toll collections and toll road traffic volumes may be affected by competing roads and bridges and other modes of transportation, and any improvements to, or construction of, such roads, bridges and other modes of transportation;

- Toll rates and collections and toll road traffic volumes are subject to regulatory constraints, number of road users subject to such rates and dependent on factors beyond our control;

- Leakage of the toll fees of any of the toll-based Project SPV's roads may materially and adversely affect our revenues and financial condition;

- We have relied on data derived from (i) Traffic Reports commissioned from the Traffic Study Consultant and (ii) the CRISIL Report, which are based on certain estimates and assumptions and are subject to the limitations set out therein;

- Certain provisions of the standard form of Concession Agreements may be untested, and the Concession Agreements may contain certain restrictive terms and conditions which may be subject to varying interpretations;

- The Valuation Report, and any underlying reports, are not opinions on the commercial merits of the Trust or the Project SPVs, nor are they opinions, expressed or implied, as to the future trading price of the Units or the financial condition of the Trust upon listing, and the valuation contained therein may not be indicative of the true value of the Project SPV's assets;

- Any infrastructure project that we acquire which is still under construction and development may be subject to cost overruns or delays;

- We may be subject to increases in costs, including operation and maintenance costs, which we cannot recover by increasing toll fees or annuity income under the relevant Concession Agreements;

- We will depend on various third parties to undertake certain activities in relation to the operation and maintenance of the roads and any delay, default or unsatisfactory performance by these third parties could materially and adversely affect our ability to effectively operate or maintain the roads. Further, the operation of the Project SPVs will also depend on our relationships with other stakeholders; and

- Our actual results may be materially different from the expectations, express or implied, or Projections of Revenue from Operations and Cash Flows from Operating Activities included, in this Placement Memorandum.

The forward-looking statements, Projections of Revenue from Operations and Cash Flow from Operating Activities, Valuation Report, Technical Reports and Traffic Reports reflect current views as of the dates specified therein and are not a guarantee of future performance or returns. These statements and projections are based on certain beliefs and assumptions, which in turn are based on currently available information. Although the Investment Manager and the Sponsor believe that the expectations and the assumptions upon which such forward-looking statements are based, are reasonable at this time, none of the Investment Manager or the Sponsor can assure that such expectations will prove to be correct or accurate.

In accordance with the InvIT Regulations, the assumptions underlying the Projections of Revenue from Operations and Cash Flow from Operating Activities have been examined by the Auditors in accordance with SAE 3400 "The Examination of Prospective Financial Information", issued by the Institute of Chartered Accountants of India. The Projections of Revenue from Operations and Cash Flow from Operating Activities have been prepared for inclusion in this Placement Memorandum for the purposes of this Unit Distribution, using a set of assumptions that include hypothetical assumptions about future events and management's actions that are not necessarily expected to occur, and have been approved by the IM Board. Consequently, Eligible Creditors are cautioned that the Projections of Revenue from Operations and Cash Flow from Operating Activities may not be appropriate for purposes other than that described above. In any event, these statements speak only as of the date of this Placement Memorandum or the respective dates indicated in this Placement Memorandum.

The Trust, the Investment Manager, the Sponsor and the Placement Agent or any of their affiliates or advisors, undertake no obligation to update or revise any of statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, whether as a result of new information, future events or otherwise after the date of this Placement Memorandum. If any of these risks and uncertainties materialize, or if any of the Investment Manager's underlying assumptions prove to be incorrect, the actual results of operations or financial condition or cash flow of the Trust could differ materially from that described herein as anticipated, believed, estimated or expected. All subsequent forward-looking statements attributable to the Trust are expressly qualified in their entirety by reference to these cautionary statements. Given these uncertainties, Eligible Creditors are cautioned not to place undue reliance on such forward-looking statements and financial projections, and not to regard such statements to be a guarantee or assurance of the Trust's future performance or returns to unitholders.

THE UNIT DISTRIBUTION

The following is a general summary of the terms of this Unit Distribution. This summary should be read in conjunction with, and is qualified in its entirety by, the detailed information appearing elsewhere in this Placement Memorandum:

Unit Distribution	Unit Distribution of up to 455,477,143 Units to Eligible Creditors, on a private placement basis, by the Distributing Unitholders as per the Resolution Framework approved by the NCLAT. Pursuant to SEBI's letter dated March 20, 2024, the Trust has received an exemption from strict enforcement of Regulation 12(3A) of the InvIT Regulations, with reference to the requirement of holding certain Units by the Sponsor and Sponsor Group entities, collectively, for a certain period of time, subject to the Sponsor holding not less than 15% of the Units on a post-issue basis for a period of three years. Accordingly, 68,806,097 Units, equivalent to not less than 15% of total outstanding Units post the Unit Distribution, are proposed to be distributed to the Sponsor ("**Sponsor Lock-in Units**"), which will be held by the Sponsor for a period of at least three years from the date of listing of the Units.
Unit Value	₹100, being the value at which the IL&FS Unitholders have been issued Units in terms of the InvIT Documents
Minimum Allotment Lot[1]	200,000 Units
Unit Distribution Allocation Date[2]	On or about Wednesday, February 19, 2025
Sponsor	Roadstar Infra Private Limited
Trustee	Axis Trustee Services Limited
Investment Manager	Roadstar Investment Managers Limited
Project Manager	Elsamex Maintenance Services Limited
Eligible Creditors	Eligible creditors of Distributing Unitholders in terms of the Resolution Framework and the Interim Distribution Framework, as identified by a duly appointed intermediary.
Authority for this Unit Distribution	This Unit Distribution has been authorised and approved by the IM Board on April 2, 2024[3]
Tenure of the Trust	The Trust shall remain in force perpetually until it is dissolved or terminated in accordance with the Trust Deed. For details, please see the section "*Parties to the Trust*" on page 101.
Units issued and outstanding as of the date of this Placement Memorandum	As of the date of this Placement Memorandum, there are 455,477,143[5] issued and outstanding Units.
Sponsor and Sponsor Group(s) Units[6 and 7]	68,806,097[5] Units, equivalent to not less than 15% of total outstanding Units post the Unit Distribution, are proposed to be distributed to the Sponsor ("**Sponsor Lock-in Units**"), which will be held by the Sponsor for a period of at least three years from the date of listing of the Units in terms of SEBI's letter dated March 20, 2024 (exempting the Trust from strict enforcement of Regulation 12(3A) of the InvIT Regulations). The Units held by the Sponsor shall rank *pari passu* with, and have the same rights as the Units to be Allotted pursuant to this Unit Distribution.
Units outstanding immediately after the Unit Distribution	Up to 455,477,143 Units
Distribution	Please see the section "*Distribution*" on page 288
Indian Taxation	Please see the section "*Statement of Tax Benefits"* on page 401
Listing	Prior to this Unit Distribution, there has been no market for the Units. The Units are proposed to be listed on the Stock Exchanges. In-principle approvals for listing of the Units has been received from Stock Exchanges on July 22, 2024. The validity of the in-principle approval of NSE has been extended by way of letters dated October 28, 2024 and February 10, 2025. The validity of the in-principle approval

	of BSE has been extended by way of letters dated November 7, 2024 and February 10, 2025.The Investment Manager shall apply to the Stock Exchanges for the final listing and trading approval, after the Allotment and the credit of the Units to the demat accounts of the Allottees
Designated Stock Exchange	NSE
Closing Date	The date on which Allotment of the Units pursuant to this Unit Distribution shall be made, i.e. on or about Tuesday, March 4, 2025
Ranking[(8)]	The Units being distributed shall rank *pari passu* in all respects, including rights in respect of distribution. Please see the section *"Rights of Unitholders"* on page 383
Lock-in and Rights of Unitholders	For details, please see the sections "*Information Concerning the Units*" and "*Rights of Unitholders*" on pages 272 and 383, respectively
Risk Factors	Eligible Creditors should consider carefully the matters discussed in the section *"Risk Factors*" on page 63

[1]As per the exemption granted by SEBI by way of its letter dated March 20, 2024.

[2]The Trust has been granted an exemption by SEBI from disclosing the "issue opening date" and "issue closing date' by way of its letter dated March 20, 2024.

[3]The details of authorisations by the Distributing Unitholders for their participation in the Unit Distribution is set out below:

S. No.	*Distributing Unitholders*	*Date of Board Resolutions*

[6]As permitted by SEBI by way of its letter dated March 20, 2024, the Sponsor is only required to hold the mandatory unitholding, being not less than 15% of total outstanding Units, post the Unit Distribution, as contemplated under Regulation 12(3) of the InvIT Regulations for a period of three years from the date of listing and accordingly, 68,806,097 Units will be distributed to the Sponsor to comply with such requirements. The Sponsor Lock-in Units will be distributed to the Eligible Creditors upon expiry of the three year period. For details see "Unit Distribution Procedure and Information" on page 392.

[7] Pursuant to the IL&FS Interim Distribution SOP as approved by the board of directors of IL&FS in its meeting held on May 15, 2024, IL&FS and ITNL will continue to hold 31,593,908 Units after the Unit Distribution which will be held by them for a period of one year from the date of Unit Distribution in accordance with Regulation 12(3) of the InvIT Regulations. These Units correspond to the recovery amount for contingent claims that are either 'admitted contingent claims' or 'contingent claims that are neither admitted nor rejected and under

appeal/adjudication at various fora'. These Units will be locked in with IL&FS and ITNL for a period of at least one year from the date of listing of Units or until such time as the claims either crystallize into a debt requiring satisfaction through distribution of Units or are discharged / extinguished (as applicable). Post such time period, the board of IL&FS, in consultation with the Investment Manager, GT and A&M, will decide the treatment of any remaining Units. The Units which remain unallocated post finalisation of the contingent claims shall form part of pool of Units used for settlement of other creditors of the IL&FS Group and will be kept in separate demat accounts which will be jointly controlled by the Investment Manager. Distribution / sale of such Units, after a one-year lock-in period, shall be in consultation with the Investment Manager and SEBI. Prior to filing the Final Placement Memorandum, the Investment Manager shall enter into letter arrangements with IL&FS and ITNL for being a joint signatory to the demat accounts where such Units will be kept in relation to contingent claims. Under no circumstance such Units would be held in a beneficial interest capacity by any of the IL&FS entities.

8 During the period that the Distributed Units are held in escrow in the Unit Escrow Accounts, any distributions or benefits accruing to the Distributed Units (if any) shall be to the credit of the Eligible Creditors and shall be released into a Unit Escrow Account notified in writing by the Eligible Creditors. The Distributing Unitholders shall not continue to exercise all its rights including voting rights attached to the Distributed Units, during the period they are held in escrow in the Unit Escrow Accounts. For details see the section "Unit Distribution Procedure and Information- Escrow Mechanism" on page 397 .

The Unit Distribution is a distribution of Units under Regulation 14(2) of the InvIT Regulations, subject to exemptions granted by way of SEBI Exemption Letters. Exemption from strict enforcement of paragraph 15.1 of the InvIT Master Circular, with reference to requirement of listing of Units within six working days from the closure of the issue has been granted by SEBI way of its letter dated March 20, 2024. Upon listing of the Units on the Stock Exchanges, the Units shall be traded only on the dematerialized segment of the Stock Exchanges.

In accordance with the InvIT Regulations, no Unitholder shall enjoy superior voting or any other rights over another Unitholder. Further, there shall not be multiple classes of Units. However, the Trust may issue subordinate units of the Trust only to the Sponsor and its Associates, in compliance with the InvIT Regulations, where such subordinate units of the Trust shall carry only inferior voting or other rights compared to the Units. For further details in relation to this Unit Distribution, including the method of application, please see the section "*Unit Distribution Procedure and Information*" on page 392.

No person connected with the Unit Distribution, including any person connected with the distribution of this Placement Memorandum, shall offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any person for participating in the Unit Distribution. For further details in relation to this Unit Distribution please see the section "*Unit Distribution Procedure and Information*" on page 392.

Preliminary distribution

The Units allotted to (and currently held by) the IL&FS Group as consideration of the transfer of their respective interests in the Project SPVs to the Trust would be distributed to the Eligible Creditors of such IL&FS Group entities as per the Resolution Framework.

While the intention of the Unit Distribution is to ensure that Eligible Creditors (i.e., non-IL&FS Group entities) receive Units from the IL&FS Group entities as part of the Resolution Framework, in certain cases, the creditors of the IL&FS Unitholders are actually other IL&FS Group entities themselves ("**Intragroup Creditors**"). To prevent a situation where in the Units held by the relevant IL&FS Unitholders would be distributed to (and held by) Intragroup Creditors even after the Unit Distribution, a preliminary distribution of such Units to the Intragroup Creditors was undertaken. The details of the Preliminary Distribution are set forth below:

The unitholding of the IL&FS Group entities that currently hold Units ("**IL&FS Unitholders**"), before and after the Preliminary Distribution is set out below:

S. No.	Name of Entity	Pre-Preliminary Distribution		Post Preliminary Distribution	
		No. of units held *	% of holding	No. of units held	% of holding
1.	IL&FS Transportation Networks Limited	259,230,728	56.91	219,993,908	48.30
2.	IL&FS	89,114,264	19.57	124,870,622	27.42
3.	Sabarmati Capital One Limited	14,160,483	3.11	2,000,000	0.44
4.	IL&FS Financial Services Limited	72,621,899	15.94	108,535,475	23.83
5.	IL&FS Airports Limited*	2,663,185	0.58	-	-
6.	IL&FS Cluster Development Initiative Limited*	17,609,446	3.87	-	-

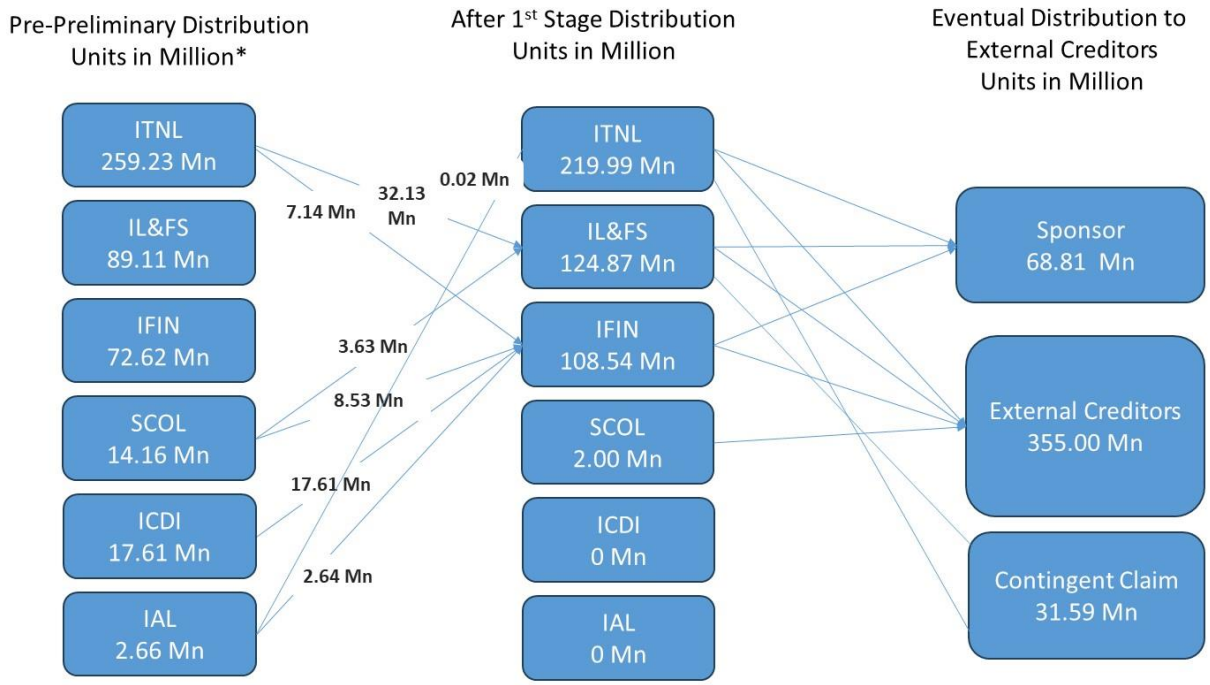
* *Pursuant to the Preliminary Unit Distribution, these entities have divested their unitholding in the Trust and hence are no longer participating in the Unit Distribution.*

The Units distributed to the Intragroup Creditors pursuant to the Preliminary Distribution are, in turn, distributed in terms of the Resolution Framework to their external creditors (i.e., non-IL&FS Group entities) pursuant to the Unit Distribution.

In this regard exemption from strict enforcement (i) of second proviso of Regulation 12(3) of the InvIT Regulations, with reference to requirement of holding of Units in excess of the minimum 15% of the Units for one year to allow the Preliminary Distribution to the Intragroup Creditors and subsequently to the Eligible Creditors; and (ii) of Regulation 16(10) of the InvIT Regulations, with reference to requirement of Units to be held by persons other than the Sponsor Group for one year from the date of listing has been granted by SEBI by way of its letter dated March 20, 2024.

Pursuant to the IL&FS Interim Distribution SOP as approved by the board of directors of IL&FS in its meeting held on May 15, 2024, IL&FS and ITNL will continue to hold 31,593,908 Units after the Unit Distribution which will be held by them for a period of one year from the date of Unit Distribution in accordance with Regulation 12(3) of the InvIT Regulations.These Units correspond to the recovery amount for contingent claims that are either 'admitted contingent claims' or 'contingent claims that are neither admitted nor rejected and under appeal/adjudication at various fora'. These Units will be locked in with IL&FS and ITNL for a period of at least one year from the date of listing of Units or until such time as the claims either crystallize into a debt requiring satisfaction through distribution of Units or are discharged / extinguished (as applicable). Post such time period, the board of IL&FS, in consultation with the Investment Manager, GT and A&M, will decide the treatment of any remaining Units. The Units which remain unallocated post finalisation of the contingent claims shall form part of pool of Units used for settlement of other creditors of the IL&FS Group which will be kept in separate demat accounts which will be controlled by the Investment Manager and will be released after a one year lock-in period, in consultation with SEBI. Prior to filing the Final Placement Memorandum, the Investment Manager shall enter into letter arrangements with IL&FS and ITNL for being a joint signatory to the demat accounts where such Units will be kept in relation to contingent claims. Under no circumstance such Units would be held in a beneficial interest capacity by any of the IL&FS entities.

Please see below a diagrammatic representation of the Preliminary Distribution and the Unit Distribution and the corresponding distribution of Units:



Note: Overall InvIT unit outstanding are 455,477,143 units

OVERVIEW OF THE TRUST

The following overview is qualified in its entirety by, and is subject to, the more detailed information contained in, or referred to elsewhere, in this Placement Memorandum. The statements contained in this summary that are not historical facts may be forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions that could cause actual results of the Trust to differ materially from those forecasted or projected in this Placement Memorandum. Under no circumstances should the inclusion of such information herein be regarded as a representation, warranty or prediction of the accuracy of the underlying assumptions by the Trust, the Parties to the Trust or the Placement Agent or any other person or that these results will be achieved or are likely to be achieved. Eligible Creditors are advised not to rely solely on this overview, however, and should read this Placement Memorandum in its entirety and in particular, the section "Risk Factors" on page 63.

Structure and description of the Trust

Roadstar Infra Private Limited ("**Settlor**") set up the Trust by way of the Trust Deed dated October 6, 2020, as amended, as a contributory irrevocable determinate trust under the provisions of the Indian Trusts Act, 1882 at Mumbai, India. The Settlor has settled the Trust for an initial sum of ₹ 1,000. The Sponsor shall not have any beneficial interest in such initial sum of the Trust and such sum shall not be distributed to Sponsor under any circumstances. The Trust was registered as an infrastructure investment trust under the InvIT Regulations on December 22, 2020, having registration number IN/InvIT/20-21/0015.

For details of the registered office and contact person of the Settlor, please see the section "*General Information*" on page 96.

Further, Roadstar Investment Managers Limited has been appointed as the Investment Manager to the Trust, and Elsamex Maintenance Services Limited has been appointed as the Project Manager to the Trust pursuant to a resolution passed by the IM Board. The Project Manager, the Investment Manager and the Project SPVs have entered into Project Implementation and Management Agreement in this regard. For further details, please see the section "*Parties to the Trust*" on page 101.

Investment Objectives

The object and purpose of the Trust shall be to carry on the activity of an infrastructure investment trust under the InvIT Regulations. The principal investment objectives of the Trust is to own, operate and invest in infrastructure projects in India, directly or through Holdco or SPVs and make other investments and undertake such activities in such jurisdictions as may be permissible under the InvIT Regulations, other applicable law and the InvIT Documents (collectively, the "**Investment Objectives**").

The Trustee, in consultation with the Investment Manager, shall ensure that the InvIT Assets shall be utilized solely for the purpose of the Investment Objectives set out above, towards making investments and incurring expenses of the Trust in accordance with the InvIT Documents.

The Trust shall not engage in any business or activities except as permitted under InvIT Documents and subject to the InvIT Regulations.

Unless permitted by applicable law, the Trustee shall, in consultation with the Investment Manager, ensure that the InvIT Assets shall not be utilized for any activities prohibited under the InvIT Regulations. The Trustee shall, in consultation with the Investment Manager, also ensure that the Trust complies with any additional conditions as may be specified by the SEBI.

The Trustee, in respect of the Trust, shall, in consultation with the Investment Manager, do all other things necessary and conducive to the attainment of the Investment Objectives, directly or through the Investment Manager or the Project Manager.

The Trustee, on the advice of the Investment Manager, may, if it deems expedient, from time to time, review, revise, amend, vary or alter the Investment Objectives in accordance with the Trust Deed, subject to the provisions of the InvIT Documents and applicable law.

All InvIT Assets shall be registered in the name of the Trust or the Trustee (on behalf of the Trust), as permissible.

Fee and expenses

Annual Expenses

The expenses in relation to the Trust, other than such expenses incurred in relation to operations of the Project SPVs, would broadly include fee payable to: (i) the Trustee; (ii) the Investment Manager; (iii) the Project Manager; (iv) the Auditors, (v) the Valuer; and (vi) other intermediaries and consultants.

The estimated recurring expenses on an annual basis (excluding GST), including but not limited to, are as follows:

(₹ in million)

Payable by the Trust	Estimated Expenses*
Fee payable to Credit Rating Agency	4.00
Fee payable to the Valuer	Please see Note 1 below
Fee payable to the Technical Consultant	18.23
Fee payable to the Auditors	1.60
Fee payable to Trustee	Please see Note 2 below
Fee payable to Investment Manager	Please see Note 3 below
Fee payable to Project Manager	Please see Note 4 below

**The above-mentioned expenses relate to one full year of operation for the Trust.*

Note 1:
The Valuer shall be entitled to a fee of ₹1.50 million, excluding out of pocket expenses incurred in connection with the performance of the services.

Note 2:
The Trustee shall be entitled to a fee of ₹1.80 million (the "**Trusteeship Fee**"), which shall be paid annually to the Trustee for the services rendered to the Trust. In addition, the Trustee shall be to recover from the Trust any (i) any legitimate out of pocket expenses incurred by it in relation to its trusteeship of the Trust, and (ii) any tax or duty including goods and services tax (other than income tax) which is, or has become as on the date of collection of such tax or duty, leviable under the applicable law on the fee payable to the Trustee by the Trust.

Note 3:
The annual fee payable by the Trust to the Investment Manager shall be equal to 107.00% of the costs incurred by the Investment Manager in providing the investment management services to the Trust under the Investment Management Agreement. For the purposes of this proposal, "costs" shall include all manpower expenses, administrative expenses, audit fees and operating expenses that may be, or are, debited to the Investment Manager's statement of profit and loss, excluding depreciation. Such fee will be paid to the Investment Manager on a quarterly basis as per the terms of the Investment Management Agreement.

The Investment Manager shall be able to recover from the Trust any tax or duty or levies including goods and services tax (other than income tax) which is, or may become, leviable under applicable law on the fees payable to the Investment Manager by the Trust.

Note 4:
The Project Manager is entitled to a fee from the funds of the relevant Project SPV on an arm's length basis in accordance with the relevant Project Implementation and Management Agreement ("**PM Fee**"). The PM Fee is calculated equal to 1.50% of the operation, management, major maintenance expenses (paid or accrued) of the identified SPV in the financial year in which the fee is being paid. The fee as described above, is payable in monthly instalments.

The payments of PM Fee is subject to applicable tax deduction, as may be required as per applicable law. The PM Fee is exclusive of GST which is attributed to the account of the relevant Project SPV. The Project Manager can charge delay interest in case of failure to make payments within the agreed timelines in accordance with the provisions of the relevant Project Implementation and Management Agreement.

Set-up expenses

In connection with establishment and registration of the Trust, the Sponsor has incurred approximately ₹55.12 million as expenses, which has been reimbursed by the Trust.

Unit Distribution Expenses

The total expenses of this Unit Distribution are estimated to be up to ₹ [●] million ("**Unit Distribution Expenses**"). The Unit Distributions Expenses consist of fee and commissions payable to the Placement Agent, fee payable to legal counsels and Registrar, fee payable to Trustee, Valuer, SEBI (filing of the Unit Distribution Documents), Technical Consultant, Auditor and Credit Rating Agency, stamp duties payable on issuance of units, Registrar and Unit Transfer Agent and all other incidental and miscellaneous expenses for undertaking the formation transactions and for listing the Units on the Stock Exchange. The Unit Distribution expenses shall be borne by the Trust. For ease of operations, if required, the expenses in relation to the Unit Distribution as stated above, at the outset, may be borne by the Sponsor or the Investment Manager on behalf of the Trust, and the Investment Manager (on behalf of the Trust) agrees that it will reimburse the Sponsor or the Investment Manager for all such expenses as may be incurred by the Sponsor or the Investment Manager on actual basis, from the future cash flows of the Trust.

We propose to pay a fee to Axis Capital Limited ("Axis Capital**") in respect to its role as the Placement Agent. While Axis Capital is an affiliate of the Trustee, it is not an associate of the Trust in terms of the Securities and Exchange Board of India (Merchant Bankers) Regulations, 1992. There is no conflict of interest under the Securities and Exchange Board of India (Merchant Bankers) Regulations, 1992, as amended, or any other applicable SEBI rules or regulations and current disclosure is being made to ensure disclosure of all transactions with affiliate of the Trustee. The current disclosure is being made to ensure disclosure of all transactions with affiliate of the Trustee.*

Details of credit ratings

Please see the section "*General Information – Credit ratings*" on page 100 in relation to the details of credit ratings.

FORMATION TRANSACTIONS IN RELATION TO THE TRUST

Details of arrangements pertaining to the Trust

The Project SPVs comprise of six road project SPVs, namely, (i) Hazaribagh Ranchi Expressway Limited; (ii) Moradabad Bareilly Expressway Limited; (iii) Pune Sholapur Road Development Company Limited; (iv) Sikar Bikaner Highway Limited; (v) Thiruvananthapuram Road Development Company Limited; and (vi) Barwa Adda Expressway Limited (collectively**, "the Project SPVs")**. The shareholding of the Project SPVs has been transferred to the Trust by way of the relevant Share Purchase Agreements.

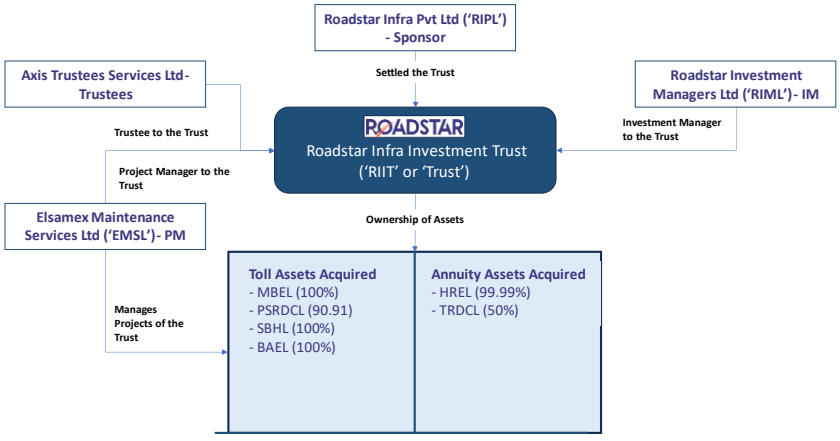
5.	Roadstar Infra Investment Trust and Sachin Suresh Joshi	10	Negligible
6.	Roadstar Infra Investment Trust and Pritesh Lalwani	10	Negligible
7.	Roadstar Infra Investment Trust and Milind Ramesh Gandhi	10	Negligible
	Total	**243,500,000**	**100.00**

Proposed post-Unit Distribution structure

The following structure illustrates the relationship between the Trust, the Trustee, the Sponsor, the Project Manager, the Investment Manager and the Project SPVs as on the Listing Date, that is pursuant to the completion of the proposed Unit Distribution:



SUMMARY OF COMBINED FINANCIAL STATEMENTS

The following tables set forth the summary financial information derived from the Audited Special Purpose Combined Financial Statements which were prepared in accordance with the recognition and measurement principles of Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 prescribed under Section 133 of the Companies Act, 2013 read with the InvIT Regulations and the circulars issued thereunder and the Guidance Note on Combined and Carve-Out Financial Statements issued by the Institute of Chartered Accountants of India, as of and for the six month period ended September 30, 2024 and fiscals 2024, 2023, and 2022.

The degree to which the summary financial information included herein below will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices, Ind AS, the Companies Act and the InvIT Regulations. Accordingly, any reliance by persons not familiar with Indian accounting practices, Ind AS, the Companies Act and the InvIT Regulations on the summary financial information presented below should be limited.

The summary financial information derived from the Combined Financial Statements, as presented below, should be read together with the section entitled "Discussion and Analysis by the Directors of the Investment Manager of the Financial Condition, Results of Operations and Cash Flows of Project SPVs of the Trust" on page 293 in conjunction with the section entitled "Audited Special Purpose Combined Financial Statements" enclosed at page 425.

SUMMARY OF INDUSTRY

1. Macroeconomic overview of India

1.1 Review of India's GDP growth

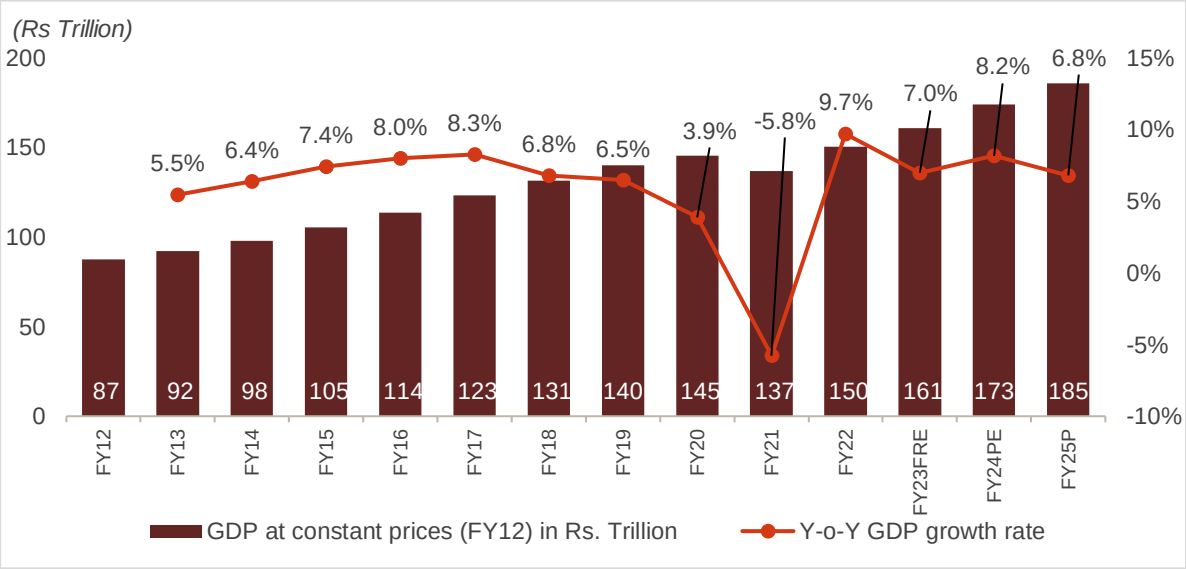
GDP logged 5.7% CAGR between fiscals 2012 and 2023

In 2015, the Ministry of Statistics and Programme Implementation (MoSPI) changed the base year for calculating India's gross domestic product (GDP) to fiscal 2012 from fiscal 2005.

Based on the change, India's GDP clocked a compound annual growth rate (CAGR) of 5.7% between fiscals 2012 and 2023, with the country's overall GDP at Rs 160,714 billion in fiscal 2023 vs Rs 87,363 billion in fiscal 2012. The pace of growth was despite the stress inflicted by the pandemic that led to the GDP — which was already experiencing a slowdown and had grown 3.9% in fiscal 2020 — contracting 5.8% on-year in real terms in fiscal 2021 to Rs ~136,949 billion.

The economy bounced back in fiscal 2022 as the Covid-19 pandemic-related shocks subsided, which resulted in a growth of 9.7% on-year in real GDP to Rs ~150,218 billion.

Real GDP growth in India (new GDP series)



FRE-First Revised Estimate; PE- Provisional Estimate; P – Projected

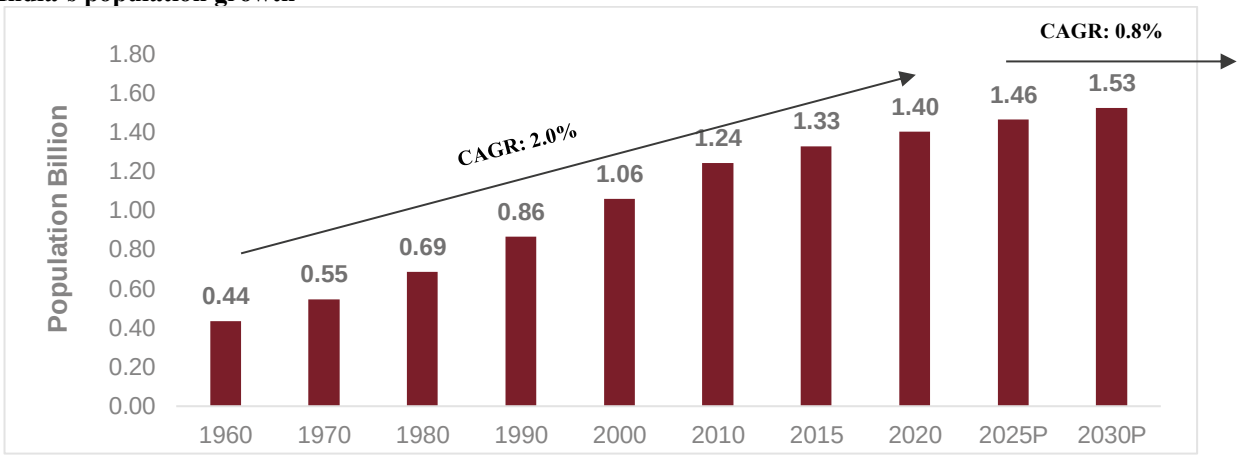
Review of population growth and urbanisation

India's population projected to touch 1,500 million by 2030

India's population clocked ~1.6% CAGR from 2001 to 2011, reaching ~1,200 million, and comprised nearly 246 million households, as per Census 2011.

According to the World Urbanization Prospects: The 2018 Revision by the United Nations, India and China – the top two countries in terms of population – accounted for nearly 37% of the world's population in 2015. India's population is expected to increase at 0.8% CAGR from 2020 to 1,525 million by 2030.

India's population growth



P: Projected
Source: Unitedk Nations, Department of Economic and Social Affairs, Population Division (2024); Probabilistic Population Projections Rev. 1 based on the World Population Prospects 2019 Rev. 1; CRISIL MI&A Consulting

Urbanisation likely to reach 40% by 2030

The share of the urban population in India's total population has been rising over the years and stood at ~31% in 2010. This trend is expected to continue, with a United Nations report projecting that nearly 40% of the country's population will live in urban areas by 2030.

1. Review of road infrastructure in India

2.1 Overview of infrastructure sector in India

The roads sector registered a strong pace of constructions by NHAI, growing 6,003 km (16.4 km per day) in fiscal 2023 from 3,071 km (8.4 km per day) in fiscal 2018. Investments in the roads and highways sector rose from Rs 1.7 trillion in fiscal 2018 to ~Rs 2.9 trillion in fiscal 2022, registering ~1.7x growth.

The government launched the National Infrastructure Pipeline (NIP) for fiscals 2020 to 2025, to boost infrastructure, with a projected investment of Rs 111 trillion during the period. Investments in energy (24%), roads (18%), urban (17%), and railways (12%) will amount to over 70% of the projected capital expenditure during the period.

Contribution of roads sector to India's GVA

The share of the roads sector in India's GDP stood at 3.0% in fiscal 2023. The share hovered at ~3.3% from fiscals 2012 to 2022.

2.2 Road network in India

India has the second-largest road network in the world, spanning 6.345 million km as of fiscal 2024. Roads, the most frequently used mode of transportation in India, accounted for ~87% of passenger traffic and close to ~60% of freight traffic says MoRTH as of September 2024. Although national highways span nearly 146,145 km, constituting just 2% of road length, they accounted for ~40% of the total road traffic. The secondary road system comprises state roads and major district roads, which accounted for the remaining 60% of traffic and 98% of road length.

Road network in India in FY24

Road network	Length (km)	Percentage of total length	Percentage of total traffic	Connectivity to
National highways	146,145	~2	40	Union capital, state capitals, major ports, foreign highways
State highways	179,535	~3	60	Major centres within the states, national highways

Road network	Length (km)	Percentage of total length	Percentage of total traffic	Connectivity to
Other roads	6,019,723	~95		Major and other district roads, rural roads - production centres, markets, highways and railway stations
Total Network	6,345,403	100	100	

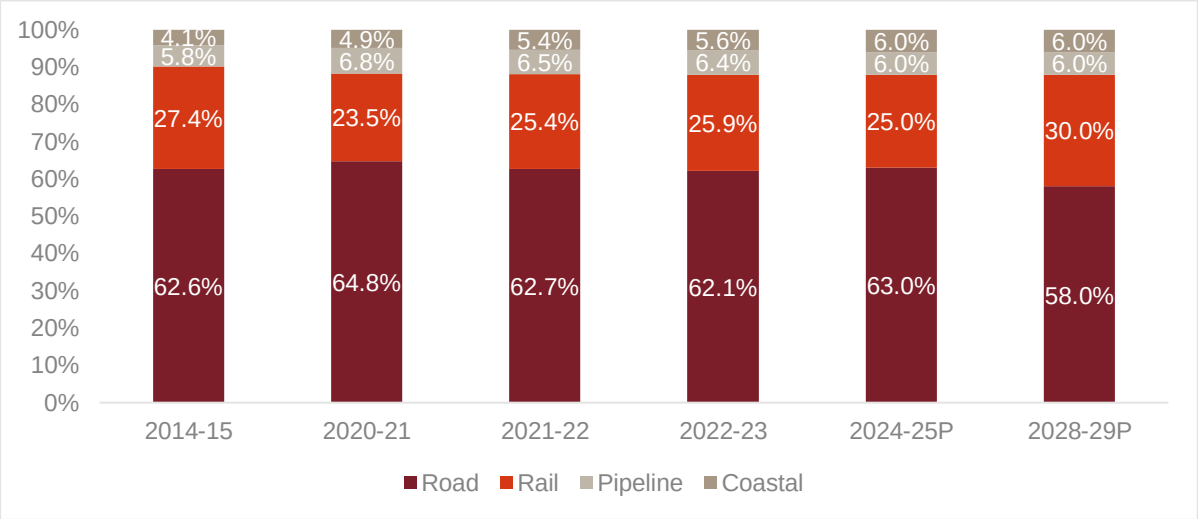
Source: MoRTH PIB-05 Jan 2024, MoRTH Annual Report 2023-24, CRISIL MI&A Consulting

2.3 Indian freight traffic scenario

Road transportation remains dominant, but Railways eye share given Dedicated Freight Corridors and rising road freight rates

Roads are expected to remain dominant in transportation, having grown 5-7% in fiscal 2024. Railways are expected to gain share owing to the Dedicated Freight Corridors (DFCs) and higher road freight rates. DFCs are aimed at decongesting India's railway network. It will help carry freight at higher speed with increased load-carrying capacity, up to 6.2 million TEUs (twenty-foot equivalent unit) in total, reducing operating costs in India for rail freight significantly. Roads are typically preferred for non-bulk, high-value commodities. CRISIL expect growth in road freight traffic to increase at a compounded annual growth rate (CAGR) of 4-6% in BTKM terms between the fiscals 2024 and 2029.

Share of roads in total freight movement (in terms of BTKM)



P: Projected
Source: CRISIL MI&A Consulting

Roads remain the preferred mode for non-bulk transportation

Roads generally account for a significant share in non-bulk commodity transportation, as:

- Railways do not cater to piecemeal freight transportation. Entire rakes are provided for transportation and not just single wagons (although Indian Railways is looking into multi-point loading, it would still not attract small-sized cargo)
- Road transport has better service quality and is more reliable
- Road transporters operate on a much smaller scale. Also, given the large number of road transport operators, customers have better bargaining power. These transporters also add a personal touch to their service, which is important, as these commodities are typically expensive and fragile.

- Roads provide end-to`-end connectivity and safer handling, which is an important factor while transporting low-volume, but high-value commodities

Roads predominantly transfer non-bulk freight (in terms of BTKM)

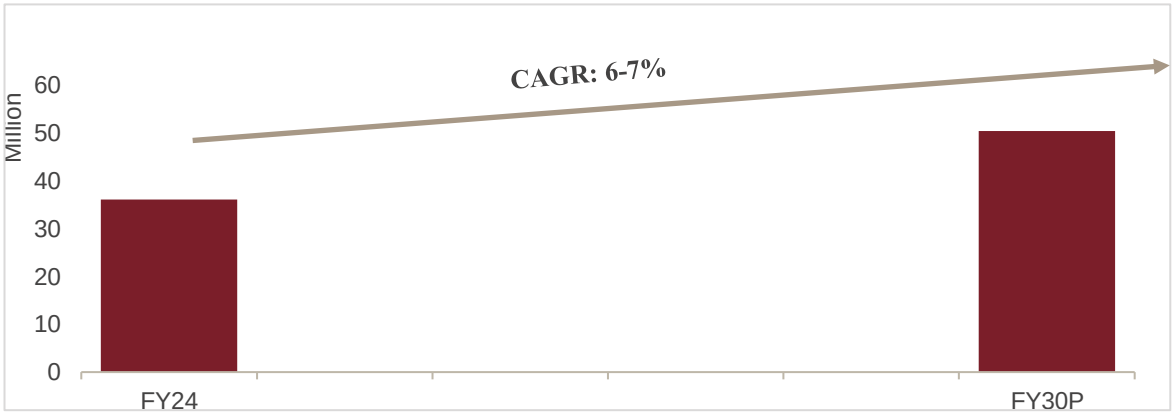
Historical growth of vehicular population

Market for PVs underpenetrated, offers sizeable potential in the long run

India's car market is extremely underpenetrated compared with most developed economies and some developing nations. As of fiscal 2024, India had ~32 passenger vehicles per 1,000 people. This number is expected to increase to 40 by fiscal 2029, which is significantly lower than the developed nations and even Brazil, Russia, and China (which, along with India, form the BRIC block) based on per capita GDP.

Outlook on passenger vehicle population



Note: FY30 is projected year
Source: CRISIL MI&A Consulting

Commercial vehicle market faces volatility: Growth to moderate in current fiscal

Commercial vehicle (CV) sales for fiscal year 2025 are expected to remain flat clocking in at (1)-1%, CVs being a cyclical industry, the downcycle in terms of volumes is playing out while tonnage growth will be healthy on account of a shift to higher tonnage vehicles in MHCVs over the past couple of years. Light Commercial vehicles (LCVs) are expected to grow by 0-1% supported by volume up for replacement, while volumes of Medium and Heavy Commercial Vehicles (MHCV) are estimated to remain at par with that of fiscal 2024 registering a (1)-1% change

on account of the high tonnage sold in MHCVs over the preceding years. Overall commercial vehicles grew by 3.5% on year in first quarter of fiscal 2025 led by growth in MHCV and Buses.

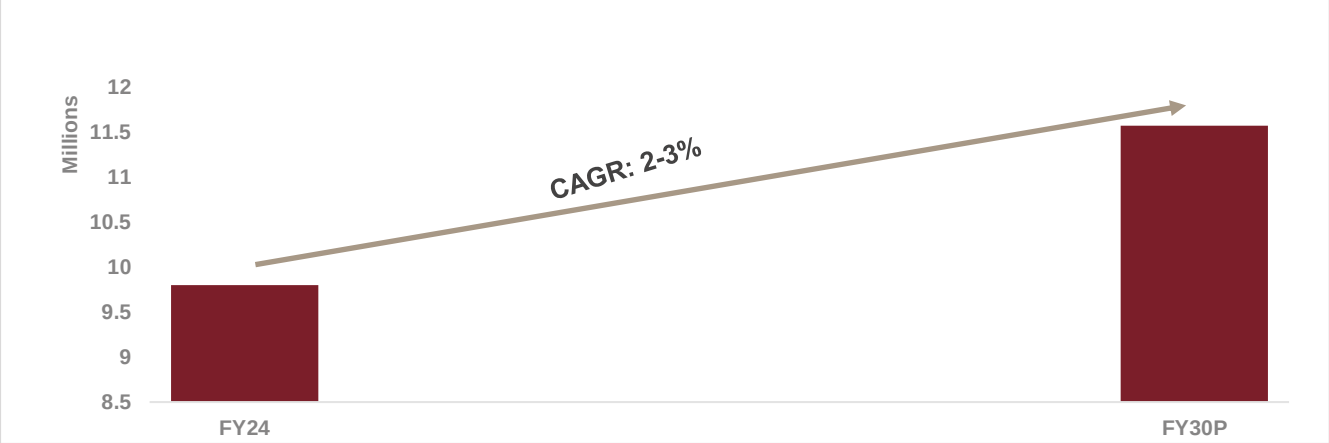
In fiscal 2024, the commercial vehicle (CV) market recorded a modest 1% growth, building on the momentum of the previous year. While light commercial vehicle (LCV) sales dipped by 3% due to reduced fleet utilization, medium and heavy commercial vehicle (MHCV) sales remained flat, driven by higher tonnage demand. The bus segment, however, saw a significant 21% surge, fuelled by robust demand from school and staff transportation services. The industry's growth was further supported by pent-up replacement demand and strong end-user segments, ultimately reaching 98% of pre-pandemic levels.

The CV industry made a remarkable comeback in fiscal 2023, posting a 34% growth rate, albeit from a low base, and reaching 96% of pre-pandemic levels seen in fiscal 2019. This rebound can be attributed to the release of pent-up replacement demand, improved transporter profitability, and a resurgence in capital expenditures, which had been hindered by economic stagnation and pandemic-related disruptions over the preceding 2-3 years.

The MHCV industry is set to witness a projected CAGR of ~1-5% over the five years from fiscals 2024 to 2029. In the last five fiscal years (2019-2024), industry growth declined by 2% annually on account of a number of factors such as the pandemic, axle loading norms (norms stating maximum permissible limit of load carrying capacity of commercial vehicles) and emission norms (norms stating maximum permissible limit of vehicle wise carbon emission). The rise in tonnage addition is expected to be driven by an improved product mix, with a notable surge in demand for multi-axle vehicles (MAV).

Long-term MHCV sales are likely to be propelled by several factors, including the country's improving industrial activity, steady agricultural output, and the government's continued focus on infrastructure development. However, volume growth may be somewhat constrained due to the efficiencies achieved through the implementation of the Goods and Services Tax (GST), the development of better road infrastructure and commissioning of the DFC.

Outlook on growth of freight vehicle population



Note: FY30 is projected year
Source: CRISIL MI&A Consulting

2.4 Key growth drivers and emerging trends for road sector

Policy pushes aimed at improving private participation in National Highways

The following are the recent policy changes that the MoRTH and NHAI have undertaken to improve private participation in the sector and increase competition:

- Technical and financial bidder eligibility criteria reduced for HAM and EPC projects, which would promote the entry of smaller players

- Changes in the hybrid-annuity model (HAM) concession agreement aimed at protecting developers' returns and easing their cash flows during the construction period

- Changes in the Build-Operate-Toll (BOT) concession agreement to reinstate developer interest in the model

Apart from this, the government has taken various steps under the Atmanirbhar package to mitigate the impact of Covid-19 on the sector:

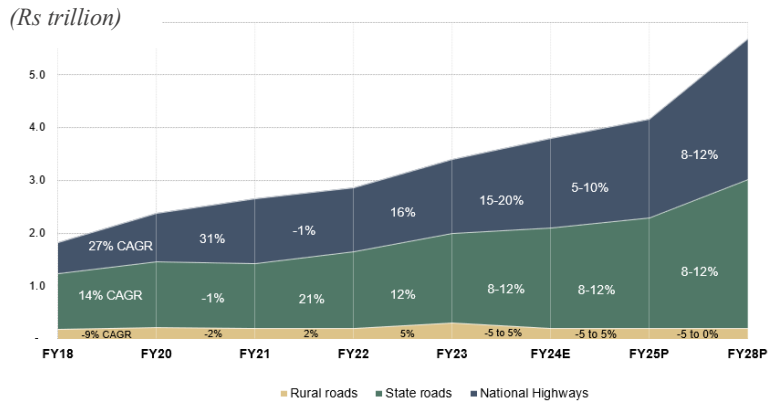
- Extension of time (EOT) of up to 3-6 months for all projects and relaxation of milestone achievement
- Monthly payment mechanism, instead of milestone-based payments
- Reduction in performance security from 5% to 3%, release of retention money to the extent of work done
- Additionally, Covid-19 emergency loan facilities and moratorium on loan repayment up to August 2020
- Extension of concession period for BOT-toll operators, due to toll suspension and restriction in movement during lockdowns

Strong government thrust likely to deliver steady growth in fiscal 2024

Overall road sector capex, comprising of National Highways, State Highways & rural roads is estimated to have grown at a CAGR of 14% between fiscals 2018 & 2023. The NH segment contributes around 40-45% of the overall capex. While the execution remained flattish in fiscal 2023 vis-à-vis fiscal 2022, capex grew by 16% due to a rise in construction of high value projects and high commodity prices. In fiscal 2024, we expect the national highway capex to grow by 15-20% driven primarily by increased execution.

On the low base of fiscal 2021, the state spends grew by 21% in fiscal 2022 and are estimated to have grown further by 10-13% in fiscal 2023 largely in line with the growth in budgetary outlay. In fiscal 2024, state spends are expected to go up further by 8-12% as their percentage achievement of budgetary allocations are expected to be largely in line with historical average.

Momentum to continue, supported by Bharatmala and NIP pipeline



Note: Capex excludes the land-acquisition costs
Source: NHAI, MoRTH, State budget documents, PMGSY, CRISIL MI&A Research

2.5 Key challenges faced by roads sector in India

Issues and challenges for roads sector

Given the share of roads in the overall transport of goods and passenger traffic, it is critical to develop the roads sector. Although the government has been continuously making efforts to give a fillip to the sector, several issues and challenges hamper the pace of development.

2.6 Overview of PPP framework and models in operations

PPP is an arrangement between a government/statutory entity/government-owned entity and a private sector entity for the provision of public assets and/or public services through investments made and/or management undertaken by the private sector entity for a specified period of time. In this arrangement, allocation of risk between the private sector and the public entity is defined well. The private entity receives performance-linked payments that conform with (or are benchmarked to) specified and pre-determined performance standards, measurable by the public entity or its representative.

The types of construction contracts based on price risk are as follows:

Fixed-price contracts: These contracts state the fixed fee or payment (per unit output or whole project) the contractor receives on completion of a contract. The contractor bears the risk of a rise in cost during the construction period. Certain pass-through of higher cost may be allowed in some projects.

Cost-plus contracts: These are contracts in which the contractor is entitled to receive a fixed surplus over the project cost borne. The surplus given to the contractor can be in the form of a fixed percentage over cost or a pre-decided fee over cost. Therefore, any increase in cost of the project, during the construction phase, is passed on to the client.

The types of contracts based on scope of execution are as follows:

Item rate contract

These are fixed-price contracts, where the concerned authority provides the detailed design and the estimated quantity of materials. A project is divided into several sub-activities, for which the item-wise quantity of input material to be used is specified in a document called bill of quantities. Bids are invited for the price of each construction activity based on the items specified. As the aggregate of bid amounts form the total project cost, the lowest bidder wins the project. The bill of quantity document may state the quantity of items such as cement, girders, electric boards, wires, etc, to be used, against which the bids are invited.

Lump-sum turnkey (LSTK) contract

LSTK is a fixed-price contract in which the contractor fixes a lump-sum fee based on the specific project requirements. The client states the project specifications with respect to designs, drawings, technical stipulations, quality of raw material, etc, based on which the contractor provides bids, stating a lump-sum fee for execution.

Design and build contract

In this type of a contract, the authority does a conceptual study of the project to be awarded and specifies the technical output details based on which the specifications of the project are decided. The developer has to undertake the detail designing and execution of these projects. EPC and BOT are design and build models.

A few operational models:

I. BOT-toll/-annuity/-hybrid annuity model (HAM)

II. EPC

III. Toll collection

IV. Operate, maintain and transfer (OMT)

V. Toll, operate and transfer (TOT)

Electronic toll collection (ETC) is a strategic focus area for regulatory and administrative bodies involved in the process of toll collection. It presents several advantages such as limiting toll leakages, reducing the waiting time for vehicles, and improving overall traffic flow at toll plazas. In the future, this may result in significant changes in toll collection operating procedures, followed in all the PPP models.

Types of PPP models

Type of project	Description	Development risk	Financing risk	Traffic risk and accrual of toll fee collection	Net cash outflow for the government	Revenue for private party	Concession period	Award criteria
BOT-toll	Private party builds the road, undertakes O&M and collects toll	Concessionaire	Concessionaire	Concessionaire	Yes (in the form of grant/equity support)	Toll	20-30 years for the NHAI** and other authorities	Highest revenue sharing bid/highest premium/ lowest equity support
BOT-annuity	Private party builds the road, undertakes O&M* and collects annuity from the granting authority	Concessionaire	Concessionaire	Authority	Yes, net payment to be made is the difference between the toll collection and the annuity payable	Annuity payment	15-20 years for the NHAI and other authorities	Lowest annuity
BOT-HAM	Private party builds the road, undertakes O&M. Gets 40% of payment during construction and 60% as annuity along with interest	Concessionaire	Concessionaire	Authority	40% during construction and 60% as semi-annual annuity along with interest, net of toll collected	Construction grant plus annuity payments, interest on annuities, inflation-indexed O&M payments	Around 15 years of operations plus additional construction period	Lowest project cost plus O&M cost
EPC	Private party builds the road, based on the cost incurred by the government	Concessionaire	Authority	Authority	Yes	Contract amount	Not required	Lowest contract price requested
OMT	Private party collects toll, and undertakes O&M and major maintenance	No development risk except minimal risk in case of paved shoulders	Concessionaire	Concessionaire	No	Toll	Up to nine years for NHAI projects	Highest % of toll revenue share or highest premium per year
Tolling	Private party pays the estimated toll upfront to the authority and collects it during the concession period	No development by tolling contractor	Concessionaire	Concessionaire	No	Toll	One year for NHAI projects	Highest revenue-sharing bid
TOT	Private party pays an upfront bid concession fee (summation of NPV of free cash flow based on concessionaire estimates) to the authority, undertakes O&M plus certain capex and collects the toll during concession period	Authority (in case upgradation of lanes is taken up during the concession period)	Concessionaire	Concessionaire	No	Toll	15, 20, 30 years#	Highest upfront payment

Note: Development risk refers to construction risk in developing a road project

2.7 Key budgetary proposals for infrastructure sector

While the overall gross budgetary capex support increased 17% over FY24RE to Rs 11,110,000 million, ther budgetary support for 100 million infrastructure ministries increased only 4% to Rs 5,600,000 million. A large share of the deviation is on account of higher allocation to the Ministry of Finance, under which the Department of Economic Affairs has been allocated Rs 661,970 million for disbursement towards central schemes, the details of which are yet to be announced.

Key announcements

- Rs 7,160,000 million (gross budgetary support + internal and extra budgetary resources) has been provided to 100 million infrastructure ministries towards capital spending, which is consistent with the figure in the interim budget

- The Pradhan Mantri Gram Sadak Yojana (PMGSY)-IV initiative aims to ensure all-weather connectivity for 25,000 rural habitations. Other significant road connectivity projects include the Patna-Purnea and the Buxar-Bhagalpur expressways, extensions to Bodhgaya, Rajgir, Vaishali and Darbhanga, and an additional two-lane bridge over the Ganga at Buxar. A total cost of Rs 260,000 million has been earmarked for these projects

- Irrigation and flood relief assistance will be provided to Bihar, Assam, Uttarakhand, Himachal Pradesh and Sikkim. This includes an allocation of Rs 115,000 million for the Kosi-Mechi project in Bihar and 20 other ongoing irrigation projects

- Transit-oriented development strategies will be devised for 14 major cities with populations exceeding 3 million, incorporating implementation as well as financing frameworks. Additionally, 35 cities will be developed as growth hubs through comprehensive economic and transit planning, along with the development of peri-urban areas

- Reforms in the domestic shipping sector regarding ownership, leasing and flagging are expected to support the players

Note: Core infrastructure ministries constitute road, railways, rural development, urban development, power, new and renewable energy, civil aviation, shipping, water resources, and atomic energy

Impact

- The total capex (gross budgetary support + internal and extra budgetary resources) for 10 core infrastructure ministries has been increased by 4.9% over fiscal 2024RE. The moderate increase in capital allocation to core infrastructure ministries suggests the need for crowding in of private sector investment

- Investment in urban development are expected to increase, particularly in public transport, water supply and sanitation, and waste management projects

- While the construction of national highways has progressed at a robust pace, rural road development has been lagging. However, with the announcement of PMSY-IV, an uptick in rural road execution is likely. Reform in the shipping sector is expected to support the sector; but further clarification and an action plan will be required to gauge the impact

Roads and highways

- The overall gross budgetary outlay for the Ministry of Road Transport and Highways doubled from Rs 1,280,000 million in fiscal 2019 to Rs 2,640,000 million in fiscal 2024RE. Against this backdrop, the growth rate of roads and highways capex for the next fiscal has moderated sharply, only 3% higher vis-à-vis fiscal 2024RE. Similar to the previous fiscal, the entire allocation of Rs 2,720,000 million would be

via gross budgetary support since the internal and extra budgetary resources limit has been completely eliminated to reduce the NHAI's dependence on market borrowings. On the other hand, the asset monetisation target has increased from Rs 100,000 million in fiscal 2024RE to Rs 150,000 million in fiscal 2025BE. To be sure, in 9M fiscal 2024, the NHAI has been able to monetise ~Rs 160,000 million, which bodes well for the divestment target set out for fiscal 2025. This assumes greater significance as roads account for close to 30% of the National Monetisation Plan (NMP) targets and healthy progress in monetisation of road assets is imperative to achieve the same

- The budgetary allocation of Rs 1,680,000 million towards the NHAI for the next fiscal has remained flattish vis-à-vis fiscal 2024RE. The elimination of internal and extra budgetary resources and minimal contribution of cess implies a significantly large portion of the NHAI funding would be met through gross budgetary support

- Furthermore, the NHAI has been aiming to modify the BOT model with fast-tracked clearances to award more projects, since the share of this model has dipped to negligible levels in recent years. Large developers are also likely to be interested in BOT projects amidst dipping profitability in the hybrid annuity model owing to competitive bidding. Notably, if successful, the shift towards BOT could reduce funding burden on the ministry since 100% of the construction cost is borne by the developer in this model

Note: Based on budget document of February 2024

Capital outlay of the Ministry of Road, Transport and Highways

Capital outlay (Rs Billion)	FY16	FY17	FY18	FY19	FY20	FY21	FY22RE	FY23A	FY24BE	FY24RE	FY25BE	Growth FY24RE vs FY23A
Ministry of Road, Transport and Highways	275	412	508	677	684	892	1213	2171	2704	2764	2780	27%

Source: CRISIL MI&A Consulting

PMGSY allocation for this fiscal (budget estimate) is Rs 120,000 million, down ~37% over fiscal 2023A. However, over the past two years, the achievement ratio under the scheme has been low. Therefore, actual expenditure against the allocation remains a monitorable

Real Estate: Key Announcements

Increase in the Pradhan Mantri Awas Yojana (PMAY)-Urban target by 1 crore houses, or ~81%, from the previous target of ~1.2 crore houses with planned allocation of Rs 2.2 lakh crore over the next five fiscals. Increase in the PMAY-Rural target by 2 crore houses, or ~68%, from the previous target of ~3 crore houses. Revision in long-term capital gains tax to 12.5% from 20.0% and removal of indexation benefit on sale of real estate properties, in addition to other taxation-related announcements. Urban and rural land-related reforms and actions to be initiated in collaboration with states

Capital outlay of the Ministry

Sr no.	Parameters	FY23A (Rs crore)	FY24RE (Rs crore)	FY25BE (Rs crore)	Growth in FY25BE over FY24RE
1	Pradhan Mantri Awas Yojana–Urban	28,653	22,103	30,171	36%
2	Pradhan Mantri Awas Yojana–Gramin	44,962	32,000	54,500	70%

2.8 Impact of the 'Make in India' initiative on the roads sector

The 'Make in India' campaign, launched in September 2014, covers 25 major sectors, including roads and highways. The initiatives under the campaign, such as encouraging multinational companies (MNCs) to manufacture products in India, taking steps to improve the ease of doing business, as well as FDI reforms, are expected to benefit the roads sector in terms of increase in traffic movement.

Impact of 'Make in India' on the roads sector

Overview of government initiatives

New tolling policy (2011)

Toll act

The central government is authorised to levy a fee (toll) under Section 7 of the National Highways Act, 1956, for public-funded projects and under Section 8-A of the said Act for private investment projects. The government can levy fees on all sections of national highways (irrespective of four or two lanes), tunnels, bypasses, and bridges with specific cost criteria.

Fee structure

Toll charges are based on rates notified by the government. The fee for use of a section of national highways with four or more lanes for the base year fiscal 2008 shall be the product of the length of such a section multiplied by the rates specified hereunder.

Toll rates for four-lane national highways

Vehicle category	Rs/ km
Car, jeep, van, light motor vehicle	0.65
Light commercial vehicle	1.05
Bus or truck	2.2
3-axle commercial vehicle	2.4
Heavy construction machinery, multi-axle vehicles (MAV) with 4-6 axles	3.45
Oversized vehicles with 7 axles or more	4.2

Source: PIB, CRISIL MI&A Consulting

The rates, which will be revised every year, will be an aggregate of the following rules effective April 1, 2016:

- Increase of 3% without compounding (on base rates of fiscal 2008)
- Compared with the previous year, 40% of the increase in wholesale price index (WPI)

In previous years, the toll rates were fully linked to the WPI, which led to numerous case where WPI would become negative. The current method of toll rates has been beneficial for private players.

Other features of the new tolling policy include the following:

- Uniform rates for public- and private-funded projects
- Fee for a permanent bridge, bypass, or tunnel costing Rs 0.10 billion or more and that of NH length will be calculated separately

In 2013, 2014, 2015, 2019, 2020, and 2022 some amendments were made to the National Highway Fee (determination of rates and collection) Rules 2008, as follows:

- In the case of a four-lane highway being upgraded to a six-lane one, the increase in rate shall be limited to 75% of the fee specified, revised as per the applicable rules calculated on and from the date of commencement of upgrade-related work to the date of completion of the project, according to the agreement entered into with the concessionaire without any annual revision
- In certain cases, fee collection is started when the project is 75% complete, but the fee is applicable only to 75% of the operational length
- No user fee shall be levied on the delayed period between the date of completion as per the agreement entered into with the concessionaire and the date of actual completion of the project. For the purposes of this rule, any provisional completion shall not be treated as completion of the project.
- The tolls rates are calculated on the basis of the road length, excluding bypass (costing more than 100 million) and structures (more than 60 metre). The road length fee is payable at 100% of the applicable rate for four lanes and at 60% for two lanes with paved shoulders
- Bypass (costing more than 100 million) length fee is payable at 150% of the applicable rate for four lanes and at 90% for two lanes with paved shoulders
- Structure (costing more than 100 million) length fee is payable at 100% of the applicable rate for four lanes and at 60% for two lanes with paved shoulders
- Commercial vehicles registered within the district are tolled at 50% discount, and local non-commercial vehicles are issued a monthly pass for a certain amount
- The rate of fee for use of an expressway shall be 1.25 times the rate specified in the applicable rule
- The rate of fee for private investment projects shall be as specified under the applicable rule or as the concessionaire may determine by issuing a public notice to users
- The following method is used to calculate the rate of fee for highways/expressways with standalone structures and structures forming part of linear highways/expressways:

  Length of the structure* (L) X Factor "10" = Length in metres

  ** Structure of 60 metres of length or more*

- To calculate fee for a linear highway/expressway, structures will be considered a part of the normal length of highways/expressways

- In the December 2013 amendments, the NHAI empowered the concessionaire to collect 10 times the applicable fee from overloaded vehicles. The December 2015 amendments allowed the concessionaire to stop vehicles plying on National Highways unless they cleared their dues. Any vehicle loaded in excess of its maximum permissible gross vehicle weight (GVW) is not permitted to use the National Highway or cross the toll plaza until the excess load is removed or a fee of 10 times the applicable amount is paid. Moreover, the concessionaire can detain the vehicle until all dues are cleared.

- On 25th September 2018, MoRTH has modified the overloading norms, and it states that user of vehicle shall be liable to pay fee, for entering the overloaded vehicle on the national highway, to the user fee collecting agency, equal to fees slabs as mentioned below:

Percentage of excess load over Maximum Permissible Gross Vehicular Weight	0 to 20%	>20% to 40%	>40% to 60%	>60% to 80%	>80%
Multiplying factor to base rate of fees	2 times	4 times	6 times	8 times	10 times

- The May 2018 amendment stated that if a vehicle user with a valid, functional FASTag or any such device with sufficient balance in the linked account crossing a fee plaza installed with Electronic Toll Collection infrastructure is not able to pay the user fee through FASTag or any such device because of malfunctioning of Electronic Toll Collection infrastructure, the vehicle user shall be permitted to pass the fee plaza without payment of any user fee

- In the National Highways Fee (Determination of Rates and Collection) Rules, 2008, in rule 11, in clause (e), the word “disability” should be replaced with “DIVYANGJAN”

- The fee payable towards discounts shall be paid through pre-paid instruments, smart card or through FASTag or on-board unit (transponder) or any other such device

- The executing authority or the concessionaire, as the case may be, provide for multiple journeys to cross a toll plaza within the specified period at the rates specified

- The words “may opt for such pass” shall be omitted

- “A person who owns a mechanical vehicle”, the words, “with valid functional FASTag,” shall be inserted

- “A person who owns a commercial vehicle (excluding vehicle plying under National Permit)”, the words “with valid functional FASTag,” shall be inserted.

- User of the vehicle not fitted with “FASTag” or vehicle without valid, functional “FASTag” entering into “FASTag lane” of the Fee plazas shall pay a fee equivalent to two times of the fee applicable to that category of vehicles

- closed user fee collection system means a system under which the fee is levied based on the actual distance travelled by a mechanical vehicle, on a national highway or expressway

- the executing authority or the concessionaire may establish fee plaza on the national highway or expressway on which the closed user fee collection system has been installed

- Provided further that no such concession shall be provided for commuting on a national highway or expressway on which fees is levied based on the closed user fee collection system.

Financial incentives for road developers

- Under section 80 IA of the Income Tax Act, profits and gains derived by an undertaking are subject to 100% deduction for 10 consecutive assessment years out of 20, beginning from the year in which the

undertaking begins to operate the business, provided such profits and gains are derived from the business of: 1) developing, 2) operating and maintaining, or 3) developing, operating, and maintaining a road, including tolls and bridges, a highway project including housing or other activities being an integral part of the highway project. These criteria shall not apply to any enterprise that starts development or operations and maintenance of the infrastructure facility on or after April 1, 2017, as that enterprise shall be eligible for 100% deduction of capital expenditure under section 35AD

- Import duty has been completely exempted for public-funded needs on certain identified high-quality construction plants and equipment
- Import of bitumen is now permitted under the Open General Licence
- External commercial borrowings are permitted up to 35% of the project cost

2.9 Overview of investments in road platforms

Investments by private sector to grow 3x over the next five years

CRISIL MI&A expects private construction investments in national highways to increase 2x to Rs 2.7 trillion over fiscals 2024 to 2028 compared with the previous five years. This is expected to be mainly through the hybrid annuity model (HAM) mode, as the build-operate-transfer (BOT) toll mode may have only a few takers.

A policy push in the form of changes in Model Concession Agreements (MCA) for HAM and BOT projects and reduction in bid eligibility criteria across all national highway projects would bode well for private participation. However, the share of HAM in total awarding is constrained by the cautious approach employed by banks in lending to HAM projects.

Amidst the COVID-19 pandemic, NHAI and the ministry have taken various steps under the Atmanirbhar package to ease issues faced by developers. Releasing monthly payments, instead of milestone-based payments; extension of timelines for completion of projects, etc have sustained private participation in the sector. While these have been extended till Oct 2020, they are likely to fade from next fiscal onwards.

Asset monetisation, equity infusion key to support private investment in the long run

Currently, there are two broad drivers of asset sales in the roads sector - rationalisation of financial position to improve balance sheet strength and asset churning to be able to participate in the upcoming projects. The erstwhile major BOT players are selling off assets to reduce their debt burden and free up equity, which can be infused in under-execution projects.

The players present in HAM are currently selling off HAM assets to participate further in upcoming HAM projects. Some players intend to sell off under-construction projects to financial investors with projects being executed by the same player. Thus, they are able to convert HAM projects to EPC without facing the cut-throat competition they deal with currently in the EPC mode. This will help them retain margins.

About Rs 700-800 billion has already been invested through these models. CRISIL's analysis of BOT and HAM projects indicates a potential of ~Rs 2.0-2.5 trillion in terms of enterprise value.

Asset monetisation has a lot of potential to free up developers' balance sheets

3. Overview of Infrastructure Investment Trusts (InvITs) for roads in India

3.1 Overview of InvITs currently listed in India

InvITs to deleverage balance sheets and enable capital recycling

Infrastructure investment trusts (InVITs) will help free up capital of players by divesting stake in operational assets and help recycle this capital to deleverage balance sheets for creating new assets.

Details of InVITs currently registered in India:

Name	Sponsor	Date of registration	Assets
IRB InviT Fund	IRB	Mar-2016	5 toll road assets & 1 HAM asset
Indinfravit Trust	L&T IDPL	Mar-2018	19 BOT-toll, 4 BOT annuity assets
Oriental Infratrust	Oriental Group	Mar-2019	4 toll & 1 annuity asset
IRB Infrastructure Trust (IRB InVIT II)	IRB Infrastructure Trust (IRB InVIT II)	Nov-2019	10 operational toll projects, 1 under construction project & 1 proposed under construction project

Name	Sponsor	Date of registration	Assets
Bharat Highways InvIT	G R Infraprojects Limited	Aug-2022	7 HAM assets
Cube Highways Trust	Cube Highways Group	July-2022	17 toll and 1 annuity asset
Highways Infrastructure Trust	Galaxy Investments II Pte. Ltd	Mar-2022	5 BOT Toll, 2 Annuity Assets and 3 HAM assets (in process of acquiring 3 other assets)
Indian Highway Concessions Trust	Maple Highways Pte Ltd	Feb-2020	2 toll assets
National Highways Infra Trust	National Highway Authority of India	Oct-2020	5 BOT Annuity, 3 TOT Toll
Shrem Invit	Shrem Infra Structure Private Limited	Feb-2021	15 NHAI & 1 MoRTH HAM Assets, 2 NHAI toll assets, 10 State (Toll+Annuity) assets and 6 State Annuity
NXT- Infra Trust	Actis-Highway Infra Limited	Jan-2024	1 toll asset
Roadstar Infra Investment Trust	IL&FS Transportation Networks Ltd	Apr-2024	6 Assets (4 BOT (toll) and 2 Annuity)

Note: Details pertaining to Roadstar Infra Investment Trust is shared by company in November 2024

SUMMARY OF BUSINESS

Overview

Unit Distribution and Trust Formation Overview

The Union of India, acting through the Ministry of Corporate Affairs, had filed a company petition under sections 241 and 242 of the Companies Act, 2013 against the IL&FS Group before the NCLT on the grounds of, *inter alia*, that the affairs of the IL&FS Group were being conducted in a manner prejudicial to public interest. Subsequently, the NCLT directed suspension of the then existing board of directors of IL&FS and constitution of a new board of directors of IL&FS comprising the nominees of the Ministry of Corporate Affairs (the "**New Board**"). The New Board, undertaking steps for designing and implementing a fair and orderly resolution of the outstanding debt of the entire IL&FS Group, and for the purposes of resolution of certain portion of the debt of ITNL proposed the setting up of an infrastructure investment trust.

Consequently, Roadstar Infra Investment Trust as sponsored by Roadstar Infra Private Limited, was established with the objective of owning, operating and investing in infrastructure projects in India, directly or indirectly, and is registered under the InvIT Regulations.

The Trust has acquired each of the Project SPVs. Please refer to the section "*Formation Transactions in relation to the Trust*" on page 26 for more information in relation to the shareholding of the Trust in the Project SPVs. The proposed Unit Distribution will be in accordance with (i) the Resolution Framework as approved by the NCLAT vide its order dated March 12, 2020 and/or any other appropriate judicial authority and in terms of the interim distribution as approved by the NCLAT vide its order dated May 31, 2022 and (ii) a distribution plan setting out the details and manner of distribution of, among other assets, the Units issued by the Trust as may be approved by the board of directors of IL&FS.

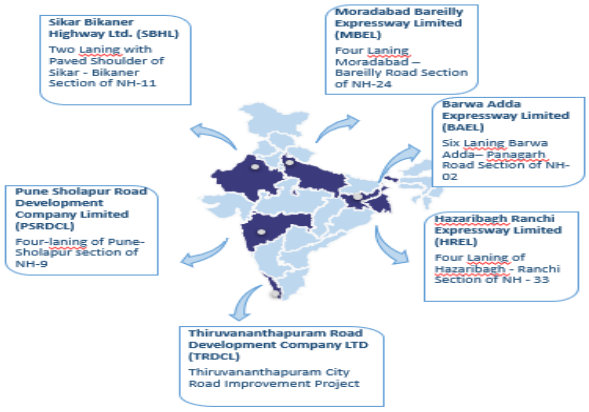
For more details in relation to the Resolution Framework and the holding of the Trust in the Project SPVs, please refer to sections "*Unit Distribution Background*" and "*Formation Transactions in relation to the Trust"* on pages 389 and 26, respectively.

Business Overview

The Trust is established with the objective of owning, operating and investing in infrastructure projects in India, directly or indirectly, and is registered under the InvIT Regulations. The Trust, through its Project SPVs together operates 6 road assets, aggregating to 685.16 kms, located across 6 states in India.

The Project SPVs had a weighted average residual concession life (weighted on the basis of residual life-time pre-MM EBITDA) of 13.54 years as on March 31, 2024 and a weighted average operating history (weighted on the basis of Fiscal 2024 estimated pre-MM EBITDA, assuming COD and appointed date as the beginning date for BOT/DBFOT assets) of 9.19 years as on March 31, 2024.

The map below sets forth the location of our projects in the Project SPVs:



The tables below set forth an overview of the Project SPVs:

S. No.	Relevant Project SPV	Project length and number of lanes	State(s)	Residual Life (in years, as of September 30, 2024)	Model	Actual Revenue from Toll Fee / Annuities in FY 2024 (in ₹ million)
1.	Hazaribagh Ranchi Expressway Limited	73.50 kms 4 lanes	Jharkhand	3.82 years	Annuity	702.02
2.	Moradabad Bareilly Expressway Limited*	121.00 kms 4 lanes	Uttar Pradesh	11.17 years	Toll	3,390.09
3.	Pune Sholapur Road Development Company Limited*	102.08 kms 4 lanes	Maharashtra	6.79 years	Toll	2,165.67
4.	Sikar Bikaner Highway Limited*	237.58 kms 2/4 lanes	Rajasthan	13.38 years	Toll	826.02
5.	Thiruvananthapuram Road Development Company Limited**	28.12 kms (excluding phase I**) 2/3/4/6 lanes	Kerala	Phase II- 2.39 years Phase III- 5.39 years Phase IV- 6.67 years	Annuity	143.95
6.	Barwa Adda Expressway Limited*	122.88 kms 6 lanes	Jharkhand/West Bengal	9.49 years	Toll	2,636.47
Total		**685.16**				**9,864.22**

Notes:
** Extendable based on target traffic as per provisions contained in the respective Concession Agreement*
*** Phase I concession period ended in July, 2022*

.

In addition to the Project SPVs, the Trust through the Investment Manager may also have the ability to acquire new projects. For further details, please see the sections "*Corporate Governance*" and "*Related Party Transactions*" on pages 138 and 325, respectively. The Investment Manager is responsible for managing the Trust and the Project SPVs, as well as undertaking investment decisions relating to us and our assets. The Investment Manager meets the experience criteria as required under the SEBI InvIT Regulations. As required under the InvIT Regulations, the experience of the Investment Manager in fund management or advisory services or development in the infrastructure sector is above 5 years. Further, the Investment Manager is responsible for defining our strategic direction, including in relation to our future acquisitions, divestments or enhancement of assets. For further details, please see "*Parties to the Trust – The Investment Manager – Roadstar Investment Managers Limited*" – on page 114.

The Trustee, Axis Trustee Services Limited, is a trusteeship company registered with SEBI as a debenture trustee under the Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, as amended. On behalf of our Unitholders, the Trustee is responsible for (a) ensuring that our business objectives and investment policies comply with the provisions of the InvIT Regulations and other applicable law, and (b) monitoring the activities of the Investment Manager (in terms of the Investment Management Agreement) and the Project Manager (in terms of the Project Implementation and Management Agreement). For further details, please see "*Parties to the Trust – The Trustee – Axis Trustee Services Limited*" on page 101.

The Project Manager, Elsamex Maintenance Services Limited, is responsible for the operations and management of the Trust and ensuring compliance with the respective concession agreements and project documents, making arrangements for appropriate maintenance, oversee the progress of development, status of approvals and other aspects of the projects of the SPVs. The Project Manager has been appointed as per the terms of the Project Implementation and Management Agreement. In addition, the Project Manager has entered into operations and maintenance agreements with the respective SPVs for providing operations and management for the SPVs. Neither the Project Manager nor any of the promoters or directors of the Project Manager (i) is debarred from accessing the securities market by SEBI; (ii) are or have been a promoter, director or person in control of any other company or a sponsor, investment manager or trustee of any other

infrastructure investment trust or an infrastructure investment trust which is debarred from accessing the capital market under any order or direction made by SEBI; and/ or (iii) are or have been declared a wilful defaulter by any bank or financial institution or consortium thereof in accordance with the guidelines on wilful defaulters published by the RBI. For further details, please see "*Parties to the Trust – The Project Manager – Elsamex Maintenance Services Limited*" – on page 129.

Each financial year, we intend to distribute a minimum of 90.00% of the net distributable cash flows of the Trust available for distribution to our Unitholders. For further details, please see, "*Distribution*" on page 288.

Our revenue from operations for the six month period ended September 30, 2024, Fiscal 2024 Fiscal 2023, and Fiscal 2022 were ₹5,492.72 million, ₹11,658.14 million, ₹9,940.48 million, and ₹7,631.12 million, respectively. Our profit / (loss) after tax for the six month period ended September 30, 2024, Fiscals 2024, 2023, and 2022 were (₹ 6,858.39 million), (₹108.73 million), (₹1,131.52 million), and ₹995.87 million respectively.

For details of credit ratings obtained by the Trust, please see "*General Information – Credit rating"* on page 100.

Our Strengths

The Investment Manager believes the following to be the key strengths of the Trust:

Large and Diversified Portfolio of Highway Assets

The Trust owns a sizeable initial portfolio consisting of the six Project SPVs. These assets represent a scaled and diversified portfolio, as the Project SPVs consist of 6 highway assets having an aggregate length of 685.16 kms, located across 6 states in India.

Each of the Project SPVs has entered into a long-term concession agreement with either NHAI or a state authority with tenures ranging between 17.50 and 25 years. As of September 30, 2024, the Project SPVs had a weighted average residual concession life (weighted on the basis of residual life-time pre-MM EBITDA) of approximately 13.54 years.

Our assets are operated under different types of concessions, and for the six month period ended September 30, 2024 and the fiscal years ending March 31, 2024, March 31, 2023, and March 31, 2022, revenue from toll assets represented 83.22%, 77.36%, 85.23%, and 90.36% of our combined revenue and 96.51%, 95.49%, 93.91%, and 91.50% of the combined EBITDA, while revenue from annuity assets represented 3.99%, 6.02%, 7.94%, and 9.64% of our combined revenue and 3.49%, 4.51%, 6.09%, and 8.50% of the combined EBITDA, respectively.

Sizeable portfolio of mature and revenue generating assets

As of September 30, 2024, the Project SPVs had a weighted average operating history (weighted on the basis of Fiscal 2024 estimated pre-MM EBITDA, assuming COD and appointed date as the beginning date for BOT/DBFOT assets) of 9.19 years.

4 out of 6 Project SPVs are Toll Assets with an average operational life of 18.94 years. The toll assets contribute 96.51% of the combined EBITDA and has grown at CAGR of 13.13% over the last three years and at a CAGR of 9.26% over the last 5 years.

Skilled and experienced management team

The Investment Manager is led by a management team with vast experience in the road sector. The Investment Manager's management team consists of experienced personnel in the top management and key strategic positions having over 10-15 years' experience in operations of road projects, fund raising and fund management, finance and accounting, and regulatory compliance. In addition, the board of directors of the Investment Manager comprises of professionals having experience of serving in senior management roles, large multinational banks, regulatory bodies, and government institutions.

The vast experience of the management team of the Investment Manager shall enable the Investment Manager to employ a business strategy appropriate for the Trust, and assist the Investment Manager in areas of governance, engineering and operations.

In house operation and maintenance teams having rich and hands on experience with a consistent track record of managing some of the marquee projects in the infrastructure space.

The Investment Manager and the Project Manager have adequate experience in road engineering, design, construction, operation & maintenance of road and highway projects. The Project Manager is currently maintaining a road portfolio of 17 assets encompassing 1,167 kms (4,813 lane kms). The Project Manager is collecting toll on behalf of respective authorities by deputing suitable manpower in 22 toll plazas comprising a cumulative of 210 toll lanes. Further, the Project Manager has in-house expertise on Electronic Toll Collection System (ETC), highway traffic management systems and integrated tunnel control systems and is currently operating 25 toll plazas with 200 toll lanes, highway traffic management systems at 3 road projects with a total length of 296 kms and integrated tunnel control system at one tunnel project of 9 kms.

The current portfolio of projects in the Trust are part of the portfolio of assets developed by ITNL. ITNL has a strong presence in the road infrastructure sector and credited with having developed some marquee projects like the longest road tunnel project in India, first city roads projects under PPP in the state of Kerala and having developed the metro projects in Gurgaon under PPP.

Promising sector with strong fundamentals and supportive government policies.

As per the CRISIL Report, the roads sector in India registered a strong pace of constructions by NHAI, growing 6,003 km (16.4 km per day) in fiscal 2023 from 3,071 km (8.4 km per day) in fiscal 2018. The investments in the roads and highways sector rose from ₹1.7 trillion in Fiscal 2018 to ₹2.9 trillion in Fiscal 2022, registering a 1.7 times growth. Additionally, India's passenger traffic logged at a CAGR of about 8.00% from around 165.00 million in Fiscal 2017 to around 209.00 million in Fiscal 2020. In addition to the rapid growth in the road sector, the Government of India has initiated various policies and programmes for the enhancement of the road sector in India.

The Trust operates in the road sector which we believe is a strategically important sector for the Indian Government in its focus for the development of infrastructure in the country. As evidenced in the recent past, the Indian Government has undertaken various initiatives in the road sector including the construction and development of various large expressway projects, which we believe shall provide growth opportunities to the Trust in future.

Transfer of assets into the Trust pursuant to NCLT orders in line with Resolution Framework for the IL&FS Group, by NCLAT in March 2020.

The transfer of Project SPVs to the Trust is a part of the resolution efforts undertaken by the New Board of IL&FS under the Resolution Framework approved by the NCLAT. The Project SPVs were transferred to the Trust pursuant to NCLT Order which provides a title which is free and clear from all encumbrances, liens, security interest and third party claims (including any statutory or tax claims).

Pursuant to a share purchase agreement dated October 11, 2024, the Trust has acquired 243,500,000 Equity Shares representing 100.00% of equity stake of BAEL from IL&FS Transportation Networks Limited. In addition, pursuant to a deed of assignment dated October 11, 2024 and a resolution passed by the IM Board on October 14, 2024, IL&FS Group lenders of BAEL, namely, Infrastructure Leasing & Financial Services Limited, IL&FS Financial Services Limited, Elsamex Maintenance Services Limited and IL&FS Transportation Networks Limited have assigned their receivables (including resolution process cost) in BAEL to the Trust being discharged by way of issue of Units aggregating to ₹ 6,768,570,500 and balance sum in cash.

For further details on the market opportunity for the road infrastructure industry in India, please see the section "*Industry Overview*" on page 153.

Business Strategies

The Investment Manager believes the following to be the key strategies of the Trust:

Active asset management to drive organic growth

The Investment Manager will employ an active asset management strategy in the existing assets to drive growth of the portfolio. In particular, the Investment Manager will seek to maintain or improve the Project SPVs net incomes and free cash flows by, among other initiatives, minimizing revenue leakages, formulating and adopting policies and procedures and structuring investments to address regulatory considerations. The Project Manager will continue to assist the Investment Manager by carrying out the operations, management and maintenance of the projects in accordance with the relevant concession agreement and the Project Implementation and Management Agreements and by procuring, operating and maintaining the relevant project's toll management systems, improving the effectiveness of routine and major maintenance activities and instituting controls on administrative expenditures and overheads.

Calibrated expansion of the portfolio

The Investment Manager also intends to expand the portfolio of the Trust by acquiring further assets that adhere to certain asset selection criteria, which includes access to important locations in the vicinity, connecting roads, industrial and manufacturing hubs, connectivity with raw materials, ports, and also evaluating competing modes of transportation.

The Investment Manager intends to expand the portfolio without compromising on the operation and management of the existing Project SPVs while providing attractive cash flows and yields, and opportunities for future income and capital appreciation for our Unitholders.

Implementing prudent capital management policies

The Investment Manager intends to institute and implement a capital management strategy that is consistent with its objective of maximizing distributions to our Unitholders while also generating consistent total returns. To achieve these objectives, the Investment Manager will aim to ensure an efficient cost of capital and an optimal capital structure of the Trust and the Project SPVs to maximize cash distribution to Unitholders while also retaining adequate flexibility to acquire assets in the future.

Pursuant to the Unit Distribution, the Trust's total consolidated borrowings are expected to be less than 49.00% of the total value of the Trust's consolidated assets, in compliance with the InvIT Regulations.

RISK FACTORS

Eligible Creditors should pay particular attention to the fact that the Trust, the Parties to the Trust, each Project SPV and each of their activities are governed by the legal, regulatory and business environment in India, which differs from that which prevails in other countries. Eligible Creditors should carefully consider the risks and uncertainties described below and the information contained elsewhere in, this Placement Memorandum and the Final Placement Memorandum. Each Eligible Creditor must rely on its own examination of the Trust and the terms of the Unit Distribution. The risks and uncertainties described in this section may not be the only risks and uncertainties the Trust currently faces. Additional risks and uncertainties not presently known to the Trustee or the Investment Manager, or that the Trustee or the Investment Manager currently deem immaterial, may arise or may adversely affect our business, financial condition, cash flows and results of operations. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business prospects, results of operations, cash flows and financial condition could suffer, the price of the Units could decline to nil.

The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section.

Eligible Creditors should be aware that the income from the Units, may be subject to volatility. If any of the risks described below occurs, our business and prospects could be materially and adversely affected, the trading price of the Units could decrease to nil. This section should be read in conjunction with the sections entitled "Our Business" and "Discussion and Analysis by the Directors of the Investment Manager of Financial Condition and Results of Operations and Cash Flows of the Project SPVs of the Trust" on pages 207 and 293, respectively, as well as the financial statements and other financial information included elsewhere in this Placement Memorandum.

This Placement Memorandum also contains forward-looking statements (including Projections of Revenue from Operations and Cash Flow from Operating Activities) that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in such forward-looking statements as a result of certain factors including the considerations described below and elsewhere in this Placement Memorandum, including the section "Forward-Looking Statements" on page 17.

Eligible Creditors must rely upon their own examination and the terms of the Unit Distribution, including the merits and the risks involved. Eligible Creditors should consult their tax, financial and legal advisors about the particular consequences of holding Units pursuant to Unit Distribution.

In this section, unless specified otherwise, a reference to "we", "us" and "our" refers to the Trust and each Project SPV on a combined basis. Furthermore, unless the context otherwise requires, the financial information used in this section is derived from the Audited Special Purpose Combined Financial Statements.

Risks Related to Our Business and the Concession Agreements

1. ***Toll collections and toll road traffic volumes may be affected by competing roads and bridges and other modes of transportation, and any improvements to, or construction of, such roads, bridges and other modes of transportation.***

   For the toll-based Project SPVs, their principal source of revenue is the collection of toll fees from users of the toll roads. The level of toll collections may be affected by competing routes and alternative modes of transportation, such as adjacent free roads, new or existing toll roads, railways or air transport. Furthermore, neither the NHAI nor the GoI is restricted under the Concession Agreements from constructing alternative modes of travel which service the same areas as are serviced by the toll roads. In the event such alternative modes of travel are constructed, it may adversely impact our revenue from toll roads.

   Additionally, given the renewed focus of the GoI, at the national, state and local levels, on the construction and development of new expressways and development and strengthening of the highway network across India, there can be no assurance that there will not be any construction, widening or improvement of any free or toll roads, or construction of other modes of transportation including local routes by local authorities/ communities, in the proximity of the toll roads or which provide an alternative or more direct routing to

locations served by the toll roads. Any such construction, widening or improvement may divert traffic away from the toll roads, which may adversely affect toll collections and, therefore, our ability to make distributions to the Unitholders.

2. Toll rates and collections and toll road traffic volumes are subject to regulatory constraints, number of road users subject to such rates and dependent on factors beyond our control.

Toll revenue depends on the tolling rates set by the concessioning authority in accordance with the concession agreement and the actual traffic volume using our roads. Usually, the concessioning authority sets the applicable tolling rates and mechanism for periodically resetting the tolling rates, in accordance with applicable MoRTH guidelines. Such tolling rates, based on the National Highways Fee Rules, 2008, were increased without compounding, by 3% each year with effect from April 1, 2008, and such increased rate was deemed to be the base rate for subsequent years. Further, the applicable base rates were revised annually with effect from April 1 each year to reflect the variation in WPI between the week ending January 6, 2007 and the WPI for the month of December of the year in which such revision is undertaken but such revision was restricted to 40% of the change in WPI. We may not be able to increase tolling rates to cover increases in our operations or financing or other costs. Such tolling rates and the scope of our arrangements with the concessioning authority may be revised by the concessioning authority in accordance with the provision of the concession agreement and applicable law. Thus, revenue from toll receipts is affected by traffic volume and toll rates, both of which are beyond our control.

Our toll collections may also be affected by the level of exemptions, i.e., some categories of road users not required to pay the applicable toll rates when using the toll roads, which may be higher in urban settings. We are also subject to fluctuations of traffic flow at new toll plazas that may not stabilize within the timelines anticipated or at all.

Traffic volumes on the toll roads and toll collections are directly and indirectly affected by a number of other factors beyond our control, including but not limited to:

- the decline in manufacturing or exports of commodities plying on the toll roads due to regulatory restrictions or other reasons including financial crises and war, which can potentially distort global prices of traded commodities;
- the number and type of motor vehicles in operation and the cost of purchasing and operating motor vehicles, including financing costs, environmental law compliance costs, exchange rate fluctuations and fuel prices, in the project influence areas of the toll roads;
- weather conditions, such as floods or torrential rain, acts of god, strikes or any other force majeure event, including epidemics, that could impair the safe operation of, restrict traffic access to, or prevent use of the toll roads. Further, any political/ non-political agitations may also significantly impact traffic movement on the roll roads;
- traffic on the roads providing access to and from the toll roads including the waiting time at toll plazas and congestion at the gateways, or the physical condition of such roads, which hampers the ability of road users to gain access to and from the toll roads;
- the capacity of the toll roads including any structure forming part of the toll roads, such as bridges, bypasses or tunnels, and the need for maintenance and repair of parts or all of the toll roads, or any structure forming part of the toll roads, which may result in restricted or no access to the toll roads for material periods of time;
- overall security of the toll roads as managed by the relevant security contractors, including the possible threat of terrorist attacks on the toll roads or any of their free-standing structures;
- a change in the applicable toll policies or other applicable laws (including environmental regulations) which affects any category of vehicle or fuel;
- development of other transportation modes and incentives associated with such modes such as the national rail plan that is expected to increase rail's modal share traffic which may adversely impact the modal share for road-freight;
- changes in consumption pattern of commodities transported on the toll roads;
- changes to axle load norms in order to further increase the permissible axle load limits in India, which may adversely impact traffic growth along Indian national and state highways and cause accelerated deterioration of the condition of the pavement of the toll roads;
- the reactions of the public or other national or state government institutions to toll rate increases;

- diversion of all or a certain class of traffic by the district or state administration for safety of pedestrians during local gatherings due to religious festivals or other form of public gatherings;
- leakage of toll fees or any form of violation by users of the toll roads;
- rise in fuel prices; reduction in commercial or industrial activities in the regions through which the roads being operated by the Project SPVs passes;
- seasonal fluctuations, specifically during the monsoon season, may adversely affect traffic volumes and cash flow. Traffic volumes tend to decrease during the monsoon season and tend to increase during holiday season. The monsoon season may also restrict our ability to carry on activities related to our operations and maintenance of the roads. This may result in delays in periodic maintenance and reduce productivity, thereby materially and adversely affecting our business, financial condition and results of operations; and
- any government policy or scheme which can have an effect on the economy of the states through which the roads being operated by the Project SPVs passes.

In the event there is a significant change in traffic volume or change in toll rates on the toll roads, there may be a corresponding decrease in toll collections which could have a material adverse effect on our ability to make distributions to the Unitholders.

3. Leakage of the toll fees of any of the toll-based Project SPV's roads may materially and adversely affect our revenues and financial condition.

Each of the toll-based Project SPV's toll receipts are primarily dependent on the integrity of toll-collection systems and the willingness of road users to pay toll fees. While each toll-based Project SPV has an integrated toll-collection system in place, the level of revenues derived from collection of tolls may be reduced by leakage through toll evasion, theft, fraud or technical defaults in the relevant Project SPV's toll systems or forced violations by users of the toll roads. Furthermore, any toll-based Project SPV may also, at times, be unable to collect tolls due to political protests or other agitations, including relating to tolling. In addition, in certain circumstances, the governmental authorities or Indian courts could seek to suspend toll collection for or during certain periods, in full or in part, on the toll roads, which suspension would result in a reduction in our revenues. For instance, during 2020-2021 toll collection was suspended on the tolls operated by SBHL due to farmer protests. SBHL has sought relief pursuant to the MoRTH circular for relief measures for farmers protest dated July 2, 2021 by way of letters dated January 13, 2021 December 10, 2021 February 27, 2023, April 26, 2024 and August 14, 2024, and January 14, 2023 written to Independent Engineer, PWD, Rajasthan.

Furthermore, toll-collection errors may amount to a loss of revenue as there is an inherent risk of under-collection of toll fees, especially in instances where the users of toll roads pay in cash. Additionally, since most of the toll collections at the toll roads operated by certain Project SPVs are through FAStag, there are risks associated with certain transactions which are rejected due to blacklisted FASTag registrations, software errors, duplicate readings etc. Any failure by us to monitor and control leakage in toll-collection systems could have a material adverse effect on our business, prospects, financial condition and results of operations and our ability to make distributions. We may be exposed to leakage even in non-cash based toll collection systems, such as software or digitally enabled toll payment options that are susceptible to cyber security breaches and theft.

Further, there have been occasions where political parties and local communities protest against the collection of tolls on roads and some of these occasions have turned violent and resulted in the destruction of toll collection booths. During such an event, the affected toll-based Project SPVs could have a limited ability to collect tolls.

4. We have relied on data derived from (i) Technical Consultant Reports commissioned from the Technical Consultants, (ii) Traffic Reports commissioned from the Traffic Consultants and (iii) the CRISIL Report, which are based on certain estimates and assumptions and are subject to the limitations set out therein.

We have appointed Translink Infrastructure Consultants Private. Limited, GMD Engineering Consultants Private Limited, HBS Infra Engineers India Private Limited, LSI Engineering & Consultants Limited and Transys Consulting Private Limited, independent third-party technical engineering firms, as our technical consultants (the "**Technical Consultants**") to forecast the operations and maintenance expenses for each Project SPV and to prepare technical reports on the Project SPVs, which are set out in Annexure C to this Placement Memorandum (the "**Technical Reports**"). We have also appointed Segmental Consulting & Infrastructure Advisory Private Limited, GMD Engineering Consultants Private Limited and HBS Infra Engineers India Private Limited as our traffic consultants ("**Traffic Consultants**") to provide their analysis

and forecast of traffic volumes for MBEL, SBHL, PSRDCL and BAEL which are set out in Annexure B to this Placement Memorandum (the "**Traffic Reports**"). Please also see "*Our Business - Projected Revenue for Toll SPVs*" on page 216. Furthermore, we have also included data from a report titled "Assessment of the roads sector in India" dated November 2024, prepared by CRISIL. ("**CRISIL Report**").

The Technical Consultant Reports, the Traffic Reports and the CRISIL Report (together referred to as "**Third Party Reports**") are subject to various limitations and are based upon certain bases, estimates and assumptions that are subjective in nature and are based, in part, on information provided by and discussions with or on behalf of us, the Sponsor and the Investment Manager. The Third Party Reports reflect current expectations and views regarding future events, and therefore, necessarily involve known and unknown risks and uncertainties. The Third Party Reports contain forecasts, projections and other "forward-looking" statements that relate to future events, which are, by their nature, subject to significant risks and uncertainties, including population growth, gross domestic product growth, vehicle ownership rates, per capita income, agricultural output, technological advancements and fuel consumption. The future events referred to in the Third Party Reports involve risks, uncertainties and other factors which may cause the actual traffic volumes to be materially different from any future traffic volumes expressed or implied by the Third Party Reports. There can be no assurance that the bases, estimates and assumptions adopted by the Technical Consultant, Traffic Consultant or CRISIL Report Provider for the purposes of preparing their respective reports will prove to be accurate. If any of these bases, traffic assumptions is incorrect, future traffic volumes for the Project SPVs could be materially different from those that are set forth in these reports and this Placement Memorandum. The Third Party Reports are not a recommendation to invest or disinvest in the Project SPVs. Eligible Creditors are advised not to unduly rely on the Third Party Reports.

5. ***Certain provisions of the standard form of Concession Agreements may be untested, and the Concession Agreements may contain certain restrictive terms and conditions which may be subject to varying interpretations.***

Our concession agreements were entered into with the concessioning authorities and we have limited ability to negotiate the terms of these contracts. The Concession Agreements that our Project SPVs (excluding TRDCL) have entered into are substantially based on a model concession agreement prescribed by NHAI or the relevant state authority. For example, the toll fees under the Concession Agreements is fixed, subject to annual adjustments to account for inflation as specified in the Concession Agreements. In addition, the operation and maintenance standards and specifications require each Project SPV to incur operation and maintenance costs on a regular and periodic basis. The Concession Agreements also provide for a fixed term concession and, although the Concession Agreements provide for an extension or reduction of the concession period based on certain factors, including actual traffic volumes on specified target dates, the Concession Agreements do not provide for renewal of the Concession Agreements after the expiry of the term.

There is limited guidance available on the interpretation of a number of terms and conditions of the Concession Agreements. In addition, certain terms of the Concession Agreements, such as those related to an augmentation in the capacity of the toll roads, termination payments, construction of additional competing roads by the concessioning authority, variation in concession period based on target traffic, the Government or State Governments and payment of compensation for changes in law are untested. Accordingly, the interpretation of certain terms and conditions in the Concession Agreements of the Project SPVs by the concessioning authority, the courts or regulators may be different from our interpretation of such terms and conditions.

The terms and conditions of the Concession Agreements contain restrictive terms and conditions. For example, the Concession Agreements contain provisions that mandate substitution clauses in the project agreements. Such substitution clauses allow the lenders of such project to step into project agreements in place of a Project SPV in the event of suspension of the Concession Agreement for the concerned Project SPV due to a breach or default by the said Project SPV. The Concession Agreements also provides that the lenders to a Project SPV may substitute the Project SPV with new entities in the event of a default by the concerned Project SPV under the relevant Concession Agreements or financing agreements. The terms of each of the Project SPV's Concession Agreements requires the Project SPVs to indemnify the concessioning authority for losses arising out of breach of the obligations of the Project SPVs under the Concession Agreements. Further, the Concession Agreements may mandate the requirement of a consent from the concessioning authorities prior to the undertaking of certain activities by the relevant Project SPV.

In the event the concessioning authority or a lender invokes any restrictive term or condition in the Concession Agreements, or the concessioning authority or a court interprets any term or condition in an adverse manner,

such invocation or interpretation may materially and adversely affect our business, financial condition and results of operations. For further details, please see, "*Summary of Key Agreements— Summary of Concession Agreements*" on page 227 of this Placement Memorandum.

6. ***The Valuation Report, and any underlying reports, are not opinions on the commercial merits of the Trust or the Project SPVs, nor are they opinions, expressed or implied, as to the future trading price of the Units or the financial condition of the Trust upon listing, and the valuation contained therein may not be indicative of the true value of the Project SPV's assets.***

RBSA Valuation Advisors LLP has been appointed as the independent valuer (the "**Valuer**") to undertake independent valuation of the Project SPVs. The Valuer has issued a report (the "**Valuation Report**"), included in this Placement Memorandum, which sets out their opinion as to the fair enterprise value of the Project SPVs as on September 30, 2024. In order to issue their Valuation Report, the Valuer has based his assumptions regarding the traffic volume, toll rates, operation and maintenance costs, amortization, debt repayments and non-cash net working capital projections amongst other things, on information provided by and discussions with or on behalf of us, the Sponsor and the Investment Manager, and which reflects current expectations and views regarding future events and, therefore, necessarily involves known and unknown risks and uncertainties. Please see the Valuation Report included as Annexure A in this Placement Memorandum for a detailed description of all assumptions relied upon in the preparation thereof. The Valuation Report contains forecasts, projections and other "forward-looking" statements that relate to future events, which are, by their nature, subject to significant risks and uncertainties. The future events referred to in these forward-looking statements involve risks, uncertainties and other factors which may cause the actual results or performance to be materially different from any future results or performance expressed or implied by the forward-looking statements.

7. ***Any infrastructure project that we acquire which is still under construction and development may be subject to cost overruns or delays.***

We may acquire infrastructure projects which are still under construction and development subject to certain thresholds and other considerations, in accordance with the InvIT Regulations and subject to the Unitholders' approval in certain cases. The development of such projects is subject to substantial risks, including various planning, engineering and construction risks, along with regulatory hurdles on land acquisition and necessary environmental clearances. The concessionaire generally begins generating a return on investment only after the commencement of commercial operations, which may be delayed due to various reasons.

Under the InvIT Regulations, we can acquire eligible infrastructure projects (as defined in the InvIT Regulations) as well as under-construction projects. Several key steps must be taken before these assets commence operations, generate revenue and recover costs, including but not limited to: conducting surveys and investigations for the proposed route; entering into construction contracts and long-term service agreements with contractors with sufficient expertise; purchasing necessary equipment; acquiring land/ obtaining rights of way from land owners and local authorities; complying with ongoing requirements of the required permits, approvals and licenses; procuring sufficient equity, debt, mezzanine and other necessary financing.

During the construction and development phases, we may also suffer from the unavailability of equipment/ materials, shortage of technically skilled personnel and labour, work stoppages, labour or social unrest, adverse weather conditions, accidents, natural calamities, delays in construction, delays in clearances, unforeseen construction-related and/ or operational delays and defects, delivery failures by, and disputes with contractors, limited availability of competent construction companies, increased cost of raw materials, unavailability of adequate funding, failure to complete projects within budget and in accordance with the required specifications, additional interest costs incurred due to project delays, legal actions brought by third-parties, changes in government, regulatory policies and tax policies, foreign exchange movements, adverse trends in the infrastructure industry or general economic conditions in India. These factors, as well as other unforeseeable problems and circumstances may lead to substantial increases in the time and costs required to complete the projects that we may acquire. We may also not be able to recover the additional costs and may also be subjected to levy of liquidated damages or penalties in case of delay in achieving commercial operations date for the project.

The foregoing factors may also give rise to risks in the building and construction phase of projects and create delays in the completion of such projects. Construction disruptions or delays could impede our ability to

undertake future acquisition of assets, and in turn materially and adversely affect our financial and operational estimates, our business, prospects, financial condition, results of operations and cash flows.

8. We may be subject to increases in costs, including operation and maintenance costs, which we cannot recover by increasing toll fees or annuity income under the relevant Concession Agreements.

The terms and conditions of the Concession Agreements are fixed and are not negotiable during the concession period. The costs of operating and maintaining the roads may be subject to cost overruns as a result of increased or unforeseen costs due to a number of factors beyond each Project SPV's control, including, among other things:

- increase in the cost of labour, materials (for example, bitumen) and insurance;
- the Project SPVs being required to install intelligent toll-collection systems or other new technologies for monitoring projects at their own costs, including remedial costs incurred to rectify any defects caused on account of a failure of any technology;
- Project SPVs being required to install/ deploy sustainable solutions to adhere with evolving and stringent environmental and social norms;
- higher axle loading, traffic volume or environmental stress leading to more extensive or more frequent heavy repairs or maintenance costs, which may be substantial;
- the Project SPVs being required to restore their project roads in the event of any landslides, floods, road subsidence, other natural disasters, accidents or other events causing structural damage or compromising safety;
- cost incurred for repair of damage to road pavement, bridges, culverts or any other type of structures on account of bad workmanship, faulty engineering, design defects or any other defects during the construction stage;
- cost incurred for repair of damage to road pavement, bridges, culverts or any other type of structures on account of poor maintenance or on account of not having undertaken timely repairs/ replacement of parts;
- changes to the laws and regulations relating to insurance in India which results in an increase in the insurance premiums payable by the Project SPVs;
- increase in electricity tariff rates or other fuel costs resulting in an increase in the cost of energy;
- increase in royalty or levy on raw materials and services used for routine and heavy maintenance;
- adverse weather conditions;
- an increase in minimum wages or other operating costs;
- the introduction of a levy on the usage of water for maintenance of the toll roads, among other things, in states in which the toll roads are located;
- unforeseen legal, tax and accounting liabilities relating to acquired assets; or
- other unforeseen operational and maintenance costs such as unexpected escalations in third-party fees or insurance premium.

In the event that our costs increase, we may be unable to offset such increases with higher revenues by increasing toll fees or seeking increase in annuity income due to the restrictions under the Concession Agreements. Any significant increase in operation and maintenance costs beyond the amounts budgeted by us, or any failure to meet quality standards, may reduce our profits, could expose us to penalties imposed by the concessioning authorities and could have a material, adverse effect on our business, financial condition and results of operations. Such events may also impact the ability of the Project SPVs to service the debt obtained from the Trust and our ability to make distributions to the Unitholders. As such, the inability to change the terms and conditions, including the toll fees of the concession during the concession period, may materially and adversely affect our operational and financial flexibility.

9. The Trust may be unable to maintain its eligible status under the InvIT Regulations due to non-compliance by certain members of the Sponsor Group with the fit and proper requirements under Schedule II of the Securities and Exchange Board of India (Intermediaries) Regulations, 2008.

Regulation 4(2)(k) of the InvIT Regulations require the Trust, Sponsor Group, Investment Manager, Project Manager and Trustee, to be 'Fit and Proper' under Schedule II Securities and Exchange Board of India (Intermediaries) Regulations, 2008 ("**Intermediaries Regulations**" and such requirements the "**Fit and Proper Requirements**"). The Fit and Proper Requirements are, *inter alia*, applicable to the relevant entity and its promoters or persons holding controlling interest or persons exercising control over such entity (collectively

the "**Persons**"). Under the Fit and Proper Requirements, Persons are disqualified if, (i) a charge sheet has been filed against the Person by any enforcement agency in matters concerning economic offences and is pending or (ii) the Person has been categorized as a wilful defaulter.

Certain IL&FS Group entities (including ITNL and IL&FS) that are identified as members of the Sponsor Group do not meet the Fit and Proper Requirements due to the ongoing insolvency and criminal proceedings concerning these entities or their promoters, being IL&FS or ITNL ("**Non-Compliant Entities**"). A list of such entities and the status of their compliance with the Fit and Proper Requirements is stated below:

Sr. No.	Sponsor Group member	Status of Compliance with the Fit and Proper Requirements
1.	RIPL	ITNL, being the promoter of RIPL, has been: (i) declared as a wilful defaulter by 19 banks, the lead bank being Canara Bank, and (ii) named as an offender in the charge sheet filed by the Economics Offence Wing, Delhi. Accordingly, RIPL, by virtue of ITNL being its promoter, falls within the criteria specified under 3(b)(ii) and 3(b)(ix) read with 2(c) of Schedule II of the Intermediaries Regulations. RIPL is also the holding company of the Investment Manager and hence, RIPL not meeting the Fit and Proper Requirements will affect the eligibility of the Investment Manager as well.
2.	ITNL	ITNL has been: (i) declared as a wilful defaulter by 19 banks, the lead bank being Canara Bank, and (ii) named as an offender in the charge sheet filed by the Economics Offence Wing, Delhi. Accordingly, ITNL falls within the criteria specified under (A) 3(b)(ii), and (B) 3(b)(ix), of Schedule II of the Intermediaries Regulations. Further, considering that IL&FS is the promoter of ITNL, by virtue of 2(c) of Schedule II of the Intermediaries Regulations, disqualification of IL&FS from being categorized as 'Fit and Proper' as specified under the Intermediaries Regulations, will also impact the eligibility of ITNL to be 'Fit and Proper'. Further, as stated above, ITNL is the promoter of the Sponsor, RIPL, as well.
3.	IL&FS	As on date of this Placement Memorandum, there are ongoing criminal proceedings, including proceedings initiated by enforcement agencies such as the Serious Fraud Investigation Office ("**SFIO**"), and other civil proceedings which may lead to IL&FS being disqualified from being categorized as 'Fit and Proper' as specified under the Intermediaries Regulations.
4.	Sabarmati Capital One Limited ("**SCOL**")	IL&FS indirectly holds controlling interest in SCOL. As on date of this Placement Memorandum, there are ongoing criminal proceedings, including proceedings initiated by SFIO, which may lead to IL&FS being disqualified from being categorized as 'Fit and Proper' as specified under the Intermediaries Regulations. By virtue of 2(c) of Schedule II of the Intermediaries Regulations, such disqualification of IL&FS will also impact the eligibility of SCOL to be 'Fit and Proper'.
5.	IL&FS Financial Services Limited ("**IFSL**")	As on date of this Placement Memorandum, IFSL has been named as an offender in the charge sheet filed by the Senior Fraud Investigation Office in the Court of Learned Additional Sessions Judge Cum Special Judge (Companies Act), Greater Mumbai. Accordingly, IFSL falls within the criteria specified under 3(b)(ii) of Schedule II of the Intermediaries Regulations. Further, considering that IL&FS is the promoter of IFSL, by virtue of 2(c) of Schedule II of the Intermediaries Regulations, disqualification of IL&FS from being categorized as 'Fit and Proper' as specified under the Intermediaries Regulations, also impacts the eligibility of IFSL to be 'Fit and Proper'.

While SEBI, by way of its letter dated March 20, 2024 has granted the Trust and the Non-Compliant Entities an exemption from the strict enforcement of Regulation 4(2)(k) of the InvIT Regulations, in case such exemption is withdrawn by SEBI or restricted in any way, it could affect the eligibility of the Trust as specified under the InvIT Regulations.

10. We will depend on various third parties to undertake certain activities in relation to the operation and maintenance of the roads and any delay, default or unsatisfactory performance by these third parties could materially and adversely affect our ability to effectively operate or maintain the roads. Further, the operation of the Project SPVs will also depend on our relationships with other stakeholders.

We will depend on the availability and skills of third-party employees and contractors for the operation and maintenance of the roads. We can also make no assurance that the services of such third parties will continue to be available at reasonable rates in the areas in which we conduct our operations or at all. We may also be exposed to risks relating to the inability of such third parties to obtain requisite approvals for the operation and maintenance activities, as well as the quality of their services, equipment and supplies. We may also fail to ensure the reliability and sustainability of toll collectors who are required to man the toll booths continuously may materially and adversely affect our overall level of net revenue. We may also be exposed to civil and criminal liability in relation to the actions of other third parties, including our directors, employees and contractors. For details of such civil and criminal proceedings, please see the section "*Legal and Other Information*" on page 346 of this Placement Memorandum.

Further, if we undertake limited development, while we may sub-contract our construction work, we may still be liable for accidents on our projects due to defects in design and quality of construction/ repair works of our projects during their construction and operation. In addition, we can make no assurance that such contractors or their sub-contractors will continue to hold or renew valid registrations under the relevant labour laws in India or be able to obtain the requisite approvals for undertaking such construction and operation. Furthermore, in case of failure by the sub-contractor to pay the labour costs of the workers engaged by them, we may be liable to pay such costs to the contracted labourers. Any delay, default or unsatisfactory performance by these third parties could materially and adversely affect our ability to manage the operation and maintenance of the toll roads under the Concession Agreements in a timely manner or at all and may require us to implement traffic diversion measures and expose us to penalties and premature termination of our Concession Agreements. Any of the foregoing factors could have a material adverse effect on our business, financial condition, reputation and results of operations.

The operation of the Project SPVs will also depend on our relationships with other shareholders and stakeholders. Under the InvIT Regulations, the Trust is permitted to invest in SPVs containing other shareholders or partners subject to such other shareholders or partners executing an agreement confirming that they will not exercise any rights that prevent the Trust from complying with the InvIT Regulations. The shares held by the third-party shareholder in TRDCL or any other shareholder in any SPVs acquired by the Trust in the future, will continue to remain an asset of such shareholder and may be subject to encumbrances, regulatory proceedings and other restrictions imposed on such shareholder, which are beyond our control.

11. Our actual results may be materially different from the expectations, express or implied, or Projections of Revenue from Operations and Cash Flows from Operating Activities included, in this Placement Memorandum.

In view of the InvIT Regulations, this Placement Memorandum includes certain forward-looking statements, such as Projections of Revenue from Operations and Cash Flows from Operating Activities, expectations, plans and analysis of the projections, as set out in the section "*Projections of Revenue from Operations and Cash Flows from Operating Activities*" on page 524. The Projections of Revenue from Operations and Cash Flows from Operating Activities have been prepared and presented on the basis that the Trust holds all the Project SPVs on or prior to the date of the Allotment of the Units pursuant to the Offer for the last three fiscals as per the statement of Projections of Revenue from Operations and Cash Flows from Operating Activities. Certain assumptions have been made regarding our future financial and operating performance, including but not limited to the revenue from operations, construction income, operating and maintenance costs, Trust expenses, the portfolio remaining unchanged through the projections period and no outflow on account of any litigation related matters during the projections period. It has been assumed all projects will continue to operate at the current or estimated levels. In case such assumptions are not satisfied, the associated revenue from operations, profit and cash flows would need to be revised accordingly. Hence, the projections of revenue from operations and cash flows are only estimates and there can be no assurance from the Investment Manager on any of these

parameters. The Trust's revenue will be dependent on the cash flows from the Project SPVs, including principal and interest payments (net of applicable taxes and expenses) from the Project SPVs, whose revenue in turn is dependent on a number of factors, including the receipt of toll revenues, which may decrease for a number of reasons including traffic volumes.

Given that the Projections of Revenue from Operations and Cash Flows from Operating Activities are based on assumptions, there could be uncertainties and contingencies, which could adversely affect the Investment Manager's ability to achieve the Projections of Revenue from Operations and Cash Flows from Operating Activities. Further, the assumptions underlying the Projections of Revenue are subject to significant business, regulatory and tax risks. The Investment Manager cannot assure you that the assumptions will be realized and the actual revenue from operations and cash flows from operating activities, will be as projected. The Projections of Revenue from Operations and Cash Flows from Operating Activities for Fiscals 2026, 2027 and 2028 are derived assuming post Unit Distribution capital structure and corporate structure as if it will be in existence from March 31, 2024.

12. We may face limitations and risks associated with debt financing and refinancing.

We are subject to regulatory restrictions in relation to our debt financing and refinancing. We may from time to time require debt financing and refinancing to carry out the Investment Manager's investment strategy. In the event that we undertake debt financing or refinancing, we may be limited by Indian law as to the nature of financing or refinancing that we may undertake. Under the InvIT Regulations, the aggregate consolidated borrowings and deferred payments of the Trust, net of cash and cash equivalents shall not exceed 70% of the value of the Trust Assets and any borrowings above 25% of the value of the Trust Assets, up to 49%, shall be subject to certain conditions, including Unitholder approval and credit rating from a credit rating agency. For further borrowings exceeding 49% of the value of the Trust Assets, the funds are permitted to be utilized only for acquisition or development of infrastructure projects, the prescribed credit rating and threshold of unitholder approval are required to be obtained and the Trust is required to have a track record of at least six distributions on a continuous basis post listing in the years preceding the financial year in which the enhanced borrowings are proposed to be made. There is no assurance that the relevant approval can be obtained in a timely manner, or at all. Further, there is no assurance that the current levels of debt allowed under the InvIT Regulations shall remain unchanged and these can be made further stringent wherein the ability of the Trust to raise incremental debt financing may be curtailed.

Debt financing to fund the acquisition of a project may not be available on short notice or may not be available on acceptable terms or at all. Since the timing and size of acquisitions cannot be readily predicted, the Trust may need to be able to obtain funding on short notice to benefit fully from opportunities. Also, as a trust, we may be unable to access certain debt capital available to companies. Debt raised by us may be subject to regulatory restrictions. Additionally, debt to be raised by any of the Project SPVs will be subject to their credit rating.

In the event that we undertake new debt financing or refinance existing debt, we may also be subject to risks associated with debt financing and refinancing, including prior consent or intimation to lenders required to carry out certain actions and the risk that our cash flows may be insufficient to meet required periodic payments of principal and interest under such arrangements and to make distributions to the Unitholders. Our ability to generate sufficient cash to satisfy our debt obligations will depend on our future operating performance, which may be affected by prevailing economic conditions and financial, business and other factors beyond our control. There is no assurance that we will be able to generate sufficient cash flow to meet all of our debt obligations. If we are unable to make payments due under our debt facilities, the lenders may be able to declare an event of default and initiate enforcement proceedings relating to any security provided in respect of the loan facilities, and/or call upon any guarantees, and this may materially and adversely affect our ability to make distributions to the Unitholders. Furthermore, a lender may, in accordance with the terms and conditions of applicable documentation and applicable law, seek recourse to, and enforce security interest, if any, against the Project SPVs, by initiating proceedings against the Trustee and/or the Investment Manager (acting on behalf of the Trust); provided that on initiation of the proceedings against the Trust or the Project SPVs, the Trustee shall not be personally liable and the Trustee's assets shall not be utilized towards recovery of such debt. The Project SPVs, which remain after any such recovery by the lenders, shall remain the property of the Trust, to be utilized in accordance with the Trust documents and applicable law. Further, borrowings availed by the Project SPVs and/or the Trust are subject to the applicable law, regulations, rules issued by governmental and regulatory bodies. These applicable law, regulations and rules are subject to amendments in future and onerous provisions may be imposed which may result in non-compliance by the Project SPV and/or the Trust.

Furthermore, restrictions in relation to external commercial borrowings may limit the Trust's ability to borrow overseas for projects under development and hence could constrain its ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, there can be no assurance that any required regulatory approvals or borrowing in foreign currencies will be granted to the Trust without onerous conditions, or at all.

13. The Project SPVs' financing agreements entail interest at variable rates, and any increase in interest rates may adversely affect our results of operations, financial condition and cash flows.

Certain third-party financing arrangements of the Project SPVs would remain in place after the Unit Distribution. These financing agreements typically entail interest at variable rates with a provision for the periodic reset of interest rates. Accordingly, the Project SPVs are susceptible to changes in interest rates and the risks arising therefrom. Any increase in interest rates will have an adverse effect on our results of operations, financial condition and cash flows. For further details in relation to the financing arrangements entered into by the Project SPVs, please see the section "*Financial Indebtedness and Deferred Payments*" on page 274.

14. The Project SPVs have a limited period to operate the roads as the concession periods granted to the Project SPVs are fixed.

The concession agreements entered into by TRDCL and HREL provide for a fixed term concession, at the end of which the operations, the rights and obligations granted to the SPVs will be transferred to the relevant concessioning authority with no renewal option. For toll-road projects of the Project SPVs, the respective concession agreements provide for limited increase in concession period basis the target traffic.

Furthermore, there is no assurance that the concessioning authority will grant extensions for the toll roads. In addition, there can be no assurance that we will be able to successfully acquire new assets once the existing Concession Agreements expire. Further, if the operating periods of the toll roads are shortened or disrupted or the Project SPVs' rights to operate the toll roads are terminated before the expiration of the concessions, our business, financial condition and results of operations may be adversely affected.

15. The termination payment due to us upon termination of the Concession Agreements may not adequately compensate us for the actual costs and investments associated with the toll roads in a timely manner or at all.

The concession agreements may be terminated by the concessioning authorities for a variety of reasons, including but not limited to one or more of the following:

- failure to replenish or provide fresh performance security within a cure period of 30 days;
- failure to achieve the latest outstanding project milestone and continuing to be in default for a specified period (ranging from 90 to 120 days);
- abandonment or manifestation of intention to abandon the construction or operation of the project without prior written consent;
- breach of maintenance requirements or safety requirements;
- failure to make payments within the specified period in the relevant Concession Agreement;
- escrow default and failure to cure within a cure period of 15 days;
- creation of encumbrance in breach of the relevant Concession Agreement; and
- materially false representations or warranties.

If a concession agreement is terminated by the concessioning authority due to a default by a Project SPV, the Project SPV may be exposed to additional liability. For further details, please see, "*Summary of Key Agreements— Summary of Concession Agreements.*" on page 227 of this Placement Memorandum.

In the event that the early termination of the Concession Agreements is due to a breach by the concessioning authority, we are entitled to receive a contractually agreed termination amount, as set out in "*Summary of Key Agreements— Summary of Concession Agreements.*" on page 227 of this Placement Memorandum. The termination payment payable to us or in the event of a breach of the concessioning authority would generally be lower than what we would have otherwise been entitled to receive in the event that the Concession Agreement had not been terminated, we may not be adequately compensated for the actual costs and

investments associated with the toll roads and, therefore, may adversely affect our ability to make distributions to the Unitholders.

16. Our revenue from HREL and TRDCL is dependent on receiving consistent annuity income from the respective concessioning authority.

HREL and TRDCL, are annuity assets, forming a part of the Project SPVs. Pursuant to the relevant concession agreements, a fixed amount is paid semi-annually as annuity by the NHAI or KRFB. The concession agreement provides that HREL and TRDCL can encash the letter of credit established by the concessioning authority for the security of the payment, subject to certain conditions. Any reduction or non-receipt of annuity income or delay in receipt of annuity income from the relevant concession authority may adversely affect our business, prospects, financial condition, cash flows and results of operations.

17. The Project SPVs have entered into concession agreements with government entities which contain certain onerous provisions and any failure to comply with such concession agreements could result in adverse consequences including penalties, deductions from annuities and substitution of the concessionaire.

The Project SPVs have entered into concession agreements with which the Project SPVs have a limited ability to negotiate the terms of the concession agreements. As a result, the concession agreements contain terms that may be onerous to the Project SPVs.

The concession agreements impose certain onerous obligations on the Project SPVs in relation to, among other things, compliance with operation and maintenance requirements. In the event of any default under the project agreements, which may limit the Project SPVs' flexibility in carrying out their businesses. Failure to comply with these requirements or to obtain a waiver thereto could result in adverse consequences, including the Project SPVs being liable for compensating the relevant concessioning authorities for such breach or termination, as may be specified in the concession agreements.

Further, the Projects should typically achieve the commercial operation stage no later than the commercial operation dates specified under the relevant concession agreements, or by the end of the extension period, if any, granted by the concessioning authorities. The failure to adhere to contractually agreed or extended timelines, for reasons other than *force majeure* events not within the control of the concessionaire, may require the Project SPVs to pay liquidated damages as stipulated in the concession agreements, among other things. The concessioning authority may also be entitled to terminate the concession agreement if a delay in the completion of a relevant Project is not as a result of any of the agreed exceptions. In such cases, a Project SPV may receive partial payments under its concession agreement and the payments received by it may be less than the estimated cash flows expected from such Projects.

18. There can be no assurance that we will be able to successfully undertake future acquisitions of road assets or efficiently manage the infrastructure road assets we have acquired or may acquire in the future.

Our growth strategy in the future may involve strategic acquisitions of roads and other road assets. We may not be able to identify or conclude appropriate or viable acquisitions in a timely manner. The success of our past acquisitions and any future acquisitions will depend upon several factors, including:

- our ability to identify, finance and acquire operational toll roads and other road assets on a cost-effective basis;
- our ability to integrate acquired personnel, operations, products and technologies into our organisation effectively;
- unanticipated problems or legal liabilities of the acquired businesses; and
- tax or accounting issues relating to the acquired businesses.

There can be no assurance that we will be able to achieve the strategic purpose of such acquisitions or operational integration or an acceptable return on such investments, which may materially and adversely affect our profits, financial condition and distributions.

Furthermore, concession agreements for future road projects may also contain terms and conditions that are more restrictive than those under the current Project SPV's Concession Agreements for the roads. These restrictions may restrict our flexibility in managing our business or projects.

Any future acquisitions or investments may require significant capital and may expose us to potential risks, including risks associated with failure to identify material problems during due diligence, undisclosed disputes, non-compliance with applicable laws, incurring additional debt, risks that acquired properties will not achieve anticipated profitability and an inability of the project to generate sufficient potential revenue in the future to offset the costs and expenses of the acquisition. These restrictions may restrict our flexibility in managing our business or projects and could in turn adversely affect our business prospects, financial condition and results of operations. Further, we are required to maintain certain investment ratios in accordance with the InvIT Regulations, including, requirement under Regulation 18(4) of the InvIT Regulations under which, not less than 80% of the value of our assets should be invested in eligible infrastructure projects. Compliance with these requirements may restrict us from acquiring additional assets in the future. There can be no assurance that any future acquisitions will perform as expected or that the returns from such acquisitions will support the financing utilised to acquire them or maintain them. As a result, the consummation of acquisitions may have an adverse effect on our ability to execute our growth strategy, business, financial condition, results of operations and cash flows and ability to make distributions to our Eligible Creditors.

19. ***Disruptions to traffic flows on the long network corridors connecting to the toll roads or a failure by local or state agencies to maintain such long network corridors may have an adverse effect on traffic volumes and revenues.***

Disruptions to the roadways connecting to the toll roads, including as a result of construction or maintenance activities, is and will continue to be outside of our control. Any such construction or maintenance activities along the long network corridors of the toll roads may have a significant impact on the level of service offered to the users of such routes, particularly if there is a disruption to the flow of traffic, which may cause road users to take alternative routes to avoid such disruptions. Further, if the local or state agencies responsible for the maintenance of the long network corridors do not properly maintain the connecting roadways, or if such maintenance requires any material closure of such roadways, the toll roads may experience a decrease in traffic volume on the toll roads, which could adversely affect our toll collections and our ability to make distributions to the Unitholders.

20. ***Decreases in demand for, or the production of, certain commodities and regulatory changes relating to certain commodities or the transportation thereof may adversely affect traffic volumes and our toll collections.***

Traffic volume on our toll roads may be affected by the demand for certain commodities, including food grains and vegetables, which are produced in local regions and transported to other states within India via national and state highway connections, including the toll roads. As a result, traffic volumes and our toll collections are susceptible to fluctuations in the demand for, or production of, such commodities. Any decrease in the demand for, or production of, such commodities in the future may result in a reduction in traffic volumes on the toll roads and a corresponding decrease in our toll collections. Further, any potential bans on sand, stone or iron ore mining in the future or other regulatory restrictions on the production or manufacturing of certain commodities, such as the restrictions on sand-mining in Rajasthan and Uttar Pradesh or other concerns may cause a reduction in traffic volumes on the roads and a consequential decrease in toll collections.

Any future change in the regulations regarding the dynamics of interstate transit or transportation of commodities may cause a reduction in the flow of traffic by discouraging the transportation of commodities across state borders and prompting industries to source commodities from their home state. Any such reduction in the demand for, or production of, certain commodities or any increase in the interstate transportation costs of such commodities may have a material adverse effect on our toll collections and our ability to make distributions to the Unitholders.

21. ***Our operations could be adversely affected by strikes, work stoppages or wage increase demands by, or any other kind of disputes involving, our workforce or our contractors' work force or any labour unions.***

Certain day-to-day operations of the toll roads are expected to be outsourced to external contractors. There can be no assurance that we will not experience business disruptions in the form of local or nationwide strikes or work stoppages due to disputes relating to wage increases or other problems with our workforce or our contractors' work force or any labour unions. Such labour disruptions may interfere with, or lead to the complete or partial shutdown of the operation of, the toll roads resulting in a loss of toll collections which may, as a result, adversely affect our business and results of operations.

22. ***There may be interruptions in our information technology systems, including the operation of the automated toll accounting and administrative systems at the toll roads.***

We have and will continue to rely on information technology systems and infrastructure to support our businesses. For instance, the Trust has subscribed to SAP for implementing cloud storage services. Further, as the Project SPVs are reliant on an electronic toll collection system, our transaction-processing systems and reliable network infrastructure are critical for successful toll collections. In particular, the toll roads are managed, in part, by third-party hardware and software which account for and administer the collection of tolls. For instance, Vaaan Infra Private Limited and Arya Omnitalk Wireless Solutions Private Limited have been engaged for the implementation of hybrid electronic toll system at the SBHL Project and PSRDCL Project, respectively. These information technology systems may be susceptible to outages due to fire, explosions, floods, power loss, telecommunications failures, cyberattacks, security breaches, and similar events. Such instances of server failures and short circuit in electrical wiring have happened at the BAEL Project and MBEL Project.

Information technology system failures, network disruptions, software errors, duplicate readings and breaches of data security could disrupt our operations. Although we expect to take steps to protect our systems from security breaches and unauthorized access by third parties, such efforts may be unsuccessful due to software glitches, employee error or malfeasance, government surveillance, or other factors. Further, if our systems or software were to malfunction, the accuracy of our traffic data and our ability to correctly identify and classify vehicles would be adversely affected, which may lead to loss of toll revenue, among other things.

If any unforeseen event were to render all or part of our information technology systems or toll collection computer systems non-operational, or in the event that these systems malfunction and are not able to be restored quickly, our business may be harmed and our ability to make distributions to the Unitholders may be impaired. There can be no assurance that our business continuity plans will be completely effective during an information technology failure or interruption. Such failures could have an adverse effect on our business, financial condition and results of operations.

23. ***The business and financial performance of the Trust, the operations of the Project SPVs and any future assets that we may acquire, are significantly dependent on the policies of, and relationships with, various government entities in India and could be affected if there are adverse changes in such policies or relationships.***

The operations of the Project SPVs and any future assets that we may acquire, are and will be significantly dependent on various central and state government entities, in terms of policies, incentives, budgetary allocations and other resources provided by these entities for the surface transportation industry, as well as the terms of the contractual arrangements, concessions and other incentives available from these government entities for the projects. Sustained increases in budgetary allocations by the GoI and various state governments for investments in the infrastructure sector, the development of structured and comprehensive infrastructure policies that encourage greater private sector participation and increased funding by international and multilateral development financial institutions in infrastructure projects in India have resulted in, and are expected to continue to result in, an increase in the amount of transportation infrastructure projects undertaken in India. Any adverse change in the focus or policy framework regarding infrastructure development or the surface transportation industry, or change in the Trust's relationships with the GoI or various government entities in India, could adversely affect the Project SPVs, the opportunities for the Trust to secure new assets and our business, results of operations and financial condition.

In addition, the projects in which government entities participate may be subject to delays, extensive internal processes, policy changes, changes due to local, national and internal political pressures and changes in governmental or external budgetary allocation and insufficiency of funds. Since government entities are responsible for awarding concessions and are parties to the development and operations of projects, projects are directly and significantly dependent on their support. Any withdrawal of support or adverse changes in their policies may lead to the agreements being renegotiated and could also adversely affect the financing, capital expenditure, revenues, development or operations relating to the current and future assets of the Project SPVs.

24. ***The Trust may be dissolved, and the proceeds from the dissolution thereof may be less than the value of the Units held by the Unitholders.***

The Trust is a contributory irrevocable trust registered under the Registration Act, 1908 and it may only be extinguished (i) if it is impossible to continue with the Trust or if the Trustee, on the advice of the Investment Manager, deems it impracticable to continue with the Trust; (ii) on the written recommendation of the Investment Manager and upon obtaining the prior written consent of such number of the unitholders as is required under the InvIT Regulations; (iii) if the Units of the Trust are delisted from the Stock Exchange; (iv) if the SEBI passes a direction for the winding up of the Trust or the delisting of the Units; or (v) in the event the Trust becomes illegal. Should the Trust be dissolved, depending on the circumstances and the terms upon which assets of the Trust are disposed of, there is no assurance that Eligible Creditors will recover all or any amount as part of its unitholding.

If a default is triggered under the financing documents that the Trust is a party to, the Trustee/ Investment Manager will take steps to cure such default and/or to repay the affected lender by appropriate means, including divesting or liquidating the assets of the Trust or raising additional financing, in accordance with such financing documents and applicable laws. If such default is not cured, and the affected lender initiates proceedings against the Trust, the Trust may be terminated subject to applicable laws. In the event of a termination of the Trust, the net assets which will be paid to the Eligible Creditors will take into account the debt, liabilities and obligations of the Trust. There is no assurance that Eligible Creditors will recover all or any amount as part of its unitholding.

25. The insurance coverage for the roads may not protect the Project SPVs from all forms of losses and liabilities associated with their businesses.

Our operations are subject to a number of risks associated with the maintenance and operations of the Project SPVs. Our Project SPVs are associated with various risks and are accordingly covered under various insurance policies covering risks including, risks in relation to fire and special perils, terrorism, burglary, various business guard commercial policies for projects, machinery breakdown and any accidental physical loss and destruction or damage to the insured property due to a cause, other than as excluded in the insurance policies. These risks can cause personal injury and loss of life and damage to, or the destruction of, property and equipment (including infrastructure developed by us) and may result in the limitation or interruption of our business operations and the imposition of civil or criminal liabilities.

For instance, BAEL has filed for an insurance claim for loss of various electronic and electrical assets caused due to thunderstorm and lightening on August 22, 2023 at the BAEL Project.

While our insurance policies cover such risks, they are subject to deductions and exclusions based on certain circumstances including, among others, war, invasion, damage caused by nuclear weapons material or ionizing radiation or contamination by radioactivity from any nuclear fuel or nuclear waste, loss or damage caused directly or indirectly from discharge of pollutants or contaminants, loss of earnings, loss by delay, loss of market or other consequential or indirect loss or damage of any kind arising from any functioning or malfunctioning of the internet, intranet, private network or any other similar facility. For further details, please see the section "*Our Business*" on page 207.

However, there can be no assurance that all risks are adequately insured against or that the Project SPVs will be able to procure adequate insurance coverage at commercially reasonable rates in the future. In addition, not all of the above risks may be insurable on commercially reasonable terms, or at all. In addition, these insurance policies are subject to annual review by insurers, and there can be no assurance that they will be renewed on similar or otherwise acceptable terms, if at all. To the extent that the Project SPVs suffer any damage or loss which is not covered by insurance, or exceeds the insurance coverage, the loss would have to be borne by the Project SPVs. Further, the Project SPVs have, from time to time, insurance claims pending, with respect to its insurance policies. The proceeds of any insurance claim may also be insufficient to cover rebuilding costs as a result of inflation, deductibles, changes in regulations regarding infrastructure projects, environmental and other factors. There is no assurance that the insurance claims raised by the Project SPVs will be appropriately honoured by the relevant insurers. The resulting costs could have an adverse effect on the Trust's business, prospects, financial condition or results of operations and no assurance can be given that losses in excess of insurance proceeds will not occur in the future.

26. We are subject to risks associated with outbreaks of diseases or similar pandemics or public health threats, such as the novel coronavirus ("COVID-19"), which could have a material adverse impact on our business and our results of operations and financial condition.

In the past, various contagious diseases have spread throughout the world, including India, where the entire operations of the toll roads are located. Most recently, beginning in late 2019 and continuing in 2020, 2021 and 2022, the global spread of COVID-19 has created significant economic and political volatility and uncertainty and business disruption. The spread of COVID-19 has led to governments around the world taking various restrictive measures designed to limit the spread of the virus, such as the implementation of travel restrictions, mandatory cessations of business operations, mandatory quarantines and work-from-home and other alternative working arrangements, curfews, limitations on social and public gatherings and partial lockdowns of cities or regions.

The spread of COVID-19 and governmental responses have resulted in workforce absence, reduced business productivity, other business disruptions, reduced demand and stagnated economic activity in India and around the world. This has resulted in significantly fewer customers using our toll roads and therefore has had a material adverse impact on the revenues of the toll roads, as well as other aspects of our operations. The long term effects of COVID-19, including the mutation of more transmittable strains is highly uncertain and cannot be predicted. More generally, any epidemic, pandemic or other health crisis, whether similar to COVID-19, SARS, MERS or other similar global diseases or pandemics, could materially and adversely affect our business, financial condition and results of our operations.

27. We may be adversely affected by presently unidentified environmental matters or changes in environmental regulation that could give rise to potential liability in the future.

The operation of the toll roads is subject to various environmental laws and regulations, including those relating to the discharge of pollutants, the treatment, transport, storage and disposal of solid and hazardous wastes, and the remediation of soil and groundwater contamination. While we believe the toll roads are in material compliance with applicable environmental requirements, we cannot be certain that we have identified all environmental matters giving rise to potential liability, or that current environmental regulations will not materially change. Environmental approvals are typically subject to ongoing compliance in the form of monitoring, audit and reporting norms, under, *inter alia*, central and state-specific environmental regulations. Also, please see the section "*Regulatory Approvals*" on page 342. We cannot assure you that such action may not be taken by the concerned authorities, which may adversely impact our ability to continue operating the relevant project in a profitable manner, or at all.

28. An inability to obtain, renew or maintain the required statutory and regulatory permits and approvals or to comply with the applicable laws may have an adverse effect on the business of the Project SPVs.

The Project SPVs require certain approvals, licenses, registrations and permissions under regulations, guidelines, circulars and statutes regulated by the Indian regulatory and government authorities to be obtained at various stages and by a number of parties.

There can be no assurance that the relevant authorities will issue these approvals or licenses, or renewals thereof, in a timely matter, or at all. In addition, the Project SPVs are required to comply with a wide variety of Indian laws and regulations. There can be no assurance that the Project SPVs are in compliance with such laws and regulations or as requested by the regulatory authorities, have obtained all necessary approvals or that they will continue to obtain the necessary approvals or have been and will continue to be in compliance with all applicable laws and regulations. For further details, please see the section "*Regulatory Approvals*" on page 342.

In the event of any failure to obtain or renew the approvals or if there is a delay in the obtaining of such approvals, the business and financial condition of the Project SPVs could be adversely affected. Permits, licenses and approvals could be subject to several conditions, and we cannot assure that the Project SPVs have complied with all such conditions and will be able to continuously meet such conditions or be able to prove compliance with such conditions to the authorities. Any non-compliance may lead to cancellation, revocation or suspension of relevant permits, licenses or approvals, which may result in the interruption of the operations of the Project SPVs and may adversely affect the business, financial condition, cash flows, and results of operations of the Project SPVs.

29. Our Project SPVs are subject to ongoing compliance requirements under various laws, and there have been certain past instances of non-compliance.

There have been instances in the past where the Project SPVs may not have been in compliance with a particular compliance or filing requirement under applicable regulatory requirements, or there may have been

a delay in such compliance or filing requirement. For instance, PSRDCL has paid certain late submission fees to the MCA for delayed form filings of DIR-12 and MGT-14 with the MCA. Further, there are certain ongoing non-compliances by TRDCL in relation to delay in the filing of DIR-12 and MGT-7 forms with the RoC. Any such non-compliance or delay in filing under applicable laws in the future will subject the relevant Project SPV to a penalty, which may have an impact on the results of operations of such Project SPV.

30. The outcome of any future actual or threatened legal, regulatory or other proceedings arising from our business operations could adversely affect our business, financial condition, result of operations and prospects.

From time to time, we or our directors, officers or employees or the Parties to the Trust may be involved in legal, regulatory and other proceedings concerning matters that arise in the ordinary course of our business operations, including as a result of disputes with the concessioning authority in relation to the provisions of the Concession Agreements, labour disputes with our employees or contract workers, and disputes with our contractual counterparties, local unions, or users of the toll roads. These disputes may lead to legal, criminal, civil, regulatory and other proceedings, and may cause us to incur significant costs, delays and other disruptions to our business and operations. In addition, regulatory actions and disputes with governmental authorities may result in fines, penalties and other administrative sanctions. There can be no assurance that the outcome of any future legal, regulatory or other proceedings that may be brought against us in the future will not adversely affect our reputation, business, financial condition, results of operations and prospects. For further details, please see the section "*Legal and Other Information*" on page 346.

31. The Project SPVs are subject to force majeure risks, which may adversely affect our ability to make distributions to the Unitholders.

If any Project SPV is unable to perform its obligations under the Concession Agreements as a result of a *force majeure* event, such as a war, strike, riot, act of terrorism, natural catastrophe or epidemic, although it would not be in breach of the Concession Agreements, its toll collections may be adversely affected. Upon the occurrence of any *force majeure* event prior to the commencement of the concession period, and subject to the concessioning authority's approval, the concession period commencement date may be extended by a period equal to the *force majeure* event, provided that the concerned Project SPV notifies the concessioning authority of such *force majeure* event. Any delay in the commencement of the concession period would cause a delay in our toll collections, which would have an adverse impact on our business and results of operations and, therefore our ability to make distributions to the Unitholders. In the event that any *force majeure* event, such as flooding, damage to the toll roads or the destruction of our toll-collection computer system, interrupts our ability to operate the toll roads, there may be a significant reduction in toll collections, which may adversely affect our ability to make distributions to the Unitholders.

Upon the occurrence of certain indirect political events, such as war, strikes or industrial action and public agitation, we will be liable for the costs attributable to such events. If the costs exceed our insurance for such events, the concessioning authority will typically be obligated to reimburse us for one half of the excess amount of the costs over and above the insurance limit. Upon the occurrence of certain other political events, such as a change in law or compulsory acquisition or expropriation of any toll road, the concessioning authority will be obligated to reimburse us for all costs attributable to such events subject to the terms of the concession agreements. In certain circumstances, the term of the Concession Agreement may be extended by the length of the duration of the *force majeure* event or the length of the duration of the period during which we were prevented from collecting toll fees. For instance, during the COVID-19 pandemic, as per NHAI policy guidelines dated May 26, 2020 provided minimum extension of three months to all the developers whose contracts had ended on or after February 20, 2020.

Notwithstanding the terms of the Concession Agreements, there can be no assurance that, if certain political events occur causing damage or other loss to us, the concessioning authority will reimburse us in a timely manner or at all. In the event the concessioning authority fails to meet its reimbursement obligations under the terms of the Concession Agreements, our business, financial position and results of operations may be significantly adversely affected and we may be unable to make distributions to the Unitholders.

32. The Trust does not own the trademark "Roadstar Infra Investment Trust" and the associated logo to be used by it for its business and its ability to use the trademark may be impaired.

The Trust has not made an application for the use of the trademark "Roadstar Infra Investment Trust" and the associated logo. The Trust's ability to use the trademark and the associated logo may be impaired if it does not make a trademark application, or if such an application is made and the application is rejected. Consequently, the Trust could be required to cease using "Roadstar Infra Investment Trust" and the associated logo, which may have an adverse effect on its operations.

Although we believe that our intellectual property rights do not infringe the intellectual property rights of any other party, we cannot assure you that infringement claims will not be asserted against us in the future. If we become liable to third parties for infringing their intellectual property rights, we could be required to pay a substantial damage award and be forced to immediately restrict our usage of such intellectual property.

33. We may be subject to penalties and claims from the concessioning authorities and third parties during the course of operations of the Project SPVs and may not be able to recover all operational losses from the Project Manager and/ or other contractors providing operations and maintenance services to the Projects.

The Project SPVs may, from time to time, receive letters and notices from the concessioning authorities or other third parties imposing penalties and seeking claims for any deficiencies or non-compliance with the terms of the concession agreement or other project agreements or a claim or compensation under the terms of the concession agreements. For instance, (i) MBEL has received notices from NHAI in relation to recovery of damages for default in operating and maintaining the MBEL Project; and (ii) PSRDCL has received notices from NHAI in relation to recovery of damages due to failure in rectifying deficiencies. The Project SPVs may contest such claims or invoke any indemnification provided by the O&M contractors it has appointed. However, there may be limitations on the ability to claim such amounts from the O&M contractor in terms of the agreements entered into with them. There would be an adverse effect on the Project SPV's operations and financial condition if a claim is decided against such Project SPV. Ongoing claims by the Project SPVs against the concessioning authorities, if any, have been disclosed in the section "*Legal and Other Information*" on page 346.

Risks Related to the Structure of the Trust

34. We must maintain certain investment ratios, which may present additional risks to us.

Pursuant to the InvIT Regulations, we are required to invest not less than 80% of the value of our assets in eligible infrastructure projects as defined under the InvIT Regulations, such as the Project SPVs. In addition, we must not invest more than 20% of the value of our assets in certain financial instruments prescribed under the InvIT Regulations. If these conditions are not fulfilled or breached on account of market movements of the price of the underlying assets or securities, the Investment Manager must inform the Trustee and ensure that these conditions are satisfied within six months of such breach (or within one year with the Unitholder approval). Failure to comply with these conditions may present additional risks to us, including divestment of some or all of our assets, delisting of our Units from the stock exchanges and other penalties, which could have a material adverse effect on our business, financial condition and results of operations.

35. We do not provide any assurance or guarantee of any distributions to the Unitholders. Further, the level of distributions may fall.

The Trust's distributions will be based on the cash flows generated from the operations to be undertaken by the underlying Project SPVs held by the Trust and not on whether the Trust makes an accounting profit or loss. The InvIT Regulations provide that not less than 90% of net distributable cash flows of each Project SPV are required to be distributed to the Trust in proportion of the Trust's holding in the Project SPVs subject to applicable provisions of the Companies Act. Not less than 90% of distributable cash flows of the Trust shall be distributed to the Unitholders. Under the InvIT Regulations, such distributions are required to be declared and made not less than once in every year and shall be made not later than fifteen days from the date of such declaration. For more details, see the section "*Distribution*" on page 288 of this Placement Memorandum.

The Trust will also rely on the receipt of interest, dividends, and principal repayments (net of applicable taxes and expenses) from each Project SPV in order to make distributions to the Unitholders. There is no assurance that the Trust will be able to make distributions to the Unitholders or that distributions will be consistent across various periods. Further, the income earned by each of the Project SPVs may be affected by a number of factors including, among other things:

- the business and financial position of the Project SPVs;
- amount of income generated from toll receipts, default or delay in payment of annuity income to the Project SPVs, and the level of operating and other expenses incurred as a result of escalation in commodity prices and labour costs;
- ability of the Trust and Project SPVs to borrow funds and access debt capital markets and terms of such borrowings including cost of borrowings and requirements of maintaining cash reserves;
- applicable laws and regulations, which may restrict the payment of distributions by the Project SPVs;
- fluctuations in the working capital needs of the Project SPVs;
- changes in accounting standards, taxation laws and regulations, laws and regulations in respect of foreign exchange repatriation of funds, corporation laws and regulations relating thereto; and
- the terms of agreements, including the Concession Agreements, project agreements or financing agreements, to which the Project SPVs are, or may become, a party.

The distributions from the SPVs to the Trust may also be subject to the requirement of creation of certain necessary reserves, such as a major maintenance reserve or a debt service reserve, as set out in the distribution policy of the Trust. For more details, see the section "*Distribution*" on page 288 of this Placement Memorandum.

Further, the methodology of computation of the net distributable cash flows may change subsequently due to regulatory changes which can impact the amount of cash flows available for distribution. Any change in applicable laws in India or elsewhere (including, for example, tax laws and foreign exchange controls) may limit our ability to pay or maintain distributions to our Unitholders. Furthermore, no assurance can be given that we will be able to pay or maintain the levels of distributions at all, or that the level of distributions will increase over time, or that future acquisitions or rights in new assets will increase our distributable cash flow to our Unitholders. Any reduction in, or delay/default in payments of distributions could materially and adversely affect the market price of our Units.

In addition, the financing agreements, including debt restructuring agreements entered into by any of the Project SPVs with banks, financial institutions from time to time or accessed through the debt capital markets may typically contain certain restrictive covenants, including, but not limited to, requirements that they obtain consent from the lenders prior to making any payments to the Trust. Any failure to obtain such consents in a timely manner or at all would impede our ability to make distributions to the Unitholders on a regular basis or at all, which could materially and adversely affect the market price of the Units. Additionally, following a default under our financing agreements if and when entered into, lenders may take coercive actions as per the rights available to them under applicable law, which may restrict our ability to conduct business and operations.

36. Distributions may be adversely impacted due to cash trapped in the Project SPVs.

Under the Companies Act, 2013, a company can declare dividends only after the mandatory transfer of profits to reserves. Further, amortisation and depreciation are non-cash expenditures and are charged to the profit and loss account. Consequently, a company may have surplus cash but no profit in the profit and loss account and thus will not be able to declare dividends, resulting in cash trapped in the company. Further, cash may be trapped in a particular Project SPV due to debt service account provisions of an applicable financing agreement. For example, in case of SBHL, it is required to maintain a DSRA equivalent to interest and principal payable to its lenders for the next six months. In case of PSRDCL it is required to maintain a DSRA equivalent to interest and principal payable to its lenders for the next three months. In case of MBEL, it is required to maintain the DSRA equivalent to interest and principal payable to its lenders for the next three months. In addition, applicable financing agreements may also specify provisions for maintaining major maintenance reserves, which will also result in trapping of cash. In the event that cash is trapped in the Project SPVs, the Investment Manager and the Trustee may evaluate various options to extract the cash and make distributions to the Unitholders. There is no assurance that any such options to extract the cash trapped in the Project SPVs would not have adverse tax implications or impact our distributions, business and results of operation adversely.

37. Parties to the Trust are required to maintain the eligibility conditions specified under Regulation 4 of the InvIT Regulations on an ongoing basis. Non-compliance by the Sponsor Group, the Investment Manager, the Project Manager and the Trustee, could result in the cancellation of the registration of the Trust.

Each of the Parties to the Trust are required to maintain the eligibility conditions specified under Regulation 4 of the InvIT Regulations on an ongoing basis. These eligibility conditions include, among other things,

that (a) the Sponsor, Investment Manager and Trustee are separate entities, (b) each Sponsor has a net worth of not less than ₹ 1,000 million and the Sponsor or its associate has a sound track record in the development of infrastructure or fund management in the infrastructure sector, (c) the Investment Manager has a net worth of not less than ₹ 100 million and has not less than five years' of experience in fund management or advisory services or development in the infrastructure sector or the combined experience of the directors, partners and employees of the Investment Manager, each with at least five years of experience, in fund management or advisory services or development in the infrastructure sector is not less than 30 years, (d) the Investment Manager has not less than two employees who have atleast five years of experience each, in fund management or advisory service or development in infrastructure sector; (e) the Trustee is registered with the SEBI under Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993 and is not an associate of the Sponsor or Investment Manager, and (f) each of the Trust, the Sponsor, the Sponsor Group, Investment Manager, Project Manager and Trustee are "fit and proper persons" as defined under Schedule II of the Intermediaries Regulations on an ongoing basis. Any non-compliance by the Sponsor, Sponsor Group, the Investment Manager, the Project Manager and the Trustee, may result in the cancellation of the registration of the Trust.

Risks Related to the Trust's Relationships with the Sponsor and the Investment Manager

38. We will depend on certain directors, executive officers and key employees of the Investment Manager, the Project Manager, and such entities may be unable to appoint, retain such personnel or to replace them with similarly qualified personnel, which could have a material adverse effect on the business, financial condition, results of operations and prospects of the Trust.

Our performance will depend, in part, upon the continued service and performance of certain directors, executive officers and key personnel of the Investment Manager and Project Manager. The continued operations and growth of our business will be dependent upon the Investment Manager and the Project Manager being able to attract and retain personnel who have the necessary and required experience and expertise. Competition for qualified and experienced personnel with relevant industry expertise in India is intense due to the scarcity of qualified individuals in the toll-road business, and the aforesaid entities may not be able to retain their executive officers and key employees or attract and retain fresh talent in the future.

Furthermore, the Investment Manager and the Project Manager may not be able to adequately re-deploy and re-train their employees to keep pace with evolving industry standards and changing customer preferences. Any inability by the Investment Manager and/or the Project Manager to retain their directors, executive officers and key employees, or the inability to replace such individuals with similarly qualified personnel, could have a material, adverse effect on the business, financial condition, results of operations and prospects of the Trust.

39. The Trust and the Project SPVs have entered into certain related party transactions and expect to continue to enter into related party transactions and there can be no assurance that such transactions will not have an adverse effect on our results of operations and financial condition.

The Trust has entered and will in the future enter into certain transactions with related parties, including the Sponsor, the Project Manager and the Investment Manager. The Project SPVs have also entered into transactions with related parties. Such transactions or any future transactions with related parties may potentially involve conflicts of interest and impose certain liabilities on the Trust or the Project SPVs. There can be no assurance that previous related party transactions could not have been made on more favourable terms with unrelated parties, and there can be no assurance that such transactions or future transactions, individually or in the aggregate, will not have an adverse effect on our results of operations and financial condition. For detailed information on related party transactions, please see the section "*Related Party Transactions*" on page 325.

40. The Investment Manager is required to comply with certain ongoing reporting and management obligations in relation to the Trust.

The Investment Manager is required to comply with certain ongoing reporting and management obligations in relation to the Trust in accordance with the InvIT Regulations. These requirements include, among other things, (a) making investment decisions with respect to the underlying assets or projects of the Trust, (b) overseeing the activities of the Project Manager, (c) investing and declaring distributions in accordance with the InvIT Regulations, (d) submitting reports to the Trustee, and (e) ensuring the audit of the Trust's accounts. Non-compliance with such requirements in a timely manner or at all, could subject the Investment Manager, the

other Parties to the Trust, the Trust or any person involved in the activity of the Trust to applicable penalties under the InvIT Regulations, and/or the SEBI Act or other applicable law. Under the InvIT Regulations, the SEBI also has the right to inspect documents, accounts and records relating to the activity of the Trust, Project SPVs or parties to the InvIT and may issue directions in the nature of, *inter alia*, (i) requiring the Trust to delist its Units and surrender its certificate of registration; (ii) requiring the Trust to wind-up; (iii) requiring the Trust to sell its assets; (iv) requiring the Trust or Parties to the Trust to take such action as may be in the interest of unitholders; or (v) prohibiting the Trust or Parties to the Trust from operating in the capital market or from accessing the capital market for a specified period. Any such failure to comply or the imposition of any penalty could have a material adverse effect on our business, financial condition and results of operations.

41. The Trust may be unable to dispose off its non-performing assets in a timely manner.

Due to the nature of its structure, the Trust may be unable to dispose off its non-performing or under-performing assets in a timely manner, or at all. For example, under the InvIT Regulations, any asset acquired by the Trust is required to be held for a period of at least three years from the date of acquisition. As a result, no assurance can be given that the Trust may be able to adapt to market developments, changes in asset quality, or adverse macroeconomic factors in a way comparable to, or competitive with, its competitors (whether InvITs or public/ private companies). Any inability to dispose off non-performing assets may in turn adversely affect the financial condition, business and prospects of the Trust, as well as distributions to the Unitholders.

42. Unitholders would not be able to participate in the election or removal of directors in the Investment Manager and will be able to remove the Investment Manager and Trustee only pursuant to a majority resolution.

Under the InvIT Regulations, the Trustee or the Investment Manager cannot be removed without the prior approval of Unitholders where the votes cast in favour of the resolution shall not be less than one and a half times the votes cast against such resolution. Accordingly, the Unitholders may face difficulties in removing and replacing the Trustee or the Investment Manager. Further, under the InvIT Regulations, in case of change in control of the Investment Manager of the Trust, prior approval of SEBI is also required.

Further, Unitholders would not be able to participate in the nomination, election or removal of directors in the Investment Manager. The recourse available to the Unitholders' is the removal of the Investment Manager by way of a resolution where Unitholders holding at least 60% of the Units must vote in favour of the resolution. In comparison, the Companies Act, 2013 allows the removal of a director of a private limited company by way of an ordinary resolution.

Similarly, Unitholders may remove the Trustee only if they believe that the acts of the Trustee are detrimental to the interests of the Unitholders and by way of a resolution where the votes cast in favour of the resolution must meet the required percentage as set out in the InvIT Regulations. Further, the Investment Manager and the Trustee cannot be discharged until a suitable replacement is appointed in their place, and there can be no guarantees that a suitable replacement will be appointed, or that appointment will take place in a timely manner, or at all.

Accordingly, as opposed to shareholders removing a director of a private limited company, it may not be possible for Unitholders to remove directors of the Investment Manager or the Trustee.

43. We depend on the Investment Manager, the Project Manager and the Trustee to manage our business and assets, and our rights and the rights of the Unitholders to recover claims against them are limited.

The success of our business and growth strategy and the operational success of our assets will depend significantly upon the managers' satisfactory performance of these services. Our recourse against the Project Manager, the Trustee and Investment Manager is limited.

The aggregate maximum liability of the Project Manager under the Project Implementation Management Agreement in each financial year is limited to the aggregate fees paid to the Project Manager for the immediately preceding financial year, in accordance with the terms of the Project Implementation Management Agreement and such fees shall not include any fees paid to the Project Manager in any other capacity, except for losses arising of fraud, gross negligence or wilful misconduct. As the Project Manager is not a captive company of the Trust and is not bound by an exclusivity arrangement with the Trust, the Project Manager may

fail to dedicate appropriate and adequate resources to us/ the Project SPVs at all times, which may affect their operations and performance.

Pursuant to the Trust Deed, the Trustee is not liable for anything done or omitted to be done or suffered by the Trustee in good faith and in accordance with, or in pursuance of any request or advice of the Investment Manager. Further, the Trustee and Investment Manager are not liable for any action or omission that results in any depletion in the value of the trust fund and consequent losses of the Unitholder, except in situations where such depletion is a result of the gross negligence or wilful default on the part of the Trustee and/ or Investment Manager, as applicable, or results from a breach by the Trustee of the Trust Deed, as determined by a court of competent jurisdiction. The liability of the Trustee shall be limited to the losses incurred by the Trustee, its directors and employees (the, "**Indemnified Parties**") on behalf of the Trust which have resulted from (i) fraud; gross negligence, willful misconduct of the Indemnified Parties; (ii) material breach of the provisions of the Investment Management Agreement; or (iii) breach of the provisions of the other trust documents of the Trust by the Trustee, as finally determined by a court of competent jurisdiction.

Under the Investment Management Agreement, the Investment Manager is not liable for, among other things, any action taken or damage suffered by it, provided that the Investment Manager shall not be so exculpated in the event of a breach of the obligations under any agreements entered into by the Investment Manager in relation to the Trust or a violation of the InvIT Regulations and/or applicable law on the part of the Investment Manager. Further, it shall not incur any liability for any act or omission which may result in a loss to a Unitholder except in the event that such loss is a result of fraud or gross negligence or dishonest acts of commission or omission or wilful default on the part of the Investment Manager, or disregard of duty or breach of duties under the Investment Management Agreement or applicable law. The Investment Management Agreement and the Trust Deed further provide that the Investment Manager is entitled to be indemnified by the Trustee against any direct and actual claims, actions, losses, damages, liabilities, suits, proceedings and reasonable costs and expenses including legal fees ("**Losses**") incurred in connection with the Trust, unless arising out of fraud, gross negligence, dishonest acts of commissions or omissions or wilful default on the part of the Investment Manager or disregard of duty or breach of duties under the Investment Management Agreement or the applicable law. The Investment Manager's liability to Trustee, its directors, employees and officers for breach of its obligations under the Investment Management Agreement in each financial year is limited to the aggregate fees paid to the Investment Manager for the immediately preceding financial year under the agreement, except in the event that such liability arises out of any gross negligence, willful default or misconduct or fraud of the Investment Manager. As a result, the Trust's rights and the rights of the Unitholders to recover claims against the Investment Manager are limited. Furthermore, recourse to the Trustee may be limited under the Trust Deed.

Accordingly, the liability of the Investment Manager and the Trustee are limited under the terms of these agreements and the Unitholders may not be able to recover claims against the Trustee or the Investment Manager, including claims with respect to any offer documents relating to the Offer. If the management agreements were to be terminated or if their terms were to be altered, our business could be adversely affected, as the Trustee may not be able to immediately replace such services, and even if replacement services were immediately available, the terms offered or obtained with the new managers could be less favorable than the ones currently offered by the Investment Manager and the Project Manager.

Risk related to the Resolution Framework of the IL&FS Group

44. Appeals pending against the Resolution Framework approved by the NCLAT vide its order dated March 12, 2020.

The NCLAT has vide its order dated March 12, 2020 ("**March 12 Order**") in Company Appeal (AT) No. 346 of 2018 approved the Resolution Framework relating to the IL&FS Group and other procedures suggested by the Union of India for resolution of the IL&FS group. The InvIT proposal for the IL&FS group, was one such procedure/ resolution mode which was approved in the March 12 Order.

Various creditors have since then filed appeals against the March 12 Order before the Supreme Court of India. The aforesaid appeals are currently pending before the Supreme Court of India and as on date, no adverse orders or orders modifying the Resolution Framework have been passed in such appeals relating to the operation of the March 12 Order or the Resolution Framework relating to the IL&FS group.

Further, the new board of IL&FS as appointed by the NCLT has concluded the sale of various entities/ assets forming part of the IL&FS Group through a process overseen by Hon'ble Justice Retd D.K. Jain and the NCLT in accordance with the Resolution Framework. These sales have been approved by the NCLT in line with the Resolution Framework. While the probability of the Supreme Court setting aside the March 12 Order and reversing the already concluded sale processes is low, any order of the Supreme Court of India which overrules the March 12 Order or stays or modifies the operation of the March 12 Order in any manner, may:

(a) have adverse consequences on the steps which may have been taken in the past with regard to the resolution of the IL&FS Group;

(b) impede the ongoing resolution process of the IL&FS Group, including any sale of any assets of the IL&FS group or discharge of debt owing to the creditors of the IL&FS group;

(c) result in vacation of the stay that has been granted by the NCLAT on, amongst others, institution or continuation of suits or other proceedings against IL&FS group entities, in the manner set out in the March 12 Order.

45. Some lenders have demanded 'right to recompense' which has been made as a condition subsequent in case of certain Project SPVs.

The transfer of certain entities like BAEL to InvIT has been inordinately delayed on account of certain lenders withholding their consent for the restructuring of debt and transfer to InvIT for certain reasons including *inter alia* Project SPV acceding to their request of providing the lenders a 'right to recompense' in relation to interest which has purportedly accrued from October 15, 2018 till the date of transfer of the relevant Project SPV to the InvIT.

In this regard, an application was filed by IL&FS before the NCLAT (being I.A. No. 2650 of 2023 in Company Appeal (AT) No. 346 of 2018) *inter alia* seeking reliefs for the said lenders to grant their consent to the restructuring terms of the relevant Project SPV (being BAEL and PSRDCL in this case) without imposing any additional conditions, including *inter alia* the right to recompense for the interest forgone post October 15, 2018. The NCLAT has passed an order in favor of IL&FS thereby rejecting bank's claim of 'right to recompense'. The Lenders may challenge the order of the NCLAT before the Supreme Court of India.

In case the above matters are ruled against the Project SPVs, then the relevant Project SPV shall be required to compensate the lenders for the sacrifice of interest payment during the moratorium period. Such financial impact is currently unknown and if an adverse ruling is passed it will only have an impact on the net distributable cash flows of the relevant Project SPV and not affect the already concluded transfer of Project SPVs.

Further, other creditors approaching the NCLAT/ Supreme Court of India seeking a similar 'right to recompense' (even in the cases of resolved entities) cannot be ruled out.

46. Claims of creditors (whether admitted or not, filed or not) have been cleared against consideration paid for CAT-II entities but there still is a risk that some creditor can demand old dues and file suit for the same.

The NCLT has *vide* order dated September 15, 2021 (as modified by an order dated October 22, 2021) ("**InvIT Phase 1 Order**") allowed transfer of six entities to the InvIT ("**Phase 1 Entities**"). Out of the Phase 1 Entities, BAEL is a 'Category II' entity i.e. the 'SPV Enterprise Value' of BAEL as determined pursuant to a valuation exercise is not sufficient to cover all liabilities of BAEL and hence the creditors of BAEL have to forego certain outstanding amounts. *Vide* the InvIT Phase 1 Order, the NCLT has allowed for extinguishment of all claims and liabilities with respect to BAEL relating to a period prior to October 15, 2018 (except for debt that was restructured or acquired by the InvIT) upon payment to the (non-IL&FS group) operational creditors of BAEL.

Similarly, the NCLT *vide* order dated October 14, 2022 ("**InvIT Phase 2 Order**") approved transfer of four entities to the InvIT ("**Phase 2 Entities**"). Out of the Phase 2 Entities, HREL and TRDCL are 'Category II' entities and hence the creditors of HREL and TRDCL will have to forego certain outstanding amounts. Vide the InvIT Phase 2 Order, the NCLT has allowed for extinguishment of all claims and liabilities with respect to HREL and TRDCL relating to a period prior to October 15, 2018 (except for debt that was restructured or acquired by the InvIT) upon payment to the (non-IL&FS group) operational creditors of HREL and TRDCL.

Accordingly, the NCLT *vide* the InvIT Phase 1 Order and InvIT Phase 2 Order has allowed extinguishment of liabilities (for period prior to October 15, 2018) of all entities being transferred to the InvIT including BAEL, HREL and TRDCL. However, there is a possibility that creditors of the aforesaid entities or any other Phase 1 Entities or Phase 2 Entities may contest the admission/non-admission of their claims, seek condonation of delay in filing their claims or initiate any other proceedings in regard to the claims management process, distribution of amounts and recovery of their dues as per applicable law.

47. No indemnity from IL&FS group companies under the transaction documents

The new board of IL&FS was appointed on October 1, 2018 by the NCLT pursuant to the extraordinary circumstances and on the grounds of mismanagement of public funds by the erstwhile board of IL&FS and the affairs of IL&FS being conducted in a manner prejudicial to the public interest. The power under Sections 241 and 242 of the Companies Act, 2013 can be exercised where the circumstances would otherwise justify the making of a winding up order on just and equitable grounds. Further, it should be noted that in cases where a company is ordered to be wound up, the claims relating to that company to be considered are those which exist as at the date of commencement of the winding up.

Accordingly, and applying the same principle, all liabilities of the relevant IL&FS group entity, whether financial (including interest, default interest, indemnity claims and additional charges), operational debt (including interest, indemnity or other claims) as well as statutory claims (including tax, employment and labour related claims) whether existing at or relating to a period prior to October 1, 2018 should not continue accruing.

In light of the above, the IL&FS group has taken a group level decision to not undertake any indemnity obligations with respect to any sale company and accordingly the share purchase agreement or any other agreement entered into between *inter alia* the IL&FS group and the InvIT does not contain any provision whereby an indemnity has been granted by the IL&FS group with respect to any past or future obligations.

However, liabilities, if any, on the Sponsor flowing on account of the provisions of the InvIT Regulations or any other applicable law, supersedes any contractual arrangements of the Sponsor for waiver of indemnity. Hence, the Sponsor undertakes that, as per the provisions of Regulation 12(3)(a) of the InvIT Regulations, it would be responsible for all acts, omissions, representations and covenants of the Trust related to the formation of Trust or sale or transfer of assets/holdco/SPV to the Trust and for providing recourse if any in relation to these transactions.

48. Distribution of units under the Interim Distribution Framework may not be in equal proportion to all creditors and accordingly, post listing of the Units, the market price is subject to fluctuation.

Pursuant to the interim distribution proposed to be undertaken by the IL&FS Transportation Networks Limited ("**ITNL**") / IL&FS Group, the Eligible Creditors would be allotted certain Units issued by the InvIT under the Unit Distribution. The units are not proposed to be allotted to all creditors in equal proportion in accordance with the limitations under Regulation 14 of the InvIT Regulations with respect to minimum trading lot and maximum number of subscribers.

The market price of the Units is subject to markets risks and fluctuations due to which the market price of the Units volatile and could be subject to wide fluctuations. There can be no assurance that the market price of the Units will not fluctuate or decline significantly in the future. The market price of the Units will depend on many factors, including, among others:

- the perceived prospects of our business and investments and the market for toll roads and other infrastructure projects;
- differences between our actual financial and operating results and those expected by investors and analysts;
- the perceived prospects of future toll roads and other infrastructure projects that may be added to our portfolio in accordance with our investment mandate;
- changes in research analysts' recommendations or projections;
- changes in general economic or market conditions;
- the market value of our assets;
- the perceived attractiveness of the Units against those of other business trusts, equity or debt securities;

- the balance of buyers and sellers of the Units;
- the size and liquidity of the Indian business trusts market;
- any changes to the regulatory system, including the tax system, both generally and specifically in relation to India business trusts;
- the ability of the Investment Manager to implement successfully its investment and growth strategies;
- foreign exchange rates;
- broad market fluctuations, including increases in interest rates and weakness of the equity and debt markets;
- variations in our quarterly operating results;
- difficulty in assessing our performance against either domestic or international benchmarks, as there are few listed comparables;
- publication of research reports about us, our affiliates, other road businesses, the road industry in general or other relevant sectors, or the failure of securities analysts to cover the Units after the Offer;
- additions or departures of key management personnel of the Investment Manager and/or the Trust Group;
- changes in the amounts of our distributions, if any, and changes in the distribution payment policy or failure to execute the existing distribution policy;
- actions by Unitholders;
- changes in market valuations of similar business entities or companies;
- announcements by us or our competitors of significant contracts, acquisitions, disposals, strategic partnerships, joint ventures or capital commitments;
- speculation in the press or investment community; and
- changes or proposed changes in laws or regulations affecting the road industry and infrastructure development in India or enforcement of these laws and regulations, or announcements relating to these matters.

Accordingly, since the Units are not capital-safe products and there is no guarantee that the value of the Units shall remain stable and the creditors of ITNL may receive the value based on the market price of the Unit post listing. If the Trust is extinguished, it is possible that unitholders may lose a part or all of the value of the units it holds.

Risks related to India

49. We are exposed to risks associated with the roads sector in India.

We derive and expect to continue to derive in the foreseeable future, almost all of our revenues and operating profits from the roads sector in India. Changes in macroeconomic conditions generally impact the road industry and could negatively impact our business. Accordingly, our business is highly dependent on the state of development of the Indian economy and the macroeconomic environment prevailing in India. The use of our toll roads, our expansion plans and future projects depend or will depend on macroeconomic factors that may negatively impact demand the development of road infrastructure projects in India, or the timely commencement of their operations which could in turn have a material adverse effect on our growth prospects, business and cash flows. In addition, access to financing may be more expensive or not available on commercially acceptable terms during economic downturns. We may also face risks in relation to the regulated environment we operate in (the road sector). For instance, we face risks in relation to non-collection of overload penalty under National Highway Fee (Determination of Rates and Collection) Rules, 2008. Any of these factors and other factors beyond our control could have a material adverse effect on our business, prospects, financial condition, results of operations and cash flows.

50. Changing laws, rules and regulations and legal uncertainties may materially and adversely affect our business, financial condition and results of operations.

Our business, financial condition and results of operations could be materially and adversely affected by any change in laws or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. There can be no assurance that the Government or State Governments will not implement new regulations and policies which will require the Trust and Project SPVs to obtain additional approvals and licenses from governmental and other regulatory bodies or impose onerous requirements and conditions on our operations. The Investment Manager cannot predict the terms of any new policy, and there can be no assurance that such policy will not be onerous.

51. Significant increases in the price or shortages in the supply of crude oil and products derived therefrom, including petrol and diesel fuel, could materially and adversely affect the volume of traffic at the projects operated by the Project SPVs and the Indian economy in general, including the infrastructure sector.

India imports a significant majority of its crude oil requirements. Crude oil prices are volatile and are subject to a number of factors, including the level of global production and political factors, such as war and other conflicts, particularly in the Middle East with ongoing Israel-Gaza conflict, where a substantial proportion of the world's oil reserves are located. The ongoing Russia-Ukraine conflict has caused a significant increase and volatility in the price of crude oil and impacted fuel prices in India. Further increases in the price of or shortages in the supply of crude oil could materially and adversely affect the volume of traffic at the projects operated by the Project SPVs and materially and adversely affect the Indian economy in general, including the infrastructure sector, which could have a material, adverse effect on our business, financial condition and results of operations.

52. We may be affected by competition law in India and any adverse application or interpretation of the Competition Act could materially and adversely affect our business.

The Competition Act, 2002, as amended (the "**Competition Act**"), regulates practices having an appreciable adverse effect on competition in the relevant market in India. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an appreciable adverse effect on competition is considered void and results in the imposition of substantial monetary penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services by way of allocation of geographical area, type of goods or services or number of customers in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an appreciable adverse effect on competition. The Competition Act also prohibits abuse of a dominant position by any enterprise in a relevant market.

The Competition Act aims to, among other things, prohibit all agreements and transactions which may have an appreciable adverse effect on competition in India. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an appreciable adverse effect on competition in India.

In the event, the Project SPVs or the Trust enters into any agreements or transactions that have an appreciable adverse effect on competition in the relevant market in India, the provisions of the Competition Act will be applicable. Consents may also be required from the CCI in relation to the Offer and failure to obtain such consents may adversely affect the Offer. Any prohibition or substantial penalties levied under the Competition Act could materially and adversely affect our financial condition and results of operations. Any adverse impact on our financial condition or operations due to the Competition Act may have a material adverse impact on our business, financial condition, results of operations and prospects and our ability to make distributions to the Unitholders.

53. Our business is dependent on economic growth in India and financial stability in Indian markets, and any slowdown in the Indian economy or in Indian financial markets could have an adverse effect on our business, results of operations, financial condition and the price of our Units.

Our Investment Manager and we are registered in India, and the Project SPVs and our Investment Manager are located in India. As a result, we are highly dependent on the prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- any increase in interest rates or inflation in India;
- any exchange rate fluctuations;
- any scarcity of credit or other financing in India;
- prevailing income, consumption and savings conditions among consumers and corporations in India;
- the intensification of the adverse effects of the ongoing COVID-19 pandemic including new waves or the occurrence or other epidemics or pandemics;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;

- changes in India's tax, trade, fiscal or monetary policies and which may impact India's foreign exchange reserves;
- civil unrest, riots, protests, acts of violence, terrorist attacks, political instability, terrorism or military conflict in India, including increased tensions on the Indian borders, or in countries in the region or globally, including in India's various neighbouring countries;
- the occurrence of force majeure events under the contractual arrangements of the Project SPVs;
- the occurrence of natural or man-made disasters;
- prevailing regional or global economic conditions;
- balance of trade movements, including export demand and movements in key imports, including oil and oil products;
- annual rainfall which affects agricultural production; and
- other significant regulatory, policy or economic developments in or affecting India or its infrastructure sector.

Inflation rates in India have been volatile in recent years, and such volatility may continue. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, whether entirely or in part, and may adversely affect our business and financial condition. If we are unable to increase our revenues sufficiently to offset our increased costs due to inflation, it could have an adverse effect on our business, prospects, financial condition, results of operations and cash flows.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could have an adverse effect on our business, results of operations, financial condition and the price of our Units.

54. Financial instability in other countries may cause increased volatility in Indian financial markets.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows.

Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. The imposition of sanctions on Russia have also impacted economic conditions in various parts of the world, including Europe.

Legislators and financial regulators in the United States and other jurisdictions, including India, implement a number of policy measures designed to add stability to the financial markets from time to time. However, the overall long-term effect of such legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition and results of operation.

These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations and reduce the trading price of the Units.

55. Any downgrading of India's debt rating by rating agencies could have a negative impact on our business.

India's sovereign ratings from S&P is BBB-with a "stable" outlook. India's sovereign rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign

exchange reserves, which are outside our control. Any adverse revisions to India's credit ratings by rating agencies may adversely affect our ability to raise additional financing, and the interest rates and other terms at which such additional financing is available. This could materially and adversely affect our ability to obtain financing for capital expenditure, which could in turn materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. India's sovereign debt rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange resources, which are outside our control.

56. Significant differences exist between Ind AS and other accounting principles, such as IFRS and U.S. GAAP, which may be material to your assessment of our results of operations, financial condition and cash flows.

The Audited Special Purpose Combined Financial Statements included in this Placement Memorandum are prepared and presented in conformity with IndAS, consistently applied during the periods stated in those reports. Ind AS differs from accounting principles with which persons from other countries may be familiar, such as IFRS and U.S. GAAP. Accordingly, the degree to which the Audited Special Purpose Combined Financial Statements included in this Placement Memorandum provide meaningful information is entirely dependent on your level of familiarity with Indian accounting practices. Ind AS has certain differences with IFRS and U.S. GAAP. In addition, as the transition to Ind AS is recent, there is no significant body of established practice that we can draw on, in forming judgments regarding the implementation and application of Ind AS, as compared to other established principles generally, or in respect of specific industries, such as the industry in which we operate.

57. Fluctuations in the exchange rate of the Indian Rupee with respect to the U.S. Dollar or other currencies will affect the foreign currency equivalent of the value of the Units and any distributions.

Fluctuations in the exchange rates between the Indian Rupee and other currencies will affect the foreign currency equivalent of the Indian Rupee price of the Units. In particular, the Indian Rupee has declined significantly against the U.S. dollar recently. Such fluctuations will also affect the amount that holders of the Units will receive in foreign currency upon conversion of any cash distributions or other distributions paid in Indian Rupees by us on the Units, and any proceeds paid in Indian Rupees from any sale of the Units in the secondary trading market. Further, a decline in India's foreign exchange reserves may reduce liquidity and increase interest rates in India, which could have an adverse impact on us. Depreciation of the Indian Rupee may also escalate the prices of some of the commodities which are corelated to global crisis.

58. Unitholders may not be able to enforce a judgment of a foreign court against us.

The enforcement of civil liabilities by overseas unitholders in the Units, including the ability to effect service of process and to enforce judgments obtained in courts outside of India, may be adversely affected by the fact that (i) the Trust is constituted under the laws of the Republic of India, (ii) the Investment Manager and the Trustee are limited liability companies incorporated under the laws of the Republic of India, (iii) certain directors and key personnel of the Investment Manager reside in India, and (iv) all of the assets of the Trust, the Project SPVs and the Investment Manager are located in India. As a result, it may be difficult to serve process upon the Trust, the Investment Manager, the Trustee or any of these persons outside of India or to enforce in India judgments obtained against such persons in courts outside of India.

India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. Recognition and enforcement of foreign judgments are provided for under Section 13, Section 14 and Section 44A of the Civil Procedure Code, 1908. The GoI has, under Section 44A of the Civil Procedure Code, notified certain countries as reciprocating countries. Section 13 of the Civil Procedure Code provides that a foreign judgment will be conclusive regarding any matter directly adjudicated upon, between the same parties or between the parties whom they or any of them claim are litigating under the same title, except: (i) where the judgment has not been pronounced by a court of competent jurisdiction; (ii) where the judgment has not been given on the merits of the case; (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or a refusal to recognise the law of India in cases in which such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where the judgment has been obtained by fraud; or (vi) where the judgment sustains a claim founded on a breach of any law in force in India. Section 44A of the Civil Procedure Code provides that where a foreign judgment has been rendered by a superior court in any country or territory outside India, which the GoI has, by notification, declared to be a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. However, Section 44A of the Civil

Procedure Code is applicable only to monetary decrees not being in the nature of any amounts payable in respect of taxes or other charges of a similar nature or in respect of a fine or other penalties and does not include arbitration awards.

There may be considerable delays in the disposal of suits by Indian courts. It may be unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. Furthermore, it may be unlikely that an Indian court would enforce foreign judgments if it viewed the amount of damages awarded as excessive or inconsistent with the public policy in India. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI to repatriate any amount recovered pursuant to execution and any such amount may be subject to income tax in accordance with applicable laws. Any judgment or award in a foreign currency would be converted into Indian Rupees on the date of the judgment or award and not on the date of the payment which could be subject to foreign exchange risk. Generally, there are considerable delays in the processing of legal actions to enforce a civil liability in India, and therefore it is uncertain whether a suit brought in an Indian court will be disposed of in a timely manner or subject to considerable delays.

Risks Related to Ownership of the Units

59. Any additional debt financing or issuance of additional Units may have a material, adverse effect on the Trust's distributions, and your ability to participate in future rights offerings may be limited.

The Investment Manager, on behalf of the Trust may require additional debt financing or the issuance of additional Units in order to support the operating business or to make acquisitions and investments. If obtained, any such additional debt financing may decrease distributable income, and any issuance of additional Units may dilute existing Unitholders' entitlement to distributions and their unitholding.

We are not required to offer pre-emptive rights to existing Unitholders when issuing new Units. Compliance with securities laws or other regulatory provisions in some jurisdictions may prevent certain unitholders from participating in any future rights issuances and thereby result in dilution of their existing holdings in Units.

60. Any future issuance of Units by us or sales of Units by the Sponsor or any of other significant Unitholders may materially and adversely affect the trading price of the Units.

Any future issuance of Units by us could dilute unitholders' holdings of Units. Any such future issuance of Units may also materially and adversely affect the trading price of the Units and could impact our ability to raise capital through an offering of our securities. There can be no assurance that we will not issue further Units. In addition, any perception by unitholders that such issuances might occur could also affect the trading price of the Units.

Units will be tradable on the Stock Exchanges. If the Sponsor (following the lapse of their lock-up arrangements, to the extent applicable), directly or indirectly, transfer, sell or pledge or encumber 1or otherwise dispose or are perceived as intending to sell or pledge or encumber or otherwise dispose a substantial number of Units, or if a secondary offering of the Units is undertaken, the market price for the Units could be materially and adversely affected. These transfers or sales may also make it more difficult for us to raise capital through the issue of new units at a time and at a price we deem appropriate.

61. The Trust has been provided exemptions by SEBI from compliance with certain provisions of the InvIT Regulations related to disclosures to be made in this Placement Memorandum.

SEBI, by way of its letter dated March 20, 2024, has granted the Trust an exemption from the strict enforcement of Regulation 23(1) and Regulation 15(4) read with Para 4(a) and 7(b) of Schedule III of the InvIT Regulations. Such provisions require an InvIT to disclose in its placement/offer documents, (i) the terms of the offer including number of units, price, issue opening date, issue closing date, terms and conditions and any other information as may be required for the investor to make an informed decision; and (ii) the use of proceeds, including the purpose of the issue and the issue expenses. Further, by way of its letter dated July 24, 2024 SEBI had granted the Trust an extension of up to seven days for filing of the Draft Placement Memorandum.

As no Units are being offered and no investment is being made in terms of the proposed Unit Distribution, the aforestated provisions are not directly applicable to the Trust. This Placement Memorandum is being prepared

as a disclosure document that will be utilized for the Units to be listed on the Stock Exchanges and therefore, the information that may be relevant in fund-raising transactions would not be applicable in the present case.

Accordingly, based on the exemptions granted by SEBI, while this Placement Memorandum contains disclosures in relation to the price and the number of units being distributed and expenses involved in the current Unit Distribution, the disclosures relating to (i) the other terms of the offer, including issue opening date, issue closing date and other associated terms and conditions, are not relevant to the current Unit Distribution and are not being made; and (ii), the disclosures relating to the purpose of the issue, use of proceeds and other similar matters are not relevant to the current Unit Distribution and are not being made.

62. The price of the Units may decline after Listing.

The Unit Value has been determined by the Investment Manager. The Unit Value may not be indicative of the market price of the Units upon completion of the Listing. The market price of the Units may also be highly volatile and could be subject to wide fluctuations. If the market price of the Units declines significantly, unitholder may be unable to resell their Units at or above their purchase price, if at all. There can be no assurance that the market price of the Units will not fluctuate or decline significantly in the future.

To the extent that we retain operating cash flow for investment purposes, working capital reserves or other purposes, these retained funds, while increasing the value of our underlying assets, may not correspondingly increase the market price of the Units. Our failure to meet market expectations with regard to future earnings and cash distributions may materially and adversely affect the market price of the Units.

Where new Units are issued at less than the market price of the Units, the value the Units may be affected. In addition, Unitholders who do not, or are not able to, participate in the new issuance of Units may experience a dilution of their interest in the Trust. In addition, the Units are not capital-safe products and there is no guarantee that the value of the Units shall remain stable. If the Trust is extinguished, it is possible that unitholders may lose a part or all of the value of the units it holds.

63. Your ability to receive and transfer Units is restricted by the selling and transfer restrictions set forth in this Placement Memorandum

No actions have been taken to permit this Unit Distribution in any jurisdiction, other than India. As such, the Units have not and will not be registered under the U.S. Securities Act, any state securities laws, or the law of any jurisdiction other than India. Furthermore, the Units are subject to restrictions on transferability and sale. Eligible Creditors based in jurisdictions other than India are required to inform themselves about and observe these restrictions. The Trust, Investment Manager, Sponsor, Placement Agent or the Distributing Unitholders, will not be obligated to recognize any receipt of Units, made other than in compliance with the restrictions set forth herein. The Units are transferable only in accordance with the restrictions described under the section "*Selling and Transfer Restrictions*" on page 378.

Risks Related to Tax

64. Changes in legislation or the rules relating to tax regimes could materially and adversely affect our business, prospects and results of operations.

Tax and other levies imposed by the Government and state governments may include: (i) income tax (including withholding tax and tax collection at source); (ii) wealth tax (which was withdrawn with effect from January 1, 2016); (iii) excise duty; (iv) value added tax/central sales tax/ goods and service tax; (v) service tax; (vi) stamp duty; and (vii) other special taxes and surcharges that are introduced on a temporary or permanent basis from time to time. In some cases, these taxes and other levies may be changed from year to year and the Indian courts which interpret tax legislation may apply such interpretations with retroactive effect. Also, the Government in certain situations has the authority to change tax laws retrospectively.

The Ministry of Finance, GoI, has set up a panel to review the ITA and to draft a new direct tax legislation ("**Panel**"). The Panel has been tasked with drafting appropriate direct tax legislation aimed at (i) aligning India's domestic direct tax regime in line with international best practices; and (ii) ensuring and encouraging compliance. The implications of the report by the Panel, including findings and recommendations in their report and the provisions of the proposed direct tax legislation may have an unfavourable impact on us. Since

the Panel and its report, including their recommendations and the draft of the new direct tax legislation has not been released yet, the possible impact on us cannot be determined at this point in time.

The GoI announced the union budget for the Fiscal Year 2024 and the Finance (No. 2) Act, 2024 was notified with effect from August 16, 2024.

The Finance Act 2024, provides for tax on the unitholders for such portion of distribution received by them that is not covered under section 10(23FC) or 10(23FCA) of the ITA and that which is not chargeable to tax under section 115UA(2) of the ITA. Any distribution not covered under the aforementioned clauses will be taxed under the head "income from other sources" in the hands of the unitholders as 'income' under section 56(2)(xii) of the ITA, provided the amount received (including similar distributions in earlier years to the same unitholder or any other unitholder) is in excess of the amount at which units were issued by the InvIT, as reduced by the amount which would have been charged to tax under this provision in the earlier year. The aforementioned amounts received by a unitholder being a specified person covered under section 10(23FE) of the ITA shall not be subject to taxes upon the fulfilment of certain conditions set out in the ITA. Further, any such distribution received by a unitholder to the extent not chargeable to tax under section 56(2)(xii) and 115UA(2) and not covered under sections 10(23FC) or 10(23FCA) shall be reduced from the cost of units. We cannot assure you that there will be no adverse impact on the tax incidence to the unitholders pursuant to the Finance Act 2023. For details, please see the section "*Statement of Tax Benefits*" on page 401.

The Finance Act, 2021 amended the Securities Contracts (Regulation) Act, 1956 ("**SCRA**") to recognise pooled investment vehicles and recognise the units, debentures, other marketable securities and other instruments issued by InvITs as "*securities*". The Finance Act, 2021 exempted the payment of tax deducted at source on dividends paid to InvITs.

There have been two key major reforms in Indian tax laws, namely the introduction of the Goods and Services Tax ("**GST**") and provisions relating to general anti-avoidance rules ("**GAAR**"). The GST regime came into effect on July 1, 2017, combining taxes and levies by the Government and State Governments into a unified rate structure. Given the limited availability of information in the public domain concerning GST, we cannot assure you as to the tax regime following implementation of the GST. Additionally, there is limited clarity on the availability of input tax credit, and any unfavourable orders in this regard may have an adverse effect on our financial position and cash flows.

Further, any application of existing law or future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable.

The GAAR regime came into effect on April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit, amongst other consequences, including on the interest paid by the SPVs on the debt from the Trust. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to the Trust or any Party to the Trust, it may have an adverse effect on the Trust.

The rules notified with respect to GAAR prescribe that these shall not be applicable to FIIs in accordance with the SEBI (Foreign Portfolio Investors) Regulations, 2014 subject to the fulfilment of certain conditions. GAAR may have a material adverse tax impact on the Trust, the Sponsor and the Unitholders.

Further, vide Finance Act, 2022, the applicability of section 94(7) of the ITA has been extended to the units of a business trust (with effect from Financial Year 2022-23), which provides that where:

1. any person buys or acquires any securities or unit within a period of three months prior to the record date (a date fixed for the purposes of entitlement of the holder of the securities or units, as the case may be, to receive dividend, income, or additional securities or units without any consideration, as the case may be);
2. such person sells or transfers such securities within three months after such record date or such units within a period of nine months after such record date; and
3. the dividend or income on such securities or unit received or receivable by such person is exempt,

then, the loss, if any, arising from the sale and purchase of securities and units, to the extent of dividend or income received or receivable on such securities or unit, shall be ignored for computing income chargeable to tax.

Vide Finance Act, 2022, the applicability of section 94(8) of the ITA (commonly known as bonus stripping) has been extended to the units of business trusts (with effect from Financial Year 2022-23), which provides that where:

1. Any person buys or acquires any units within a period of three months prior to the record date;

2. Such person is allotted additional units without any payment on the basis of holding of such units on such record date;

3. Such person sells or transfers all or any of the units within a period of nine months after the record date, while continuing to hold all or any of the additional units referred in clause (ii) above,
then, the loss, if any, arising from the sale and purchase of all or any of the units shall be ignored for computing income chargeable to tax and notwithstanding anything contained in any other provision of the ITA, the amount of loss so ignored shall be deemed to be the cost of purchase or acquisition of such additional units referred to in clause (ii) above as are held on the date of such sale or transfer.

The Investment Manager has not determined the impact of such existing or proposed legislations on our business. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve, and may impact the viability of our current business or restrict our ability to grow our business in the future.

We may incur increased costs relating to compliance with any new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects.

65. Tax laws are subject to changes and differing interpretations, which may materially and adversely affect our operations.

The current tax laws and regulations in India provide certain exemptions to interest/dividend income earned by business trusts from a special purpose vehicle. These exemptions could be modified or removed at any time or clarified in a manner adverse to Unitholders, which could adversely affect our profitability and the amount available for distribution to Unitholders. Tax laws and regulations are subject to differing interpretations by tax authorities. Differing interpretations of tax and other fiscal laws and regulations may exist within governmental ministries, including tax administrations and appellate authorities, thus creating uncertainty and potential unexpected results. The degree of uncertainty in tax laws and regulations, combined with significant penalties for default and a risk of aggressive action by the governmental or tax authorities, may result in tax risks in the jurisdictions in which we operate being significantly higher than expected. Any of the above events may result in a material, adverse effect on our business, financial condition, results of operations and/or prospects and our ability to make distributions to the Unitholders. Tax authorities in India may also introduce additional or new regulations applicable to our business which could adversely affect our business and profitability.

For instance, while the Investment Manager intends to take measures to ensure that it is in compliance with all relevant tax laws, there is no assurance that the tax authorities will not take a position that differs from the position taken by us with regard to our tax treatment of various items. Any of the above events may result in a material, adverse effect on our business, financial condition, results of operations and/or prospects and our ability to make distributions to the Unitholders.

However, the tax authorities might take a position that differs from the position taken by us with regard to our tax treatment of various items.

66. The Project SPVs enjoy certain benefits under Section 80-IA of the ITA in relation to the Assets and any change in these tax benefits applicable to the Trust may adversely affect its results of operations.

Under the provisions of section 80-IA of the ITA, the Project SPVs are eligible for tax holiday for any 10 consecutive assessment years out of 20 years beginning from the year in which the undertaking or enterprise develops and begins to operate any infrastructure facility. As a result of the tax holiday available to the Project SPVs, the taxable profits derived by the Project SPVs from developing, operating and maintaining any infrastructure facility will not be taxable under the normal provisions of the ITA during the tax holiday period.

Any other taxable income (for example, interest income, profit on sale of mutual funds) from deployment of temporary funds or otherwise would also be taxable under the terms of the ITA. The Project SPVs will only be subject to MAT if the Project SPVs have a book profit as required to be computed under section 115JB of the ITA. Any change in the tax benefits under section 80-IA and/or the provisions of MAT may have an impact on the income tax liability of the Project SPVs and may consequently affect the amount available for distribution by the Project SPVs to the Trust. Furthermore, if the relevant conditions under section 80-IA of the ITA are not met and the manner of computation of profits and gains are not as permitted, the Project SPVs will not be able to enjoy the benefits of such tax holiday.

Benefits under section 80-IA of the ITA shall not be available to Project SPVs in case they have opted to pay corporate tax under the beneficial regime introduced under Section 115BAA of the ITA. Further, in such case, provisions of MAT shall not be applicable.

67. Eligible Creditors may be subject to Indian taxes arising out of capital gains on the sale of Units, on any dividend or interest component of any returns from the Units or on certain distributions from the Trust.

Under current Indian income tax laws, listed units of a business trust held for more than 12 months are considered as long term capital assets. In case of sale of such units through a recognised stock exchange in India and subject to payment of securities transaction tax ("**STT**"), any gain arising in excess of ₹ 0.125 million is subject to long term capital gains tax at a concessional rate of 12.50% without indexation benefit (plus applicable surcharge and cess). However, if the said units are sold in any other manner, the same shall be subject to long term capital gains tax at the rate of 12.50% without indexation benefit (plus applicable surcharge and cess).

In case, listed units are held for less than or up to 12 months, the same shall be regarded as short term capital asset. Any gain arising in case of sale of such units through a recognised stock exchange in India and subject to payment of STT, is subject to short term capital gains tax at concessional rate of 20% (plus applicable surcharge and cess). However, the condition of chargeable to STT shall not apply to a transaction undertaken on a recognized stock exchange located in any International Financial Services Centre and where the consideration under applicable law for such transaction is paid or payable in foreign currency. However, if the said units are sold in any other manner, the same shall be subject to short term capital gains tax at applicable tax rates of the holder (plus applicable surcharge and cess). Under the Finance Act, 2024, gains shall be computed by a unitholder after reducing from its cost of acquisition any amount distributed by us which is not in the nature of dividends or interest or any other income.

The aforesaid taxability in India is subject to tax treaty benefits in the case of a non-resident holder. Further, the applicable taxes on the sale of Units and on any dividend or interest component of any returns from the Unit will also be subject to the category of creditor holding or selling the Units.

The Finance Act, 2020 amended the ITA to abolish the dividend distribution tax regime and shift the incidence of taxation of dividend (declared or distributed on or after April 1, 2020) to shareholder. Under the Finance Act, 2020, a distribution made by a business trust, being in nature dividend income received from a special purpose vehicle, will not be subject to tax in the hands of a unitholder, so long as the special purpose vehicle has not opted to pay corporate tax under the beneficial regime introduced under Section 115BAA of the ITA. Similarly, a business trust (which includes an infrastructure investment trust) will not be required to withhold tax on any distributions which are in the nature of dividend income received from a special purpose vehicle, so long as such special purpose vehicle has not opted to pay corporate tax under the beneficial regime introduced under Section 115BAA of the ITA. However, where the special purpose vehicle opts to pay tax under Section 115BAA of the ITA, dividend income distributed by the business trust would be taxed in the hands of a non-resident unitholder at 20% (plus applicable surcharge and cess) or the applicable treaty rate and at the ordinary rate for a resident unitholder. Further, the business trust would be required to withhold tax on such distributions made from dividend received from the special purpose vehicle. Thus, the taxability of dividends distributed by the Trust will depend on the taxation regime opted by the Project SPVs. It may also be noted that in terms of Section 194LBA (1) of the ITA, any distributable income in the nature of interest income and dividend income (where the Project SPVs has opted to pay corporate tax under the beneficial regime introduced under Section 115BAA of the ITA) in the hands of a resident creditor is subject to deduction of tax at the rate of 10%. Similarly, in terms of Section 194LBA (2) of the ITA, any distributable income in the nature of interest income and dividend income (where the SPV has opted to pay corporate tax under the beneficial regime introduced under Section 115BAA of the ITA) in the hands of a non-resident is subject to deduction of tax at the rate of 5% (plus applicable surcharge and cess) and 10% (plus applicable surcharge and

cess) respectively. The ultimate tax liability in the hands of the Unitholder may depend on various factors/ considerations.

Further, the Finance Act, 2021, has included a definition of "pooled investment vehicle" which comprises business trusts as defined under the ITA. The ITA defines business trusts as trusts registered with SEBI as an InvIT. This amendment has come into effect from April 1, 2021. The Finance Act, 2021 recognises units, debentures and other instruments issued by infrastructure investment trusts as "securities" under the Securities Contracts (Regulation) Act, 1956. This may have further implications under various regulations issued by SEBI, governing securities, including under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015. As announced in previous budgets, the dividend distribution tax applicable on InvITs was abolished and replaced with dividend withholding tax. The Finance Act, 2021 has also exempted payment of tax deducted at source on dividend paid to InvITs, with effect from April 1, 2020.

The Finance Act, 2024, provides for tax on the unitholders for such portion of distribution received by them that is not covered under section 10(23FC) or 10(23FCA) of the ITA and that which is not chargeable to tax under section 115UA(2) of the ITA. Any distribution not covered under the aforementioned clauses shall be taxed under the head "income from other sources" in the hands of the unitholders as 'income' under section 56(2)(xii) of the ITA, provided the amount received (including similar distributions in earlier years to the same unitholder or any other unitholder) is in excess of the amount at which units were issued by the InvIT, as reduced by the amount which would have been charged to tax under this provision in the earlier year. The aforementioned amounts received by a unitholder being a specified person covered under section 10(23FE) of the ITA shall not be subject to taxes upon the fulfilment of certain conditions set out in the ITA. Further, any such distribution received by a unitholder to the extent not chargeable to tax under section 56(2)(xii) and 115UA(2) and not covered under sections 10(23FC or, 10(23FCA) shall be reduced from the cost of units.

Furthermore, the Trust might not be able to pay or maintain the levels of distributions or ensure that the level of distributions will increase over time, or that future acquisitions will increase the Trust's distributable free cash flow to the Unitholders. Any reduction in, or elimination or taxation of, payments of distributions could materially and adversely affect the market price of the Units. The above statements are based on the current tax laws and subject to change as a result of the introduction of new laws or amendments to existing laws.

Further, the Finance bill, 2025 have been presented by the finance minister on 1st Feb 2025. Once the said bill is passed, and President assent is received, it becomes the Finance Act 2025 and shall be effective from the financial year 2025-26, and may have an impact on respective stake holders

GENERAL INFORMATION

The Trust

The Trust has been settled on October 6, 2020, by Roadstar Infra Private Limited (acting as the settlor) on the instructions of the Sponsor as a contributory irrevocable determinate trust under the provisions of the Indian Trusts Act, 1882. The Trust was registered as an infrastructure investment trust under the InvIT Regulations on December 22, 2020 having registration number IN/InvIT/20-21/0015. For information on the background of the Trust and the description of the Project SPVs, please see the sections "*Overview of the Trust*" and "*Our Business*" on pages 23 and 207, respectively.

Compliance Officer of the Trust

The Compliance Officer of the Trust is Jyotsna Matondkar. Her contact details are as follows:

Jyotsna Matondkar
Address: The IL&FS Financial Centre,
Plot No. C-22, G Block,
Bandra Kurla Complex,
Bandra (E), Mumbai – 400051
Tel: +91 22 26533333
E-mail: riml@roadstarinfra.com

Eligible Creditors can contact the Compliance Officer, Registrar or the Placement Agent in case of any Unit Distribution related problems, non-credit of Allotted Units in the respective beneficiary account of Eligible Creditors after Allocation. For further details please see the section "*Unit Distribution Procedure and Information*" on page 392.

Credit ratings

The Trust has been given a rating of [ICRA]BBB+(Stable) by ICRA on March 27, 2024, the rationale for which is available at its website, https://www.icra.in/Rationale/ShowRationaleReport?Id=126590.

Disclaimer by ICRA

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. PARTIES TO THE TRUST

A. The Sponsor

Roadstar Infra Private Limited ("RIPL")

History and certain Corporate Matters

RIPL was incorporated on January 7, 2020 as a private company limited by shares under laws of India. The CIN of the RIPL is U45400MH2020PTC335610. The registered office of RIPL is situated at the IL&FS Financial Centre, Plot No. C-22, G Block, Bandra Kurla Complex, Bandra (E), Mumbai – 400051. For further details, please see the section *"General Information*" on page 96.

Background of RIPL

RIPL was incorporated to serve as the Sponsor of the Trust and to facilitate the resolution of the Project SPVs which form a part of the IL&FS Group by setting up the Trust and undertaking the Unit Distribution as required under the terms of the Resolution Framework.

RIPL is a recently incorporated entity and derives experience from its holding company, ITNL, which has over two decades of experience in having developed, maintained and operated numerous BOT projects.

Board of Directors of RIPL

The board of directors of RIPL is entrusted with overall management of RIPL. Please see below the details in relation to the directors on the board of RIPL:

Sr. No.	Name	DIN	Designation
1.	Sabina Bhavnani	06553087	Non-Executive Director
2.	Jayashree Ramaswamy	02235205	Non - Executive Director
3.	Rakesh Chatterjee	00029365	Non-Executive Director

Sponsor Group

The Sponsor, ITNL, IL&FS, Sabarmati Capital One Limited, IL&FS Financial Services Limited and EMSL form part of the Sponsor Group. Pursuant to the Preliminary Distribution, ILF&FS Airports Limited and IL&FS Cluster Developments Initiative Limited have divested their unitholding in the Trust and hence are no longer part of the Sponsor Group.

B. The Trustee

Axis Trustee Services Limited

History and certain Corporate Matters

Axis Trustee Services Limited is the Trustee of the Trust. The Trustee is a registered intermediary with SEBI under the SEBI Debenture Trustee Regulations as a debenture trustee having registration number IND000000494 and the certificate of registration is valid until suspended. The Trustee's registered office is situated at Axis House, Bombay Dyeing Mills Compound, Pandurang Budhkar Marg, Worli, Mumbai 400 025 and corporate office at The Ruby 2nd floor, SW, 29 Senapati Bapat Marg, Dadar West, Mumbai 400 028. The Trustee is a wholly-owned subsidiary of Axis Bank Limited.

Background of the Trustee

The Trustee is a wholly-owned subsidiary of Axis Bank Limited. The Trustee's services are aimed at catering to the individual needs of the client and enhancing client satisfaction. As Trustee, it ensures compliance with all statutory requirements and believes in the highest ethical standards and best practices in corporate governance. It aims to provide the best services in the industry with its well trained and professionally qualified staff with a sound legal acumen. The Trustee is involved in varied facets of debenture and bond trusteeships, including, advisory functions and management functions. The Trustee

also acts as a security trustee and is involved in providing services in relation to security creation, compliance and holding security on behalf of lenders.

The Trustee is also involved in providing services as (i) a facility agent for complex structured transactions with advice on suitability of the transaction on operational aspects; (ii) an escrow agent; (iii) a trustee to alternative investment funds; (iv) custodian of documents as a safekeeper; and (v) a trustee to real estate investment funds, etc.

The Trustee has been engaged in the activity of providing trusteeship services since 2008 and has a customer base of over 500 corporate clients. The Trustee is currently the trustee to one of the first publicly offered infrastructure investments trust in India, India Grid Trust.

The Trustee is not an Associate of the Sponsor or the Investment Manager or the Project Manager to the Trust. Further, neither the Trustee nor the settlors of the Trustee (i) are or have been debarred from accessing the securities market by SEBI; (ii) are or have been promoters, directors or persons in control of any other company or a sponsor, investment manager or trustee of any other infrastructure investment trust or an infrastructure investment trust which is debarred from accessing the capital market under any order or direction made by SEBI; and/or (iii) are or have been declared a wilful defaulter by any bank or a financial institution or consortium thereof, in accordance with the guidelines on 'wilful defaulters' issued by the RBI.

Board of Directors of the Trustee

The board of directors of the Trustee is entrusted with the responsibility for the overall management of the Trustee. Please see below the details in relation of the board of directors of the Trustee:

Sr. No.	Name	DIN	Designation
1.	Prashant Joshi	08503064	Additional, Non-Executive Director
2.	Rahul Choudhary	10935908	Managing Director & Chief Executive Officer
3.	Arun Mehta	08674360	Additional Director (Non- Executive Independent)
4.	Parmod Kumar Nagpal	10041946	Additional Director (Non- Executive Independent)

Brief profiles of the Directors of the Trustee

Please see below brief biographies of the directors of the Trustee:

1. **Prashant Joshi** is an additional director (non-executive) on the board of directors of the Trustee. He is the group executive and chief credit officer of the Axis Bank since May 1, 2022. As the chief credit officer, he is responsible for all underwriting functions across the retail and corporate segments. Prashant has nearly three decades of experience in financial services, primarily in project finance, appraisals and credit functions. He has been with Axis Bank since September 2006 in roles related to credit/ underwriting and risk across various segments. In his previous stint, he was with the Industrial Development Bank of India in the project finance department for nearly 13 years, with in-depth experience of working on proposals across sectors. He started his career in a private firm as a project engineer. He holds a degree in civil engineering from Sardar Patel College of Engineering, Mumbai University.

2. **Rahul Choudhary** is the managing director and chief executive officer on the board of directors of the Trustee. He is a banker with around 21 years of experience (joined Axis Bank as a Management Trainee in 2003) across Product/Portfolio/Process Management with P&L ownership, Operations, Customer Experience, Strategy and Planning, New Product Development, Innovation/Transformation, Business Development/Coverage, Project Management and Compliance/Risk Management. These roles have been in multiple functions in Axis Bank and across domains like Transaction Banking, Business & Institutional Banking, Retail & Branch Banking, Govt. Banking, Corporate Credit, Trade & Forex and Wholesale Banking Operations; with subject matter expertise in Liability, Payments, Transaction Banking, Corporate Credit/Asset Products, CMS, Govt. Business and Digital Banking. He was heading the Wholesale Banking Operations (WBO) Department at Axis Bank with a team size of 3,500+ staff – a mix of Central Back-Office Units & decentralized Wholesale Banking Service Teams across Credit, Domestic & Cross-Border Trade

Finance, Retail Forex & Remittance, CMS & Current Account, Treasury Operations, Custody & Capital Market and ground delivery of these services to Wholesale (Corporate & SME/Commercial Banking) Clients through 350+ ground service teams (Wholesale Banking Centers). His key responsibilities in the role included delivering good customer service through better TATs leading to increased wallet share; enhanced operating efficiency through Tech, Digital & Analytics driven Ops Transformation; delivering on the digitization mandate through industry first initiatives and innovation including process re-engineering; accelerating digital adoption; increasing Cx / NPS scores; and ensuring compliance to regulations with effective and robust risk controls - the focus in the last few years has been on transformation of Wholesale Ops as an Agile & Future Ready Customer Centric Ops/Service Team with best-in-class compliance standards.

3. **Arun Mehta** is a director (non-executive independent) on the board of the Trustee. He is a postgraduate in economics and is a certified member of the Indian Institute of Bankers. He has over 38 years of experience, which includes corporate banking (mid-corporates and large corporates), international banking, ECBs and loan syndication (heading the merchant banking division), investment banking and retail banking. He has also had considerable international exposure, having worked overseas in Hong Kong handling loan syndications and investments. He has earlier held the position of managing director and chief executive officer of SBI Capital Markets, the merchant banking arm of SBI. He was also the non-executive chairman of SBICap Securities (retail broking arm), SBICap Ventures Ltd and SBICap Trustee Company Ltd. He was a non-executive director in Investec Capital Services India Pvt Ltd. Some of the other senior level assignments include chief general manager, financial control (ALM, budgeting and performance monitoring, raising equity and AT1 and tier II debt). He has also chaired the mid corporates credit committee for Gujarat Diu and Daman.

4. **Parmod Kumar Nagpal** is a director (non-executive independent) on the board of the Trustee. He has 40 years of work experience. In 1989, he joined SEBI as the manager and worked with SEBI for about 30.5 years. Before retirement in December 2019, he was the executive director of SEBI for almost 13 years. He has experience of working in all operational departments of SEBI – corporate finance, market regulation, mutual funds, venture capital funds, market intermediaries supervision, investigation and foreign portfolio investors. He was also involved in policy formulation and implementation of regulations, registration and supervision of market intermediaries, inspection of stock exchanges and market intermediaries, investigation of market manipulation and insider trading, takeovers, IPOs, compliance of listing requirements by the companies, corporate governance, etc. He was the chief vigilance officer of SEBI and in-charge of internal inspections department, HRD, finance and audit, establishment, premises and internal security and acted as the disciplinary authority for internal matters.

Key Terms of the Trust Deed

The Trustee and the Settlor have entered into the Trust Deed in terms of the InvIT Regulations. The key terms of the Trust Deed are provided below:

1. *Powers of the Trustee*

The Trustee has been provided with various powers under the Trust Deed in accordance with the Indian Trusts Act, 1882 and the InvIT Regulations, including but not limited to:

A. *General Power:* without prejudice to the scope and generality of the powers and authority conferred upon the Trustee under the Indian Trusts Act, 1882, the Trustee shall, in relation to the Trust, have every and all powers that a person competent to contract and acting as a legal and beneficial owner of such property has, and such powers shall not be restricted by any principle of construction or rule or requirement, but shall operate according to the widest generality of which the foregoing words are capable, notwithstanding that certain powers are more specifically set forth in the Trust Deed.

B. *Power of investments:*

(i) The Trustee is empowered to take all decisions in relation to the management and administration of the Trust Assets and the Trust as may be necessary for and incidental to

the advancement of fulfilment of the investment objectives in accordance with the trust documents, the InvIT Regulations and other applicable law provided that such power may be delegated to and exercised by the Investment Manager pursuant to the Investment Management Agreement.

(ii) The Trustee, in the name of the Trust or in its own name, on behalf of the Trust, is empowered to, among other things:

a) Acquire, hold, manage, trade and dispose of shares, stocks, convertibles, debentures, bonds or other equity or equity-related securities, derivatives, instruments or obligations and any debt or mezzanine securities instruments or obligations of all kinds or any other security, instrument or obligation under applicable law, including without limitation, those issued by any SPV, Holdco, infrastructure projects in accordance with the InvIT Regulations, other applicable law and the investment strategy. For the avoidance of doubt, this shall also include the power to hypothecate, pledge or create encumbrances of any kind on or provide guarantees, undertakings or other contractual comforts in-relation' to such securities, instruments or obligations held by the Trust in such SPVs, Holdco or infrastructure projects to be used as collateral security for any borrowings by the Trust, Holdco or SPVs;
b) issue, hold, invest, collateralize or sell any loan, debt, derivative, instrument or obligations as permitted under applicable law, including without limitation, those issued by the SPVs or Holdco, as applicable;
c) keep the capital and monies of the Trust in deposit with banks or other institutions;
d) accept contributions;
e) collect and receive the profit, interest repayment of principal of debt or debt-like equity or equity-like mezzanine securities, dividend, return of capital of any type by the SPVs, Holdco or infrastructure projects and income of the Trust as and when such amounts become due or receivable;
f) invest in securities or in units of mutual funds in accordance with applicable law;
g) invest in money market instruments including government securities, treasury bills, certificates of deposit and commercial papers in accordance with applicable law;
h) to give, provide and agree to provide to any SPV or holding company, financial assistance in the form of investment in share capital of any class including ordinary, preference, participating, non-participating, voting, non-voting or other class, and in the form of investment in securities convertible into capital;
i) to invest, acquire, purchase, hold, divest, sale, hypothecate, pledge or otherwise transfer immovable properties of any kind including rights and interest therein;
j) to structure an investment through one or more investment vehicles in order to address tax or regulatory considerations;
k) to create, establish and maintain partnerships, trusts, corporations, companies or other entities of any kind, to acquire, hold or dispose of the Trust Assets;
l) to enter into, execute and/or terminate any investment pooling agreements, agreements related to strategic investments, co-investment agreements. and any and all documents and instruments of a similar nature in the name of the Trust; and
m) to make further investments from the disposition proceeds in accordance with the Trust documents and the InvIT Regulations.

C. *Power to allot units etc. and accept subscriptions:* The Trust acting through the Trustee shall have the power to accept subscriptions to Units, debt securities (including any non-convertible debentures, bonds or convertible securities) or other securities, obligations or instruments permitted to be issued by the Trust under the InvIT Regulations and issue and allot Units, debt securities (including any non-convertible debentures, bonds or convertible securities) or other securities, obligations or instruments to Unitholders or other security holders, as applicable, and undertake all related activities. The Trustee shall, either by itself or through the Investment Manager or any such delegate as may be permitted under the InvIT Regulations and the Trust documents, subject to and only in accordance with the terms of the Trust documents and applicable law, have the power to approve or take on record any transfer of Units or debt securities or other securities or instruments or obligations issued by the Trust.

D. *Register of holders:* The Trustee shall have the power, or cause the investment manager, to maintain (or cause depositories to maintain) a depository register of the Unitholders or other instrument-holders of the Trust.

E. *Power to create reserves:*

(i) The trustee, in consultation with the Investment Manager, shall have the power to make such reserves out of the income or capital as it may deem proper.
(ii) Any distribution made from such reserves shall be in accordance with the Trust documents, the investment strategy and the InvIT Regulations.

F. *Power to employ agents:* The Trustee shall have the power to advise the Investment Manager to employ and pay at the expense of the Trust, any agent in any jurisdiction whether attorneys, solicitors, brokers, banks, trust companies or other agents, without being responsible for the default of any agent if employed in good faith to transact any business, including without limitation, the power to appoint agents to raise funds, or do any act required to be transacted or done in the execution of the responsibilities hereof including the receipt and payment of moneys and the execution of documents.

G. *Power to appoint nominees and custodians*: the Trustee will have the power to advise the Investment Manager to appoint any custodian in order to provide custodial services, and permit any property comprised in the Trust to be and remain deposited with a custodian or with any person or persons in India or in any other jurisdiction subject to such deposit being permissible under the applicable law.

H. *Power to oversee activities of the Investment Manager and Project Manager:* The Trustee shall oversee the activities of the Investment Manager and Project Manager in the interest of the Unitholders and ensure that the Investment Manager and the Project Manager comply with the InvIT Regulations and other applicable law.

I. *Power to pay duties and taxes:* In the event of any capital gains tax, income tax, stamp duty or other duties, fees or taxes (and any interest or penalty chargeable thereon) whatsoever becoming payable in any jurisdiction in respect of the Trust or any part thereof or in respect of documents issued or executed in pursuance of the Trust Deed or the Investment Management Agreement in any circumstances whatsoever, the Trustee shall have the power and duty to pay all such duties, fees or taxes (and any interest or penalty chargeable thereon) as well as to create any reserves for future potential tax liability (and any such interest or penalty) out of the Trust Assets and the Trustee may pay such duties, fees or taxes (and any such interest or penalty) on behalf of the Trust out of the Trust Assets.

J. *Power to allocate and expend on behalf of the Trust:* The Trustee shall, subject to the advice of the Investment Manager, have the power to incur and pay Trust expenses, which shall include, without limitation, any expenses made under any contract or applicable law, out of the Trust Assets, including any funds held by the Trust, the SPVs, the Holdco or other assets of the Trust, as applicable.

K. *Power to take counsel's opinion*: The Trustee shall have the power to take the opinion of legal, tax or other counsel in any jurisdiction concerning any difference arising under the Trust Deed or any matter in any way relating to the Trust Deed or to its duties in connection with the Trust Deed and the fees of such advisors shall be paid from the Trust Assets, including any funds held by the Trust, the SPVs, the Holdco or other assets of the Trust, as applicable.

L. *Power to conduct activities with trustees of other trusts:* Subject to applicable law, the Trustee may, in consultation with the Investment Manager, in execution of the Trust hereof or in exercise of any of the powers hereby or by law given to the Trustee sell, rent or buy any property, or borrow property from or carry out any other transaction with the trustees of any other trust or the executors or administrators of any estate notwithstanding that the Trustee is the same person as those trustees, executors or administrators or any of them and where the Trustee is the same Person as those trustees, executors or administrators, the transaction shall be binding on all persons then or thereafter interested hereunder though effected and evidenced only by an entry in the books of

accounts of the Trustee, provided such power is delegated to the Investment Manager pursuant to the Investment Management Agreement. The Trustee shall ensure that no conflicts of interest shall arise whilst conducting such activities.

M. *Power to effect compromises:* the Trustee, in consultation with the Investment Manager and subject to applicable law, shall have the power to:

(i) accept any property before the time at which it is transferable or payable;
(ii) pay or allow any claim on any evidence that it thinks sufficient;
(iii) accept any security movable or immovable in lieu of any amounts payable to it;
(iv) alter the dates for payment of any amounts payable to it; and
(v) compromise, compound, abandon or otherwise pay and settle any claim or thing whatsoever relating to the Trust or the Trust Deed.

N. *Power to borrow and create security:*

(i) The Trust acting through the Trustee shall, in consultation with the Investment Manager, have the power to cause the Trust to borrow or incur indebtedness including by way of issuance of debt securities or other securities or instruments permitted under the InvIT Regulations or other applicable law for the purpose of the Trust in accordance with the Trust documents and the InvIT Regulations.
(ii) The Trust acting through the Trustee shall, in consultation with the Investment Manager, have the power to secure the payment of any sum of money for and on behalf of the Trust in such manner and upon such terms and conditions in all respects as it deems fit including by mortgage or pledge or charge upon all or any Trust Assets (present or future);
(iii) The Trust acting through the Trustee shall subject to applicable law, in consultation with the Investment Manager, have the power to provide security, guarantee, undertakings, and other contractual comforts in relation to the indebtedness availed by any of the SPVs or Holdco, as applicable.

O. *Power to repay debts:* Subject to applicable law, the Trustee may cause the Trust to pay, prepay or repay any and all debt raised from any person in accordance with the terms therein and to redeem any debt securities or other securities, obligations or instruments in accordance with the terms thereof issued to persons in compliance with the InvIT Regulations and other applicable law, if so advised by the Investment Manager.

P. *Power to give loans:* Subject to applicable law, the Trustee shall, upon the recommendation of, the Investment Manager, extend loans out of the Trust Assets to SPVs or Holdco and also subscribe to debt or convertible or exchangeable securities or other securities or obligations or instruments of a similar nature or incur any indebtedness in accordance with the provisions of the, relevant Trust documents, the InvIT Regulations and other applicable law.

Q. *Power to re-invest:* Subject to the conditions laid down in the placement memorandum, other Trust documents and the InvIT Regulations, the Trustee may, subject to the advice of the Investment Manager, retain or re-invest any proceeds received by the Trust from any SPV or Holdco.

R. *Power to make rules*: The Trustee, in consultation with the Investment Manager, may make rules to give effect to and carry out the investment objectives, subject to the terms of the trust documents. In particular, and without prejudice to the generality of such power, the Trustee may provide, not inconsistent with the provisions of the Trust Deed and the InvIT Regulations, for all or any of the following matters, which may be delegated to the Investment Manager pursuant to the Investment Management Agreement subject to the InvIT Regulations:

(i) manner of maintaining of the records and particulars of the Unitholders and other instrument-holders of the Trust;
(ii) norms of investment by the Trust in accordance with the investment objectives and the investment strategy and in accordance with the powers and authorities of the Trustee as set out herein;
(iii) matters relating to deposit of any securities or SPVs or Holdco of the Trust to custodians and the procedure relating to the holding thereof by the custodian;

(iv) such other administrative, procedural or other matters relating to the administration or management of the affairs of the Trust and which matters are not required to be included or provided for in the Trust Deed and which matters are not inconsistent with the provisions thereof;
(v) procedure for voting by Unitholders in a meeting through postal ballot, proxy or otherwise;
(vi) procedure for summoning and conducting meetings of Unitholders.

S. *Power to appoint intermediaries*:

(i) The Trustee shall advise the Investment Manager in relation to the appointment of Valuer, Auditors, Registrar and transfer agent, merchant bankers, custodian, credit rating agency and any other intermediary or service provider or agent as may be applicable with respect to the activities pertaining to the InvIT, in a timely manner, in accordance with the InvIT Regulations and applicable law.
(ii) The Trustee shall ensure that the Investment Manager ensures that all activities of the intermediaries, agents or service providers appointment by the Investment Manager are in accordance with the InvIT Regulations and the guidelines and circulars issued thereunder, as applicable.

T. *Power to buy back Units:* Subject to applicable law, the Trustee, on behalf of the Trust, shall have the power to buy back Units from the Unitholders.

U. *Power to declare distributions:* The Trustee shall have the power to determine distributions to Unitholders and other rights attached to the Units in compliance with the Trust documents, the investment objectives, investment strategy and the InvIT Regulations.

V. *Power to insure property:* The Trustee shall have the power to obtain insurance policies for the Trust or SPVs or Holdco against any loss or damage from any peril, any assets and property forming part of the Trust Assets for any amount, and to pay the premiums out of the Trust Assets.

W. *Power to review reports:* The Trustee shall review the reports required in terms of InvIT Regulations and applicable law, as submitted by the Investment Manager and the Project Manager. In the event such reports are not submitted in a timely manner, the Trustee shall promptly follow-up with the Investment Manager and ensure that such reports are submitted as required under the applicable law.

X. *Power to open and operate bank accounts and demat accounts*: The Trustee shall have the power to open and operate one or more bank accounts and demat accounts for purposes of the Trust, including change of signatories of the bank accounts or demat accounts.

Y. *Power to execute documents*:

(i) Subject to the InvIT Regulations, the Trustee shall have the power to enter into all such negotiations and contracts, to appoint (or terminate the appointment of) any person, entity or intermediary, and, to execute and do all such acts, deeds and things for or on behalf of or in the name of the Trust as the Trustee may consider expedient for or in relation to any of the matters or otherwise for the purposes of the Trust.
(ii) The Trustee shall have the power to sign, seal, execute, deliver, register and/or terminate all deeds, documents, and assurances in respect of the Trust in accordance with applicable law.
(iii) The Trustee shall have the power to negotiate, sign, seal, execute, deliver and/or terminate the Trust Documents.

Z. *Other matters authorized by the Unitholders:* The Trustee shall have the power to take up with SEBI or with stock exchanges, as applicable, any matter which has been approved in any meeting of Unitholders, if the matter requires such action.

AA. *Power to provide indemnity:* The Trustee shall have the power to enter into any indemnification obligation under contract or applicable law on behalf of the Trust. The Trustee shall have the power to pay such obligation out of the Trust Assets as a trust expense. Such obligation shall be enforceable against the Trust and the Trustee solely in its capacity as the trustee of the Trust.

BB. *Other Powers:* Without prejudice to any other provisions of the Trust Deed, the Trustee shall also have the following powers and authorities exercisable pursuant to the advice of the Investment Manager:

(i) initiate, prosecute and/or defend any action or other proceedings in any court of law or through arbitration or in any other manner for recovery of debts or sums of money, right, title or interest, property, claim, matter or thing whatsoever now or hereafter to become due or payable or in any way belonging to the Trust by any means or on any account whatsoever in respect of and relating to the investments made by the Trust or Trustee and to discontinue or settle such actions or proceedings or suits as the Trustee may in its discretion deem fit;

(ii) commence, institute, conduct, defend or abandon any action or legal proceedings for the purposes of the Trust and have for such purposes, powers to sign and verify all written statements, petitions, appeals, declarations, revisions and applications and have power to refer any claim to arbitration and to perform, observe and challenge the awards;

(iii) appear in and defend or compromise any action or other proceedings now or hereafter to be instituted, commenced or prosecuted against or relating to the Trust in any court of law and if necessary through arbitration and to refuse and resist payments of any sum or sums or money or compliance with or fulfilment of any claim or demand or otherwise as the Trustee shall deem fit;

(iv) to make and give receipts, releases and other discharges for moneys payable to or by the Trust and for the claims and demands of or against the Trust;

(v) pay out of the income of the Trust after deducting all expenses, the income and other distributions in accordance with the InvIT Regulations;

(vi) to take into its custody or control the Trust Assets and hold such Trust Assets for the benefit of the Unitholders in accordance with the Trust Deed and the InvIT Regulations; and

(vii) generally to exercise all such powers as it may be required to exercise under the InvIT Regulations or any other applicable law for the time being in force and do all such matters and things as may promote the investment objectives or as may be incidental to or consequential upon the discharge of its functions and the exercise and enforcement of all or any of the powers and rights under the Trust Deed and the InvIT Regulations or any other applicable law.

CC. *Power to delegate:* Subject to the provisions of the Trust Deed, the Trustee may from time to time, in the interests of administrative and operational convenience, delegate to any committee or person (including the Investment Manager), any powers and duties including management of the Trust Assets vested in it under the Trust Deed, provided, however, that the Trustee shall remain responsible and liable for all the acts of commission or omission of such persons. Any action taken by such committee or person in respect of the Trust Assets shall be construed as an act done by the Trustee except in cases of gross negligence, fraud or wilful misconduct by such persons as determined by a court of competent jurisdiction whose decision is final and non-appealable.

2. *Duties of the Trustee*

A. *Interests of the Unitholders:* The Trustee shall carry on and conduct its business in a proper and efficient manner in the best interest of the Unitholders in accordance with the Trust Deed. The Trustee shall duly perform all its duties, responsibilities and powers as set out in the InvIT Regulations and other applicable law in the interest of the Unitholders and in accordance with the provisions of the Trust Documents.

B. *Supervision of the Investment Manager*

(i) The Trustee shall ensure that the Investment Manager complies with reporting and disclosure requirements in accordance with the InvIT Regulations and in case of any delay or discrepancy, the Trustee shall require the Investment Manager to rectify such delay or discrepancy on an urgent basis.

(ii) The Trustee shall oversee the activities of the Investment Manager in the interest of the Unitholders, ensure that the investment Manager complies with the applicable provisions of the InvIT Regulations, including in relation to reporting and disclosure requirements and shall obtain a compliance certificate from the Investment Manager on a quarterly basis.

(iii) The Trustee shall review transactions between the Investment Manager and its associates and where the Investment Manager has advised that there may be a conflict of interest, obtain a confirmation that such transaction is on an arm's length basis from a practicing chartered account, a valuer or as may be otherwise prescribed in the InvIT Regulations, as applicable.

(iv) The Trustee shall ensure that the Investment Manager reviews the valuation reports issued by the Valuer and submitted to the Trustee by the Investment Manager in accordance with the InvIT Regulations.

(v) The Trustee shall require the Investment Manager to set up such systems and procedures and submit such reports to the Trustee, as may be necessary for effective monitoring of the functioning of the InvIT.

(vi) The Trustee shall ensure that the Investment Manager convenes meetings of the Unitholders in accordance with the InvIT Regulations and oversee the voting by Unitholders and declaration of results (except where the Trustee is required to carry out such functions under the InvIT Regulations). The Trustee shall ensure that the Investment Manager convenes meetings of Unitholders within the period prescribed under the InvIT Regulations and the period between such meetings shall not exceed the period prescribed under the InvIT Regulations.

(vii) The Trustee shall ensure that the Investment Manager takes all actions and compliances, in relation to the right of eligible unitholder(s) to nominate unitholder nominee director(s) on the board of directors of the Investment Manager, in the manner prescribed under the InvIT Regulations.

C. *Supervision of the Project Manager:* The Trustee shall oversee the activities of the Project Manager with respect to compliance with the InvIT Regulations and the Project Implementation and Management Agreements and Investment Management Agreement and shall obtain a compliance certificate from the Project Manager on a quarterly basis.

D. *Providing information to the SEBI and the Stock Exchanges:* The Trustee shall ensure that the Investment Manager shall provide to the SEBI, the stock exchanges and other governmental authorities, as applicable, information as may be requested or required under applicable law by the SEBI, the stock exchanges or other governmental authorities, as applicable, in relation to the activities of the Trust. The Trustee shall comply with the information and intimation requirements under the InvIT Regulations. The Trustee shall ensure that the activity of the Trust is operated in accordance with the provisions of the Trust Deed, the InvIT Regulations, other applicable law and the Trust documents. The Trustee shall immediately inform the SEBI in case any act which is detrimental to the interests of the unitholders is noted.

E. *Documents and information to be provided to Unitholders:* The Trustee shall, and shall ensure that the Investment Manager shall, provide documents and information to the Unitholders with respect to the confirmation on the activities carried on by the Trust, as may be required by the SEBI, the stock exchanges or other governmental agency, as applicable, under applicable law.

F. *Change in Control:* The Trustee shall obtain approvals, if required under the Trust Deed, the InvIT Regulations, other applicable law, for any proposed change in control of the Trustee, the Investment Manager or the Project Manager, as applicable.

G. *Change in Investment Manager or Project Manager:* In the event of any proposed change or termination of the Investment Manager or Project Manager, the Trustee shall ensure that all conditions in connection with the removal of such Investment Manager or Project Manager and appointment of a new investment manager or project manager prescribed under the InvIT Regulations, the Trust documents and other applicable law are complied with. The previous investment manager or project manager shall continue to act as such at the discretion of the Trustee until such time as the new Investment Manager or Project Manager is appointed. The Trustee shall ensure that the new investment manager or project manager shall stand substituted as a party in all the documents (to the extent applicable) to which the earlier Investment Manager or Project Manager was a party. The Trustee shall also ensure that the earlier Investment Manager or Project Manager continues to be liable for all its acts of omissions and commissions for the period during which it served as investment manager or project manager, notwithstanding its change or termination.

H. *Subscription amounts*: The Trustee shall and shall ensure that the Investment Manager ensures that subscription amounts, if any, in case of any offering by the Trust are collected and utilized in accordance with the InvIT Regulations, the relevant Trust documents and conditions specified by the SEBI, as applicable.

I. *Maintenance of books of accounts and other records:* The Trustee shall cause the books of accounts and other records of the Trust to be maintained in accordance with the Trust Deed, the Trust documents and applicable law.

J. *Payment of statutory charges, operation of bank accounts etc.*

(i) The Trustee shall ensure that the Investment Manager shall make payments of all taxes, duties and any other statutory charges or levies that may be payable by the Trust or on behalf of the Unitholders from the Trust Assets, subject to the provisions of the Trust documents and applicable law.
(ii) The Trustee shall be responsible for opening and operating bank accounts and demat accounts on behalf of the Trust.

K. *Attainment of objects of the Trust:* The Trustee shall ensure that all acts, deeds and things are done for the fulfilment of the investment objectives of the Trust in accordance with the InvIT Regulations, the Trust documents and to secure the best interests of the Unitholders.

L. *Reports to be filed by the Trust:* The Trustee shall file such reports as may be required by the SEBI or any other governmental authority or as required under applicable law in relation to the activities carried on by the Trust.

M. *Unitholder Complaints:* The Trustee shall periodically review the status of Unitholders' complaints and their redressal by the Investment Manager. The Investment Manager shall provide quarterly reports on Unitholders' grievances to the Trustee, as applicable.

N. *Segregation of assets and liabilities:* The assets and liabilities of the Trust shall at all times be segregated from the assets and liabilities of the Trustee and the assets and liabilities of other trusts managed by the Trustee. The Trust Assets shall be held for the exclusive benefit of the Unitholders and such assets shall not be subject to the claims of any creditor or any person claiming under any other fund or trust administered or managed by the Trustee or the Investment Manager.

O. *Valuer*

(i) The Trustee shall ensure that the Valuer is not an associate of the Sponsor, the Investment Manager or the Trustee.
(ii) The Trustee shall ensure that the Investment Manager ensures that a detailed valuation is undertaken of the Trust Assets by the Valuer at such intervals and in the manner specified under the InvIT Regulations and the Trust documents.
(iii) The Trustee shall ensure that the remuneration of the Valuer is not linked to or based on the value of the asset being valued.

P. *Investment by Trustee:* The Trustee shall invest in Units only if permitted under applicable law and such investments shall be in accordance with applicable law.

Q. *Compliance with the InvIT Regulations*: The Trustee shall fulfil its obligations under applicable provisions of the InvIT Regulations.

R. *Delegation to the Investment Manager and Project Manager:* The Trustee shall delegate all such powers to the Investment Manager as may be required by the Investment Manager to carry out its obligations under the Investment Management Agreement and applicable law and as may be required for the benefit of the Unitholders. The Trustee shall delegate all such powers to the Project Manager as may be required by the Project Manager to carry out its obligations under the Project Implementation and Management Agreement and under applicable law.

3. *Rights of the Trustee*

A. *Right to receive Trusteeship fees:* The Trustee shall have the right to receive trusteeship fees from the Trust Assets for services to be rendered in relation to Trust as set out in the engagement letter dated January 15, 2020.

B. *Right to receive advice:* The Trustee may, in the discharge of its duties, act upon (i) any advice obtained in writing from any bankers, accountants, brokers, lawyers, professionals, consultants, or other experts acting as advisers to the Trustee and (ii) any instructions received from the Unitholders in a validly conducted Unitholders meeting.

C. *Right to reimbursement of expenses:* the Trustee shall be entitled to the reimbursement of all expenses incurred by the Trustee on behalf of the Trust out of the Trust Assets in the manner set out in the Trust Deed.

D. *Restriction on right to inspect:* subject to applicable law, no Unitholder shall be entitled to inspect or examine the Trust's premises or properties without the permission of the Trustee, who shall give such permission, if necessary, in consultation with the Investment Manager. Further, no Unitholder shall be entitled to require discovery of any information in respect of any detail of the Trust's activities or any matter which may relate to the conduct of the business of the Trust and which information may, in the opinion of the Trustee and the Investment Manager adversely affect the interest of the unitholder.

4. *Liabilities of the Trustee*

A. *Assets received by the Trustee*:

(i) The Trustee shall only be chargeable for such monies, stocks, funds, shares, securities, investment or property as the Trustee shall have actually received and shall not be liable or responsible for any banker, broker, custodian, the Investment Manager or other person in whose hands the same may be deposited or placed, nor for the deficiency or insufficiency in the value of the Trust Assets nor otherwise for any involuntary loss.

(ii) Any receipt signed by the Trustee for any monies, stocks, funds, shares, securities, investment or property, paid, delivered or transferred to the Trustee by virtue of the Trust Deed or in exercise of the duties, functions and powers of the Trustee shall effectively discharge the Trustee or the person paying, delivering or transferring the same provided that the Trustee and such person shall have acted in good faith, without negligence and shall have used their best efforts in connection with such dealings and matters.

B. *Acts or things required to be done by the Trustee under applicable law:* The Trustee shall not be liable to the Unitholders for an act or omission which by reason of any provision under applicable law, whether in the present or in the future, or of any decree, order or judgment of any court or governmental authority, the Trustee is required to do or omit doing. Subject to the InvIT Regulations and other applicable law, in such an event if it becomes impossible or impracticable to carry out any of the provisions of the Trust Deed, the Trustee shall not be liable. However, it shall duly inform the Sponsor, the Investment Manager and the Unitholders of such event.

C. *Authenticity of Signature and Seal:* the Trustee shall not be responsible to any Unitholder for the authenticity of any signature or of any seal affixed to any endorsement on any certificate or to any transfer or form of application endorsement or other document effecting the title to or transmission of interests in the Trust or of any of the Trust Assets or be in any way liable for any forged or unauthorized signature on or any seal affixed to such endorsement transfer or other document or for acting upon or giving effect to any such forged or unauthorized signature or seal. The Trustee shall be entitled but not bound to require that the signature of any Unitholder to any document required to be signed by such Unitholder under or in connection with these presents shall be verified to the reasonable satisfaction of the Trustee.

D. *Acts done in good faith:* the Trustee shall not be under any liability on account of anything done or omitted to be done or suffered by the Trustee in good faith if the Trustee is able to establish that it performed its rights and duties and exercised its powers, as a reasonable person in such a position would have, in compliance with the provisions of the Trust documents.

E. *Value or price of an investment:* the trustee may accept a certificate from the Valuer as sufficient evidence for the value of any investment or for the cost price or sale price thereof or for any other related aspect.

F. *Suits, proceedings or claims against the Trust:* the Trustee shall not be under any obligation to institute, acknowledge the service of, appear in, prosecute or defend any action, suit, proceedings or claim in respect of the provisions hereof or in respect of the investments or any part thereof which in its opinion would or might involve it in expense or liability unless the Investment Manager shall so request in writing and the Trustee is satisfied that the value of the investment is sufficient to provide adequate indemnity against costs, claims, damages, expenses or demands to which it may be put as Trustee as a result thereof.

G. *Bona fide action by the Trustee:* The Trustee shall not be liable in respect of any action taken or damage suffered by it as a result of reliance upon any notice, resolution, direction, consent, certificate, affidavit, statement, certificate of stock, plan of reorganization or (without being limited in any way by the foregoing) other paper or document believed to be genuine and to have been passed, sealed or signed by appropriate authorities or entities provided that the foregoing shall not absolve the Trustee of its obligation to perform basic prescribed checks on authenticity of such notice, resolution, direction, consent, certificate, affidavit, statement, certificate of stock, other paper or document prior to such reliance.

H. *Information:* in the event that the applicable law requires the Trustee to provide information regarding the Trust fund, any of the Unitholders, the Trust Assets or income derived therefrom, the Trustee shall comply with such a request in good faith, and shall not be liable to the Unitholders or any of them or to any other party as a result of such compliance or in connection with such compliance.

I. *Validity of decisions made by the Trustee*: the exercise of all power and discretion by the Trustee shall be in accordance with the trust documents and applicable law and any powers have been delegated by the directors of the board of the Trustee to any officer of the Trustee, if the exercise of such powers is within the parameters of such delegated authority.

J. *Non-exclusivity:* The Trustee shall not be prevented from and nothing contained herein shall be construed in a manner so as to prevent the Trustee from acting as a trustee of another infrastructure investment trust, real estate investment trust, security trust, alternative investment fund, mutual fund, private equity fund or other fund or investment vehicle that is separate and distinct from the Trust, and retaining for its own use and benefit all remuneration, profits and advantages which it may derive from such trust, security trust, alternative investment fund, mutual fund, private equity fund or other fund or investment vehicle.

5. *Issue, transfer, listing and redemption of Units*

A. The Investment Manager, supervised by the Trustee, shall be responsible for all activities pertaining to the issue of Units including filing of any placement memorandum, final placement memorandum with the SEBI and dealing with all matters relating to the allotment of Units to Unitholders and the listing and trading of Units, if applicable.
B. No Units may be issued without complying with the requirements of applicable law. No Unitholder shall enjoy superior voting or any other rights over another Unitholder, unless permitted under applicable law.
C. There shall not be multiple classes of Units, unless permitted under applicable law.
D. The Unitholders may, in accordance with the provisions of the Trust Documents and subject to applicable law, transfer all or any of their Units to another person where such person accepts all the rights and obligations of the transferor and the Trustee and the Investment Manager shall give effect such transfer in accordance with applicable law.
E. The minimum offer and allotment to the public through a placement memorandum shall be in accordance with the InvIT Regulations and other applicable law.
F. Units may be redeemed by way of a buy-back or as otherwise permitted under applicable law in accordance with the Trust documents.

G. The Trust intends to list its Units on one or more stock exchanges subject to compliance with the conditions specified under the InvIT Regulations and directions issued by the SEBI or stock exchanges, as applicable.
H. The Trust shall ensure that no advertisement shall be issued pertaining to any private placement of Units by the Trust.

6. *Rights of the Unitholders*

A. Unitholders meetings shall be conducted in accordance with the InvIT Regulations. Each Unit allotted to the Unitholders shall have one vote for any decisions requiring a vote of Unitholders.
B. The minimum number of Unitholders of the Trust shall be in accordance with the applicable provisions of the InvIT Regulations.
C. Unitholders shall have the right to receive income or distribution as specified in the Trust Deed.
D. The aggregate liability of each Unitholder in the Trust shall be limited to the capital contribution payable by such Unitholder in relation to its subscription of Units. No Unitholder shall have any personal liability or obligation with respect to the Trust.
E. In no event shall the Trustee or the Investment Manager be bound to make payment to any Unitholder, except out of the funds held by it for that purpose under the provisions of this Trust Deed or the Investment Management Agreement.
F. The Unitholders shall not give any directions to the Trustee or the Investment Manager (whether in a meeting of Unitholders or otherwise) if it would require the Trustee or the Investment Manager to do or omit doing anything which may result in:

(i) non-compliance of applicable law by the Trust or the Trustee, in its capacity as the trustee of the Trust or the Investment Manager, in its capacity as the investment manager; or
(ii) interference with the exercise of any discretion expressly conferred on the Trustee by the Trust Deed or the Investment Manager by the Investment Management Agreement, or the determination of any matter which requires the agreement of the Trustee or the Investment Manager.

G. A Unitholder whose name and account details are entered in the depository register shall be the only person entitled to be recognised as having a right, title, interest in or to the Units registered in its name and the Trustee shall recognise such holder as an absolute owner.
H. The depository register shall (save in case of manifest error) be conclusive evidence of the number of Units held by each depositor and in the event of any discrepancy between the entries of the depository register and any statement issued by the depository, the entries in the depository register shall prevail unless the depositor proves to the satisfaction of the Trustee and the depository that the depository register is incorrect.
I. The Unitholders shall have the right to call for certain matters to be subject to their consent, in accordance with the InvIT Regulations and applicable law.
J. The Trustee shall and shall ensure that the Investment Manager obtains the consent of the Unitholders for the matters prescribed under the Trust Deed and the InvIT Regulations in accordance with the provisions of the InvIT Regulations.
K. The eligible unitholder(s) shall have the right to nominate unitholder nominee director(s) on the board of directors of the Investment Manager from time to time, in the manner prescribed under the InvIT Regulations.

7. *Indemnity*

A. In addition to the fees, payments, distributions and expense reimbursements herein described, the Trust Assets shall be utilized to indemnify and hold harmless the Trustee, its directors and employees (the **"Indemnified Parties"**) from and against any claims, losses, costs, damages, liabilities, suits, proceedings and expenses, including legal fees **("Losses")** suffered or incurred by any of the Indemnified Parties by reason of their activities on behalf of the Trust, unless such Losses have resulted from (i) fraud, gross negligence, wilful misconduct of the indemnified parties, (ii) material breach of the provisions of the Investment Management Agreement, or (iii) breach of the provisions of the other Trust documents by the Trustee, as finally determined by a court of competent jurisdiction.

B. The indemnification rights of the Indemnified Parties under the Trust Deed are without prejudice, independent of and in addition to, such other rights and remedies as the Indemnified Parties may have under applicable law or in equity or otherwise.

8. *Term & Termination*

A. The Trustee shall hold the office of trustee of the Trust under the Trust Deed, until the earlier of the: (a) dissolution or winding-up of the Trust; or (b) discharge of the Trustee from its office upon the occurrence of the events set out below:

(i) resignation by the Trustee from its office provided that, in the event that the Trustee desires to resign, it may submit its resignation to the Sponsor and the Investment Manager by giving 60 business days' prior notice with the reasons for its resignation;
(ii) the Trustee going into liquidation (except a voluntary liquidation for the purpose of reconstruction or amalgamation) or if a receiver is appointed to all or a substantial portion of the assets of the Trustee or for any other reason it ceases to be entitled to provide and perform the services herein provided for in accordance with applicable law;
(iii) passing of a direction by the SEBI or any other governmental authority to remove the Trustee; or
(iv) the Unitholders pass a resolution under the InvIT Regulations or the Trust documents for removal of the Trustee.

B. Upon the resignation or removal of the Trustee, a new trustee shall be appointed in its place by execution of a deed of appointment between the Sponsor and the new trustee, to hold office in its place from the date of acceptance of the resignation, subject to approval of the Unitholders. The date of acceptance of the Trustee's resignation shall be deemed to be the date of discharge of the Trustee. On such appointment, the Trust shall vest with the new trustee.
C. The Trustee shall not be discharged unless a new trustee is appointed in its place. The appointment of a successor trustee shall be done by an instrument in writing.
D. Notwithstanding the discharge of the Trustee in accordance with the provision in the Trust Deed, the Trustee shall continue to be responsible and liable for all its past acts and omissions, subject to the indemnity of the Trustee as provided in the Trust documents.
E. Every new trustee shall have the powers, authorities and discretion, and shall in all respects act and be liable as if originally appointed as a Trustee under the Trust Deed.
F. *Extinguishment or dissolution of the Trust:* Subject to applicable law, the Trust shall stand dissolved and terminated:
(i) if the trust becomes illegal;
(ii) upon liquidation of the Trust Assets;
(iii) if there are no projects or assets remaining in the Trust and the Trust does not invest in any project for six months thereafter;
(iv) if the trust fails to maintain the minimum number of unitholders specified in the Trust Deed and as may be applicable under the InvIT Regulations; or
(v) delisting of the units and/or winding up of the Trust in accordance with the InvIT Regulations.

C. The Investment Manager

Roadstar Investment Managers Limited ("RIML")

History and Certain Corporate Matters

RIML is the Investment Manager of the Trust having CIN U67100MH2001PLC163992. It was originally incorporated as a private limited company on October 15, 2001, as North Karnataka Expressway Private Limited. It was converted into a public limited company on September 25, 2002, through a fresh certificate of incorporation. Subsequently, the name of the Investment Manager was changed from North Karnataka Expressway Limited to Roadstar Investment Managers Limited and a fresh certificate of incorporation was issued on April 20, 2021. The Investment Manager's registered office is situated at the IL&FS Financial Centre, Plot No. C-22, G Block, Bandra Kurla Complex, Bandra (E), Mumbai – 400051.

Background of RIML

RIML, being the Investment Manager of the Trust, has extensive experience in operating a road project. The Investment Manager has executed the project of rehabilitation, strengthening and expanding the existing two-lane road to a four-lane road in the Dharwad – Maharashtra border section of National Highway-4 in the State of Karnataka under a concession agreement dated November 20, 2001. The commercial operations date of the project was March 26, 2002 and the concession period was of 17 years and six months which expired on December 19, 2019. Thereafter, the project was handed back to NHAI in terms of the concession agreement. The Investment Manager has the requisite infrastructure for managing the assets and investments of the Trust. The management of the Investment Manager has been suitably broad-based and appropriate systems/procedures have been formulated to enable the Investment Manager to carry out its activities as required under the InvIT Regulations.

Board of Directors of RIML

The board of directors of RIML is entrusted with overall management of RIML. Please see below the details in relation to the directors on the board of RIML:

(xiii) to make further investments from the disposition proceeds in accordance with the Trust Documents and the InvIT Regulations.

C. *Power to allot Units etc. and accept subscriptions*: The Investment Manager shall have the power to deal with all matters relating to the allotment of Units on behalf of the Trust. The Investment Manager (on behalf of the Trust) shall have the power to accept subscriptions to Units, debt securities (including any non-convertible debentures, bonds or convertible securities) or other securities, obligations or instruments permitted to be issued by the Trust under the InvIT Regulations and issue and allot Units, debt securities (including any non-convertible debentures, bonds or convertible securities) or other securities, obligations or instruments to Unitholders or other security holders, as applicable, and undertake all related activities. The Investment Manager shall, subject to and only in accordance with the terms of the Trust Documents and applicable law, have the power to approve or take on record any transfer of the Units or debt securities or other securities or instruments or obligations issued by the Trust.

D. *Register of holders*: The Investment Manager shall have the power to maintain (or cause depositories to maintain) a register of the Unitholders or other instrument-holders of the Trust.

E. *Creation of reserves*:

(i) The Investment Manager shall make such reserves out of the income or the capital as it may deem proper and any directions of the Trustee in this behalf whether made in writing or implied from their acts shall, so far as the law permit, be conclusive and binding.

(ii) Any Distribution made from such reserves shall be in accordance with the InvIT Regulations.

F. *Power to appoint external advisors*: The Investment Manager shall have the power to use the services of external advisors and rely on the information provided in the due diligence process of assessing investment proposals as it deems necessary.

G. *Power to employ agents:* The Investment Manager, in consultation with the Trustee, shall have the power to employ and pay at the expense of the Trust, any agent in any jurisdiction whether attorneys, solicitors, consultants, brokers, banks, trust companies or other agents, without being responsible for the default of any agent if employed in good faith to transact any business, including without limitation, the power to appoint agents to raise funds, or do any act required to be transacted or done in the execution of the responsibilities hereof including the receipt and payment of moneys and the execution of documents.

H. *Power to appoint nominees and custodians*: The Investment Manager, in consultation with the Trustee, may appoint any custodian in order to provide custodial services, and permit any property comprised in the Trust to be and remain deposited with a custodian or with any person or persons in India or in any other jurisdiction subject to such deposit as authorized by the Trustee and permissible under applicable law.

I. *Power to oversee activities of the Project Manager*: The Investment Manager shall oversee the activities of the Project Manager with respect to the Trust and ensure that the Project Manager complies with the InvIT Regulations and the Project Implementation and Management Agreements. The Investment Manager shall obtain a compliance certificate from the Project Manager on a quarterly basis, or such other time and in the form as may be prescribed under the InvIT Regulations.

J. *Power to pay duties and taxes*: In the event of any capital gains tax, income tax, stamp duty or other duties, fees or taxes (and any interest or penalty chargeable thereon) whatsoever becoming payable in any jurisdiction in respect of the Trust or any part thereof or in respect of documents issued or executed in pursuance of the Trust Deed or the Investment Management Agreement in any circumstances whatsoever, the Investment Manager shall have the power and duty to pay all such duties, fees or taxes (and any interest or penalty chargeable thereon) as well as to create any reserves for future potential tax liability (and any such interest or penalty) out of the Trust's income. The Investment Manager may pay such duties, fees or taxes (and any such interest or penalty) on behalf of the Trust and be reimbursed for such payments out of the Trust Assets.

K. *Power to allocate and expend on behalf of the Trust:* The Investment Manager shall have the power to incur and pay Trust Expenses, which shall include, without limitation, any expenses made under any contract or applicable law, out of the Trust Assets, including any funds held by the Trust, the SPVs, the Holdco or other assets of the Trust, as applicable, in such proportion as may be determined from time to time.

L. *Power to exercise rights in respect of the* Trust Assets*:* The Investment Manager shall have the power to exercise all rights of the Trust in the Trust Assets, including voting rights, rights to appoint directors, whether pursuant to securities held by it, or otherwise, in such manner as it deems to be in the best interest of the Trust, and in accordance with the InvIT Regulations and other applicable law. The Investment Manager shall, in consultation with the Trustee, appoint the majority of the Board of Directors or the governing board of the Holdco and SPVs, as applicable.

M. *Power to take counsel's opinion*: The Investment Manager shall have the power to take the opinion of legal, tax or other counsel in any jurisdiction concerning any difference arising under the Investment Management Agreement or any matter in any way relating to the Investment Management Agreement or to its duties in connection with the Investment Management Agreement. The fees of such counsel shall be paid from the Trust Assets, including any funds held

by the Trust, the SPVs, the Holdco or other assets of the Trust, as applicable.

N. *Power to effect compromises*: The Investment Manager, in consultation with the Trustee, shall have the power to:

(i) accept any property before the time at which it is transferable or payable;

(ii) pay or allow any claim on any evidence that it thinks sufficient;

(iii) pay or allow any amounts on any evidence that it deems sufficient;

(iv) accept any security (movable or immovable) *in lieu* of any amounts payable to it;

(v) alter the dates for payment of any amounts payable to it; and

(vi) compromise, compound, abandon, submit to arbitration or otherwise pay and settle any claim or thing whatsoever relating to the Trust or the Investment Management Agreement.

O. *Power to borrow and create security*:

(i) The Investment Manager shall have the power to cause the Trust to borrow or incur indebtedness including by way of issuance of debt securities or other securities or instruments permitted under the InvIT Regulations or other applicable law for the purpose of the Trust in accordance with the Trust Documents and the InvIT Regulations.

(ii) The Investment Manager shall have the power to secure the payment of any sum of money for and on behalf of the Trust in such manner and upon such terms and conditions in all respects as its deems fit including by mortgage or pledge or charge upon all or any Trust Assets (present or future).

(iii) The Investment Manager, shall subject to applicable law, have the power to provide security, guarantee, undertakings, and other contractual comforts in relation to the indebtedness availed by any of the Trust, SPVs or Holdco, as applicable.

(iv) The limits in relation to the aggregate consolidated borrowings and deferred payments of the Trust, any Holdco and the SPVs, net of cash and cash equivalents, shall be as approved by the Unitholders from time to time in the manner set out in the Trust Documents.

P. *Power to repay debt:* The Investment Manager may cause the Trust to pay, prepay or repay any and all debt raised from any Person in accordance with the terms therein and to redeem any debt securities or other securities, obligations or instruments in accordance with the terms thereof issued to Persons in compliance with the InvIT Regulations and other applicable law.

Q. *Power to give loans*: Subject to applicable law, the Investment Manager, in consultation with the Trustee, may extend loans out of the Trust Assets to SPVs or Holdco and also subscribe to debt or convertible or exchangeable securities or other securities, obligations or instruments of a similar nature or incur any indebtedness in accordance with the provisions of the relevant Trust Documents, the InvIT Regulations and other applicable law.

R. *Power to re-invest*: Subject to the conditions laid down in any offer document and the InvIT Regulations, the Investment Manager may retain or recall for reinvestment any proceeds received by the Trust from any SPV or Holdco.

S. *Power to make rules*: The Investment Manager may make rules to give effect to and carry out the Investment Objectives, subject to the terms of the Trust Documents and applicable law. In particular, and without prejudice to the generality of such power, the Investment Manager may provide, not inconsistent with the provisions of the Trust Deed and the InvIT Regulations, for all or any of the following matters:

(i) manner of maintaining of the records and particulars of the Unitholders and other instrument-holders of the Trust;

(ii) norms of investment by the Trust in accordance with the Investment Objectives and the Investment Strategy and in accordance with the powers and authorities of the Investment Manager as set out herein;

(iii) matters relating to entrustment/ depositor handing over of any securities or SPVs or Holdco of the Trust to custodians and the procedure relating to the holding thereof by the custodian;

(iv) such other administrative, procedural or other matters relating to the administration or management of the affairs of the Trust, which are not required to be included or provided for in the Trust Deed and not inconsistent with the provisions contained in the Investment Management Agreement;

(v) procedure for voting by Unitholders in a meeting, through postal ballot, proxy or otherwise; and

(vi) procedure for summoning and conducting meetings of Unitholders.

T. *Power to appoint intermediaries*:

(i) The Investment Manager shall, in consultation with the Trustee, appoint the Valuer, Auditor, registrar and transfer agent, merchant bankers, credit rating agencies and any other intermediaries or service providers or agents, as may be applicable, with respect to the activities in relation to the Trust in accordance with the provisions of the InvIT Regulations.

(ii) The Investment Manager shall, in consultation with the Trustee, appoint an Auditor for a period of not more than five consecutive years, or such other period as may be specified in the InvIT Regulations, provided that an Auditor who is not an individual may be reappointed subject to and in accordance with the provisions of the InvIT Regulations.

(iii) The Investment Manager shall determine the remuneration of the Auditor in consultation with the Trustee. In the event the Investment Manager is required to take any approval of the Unitholders for approval of remuneration of the Auditor or appointment of the Auditor, such approval of the Unitholders shall be obtained in accordance with the requirements specified in the InvIT Regulations and the Trust Documents.

(iv) The Investment Manager shall have the power to determine the remuneration of the Valuer in consultation with the Trustee and the Trustee shall ensure that the remuneration of the Valuer is not linked to or based on the value of the assets being valued.

(v) The Investment Manager shall ensure that all activities of the intermediaries, agents or service providers appointment by the Investment Manager are in accordance with the InvIT Regulations and the guidelines and circulars issued thereunder, as applicable.

U. *Power to restrict right to inspect:* Subject to applicable law, no Unitholder shall be entitled to inspect or examine the Trust's premises or properties without the permission of the Investment Manager. Further, no Unitholder shall be entitled to require discovery of any information with respect to any detail of the Trust's activities or any matter which may relate to the conduct of the business of the Trust and which information may, in the opinion of the Trustee and the Investment Manager adversely affect the interest of other Unitholders.

V. *Power to redeem Units and return capital*: Subject to applicable law, the Investment Manager shall have the power to redeem the Units of the Trust and return capital, from time to time, in accordance with the InvIT Regulations.

W. *Power to buy back Units*: Subject to applicable law, the Investment Manager, on behalf of the Trust, shall have the power to buy back Units from the Unitholders.

X. *Power to insure property:* The Investment Manager shall have the power to obtain insurance policies for the Trust or the SPVs or Holdco against any loss or damage from any peril, any assets and property forming part of the Trust Assets for any amount, and to pay the premiums out of the Trust Assets.

Y. *Power to open and operate bank accounts and demat accounts:* The Investment Manager shall have the power to open and operate one or more bank accounts and demat accounts for purposes of the Trust, including authorizing the change of signatories of the bank accounts or demat accounts.

Z. *Power to execute documents:*

(i) The Investment Manager shall have the power to enter into all such negotiations and contracts, to appoint (or terminate the appointment of) any Person, entity or intermediary, and, to execute and do all such acts, deeds and things for or on behalf of or in the name of the Trust as the Investment Manager may consider expedient for or in relation to any of the matters or otherwise for the purposes of the Trust.

(ii) The Investment Manager shall have the power to sign, seal, execute, deliver, register and/or terminate, according to applicable law, all deeds, documents, and assurances in respect of the Trust.

(iii) The Investment Manager shall have the power to negotiate, sign, seal, execute, deliver and/or terminate the Trust Documents, including but not limited to any share purchase agreement, share subscription agreement, services agreement, deed of right of first offer, leave and license agreement, rent agreement, loan documentation, placement memorandum, final placement memorandum, information memorandum, issue agreement, underwriting agreement or any other deed, agreement or document in connection with the Trust, including any amendments, supplements or modifications thereto.

AA. *Reports to be filed by the Trust:* The Investment Manager shall have the power to file such reports as may be required by the SEBI or any other Governmental Authority or as required under applicable law in relation to the activities carried on by the Trust.

BB. *Other matters authorized by the Unitholders*: The Investment Manager shall have the power to take up with SEBI or with the Stock Exchanges as applicable, any matter which has been approved in any meeting of Unitholders post the Initial Offer by the Trust, if the matter requires such action.

CC. *Other powers*: Without prejudice to any other provisions of the Investment Management Agreement, the Investment Manager shall also have the following powers and authorities:

(i) initiate, prosecute and/or defend any action or other proceedings in any court of law or through arbitration or in any other manner for recovery of debts or sums of money, right, title or interest, property, claim, matter or thing whatsoever now or hereafter to become due or payable or in any way belonging to the Trust by any means or on any account whatsoever in respect of and relating to the investments made by the Trust or Investment Manager (on behalf of the Trust) or to discontinue or settle such actions or proceedings or suits as the Investment Manager may in its discretion deem fit;

(ii) commence, institute, conduct, defend or abandon any action or legal proceedings for the purposes of the Trust and have for such purposes, powers to sign and verify all written statements, petitions, appeals, declarations, revisions and applications and have power to refer any claim to arbitration and to perform, observe and challenge the awards;

(iii) appear in and defend or compromise any action or other proceedings now or hereafter to be instituted, commenced or prosecuted against or relating to the Trust in any court of law and if necessary through arbitration and to refuse and resist payment of any sum or sums or money or compliance with or fulfilment of any claim or demand or otherwise as the Investment Manager shall deem fit;

(iv) to make and give receipts, releases and other discharges for moneys payable to or by the Trust and for the claims and demands of or against the Trust;

(v) pay out of the income of the Trust after deducting all expenses, the income and other Distributions in accordance with the InvIT Regulations;

(vi) to issue statement of accounts or Unit certificates (if requested) to the Unitholders on behalf of the Trustee in accordance with applicable law;

(vii) to take into its custody or control the Trust Assets and hold such Trust Assets for the benefit of the Unitholders in accordance with the Trust Deed, the Investment Management Agreement and the InvIT Regulations;

(viii) ensure adequate and timely redressal of all unit holders' grievances pertaining to activities of the Trust; and

(ix) generally to exercise all such powers as it may be required to exercise under the InvIT Regulations or any other applicable law for the time being in force and do all such matters and things as may promote the Investment Objectives or as may be incidental to or consequential upon the discharge of its functions and the exercise and enforcement of all or any of the powers and rights under the Investment Management Agreement and the InvIT Regulations or any other applicable law.

DD. *Power to provide indemnity*: The Investment Manager shall have the power to enter into any indemnification obligation under contract or applicable law on behalf of the Trust. The Investment Manager shall have the power to pay such obligation out of the Trust Assets as a Trust Expense.

EE. *Power to delegate:* The Investment Manager may from time to time, in the interests of administrative and operational convenience, delegate to any duly qualified committee or Person, any powers and duties including management of the Trust Assets vested in it under the Investment Management Agreement, provided, however, that the Investment Manager shall remain responsible and liable for all the acts of commission or omission of such Persons. Any action taken by such committee or Person in respect of the Trust Assets shall be construed as an act done by the Investment Manager.

2. *Duties of the Investment Manager*

The Investment Manager shall perform its duties as required under the Investment Management Agreement in accordance with the InvIT Regulations, including but not limited to:

A. *Experienced Team:*

(i) The Investment Manager shall establish and maintain a dedicated, specific team of its employees ("**Team**"). The Team shall comprise of adequate number of members, with relevant experience as required under applicable law.

(ii) The Investment Manager shall ensure that it has adequate infrastructure and sufficient key personnel with adequate qualification to undertake management of the Trust at all times. In the event of any attrition of key personnel who are required to be part of the Team in accordance with the InvIT Regulations, the Investment Manager shall ensure that a new employee, who fulfils the requirement under the InvIT Regulations, joins the Team before the previous employee departs in order to ensure the composition required under the InvIT Regulations. The Investment Manager shall have the primary obligation to find and replace any of the key members of the Team. It being clarified that the Investment Manager will exercise the rights and perform the duties through the Team as per the terms of the Investment Management Agreement and for the purpose of the Investment Management Agreement, (unless repugnant to the context) it shall be deemed that the Investment Manager is acting through the Team.

B. *Interest of the Unitholders:* The Investment Manager shall use best endeavours to carry on and

conduct its business in a proper and efficient manner in the best interest of the Unitholders. Further, it shall at all times exercise due diligence in carrying out its duties and protecting the interest of the Unitholders.

C. *Duty to promote and manage the Trust:* The Investment Manager shall coordinate with the Trustee, as may be necessary, with respect to the operations of the Trust.

D. *Duty to ensure valuation:* The Investment Manager shall ensure that the valuation of the Trust Assets is done by the Valuer in accordance with the InvIT Regulations.

E. *Insurance:* The Investment Manager shall arrange for adequate insurance coverage for the Trust Assets in accordance with the InvIT Regulations. If any of the Trust Assets are held by an SPV or Holdco, the Investment Manager shall ensure that such assets are adequately insured.

F. *Accounts, audit and reporting:* The Investment Manager shall maintain proper books of accounts, documents and records with respect to the Trust, in the manner set out in the Trust Deed and in accordance with applicable law. The financial year of the Trust shall begin from the date of the Trust Deed and shall end on the immediately succeeding March 31 and on the anniversary thereof in each succeeding year unless otherwise determined. The Investment Manager shall ensure that audit of the accounts of the Trust by the Auditor is undertaken in accordance with the InvIT Regulations and such report is submitted to the Stock Exchanges within the time stipulated by Stock Exchange, if any. Notwithstanding the above, the Investment Manager shall ensure that the audit of accounts of the Trust by the Auditor is done not less than once in a year and such report is submitted to the Stock Exchanges within sixty (60) days of the end of the Financial Year.

G. *Distributions:* The Investment Manager shall make Distributions to Unitholders in accordance with the InvIT Regulations, the Trust Documents, the Investment Strategy and other applicable law. Subject to the Trust Documents, applicable law and the Investment Strategy, at least such percentage of the net distributable cash flows of the SPVs and Holdco (as applicable) shall be distributed to the InvIT, as prescribed in the InvIT Regulations. The Distributions shall be made at such periods as prescribed under the InvIT Regulations.

H. *Meeting of Unitholders:* The Investment Manager shall convene meetings of the Unitholders in accordance with the InvIT Regulations, including at the written request of the Unitholders as specified therein, and maintain records pertaining to the meetings in accordance with the InvIT Regulations.

I. *Change in Control:* The Investment Manager shall notify the Trustee prior to any Change in Control of the Investment Manager to enable the Trustee to seek prior approval from the Unitholders (and the SEBI or any other Governmental Authority, if applicable) and shall ensure that no such Change in Control is given effect to, until the approval of the Unitholders (and the SEBI or any other Governmental Authority, as applicable) has been obtained, or the Investment Management Agreement is terminated and a new investment manager has been appointed in accordance with the terms hereof, or in compliance with any other requirement under the InvIT Regulations, other applicable law and the Trust Documents.

J. *Monitoring:* The Investment Manager shall, set up effective systems and procedures, as may be necessary, to effectively monitor the functioning of the Trust, including the current and projected financial position of the Trust Assets. The Investment Manager will place before its board of directors, a report on the activity and performance of the Trust in accordance with the InvIT Regulations. The Investment Manager, in consultation with the Trustee, shall designate an appropriately qualified employee to act as the compliance officer for monitoring of compliance with the InvIT Regulations and any circulars or guidelines issued thereunder and notifying the SEBI in case of non-compliance. Further, the Investment Manager shall ensure that the activities of the Trust are in compliance with the laws of the state or local body, including local building laws.

K. *Maintenance of records:* The Investment Manager shall maintain records pertaining to the activity of the Trust in terms of Regulation 26 of the InvIT Regulations.

L. *Duty in relation to Investment Objectives:* The Investment Manager shall manage the Trust in

accordance with applicable law (including the InvIT Regulations) and the Trust Documents and the Investment Strategy, and shall ensure that the investments made by the Trust are in accordance with the investment conditions specified in the applicable provisions of the InvIT Regulations and in accordance with the Investment Strategy.

M. *Transactions between the Project Manager and its Associates:* The Investment Manager shall review the transactions carried out between the Project Manager and its Associates and where the Project Manager has advised that there may be a conflict of interest, shall obtain confirmation from a practicing chartered accountant or valuer, as applicable, that such transaction is on an arm's length basis.

N. *Unitholder grievances:* The Investment Manager shall ensure adequate and timely redressal of Unitholders' grievances pertaining to the activities of the Trust in accordance with the InvIT Regulations. The Investment Manager shall submit reports on Unitholders' grievances to the Trustee, as applicable, either quarterly or at such other intervals/times as prescribed under the InvIT Regulations.

O. *Information to Trustee, Unitholders, SEBI and other Governmental Authorities:*

(i) The Investment Manager shall provide to the SEBI, the Stock Exchanges and other Governmental Authorities, as applicable, information as may be requested or required under applicable law by the SEBI, the Stock Exchanges or other Governmental Authorities, as applicable, in relation to the activities of the Trust, including any information having bearing on the operation or performance of the Trust as well as price sensitive information. The Investment Manager shall comply with the information and notification requirements under the applicable provisions of the InvIT Regulations (including disclosure to the Trustee and the Unitholders of any information having a bearing on the operation or performance of the Trust) in accordance with the timelines specified in the InvIT Regulations.

(ii) The Investment Manager shall notify the Trustee and the Unitholders on the occurrence of any event that may have a material impact on the Investment Manager and its ability to perform its obligations under the Trust Documents, including any Change in Control of the Investment Manager.

P. *Issue and listing of Units:* The Investment Manager shall be responsible for all activities pertaining to the issue of Units including filing of the placement memorandum or final placement memorandum with the SEBI and dealing with all matters relating to the allotment of Units to Unitholders. The Investment Manager shall also be responsible for obtaining in-principle approval and final listing and trading approvals from the Stock Exchanges. The Investment Manager shall ensure that disclosures in the placement memorandum are material, true, correct and adequate, and in accordance with the InvIT Regulations, guidelines or circulars issued thereunder and applicable law. The Trust may list its Units on one or more Stock Exchanges subject to compliance with the conditions specified under the InvIT Regulations and directions issued by the SEBI or the Stock Exchanges, as applicable.

Q. *Delisting of Units and winding up of the Trust:* In case of occurrence of any event specified under the InvIT Regulations, the Investment Manager shall apply for delisting of the Units to SEBI and the designated stock exchanges, and carry out all necessary actions as required under applicable law.

R. *Compliance with the InvIT Regulations:* The Investment Manager shall fulfil its obligations under the applicable provisions of the InvIT Regulations and the Trust Documents.

S. *Submission to the Trustee: The Investment Manager shall submit to the Trustee:*

(i) quarterly reports on the activities of the Trust including receipts for all funds received by it and for all payments made, status of compliance with the InvIT Regulations, specifically Regulations 18, 19 and 20 of the InvIT Regulations, performance report, status of development of under-construction projects, within time period specified under the InvIT Regulations;

(ii) valuation reports as required under the InvIT Regulations within the time period specified under the InvIT Regulations;

(iii) decision to acquire or sell or develop or bid for any Trust asset or Project or expand existing completed Trust Assets or Projects along with rationale for the same;

(iv) details of any action which requires approval from the Unitholders as may be required under the InvIT Regulations;

(v) details of any other material fact including change in its directors, change in its shareholding, any legal proceedings that may have a significant bearing on the activity of the Trust, within the time period specified under the InvIT Regulations; and

(vi) such other information, documents and records in relation to the activities of the Trust as may be reasonably necessary for the Trustee to carry out its responsibilities under the Trust Deed or the InvIT Regulations.

T. *Submission of annual and half-yearly reports:* The Investment Manager shall, within the time period prescribed under the InvIT Regulations, submit annual reports and half yearly reports to all the Unitholders electronically or provide physical copies and, if applicable, to the Stock Exchanges.

U. *Segregation of assets and liabilities:* The assets and liabilities of the Trust shall at all times be segregated from the assets and liabilities of the Investment Manager and the assets and liabilities of any other trusts managed by the Investment Manager. The assets held under the Trust shall be held for the exclusive benefit of the Unitholders and such assets shall not be subject to the claims of any creditor or any person claiming under any other fund or trust administered or managed by the Investment Manager.

V. *Administration of claims:* The Investment Manager shall be responsible for monitoring, administering and giving effect to all claims and adjustments arising out of the share purchase agreements executed in respect of the acquisition of Trust Assets and any payments required to be made by or to the Trust.

W. *Other Duties:* Without prejudice to any other provision of the Investment Management Agreement, the Investment Manager shall also have the following duties and obligations:

(i) ensure that computation of the net asset value of the Trust based on the valuation done by the Valuer in accordance with the InvIT Regulations shall be disclosed to the Stock Exchanges not later than fifteen days from the date of valuation;

(ii) maintain regular interaction with the Trustee on performance of the Trust and providing the Trustee with any information in relation to the operations of the Trust as may be required;

(iii) conducting its affairs and the affairs of the Trust in such a manner that Unitholders will not have personal liability with respect to liabilities or obligations of the Trust;

(iv) collecting all dividends, fees, property and other payments due and receivable by the Trust in the manner set out in the Trust Deed and in terms of the InvIT Regulations;

(v) ensuring that no commission or rebate or any other remuneration, arising out of transaction pertaining to the Trust is collected by the Investment Manager or its Associates, other than as specified in the placement memorandum or any other document as may be specified by SEBI for the purpose of the issue of the units of the Trust;

(vi) ensuring that the Trust Assets have proper and legal marketable titles and that all the material contracts entered into or on behalf of the Trust or the Trust Assets or the SPVs, or the Holdco are legal, valid, binding and enforceable by and on behalf of the Trust or the Trust Assets or the SPVs or the Holdco, as applicable;

(vii) keeping the Unitholders informed and updated on investment activities of the Trust in accordance with the Trust Documents;

(viii) to ensure that any possible conflict of interest involving its role as an Investment Manager is reported to the Trustee and the Unitholders;

(ix) to ensure that disclosures and reporting to the Unitholders, SEBI, the Trustee and the Stock Exchanges are in accordance with applicable law and InvIT Regulations;

(x) to immediately notify the Trustee and the Unitholders of any act which is detrimental to the interest of the Unitholders;

(xi) to inform the Trustee and Unitholders in writing about any change in the representations and warranties provided by the Investment Manager under the Investment Management Agreement or any of the Trust Documents;

(xii) to provide to the Trustee such assistance as may be required by the Trustee in fulfilling its obligations towards the Truste and the Unitholders, under applicable law, by any Governmental Authority or under the Trust Documents;

(xiii) providing to the SEBI, the Trustee and if applicable, the Stock Exchanges, such information as may be sought by the SEBI, the Trustee or the Stock Exchanges in relation to the activities of the Trust;

(xiv) providing, in parallel, to the Unitholders a copy of all reports and submissions made under (xiii) above as required under applicable law; and

(xv) taking any other actions incidental to any of the foregoing or necessary or convenient in order to fully effect or evidence any action or transaction contemplated under the Investment Management Agreement.

(xvi) to take all actions and compliances, in relation to the right of eligible unitholder(s) to nominate unitholder nominee director(s) on the board of directors of the Investment Manager, as prescribed under the InvIT Regulations.

X. The Investment Manager shall also perform any other duties specified in the InvIT Regulations and the Trust Documents.

Notwithstanding anything contained in the Investment Management Agreement, nothing contained in the Investment Management Agreement shall be construed to limit or restrict the performance of any of the duties or obligations of the Investment Manager or the Trustee contained in the InvIT Regulations.

3. *Board Nomination Rights of eligible unitholder(s):* Eligible unitholder(s) shall have the right to nominate unitholder nominee director(s) on the board of directors of the Investment Manager from time to time, in accordance with and in the manner prescribed under the InvIT Regulations.

4. *Liabilities of the Investment Manager*

The liabilities of the Investment Manager in terms of the Investment Management Agreement are as follows:

A. The Investment Manager shall not be liable in respect of any action taken or damage suffered by it as a result of reliance upon any notice, resolution, direction, consent, certificate, affidavit, statement, certificate of stock, plan of reorganization or, without being limited in any way by the foregoing, other paper or document reasonably believed by it to be genuine and to have been passed, sealed or signed by appropriate authorities or entities; provided that the Investment Manager shall not be so exculpated in the event of a breach of the obligations under the Trust Documents or a violation of the InvIT Regulations and/or applicable law on the part of the Investment Manager.

B. The Investment Manager shall not be liable to the Unitholders for doing or failing to do any act or thing which, by reason of any provision of any present or future applicable law, or of any decree, order or judgment of any court, or by reason of any request announcement or similar action (whether of binding legal effect or not) which may be taken or made by any Governmental Authority, it shall be directed or requested to do or perform or to forbear from doing or performing. If for any reason it becomes impossible or impracticable to carry out any of the provisions of the Investment Management Agreement, the Investment Manager shall not be under any liability therefore or thereby. However, it shall duly inform the Trustee and the Unitholders of such event.

C. If the Investment Manager is required by the InvIT Regulations or any other applicable law to provide information with respect to the Trust, the Unitholders, the Trust Assets (including any potential investments) and income therefrom, the Investment Manager shall not be liable to the Unitholders or any of them or to any other party as a result of such compliance or in connection with such compliance.

D. The Investment Manager shall not incur any liability for doing or (as the case may be) failing to do any act or thing which may result in a loss to a Unitholder (by reason of any depletion in the value of the Trust Assets or otherwise), except in the event that such loss is a result of fraud or gross negligence or wilful misconduct, breach of the obligations under the Trust Documents or a violation of the InvIT Regulations and/or applicable law on the part of the Investment Manager as determined by appropriate dispute resolution mechanism.

E. The Investment Manager shall not be liable to the Trust or the Trustee or any Unitholder or any third party in respect of any investments made or investment decisions taken in respect of the Trust in the manner set out in the Investment Management Agreement including for the non-recoverability or non-realisability of any of the Trust Assets, other than for fraud, gross negligence or wilful misconduct on part of the Investment Manager as finally determined by a court of competent jurisdiction/arbitral award.

F. If the Distributions are not made within the period prescribed in the InvIT Regulations, the Investment Manager shall be liable to pay interest to the Unitholders at the rate as may be prescribed in the InvIT Regulations until such Distributions are made and such interest shall not be recovered in the form of fees or any other form payable to the Investment Manager by the Trust.

G. If the Investment Manager fails to allot, or list the Units, or refund the money within the time prescribed in the InvIT Regulations, as applicable, the Investment Manager shall be liable to pay interest to Unitholders at the rate as may be prescribed under the InvIT Regulations until such time as the allotment/listing/refund and such interest shall not be recovered in the form of fees or any other form payable to the Investment Manager by the Trust.

H. The Investment Manager shall not be liable to any Unitholder for the authenticity of any signature or of any seal affixed to any endorsement on any certificate or to any transfer or form of application, endorsement or other document affecting the title to or transmission of Units/interests in the Trust or of any investments of the Trust or be in any way liable for any forged or unauthorised signature or seal affixed to such endorsement, transfer or other document or for acting upon or giving effect to any such forged or unauthorised signature or seal. The Investment Manager shall be bound to require that the signature of any Unitholder to any document required to be signed by such Unitholder, under or in connection with these presents shall be verified to its reasonable satisfaction.

I. The Investment Manager shall not be liable to account to any Unitholder or otherwise for any payment made or suffered by the Investment Manager in good faith to any duly empowered revenue authority for taxes or other charges in any way arising out of or relating to any transactions of whatsoever nature under these presents, notwithstanding that any such payment ought not to be or need not have been made or suffered.

5. *Indemnity*

A. In addition to the fees, payments and expense reimbursements herein described, the Trust acting through the Trustee shall, from the Trust Assets, indemnify and hold harmless the Investment

Manager and its respective officers, directors, shareholders, partners, members, employees, advisors and agents (the "**Indemnified Parties**"), from and against any claims, losses, costs, damages, liabilities, suits, proceedings and expenses, including legal fees (the "**Losses**") suffered or incurred by any of the Indemnified Parties by reason of their activities on behalf of the Trust, unless such Losses have resulted from fraud, gross negligence, wilful misconduct of the Indemnified Parties as finally determined by a court of competent jurisdiction/arbitral award. The aggregate maximum liability in each financial year, shall be limited to the aggregate fees paid to the Investment Manager for the immediately preceding one financial year, in accordance with the terms under the Investment Management Agreement, except for losses arising from fraud, gross negligence, wilful misconduct of the Indemnified Parties as finally determined by a court of competent jurisdiction.

B. The indemnification rights of the Parties under the Investment Management Agreement are without prejudice, independent of and in addition to, such other rights and remedies that they may have under Applicable Law or in equity or otherwise.

6. *Termination*

A. The Investment Management Agreement shall become effective upon its execution by the Parties and shall terminate upon dissolution of the Trust, unless otherwise terminated in accordance with the Investment Management Agreement.

B. The Trustee may terminate the Investment Management Agreement by giving 30 (thirty) days written notice to the Investment Manager, in the event that:

(i) the Investment Manager goes into liquidation (except a voluntary liquidation for the purpose of reconstruction or amalgamation) or if a receiver is appointed to all or a substantial portion of the assets of the Investment Manager or for any other reason it ceases to be entitled to provide and perform the services herein provided for in accordance with applicable law; or

(ii) the Unitholders pass a resolution for the removal of the Investment Manager in accordance with the InvIT Regulations.

C. Actions pursuant to Termination

(i) Upon removal of the Investment Manager, the Trustee shall appoint the new investment manager within three months from the date of termination of the earlier Agreement. Until such appointment is made, the Investment Manager shall continue to act as such at the discretion of the Trustee.

(ii) Upon removal or replacement of the Investment Manager, the Investment Manager shall transfer custody of the Trust to the Trustee and give the Trustee all books of account, correspondence, documents and records relating to the Trust which the Investment Manager has in its possession.

(iii) Every new investment manager appointed pursuant to the provisions of the Investment Management Agreement shall have the powers, authorities and discretion, and shall in all respects act and be liable as if originally appointed as an investment manager under the Investment Management Agreement.

(iv) Notwithstanding anything contained herein, the Investment Manager shall continue to be liable for all its acts of omissions and commissions prior to such termination in accordance with the terms and conditions set forth in the Investment Management Agreement.

(v) The Trustee shall ensure that the new investment manager shall stand substituted as a party in all the documents (to the extent applicable) to which the Investment Manager was a party.

D. The Project Manager

Elsamex Maintenance Services Limited ("EMSL")

History and Certain Corporate Matters

EMSL is the Project Manager of the Trust. The Project Manager is a company limited by shares incorporated on September 12, 2013 having CIN U45201MH2013FLC285659. The Project Manager's registered office is situated at the IL&FS Financial Centre, Plot No. C-22, G Block, Bandra Kurla Complex, Bandra (E), Mumbai – 400051.

Background of EMSL

EMSL specializes in road operations and maintenance and has expertise in maintenance of roads, highways, bridges, tunnels and other structures, toll management and collection and route operations.

EMSL is a pioneer in the operation and maintenance of highways, drawing its roots back to 2008 under the current ownership. Over the past decade, EMSL has been involved in various services related to the infrastructure space with close focus on surface transportation, specifically roads. EMSL was incorporated to solely focus on operations and maintenance activities of national highways, state highways and city roads and over the years it has developed expertise in other associated areas like pavement rehabilitation and improvement (micro-surfacing, cold in place recycling, regular bituminous overlays), engineering and construction, user fee collection etc. Beside these areas, EMSL has also been actively providing project management and supervision services to its client for monitoring and execution of major maintenance works across its assets.

Key Terms of the Project Implementation and Management Agreements ("PIMA")

The Project Manager has entered into PIMAs for MBEL, SBHL, TRDCL, HREL, PSRDCL and BAEL, in terms of the InvIT Regulations. The key terms of each of the PIMA are, provided below:

1. *Scope of Services*

A. The Project Manager agrees to undertake the following works, either directly or through sub contractors in relation to the project (the "**Works**"):

   (i) any and all activities required to be carried out by the Project Manager under the InvIT Regulations and other applicable law;
   (ii) any and all activities required to be performed by it in terms of the PIMA and the O&M agreement, and the Concession Agreement (collectively referred to as, "**Project Agreements**"), as applicable; and
   (iii) supervise and monitor activities required to be performed in terms of the Project Agreements.

B. The Project Manager acknowledges that the identified SPV shall be fully reliant on the Project Manager to undertake all Works and ensure all compliances that the identified SPV is required to perform or comply with under the Project Agreements.

C. The Project Manager acknowledges and confirms that it has (i) reviewed and covenants to ensure compliance with the Project Agreements (as amended from time to time), including the terms and conditions, representations and warranties of the identified SPV, as applicable, and (ii) shall ensure that no breach or violation of the Project Agreements, the InvIT Regulations, or other applicable law occurs which relates, directly or indirectly, to the performance of its role as the Project Manager.

D. The Project Manager may engage duly qualified third-party service providers including but not limited to architects, surveyors and technical consultants for undertaking the Works (such service providers, the "**Sub-Contractors**"). The Project Manager shall be solely responsible for the actions and/or omissions of its employees and the Sub-Contractors.

2. *Obligations of the Project Manager*

The obligations of the Project Manager in terms of the PIMA are as follows:

A. The Project Manager shall develop, train, and maintain a service team for the purpose of undertaking the Works ("**Team**"). The parties agree that the size and the composition of the Team may be changed from time to time according to the requirement at such time as may be mutually agreed in writing between the parties. It is clarified that the Project Manager shall be responsible to the Trustee and Investment Manager for the performance of the Team and that all the employees, contractors, Sub-Contractors, consultants, agents, professionals and workmen (including contract labour) constituting the Team at any time shall not be considered to be the employees, contractors, Sub-Contractors, consultants, agents, professionals and workmen (including contract labour) of the Trustee or Investment Manager. Accordingly, the Project Manager shall at all times be solely responsible for the payment of compensation to the Team, including without limitation, all employment related compensation and benefits and any other payments which are required to be paid in accordance with the Project Agreements (as applicable) and under applicable law.

B. The Project Manager shall at all times undertake the Works, strictly in accordance with the PIMA and in carrying out its duties under the PIMA and in undertaking the Works, the Project Manager shall:

(i) at all times act in good faith;
(ii) provide continuous access to all data and information pertaining to the project, to the Trustee and the Investment Manager at all times;
(iii) exercise the level of skill, care, attention and diligence as may reasonably be expected of an experienced, professional, prudent and competent third party skilled in providing project management services such as undertaking the Works in relation to the project;
(iv) at all times act within the parameters laid down in the Project Agreements; and
(v) ensure that all Works are undertaken and other obligations under the PIMA are performed in a manner that does not infringe any applicable law.

C. The Project Manager shall undertake, maintenance, operation and management of the project including arrangement for the appropriate maintenance and appointment and supervision of agents, if any, as may be necessary for discharge of its duties under the terms of the PIMA, the Project Agreements and under the InvIT Regulations.

D. The Project Manager shall provide compliance certificate(s), as may be specified, on a quarterly basis to the Investment Manager and the Trustee in accordance with the InvIT Regulations, in the form prescribed by SEBI, if any.

E. The Project Manager shall inform and provide the Investment Manager details of transactions between the Project Manager and its associate(s), and disclose any conflict of interest in such cases to the Investment Manager, in accordance with the InvIT Regulations. Where the Project Manager has advised that there may be a conflict of interest, it shall obtain confirmation from the practicing chartered accountant or the valuer, as applicable, that such transaction is on arm's length basis.

F. The Project Manager shall intimate the Trustee prior to any change in the management or control of the Project Manager to enable the Trustee to seek approval from the relevant authority in accordance with the concession agreement, as applicable.

G. The Project Manager shall provide to the Trustee and the Investment Manager, all information that may be necessary for each of them to perform their functions under applicable law and as may be required for making submissions to the SEBI or any other governmental authority.

H. The duties of Project Manager shall also include the following, but not limited to :

(i) supervision of the revenue streams from the project;
(ii) supervision of all maintenance, including major maintenance activities of the project;
(iii) exercise diligence and vigilance in carrying out its duties and protecting the identified SPV and the project;
(iv) keep the Investment Manager informed on all matters which have a material bearing on the operations of the identified SPV and the project;

(v) liaise with governmental authorities in respect of its obligations under the PIMA and the Project Agreements, as applicable;
(vi) take appropriate measures to mitigate the risks which may be encountered by the Trust in respect of the identified SPV and the project;
(vii) keep proper records for actions taken in respect of the identified SPV and the project; and
(viii) comply with the instructions of the Investment Manager and the requirements under the InvIT Regulations.

I. In case of any inconsistency or discrepancy between the PIMA and the Project Agreements, the Project Manager shall bring the same to the notice of the Trustee. The Trustee, in consultation with the Investment Manager, shall issue instructions resolving the inconsistency. The Project Manager shall be bound to comply with the instructions of the Trustee.

J. During the term of the PIMA, in the event the representations provided by the Project Manager under the PIMA, become untrue or incorrect or incomplete in any respect, the Project Manager shall, within a reasonable time, inform the Trustee and Investment Manager of such event.

3. *Indemnity*

A. In addition to the fees, payments and expense reimbursements described in the PIMA, the Project Manager hereby agrees to indemnify and hold harmless the identified SPV, Trustee, on behalf of the Trust, the Investment Manager and their respective directors, employees, members, advisors, officers, agents and the Trust (the "**Indemnified Parties**"), from and against any direct claims, losses, costs, damages, liabilities, suits, proceedings and expenses, including legal fees, incurred or suffered by any of the Indemnified Parties by reason of any breach of the PIMA or the Project Agreements or violation of the InvIT Regulations by the Project Manager or its representatives or agents or any fraud, negligence or wilful misconduct by the Project Manager or its representatives or agents. The aggregate maximum liability in each financial year, shall be limited to the aggregate fees paid to the Project Manager for the immediately preceding one financial year, in accordance with the terms under the PIMA and such fees shall not include any fees paid to the Project Manager in any other capacity, except for losses arising from fraud, gross negligence or wilful misconduct.

B. Notwithstanding anything contained hereinabove, the Project Manager shall not be liable to the identified SPV, the Investment Manager or the Trustee acting on behalf of the Trust, in respect of any loss, damage, extra expense or cost suffered by the identified SPV which is not attributable to the action or inaction of the Project Manager, or to the failure of the Project Manager or any of its agents to meet the obligations as provided in the PIMA, the Project Agreements or the InvIT Regulations.

C. The indemnification rights of the parties under the PIMA are without prejudice, independent of and in addition to, such other rights and remedies that they may have under applicable law or in equity or otherwise. In no event shall any party be liable to an Indemnified Party for any punitive, incidental, consequential, special or indirect damages, including loss of future revenue or income, or loss of business reputation or opportunity relating to the breach or alleged breach of the PIMA.

4. *Termination*

A. PIMA shall remain effective, unless terminated by the parties in accordance with the provisions under the PIMA or extended by mutual consent expressed in writing by the parties, for the period that the Project Agreements are in force ("**Validity Period**").

B. The Project Manager shall be bound by the terms of the PIMA, for a minimum lock-in period of three years from the effective date ("**Lock-in Period**"). Upon the expiration of the Lock-in Period, the Project Manager may terminate the PIMA by delivery of a written notice of 90 days to the other parties to the PIMA.

C. Notwithstanding the above, prior to the expiry of its Validity Period, PIMA, may be terminated:

(i) by the Investment Manager after consultation with the Trustee by delivery of a written notice to the Project Manager at any time; or

(ii) by any party by delivery of a written notice to the other party upon the bankruptcy of such other party or if winding up or liquidation proceedings are commenced against such other party (and such proceedings persist for a period of more than three months).

D. In case of removal or termination of the Project Manager, the Trustee upon the written recommendation of the Investment Manager, shall appoint a new project manager within three months from the termination of the PIMA in terms of the InvIT Regulations, or such other period as specified under the InvIT Regulations. The Trustee may, either *suo moto* or based on the advice of the National Highway Authority of India appoint an administrator in connection with an infrastructure project on such terms and conditions as it deems fit. The Project Manager will continue to act as such at the discretion of Trustee until such time as a new project manager is appointed. The new project manager shall stand substituted as a party in all agreements and any other documents executed in relation to the identified SPV and the project to which the Project Manager was a party. The Project Manager shall continue to be liable for all its acts and omissions and commissions for the period during which it served as the project manager, notwithstanding its termination.

E. The termination of the PIMA shall not affect the rights and obligations of the parties accrued prior to such termination. The provisions in relation to the definitions and interpretation; termination; notices; governing law and disputes; indemnity; and confidentiality, in the PIMA shall survive any such termination of the PIMA.

F. Notwithstanding anything contained hereinabove, the termination of any of the Project Agreements will not result in the termination of the PIMA, and it shall continue to be in force in respect of the other Project Agreements that are not terminated.

OTHER PARTIES INVOLVED IN THE TRUST

The Auditors

Background and terms of appointment

The Investment Manager, in consultation with the Trustee, has appointed KKC & Associates LLP (*formerly known as Khimji Kunverji and Co. LLP*), Chartered Accountants (firm registration no. 105146W/W-100621) who will hold office from the date of conclusion of the 1st annual meeting till the conclusion of the 6th annual meeting of the Trust. The Auditors have audited the standalone and consolidated financial statements of the Trust for the six months period ended September 30, 2024 and the year ended March 31, 2024, year ended March 31, 2023 and year ended March 31, 2022 and have examined the Projections of Revenue from Operations and Cash Flow from Operating Activities, and their reports in relation to such Audited Special Purpose Combined Financial Statements dated January 4, 2025 and Projections of Revenue from Operations and Cash Flow from Operating Activities dated January 4, 2025 have been included in this Placement Memorandum.

Functions, Duties and Responsibilities of the Auditors

The functions, duties and responsibilities of the Auditors will be in accordance with the InvIT Regulations. Presently, in terms of the InvIT Regulations, the Auditors are required to comply with the following conditions at all times:

(i) the Auditors shall conduct audit of the accounts of the Trust including both, the standalone and the consolidated financial statements, and draft the audit report based on the accounts examined after taking into account the relevant accounting and auditing standards, as may be specified by the SEBI, and shall comply with the requirements of the InvIT Regulations;
(ii) the Auditors shall, to the best of its information and knowledge, ensure that the accounts and financial statements give a true and fair view of the state of the affairs of the Trust, including profit or loss and cash flow for the period and such other matters as may be specified by SEBI;
(iii) the Auditors shall have a right of access at all times to the books of accounts and vouchers pertaining to activities of the Trust;
(iv) the Auditors shall have a right to require such information and explanation pertaining to activities of the Trust as it may consider necessary for the performance of its duties as auditors from the employees of the Trust or Holdco or parties to the Trust or holding company or the special purpose vehicle(s)or any other person in possession of such information; and
(v) the Auditors shall undertake a limited review of the audit of all the entities or companies whose accounts are to be consolidated with the accounts of the Trust as per the applicable Indian Accounting Standards (Ind AS) and any addendum thereto as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, in such manner as may be specified by the SEBI.

The Valuer

Background and terms of appointment

The Investment Manager, in consultation with the Trustee, has appointed RBSA Valuation Advisors LLP, in terms of the engagement letter dated May 23, 2022 for conducting the valuation of the Trust starting from FY 2021-22, as the valuer of the Trust. In accordance with the InvIT Regulations, the Valuer has undertaken a full valuation of the Project SPVs, and their report dated December 17, 2024 in relation to such valuation as on June 30, 2024, has been included in this Placement Memorandum.

Functions, Duties and Responsibilities of the Valuer

The functions, duties and responsibilities of the Valuer will be in accordance with the InvIT Regulations. Presently, in terms of the InvIT Regulations, the Valuer is required to comply with the following conditions at all times:

(i) the Valuer shall ensure that the valuation of the InvIT Assets is impartial, true and fair and is in accordance with Regulation 21 of the InvIT Regulations;
(ii) the Valuer shall ensure that adequate and robust internal controls to ensure the integrity of its valuation reports;
(iii) the Valuer shall ensure that it has sufficient key personnel with adequate experience and qualification to perform valuations;
(iv) the Valuer shall ensure that it has sufficient financial resources to enable it to conduct its business effectively and meet its liabilities;
(v) the Valuer and any of its employees involved in valuing of the assets of the Trust, shall not, (i) invest in Units or in the assets being valued; and (ii) sell the assets or Units held prior to being appointed as the valuer, until the time the Valuer is designated as the valuer of the Trust and not less than six months after ceasing to be valuer of the Trust;
(vi) the Valuer shall conduct valuation of the Trust's assets with transparency and fairness and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise independent professional judgment;
(vii) the Valuer shall act with independence, objectivity and impartiality in performing the valuation;

(viii) the Valuer shall discharge its duties towards the Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete given assignment;
(ix) the Valuer shall not accept remuneration, in any form, for performing a valuation of the Trust's assets from any person other than the Trust or its authorized representative;
(x) the Valuer shall before accepting any assignment from any related party of the Trust, disclose to the Trust any direct or indirect consideration which the valuer may have in respect of such assignment;
(xi) the Valuer shall disclose to the Trust any pending business transactions, contracts under negotiation and other arrangements with the investment manager or any other party whom the Trust is contracting with and any other factors that may interfere with the Valuer's ability to give an independent and professional valuation of the assets;
(xii) the Valuer shall not make false, misleading or exaggerated claims in order to secure assignments;
(xiii) the Valuer shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information;
(xiv) the Valuer shall not accept an assignment which interferes with its ability to do fair valuation; and
(xv) the Valuer shall, prior to performing a valuation, acquaint itself with all laws or regulations relevant to such valuation.

Policy on Appointment of Auditor and Valuer ("Appointment Policy")

The Investment Manager has adopted a policy on the appointment of auditor of the Trust, pursuant to the resolution of the IM Board dated January 25, 2024. The key terms of the Appointment Policy are set out below:

Appointment of Auditor

(i) The Investment Manager, in consultation with the Trustee (as defined under the investment management agreement dated October 23, 2020, as amended ("**Investment Management Agreement**"), shall appoint the Auditor of the Trust, with respect to the activities in relation to the Trust, in a timely manner and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended, including any guidelines, circulars, notifications and clarifications notified thereunder ("**InvIT Regulations**").

(ii) The Auditor, so appointed, shall be one who has subjected itself to the peer review process of the Institute of Chartered Accountants of India ("**ICAI**") and who holds a valid certificate issued by the Peer Review Board of ICAI.

(iii) The Investment Manager shall determine the remuneration of the Auditor in consultation with the Trustee.

(iv) The Investment Manager shall ensure that if the removal of the Auditor and appointment of another auditor to the Trust is taken up at a meeting of the Unitholders at the request of the Unitholders, such removal of the Auditor shall be approved by the Unitholders in accordance with the InvIT Regulations.

(v) The Investment Manager shall, in consultation with the Trustee, appoint an Auditor for a maximum period as may be specified in the InvIT Regulations, provided that an Auditor, not being an individual, may be reappointed subject to and in accordance with the provisions of the InvIT Regulations.

(vi) In the event of any casual vacancy in the position of the Auditor, whether on account of resignation or otherwise, such casual vacancy shall be filled within 30 days by the board of directors of the Investment Manager. Approval for the appointment made by the board of directors of the Investment Manager shall be obtained from the unitholders of the Trust, in the manner prescribed under Regulation 22(4)(f), within 3 months from the date of such appointment; further, the Auditor so appointed shall hold office till the conclusion of the next annual meeting of the unitholders of the Trust.

(vii) The Investment Manager shall ensure that the audit of accounts of the Trust by the Auditor is done not less than once in a year and such report is submitted to the stock exchanges within the timelines prescribed under the InvIT Regulations.

(viii) The Auditor shall comply with the following conditions at all times:

(a) the Auditor shall conduct audit of the accounts of the Trust including both, the standalone and the consolidated financial statements, and draft the audit report based on the accounts examined by him and after taking into account the relevant accounting and auditing standards, as may be specified by the Securities and Exchange Board of India ("**SEBI**"), and shall comply with the requirements of the InvIT Regulations;

(b) the Auditor shall, to the best of his information and knowledge, ensure that the accounts and financial statements give a true and fair view of the state of the affairs of the Trust, including profit or loss and cash flow for the period and such other matters as may be specified by SEBI;

(c) the Auditor shall have a right of access at all times to the books of accounts and vouchers pertaining to activities of the Trust; and

(d) the Auditor shall have a right to require such information and explanation pertaining to activities of the Trust as he may consider necessary for the performance of his duties as Auditor, from the employees of Trust or holding company or parties to the Trust or holding company or the special purpose vehicle(s) or any other person in possession of such information.

(e) The auditor shall undertake a limited review of the audit of all the entities or companies whose accounts are to be consolidated with the accounts of the Trust as per the applicable Indian Accounting Standards (Ind AS) and any addendum thereto as defined in Rule 2(1) (a) of the Companies (Indian Accounting Standards) Rules, 2015, in such manner as may be specified by the Board.

(ix) The Investment Manager, in consultation with the Trustee, shall have the right to take all necessary steps to remove the Auditor who ceases to comply with the eligibility criteria required under the InvIT Regulations and applicable law. In case of removal of the auditor and appointment of another auditor to the Trust, approval from the Unitholders shall be required in accordance with the InvIT Regulations.

Appointment of Valuer

The Investment Manager has adopted a policy on the appointment of valuer of the Trust, pursuant to the resolution of the IM Board dated January 24, 2024. The key terms of the Appointment Policy are set out below:

(i) The Investment Manager, in consultation with Trustee (as defined under the investment management agreement dated October 23, 2020, as amended ("**Investment Management Agreement**"), shall appoint the Valuer of the Trust, with respect to the activities in relation to the Trust, in a timely manner and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended, including any guidelines, circulars, notifications and clarifications notified thereunder ("**InvIT Regulations**").

(ii) The Investment Manager shall have the power to determine the remuneration of the Valuer in consultation with the Trustee and the Trustee shall ensure that the remuneration of the Valuer is not linked to or based on the value of the assets being valued.

(iii) The Valuer shall not be an associate of the Sponsor (as defined under the Investment Management Agreement) or the Investment Manager or Trustee.

(iv) The Valuer shall have not less than five years of experience in valuation of infrastructure assets.

(v) A Valuer shall not undertake valuation of the same project for more than four years consecutively, provided that the Valuer may be reappointed after a period of not less than two years from the date it ceases to be the Valuer of the Trust.

(vi) The Valuer shall not undertake valuation of any assets in which it has either been involved with the acquisition or disposal within the last twelve months other than such cases where the Valuer was engaged by the Trust for such acquisition or disposal.

(vii) In the event of any casual vacancy in the position of the Valuer, whether on account of resignation or otherwise, such casual vacancy shall be filled within 60 days by the board of directors of the Investment Manager. Approval for the appointment made by the board of directors of the Investment Manager shall be obtained from the unitholders of the Trust, in the manner prescribed under Regulation 22(4)(f), within 3 months from the date of such appointment; further, the Valuer so appointed shall hold office till the conclusion of the next annual meeting of the unitholders of the Trust.

(viii) The Valuer shall comply with the following conditions at all times:

(a) the Valuer shall ensure that the valuation of the Trust Assets is impartial, true and fair and is in accordance with Regulation 21 of the InvIT Regulations;

(b) the Valuer shall ensure adequate and robust internal controls to ensure the integrity of its valuation reports;

(c) the Valuer shall ensure that it has sufficient key personnel with adequate experience and qualification to perform valuations;

(d) the Valuer shall ensure that it has sufficient financial resources to enable it to conduct its business effectively and meet its liabilities;

(e) the Valuer and any of its employees involved in valuing of the assets of the Trust , shall not:

- invest in units of the Trust or in the assets being valued; and
- sell the assets or units of the Trust held prior to being appointed as the Valuer

till the time such person is designated as Valuer of the Trust and not less than six months after ceasing to be Valuer of the Trust;

(f) the Valuer shall conduct valuation of the Trust Assets with transparency and fairness and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise independent professional judgment;

(g) the Valuer shall act with independence, objectivity and impartiality in performing the valuation;

(h) the Valuer shall discharge its duties towards the Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete given assignment;

(i) the Valuer shall not accept remuneration, in any form, for performing a valuation of the Trust Assets from any person other than the Trust or its authorized representative;

(j) the Valuer shall before accepting any assignment, from any related party of the Trust, disclose to the Trust, any direct or indirect consideration which the Valuer may have in respect of such assignment;

(k) the Valuer shall disclose to the Trust, any pending business transactions, contracts under negotiation and other arrangements with the Investment Manager or any other party whom the Trust is contracting with and any other factors that may interfere with the Valuer's ability to give an independent and professional valuation of the assets, and other necessary disclosures required under the InvIT Regulations;

(l) the Valuer shall not make false, misleading or exaggerated claims in order to secure assignments;

(m) the Valuer shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information;

(n) the Valuer shall not accept an assignment which interferes with its ability to do fair valuation; and

(o) the Valuer shall, prior to performing a valuation, acquaint itself with all laws or regulations relevant to such valuation.

(ix) The Investment Manager in consultation with the Trustee shall have the right to take all necessary steps to remove the Valuer who ceases to comply with the eligibility criteria required under the InvIT Regulations and applicable law. If the removal of the Valuer and appointment of another valuer to the Trust is taken up at a meeting of the Unitholders at the request of the Unitholders, such removal of the Valuer shall be approved by the Unitholders in accordance with the InvIT Regulations.

The terms of reference of the Operations & Maintenance Committee include the following with respect to each of the InvIT assets:

a. Review and approval of budget for operations and maintenance ("**O&M**") and major maintenance ("**MM**") work.

b. Award of O&M contracts to contractors/ sub-contractors/ agencies.

c. Award of MM contracts to the contractors/ sub-contractors/ agencies.

d. Amendment/ enhancement/ extension of work orders awarded to the contractors/ sub-contractor/ agencies for O&M and MM.

e. Approving the main terms and conditions of the contracts/ work order to be issued to the contractors/ sub-contractors/ agencies for O&M and MM.

f. Revision in rates and work orders value for contracts given to the contractors/ sub-contractors/ agencies including reimbursement statutory payments.

g. Approve the process for inviting bids/tenders including any deviations/ exceptions as may be required on a case to case basis.

h. Reviewing of the performance of the contractors/ agencies appointed for O&M and MM contracts and initiating actions for termination of the contracts for failure to perform the works in accordance with the contract award or any other reason and such other actions as may be desired.

i. Approving of inviting bids through a public auction process for auction of tolling rights and approving the final bids so received.

j. Approving modifications/ changes/ termination of any O&M, MM and toll auction contracts already awarded.

Policies of the Trust

The Investment Manager (on behalf of itself and the Trust) has adopted certain policies for corporate governance, key terms of which are set out below.

1. **Policy on Unpublished Price Sensitive Information and Dealing in Units by Parties to the Trust ("UPSI Policy")**

The Investment Manager has adopted the UPSI Policy pursuant to a resolution of the IM Board on January 25, 2024. The purpose of the policy is to ensure that Trust comply with applicable laws, including the InvIT Regulations, as amended or supplemented or such other laws, regulations, rules or guidelines prohibiting insider trading and governing disclosure of material, unpublished price sensitive information ("**UPSI**"). The key principles of the UPSI Policy are set out below:

a. The Investment Manager shall promptly disclose to the public, all UPSI that would impact price discovery, no sooner than credible and concrete information comes into being in order to make such information generally available;

b. The compliance officer, in consultation with the senior management of the Investment Manager, shall be responsible for deciding whether a public announcement is necessary for verifying or denying rumours and then making the disclosure, in accordance with the procedure specified in the policy for disclosure of material events and information;

c. The compliance officer, in consultation with the IM Board, shall also make an appropriate and fair response to the queries on news reports and requests for verification of market rumours by regulatory authorities, in accordance with the procedure specified in the policy for disclosure of material events and information.

d. While dealing with analysts or research persons or large investors like institutions, the Investment Manager shall provide only public information. Alternatively, the information given to analysts or research persons shall be simultaneously made public at the earliest; and

e. The Investment Manager shall handle all UPSI on a "need to know" basis.

2. **Policy for Disclosure of Material Events and Information ("Materiality of Information Policy")**

The Investment Manager has adopted the Materiality of Information Policy pursuant to a resolution of the IM Board on January 25, 2024, in relation to the Trust. The Materiality of Information Policy has the key objective to ensure that the Trust complies with the disclosure obligations that are applicable to it as a privately-placed, listed InvIT and that any material information and/or event in relation to the Trust is disclosed in a timely and transparent manner and the same are accurate and do not contain any misstatements or misrepresentations. The policy also aims to protect the confidentiality of material / price sensitive information within the context of the Trust's disclosure obligations and to provide a framework that supports and fosters confidence in the quality and integrity of the information released by the Trust. The key terms of the policy are set out below:

a. The compliance officer, in consultation with the chief executive officer and the chief financial officer, is authorised to determine the materiality of an event or information and to make appropriate disclosure on a timely basis. S/he shall have the power to ask for any information or clarifications from the management in this regard.

b. The information covered by this policy shall include "information related to the Trust's business, operations, or performance, which has a significant effect on securities investment decisions" **("Material Information")** that the Trust is required to disclose in a timely and appropriate manner by applying the guidelines for assessing materiality.

c. The policy lays down qualitative and quantitative criteria for determination of materiality of events/information other than for the deemed material information which is to be disclosed without any application of the materiality criteria.

d. Pursuant to Regulation 23 of the InvIT Regulations, the Investment Manager is obligated to prepare and submit half-

yearly and annual reports, containing certain prescribed disclosures, to the Stock Exchanges and the unitholders. The provisions of the policy shall also be applicable whilst determining the materiality of any events and/or information required to be disclosed in such periodic reports.

3. **Borrowing Policy of the Trust ("Borrowing Policy")**

The Investment Manager has adopted a borrowing policy pursuant to a resolution of the Board of Directors of the Investment Manager (**"IM Board"**) dated January 25, 2024. The Investment Manager shall ensure that all funds borrowed in relation to the Trust are in compliance with the InvIT Regulations. Accordingly, the IM Board has formulated the Borrowing Policy to outline the process for borrowing monies in relation to the Trust. The key terms of the Borrowing Policy include, among other things, the following:

a. The Investment Manager shall ensure that all funds borrowed in relation to the Trust are in compliance with the InvIT Regulations.

b. In the event the aggregate consolidated borrowings and deferred payments of the Trust, holding companies and the SPVs, net of cash and cash equivalents, exceed any thresholds prescribed under the InvIT Regulations in this regard, any further borrowings by the Trust shall be availed in accordance with the requirements prescribed under the InvIT Regulations, including any approval from unitholders under Regulation 22 of the InvIT Regulations.

c. The Trust may raise debt and avail borrowings and deferred payments from time to time, including through (i) issuance of debt securities, in the manner specified by the SEBI, and (ii) availing loans from banks and financial institutions in accordance with applicable law (including the InvIT Regulations). The Trust shall be permitted to borrow monies through any permitted means, by any instrument, in Indian or foreign currency, as permitted by applicable law, including as prescribed by the Reserve Bank of India.

d. The Trust shall be permitted to borrow monies, subject to the approval of the IM Board and/or such other committee of the IM Board as may be constituted in this regard. The Investment Manager may engage such intermediaries as may be necessary to facilitate the borrowings in relation to the Trust, holding companies or SPVs at such remuneration as may be reasonable and at arm's length.

e. The Trust acting through the Trustee shall, in consultation with the Investment Manager, have the power to secure the payment of any sum of money for and on behalf of the Trust in such manner and upon such terms and conditions in all respects as it deems fit including by mortgage or pledge or charge upon all or any Trust Assets (as defined in the Trust Deed), present or future. Any such obligation will not allow the Investment Manager to make the liabilities of the Trust or its Unitholders unlimited.

4. **Policy on appointment of the auditor of the Trust**

The Investment Manager has adopted a policy on appointment of the auditor of the Trust pursuant to a resolution of its board of directors on January 25, 2024. For details of the appointment policy of the auditor in relation to the Trust, please see the section "*Other Parties involved in the Trust – Policy on appointment of Auditor and Valuer*" on page 135.

5. **Policy on appointment of the valuer of the Trust**

The Investment Manager has adopted a policy on appointment of the valuer of the Trust pursuant to a resolution of its board of directors on January 25, 2024. For details of the appointment policy of the valuer in relation to the Trust, please see the section "*Other Parties involved in the Trust – Policy on appointment of Auditor and Valuer*" on page 135.

6. **Distribution Policy**

The Investment Manager has adopted a distribution policy in relation to Trust pursuant to a resolution of its board of directors on January 25, 2024. For details of the Distribution Policy, please see the section "*Distribution*" on page 288.

7. **Policy on Related Party Transactions ("RPT Policy")**

The Investment Manager has adopted a RPT Policy pursuant to a resolution of its board of directors on January 25, 2024. For details of the RPT Policy, please see the section "*Related Party Transactions*" on page 325.

8. **Policy for familiarization programmes for independent directors ("Familiarization Policy")**

The Investment Manager has adopted the Familiarization Policy pursuant to a resolution of its board of directors on January 25, 2024. The key terms of the Familiarization Policy are set out below:

a. The Investment Manager shall conduct orientation programmes / presentations / training sessions, periodically at regular intervals, to familiarize the independent directors with the strategy, operations and functions of the Trust.

b. Such orientation programmes / presentations / training sessions will provide an opportunity to the independent directors to interact with the senior leadership team of the Investment Manager and help them to understand the Investment Manager's and Trust's strategy, business model, structure, operations, markets, organization structure, finance, human resources, technology, risk management strategy, strategy, governance policies and such other areas as deemed necessary.

c. The programmes / presentations shall also familiarize the independent directors with their roles, rights and responsibilities.

d. The Investment Manager may include such other details and information, as required, during the introductory familiarization programme / presentation, when a new independent director comes on the IM Board.

e. The Investment Manager may periodically review this programme and make suitable revisions, as may be deemed necessary, from time to time.

f. The Investment Manager shall present the quarterly reports on the projects operated by the SPVs of the Trust before the independent directors for review, before submission of the reports to the trustee as required under the InvIT Regulations.

g. The programme will be conducted at least once a year on an "as needed" basis.

9. **Risk Management Policy ("RM Policy")**

The Investment Manager has adopted the RM Policy pursuant to a resolution of its board of directors on January 25, 2024. The RM Policy aims to provide a framework for identification and management of risks associated with the business of the Trust. The key terms of the RM Policy are set out below:

a. *Principles of risk management:*

(i) The Risk Management Committee shall provide reasonable assurance in protection of business value of the Trust from uncertainties and consequent losses.
(ii) All concerned process owners of the Investment Manager shall be responsible for identifying & mitigating key Risks in their respective domain.
(iii) The occurrence of risk, progress of mitigation plan and its status will be monitored on periodic basis.
(iv) The risk managers at the level of the Trust would include the Chief Executive Officer, Chief Financial Officer and Compliance Officer of the Investment Manager, as applicable.
(v) The risk management committee shall have minimum three members with majority of them being members of the IM Board, including at least one independent director. The chairperson of the risk management committee shall be a member of the board of directors. The risk management committee shall meet at least twice in a year.

b. *Risk Management Procedures:*

Risk management process includes four activities:

(i) Risk identification;
(ii) Risk assessment;
(iii) Risk mitigation and monitoring; and
(iv) Reporting.

c. *Risk identification:*

The purpose of risk identification is to identify internal and external risks specifically faced by the Trust, in particular including financial, operational, sectoral, sustainability (particularly, environment, social and governance related risks), information, personnel, reputational, regulatory, technology, political, litigation, cyber security risks or any other risk as may be determined by the risk management committee and identify all other events that can have an adverse impact on the achievement of the business objectives. All Risks identified are documented in the form of a risk register. The risk register incorporates risk description, category, classification, mitigation plan, responsible function / department.

d. *Risk assessment:*

Assessment involves quantification of the impact of risks to determine potential severity and probability of occurrence. Each identified risk is assessed on two factors which determine the risk exposure:

(i) Impact if the event occurs

(ii) Likelihood of event occurrence

Risk Categories: It is necessary that risks are assessed after taking into account the existing controls, so as to ascertain the current level of risk. Based on the above assessments, each of the risks can be categorized as – low, medium and high.

e. *Risk mitigation:*

All identified risks should be mitigated using any of the following risk mitigation plans:

(i) Risk avoidance: by not performing an activity that could carry risk. Avoidance may seem the answer to all risks but avoiding risks also means losing out on the potential gain that accepting (retaining) the risk may have allowed;
(ii) Risk transfer: mitigation by having another party to accept the risk, either partial or total, typically by contract or by hedging / insurance;
(iii) Risk reduction: Employing methods/solutions that reduce the severity of the loss; and
(iv) Risk retention: Accepting the loss when it occurs. Risk retention is a viable strategy for small risks where the cost of insuring against the risk would be greater than the total losses sustained. All risks that are not avoided or transferred are retained by default.

f. *Monitoring and reviewing risks:*

The risk management committee shall formulate the policies for effective identification, monitoring, mitigation of the risks. The secretary of the risk management committee shall maintain the risk register. Internal audit committee reviews the risk register once a year and adds any new material risk identified to the existing list. These will be taken up with respective functional head for its mitigation. Existing process of risk assessment of identified risks and its mitigation plan will be appraised by the risk management committee to the IM Board on an annual basis.

10. **Policy on Succession Planning for the Board of Directors and Senior Management ("Succession Policy")**

The Investment Manager has adopted the Succession Policy pursuant to a resolution of its board of directors on January 25, 2024**.** The key terms of the Succession Policy are set out below:

a. The objectives of the Succession Policy are, *inter alia*, as under:

(i) To identify and nominate suitable candidates for the board of director's approval to fill vacancies which may arise in the board of directors from time to time;

(ii) To identify the competency requirements of critical and key positions, assess potential candidates and develop required competency through planned development and learning initiatives;

(iii) To identify the key job incumbents in senior management positions and recommend whether the concerned individual be granted an extension in term/service or be replaced with an identified internal or external candidate or recruit other suitable candidate(s); and

(iv) To ensure the systematic and long-term development of individuals in the senior management level to replace as and when the need arises due to deaths, disabilities, retirements, and other unexpected occurrence.

b. The nomination and remuneration committee shall review the leadership and management needs of the Investment Manager from time to time. The nomination and remuneration committee shall assess the suitability of a person who is being considered for appointment as a director of the Investment Manager, based on his / her educational qualification, experience, expertise and track record and shall recommend to the IM Board, the terms and conditions of his/her appointment, including remuneration.

c. The nomination and remuneration committee may, at its discretion, recommend to the IM Board, appointment of suitable candidate(s) in senior management level with a view to ensure a continuous availability of managerial talent at senior levels to meet the organizational needs.

d. The recommendations of the nomination and remuneration committee shall be placed before the IM Board for approval. The senior management team shall always strive to develop in-house capabilities by enriching work exposure.

11. Investor Grievance Redressal Policy

The Investment Manager has adopted an Investor Grievance Redressal Policy pursuant to a resolution of its board of directors on January 25, 2024. The policy aims to provide efficient services to the investors and to effectively address and redress the grievances of the investors of the Trust in a timely manner.

As per the policy, all investors communication or grievances in relation to following matters shall be addressed by the registrar and transfer agents of the Trust within 5 working days from the date of receipt of such grievance or communication.

a. Issue or non-receipt of TDS certificates/ Form 64B,
b. Request for copy of annual report,
c. Non-receipt of distribution or interest,
d. Request for providing details of distribution and interest paid,

Furthermore, all investors grievance or communication regarding re-processing of distribution or interest and all other grievance or communication not specifically covered in this policy should be addressed by the registrar and transfer agents of the Trust within 10 working days from the date of receipt of such grievance or communication.

In case the registrar and transfer agents of the Trust requires any additional information or supporting document to address such grievance or communication, the return communication stating details of desired information or document should be released within respective stipulated turnaround time. After receipt of requested information or document, the registrar and transfer agents of the Trust should address such grievance or communication within respective stipulated turnaround time.

With a view to ensure greater transparency and as a part of the Trust's investor-friendly initiatives, the board of directors has considered it appropriate and desirable to formally document the present guidelines with respect to classification of securityholders' communication through the policy.

General principle guiding classification of securityholders' communication

a. Multiple correspondence / communications or reminders received for the same matter within the stipulated turnaround time in this Policy for handling of the query / communication will be treated as one complaint.
b. If a query is resolved after the stipulated turnaround time and there is no reminder from the securityholder during such time period, such query will not be treated as complaint.
c. In case of any ambiguity, the company secretary shall be the sole authority to decide on the nature and classification of the communication and the decision of the company secretary shall be final and binding.

The policy also lays down the investor grievance redressal mechanism.

12. Nomination and Remuneration Policy

The Investment Manager has adopted a Nomination and Remuneration Policy pursuant to a resolution of its board of directors on January 25, 2024. The key terms of the Nomination and Remuneration Policy are set out below:

Nomination and remuneration committee charter-

The following matters shall be dealt with by the nomination and remuneration committee:

a. It shall periodically review the size and composition of the board of directors to have an appropriate mix of executive and independent directors to maintain its independence and separate its functions of governance and management and to ensure that it is structured to make appropriate decisions, with a variety of perspectives and skills, in the best interests of the Investment Manager;

b. Basis the criteria determined by the committee on the qualifications, positive attributes and independence of a director, review and recommend the candidates to be appointed as director, having regard to qualifications, integrity, expertise and experience for the position.

c. To formulate the performance criteria and framework for evaluation of performance of every director on the board of directors or engage with a third party facilitator to do so.

d. To decide whether to extend or continue the term of appointment of independent directors.

e. To devise a policy on the diversity of the board of directors.

f. The committee shall act in compliance with the InvIT Regulations.

g. The committee shall act in compliance with the provisions of the Companies Act, 2013 on managerial remuneration and shall review and recommend to the board of directors on the remuneration payable to directors/key management personnel/senior management/ other employees subject to the approval of shareholders if necessary:-

(i) The remuneration payable to directors including sitting fees/commission payable to the directors for their participation at the board of directors and committees thereof including any revisions thereof;

(ii) the remuneration policies for key management personnel and senior management including base pay, incentive payments, equity awards, retirement rights, severance pay if any and service contracts having regard the need to:

a. attract and motivate talent to pursue the Investment Manager's long term growth;
b. demonstrate a clear relationship between compensation and performance;
c. balance between fixed and incentive pay reflecting short and long-term performance objectives as appropriate for the Investment Manager and its goals

(iii) need for any insurance to be obtained by the Investment Manager on behalf of its directors, key management personnel and senior management for indemnifying them against any liability; the premium paid on such insurance shall not be treated as part of the remuneration payable to any such personnel. Provided that if such person is proved to be guilty, the premium paid on such insurance shall be treated as part of the remuneration.

(iv) the compensation for other employees would be as per the compensation policy of the Investment Manager, as revised through the annual compensation review process from time to time, which is reviewed and recommended by the chief executive officer, in consultation with the Head- HR.

Board diversity-

The committee shall ensure that the board of directors shall have an optimum combination of non-independent, independent and woman directors in accordance with requirements of the InvIT Regulations, SEBI Listing Regulations and other statutory, regulatory and contractual obligations of the Investment Manager and the Trust. The Board shall consist of not less than one woman independent director.

13. **Whistleblower Policy**

The Investment Manager has adopted a Whistleblower Policy pursuant to a resolution of its board of directors on January 25, 2024. The key terms of the Whistleblower Policy are set out below:

a. Protected Disclosures, as defined below, should be addressed to the chairman of the audit committee (**"Authority"**) of the Investment Manager for investigation under a sealed envelope.
"Protected Disclosures" means any written or anonymous communication made in good faith that discloses or demonstrates information, about the Investment Manager or its subsidiary(ies), that may evidence unethical or improper activity.

b. If a Protected Disclosure is received by any executive of the Investment Manager other than the Authority, the same should be forwarded unopened by such executive to the Authority for further appropriate action. Reasonable care shall be taken by such executive to keep the identity of the whistle blower confidential.

c. Protected Disclosures should be reported in writing in an easy and understandable manner, so as to ensure a clear communication of the issues raised and should preferably be typed, or alternatively, written in legible handwriting.

d. The Protected Disclosure should be forwarded under a covering letter which shall bear the identity of the whistle blower. This is to ensure that the Authority may interview the whistle blower, if required. Upon receipt of the covering letter, the Authority shall detach the same and forward only the Protected Disclosure to the investigators for investigation.

e. Protected Disclosures should be factual and not speculative or in the nature of a conclusion and should contain as much specific information as possible to allow for proper assessment of the nature and extent of the concern and the urgency of a preliminary investigative procedure.

f. On receipt of a communication that discloses or demonstrates information, about the Investment Manager or its subsidiary(ies), that may evidence unethical or improper activity (**"Communication"**), the Authority shall first ascertain that (a) the Communication is made in good faith, (b) that the Communication is not prima facie frivolous in nature, basis facts and circumstances shared, and (c) that the Communication is complete. If the Communication is not complete in terms of the information so provided, the Authority shall request the whistle blower to share additional information to the extent required to determine the true nature of the Communication.

g. Thereafter, the Authority shall immediately share the Communication along with all relevant information gathered and call for a meeting of the audit committee to investigate the matter. The Audit Committee shall investigate the matter either by itself or shall take assistance of a third party (independent and neutral consultant) to investigate the matter.

h. If the Authority considers the Communication frivolous, it shall make a notation of it and nevertheless forward it to the audit committee for it to take a decision as to whether the Communication needs to be further investigated or rejected for its frivolous nature or being made in bad faith. The audit committee shall provide proper reasons as to why a Communication is rejected, if it so decides not to further investigate it.

The policy lays down following guidelines regarding the protection received by the whistle blower:

a. No unfair treatment will be meted out to a whistle blower by virtue of his/her having reported a Protected Disclosure under this policy.

b. The Investment Manager condemns any kind of discrimination, harassment, victimization or any other unfair employment practice being adopted against whistle blowers. Complete protection will, therefore, be given to the whistle blowers against any unfair practice like retaliation, threat or intimidation of termination/suspension of service, disciplinary action, transfer, demotion, refusal of promotion, or the like including any direct or indirect use of authority to obstruct the whistle blower's right to continue to perform his duties/functions including making further Protected Disclosure.

c. The Investment Manager shall take steps to minimize difficulties, which the whistle blower may experience as a result of making the Protected Disclosure. Thus, if the whistle blower is required to give evidence in criminal or disciplinary proceedings, the Investment Manager will arrange for the whistle blower to receive advice about the procedure, etc.

d. Any other employee assisting in the investigation process under this policy shall also be protected to the same extent as the whistle blower.

The policy also lays down a reporting requirement as per which the investigators shall submit a report to the audit committee on a regular basis about all Protected Disclosures referred to him/her since the last report together with the results of investigations, if any.

14. **Anti-Money Laundering Policy ("AML Policy")**

The Investment Manager has adopted an AML Policy pursuant to a resolution of its board of directors on January 25, 2024. The AML Policy aims to establish the controls around prevention of money laundering in the Trust. It is applicable to the Trust, the SPVs**,** and the Investment Manager, project manager, sponsor, sponsor groups (as defined under the InvIT Regulations) and trustee(s) of the Trust (collectively referred to as the **"Trust Entities"**). The key terms of the policy are set out below:

a. The AML Policy has the following objectives:

(i) To create awareness among all directors, officers, employees, vendors, agents, representatives, staff, consultants and other associated persons/business partners of the Trust Entities (collectively referred to as the **"Trust Personnel"**) about the legal and regulatory framework for anti-money laundering requirements;

(ii) To interpret the obligations under the Prevention of Money Laundering Act, 2002 **("PMLA")** and the rules notified thereunder, and how they may be implemented in practice; and

(iii) To align the Trust Entities' operations with best industry practices in anti-money laundering procedures.

b. The AML policy puts following obligations on the compliance officer:

(i) Monitoring the Trust Entities with regards to the compliance with PMLA and, overseeing communication and training for the Trust personnel.

(ii) Ensure that Trust Entities keep and maintain all records as required under the PMLA and other applicable laws for such periods as prescribed.

(iii) Based on facts and circumstances of an incident covered in the report received by the compliance officer, he/she shall take one or more steps, such as:

a. conducting a probe into the incident himself/herself;

b. setting up an internal inquiry into the incident;

c. in case of Aggravated Cases, as defined below, determine and recommend whether the incident should be reported to the appropriate authority as specified under PMLA.

("**Aggravated Cases**" shall mean incidents of money laundering that need to be reported to the relevant regulatory or enforcement authorities, for example the Financial Intelligence Unit, India. All Aggravated Cases must be escalated, without delay, to the designated director).

(iv) In case of violations of the AML Policy, the compliance officer shall, after considering inputs, if any, from the designated director, have the discretion to do the following:

a. **Corrective Action:** If necessary, corrective actions shall be prescribed by the compliance officer to Trust Personnel for implementation.

b. **Penalties:** The compliance officer shall, based on the investigation reports (if any) have the discretion to recommend appropriate disciplinary action, including suspension, wage freeze, recovery, clawback and termination of service, against such a defaulting Trust Personnel. Depending on the nature and scale of default of the AML Policy, the compliance officer may also recommend to the board of directors to commence civil and/or criminal proceedings against such Trust Personnel in order to enforce remedies available to the Trust Entities under applicable laws.

c. Ensure that order of attachment or complaint has been filed by a person authorized to investigate the offence before the relevant magistrate or court in terms of the PMLA.

c. The AML Policy also obligated the compliance officer to raise awareness of the employee(s)/director(s)/personnel of the Trust and parties to the trust on the risks, ability to identify such transactions and report to the correct authority. Training sessions should be periodically conducted among employees to keep them updated on the latest amendments to anti-money laundering laws, internal controls, legal requirements and reporting authority.

15. Policy on Acquisition and Funding ("Acquisition Policy")

The Investment Manager has adopted an Acquisition Policy pursuant to a resolution of its board of directors on January 25, 2024. The Acquisition Policy aims to provide a policy in respect of acquisition of any future SPVs by the Trust, and any funding that may be availed by the Trust in respect thereof. Following are the key terms of the Acquisition Policy.

a. As per this policy, the Trust shall be entitled to acquire a future SPV, subject to compliance with this policy and applicable law, provided that such future SPV meets each of the following criteria:

(i) has residual revenue generating period of not less than 3 years;

(ii) is a completed and revenue generating asset or, in the reasonable assessment of the Investment Manager, could be converted into a completed and revenue generating asset over the next 18 months; and

(iii) there are no substantial risks which, in the reasonable assessment of the Investment Manager, may lead to suspension or termination of the revenues.

A future SPV that meets each of the aforesaid criteria shall be deemed an "**Eligible SPV**".

b. This policy also requires preparation of an annual acquisition plan at the beginning of each financial year that shall include details in relation to the likely target assets, estimated valuation, potential sources of funding, estimated expenses for due diligence, means of finance and plan of funding for the proposed acquisitions, along with other transaction related costs.

c. The independent evaluation for all potential acquisition opportunities shall be undertaken by the Investment Manager, including carrying out a detailed diligence exercise. If required, the Investment Manager may empanel key advisors with relevant experience and credentials for carrying out various work streams of due diligence, such as technical evaluation, legal and regulatory, finance, accounting and tax, human resources, environment, health and safety (EHS), secretarial, insurance advisors. This is only an indicative list and may be modified depending upon the nature and size of the target assets.

d. The Trust shall be obligated to repay any and all shareholder loans or advances held by any person in such Eligible SPV.

e. Any offer or an invitation to offer, made by any person (**"Seller"**) in relation to an Eligible SPV controlled by such Seller, shall be presented by any member of the key management team of the Investment Manager to the board of directors of the Investment Manager. Such an offer shall, among other things, set-out the non-binding offer and the information including, the price, the details of the Seller and its nominees, and the terms of the sale proposed by the Seller.

f. The Trust shall meet its funding requirements, including funding for acquisition of any Eligible SPVs and for capital expenditure requirements for any capacity augmentation, in accordance with the terms set out in the Acquisition Policy.

g. As per the policy, subject to applicable law and the Borrowing Policy, the Trust may avail additional debt (along with provision of security for such debt) for funding the acquisition of any Eligible SPVs if the following conditions are complied with:

(i) the aggregate consolidated borrowings and deferred payments of the Trust, at a consolidated level, shall not exceed such limit as prescribed under applicable law;

(ii) the debt is availed at commercially reasonable terms as may be determined by the board of directors. The Investment Manager shall ensure that the Trust does not undertake any obligation which would result in its liabilities exceeding the value of the total assets of the Trust;

(iii) the terms of any debt proposed to be availed require complete repayment at least one year prior to the expiry of the relevant concession agreement of the Eligible SPV; and

(iv) the average debt service coverage ratio on a consolidated letter is not less than 1.75 times.

h. If the funding requirement of the Trust are not fulfilled for acquisition of any Eligible SPVs post utilisation of debt availed as per point (e) above, subject to compliance with applicable law, the Trust may utilise such portion of its distributable income as are set aside as reserves for the purposes of funding the acquisition of any Eligible SPVs. In case there is any trapped cash or any other trapped liquid investments in the Trust, the same can also be utilised for acquisition of Eligible SPVs in any feasible manner (such as security for any borrowing).

i. If the Trust does not have sufficient funds under point (h.) above, the Trust may raise funding for the acquisition of any Eligible SPVs in compliance with applicable law.

j. The payment of any consideration by the Trust to the Seller(s) for the acquisition of future SPVs controlled by the Seller(s) shall only be made in cash, as may be available with the Trust in accordance with terms of the Acquisition Policy; provided that so long as such a Seller is not a competitor of the Trust, the Trust may undertake a preferential issue of such number of units as consideration to such a Seller for the acquisition of the Eligible SPV controlled by the Seller(s), at a price determined in compliance with applicable law.

k. The policy also sets forth reporting requirement as per which, at least once every year, the chief financial officer (or in case the position of chief financial officer is vacant for any reason, then the chief executive officer) of the Investment Manager shall explore the possibility of, and present a report to the board of directors of the Investment Manager, on refinancing whole or part of the existing debt of the Trust and/or the SPVs of the Trust.

l. If the board of directors of the Investment Manager (either by itself or through a committee designated for such purpose) determines that the expected gains from refinancing exceed the costs of such refinancing and thereby approves the debt refinancing proposal (including with modifications) of the chief financial officer or chief executive officer, as the case may be, then such refinancing proposal shall be implemented, subject to compliance with applicable law. If the board of directors of the Investment Manager (either by itself or through a committee designated for such purpose) determines that the expected gains from refinancing is less than the costs of such refinancing and thereby disapproves the debt refinancing proposal (including with modifications) of the chief financial officer or chief executive officer, as the case may be, then such refinancing proposal shall be terminated.

16. **Document Archival Policy**

The Investment Manager has adopted a Document Archival Policy pursuant to a resolution of its board of directors on January 25, 2024. It aims to provide a comprehensive policy on the preservation and conservation of the records and documents of the Trust. It provides guidance on the preservation and management of documents to help ensure the authenticity, reliability and accessibility of such documents. The policy aims at identifying, classifying, storing, securing, retrieving, tracking and destroying or permanently preserving records. It stipulates the duration and manner in and place at which records and documents of the Trust shall be preserved. Accordingly, the Investment Manager has formulated this policy.

2. Project SPVs

Representatives on the Board of Directors of the Project SPVs

The Investment Manager, in consultation with the Trustee, currently appoints the majority of the members of the board of directors of each of the Project SPVs , in accordance with the requirements prescribed under the InvIT Regulations.

1. Macroeconomic overview of India

1.1. Review of India's GDP growth

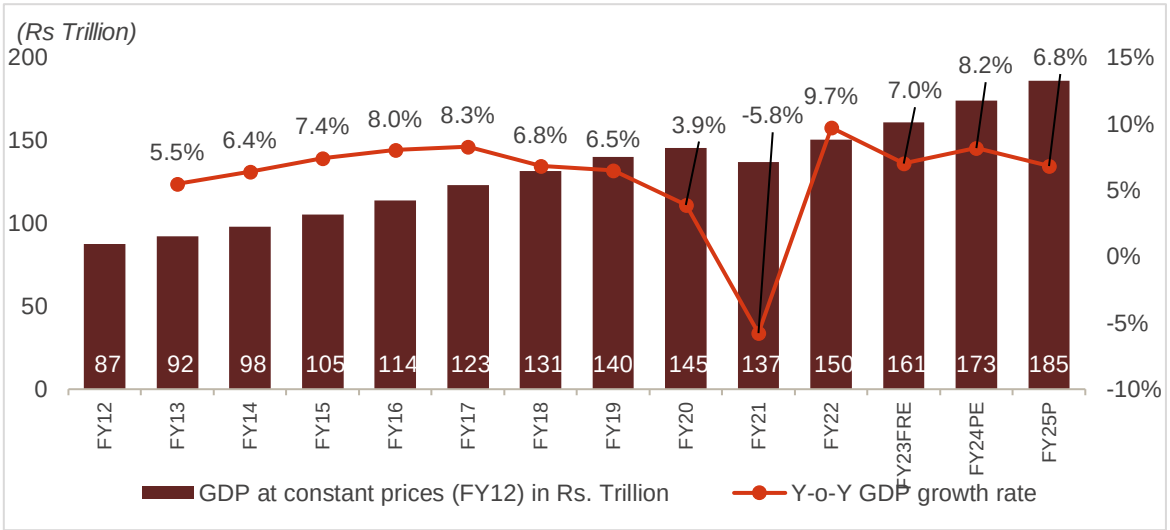
GDP logged 5.7% CAGR between fiscals 2012 and 2023

In 2015, the Ministry of Statistics and Programme Implementation (MoSPI) changed the base year for calculating India's gross domestic product (GDP) to fiscal 2012 from fiscal 2005.

Based on the change, India's GDP clocked a compound annual growth rate (CAGR) of 5.7% between fiscals 2012 and 2023, with the country's overall GDP at Rs 160,714 billion in fiscal 2023 vs Rs 87,363 billion in fiscal 2012. The pace of growth was despite the stress inflicted by the pandemic that led to the GDP — which was already experiencing a slowdown and had grown 3.9% in fiscal 2020 — contracting 5.8% on-year in real terms in fiscal 2021 to Rs ~136,949 billion.

The economy bounced back in fiscal 2022 as the Covid-19 pandemic-related shocks subsided, which resulted in a growth of 9.7% on-year in real GDP to Rs ~150,218 billion.

Real GDP growth in India (new GDP series)



FRE-First Revised Estimate; PE- Provisional Estimate; P – Projected
Source: National Statistics Office (NSO), Advance estimates of national income 2020-24, Central Statistics Office, Ministry of Statistics and Programme Implementation (MoSPI), CRISIL MI&A Consulting

Review of real GDP growth over fiscals 2019-2024 and outlook for fiscals 2025-2029

The Indian economy, which rose a robust 6.6% CAGR between fiscals 2017 and 2019, decelerated sharply to 4.4% CAGR between fiscals 2019 and 2024.

Economic growth during fiscals 2017 to 2019 was driven by rising consumer spending, rapid urbanisation, and the government's focus on infrastructure investment and the domestic manufacturing sector. Supporting the expansion were benign crude oil prices, soft interest rates and low current account deficit. The Indian government undertook key reforms and initiatives as well, such as implementation of the Goods and Services Tax (GST), Insolvency and Bankruptcy Code, Make in India and financial inclusion

push, and gradual opening of sectors such as retail, e-commerce, defence, railways, and insurance to foreign direct investments (FDIs).

However, over fiscal 2018 to 2023, a large part of the lower growth was because of the economy contracting 5.7% in fiscal 2021, owing to the fallout of Covid-19. The pandemic's impact was more pronounced on those industries that needed to adhere to social distancing norms, such as entertainment, travel and tourism, with many industries in the manufacturing sector also facing issues with shortage of raw materials/ components as lockdowns in various parts of the world upended supply chains. Also, the non-banking financial company (NBFC) crisis and slower global economic growth affected the trajectory.

But as lockdowns were gradually lifted, economic activity revived in the second half of fiscal 2021. After a steep contraction in the first half, owing to rising number of Covid-19 cases, the GDP expanded towards the end of fiscal 2021. Subsequently, in fiscal 2022, India's real GDP grew 9.7% from the low base of fiscal 2021 that is Rs. 136,949 billion.

In the first three quarters of fiscal 2024, India's GDP exceeded expectations. Growth in the fiscal was primarily driven by fixed investments on the demand side and industry on the supply side.

In fact, growth surpassed forecasts in the second quarter, owing to strong government spending and sharp rise in manufacturing and construction growth. Globally, growth rates of major economies such as the US and China beat estimates as well, contributing to better export earnings for India. According to the National Statistics Office's (NSO) second advance estimates (SAE), real GDP rose 8.6% on-year in the third quarter of the fiscal, which was a revision from 8.4%. Growth of the previous two quarters were revised up as well – second quarter was revised to 8.1% from 7.6% and first quarter to 8.2% from 7.8%.

And while GDP growth slowed to 7.8% on-year in the fourth quarter of last fiscal, it was higher than 6.2% in the year-ago quarter. Also, quarter four growth was much stronger than 5.9% factored in the SAE in February 2024. Overall moderation of growth in the fourth quarter of fiscal was because of fixed investment segment on the demand side. And while private consumption trailed overall GDP growth, its performance improved overall in the second half of the fiscal. Net exports also buoyed GDP growth in the fourth quarter, driven by pick up in export growth and moderation in import growth.

On the supply side, gross value added (GVA) growth at 6.3% in the fourth quarter was much lower than GDP growth. Sharp rise in net taxes pushed the GDP growth higher than GVA. The industrial and services sectors saw a moderation, while the agriculture and allied sector inched up slightly. This prompted the NSO to revise up the fiscal 2024 GDP growth estimate to 8.2% (which is a provisional estimate). GVA growth was also revised up to 7.2% from 6.9%. NSO pegged GDP growth at 7.6% in fiscal 2024 vs 7.3% as per the first advance estimates. But based on the SAE, growth in the fourth quarter of the fiscal is estimated to have slowed to 5.9%.
Meanwhile, nominal GDP slowed to 9.9% in the fourth quarter of fiscal 2024 from 10.3% in the previous quarter. For fiscal 2024, it grew 9.6%, slower than 14.2% in the previous year.

After a strong GDP estimate in the past three fiscals, CRISIL MI&A Research expects GDP growth to moderate to 6.8% in fiscal 2025. Fiscal consolidation will reduce the fiscal impulse to growth. Rising borrowing costs and increased regulatory measures could weigh on demand, and net tax impact on GDP is expected to normalise. Exports could be impacted due to uneven growth in key trade partners such as the US and EU and escalation in geopolitical issues in the Middle East.

However, another spell of normal monsoon and easing inflation could revive rural demand. Also, reducing the fiscal 2025 deficit will reduce the government's direct support for economic growth, but investing in high-quality spending could still boost investment and rural incomes. CRISIL MI&A Research anticipates a return to normal levels of indirect tax support GDP as well.

India's GDP growth trend and outlook

Key fiscal measures announced by the Centre to deal with pandemic fallout

Under the Atmanirbhar Bharat initiative, the government announced a series of fiscal measures to contain the human and economic challenges from the pandemic. Following are the details of key measures announced through three packages in May, October and November of fiscal 2021.

Fiscal stimulus 1.0

Through this fiscal stimulus package, the government announced measures worth Rs 11,000,000 million in five tranches. This was in addition to the earlier announced measures worth Rs 9,900,000 million, including liquidity support from the Reserve Bank of India (RBI), taking the total financial support amount to Rs 20,900,000 million. The government announced the package with the aim of reviving the economy by infusing liquidity and providing income support. The actual committed fiscal outgo was of Rs 1,000,000 million, translating into 9% of the Rs 11,000,000 million of measures outlined over the five tranches. The bulk of this direct support was through the Pradhan Mantri Garib Kisan Yojana. The government also ploughed in some earlier discussed structural reforms, especially in tranches 4 and 5, to help drive India's medium-term growth story. The announcements pertained especially to sectors such as mining, aviation, urban infrastructure, power and agriculture.

Further, the government increased the borrowing limit for state governments from 3% of their GDP to 5%. However, of this additional 2.0 percentage points, 1.5 percentage point was conditional upon states achieving certain targets.

For addressing near-term issues, apart from direct benefit transfers and additional spending through the Mahatma Gandhi National Rural Employment Guarantee Act, 2005, the government mobilised credit to micro, small and medium enterprises, agriculture, and the affordable housing sector. This included the 100% guarantee on loans worth Rs 30,000,000 million and one-year moratorium to help these units, which were typically strapped for working capital. It was also aimed at spurring credit growth for both banks and non-banks in fiscal 2021 and contain delinquencies in the segment, which would have increased otherwise.

Fiscal stimulus 2.0

The government measures targeted increasing demand in the economy. The government proposed a scheme where central government employees could spend their tax-exempt travel concessions on certain goods and services. It also made provisions for them to receive a part of their wages in advance to spend on their choice of festival before March-end 2021. The stimulus also included infrastructure spending of Rs 250,000 million and interest-free loan to states, which stood at Rs 120,000 million. The measures announced under this package amounted to Rs 700,000 million.

Fiscal stimulus 3.0

This Rs 2,650,000 million stimulus package was aimed at job creation, access to credit and farm support with. The key highlight of this stimulus was to provide production-linked incentives to 10 sectors, estimated at ~14,500,000 million. This was proposed to be spent over next 4-6 years, i.e. till fiscal 2028, to encourage domestic manufacturing across 10 sectors – namely, textiles, food, pharma, consumer durables, auto, telecom, specialty steel, solar, electronic, and battery. The stimulus package also provides Rs 650,000 million additional outlays for subsidy towards the fertilisers sector. The stimulus includes a Rs 180,000 million outlay for the housing for all plan, besides having a package of Rs 100,000 million to support the rural economy.

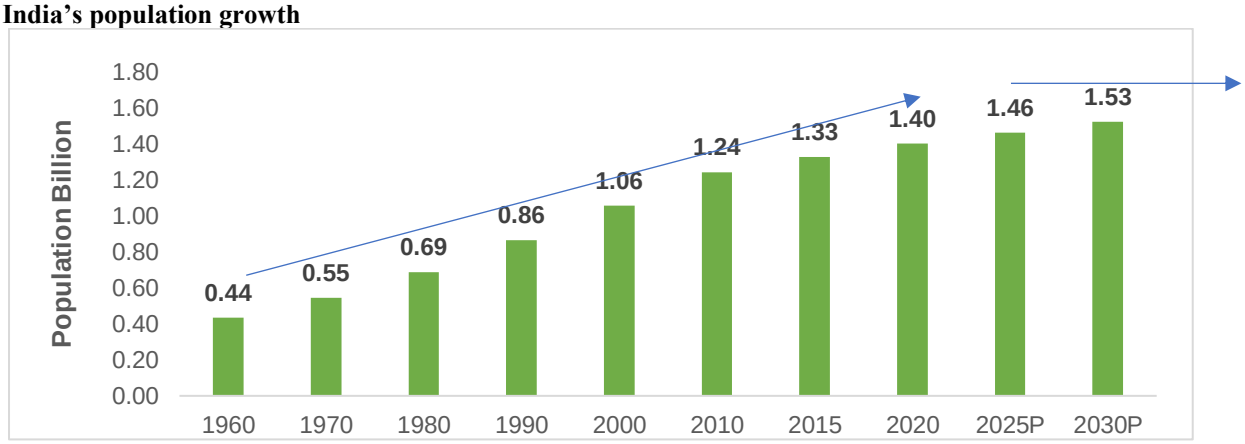
1.2. Review of population growth and urbanisation

India's population projected to touch 1,500 million by 2030

India's population clocked ~1.6% CAGR from 2001 to 2011, reaching ~1,200 million, and comprised nearly 246 million households, as per Census 2011.

According to the World Urbanization Prospects: The 2018 Revision by the United Nations, India and China – the top two countries in terms of population – accounted for nearly 37% of the world's population in 2015. India's population is expected to increase at 0.8% CAGR from 2020 to 1,525 million by 2030.

India's population growth



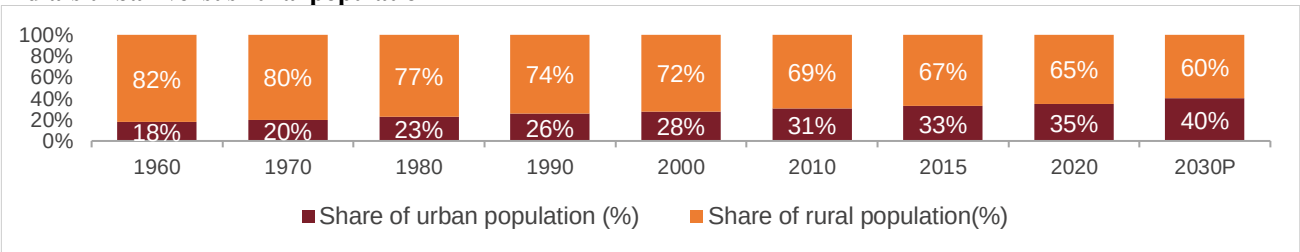
P: Projected

Source: Unitedk Nations, Department of Economic and Social Affairs, Population Division (2024); Probabilistic Population Projections Rev. 1 based on the World Population Prospects 2019 Rev. 1; CRISIL MI&A Consulting

Urbanisation likely to reach 40% by 2030

The share of the urban population in India's total population has been rising over the years and stood at ~31% in 2010. People from rural areas move to cities for better job opportunities, education and quality of life. The entire family or only a few individuals (generally an earning member or students) may migrate, while the rest of the family continues to live in the native, rural house. This trend is expected to continue, with a United Nations report projecting that nearly 40% of the country's population will live in urban areas by 2030.

India's urban versus rural population



P: Projected

Source: World Urbanization Prospects: The 2018 Revision, United Nations; CRISIL MI&A Consulting

1.3. Review of private final consumption growth

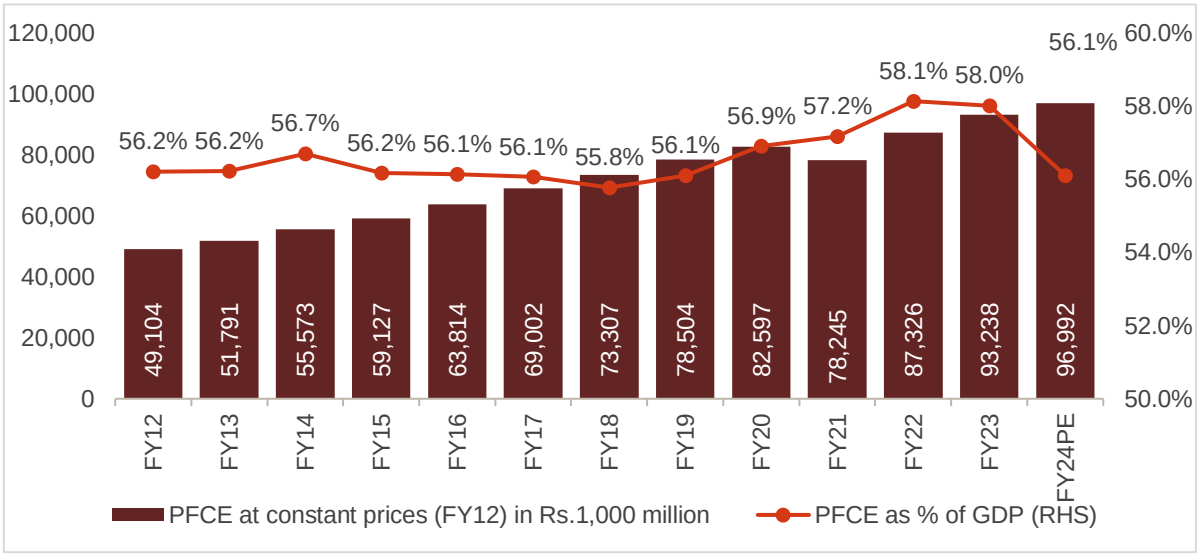
Private final consumption expenditure to maintain dominant share in GDP

Private final consumption expenditure (PFCE) reflects the overall consumption patterns and spending capacity of households within an economy. When PFCE increases it often translates to increased demand for various goods and services.

PFCE at constant prices clocked 6.0% CAGR between fiscals 2012 and 2023, maintaining its dominant share in the GDP pie, at 58.5% or Rs 93,587,000 million as of fiscal 2023. Factors contributing to the growth included good monsoons, wage revisions due to the implementation of the Pay Commission's recommendations, benign interest rates and low inflation.

That said, PFCE had declined to Rs 78,245,000 million in fiscal 2021 from Rs 82,597,000 million in fiscal 2020 on account of the pandemic, when consumption demand was impacted on account of strict lockdowns, employment loss, limited discretionary spending and disruption in demand-supply dynamics. PFCE increased 6.8% to Rs 93,238,000 million in fiscal 2023 but remained at 58.0% as a % of GDP. This was because the pandemic had an adverse impact on personal expenditure and government spending increased in an effort to boost the economy from the Covid-19-induced slump.

PFCE at constant prices



PE – Provisional Estimate
Source: Second Advance Estimates 2023-24, MoSPI, CRISIL MI&A Consulting

PFCE stayed steady in the fourth quarter of fiscal 2024 at 4.0% on-year (previous quarter print was revised up to 4.0% from 3.5%). However, the growth remained much lower than the 7.8% GDP growth during the quarter. There appeared some signs of a rural recovery during the quarter. Demand for work under the Mahatma Gandhi National Rural Employment Guarantee Act declined significantly on-year, indicating easing job distress. Rural wages also showed signs of a pick-up. Demand for rural-dependent sectors, though, showed a mixed trend. For instance, two-wheeler sales rose in the fourth quarter, but tractor sales continued to decline.

Urban demand seemed to have sustained some momentum. Employment prospects were broadly healthy with higher labour force participation and lower unemployment on-year. Consumer durables production further grew in the fourth quarter and retail credit growth showed steady momentum. But growth in consumer non-durables production slowed further, indicating persisting uneven trend in consumption.

PFCE quarterly trend for India

1.4. Outlook on GDP growth

Near-term review and outlook on GDP

Services sector is the key growth driver

In fiscal 2020, the services sector accounted for 55.3% of India's GDP compared with 52.4% in fiscal 2015. However, its share dipped to 53.6% in fiscal 2021 following the onset of the pandemic. Fiscal 2022 saw marginal improvement in the share of the services sector with gradual normalisation of market operations.

The industrial sector, which is the second-largest contributor, maintained its share in GDP of ~31%, logging 7.1% CAGR between fiscals 2015 and 2019. Industrial contribution declined in fiscal 2020, with slowdown in economic development. Before overall economic activity slowed down in fiscal 2020, India's industrial sector output growth was supported by the Make in India initiative, rising domestic consumption and GST implementation. The initiatives improved India's position on the World Bank's Ease of Doing Business index to 63 in fiscal 2019 from 142 in fiscal 2014.

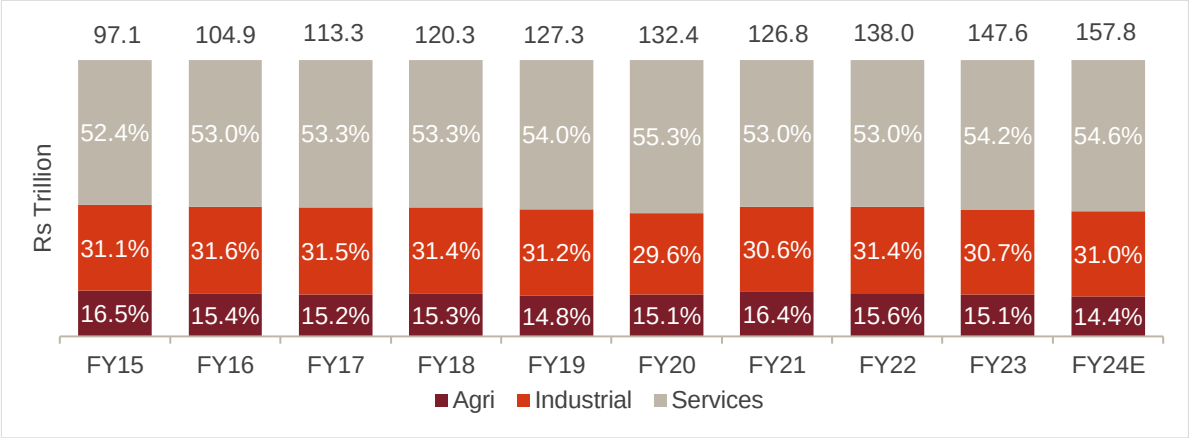
The pandemic and subsequent lockdown exacerbated the economic slowdown in fiscal 2021. The services segment was the worst affected and declined 8.2% year-on-year, mainly due to the decline in trade, hotels, transport, and communication services (THTC) by 19.7% as well as decline in public administration, defence and other services by 7.6%, followed by industrial, which slipped 0.9% on-year. Agriculture was the only sector that grew 4.1% on-year, restricting a further contraction in the GDP.

In fiscal 2021, the agriculture sector's share in GVA at constant prices expanded, while the share of the services and industrial sectors contracted.

In fiscal 2022, agriculture GVA grew at a rate of 3.5%, but the industrial sector rose a sharper 12.0% on a low base of fiscal 2021. The service sector grew 8.8% on-year.

Agriculture GVA continued to grow at a steady 4.0% in fiscal 2023. Faster GDP growth in fiscal 2023 saw the share of agriculture increase in the fiscal. The share of industrial sector in GDP grew 4.0% in fiscal 2023, strongly because od utility services, with 8% growth, which was higher than all other industrial sectors. Mining grew 5%, while manufacturing and construction added marginal growth momentum from a high base of fiscal 2022. The high base of fiscal 2022 led to moderate growth of the industrial sector in fiscal 2023. The services sector grew 9% in fiscal 2023. THTC saw strong on-year growth of 14% in fiscal 2023.

Share of sector in GVA at constant prices



Source: RBI; CRISIL MI&A Consulting; E: Estimated

GDP growth moderated in the fourth quarter of fiscal 2024

Moderating industry and services, weak agriculture

On the supply side, GVA growth moderated to 6.3% in the fourth quarter from 6.8% in the previous quarter. It remained much lower than the GDP growth as net taxes grew 22.2% on-year during the quarter after a 31.2% growth in the third quarter.

While GVA growth for agriculture picked up (0.6% in the fourth quarter vs 0.4% in the third quarter), it slowed for industry (8.4% vs 10.5%) and services (6.7% vs 7.1%).

- The subdued growth in agriculture and allied activities reflects lower crop output this year. According to the SAE, total food production will be 1.3% lower on-year — kharif 1.0% lower and rabi 1.7%
- Within industry, manufacturing growth moderated to 8.9% in the fourth quarter from 11.5% in the previous quarter. Infrastructure and investment-related sectors, which had contributed to strong growth in the first half of the fiscal, slowed in the second half, according to the granular data from the Index of Industrial Production (IIP). The benefit of falling input costs is also fading, as the decline in commodity prices halted
- Construction GVA growth, though moderate, was a healthy 8.7% (vs 9.6%). Moderating government capital expenditure (capex) towards the end of the fiscal may have weighed on construction growth. However, a slowdown was seen in electricity (7.7% vs. 9.0%) and mining (4.3% vs 7.5%)
- Services growth moderated (6.7% in the fourth quarter vs 7.1% in the previous quarter), driven by contact-based services such as trade, hotels, transport and communication (THTC) services. THTC growth moderated to 5.1% from 6.9%, reflecting post-pandemic fading pent-up demand
  - Financial, real estate and professional services rose to 7.6% from 7.0%, driven by a healthy banking sector and robust real estate
  - Public administration, defence and other services grew 7.8% vs 7.5%

Softening investments

Investments—the key driver of domestic demand in **fiscal 2024**—moderated in the fourth quarter for the second consecutive quarter. Private consumption remained steady, after rising in the third quarter.

Fixed investments slowed as measured by gross fixed capital formation (GFCF; 6.5% vs 9.7%). Slower government infrastructure spending may have dragged investment growth, with both central and state capex data showing an on-year slowdown in the fourth quarter.

Private final consumption expenditure (PFCE) stayed steady in the fourth quarter, at 4.0% on-year (previous quarter print revised up to 4% from 3.5%) but was much lower than 7.8% GDP growth in the fourth quarter.

Outlook on GDP

After strong GDP print in the past three years, we expect it to moderate to 6.8% this fiscal. Growth will still be higher than the pre-pandemic decadal average of 6.7%, continuing to position India as the fastest growing major economy.

Investments, a key growth booster, are expected to moderate as the government focuses on fiscal consolidation. The extent of revival in private investment cycle will determine the investment momentum this fiscal.

The other strong segment, urban demand, could moderate as credit conditions tighten this year. Transmission of previous rate hikes to broader lending rates remains incomplete. As the wait for rate cuts from the RBI prolongs, the transmission is expected to continue, raising the borrowing costs. In addition, the RBI's regulatory measures to clamp down on risky lending will weigh on credit support to consumption.
That said, the forecast of an above-normal monsoon brings hope for the rural economy, which was a laggard in the country's growth story last year. The consequent possible easing in food inflation could also boost purchasing power and support consumption. However, monsoon distribution will be the determining factor. Freak weather events, such as heatwave and unseasonal rains, remain a risk.

We expect a normalisation of the net indirect tax impact on GDP after strong growth last fiscal (FY2024).

Slower global growth can restrict upside to goods exports owing to normalisation of supply chains and an expected pick-up in volume of trade in calendar 2024. S&P Global expects global GDP growth to slow to 3.2% in 2024 from 3.4% in the previous year, weighed by interest rates staying elevated for longer. Any spike in the prices of commodities—particularly crude oil—remains a risk for the country's growth.

Risks to growth

Weak monsoon

Rainfall in the country during the monsoon season (June-September) 2023 was 94% of its long period average (LPA). Deficient rainfall has a significant impact on rural demand.

Inflation pressure

Inflation data released in April 2024 showed Consumer Price Index (CPI)-based inflation eased to a 5-month low of 4.9% in March from 5.1% in February. While core inflation declined to a record low of 3.3%, fuel inflation declined to 3.2% on the back of lower domestic fuel prices. The worry, though, remains about persistently high food inflation, at 8.5%**.**

External drag on growth

Global growth is likely to slow down this year because of higher interest rates. Central banks in key advanced economies have maintained policy interest rates in their latest meetings. However, improving inflation outlook will allow the RBI to initiate rate cuts in fiscal 2025. Geopolitical uncertainty, though, will continue to disrupt global trade.

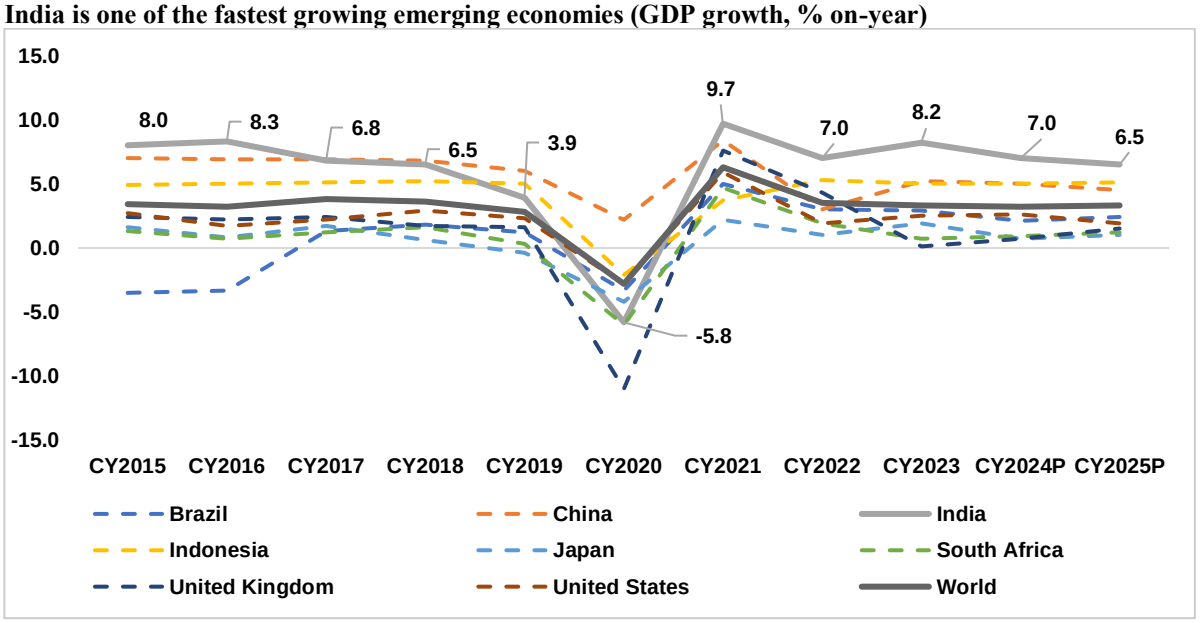
Impact of higher interest rates

The transmission of previous rate hikes by the Monetary Policy Committee (MPC) is still playing out amid tight liquidity conditions, which suggests a further rise in market lending rates in the near term. This will moderate domestic demand. The RBI's move to increase risk weights on the consumer credit exposure of banks and non-banking financial companies (NBFCs) is also expected to mildly affect overall credit growth next fiscal.

India to remain a growth outperformer globally

Despite slowdown in the near term, India's growth is expected to outperform over the medium run. CRISIL MI&A expects GDP growth to average 6.8% between fiscals 2025 and 2029, compared with 3.2% globally as estimated by the IMF.

India is one of the fastest growing emerging economies (GDP growth, % on-year)



P: Projected
Note: GDP growth based on constant prices, For India, data and projections are presented on a fiscal year (FY) basis.
Source: IMF (World Economic Outlook – July 2024 update), CRISIL MI&A Research

Growth drivers

- Capital will continue to be the biggest growth contributor. As the government pursues fiscal consolidation, its role in boosting overall capex will partly diminish compared with the past few years
- Strong domestic demand is expected to drive India's growth over peers in the medium term
- Investment prospects are optimistic, given the government's capex push, progress of Production-Linked Incentive (PLI) scheme, healthier corporate balance sheets, and a well-capitalised banking sector with low non-performing assets (NPAs)
- India is also likely to benefit from its diversification of the supply chain for incoming FDI flows, as global supply chains get reconfigured with the focus shifting from efficiency to resilience and friend shoring
- Rising employment rates and a notable increase in private consumption, buoyed by growing consumer confidence, will boost GDP growth in the upcoming months
- The government's future capex is expected to be supported by factors such as tax buoyancy, simplified tax structures with lower rates, tariff structure reassessment and tax filing digitisation
- Medium-term growth is anticipated to be bolstered by increased capex on infrastructure and asset development projects, leading to enhanced growth multipliers

Near-term review and outlook on inflation

CPI eased to a 5-month low of 4.9% in March 2024 from 5.1% in February 2024. While core inflation declined to a record low of 3.3%, fuel inflation declined to 3.2% on the back of lower domestic fuel prices. Food inflation remained high, at 8.5%. Higher cereals inflation, erratic vegetable inflation and elevated pulses inflation have been a cause of concern given the India Meteorological Department's (IMD) prediction of higher-than-normal temperatures between April and June.

Although headline inflation eased to 5.4% on-year in fiscal 2024 from 6.7% in fiscal 2023, food inflation surged to 7.5% from an already high 6.6% in fiscal 2023. The March 2024 reading of 8.5% food inflation creates some disquiet given the prediction of higher-than-average temperatures over the next few months that can stress vegetable production and some of the rabi crop that is yet to be harvested. Beyond that, we expect food inflation to ease a tad on the back of the prediction of a favourable monsoon (above normal rains as per the IMD), some benefit from a high food inflation base and an expected seasonal downturn in pulses inflation.

We expect non-food inflation to remain comfortable, supported by softness in consumer demand, a pass-through of the previous year's oil price decline to domestic fuel (petrol and liquefied petroleum gas [LPG]) prices and an expectation of benign crude prices. Under these assumptions, we expect CPI inflation to average 4.5% in fiscal 2025. Intensification/persistence of geopolitical concerns and weather shocks, if any, pose an upside risk. Meanwhile, the government's budget is slimmer, which means the fiscal impulse to growth is also leaner and, therefore, less inflationary. All these factors contribute to the favourable conditions for interest rate reductions during this fiscal year, provided that potential hindrances such as food inflation or geopolitical escalations do not intervene and defer this decision.

Food inflation remains high

Food inflation rose to a six-month high of 9.4% on-year in June 2024 from 8.7% in May 2024. Vegetables inflation rose for the first time in four months to 29.3% on-year in June from 27.4% in February despite a supportive base. On a seasonally adjusted basis, vegetable prices rose 3.4% on-month. Unlike the last three months (April 24 – June 2024), the rise in vegetables inflation was broad-based with both TOP (tomatoes, onions, potatoes) and non-TOP vegetables inflation rising. TOP inflation surged to 48.4% in June 2024, driven by onions (58.5% in June vs 38.1% in May) and potatoes (57.6% in June vs 55.3% in May). Despite an on-month uptick in prices (seasonally adjusted) tomato inflation eased to 26.4% in June from 41.3% in May owing to the high base of last year. Non-TOP vegetables inflation hardened to 19.7% in June from 18.8% in May, driven by leafy vegetables, brinjal, lady's finger, pumpkin, etc.

Foodgrain inflation was rigid at 10.2% on-year in June, though 20 bps lower than the previous month. Cereals inflation inched up to 8.8% in June from 8.7% in May, mostly owing to non-PDS wheat (6.7% in June vs 6.5% in May). Pulses inflation eased a tad to 16.1% in June from 17.1% in May. While inflation in arhar dal declined sharply (26.9% in June vs 32.1% in May), other pulses such as split gram (18.5% in June vs 14.8% in May) saw a rise.

Inflation in milk rose for the first time in 13 months on account of a price hike by major milk producers (3% in June vs 2.6% in May).

Edible oils inflation continued to log lower disinflation for the fifth consecutive month, at -2.7% in June vs -6.7% in May.

Fuel inflation falls further

Fuel prices fell 3.7% on-year in June, remaining in deflation for the 10th straight month. Although global oil prices remain under pressure, the government subsidy for LPG has kept fuel inflation negative. Prices of liquefied petroleum continued to deflate on-year in June (-24.8%). Electricity inflation moderated to 8.8% in June from 10.9% in May owing to a supportive base.

Core inflation eases to a record low

Core inflation inched down to a record low of 3.1% in June. Inflation slid in the essential categories of education to 3.6% in June from 4.1% in May. On the other hand, inflation picked up in personal care and effects to 8.2% in June from 7.7% in May, led by 19.7% rise in gold prices in June compared with 10.2% in the previous month. Services inflation eased 10 bps to a record low of 2.9% in June, while core goods inflation was steady at 3.2%.

WPI inflation accelerates

Wholesale Price Index (WPI)-based inflation accelerated for the fourth straight month to a 16-month high of 3.4% in June from 2.6% in May. WPI food inflation rose for the sixth consecutive month to 8.7% from 7.4%, led by soaring vegetable inflation (38.8% vs 32.4%). Onions were the main reason for higher WPI vegetable inflation, with the inflation rate rising to 93.4% from 58.0%. Inflation in potatoes also rose (64.1% vs 66.4%). A high base did lower tomato inflation, though it remained high (57.8% vs 64.6%). Foodgrain inflation was relatively steady, rising just 20 bps to 11.6%. Non-food inflation crept up as well, though it remained benign (1.2% vs 0.7%). Crude petroleum inflation rose to 14.0% from 11.1%. Fuel and power inflation was broadly unchanged at 1.0% vs 1.3% in the previous month. Inflation in manufactured products, which accounts for nearly a third of the WPI, rose to 1.4% from 0.8%, driven by manufactured foods (4.3% vs 2.7%), basic metals (1.1% vs 0.3%) and chemicals (-1.1% vs -2.7%).

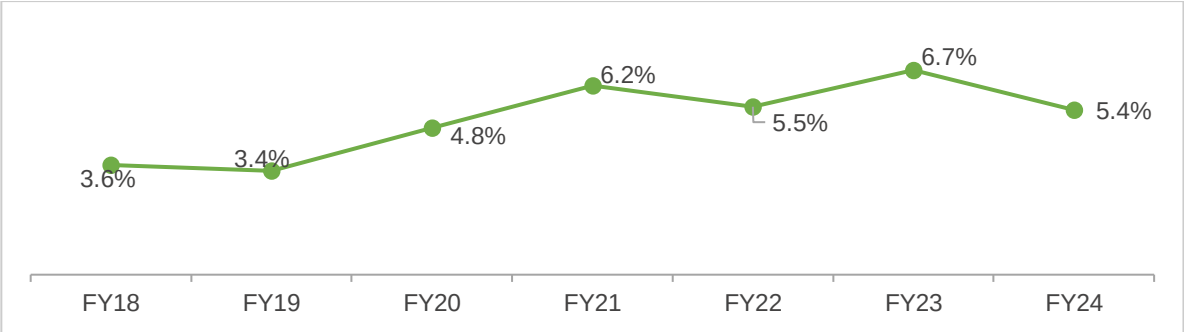
Outlook on inflation

While headline CPI eased to 5.4% on-year in fiscal 2024 from 6.7%, food inflation surged to 7.5% from a high of 6.6% in fiscal 2023. The June reading of 9.4% food inflation raises concerns, particularly with the prediction of higher-than-average temperatures in the coming months, which could strain vegetable production and the rabi crops yet to be harvested. Looking

ahead, we anticipate a slight easing in food inflation, driven by prediction of favourable monsoon (above-normal rains according to the IMD), some relief from a high base of food inflation and an expected seasonal decline in pulses inflation.

We anticipate non-food inflation to remain manageable, supported by subdued consumer demand, the impact of previous year's oil price decline on domestic fuel prices (petrol and LPG) and expectations of stable crude prices. Based on these assumptions, we project CPI inflation to average 4.5% this fiscal. However, intensification or persistence of geopolitical tensions and weather-related shocks pose an upside risk to this forecast. Moreover, with a leaner government budget, the fiscal impulse to growth is diminished, which could alleviate inflationary pressures. These factors create a conducive environment for potential rate cuts this fiscal, unless challenges such as food inflation or geopolitical tensions intervene and delay such decisions. Hence, CRISIL expects CPI inflation to average 4.5% in fiscal 2025 against an estimated 5.4% in fiscal 2024.

CPI trendline



Source: Ministry of Statistics and Programme Implementation (MOSPI), CRISIL MI&A Research

Cooling domestic demand, assumption of a normal monsoon along with a high base for food inflation should help moderate inflation this fiscal. A non-inflationary Interim Budget 2024-25 that has focused on asset creation rather than direct cash support also bodes well for core inflation. However, an unusual weather event could reverse the easing. Similarly, recent geopolitical uncertainties in the Middle East and a fading low base effect for commodity prices could put some upside pressure on core inflation, and would, therefore, need monitoring.

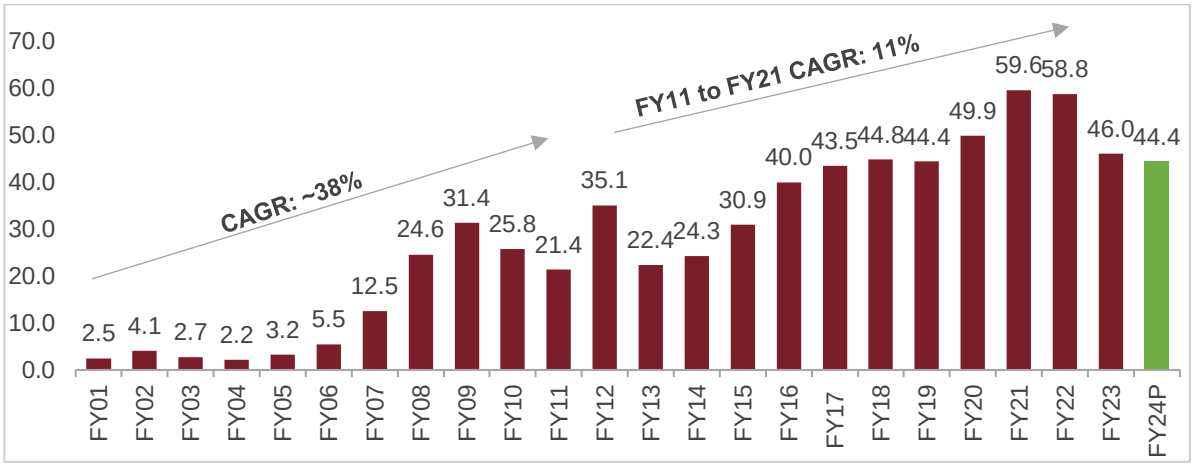
Nevertheless, we believe slowing inflation, a smaller fiscal deficit and an imminent turn in the US Federal Reserve's (Fed) policy rates will lay the ground for the RBI's MPC to start cutting rates. However, we believe more clarity on the path of disinflation could push this decision at least to June 2024, if not later. While CPI inflation has remained in the RBI's tolerance band of 2-6% since August, it is still shy of the 4% target, thereby keeping the MPC on guard.

1.5. Historical trends in FDI inflows

The Government of India constituted the Foreign Investment Promotion Board (FIPB) in 1991, whose main function was to invite and facilitate foreign investments. The FIPB ceased to exist as per the decision taken by the Ministry of Finance in 2017. The government has now empowered individual departments to clear FDI proposals in consultation with the Department of Industrial Policy and Promotion (DIPP) within the set timelines. From a baseline of less than $1,000 million in 1990, India has become one of the most important FDI destinations in the world.

FDI inflows in India grew rapidly to $49,900 million in fiscal 2020 from $2,500 million in fiscal 2001, at a CAGR of ~17%. The pace of growth was faster over fiscals 2001-2009 (~38% CAGR), but the global slowdown affected investments in fiscals 2010 and 2011. In fiscal 2021, India recorded the highest ever FDI inflows of $59,600 million, up ~20% on-year. Fiscal 2023 recorded $46,000 million FDI inflow, ~22% down on-year. Continuing its downward trend, FDI inflows declined 24% to $20,500 million during the first six months of fiscal 2024.

FDI equity inflows to India ($ billion)



P: Provisional
Source: DIPP, CRISIL MI&A Consulting

According to the quarterly factsheet on FDI prepared by the DIPP up to end-fiscal 2024, Mauritius was the leader in cumulative FDI inflows over April 2000 to March 2024 with a share of 25%, followed by Singapore (24%), the US (10%), the Netherlands (7%), Japan (6%) and the UK (5%). During the period, the services sector accounted for 16% of the cumulative FDI inflows, followed by computer software and hardware (15%), telecommunications (6%), trading (6%), automobile (5%) and construction development (5%). FDI inflows amounted to $44,400 million in fiscal 2024, registering a significant decline over fiscal 2022 levels.

2. Review of road infrastructure in India

2.1. Overview of infrastructure sector in India

Developing and modernising the infrastructure sector has been a priority area for the Government of India and has witnessed increasing public investments and budgetary support. Further, the government has undertaken several reforms and initiatives in the infrastructure sector, which has resulted in robust secular growth in most of the segments within the sector.

The roads sector registered a strong pace of constructions by NHAI, growing 6,003 km (16.4 km per day) in fiscal 2023 from 3,071 km (8.4 km per day) in fiscal 2018. Investments in the roads and highways sector rose from Rs 1.7 trillion in fiscal 2018 to ~Rs 2.9 trillion in fiscal 2022, registering ~1.7x growth. Civil aviation has witnessed strong growth as well. India's passenger traffic logged at a CAGR of ~8% from around 165 million in fiscal 2017 to around 209 million in fiscal 2020. In fiscal 2023, passenger traffic stood at 194 million passengers, however international passenger traffic is still below pre-pandemic levels. In the ports and shipping sector, installed capacity of major ports in India increased to 2,456 million tonne in fiscal 2022 from 2,283 million tonne in fiscal 2018.

The government launched the National Infrastructure Pipeline (NIP) for fiscals 2020 to 2025, to boost infrastructure, with a projected investment of Rs 111 trillion during the period. Investments in energy (24%), roads (18%), urban (17%), and railways (12%) will amount to over 70% of the projected capital expenditure during the period. As per an economic survey, NIP will be funded by the central government (39%), state governments (40%), and private sector (21%). The NIP outlines a revised spend of 147 lakh crore which was originally planned over fiscals 2020-2025, a lofty target with focus on public funds to do the heavy lifting. With public funds being constrained due to the impact of the pandemic across fiscals 2021 and 2022, with vaccination, social and healthcare spends to be met. The investments outlined in the NIP are almost double over the previous 5 year plan and the achievement ratio of the 5 year plans have been dropping with rising outlay of capex. CRISIL Research projects a 70-75% achievement of the NIP. The balance investments are unlikely to be met till fiscal 2025 and will likely spill over into further years. As per the India Investment Grid website accessed on April 24, 2024, 10,286 projects are under development covering over 56 sub-sectors.

The Public Private Partnership Appraisal Committee (PPPAC) set up by the government has been responsible for the appraisal of PPP projects in the central sector. Yearwise project summary of PPAC is tabulated below.

PPAC Project Summary

FY	Number of Projects	Total Project Cost (In Rs. Billion)
FY24	9	490.7
FY23	6	88.9
FY22	6	784.8
FY21	10	1357.5
FY20	8	275.1
FY19	8	97.3
FY18	4	78.5
FY17	9	124.0
FY16	17	286.7
FY15	18	290.7
FY14	25	553.3
FY13	25	256.4
FY12	53	549.6
FY11	31	243.0
FY10	53	578.5
FY9	48	533.8
FY8	13	112.3
FY7	15	65.2

Source: PPP in India (PPPAC projects summary), CRISIL MI&A Consulting

In fiscal 2021, the government approved the continuation of the revamped Infrastructure Viability Gap Funding (VGF) Scheme till fiscal 2025. The objective of the revamped scheme is to attract PPP projects and aid private investment in social infrastructure (health, education, wastewater, solid waste management, water supply, etc).

2.2. Contribution of roads sector to India's GVA

The share of the roads sector in India's GDP stood at 3.0% in fiscal 2023. The share hovered at ~3.3% from fiscals 2012 to 2022.

GVA share	FY12	FY13	FY14	FY15	FY16	FY17	FY18	FY19	FY20	FY21	FY22	FY23
Road transport (at constant prices)	3.2%	3.3%	3.3%	3.3%	3.3%	3.2%	3.3%	3.3%	3.3%	2.5%	3.1%	3.0%

Source: MoSPI, National Accounts Statistics 2024, CRISIL MI&A Consulting

2.3. Road network in India

India has the second-largest road network in the world, spanning 6.345 million km as of fiscal 2024. Roads, the most frequently used mode of transportation in India, accounted for ~87% of passenger traffic and close to ~60% of freight traffic says MoRTH as of September 2024. Although national highways span nearly 146,145 km, constituting just 2% of road length, they accounted for ~40% of the total road traffic. The secondary road system comprises state roads and major district roads, which accounted for the remaining 60% of traffic and 98% of road length.

As per the report published by MoSPI in October 2024, in FY23 gross value add of road sector was ~68% among all contributors of output & value added from transport services.

Road network in India in FY24

Road network	Length (km)	Percentage of total length	Percentage of total traffic	Connectivity to
National highways	146,145	~2	40	Union capital, state capitals, major ports, foreign highways
State highways	179,535	~3	60	Major centres within the states, national highways
Other roads	6,019,723	~95		Major and other district roads, rural roads - production centres, markets, highways and railway stations
Total Network	6,345,403	100	100

Qualitative overview of maintenance of roads in India

The Pradhan Mantri Gram Sadak Yojana (PMGSY) is a one-time special scheme undertaken by the Central government to boost infrastructure in rural parts of the country, but maintenance of these roads remains a state subject. All PMGSY roads are covered by five-year maintenance contracts. Maintenance funds to service the contract are to be budgeted by the state government. With effect from fiscal 2017, financial incentives are given to best-performing states, which show higher achievement on the basis of set parameters. Financial incentives amounting to Rs 10.8 billion and Rs 8.4 billion were awarded in fiscals 2017 and 2018, respectively, for periodic maintenance to best-performing states.

In fiscal 2017 alone, Rs 5.4 billion was credited to the accounts of 20 state rural-road development agencies for carrying out maintenance on these roads, of which only Rs 3.33 billion was spent. In fiscal 2018, Rs. 9.4 billion was spent on maintenance. Thus, even though execution of new roads under PMGSY is on track, their maintenance remains a key monitorable.

Central Road & Infrastructure Fund (CRIF)

The CRIF is funded from the cess collected on the sale of petrol and high-speed diesel (HSD). On every litre of petrol and HSD that is sold, a cess of Rs 6 is collected (since fiscal 2016; previously cess was Rs 2). The fund provides assistance to states for the development and maintenance of state roads, rural roads, national highways, under- and over-bridges, and safety works at unmanned railway crossings. About 11% of the cess collected on HSD and 30% on petrol is allocated towards maintenance of state roads.

Funds allocated for fiscals 2015, 2016, 2017, and 2018 were Rs 26.5 billion, Rs 28.8 billion, Rs 72.4 billion, and Rs 83.1 billion respectively. About 476 projects, amounting to Rs 98.6 billion, were sanctioned under the scheme in fiscal 2018, compared with 1,093 projects, costing Rs 123 billion in fiscal 2017. As per notes published in public domain on Demand no. 84 and 86 (Ministry of Road Transport and Highways), Transfer to Central Road and Infrastructure Fund (CRIF) in fiscal 2019, 2020, 2021, 2022, and 2023 (RE) are Rs 200.4 billion, Rs 160.9 billion, Rs 207.5 billion, Rs 394.1 billion, and Rs 1136.0 billion respectively.

In the union budget for fiscal 2019, road cess was replaced by the road and infrastructure cess. Previously, road cess was split for NH construction, maintenance, railways, Pradhan Mantri Gram Sadak Yojana, etc., based on a fixed formula.

Of the amount collected under CRIF for state roads, 10% is reserved for the development of roads under the following schemes:

Interstate connectivity (ISC)

Under this scheme, 100% funding (not a loan) is provided by the central government. ISC typically encompasses the development of

- Interstate roads
- Roads connecting national highways

Economic importance (EI)

Under this scheme, projects are funded to the extent of 50% by the central government. The state government contributes the rest of the project cost. This scheme is focussed on the development of:

- Roads facilitating connectivity to remote industrial and economic areas
- Roads facilitating the development of remote residential areas, such as those connecting the hilly regions to plains

Funds allocated together under ISC and EI in fiscals 2015, 2016 and 2017 stood at Rs 2,390 million, Rs 3,550 million and Rs 4,150 million, respectively. In fiscal 2018, ~19 projects amounting to Rs 6,600 million were approved under ISC and EI. In fiscal 2019, ~18 projects amounting to Rs 4,740 million were approved.

During fiscal 2023, a sum of Rs 1,900 million had been allocated to various states. Also, as per MoRTH's letter dated February 9, 2024, Rs 3,000 million had been allocated for fiscal 2024.

State-wise allocation under ISC and EI schemes in FY23

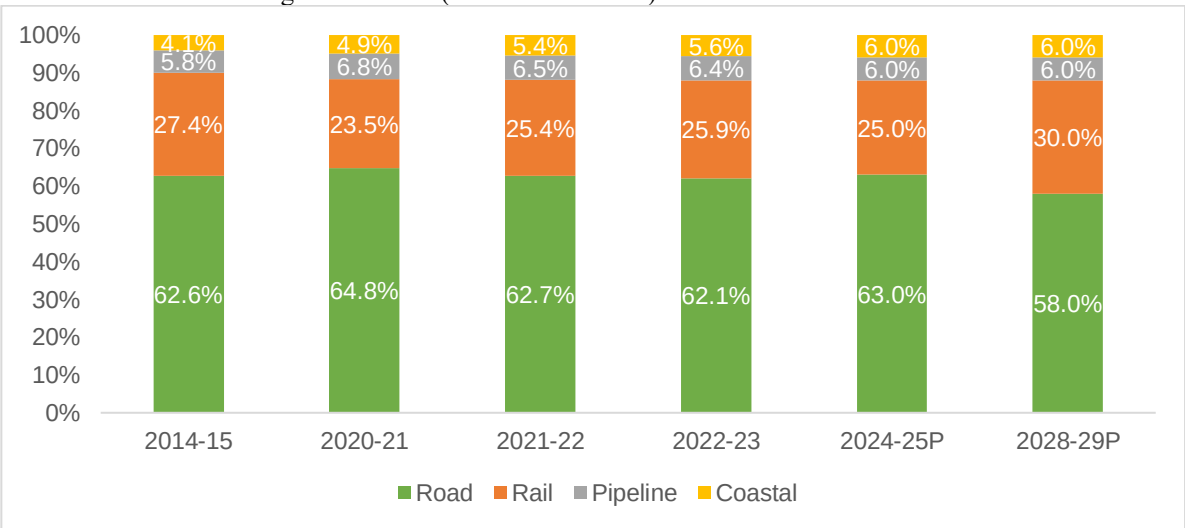
2.4. Indian freight traffic scenario

Road transportation remains dominant, but Railways eye share given Dedicated Freight Corridors and rising road freight rates

Roads are expected to remain dominant in transportation, having grown 5-7% in fiscal 2024. Railways are expected to gain share owing to the Dedicated Freight Corridors (DFCs) and higher road freight rates. DFCs are aimed at decongesting India's railway network. It will help carry freight at higher speed with increased load-carrying capacity, up to 6.2 million TEUs (twenty-foot equivalent unit) in total, reducing operating costs in India for rail freight significantly. Roads are typically preferred for non-bulk, high-value commodities. CRISIL expect growth in road freight traffic to increase at a compounded annual growth rate (CAGR) of 4-6% in BTKM terms between the fiscals 2024 and 2029. In the same period, railways are expected to grow at a CAGR of 10-12%, growing faster than roads. Railways gained share in fiscal 2021 as rail freight traffic was more resilient during the pandemic. The share of railways increased further in fiscal 2022 owing to increased rail capacity, partial commissioning of the DFCs, soaring diesel prices and higher road freight rates. Commissioning of the DFCs will aid in increasing the share of railways in India's freight traffic.

Road freight movement is estimated to have grown 5-7% in fiscal 2024, at a slightly slower pace than that of rail freight movement. In fiscal 2023, road Billion Tonne Kilometres (BTKM) is estimated to have grown ~7%, mainly attributed to higher production across all sectors and government spending focused on investments. However, it is expected that road transport will lose market share to railways in the upcoming years on account of the establishment of DFCs and comparatively higher road freight rates relative to other modes of transportation.

Share of roads in total freight movement (in terms of BTKM)



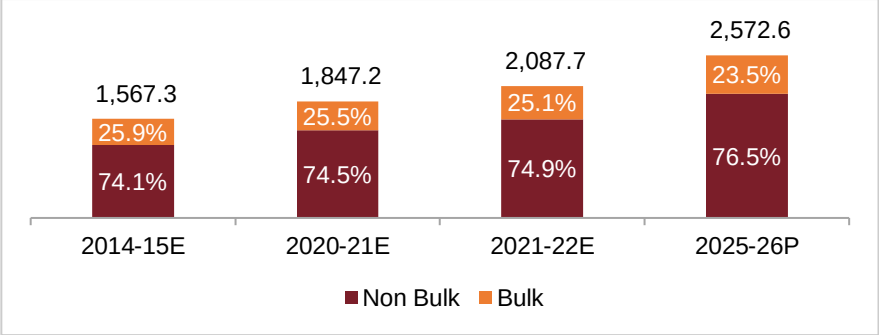
P: Projected
Source: CRISIL MI&A Consulting

Roads remain the preferred mode for non-bulk transportation

Roads generally account for a significant share in non-bulk commodity transportation, as:

- Railways do not cater to piecemeal freight transportation. Entire rakes are provided for transportation and not just single wagons (although Indian Railways is looking into multi-point loading, it would still not attract small-sized cargo)
- Road transport has better service quality and is more reliable
- Road transporters operate on a much smaller scale. Also, given the large number of road transport operators, customers have better bargaining power. These transporters also add a personal touch to their service, which is important, as these commodities are typically expensive and fragile.
- Roads provide end-to-end connectivity and safer handling, which is an important factor while transporting low-volume, but high-value commodities

Roads predominantly transfer non-bulk freight (in terms of BTKM)



E: Estimated; P: Projected

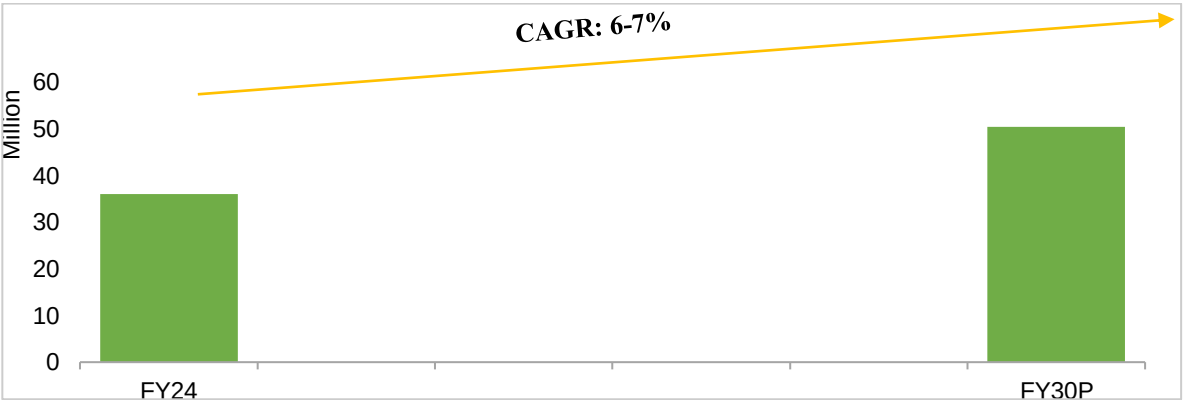
Historical growth of vehicular population

Market for PVs underpenetrated, offers sizeable potential in the long run

India's car market is extremely underpenetrated compared with most developed economies and some developing nations. As of fiscal 2024, India had ~32 passenger vehicles per 1,000 people. This number is expected to increase to 40 by fiscal 2029, which is significantly lower than the developed nations and even Brazil, Russia, and China (which, along with India, form the BRIC block) based on per capita GDP. Thus, India offers tremendous growth potential for automobile manufacturers. Even while comparing the penetration of cars and UVs across countries based on per capita GDP, India lags most others. We expect this gap to reduce gradually in the long run.

Outlook on passenger vehicle population



Note: FY30 is projected year
Source: CRISIL MI&A Consulting

Commercial vehicle market faces volatility: Growth to moderate in current fiscal

Commercial vehicle (CV) sales for fiscal year 2025 are expected to remain flat clocking in at (1)-1%, CVs being a cyclical industry, the downcycle in terms of volumes is playing out while tonnage growth will be healthy on account of a shift to higher tonnage vehicles in MHCVs over the past couple of years. Light Commercial vehicles (LCVs) are expected to grow by 0-1% supported by volume up for replacement, while volumes of Medium and Heavy Commercial Vehicles (MHCV) are estimated to remain at par with that of fiscal 2024 registering a (1)-1% change on account of the high tonnage sold in MHCVs over the preceding years. Overall commercial vehicles grew by 3.5% on year in first quarter of fiscal 2025 led by growth in MHCV and Buses.

In fiscal 2024, the commercial vehicle (CV) market recorded a modest 1% growth, building on the momentum of the previous year. While light commercial vehicle (LCV) sales dipped by 3% due to reduced fleet utilization, medium and heavy commercial vehicle (MHCV) sales remained flat, driven by higher tonnage demand. The bus segment, however, saw a significant 21% surge, fuelled by robust demand from school and staff transportation services. The industry's growth was further supported by pent-up replacement demand and strong end-user segments, ultimately reaching 98% of pre-pandemic levels.

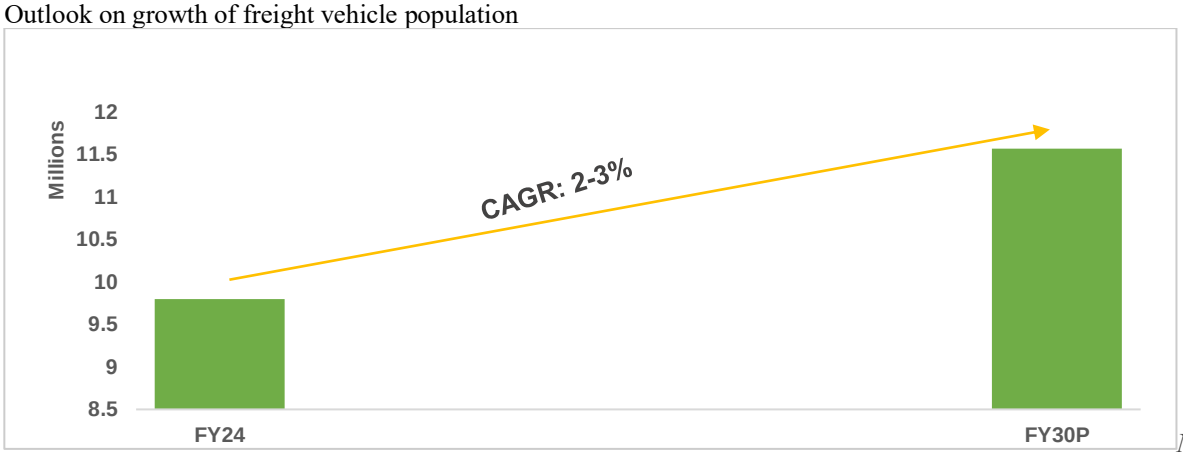
The CV industry made a remarkable comeback in fiscal 2023, posting a 34% growth rate, albeit from a low base, and reaching 96% of pre-pandemic levels seen in fiscal 2019. This rebound can be attributed to the release of pent-up replacement demand,

improved transporter profitability, and a resurgence in capital expenditures, which had been hindered by economic stagnation and pandemic-related disruptions over the preceding 2-3 years.

The MHCV industry is set to witness a projected CAGR of ~1-5% over the five years from fiscals 2024 to 2029. In the last five fiscal years (2019-2024), industry growth declined by 2% annually on account of a number of factors such as the pandemic, axle loading norms (norms stating maximum permissible limit of load carrying capacity of commercial vehicles) and emission norms (norms stating maximum permissible limit of vehicle wise carbon emission). The rise in tonnage addition is expected to be driven by an improved product mix, with a notable surge in demand for multi-axle vehicles (MAV).

Long-term MHCV sales are likely to be propelled by several factors, including the country's improving industrial activity, steady agricultural output, and the government's continued focus on infrastructure development. However, volume growth may be somewhat constrained due to the efficiencies achieved through the implementation of the Goods and Services Tax (GST), the development of better road infrastructure and commissioning of the DFC.

Outlook on growth of freight vehicle population



Note: FY30 is projected year

2.5. Key growth drivers and emerging trends for road sector

Policy pushes aimed at improving private participation in National Highways

The following are the recent policy changes that the MoRTH and NHAI have undertaken to improve private participation in the sector and increase competition:

- Technical and financial bidder eligibility criteria reduced for HAM and EPC projects, which would promote the entry of smaller players
- Changes in the hybrid-annuity model (HAM) concession agreement aimed at protecting developers' returns and easing their cash flows during the construction period
- Changes in the Build-Operate-Toll (BOT) concession agreement to reinstate developer interest in the model

Apart from this, the government has taken various steps under the Atmanirbhar package to mitigate the impact of Covid-19 on the sector:

- Extension of time (EOT) of up to 3-6 months for all projects and relaxation of milestone achievement
- Monthly payment mechanism, instead of milestone-based payments
- Reduction in performance security from 5% to 3%, release of retention money to the extent of work done
- Additionally, Covid-19 emergency loan facilities and moratorium on loan repayment up to August 2020
- Extension of concession period for BOT-toll operators, due to toll suspension and restriction in movement during lockdowns

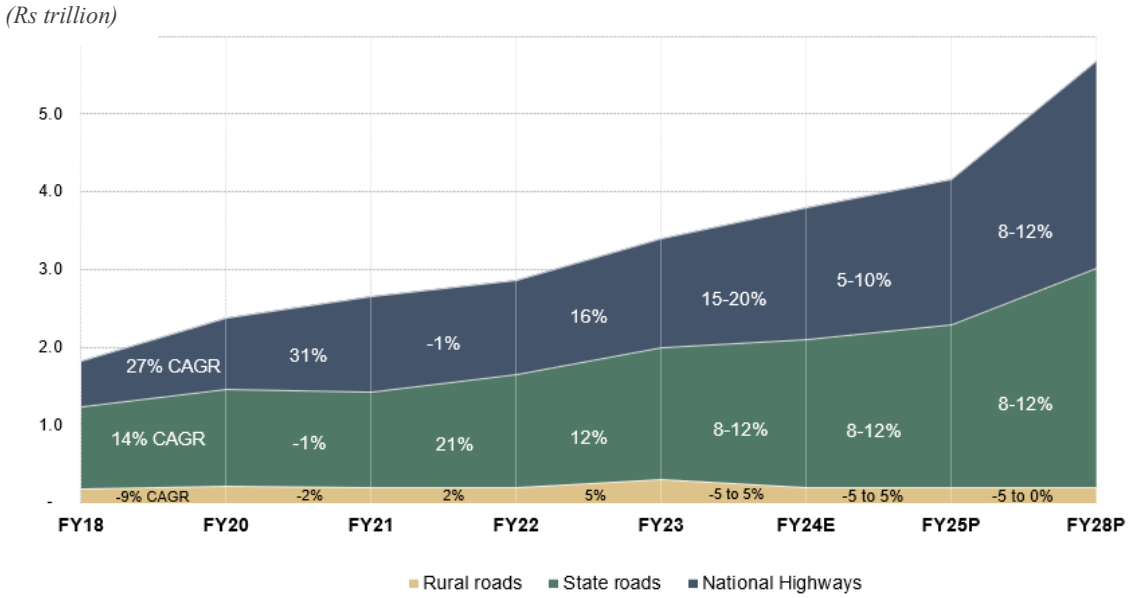
Strong government thrust likely to deliver steady growth in fiscal 2024

Overall road sector capex, comprising of National Highways, State Highways & rural roads is estimated to have grown at a CAGR of 14% between fiscals 2018 & 2023. This growth, driven by Bharatmala and increased state spends on roads has been achieved despite brief hiccups such as the pandemic and hampered construction due to elongated monsoons. The outlook of the sector also remains firm supported by higher awarding of previous fiscals, Bharatmala, NIP pipeline of DPR ready projects and steady state capex.

The NH segment contributes around 40-45% of the overall capex. While the execution remained flattish in fiscal 2023 vis-à-vis fiscal 2022, capex grew by 16% due to a rise in construction of high value projects and high commodity prices. In fiscal 2024, we expect the national highway capex to grow by 15-20% driven primarily by increased execution.

On the low base of fiscal 2021, the state spends grew by 21% in fiscal 2022 and are estimated to have grown further by 10-13% in fiscal 2023 largely in line with the growth in budgetary outlay. In fiscal 2024, state spends are expected to go up further by 8-12% as their percentage achievement of budgetary allocations are expected to be largely in line with historical average.

Momentum to continue, supported by Bharatmala and NIP pipeline



Note: Capex excludes the land-acquisition costs
Source: NHAI, MoRTH, State budget documents, PMGSY, CRISIL MI&A Research

2.6. Key challenges faced by roads sector in India

Issues and challenges for roads sector

Given the share of roads in the overall transport of goods and passenger traffic, it is critical to develop the roads sector. Although the government has been continuously making efforts to give a fillip to the sector, several issues and challenges hamper the pace of development.

NHAI trying to reduce risks associated with BOT projects through changes in MCA

In order to improve private participation via the BOT-toll mode, NHAI and the ministry introduced changes to the BOT MCA, aimed at addressing key issues such as land acquisition, revenue assessment in case of traffic shortfall and stuck projects. Key amendments to the MCA are as below:

Land acquisition

- Minimum 90% right of way before issue of appointed date as against 80% earlier, providing more comfort to lenders and developers

- Balance 10% to be granted within 180 days of appointed date, else it would be removed from the scope of work. Automatic de-scoping clause would enable the developer to receive PCOD/COD on the completed stretch and start tolling

- Termination clause if appointed date is not received within one year of concession signing date

Traffic risk

Revenue assessment of project to be done every five years instead of 10 years (or once in a life time of a project) earlier. In case of traffic either exceeding or seeing a shortfall from the target traffic, the concession period would be adjusted accordingly, providing more comfort to lenders and developers

Stuck projects

- In case the project has not achieved COD one year post its scheduled completion date, the project will be mutually foreclosed, and the authority will pay the concessionaire an amount equal or lower of:

  90% of the debt due less insurance cover and

  Value of work done

This will prevent dragging of projects that would lead to time and cost overruns, which was witnessed in the earlier BOT era.

Subdued private participation due to limited financial flexibility witnessing strong revival

Funding constraints and financial stress have thwarted the pace of development in the roads sector. The PPP model for road construction and development acted as a catalyst and provided an impetus to the sector's growth. During fiscals 2008-2012, of the total 10,600 km of national highways completed under the National Highways Development Programme, 50% was funded through the BOT-toll model and 10% through the BOT-annuity model. Rise of PPP in the roads sector has also had some adverse effects. Period of 2007 to 2011 was considered to be the golden age for PPP in the roads sector, wherein the road developers bid aggressively to bag more BOT-toll projects.

In the subsequent years, developers faced viability issues with projects. Issues pertaining to subdued financing, lower traffic, high gearing ratio and delayed execution have stressed their balance sheets. Bidders for PPP toll projects have become limited on account of the said issues. This led to a rise in EPC contracts, but the quality of roads constructed has been usually poor as the EPC contractor has no stake in the roads once these are constructed and handed over to the government. Further, maintenance of roads has been poor after handover to the government, since there is no proper accountability on quality in case of state-owned roads. In case of PPP projects, the developer ensures that the roads are in a good condition for a longer period of time, i.e., the concession period. In the recent years, private participation has revived with the introduction of the HAM model in 2016 and the subsequent favourable changes to the concession agreements in 2020 for the HAM and BOT model.

Delays in project execution and resultant cost overruns

Delays in project execution have posed a major hurdle in the development of the roads sector. Delays lead to significant cost overruns, which lower returns for developers as well as adversely affect their debt-servicing ability. Reasons for delays are numerous and include:

- Issues in land acquisition
- Environmental clearances
- Forest clearances
- Railway clearances
- Shifting of utilities, religious structures and encroachments

It is observed that the duration of delay and cost escalation are on the higher side for projects involving interstate road construction owing to the involvement of different state agencies. NHAI is working towards fast-tracking the resolution of these issues and has established conciliation committees, which target at settling arbitration disputes within 18-20 months (Arbitration Act - amendment in 2019). As per the April 2022 press release, 251 cases have been referred to CCIE and claims worth Rs 387.4 billion have been settled for an amount of Rs 130.6 billion.

Hurdles in bank funding for road projects

Banks are reluctant to fund road sector projects as they are close to the sector exposure limits. Moreover, to ensure delays because of land acquisition do not hinder the progress of a project, they demand 80-100% of the land to be available with the developer at the time the project is awarded. Given the dependence of infrastructure projects on banks for funding, the projects are unable to take off owing to such funding constraints.

Moreover, the stretched working capital cycle in the core construction business of many entities has also strained their liquidity position and increased their dependence on borrowed funds. The operating margins of several road contractors came under pressure because of rising commodity prices (in case of fixed-price contracts) and idling of capacities since execution could not begin on many new projects.

Reluctance to pay toll

Indians have not yet completely accepted the importance of toll for road construction and improvement of service delivery. Also, appeasement of people through provision of subsidies has been a major tool for reaping political gains in the country. There have been several instances of people, backed by political groups, opposing toll plazas. Such instances have not only affected the sentiment of road developers, but also service delivery within the sector.

2.7. Institutional framework for roads

In January 2015, the government replaced the Planning Commission with the National Institution for Transforming India (NITI) Aayog – a multi-tiered structure, providing strategic and technical advice to the central and state governments. At the central government level, several line ministries handle transport planning, coordination and policy-setting, and NITI Aayog coordinates the entire effort.

Outlay for core infrastructure ministries (Budget documents – July 2024, in multiple of Rs. 100 million)

GIA: General Grant-in-aid, GBS: Gross Budgetary Support, IEBR: Internal and Extra Budgetary Resources, BE: Budget Estimate, RE: Revised Estimate, A: Actual.
Source: Budget documents-July 2024, CRISIL MI&A Consulting

Roads and highways

- The overall gross budgetary outlay for the Ministry of Road Transport and Highways doubled from Rs 1,280,000 million in fiscal 2019 to Rs 2,640,000 million in fiscal 2024RE. Against this backdrop, the growth rate of roads and highways capex for the next fiscal has moderated sharply, only 3% higher vis-à-vis fiscal 2024RE. Similar to the previous fiscal, the entire allocation of Rs 2,720,000 million would be via gross budgetary support since the internal and extra budgetary resources limit has been completely eliminated to reduce the NHAI's dependence on market borrowings. On the other hand, the asset monetisation target has increased from Rs 100,000 million in fiscal 2024RE to Rs 150,000 million in fiscal 2025BE. To be sure, in 9M fiscal 2024, the NHAI has been able to monetise ~Rs 160,000 million, which bodes well for the divestment target set out for fiscal 2025. This assumes greater significance as roads account for close to

30% of the National Monetisation Plan (NMP) targets and healthy progress in monetisation of road assets is imperative to achieve the same

- The budgetary allocation of Rs 1,680,000 million towards the NHAI for the next fiscal has remained flattish vis-à-vis fiscal 2024RE. The elimination of internal and extra budgetary resources and minimal contribution of cess implies a significantly large portion of the NHAI funding would be met through gross budgetary support

- Furthermore, the NHAI has been aiming to modify the BOT model with fast-tracked clearances to award more projects, since the share of this model has dipped to negligible levels in recent years. Large developers are also likely to be interested in BOT projects amidst dipping profitability in the hybrid annuity model owing to competitive bidding. Notably, if successful, the shift towards BOT could reduce funding burden on the ministry since 100% of the construction cost is borne by the developer in this model

Note: Based on budget document of February 2024

Capital outlay of the Ministry of Road, Transport and Highways

Capital outlay (Rs Billion)	FY16	FY17	FY18	FY19	FY20	FY21	FY22 RE	FY23 A	FY24 BE	FY24 RE	FY25 BE	Growth FY24 RE vs FY23 A
Ministry of Road, Transport and Highways	275	412	508	677	684	892	1213	2171	2704	2764	2780	27%

Source: CRISIL MI&A Consulting

PMGSY allocation for this fiscal (budget estimate) is Rs 120,000 million, down ~37% over fiscal 2023A. However, over the past two years, the achievement ratio under the scheme has been low. Therefore, actual expenditure against the allocation remains a monitorable.

Real Estate: Key Announcements

Increase in the Pradhan Mantri Awas Yojana (PMAY)-Urban target by 1 crore houses, or ~81%, from the previous target of ~1.2 crore houses with planned allocation of Rs 2.2 lakh crore over the next five fiscals. Increase in the PMAY-Rural target by 2 crore houses, or ~68%, from the previous target of ~3 crore houses. Revision in long-term capital gains tax to 12.5% from 20.0% and removal of indexation benefit on sale of real estate properties, in addition to other taxation-related announcements. Urban and rural land-related reforms and actions to be initiated in collaboration with states

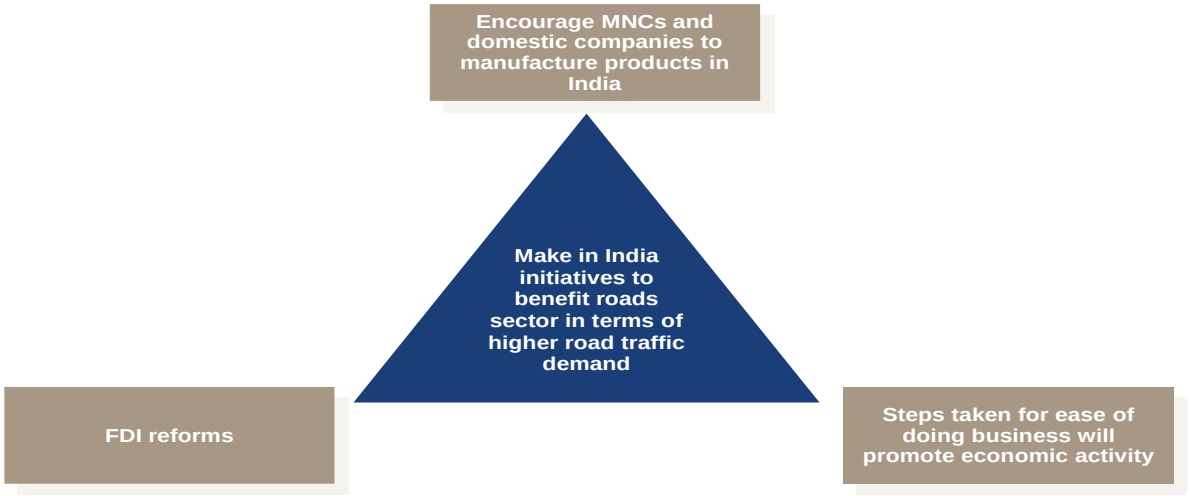
2.8. Impact of the 'Make in India' initiative on the roads sector

The 'Make in India' campaign, launched in September 2014, covers 25 major sectors, including roads and highways. The initiatives under the campaign, such as encouraging multinational companies (MNCs) to manufacture products in India, taking

steps to improve the ease of doing business, as well as FDI reforms, are expected to benefit the roads sector in terms of increase in traffic movement.

Impact of 'Make in India' on the roads sector



Source: CRISIL MI&A Consulting

Encourage MNCs and domestic companies to manufacture products in India

MNCs and domestic companies setting up manufacturing plants in India will facilitate increase in passenger as well as freight traffic on roads. Following the announcement of the 'Make in India' campaign, the government received several proposals from MNCs interested in manufacturing electronics in India. For instance, Xiaomi, a Chinese mobile phone maker, partnered with Foxconn in August 2015 to manufacture smartphones in a factory in Andhra Pradesh. A few weeks later, Lenovo, a Chinese computer and mobile phone maker, announced its plans to manufacture smartphones in India at its Chennai plant.

Steps to improve ease of doing business will promote economic activity

The measures undertaken for ease of doing business will promote economic activity and, thereby, boost road traffic demand. Some of these key measures are:

- Applications for environment and forest clearances are to be submitted online through the Ministry of Environment and Forests and Climate Change portals
- Application forms for industrial licence (IL) and industrial entrepreneur memorandum (IEM) have been simplified
- Applications for IL and IEM are to be submitted online
- The eBiz portal has integrated 20 services and will function as a single-window portal to obtain clearances from various governments and government agencies
- The Ministry of Labour and Employment has launched a unified portal to register units for Labour Identification Number (LIN), report inspections, submit returns, and for grievance redressal

Overview of government initiatives

New tolling policy (2011)

Toll act

The central government is authorised to levy a fee (toll) under Section 7 of the National Highways Act, 1956, for public-funded projects and under Section 8-A of the said Act for private investment projects. The government can levy fees on all sections of national highways (irrespective of four or two lanes), tunnels, bypasses, and bridges with specific cost criteria.

Fee structure

Toll charges are based on rates notified by the government. The fee for use of a section of national highways with four or more lanes for the base year fiscal 2008 shall be the product of the length of such a section multiplied by the rates specified hereunder.

Toll rates for four-lane national highways

Vehicle category	Rs/ km
Car, jeep, van, light motor vehicle	0.65
Light commercial vehicle	1.05
Bus or truck	2.2
3-axle commercial vehicle	2.4
Heavy construction machinery, multi-axle vehicles (MAV) with 4-6 axles	3.45
Oversized vehicles with 7 axles or more	4.2

Source: PIB, CRISIL MI&A Consulting

The rates, which will be revised every year, will be an aggregate of the following rules effective April 1, 2016:

- Increase of 3% without compounding (on base rates of fiscal 2008)
- Compared with the previous year, 40% of the increase in wholesale price index (WPI)

In previous years, the toll rates were fully linked to the WPI, which led to numerous case where WPI would become negative. The current method of toll rates has been beneficial for private players.

Other features of the new tolling policy include the following:

- Uniform rates for public- and private-funded projects
- Fee for a permanent bridge, bypass, or tunnel costing Rs 0.10 billion or more and that of NH length will be calculated separately

In 2013, 2014, 2015, 2019, 2020, and 2022 some amendments were made to the National Highway Fee (determination of rates and collection) Rules 2008, as follows:

- In the case of a four-lane highway being upgraded to a six-lane one, the increase in rate shall be limited to 75% of the fee specified, revised as per the applicable rules calculated on and from the date of commencement of upgrade-related work to the date of completion of the project, according to the agreement entered into with the concessionaire without any annual revision
- In certain cases, fee collection is started when the project is 75% complete, but the fee is applicable only to 75% of the operational length
- No user fee shall be levied on the delayed period between the date of completion as per the agreement entered into with the concessionaire and the date of actual completion of the project. For the purposes of this rule, any provisional completion shall not be treated as completion of the project.
- The tolls rates are calculated on the basis of the road length, excluding bypass (costing more than 100 million) and structures (more than 60 metre). The road length fee is payable at 100% of the applicable rate for four lanes and at 60% for two lanes with paved shoulders
- Bypass (costing more than 100 million) length fee is payable at 150% of the applicable rate for four lanes and at 90% for two lanes with paved shoulders
- Structure (costing more than 100 million) length fee is payable at 100% of the applicable rate for four lanes and at 60% for two lanes with paved shoulders

- Commercial vehicles registered within the district are tolled at 50% discount, and local non-commercial vehicles are issued a monthly pass for a certain amount

- The rate of fee for use of an expressway shall be 1.25 times the rate specified in the applicable rule

- The rate of fee for private investment projects shall be as specified under the applicable rule or as the concessionaire may determine by issuing a public notice to users

- The following method is used to calculate the rate of fee for highways/expressways with standalone structures and structures forming part of linear highways/expressways:

  Length of the structure* (L) X Factor "10" = Length in metres

  ** Structure of 60 metres of length or more*

- To calculate fee for a linear highway/expressway, structures will be considered a part of the normal length of highways/expressways

- In the December 2013 amendments, the NHAI empowered the concessionaire to collect 10 times the applicable fee from overloaded vehicles. The December 2015 amendments allowed the concessionaire to stop vehicles plying on National Highways unless they cleared their dues. Any vehicle loaded in excess of its maximum permissible gross vehicle weight (GVW) is not permitted to use the National Highway or cross the toll plaza until the excess load is removed or a fee of 10 times the applicable amount is paid. Moreover, the concessionaire can detain the vehicle until all dues are cleared.

- On 25th September 2018, MoRTH has modified the overloading norms, and it states that user of vehicle shall be liable to pay fee, for entering the overloaded vehicle on the national highway, to the user fee collecting agency, equal to fees slabs as mentioned below:

Percentage of excess load over Maximum Permissible Gross Vehicular Weight	0 to 20%	>20% to 40%	>40% to 60%	>60% to 80%	>80%
Multiplying factor to base rate of fees	2 times	4 times	6 times	8 times	10 times

- The May 2018 amendment stated that if a vehicle user with a valid, functional FASTag or any such device with sufficient balance in the linked account crossing a fee plaza installed with Electronic Toll Collection infrastructure is not able to pay the user fee through FASTag or any such device because of malfunctioning of Electronic Toll Collection infrastructure, the vehicle user shall be permitted to pass the fee plaza without payment of any user fee

- In the National Highways Fee (Determination of Rates and Collection) Rules, 2008, in rule 11, in clause (e), the word "disability" should be replaced with "DIVYANGJAN"

- The fee payable towards discounts shall be paid through pre-paid instruments, smart card or through FASTag or on-board unit (transponder) or any other such device

- The executing authority or the concessionaire, as the case may be, provide for multiple journeys to cross a toll plaza within the specified period at the rates specified

- The words "may opt for such pass" shall be omitted

- "A person who owns a mechanical vehicle", the words, "with valid functional FASTag," shall be inserted

- "A person who owns a commercial vehicle (excluding vehicle plying under National Permit)", the words "with valid functional FASTag," shall be inserted.

- User of the vehicle not fitted with "FASTag" or vehicle without valid, functional "FASTag" entering into "FASTag lane" of the Fee plazas shall pay a fee equivalent to two times of the fee applicable to that category of vehicles

- closed user fee collection system means a system under which the fee is levied based on the actual distance travelled by a mechanical vehicle, on a national highway or expressway

- the executing authority or the concessionaire may establish fee plaza on the national highway or expressway on which the closed user fee collection system has been installed

- Provided further that no such concession shall be provided for commuting on a national highway or expressway on which fees is levied based on the closed user fee collection system.

Financial incentives for road developers

- Under section 80 IA of the Income Tax Act, profits and gains derived by an undertaking are subject to 100% deduction for 10 consecutive assessment years out of 20, beginning from the year in which the undertaking begins to operate the business, provided such profits and gains are derived from the business of: 1) developing, 2) operating and maintaining, or 3) developing, operating, and maintaining a road, including tolls and bridges, a highway project including housing or other activities being an integral part of the highway project. These criteria shall not apply to any enterprise that starts development or operations and maintenance of the infrastructure facility on or after April 1, 2017, as that enterprise shall be eligible for 100% deduction of capital expenditure under section 35AD

- Import duty has been completely exempted for public-funded needs on certain identified high-quality construction plants and equipment

- Import of bitumen is now permitted under the Open General Licence

- External commercial borrowings are permitted up to 35% of the project cost

2.9. Review and outlook of NHAI funding

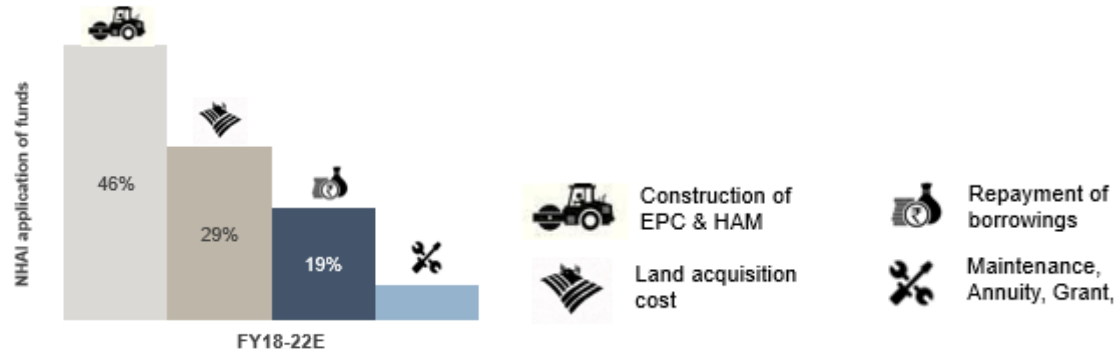
Asset monetisation critical

As per CRISIL MI&A estimates Rs 17-19 trillion will be invested in national highways between fiscals 2023 and 2027, with public funds dominating overall spending. In light of awarding more projects under the HAM and on a cash-contract basis, NHAI is now relying more on external borrowings and asset monetisation. While asset monetisation via TOT and the InvIT route is challenging in itself, raising external funds is increasing the debt to equity ratio of the authority, with repayments forming a large part of NHAI's outflow. Timely asset monetisation is critical for NHAI to meet its ambitious Bharatmala targets.

Due to higher awarding under EPC and HAM, NHAI's outflow toward milestone payments formed ~46% of the total met through market borrowings.

Of the Rs 5,000-6,000 billion spent over the last five years (fiscals 2018-2022), 46% was toward milestone payments for EPC and HAM (40% for HAM) projects, while ~29% was toward land acquisition expenditures and 19% toward interest and repayment of borrowing.

NHAI application of funds: 46% of NHAI outflow towards construction

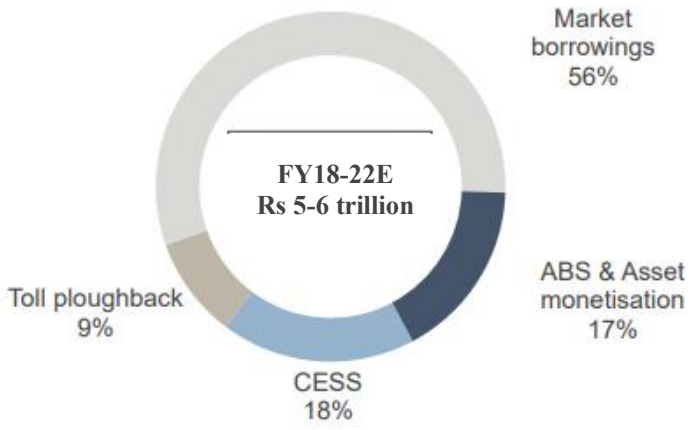


~Rs 5-6 Trillion
~FY18-22E

E: Estimated
Source: NHAI, CRI

While toll plough-back and CESS (budgetary allocation) contributed 18% and 9%, respectively, to the sources, the maximum amount (56%) of NHAI's funding came from market borrowings. Additional budgetary support and asset monetisation were 17% of total amount. With NHAI's requirement expected to increase amid ambitious construction targets, additional support via monetisation are critical for future requirements.

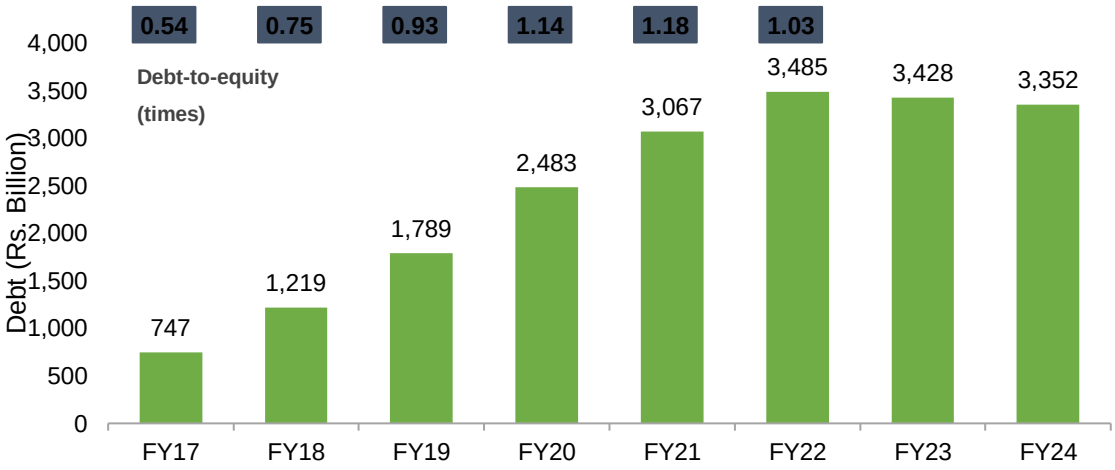
NHAI sources of funds: market borrowings accounted for 56%



Source: NHAI, CRISIL MI&A Consulting

Owing to the high dependence on market borrowings to fund asset creation through EPC and HAM projects, NHAI's debt-to-equity ratio rose to 1.2x in fiscal 2021. Due to the reduction in dependence on external borrowings, NHAI's leverage position saw a sharp improvement. The entity's debt-to-equity ratio dropped from 1.2x in FY21 to 0.75x as of December 2022, attributable to NHAI's strategic importance to the government and the road sector being a key area of reform to eliminate infrastructure bottlenecks and ensure a source of momentum for economic growth. Hence, the sector is witnessing the implementation of significant initiatives, such as the BMP project.

NHAI's borrowings reduce



Source: NHAI PIB - 25 July 2024, CRISIL MI&A.
Note: Debt-to-equity ratio data for fiscals 2023 and 2024 is unavailable.

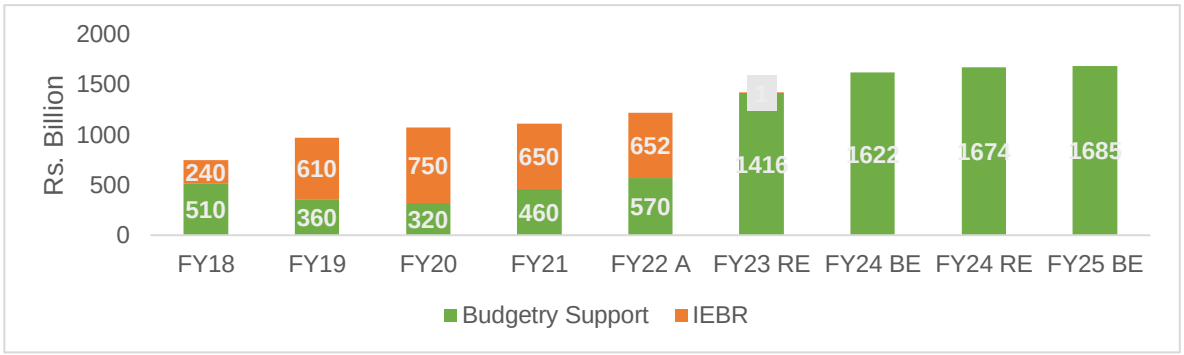
To limit the rise in borrowings, NHAI's budgetary support in the form of cess and toll plough-back increased 106% for fiscal 2023 (budgeted), with nil IEBR. The trend continued in fiscal 2024 wherein the IEBR continued to be nil in the budgeted estimates for fiscal 2024. The overall support to NHAI marked a 13% increase over the revised estimate for fiscal 2023. A NHAI press release of August 6, 2024, stated that in a major step to reduce its overall debt liability, the entity achieved a significant financial milestone with the successful pre-payment of bank loan amounting to Rs 157,000 million. Retiring this debt ahead of schedule will result in an estimated interest savings of ~Rs 10,000 million. With this pre-payment, the outstanding debt liability of NHAI dropped to ~Rs 3,200,000 million.

The government directs InvIT monetisation proceeds to be exclusively used for NHAI debt repayment. In fiscal 2024, Rs 157,000 million was generated through InvIT. In fiscal 2025, NHAI intends to monetise projects worth Rs 150,000 – 200,000 million through InvIT. With this, the overall debt liability of NHAI is expected to further reduce to ~Rs 3,000,000 million by the end of fiscal 2025.

As part of the robust debt payment plan and use of InvIT monetisation proceeds, NHAI actively engaged with lender banks to reduce interest rates. As a result, banks reduced their interest rate from 8.00-8.10% to 7.58-7.59%. In this process, bank loans where interest rates could not be reduced have been repaid Rs 157,000 million and this will result in significant interest savings of around Rs.10,000 million.

Budgetary support to NHAI up 14% vis-a-vis revised estimates of fiscal 2023, IEBR nil in fiscal 2024 budget.

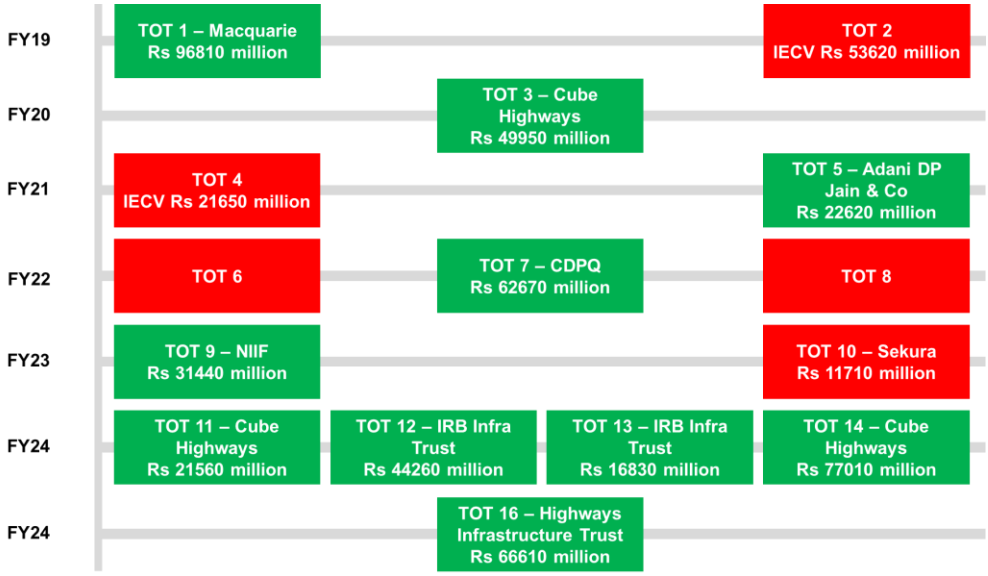
IEBR done away with in FY23 budget



Source: Budget documents, CRISIL MI&A Consulting

Other modes of funding such as TOT have seen only limited success. With the implementation of Fastags, TOT becomes more attractive as its able to eliminate cash handling and plug leakages in the system. However, of late, the awarding of TOT bundles have encountered impediments with certain TOT bundles like TOT-6, TOT-8 and TOT-10 getting cancelled due to low bids. While NHAI annulled the original bidding process for TOT bundles 11 and 12 due to low valuations, they were subsequently able to successfully award these bundles in the second round of bidding during FY24. During FY24, NHAI has also successfully awarded TOT bundles 13 and TOT 14. Also, NHAI has invited bids for TOT bundles 15, 17, 18 and 19. Bidding process of TOT 16 is completed, and Highway Infrastructure Trust has emerged as highest bidder for TOT Bundle 16. The convergence of the expectations of the government authorities and the private bidders remains a key monitorable as well as a major requirement for this mode of funding to become truly successful.

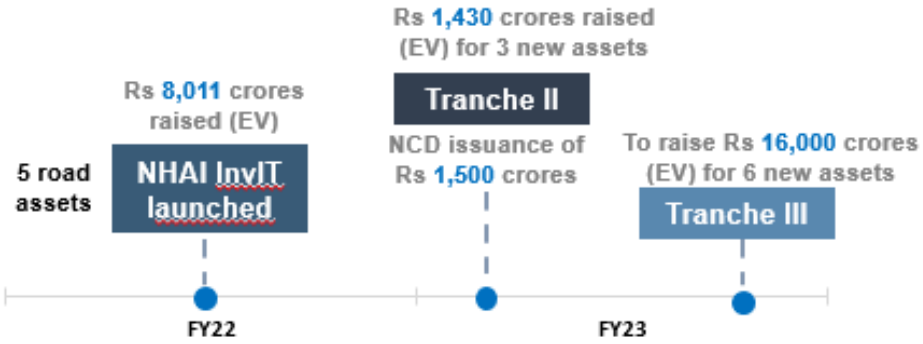
Success of TOT critical to meet ambitious Bharatmala targets



Source: NHAI, CRISIL MI&A Consulting

The authority has also tied up debt via SPVs level funding for the Delhi-Mumbai expressway where it has already raised Rs 97.31 billion.

InvITs and SPV level financing



Source: NHAI, CRISIL MI&A Consulting

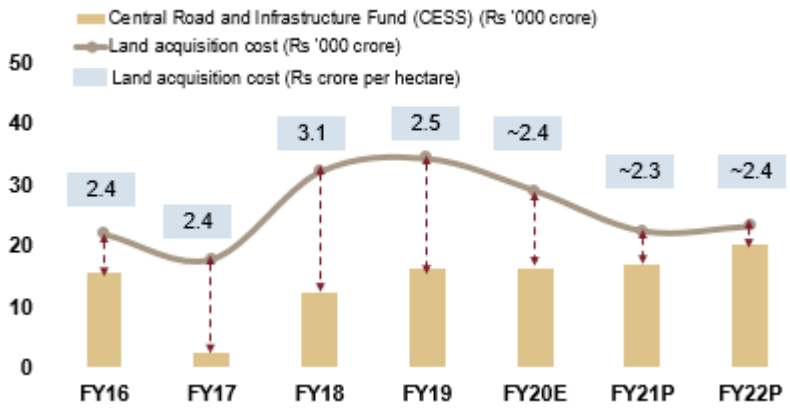
NHAI focuses on clearing land acquisition issues

Historically, cess was allocated towards land acquisition expenditure incurred by the NHAI. After the enactment of Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013, the shortfall in funds to meet the expenditure widened. However, with the authority's focus on clearing these issues and on new greenfield alignments, the issues plaguing land acquisition have reduced.

In the Union Budget for fiscal 2019, road cess was replaced by the Central Road and Infrastructure Fund (CRIF). Previously, road cess was split based on a fixed formula used and utilised for national highway construction, maintenance, railways, Pradhan Mantri Gram Sadak Yojana, etc. So far, there has been no change in the split. However, going forward, the share of cess for the roads sector could reduce given the increase in the overall scope from roads to roads and infrastructure, increasing dependence on borrowings.

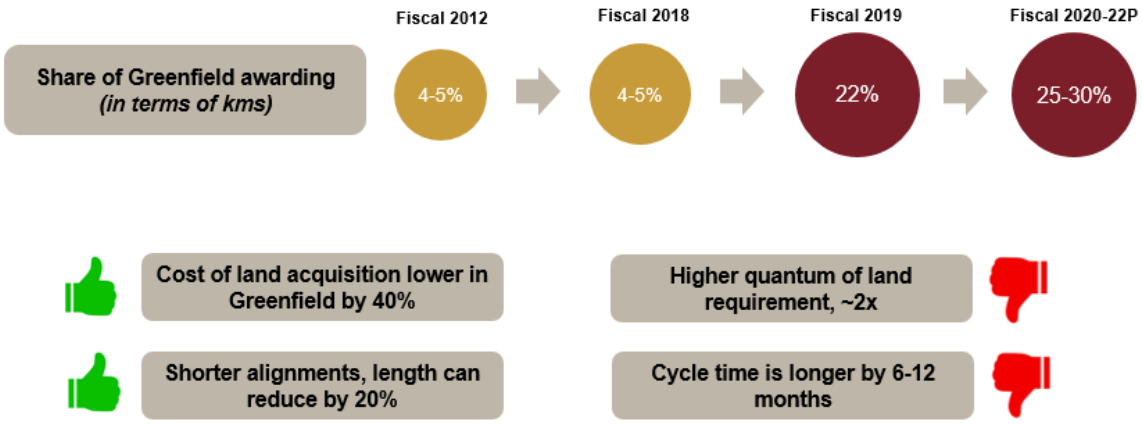
The compensation policy under the current land acquisition law requires the NHAI to pay four times the market value for rural land and two times for urban land. This and the new rehabilitation and resettlement Act have almost tripled land acquisition costs. In fiscal 2014, the average cost for acquiring land was Rs 9 million/ha. It increased to about Rs 30-32 million/ha in fiscal 2019 and declined to Rs 24-25 million/ha in fiscal 2020.

Cost for Land acquisition for the authority has come down since FY20



Source: NHAI, CRISIL MI&A Consulting

Greenfield projects offer support:



Source: NHAI, CRISIL MI&A Consulting

The share of greenfield road projects in awarding has been increasing consistently in the past few years driven by Bharatmala. As per CRISIL MI&A estimates, the share of greenfield projects in awarding was above 25% in the last few fiscals. The increase in the share of greenfield projects lowers the cost of land acquisition by 40%, compared with brownfield projects. Also, these greenfield projects come with shorter alignments and 20% shorter length. That said, a key drawback of greenfield projects is the cycle time, which is longer by 6-12 months, compared with brownfield projects, because of higher design time.

Improvement in bank credit growth led by higher HAM execution

After a dip in fiscal 2020, bank lending to the roads sector staged a healthy recovery and grew by 27% yoy owing to higher awarding and higher construction. The traction continued in fiscal 2022 as well with lending to the sector witnessing a robust growth of 17% yoy. In fiscal 2023, the growth momentum has moderated due to the high base with the on-year growth rate for the year standing at 5%. At the end of fiscal 2023, the outstanding bank credit to the roads & highways sector stood at Rs 2.9 trillion.

For projects that were awarded in fiscal 2012, banks approved costs that were much higher than those approved by the National Highways Authority of India (NHAI). As a result of the problems faced in these projects, bankers are now very cautious while evaluating projects and are estimating project costs much closer to the NHAI estimates. They demand that at least 80% land acquisition should be completed, and all clearances must be obtained at the beginning. While this has increased the time taken by players to achieve financial closure, it will ensure participation only by serious players. However, viable projects and those that have not gone through aggressive bidding should achieve financial closure quite smoothly.

Bank credit growth to the roads sector moderated in fiscal 2024 due to the high base

2.10. Investments in National Highways: Review and outlook

NHAI awarding to revive in fiscal 2025, share of BOT to increase substantially

National Highways Authority of India (NHAI) awarding has witnessed a rise from merely 2,222 km in fiscal 2019 to 6,003 km in fiscal 2023. Fiscal 2021 was a pivotal year since despite the COVID-induced disruptions, the NHAI awarded 4,818 kms in which was a three fiscal high back then. Additionally, favourable changes in the BOT and HAM agreements, and relaxation of bidder eligibility criteria not only indicated a clear policy shift to improve private-sector participation but also aided the spurt in the HAM awards. In fiscal 2023, NHAI's awarding volume remained above the 6,000 km mark for the second consecutive year as 6,003 km was awarded during the fiscal year. The share of HAM in awarding increased slightly from 54% in fiscal 2022 to 56% in fiscal 2023. On the other hand, the share of EPC remained unchanged at 43%.

In fiscal 2024, awarding momentum has been marred by various roadblocks. NHAI's flagship Bharatmala Pariyojana Programme (BMP) Phase-1 has witnessed significant cost overrun on account of costlier land acquisition and high inflation. Notably, as per CAG audit report, while only 75% of the estimated project length has been awarded, 158% of the original estimated financial cost has already been expended. Currently, the estimated cost of the BMP phase-1 is almost twice and the initial estimate and the ministry is awaiting cabinet approval for a revamped programme and additional funds in order to undertake rapid awarding of projects in the pipeline. As a result, NHAI awarding was ~3,339 kms in fiscal 2024. Notably, the share of HAM dipped significantly due to the aforementioned issues regarding the BMP. Going forward, the share of HAM is expected to revive to around 25-30% in fiscal 2025. Further, on account of amendments in the BOT MCA, the awarding under the BOT model is also likely to increase substantially. This is likely to be supported by the interest of developers in the revamped BOT model due to the following factors:

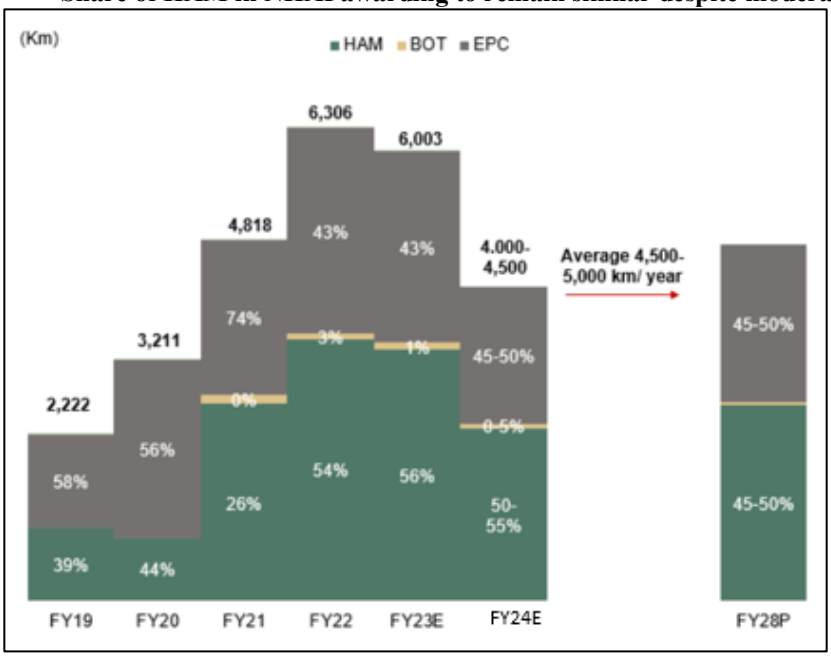
- HAM was favored by the road developers due to lower risk and higher profitability. However, the competition in HAM awarding has increased substantially leading to average bid premiums tumbling from a peak of 15-20% to around 4-6% in the last few fiscals. As a result, the share of the larger developers have dropped substantially since many large developers have refrained from bidding aggressively for HAM projects in order to protect their margins. Given the amendment in BOT MCA and the scope of higher profitability due to lower bidding competitiveness in the BOT space many large developers are keen on taking up BOT projects.

- Furthermore, owing to the healthy balance sheets the developers are also in a comfortable position to undertake BOT projects with high funding requirements.

- The increased traffic visibility vis-à-vis earlier years also augurs well for the BOT projects.

The shift towards the BOT model comes against the backdrop of NHAI facing funding challenges and moderation in growth in the central government's budgetary outlay towards the roads & highways sector. Thus, the shift will have a two-pronged benefit by not only alleviating funding challenges to a great extent but also increasing the private investments in the sector.

Share of HAM in NHAI awarding to remain similar despite moderation in awarding momentum



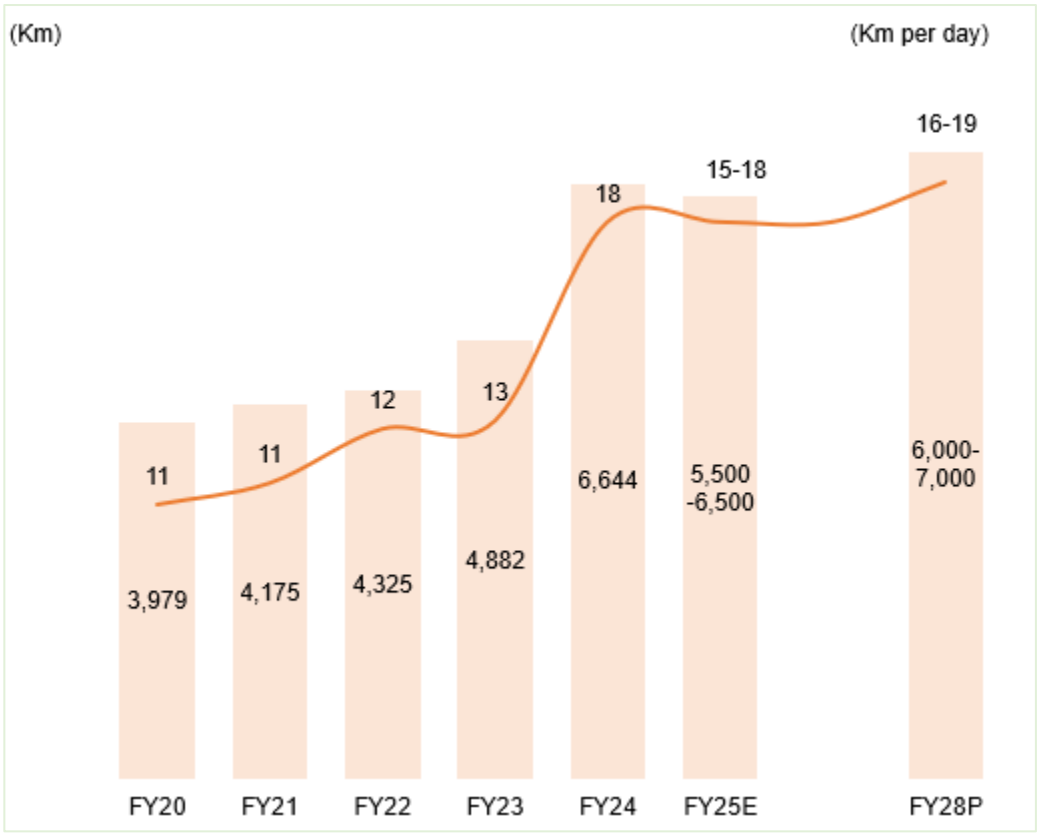
P: Projected
Sources: NHAI, CRISIL MI&A Consulting

NHAI execution is also rising steadily with focus on swifter execution

Even though overall national highways construction at the MoRTH level remained flattish in fiscals 2022 and 2023, NHAI execution witnessed strong momentum. NHAI execution sequentially rose from 4,175 km in fiscal 2021 to 4,882 km in fiscal 2023. Acceleration in project awards, sharper focus on resolving land acquisition issues, and the 'Atmanirbhar Bharat' initiatives to ease liquidity (monthly milestone payments, release of retention money, reduction in performance security & extension of 3-6 months in milestones & SCODs) for EPC road players augured well for the pace of execution of NHAI projects.

Higher awarding of the previous and many of those projects receiving appointed dates in a timely manner have further boosted NHAI execution in fiscal 2024. As a result, 6,644 km of NHAI projects were executed during the year. In other words, the construction per day stood at around 18 km. Given the healthy orderbooks of the developers, the momentum in the pace of execution is likely to continue in fiscal 2025 as well. CRISIL MI&A Research expects NHAI execution to be between 5,500-6,500 km in fiscal 2025. Over the medium term, the pace of construction is expected to rise steadily to reach ~19 km per day by fiscal 2028.

NHAI's pace of construction rising steadily with continued focus on swifter execution



Source: NHAI, CRISIL MI&A Consulting

Policy push boosted HAM share in awarding

NHAI awards roads and highway projects under:

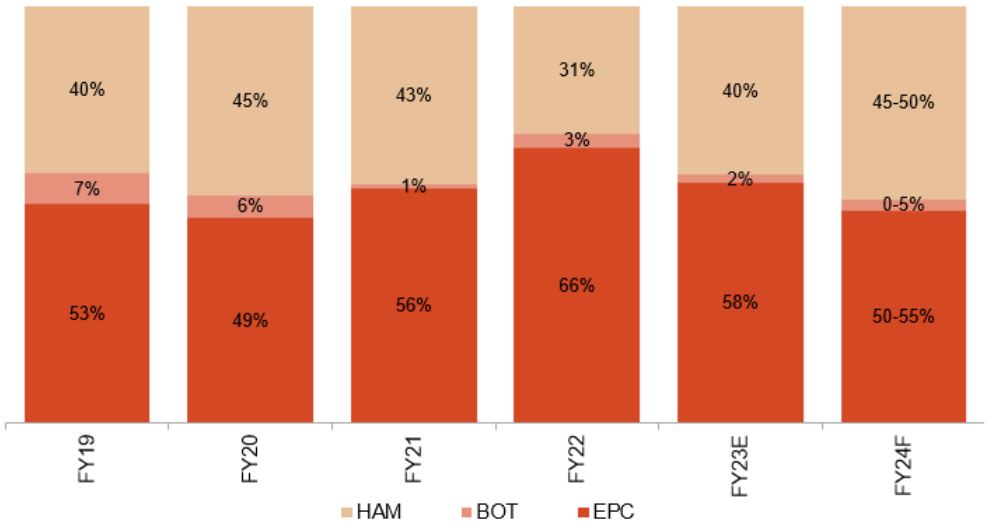
- EPC
- BOT
- HAM

Incorporating multiple suggestions from various stakeholders, the ministry and NHAI amended certain parameters in the HAM MCA in October 2020. These were largely aimed at protecting developers' returns and ease their liquidity.

On the back of the higher HAM awarding, CRISIL MI&A's estimates of split for the NHAI capex mix indicates that the share of HAM in NHAI capex is expected to rise. However, given that EPC has also cornered a large share in awarding in the previous fiscals, its share in NHAI capex is expected to remain at ~50-55% in fiscal 2024. Overall, the share of public funds in NHAI investments is likely to hover around the 70% range. Therefore, NHAI funding would remain critical to sustain the sector forward.

As capex under EPC and HAM remains high, public funds are burdened

(NHAI Capex Mix)



P: Projected

Number of highway lanes increased over past five fiscals

The NHAI has also focused on increasing the number of lanes on national highways. Single lane roads decreased to 21% in fiscal 2016 from 32% in fiscal 2015, while two-lane roads increased to 56% from 47%, and four-lane roads to 25% from 12%.

Lane-wise break-up of national highways

Width of carriage way	FY12		FY13		FY14		FY15		FY16		FY19		FY23	
	Km	%	Km	%	Km	%	Km	%	Km	%	Km	%	Km	%
4 Lane & above	17,700	25%	19,128	24%	18,372	20%	21,201	22%	24,705	25%	31,067	23%	46,179	32%
Two-lane	38,536	54%	40,658	51%	45,399	50%	45,701	47%	55,603	56%	65,123	49%	85,096	58%
One-lane	15,536	22%	19,330	24%	27,516	30%	31,089	32%	20,703	21%	36,310	27%	14,870	10%

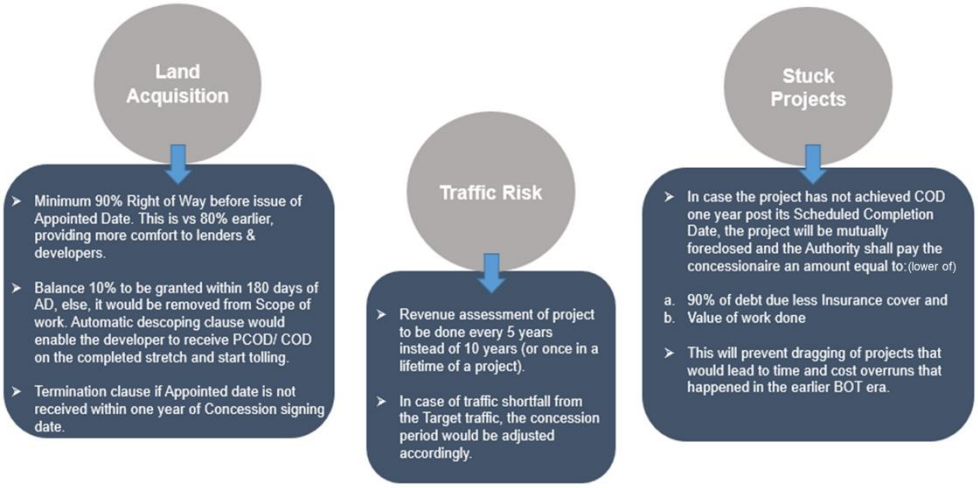
Changes in BOT MCA introduced

In an effort to improve private participation via the BOT-toll mode, the NHAI and the ministry introduced changes to the BOT MCA, aimed at addressing key issues, such as land acquisition, revenue assessment in case of traffic shortfall and stuck projects.

BOT MCA revamped to revive interest in the model



Source: MoRTH, NHAI, CRISIL MI&A Consulting

Contractual reforms provide clarity and address some key issues

The ongoing reforms in contract structures represent a significant stride towards addressing critical issues within the construction sector. These reforms aim to mitigate execution delays by granting access to 90% of the construction zone on the appointed date. Additionally, proactive measures, including early intervention to rectify emerging issues, closer monitoring of escrow accounts, and the implementation of new monthly reporting formats, are expected to enhance progress tracking and provide lender protection in the event of concessionaire default during the construction phase. The recent modifications in the Model Concession Agreement are designed to safeguard against potential traffic diversion due to competing roadways. Notably, provisions allowing for a 10%

incremental increase in the concession period, in contrast to the original 20%, offer additional protection against lower-than-anticipated traffic volumes. These adjustments are particularly pertinent given the current network expansion and the emergence of competing multimodal developments. However, there remains a crucial market requirement for better delineation of competing roadways. The inclusion of a clause mandating authority buyback in the event of capacity breaches over consecutive years serves to mitigate risks associated with traffic spikes and ensures timely capacity augmentation, albeit with limitations on potential upside. Furthermore, the reforms address various issues responsible for project disputes and investor apprehension. Clarity on compensation amounts in the event of authority default or force majeure events, as well as transparent methodologies for cost calculations and debt reconciliation, serve to remove ambiguities and foster investor confidence.

Healthier stakeholder ecosystem may reignite private sector interest

A revitalized stakeholder ecosystem is poised to rekindle private sector interest in infrastructure projects. Developers have experienced improved operating cash flows and achieved crucial project milestones, resulting in unlocked capital and bolstered balance sheets through project monetization. This, coupled with enhanced developer credit profiles and lender-friendly measures, is expected to stimulate a robust financing environment among lenders. While previous Build-Operate-Transfer (BOT-Toll) bids attracted interest from a pool of 7-9 bidders, the introduction of toll-operate-transfer (TOT) mechanisms has broadened the potential bidder pool significantly. In the past five years alone, the TOT framework has attracted nearly 19-20 bidders. With experience in toll asset operation, some of these entities may explore opportunities to undertake construction risk, albeit selectively, focusing on projects with promising returns and under a sound contractual framework.

The bankability imperative

Ensuring the bankability of projects is crucial for attracting private risk capital into BOT-Toll ventures. These projects must exhibit strong traffic potential, sustainable traffic growth prospects, and minimal competition from alternative routes. Leveraging data and analytics, particularly from sources like FASTag and e-way bill data, is imperative to identify optimal project alignments with favourable traffic profiles within the BOT-Toll model. Moreover, securing funding through a prudent capital structure is essential for maximizing the benefits of the revamped BOT-Toll contract framework. As the NHAI adopts a revised financing approach, combining a revamped BOT-Toll strategy with its existing EPC-HAM model, there is cautious optimism that this approach will reignite private sector interest in infrastructure projects.

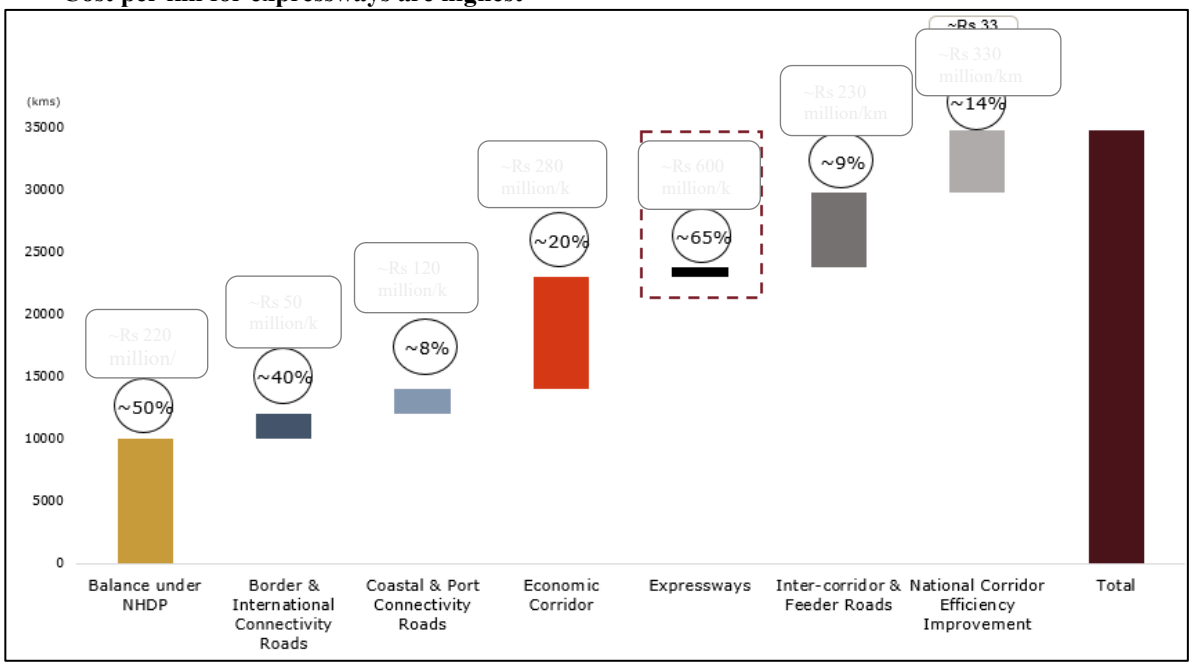
Amendments to EPC contracts effective November 2018

Key implications	Progress
To enable quicker execution by increasing the obligation of the authority	Deadline for approval/ clearance for forest area or a sanctuary lowered to 180 days from 240 days
	If appointed date is not received within 90 days of signing the agreement, the contract can be terminated. Here, the authority will pay contractor damages to the tune of 1% of the contract price to the contractor
Ensure effective competition and focus on timely project completion	If the project is not completed within 90 days of Scheduled Completion Date (SCD), the contractor will be ineligible to bid for projects till it is completed
Increase in working capital requirement for contractors	The interest on mobilisation advance paid to the authority was increased. Earlier recovery of mobilisation advance. Also, release of retention money against bank guarantees has been discontinued
Increased maintenance obligation of the contractor	Compensation has been lowered and tenure for maintenance by the contractor increased – defect liability period raised to 10 years from 4 years

Bharatmala Phase 1 awarding has focused on expressways; likely to stretch till fiscal 2025

Bharatmala Pariyojana is an umbrella project introduced by the central government in 2015 to improve the efficiency in the roads sector. It is expected to supersede the National Highways Development Project (NHDP), and envisages the construction of 65,000 km of highways under the following categories: national corridor roads (north-south, east-west and Golden Quadrilateral), economic corridor roads, inter-corridor roads and feeder roads. As per the ministry, Bharatmala, along with incumbent schemes, would require a total outlay of Rs 6.9 trillion.

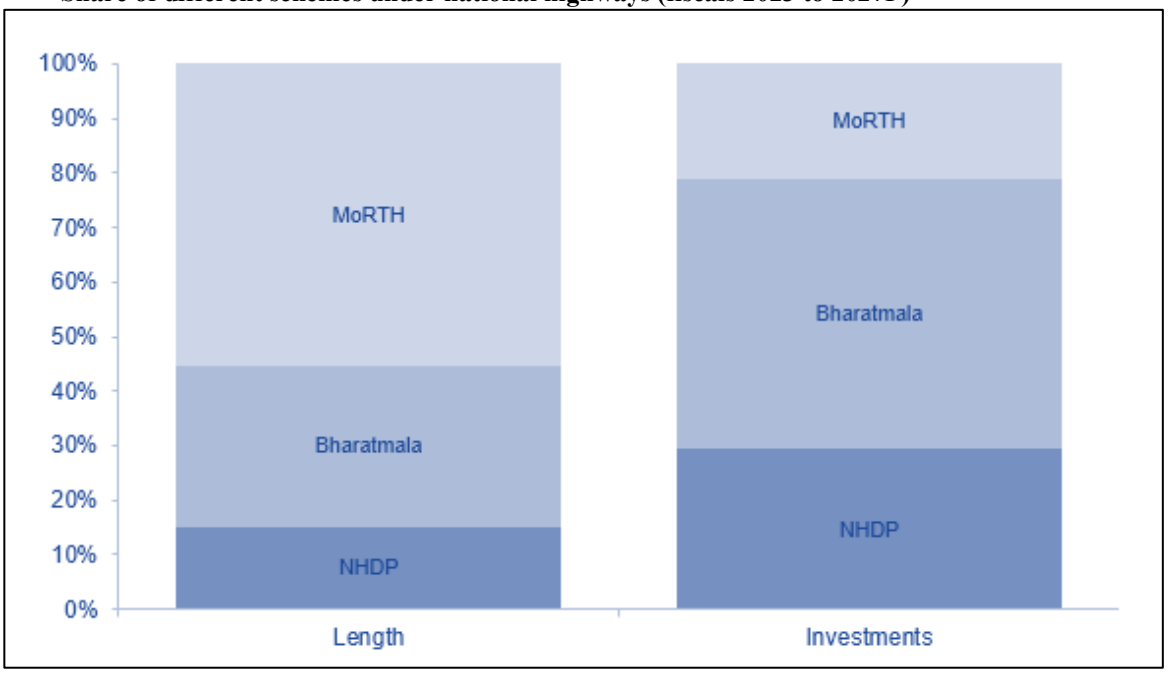
Cost per km for expressways are highest



Note: As of fiscal 2020
Source: NHAI, CRISIL MI&A Consulting

Phase I of the scheme envisages development of ~24,800 km of national highways/roads as well as 10,000 km of residual roads between fiscals 2018 and 2022 under NHDP. Awarding under Bharatmala has begun from fiscal 2018 and we believe it will stretch till fiscal 2025 for Phase 1. Awarding under Bharatmala began in fiscal 2018, with Phase 1 expected to stretch till fiscal 2025.

Share of different schemes under national highways (fiscals 2023 to 2027P)



P: Projected
Note: National highway investments do not include land acquisition costs
Source: CRISIL MI&A Consulting

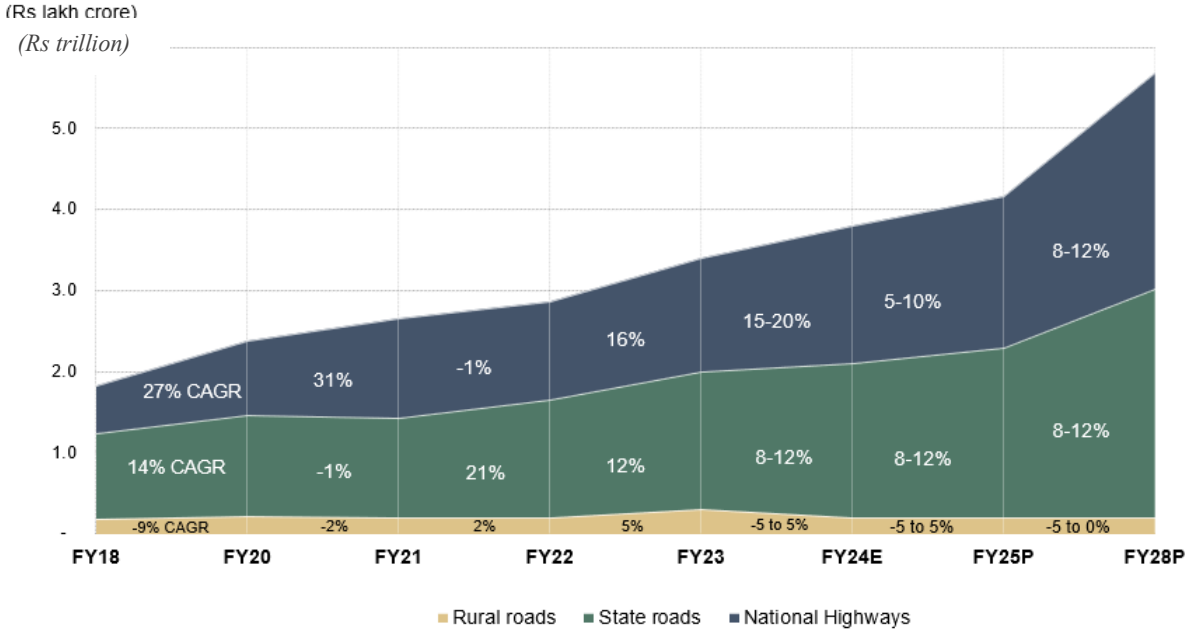
National highway capex to grow by 15-20% driven primarily by increased execution

Overall road sector capex, comprising of National Highways, State Highways & rural roads is estimated to have grown at a CAGR of 14% between fiscals 2018 & 2023. This growth, driven by Bharatmala and increased state spends on roads has been achieved despite brief hiccups such as the pandemic and hampered construction due to elongated monsoons. The outlook of the sector also remains firm supported by higher awarding of previous fiscals, Bharatmala, NIP pipeline of DPR ready projects and steady state capex.

The national highway segment contributes around 40-45% of the overall capex. While the execution remained flattish in fiscal 2023 vis-à-vis fiscal 2022, capex grew by 12-18% due to a rise in construction of high value projects and high commodity prices. In fiscal 2024, we expect the national highway capex to grow by 15-20% driven primarily by increased execution.

On the low base of fiscal 2021, the state spends grew by 21% in fiscal 2022 and are estimated to have grown further by 10-13% in fiscal 2023 largely in line with the growth in budgetary outlay. In fiscal 2024, state spends are expected to go up further by 8-12% as their percentage achievement of budgetary allocations are expected to be largely in line with historical average.

Momentum to continue, supported by Bharatmala and NIP pipeline



E: Estimated, P: Projected
Note: Investment excludes land acquisition cost
Source: NHAI, MoRTH, state budget documents, Pradhan Mantri Gramsadak Yojana, CRISIL MI&A Consulting

On the low base of fiscal 2021, the state spends grew by 21% in fiscal 2022 and are estimated to have grown further by 10-13% in fiscal 2023 largely in line with the growth in budgetary outlay. In fiscal 2024, state spends are expected to go up further by 8-12% as their percentage achievement of budgetary allocations are expected to be largely in line with historical average.

Outlook of toll collection and remittance on national highways

As per IHMCL data, the electronic toll collection on national highways is estimated to have reached ~₹ 496.89 billion in the fiscal year 2024. Further, toll collections are expected to grow at a CAGR of 9.5-10.0% between fiscal years 2023 and 2028 on a like-to-like basis and to grow at 18-19% considering new road additions and subsequent tolling on them over the same period. The growth will be driven by factors such as improvement in overall economic activity, efficiency gains due to removal of check posts post implementation of GST, increase in both passenger and commercial vehicles, strong execution pipeline of road and highway projects, better compliance and blocking of leakages due to electronic toll collection.

2.11. Key transactions in road sector

Recent key asset sales and private equity transactions

2.12. Overview of investments in road platforms

Investments by private sector to grow 3x over the next five years

CRISIL MI&A expects private construction investments in national highways to increase 2x to Rs 2.7 trillion over fiscals 2024 to 2028 compared with the previous five years. This is expected to be mainly through the hybrid annuity model (HAM) mode, as the build-operate-transfer (BOT) toll mode may have only a few takers.

A policy push in the form of changes in Model Concession Agreements (MCA) for HAM and BOT projects and reduction in bid eligibility criteria across all national highway projects would bode well for private participation. However, the share of HAM in total awarding is constrained by the cautious approach employed by banks in lending to HAM projects.

Amidst the COVID-19 pandemic, NHAI and the ministry have taken various steps under the Atmanirbhar package to ease issues faced by developers. Releasing monthly payments, instead of milestone-based payments; extension of timelines for

completion of projects, etc have sustained private participation in the sector. While these have been extended till Oct 2020, they are likely to fade from next fiscal onwards.

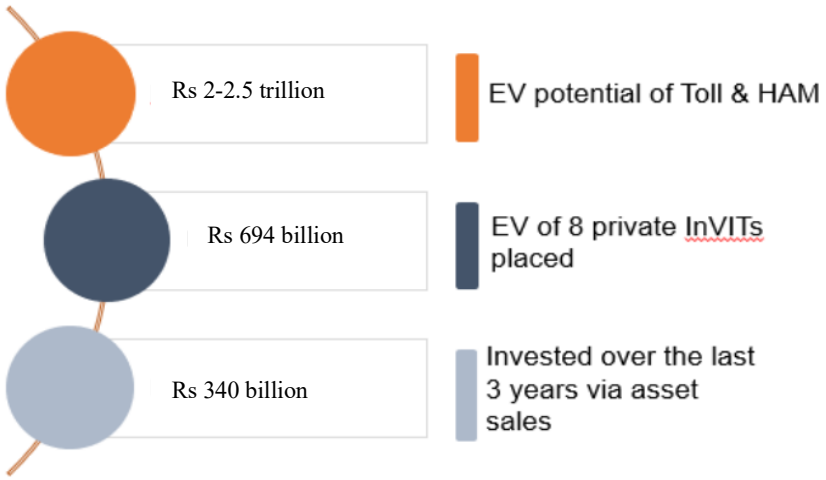
Asset monetisation, equity infusion key to support private investment in the long run

Currently, there are two broad drivers of asset sales in the roads sector - rationalisation of financial position to improve balance sheet strength and asset churning to be able to participate in the upcoming projects. The erstwhile major BOT players are selling off assets to reduce their debt burden and free up equity, which can be infused in under-execution projects.

The players present in HAM are currently selling off HAM assets to participate further in upcoming HAM projects. Some players intend to sell off under-construction projects to financial investors with projects being executed by the same player. Thus, they are able to convert HAM projects to EPC without facing the cut-throat competition they deal with currently in the EPC mode. This will help them retain margins.

About Rs 700-800 billion has already been invested through these models. CRISIL's analysis of BOT and HAM projects indicates a potential of ~Rs 2.0-2.5 trillion in terms of enterprise value.

Asset monetisation has a lot of potential to free up developers' balance sheets



Source: CRISIL MI&A Consulting

2.13. Overview of National Highways Development Project (NHDP)

The NHDP encompasses building, upgradation, rehabilitation and broadening of national highways. The project is being executed by the NHAI, in coordination with the public works departments of various states. The NHAI also collaborates with the Border Roads Organisation to develop certain stretches. The NHDP is being implemented in seven phases.

The projects are awarded to private players either on EPC (cash) or on BOT basis and now on HAM. NHDP cash contracts are mainly financed through budgetary allocations from the Central Road and Infrastructure Fund (CRIF), negative grants/premium received, and toll revenue. Loans and grants are also received from the World Bank and ADB.

Bharatmala Pariyojana

Bharatmala Pariyojana (BMP), an umbrella project of the central government since 2015, aims to improve efficiency in the roads sector. It is expected to supersede the NHDP and envisages the construction of 65,000 km of highways under the national corridor (north-south, east-west, and golden quadrilateral), economic corridor, inter-corridor roads, and feeder roads categories. As per the ministry's announcements in 2017, Bharatmala, along with the other schemes being undertaken, was estimated to have required a total outlay of Rs 6,900,000 million.

Phase I of the scheme envisages development of 24,800 km of national highways/roads and residual 10,000 km of the NHDP between fiscals 2018 and 2022 as per MoRTH Annual Report for fiscal 2023. Awarding under Bharatmala has begun from fiscal 2018 and will likely stretch until fiscal 2025 for Phase 1, involving development of ~9,000 km of economic corridors, ~6,000 km of inter-corridor and feeder roads, ~5,000 km of national corridors efficiency improvements, ~2,000 km of border and

international connectivity roads, ~2,000 km of coastal and port connectivity roads, and ~800 km of expressways. Of the total 34,800 km, ~20,800 km had been awarded as of August 2021.

Components of BMP Phase -I

Category	Description	Total length (km)	Upgrade proposed in Phase I (km)
National corridor efficiency improvement	Lane expansion and de-congestion of the national corridor	13,100	5,000
Economic corridor development	Connecting economically important production and consumption centres	26,200	9,000
Inter-corridor and feeder route development	Inter-connection between economic corridors; first- and last-mile connectivity	15,500	6,000
Border and international roads	Connectivity to border areas, boosting trade with neighbouring countries	5,300	2,000
Coastal and port connectivity roads	Connectivity to coastal areas to enable port-led economic development	4,100	2,000
Expressways	Greenfield expressways	1,900	800
Total		66,100	24,800

Source: NHAI, CRISIL MI&A Consulting

Status of BMP-1

National highways measuring 34,800 km in length were planned under BMP phase 1, according to a MoRTH press release, out of which, 26,418 km (76%) were awarded for construction as of December 2023 and ~15,549km have been completed so far. The projects under BMP are mainly funded by the centre, while MoRTH manages resource mobilisation. Andhra Pradesh has seven projects of ~384 km length of roads at the bidding stage at a cost of Rs 65,860 million under BMP. MoRTH has identified corridors measuring 1,719 km in Telangana for development under BMP phase 1, out of which 1,026 km has been awarded. As of December 2023, Rs 4,230,000 million was spent under phase 1 of the project.

State-wise summary of BMP

State	Total project length (km)	Awarded project length (km)	Length completed (km)	State	Total project length (km)	Awarded project length (km)	Length completed (km)
Andhra Pradesh	2,525	1,936	641	Maharashtra	3,029	2,174	1,628
Assam	433	431	312	Manipur	635	635	332

2.14. Overview of National Highways and Infrastructure Development Corporation Limited (NHIDCL)

The National Highways and Infrastructure Development Corporation Limited (NHIDCL) was established under the MoRTH, on July 18, 2014. It aims to boost construction of national highways and infrastructure in the North Eastern Region and strategic border areas. NHIDCL facilitates economic development in these regions by integrating them more robustly with the mainstream, providing economic benefits to the local population.

As of March 31, 2022, NHIDCL employs 345 individuals across 13 states/UTs and Kathmandu, Nepal. It has also ventured into other infrastructure projects such as multi-level car parking, logistic parks, and bus ports. NHIDCL's projects are enhancing accessibility to remote areas, constructing safer roads, tunnels, and bridges, particularly in challenging terrains like Jammu and Kashmir, Uttarakhand, North-East, West Bengal, and Andaman & Nicobar Islands. Additionally, NHIDCL is contributing to socio-economic growth through skill development programs, improving livelihoods, fostering trade, tourism, and supporting states in by providing financial aid and basic life care ambulances during pandemic.

NHIDCL portfolio for road development in Northeast Regions of India and Jammu & Kashmir

As per PIB's publication dated 31st July 2023 on budget for transport connectivity to North-Eastern States, Ministry has informed that government plans to complete the following road projects in the North-Eastern States to strengthen the connectivity in the region:

A total of 261 road projects under different Schemes of MoRTH with a total sanctioned cost of Rs.1,02,594 crore are under implementation through National Highways Authority of India (NHAI), National Highways & Infrastructure Development Corporation Ltd. (NHIDCL) and State Public Works Departments (PWDs) in the North Eastern States.

In addition, the Ministry of Development of North-Eastern Region, under the erstwhile North-East Road Sector Development Scheme (NERSDS) and the present North-East Special Infrastructure Development Scheme (NESIDS) has sanctioned a total of 77 road projects amounting to Rs.3372.58 crore.

According to order book provided in "Annual report 2022-23" published by NHIDCL, In Jammu and Kashmir, a total of 17 road projects spanning 263 kms of total length is currently under progress and it sums up to total project cost of INR 15,140 Cr. In addition to the ongoing road projects, 352 kms of National Highway length is entrusted. 50 kms of tunnel DPR work, 370 kms of DPR other than Bharatmala Pariyojana, and 116 kms in principle national highway are also in progress.

2.15. PM Gati Shakti - National Master Plan for Multi-modal Connectivity

Gati Shakti Scheme or National Master Plan for multi-modal connectivity plan, was unveiled in October 2021, with an objective of curtailing the logistics cost for the country, by coordinating the infrastructure creation activity different government entities. Major characteristics of the scheme are

- Digital platform for coordination across 16 ministries, including roadways and railways
- 'Gati Shakti' platform will subsume the infrastructure projects announced under National Infrastructure Pipeline (valued at Rs 111 trillion)
- Existing infrastructure schemes across ministries, such as Bharatmala (Roads), Sagarmala (Ports), UDAN (Air), Inland Waterways, Dry ports etc. will be incorporated in the platform
- The platform will also provide spatial data and implementation status for different projects
- Eleven industrial corridors and two defence corridors are also planned in the scheme, covering clusters for textile, pharmaceutical, fishing, electronics, agriculture etc.

Key targets set for different heads under the scheme are:

- Ports: Capacity of the major ports to be increased from 1,282 million tonnes in fiscal 2020 to 1,759 million tonnes in fiscal 2025

- National Waterways: Cargo movement to be ramped from 74 million tonnes to 95 million tonnes during fiscal 2020-25 period
- Railways: Target of 1,600 million tonnes by fiscal 2025, vis-à-vis 1,210 million tonnes in fiscal 2020
- MMLPs: Indian railways will setup 500 multimodal cargo terminals by fiscal 2025
- Others: Gas pipeline length to be doubled from 17,000 Km to 34,500 Km, incremental renewable capacity of ~150 GW, power line capacity target of ~452,000 circuit Km by fiscal 2025

An integrated platform to monitor the progress of projects and logistics initiatives spanning across different ministries will certainly aid in increasing coordination and planning infrastructure creation and connectivity.

3. Overview of Infrastructure Investment Trusts (InvITs) for roads in India

3.1. Overview of InvITs currently listed in India

InvITs to deleverage balance sheets and enable capital recycling

Infrastructure investment trusts (InVITs) will help free up capital of players by divesting stake in operational assets and help recycle this capital to deleverage balance sheets for creating new assets.

Details of InVITs currently registered in India:

Name	Sponsor	Date of registration	Assets
IRB InviT Fund	IRB	Mar-2016	5 toll road assets & 1 HAM asset
Indinfravit Trust	L&T IDPL	Mar-2018	19 BOT-toll, 4 BOT annuity assets
Oriental Infratrust	Oriental Group	Mar-2019	4 toll & 1 annuity asset
IRB Infrastructure Trust (IRB InVIT II)	IRB Infrastructure Trust (IRB InVIT II)	Nov-2019	10 operational toll projects, 1 under construction project & 1 proposed under construction project
Bharat Highways InvIT	G R Infraprojects Limited	Aug-2022	7 HAM assets
Cube Highways Trust	Cube Highways Group	July-2022	17 toll and 1 annuity asset
Highways Infrastructure Trust	Galaxy Investments II Pte. Ltd	Mar-2022	5 BOT Toll, 2 Annuity Assets and 3 HAM assets (in process of acquiring 3 other assets)

Name	Sponsor	Date of registration	Assets
Indian Highway Concessions Trust	Maple Highways Pte Ltd	Feb-2020	2 toll assets
National Highways Infra Trust	National Highway Authority of India	Oct-2020	5 BOT Annuity, 3 TOT Toll
Shrem Invit	Shrem Infra Structure Private Limited	Feb-2021	15 NHAI & 1 MoRTH HAM Assets, 2 NHAI toll assets, 10 State (Toll+Annuity) assets and 6 State Annuitv Assets
NXT- Infra Trust	Actis-Highway Infra Limited	Jan-2024	1 toll asset
Roadstar Infra Investment Trust	IL&FS Transportation Networks Ltd	Apr-2024	6 Assets (4 BOT (toll) and 2 Annuity)

Note: Details pertaining to Roadstar Infra Investment Trust is shared by company in November 2024
Source: Credit Rating Rationale, DRHP, CRISIL MI&A

Year wise developments in InvITs

InvIT	Year	Progress
Cube Highways Trust	July 2022	As per the SEBI's website, the InvIT filed the final placement memorandum in April 2023. Its portfolio assets include 18 toll assets and one annuity asset, totaling 1,636.5 km
Highway Infrastructure Trust (HIT)	Mar 2022	HIT is sponsored by Galaxy, in which KKR is an investor. It has acquired an initial portfolio of six operational projects with four toll and two annuity roads. It has acquired a portfolio of 11 assets from PNC Infrastructure comprising of 10 HAM & 1 BOT (UPSHA) assets in FY24
National Highways Infra Trust	Nov 2021	Eight road project assets (five in round-1 and three in round-2) have been transferred to the InvIT. It was listed in November 2021. Round-1 assets have received appointed date as December 2021. Round-2 assets were transferred in September 2022.
Shrem InvIT	Feb 2021	As of January 2023, the InvIT's portfolio had 28 projects (24 acquired from Dilip Buildcon Ltd in 2017 and 2018 and four newly acquired SPVs). Six additional SPVs were proposed to be acquired. The projects consist of annuity, state toll & annuity, NHAI HAM, MoRTH HAM and NHAI toll assets across five states. Floated by the sponsor, Shrem Infra Structure Pvt Ltd, Shrem InvIT got SEBI approval in February 2021.

InvIT	Year	Progress
IRB InvIT Fund	Feb 2020	In August 2019, the company had announced signing of definitive agreements with GIC affiliates, for up to Rs 44 billion investment for 49% stake in a portfolio of nine of its assets through private InvIT structure (IRB Infrastructure Trust) with IRB retaining the controlling 51% stake in the trust. The portfolio has 5,900 km in Haryana, Uttar Pradesh, Rajasthan, Gujarat, Maharashtra, and Karnataka. In October 2020, IRB Infrastructure Trust successfully closed the second tranche of fund raising by way of rights Issue of units amounting to Rs 5.1 billion. Being the sponsor and 51% stakeholder, the company contributed Rs 2.6 billion and the GIC affiliates, the balance Rs 2.5 billion. This is part of the total commitment of Rs 44 billion by GIC affiliates for the 49% stake in private lnvIT housing nine BOT assets. Of Rs 44 billion, the trust received Rs 37.53 billion in February 2020.
	May 2017	A fresh issue of units of about Rs 43 billion and an offer for sale of about Rs 30 billion. The proceeds from the offer from sale went to the sponsor, IRB, while the proceeds of the fresh issue (about Rs 42 billion) were invested in the six road assets under the InvIT in the form of debt. The repayment of existing debt on the SPV to the lenders was completed.
IndInfravit Trust (L&T IDPL)	Jun 2019	Sadbhav Engineering transferred nine operational BOT assets (seven toll and two annuity) to this InvIT. The enterprise value of these assets is Rs 66 billion, which will help deconsolidate Rs 40 billion of Sadbhav's debt. This, in turn, will help unlock funds to bid for newer HAM projects.
	Apr 2018	L&T privately placed the InvIT units. It has transferred five operational assets to this InvIT.
Oriental InfraTrust	Jun 2019	It has five operational road assets of approximately 621 km.
NXT- Infra Trust	Jan 2024	Bhagan Toll Plaza is a 8-lane, 71.389 km long section near the Haryana/Delhi border.

Source: CRISIL MI&A Consulting

InvITs, as envisaged in Union Budget 2014-15, will own and manage income-generating infrastructure projects. As per regulations, these trusts will be allowed to make only 20% of their investments in under-construction projects. The rest will have to be invested in completed, revenue-generating infrastructure projects. Such trusts are expected to help unlock tied-up capital of developers and attract foreign capital.
In Union Budget 2015-16, the finance minister exempted the capital gains tax on sponsors at the time of listing of units of InvITs. In Union Budget 2016-17, distributions made from special purpose vehicles to InvITs were exempt from the dividend distribution tax.

Additionally, the Union budget (FY21) announcement of scraping dividend distribution tax (DDT) and shifting the taxation of such payouts to investors would prove to be a negative for InvITs. Our interactions with market participants, however, indicate that given this could hurt asset monetisation plans esp. in the roads sector, the government may create a carveout for InvITs to allow them to continue with the earlier regime.

4. State Roads

4.1. Review and Outlook of State Road

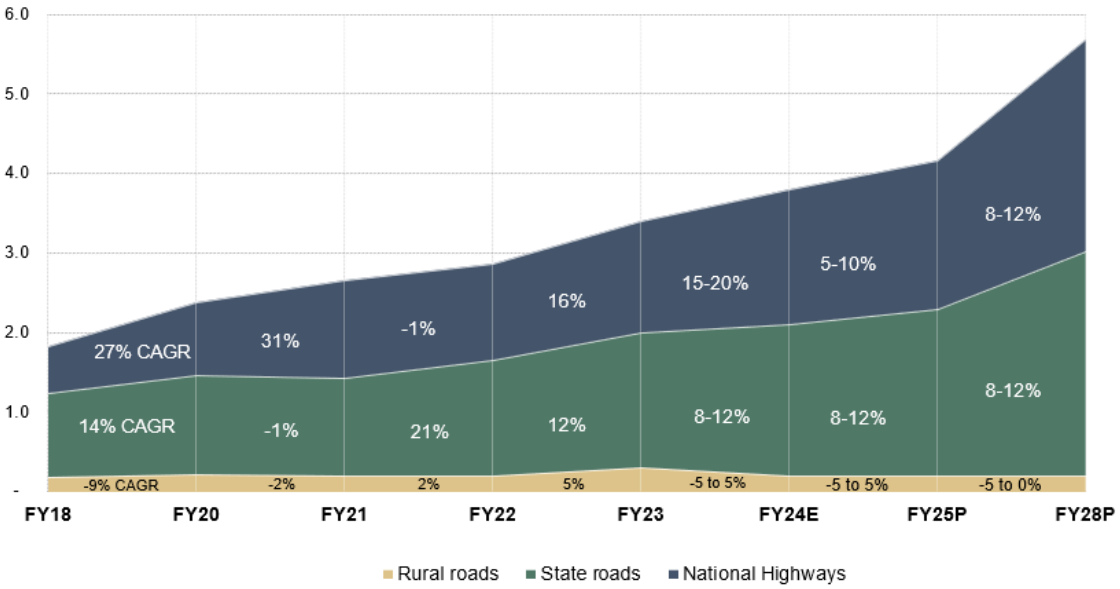
State road capex to continue its growth this fiscal, albeit at a slightly lower pace

CRISIL MI&A's analysis of state road budgets indicates that state road capex forms 45-50% of the sector. State capex on roads & highways sector remained flattish in fiscal 2021 due to constrained state funds. On this low base, it grew by 21% in fiscal 2022 and is estimated to have further grown by 10-13% in fiscal 2023 largely in line with the growth in budgetary outlay. Subsequently, growth is expected to moderate slightly to 8-12% over the next 2 years.

Our interactions with market participants indicate that state road projects funded by external agencies such as World Bank or ADB or have private/bank funding such as Expressways under UPEIDA have not had much impact due to COVID-19, as compared to state-funded projects.

State road capex to witness slight moderation in growth on the high base of last fiscal

(Rs trillion)



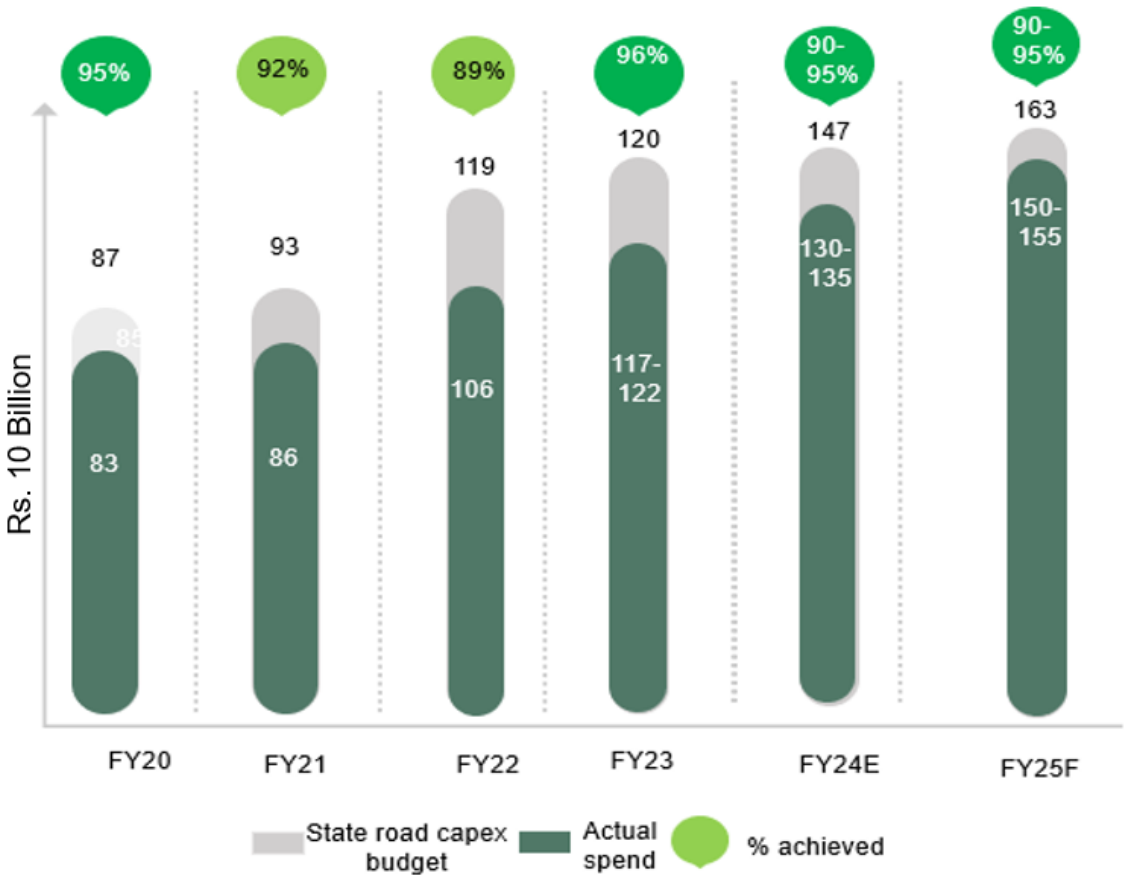
P: Projected
Source: State budget documents, CRISIL MI&A Consulting

State roads, which include highways, major district roads and rural roads that do not come under the purview of the Pradhan Mantri Gram Sadak Yojana, constitute over 20% of the country's road network and handle ~40% of road traffic. These play an important role in the economic development of mid-sized towns and rural areas, and aid industrial development by enabling the movement of raw materials and products to and from the hinterland.

As per CRISIL MI&A's analysis of the budgets of top 15 states that account for 85% of state road capex, in fiscal 2024, the budgeted capital outlay on roads is higher by 9% vis-à-vis the revised estimated (RE) of fiscal 2023 while it is 17% higher than the fiscal 2023 budgeted estimates (BE).

The average achievement ratios, i.e. actual spends over the Budgeted Estimates, is in the range of 90-95%. Fiscal 2023 achievement ratio is likely to be largely in line with historical trend and hence, the actual spend is likely to be in the range of Rs 117-120 thousand crores. Due to the higher budgeted expenditures on roads in fiscal 2024, the actual expenditure is expected to go up to Rs 130-135 thousand crores. However, given the high fiscal deficits of some of the constituent states, there is a downside risk to this estimate.

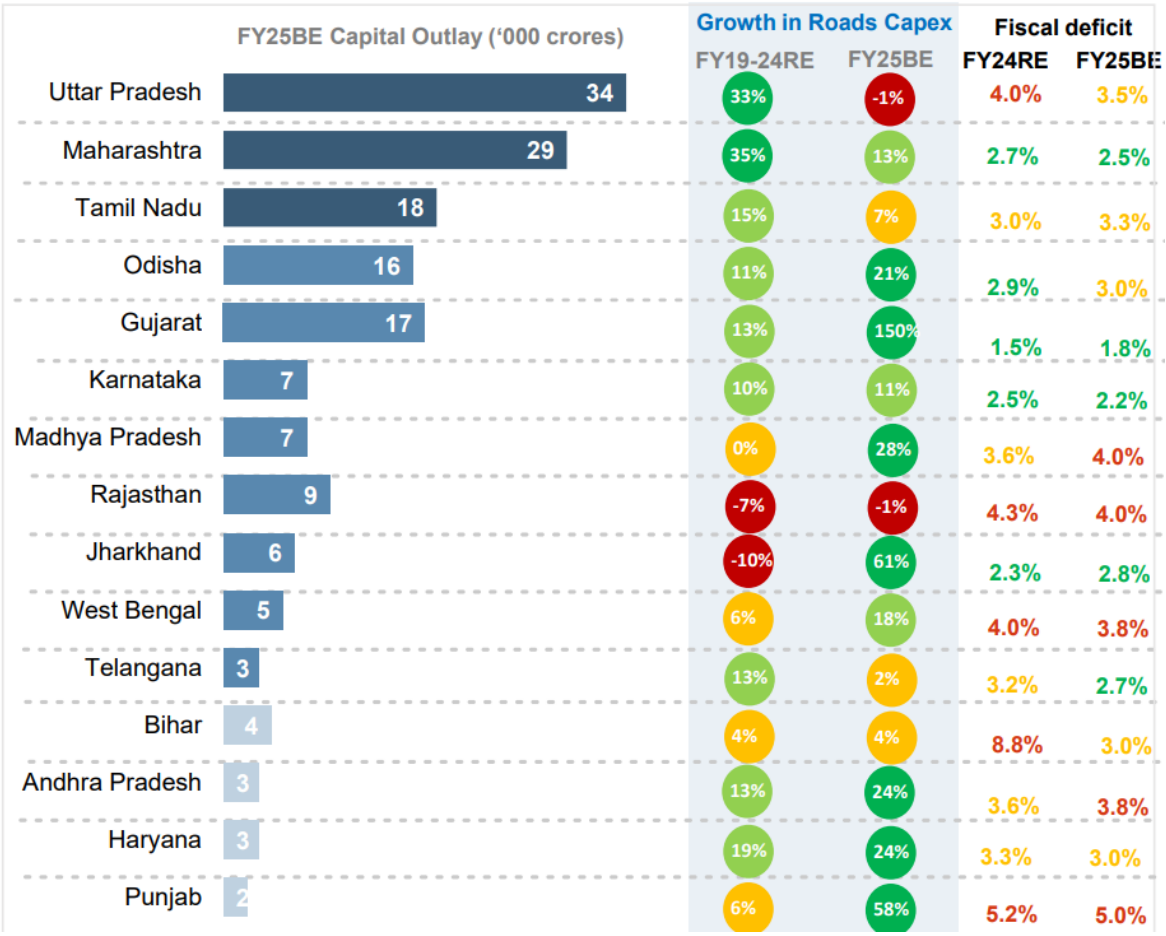
FY25 budgets for top 15 states at 11% on-year, actual expenditure likely to be 15% higher



Note: E: Estimated; State budget data for 15 states that account for 85% of total state road capex outlay
Source: State budget documents, CRISIL MI&A Consulting

Looking at the state-wise expenditures on the roads & highways sectors, it is evident that the top spenders on roads & highways sector have budgeted for higher capital outlay this fiscal as well. The top 3 states - Uttar Pradesh, Maharashtra & Tamil Nadu together account for close to 50% of the total state outlay on the roads & highways sector. On the other hand, the top 5 states together account for 70% of the total state capital outlay on the roads & highways sector. Given these states have relatively strong fiscal deficit profiles as well, the actual expenditure by these states is also likely to be high leading to new investment opportunities.

Traditional top road spenders have budgeted for high capital outlay this fiscal as well

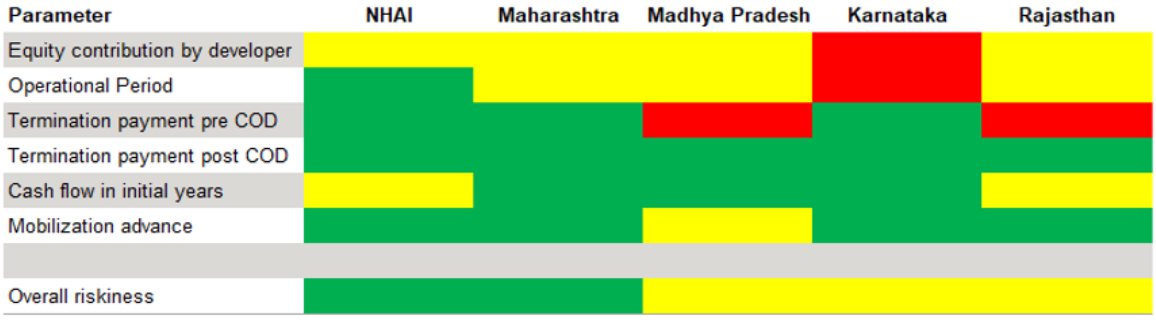


Note: Fiscal deficit: <3% green, 3-3.6% yellow and >3.6% red
Source: NHAI, MoRTH, State budget documents, PMGSY, CRISIL MI&A Consulting

NHAI vs state HAM

Few states such a Maharashtra, Madhya, Karnataka and Rajasthan have implemented the HAM model in awarding of state highway projects. Maharashtra's model is similar to that of NHAI, while those of Madhya Pradesh, Karnataka & Rajasthan.

Maharashtra's HAM similar to NHAI's model



Source: State budget documents, CRISIL MI&A Consulting

State roads financed by state governments, private participation in state-level HAM projects, a monitorable

State roads are largely financed through budgetary allocations by respective state governments. These are supplemented by funds from the National Bank for Agriculture and Rural Development (Nabard), Housing and Urban Development Corporation Ltd, Rural Infrastructure Development Fund, and the state's portion of Central Road Fund (CRF).

State governments will finance most state road projects (via budgetary allocation, external assistance, and CRF). Some states have a favourable policy framework to attract private participation. Going forward, the share of private participation in state roads is expected to be at 12-15% as the success of the HAM projects introduced across various states are monitorable.

Budgetary support and lender comfort — key success factors for states

	NHAI	Maharashtra	Madhya Pradesh	Karnataka	Rajasthan

Central assistance to state roads

State roads come under the jurisdiction of the respective state governments. However, the central government may provide financial assistance to state governments through various schemes for the development of the road network. The responsibility of awarding contracts for road development is entrusted with two state government divisions, namely, the PWD and Road Development Corporation (RDC). Generally, cash contracts are awarded by the state PWDs, while BOT-annuity and BOT-toll contracts are awarded by state RDCs.

- The central government has set up the CRF to provide financial assistance to state governments for road development and railway safety works within the states.

OUR BUSINESS

Some of the information in this section, including information with respect to our plans, strengths, and strategies, contain forward-looking statements that involve risks and uncertainties. You should read "Forward Looking Statements" on page 17 for a discussion on the risks and uncertainties related to those statements and also "Risk Factors", "Audited Special Purpose Combined Financial Statements", "Projections of Revenue From Operations and Cash Flow from Operating Activities" and "Discussion and Analysis by the Directors of the Investment Manager of Financial Condition and Results of Operations and Cash Flows of the Project SPVs of the Trust" on pages 63, 425, 524 and 293, respectively, for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, and references to a particular Fiscal are to the twelve months ended March 31 of that year. Unless otherwise stated or the context requires otherwise, the financial information included herein is based on our Audited Special Purpose Combined Financial Statements included in this Placement Memorandum. For further details, please see the section "Audited Special Purpose Combined Financial Statements" on page 425.

Unless otherwise stated or the context requires otherwise, references in this section to "we", "our" or "us" are to Roadstar Infra Investment Trust along with the Project SPVs. However, for the purpose of the Audited Special Purpose Combined Financial Statements, references to "we", "us", and "our" refers to the Project SPVs. We have included various operational and financial performance indicators in this section, some of which may not have been derived from our Audited Special Purpose Combined Financial Statements and which may not have been subject to an audit or review of the auditors. The manner in which such operational and financial indicators are calculated and presented, and the assumptions and estimates used in such calculations, may vary from that used by other entities in the business similar to ours. Eligible Creditors are accordingly cautioned against placing undue reliance on such information in making a decision to participate in the Unit Distribution and must evaluate such information in the context of the Audited Special Purpose Combined Financial Statements.

Unless stated otherwise or the context otherwise requires, industry and market data used in this section has been obtained or derived from the CRISIL Report, publicly available information as well as industry publications and sources, including from various government publications and websites. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed, and their reliability cannot be assured. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Eligible Creditors must rely on their independent examination of, and should not place undue reliance on, or base their decision to participate in the Unit Distribution solely on this information.

Overview

Unit Distribution and Trust Formation Overview

The Union of India, acting through the Ministry of Corporate Affairs, had filed a company petition under sections 241 and 242 of the Companies Act, 2013 against the IL&FS Group before the NCLT on the grounds of, *inter alia*, that the affairs of the IL&FS Group were being conducted in a manner prejudicial to public interest. Subsequently, the NCLT directed suspension of the then existing board of directors of IL&FS and constitution of a new board of directors of IL&FS comprising the nominees of the Ministry of Corporate Affairs (the "**New Board**"). The New Board, undertaking steps for designing and implementing a fair and orderly resolution of the outstanding debt of the entire IL&FS Group, and for the purposes of resolution of certain portion of the debt of ITNL proposed the setting up of an infrastructure investment trust.

Consequently, Roadstar Infra Investment Trust as sponsored by Roadstar Infra Private Limited, was established with the objective of owning, operating and investing in infrastructure projects in India, directly or indirectly, and is registered under the InvIT Regulations.

The Trust has acquired each of the Project SPVs. Please refer to the section "*Formation Transactions in relation to the Trust*" on page 26 for more information in relation to the shareholding of the Trust in the Project SPVs. The proposed Unit Distribution will be in accordance with (i) the Resolution Framework as approved by the NCLAT vide its order dated March 12, 2020 and/or any other appropriate judicial authority and in terms of the interim distribution as approved by the NCLAT vide its order dated May 31, 2022 and (ii) a distribution plan setting out the details and manner of distribution of, among other assets, the Units issued by the Trust as may be approved by the board of directors of IL&FS.

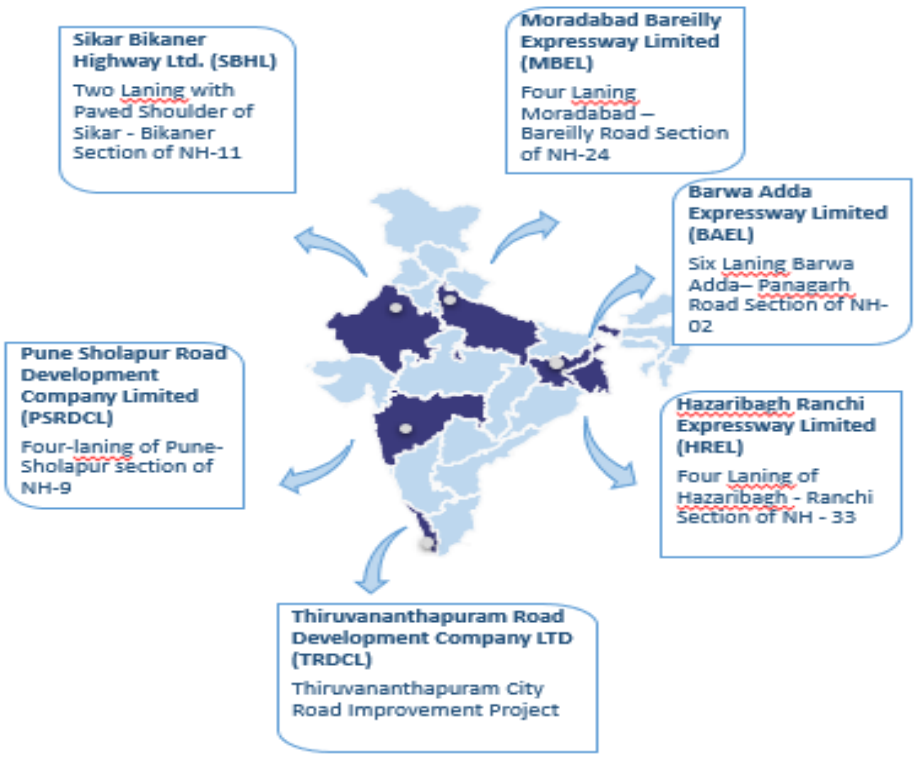
For more details in relation to the Resolution Framework and the holding of the Trust in the Project SPVs, please refer to sections "*Unit Distribution Background*" and "*Formation Transactions in relation to the Trust"* on pages 389 and 26, respectively.

Business Overview

The Trust is established with the objective of owning, operating and investing in infrastructure projects in India, directly or indirectly, and is registered under the InvIT Regulations. The Trust, through its Project SPVs, together operates 6 road assets, aggregating to 685.16 kms, located across 6 states in India.

The Project SPVs had a weighted average residual concession life (weighted on the basis of residual life-time pre-MM EBITDA) of 13.54 years as on March 31, 2024 and a weighted average operating history (weighted on the basis of Fiscal 2024 estimated pre-MM EBITDA, assuming COD and appointed date as the beginning date for BOT/DBFOT assets) of 9.19 years as on March 31, 2024.

The map below sets forth the location of our projects in the Project SPVs:



The tables below set forth an overview of the Project SPVs:

S. No.	Relevant Project SPV	Project length and number of lanes	State(s)	Residual Life (in years, as of September 30, 2024)	Model	Actual Revenue from Toll Fee / Annuities in FY 2024 (in ₹ million)
1.	Hazaribagh Ranchi Expressway Limited	73.50 kms 4 lanes	Jharkhand	3.82 years	Annuity	702.02
2.	Moradabad Bareilly Expressway Limited*	121.00 kms 4 lanes	Uttar Pradesh	11.17 years	Toll	3,390.09
3.	Pune Sholapur Road Development Company Limited*	102.08 kms 4 lanes	Maharashtra	6.79 years	Toll	2,165.67
4.	Sikar Bikaner Highway Limited*	237.58 kms 2/4 lanes	Rajasthan	13.38 years	Toll	826.02
5.	Thiruvananthapuram Road Development Company Limited**	28.12 kms (excluding phase I**) 2/3/4/6 lanes	Kerala	Phase II- 2.39 years Phase III- 5.39 years Phase IV-6.67 years	Annuity	143.95
6.	Barwa Adda Expressway Limited*	122.88 kms 6 lanes	Jharkhand/West Bengal	9.49 years	Toll	2,636.47
Total		**685.16**				**9,864.22**

Notes:
** Extendable based on target traffic as per provisions contained in the respective Concession Agreement*
*** Phase I concession period ended in July, 2022*

In addition to the Project SPVs, the Trust through the Investment Manager may also have the ability to acquire new projects. For further details, please see the sections "*Corporate Governance*" and "*Related Party Transactions*" on pages 138 and 325, respectively. The Investment Manager is responsible for managing the Trust and the Project SPVs, as well as undertaking investment decisions relating to us and our assets. The Investment Manager meets the experience criteria as required under the SEBI InvIT Regulations. As required under the InvIT Regulations, the experience of the Investment Manager in fund management or advisory services or development in the infrastructure sector is above 5 years. Further, the Investment Manager is responsible for defining our strategic direction, including in relation to our future acquisitions, divestments or enhancement of assets. For further details, please see "*Parties to the Trust – The Investment Manager – Roadstar Investment Managers Limited*" – on page 114.

The Trustee, Axis Trustee Services Limited, is a trusteeship company registered with SEBI as a debenture trustee under the Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, as amended. On behalf of our Unitholders, the Trustee is responsible for (a) ensuring that our business objectives and investment policies comply with the provisions of the InvIT Regulations and other applicable law, and (b) monitoring the activities of the Investment Manager (in terms of the Investment Management Agreement) and the Project Manager (in terms of the Project Implementation and Management Agreement). For further details, please see "*Parties to the Trust – The Trustee – Axis Trustee Services Limited*" on page 101.

The Project Manager, Elsamex Maintenance Services Limited, is responsible for the operations and management of the Trust and ensuring compliance with the respective concession agreements and project documents, making arrangements for appropriate maintenance, oversee the progress of development, status of approvals and other aspects of the projects of the SPVs. The Project Manager has been appointed as per the terms of the Project Implementation and Management Agreement. In addition, the Project Manager has entered into operations and maintenance agreements with the respective SPVs for providing operations and management for the SPVs. Neither the Project

Manager nor any of the promoters or directors of the Project Manager (i) is debarred from accessing the securities market by SEBI; (ii) are or have been a promoter, director or person in control of any other company or a sponsor, investment manager or trustee of any other infrastructure investment trust or an infrastructure investment trust which is debarred from accessing the capital market under any order or direction made by SEBI; and/ or (iii) are or have been declared a wilful defaulter by any bank or financial institution or consortium thereof in accordance with the guidelines on wilful defaulters published by the RBI. For further details, please see "*Parties to the Trust – The Project Manager – Elsamex Maintenance Services Limited*" – on page 129.

Each financial year, we intend to distribute a minimum of 90.00% of the net distributable cash flows of the Trust available for distribution to our Unitholders. For further details, please see, "*Distribution*" on page 288.

Our revenue from operations for the six month period ended September 30, 2024, Fiscal 2024 Fiscal 2023, and Fiscal 2022 were ₹5,492.72 million, ₹11,658.14 million, ₹9,940.48 million, and ₹7,631.12 million, respectively. Our profit / (loss) after tax for the six month period ended September 30, 2024, Fiscals 2024, 2023, and 2022 were (₹ 6,858.39 million), (₹108.73 million), (₹1,131.52 million), and ₹995.87 million respectively.

For details of credit ratings obtained by the Trust, please see "*General Information – Credit rating"* on page 100.

Our Strengths

The Investment Manager believes the following to be the key strengths of the Trust:

Large and Diversified Portfolio of Highway Assets

The Trust owns a sizeable initial portfolio consisting of the six Project SPVs. These assets represent a scaled and diversified portfolio, as the Project SPVs consist of 6 highway assets having an aggregate length of 685.16 kms, located across 6 states in India.

Each of the Project SPVs has entered into a long-term concession agreement with either NHAI or a state authority with tenures ranging between 17.50 and 25 years. As of September 30, 2024, the Project SPVs had a weighted average residual concession life (weighted on the basis of residual life-time pre-MM EBITDA) of approximately 13.54 years.

Our assets are operated under different types of concessions, and for the six month period ended September 30, 2024 and the fiscal years ending March 31, 2024, March 31, 2023, and March 31, 2022, revenue from toll assets represented 83.22%, 77.36%, 85.23%, and 90.36% of our combined revenue and 96.52%, 95.49% 93.91%, and 91.50% of the combined EBITDA, while revenue from annuity assets represented 3.99%, 6.02% , 7.94%, and 9.64% of our combined revenue and 3.49%, 4.51% , 6.09%, and 8.50% of the combined EBITDA, respectively.

Sizeable portfolio of mature and revenue generating assets

As of September 30, 2024, the Project SPVs had a weighted average operating history (weighted on the basis of Fiscal 2024 estimated pre-MM EBITDA, assuming COD and appointed date as the beginning date for BOT/DBFOT assets) of 9.19 years.

4 out of 6 Project SPVs are Toll Assets with an average operational life of 18.94 years. The toll assets contribute 96.51% of the combined EBITDA and has grown at CAGR of 13.13% over the last three years and at a CAGR of 9.26% over the last 5 years.

Skilled and experienced management team

The Investment Manager is led by a management team with vast experience in the road sector. The Investment Manager's management team consists of experienced personnel in the top management and key strategic positions having over 10-15 years' experience in operations of road projects, fund raising and fund management, finance and accounting, and regulatory compliance. In addition, the board of directors of the Investment Manager comprises of professionals having experience of serving in senior management roles, large multinational banks, regulatory bodies, and government institutions.

The vast experience of the management team of the Investment Manager shall enable the Investment Manager to employ a business strategy appropriate for the Trust, and assist the Investment Manager in areas of governance, engineering and operations.

In house operation and maintenance teams having rich and hands on experience with a consistent track record of managing some of the marquee projects in the infrastructure space.

The Investment Manager and the Project Manager have adequate experience in road engineering, design, construction, operation & maintenance of road and highway projects. The Project Manager is currently maintaining a road portfolio of 17 assets encompassing 1,167 kms (4,813 lane kms). The Project Manager is collecting toll on behalf of respective authorities by deputing suitable manpower in 22 toll plazas comprising a cumulative of 210 toll lanes. Further, the Project Manager has in-house expertise on Electronic Toll Collection System (ETC), highway traffic management systems and integrated tunnel control systems and is currently operating 25 toll plazas with 200 toll lanes, highway traffic management systems at 3 road projects with a total length of 296 kms and integrated tunnel control system at one tunnel project of 9 kms.

The current portfolio of projects in the Trust are part of the portfolio of assets developed by ITNL. ITNL has a strong presence in the road infrastructure sector and credited with having developed some marquee projects like the longest road tunnel project in India, first city roads projects under PPP in the state of Kerala and having developed the metro projects in Gurgaon under PPP.

Promising sector with strong fundamentals and supportive government policies.

As per the CRISIL Report, the roads sector in India registered a strong pace of constructions by NHAI, growing 6,003 km (16.4 km per day) in fiscal 2023 from 3,071 km (8.4 km per day) in fiscal 2018. The investments in the roads and highways sector rose from ₹1.7 trillion in Fiscal 2018 to ₹2.9 trillion in Fiscal 2022, registering a 1.7 times growth. Additionally, India's passenger traffic logged at a CAGR of about 8.00% from around 165.00 million in Fiscal 2017 to around 209.00 million in Fiscal 2020. In addition to the rapid growth in the road sector, the Government of India has initiated various policies and programmes for the enhancement of the road sector in India.

The Trust operates in the road sector which we believe is a strategically important sector for the Indian Government in its focus for the development of infrastructure in the country. As evidenced in the recent past, the Indian Government has undertaken various initiatives in the road sector including the construction and development of various large expressway projects, which we believe shall provide growth opportunities to the Trust in future.

Transfer of assets into the Trust pursuant to NCLT orders in line with Resolution Framework for the IL&FS Group, by NCLAT in March 2020.

The transfer of Project SPVs to the Trust is a part of the resolution efforts undertaken by the New Board of IL&FS under the Resolution Framework approved by the NCLAT. The Project SPVs were transferred to the Trust pursuant to NCLT Order which provides a title which is free and clear from all encumbrances, liens, security interest and third party claims (including any statutory or tax claims).

Pursuant to a share purchase agreement dated October 11, 2024, the Trust has acquired 243,500,000 Equity Shares representing 100.00% of equity stake of BAEL from IL&FS Transportation Networks Limited. In addition, pursuant to a deed of assignment dated October 11, 2024 and a resolution passed by the IM Board on October 14, 2024, IL&FS Group lenders of BAEL, namely, Infrastructure Leasing & Financial Services Limited, IL&FS Financial Services Limited, Elsamex Maintenance Services Limited and IL&FS Transportation Networks Limited have assigned their receivables (including resolution process cost) in BAEL to the Trust being discharged by way of issue of Units aggregating to ₹6,768,570,500 and balance sum in cash. .

For further details on the market opportunity for the road infrastructure industry in India, please see the section "*Industry Overview*" on page 153.

Business Strategies

The Investment Manager believes the following to be the key strategies of the Trust:

Active asset management to drive organic growth

The Investment Manager will employ an active asset management strategy in the existing assets to drive growth of the portfolio. In particular, the Investment Manager will seek to maintain or improve the Project SPVs net incomes and free cash flows by, among other initiatives, minimizing revenue leakages, formulating and adopting policies and procedures and structuring investments to address regulatory considerations. The Project Manager will continue to assist the Investment Manager by carrying out the operations, management and maintenance of the projects in accordance with the relevant concession agreement and the Project Implementation and Management Agreements and by procuring, operating and maintaining the relevant project's toll management systems, improving the effectiveness of routine and major maintenance activities and instituting controls on administrative expenditures and overheads.

Calibrated expansion of the portfolio

The Investment Manager also intends to expand the portfolio of the Trust by acquiring further assets that adhere to certain asset selection criteria, which includes access to important locations in the vicinity, connecting roads, industrial and manufacturing hubs, connectivity with raw materials, ports, and also evaluating competing modes of transportation.

The Investment Manager intends to expand the portfolio without compromising on the operation and management of the existing Project SPVs while providing attractive cash flows and yields, and opportunities for future income and capital appreciation for our Unitholders.

Implementing prudent capital management policies

The Investment Manager intends to institute and implement a capital management strategy that is consistent with its objective of maximizing distributions to our Unitholders while also generating consistent total returns. To achieve these objectives, the Investment Manager will aim to ensure an efficient cost of capital and an optimal capital structure of the Trust and the Project SPVs to maximize cash distribution to Unitholders while also retaining adequate flexibility to acquire assets in the future.

Pursuant to the Unit Distribution, the Trust's total consolidated borrowings are expected to be less than 49.00% of the total value of the Trust's consolidated assets, in compliance with the InvIT Regulations.

Structure of Roadstar Infra Investment Trust

The Roadstar Infra Investment Trust was settled on October 6, 2020 in accordance with the provisions of the Indian Trusts Act, 1882, and the Trust is registered with SEBI as an InvIT pursuant to the InvIT Regulations. The Trust's principal investment objectives are to carry on the activities of, and to make investments as an infrastructure investment trust, as permissible in terms of the InvIT Regulations and in accordance with the InvIT documents, to the extent applicable. For details on the Unit Distribution and Trust Formation, see "*Our Business - Unit Distribution and Trust Formation Overview*" on page 207 and for more details on the investment objectives, see "*Overview of the Trust – Investment Objectives"* on page 23.

Operations and maintenance

Under the concession agreements, the Project SPVs are required to operate and maintain the project highway in accordance with the concession agreement either by itself, or through an O&M contractor. Typically, the operation and maintenance obligations include:

(i) permitting safe, smooth and uninterrupted flow of traffic during normal operating conditions;
(ii) collecting and appropriating toll, where applicable;

(iii) minimizing disruption to traffic in the event of accidents or other incidents affecting the safety and use of the project highway by providing rapid and effective response and maintaining liaison procedures with emergency services;
(iv) undertaking routine maintenance including prompt repairs of potholes, cracks, joints, drains, line markings, lighting and signage;
(v) undertaking major maintenance such as resurfacing of pavements, repairs to structures, repairs and refurbishment of tolling system and hardware and other equipment;
(vi) the protection of the environment and the provision of equipment and materials; and
(vii) maintaining a public relations unit to interface with and attend to suggestions from concerned authorities and law enforcement agencies to preserve the legal right of way on the highway.

Toll collection system and operations

Electronic toll collection

The electronic toll collection ("**ETC**") system based on radio frequency identification ("**RFID**") technology gained more widespread adoption following an Indian transport ministry directive in January 2019, which mandated that all user fee plazas be made ETC compliant. The GoI has also made FASTag at toll plazas on national highways mandatory with effect from February 16, 2021.

Average toll collection across all toll plazas on the Project SPVs in the month of January 2025 had close to or more than 98.00%ETC collection rate.

Cash

With effect from, February 16, 2021, all vehicles plying on national highways were mandated to pay toll only through FASTAG mechanism and any user paying toll in cash are subject to a penalty of 100.00% of the toll amount as per NHAI guidelines.

Monitoring

Toll collection

The electronic toll collection system collects and stores traffic and payment data through system generated reports, thereby, reducing the need for manual operation. The electronic toll collection system consists of revenue collection software, an automatic barrier gate, lane monitoring cameras, along with fully automatic vehicle counting-cum-classifier, RFID readers/antennas, a barcode reader validating the ticket and authenticating the vehicle class, communication channels and traffic control equipment. All our toll plazas are equipped to process such transactions through suitable security mechanisms, which ensures the communication link between the acquirer banks and the toll plaza.

For identifying categories of vehicles and to charge an appropriate toll rate, automatic vehicle identification based on automatic vehicle classification and counting enables collection of variable amounts of tolls depending on the class of motor vehicles and serves as a traffic information system. Certain Project SPVs also use weigh-in-motion technology (Medium Speed Weigh In Motions (WIMs)) for projects where weight-based toll collection is allowed. The weight based tolling systems are integrated with the fully automatic system for detection of the gross vehicle weight of the vehicles approaching the toll booth.

There is also a back-up power supply system in each lane, toll plaza and server room to ensure that there is no interruption to power supply at the toll plazas in order to maintain a stable power supply for critical operations of toll management system ("**TMS**"). Servers used in the toll collection systems at the toll plazas are capable of real-time uploading of transaction data from TMS, which would allow the Project SPVs to collect variable amounts of tolls depending on the class of motor vehicles.

Only authorized persons have access to the toll collection systems and its servers. The Project SPVs are responsible for operating the toll collection system at their toll plazas and taking regular preventive and corrective measures to maintain such systems.

Regular review of maintenance and construction works

The Project SPVs are maintaining/submitting the Daily Progress Reports /Weekly Progress Reports (WPR) and Monthly Progress Reports (MPR). Further, the Independent Engineer appointed under the provisions of the respective concession agreement also monitors the maintenance activities and conducts inspections at periodic intervals. The PM team also conducts regular site visits to monitor the maintenance of the roads and prepares reports in that regard. Further, the IM operations team conducts site visits at periodical intervals to monitor the upkeep and maintenance of the Project Assets.

Traffic and motorway assistance services

Traffic assistance

Each Project SPV is required to carry out regular patrolling and regulate and maintain traffic order within their projects. Route patrol vehicles continuously move along the project stretch to help regulate traffic and carry out surveillance activities. Helpline numbers are also displayed along the projects for communication between road users and the control room in case of emergencies, and the Project SPVs are required to maintain the emergency telephone system.

In the case of a vehicle breakdown, such vehicles shall be removed to the truck lay bay, if possible, by using tow crane after legal formalities are complied with. The patrolling team shall report to the personnel in-charge of any accidents or road blockages and the safety in-charge shall take necessary actions to shift the injured persons to nearby hospitals and to clear the road blockage. The patrolling vehicle supervisor with its limited number of signages is required to divert the vehicles for any diversions, if required. In case of any traffic accident and receipt of such information, an ambulance shall be sent to such location and the injured shall be shifted to nearby hospital.

Safety Measures

Under each of the concession agreements, the concessionaire is obligated to abide by certain safety requirements, which include measures such as installing road signs, pavement marking, traffic control devices, enforcement and emergency response. The concessionaire must also abide by, among others, applicable laws and applicable permits, relevant standards and guidelines of the Indian Roads Congress and good industry practice. These safety requirements apply to all phases of construction, operation and maintenance with emphasis on identification of factors associated with accidents and implementation of appropriate remedial measures.

Competition

Competition for the Trust

As all toll revenues depend on toll receipts and are affected by changes in traffic volumes, the amount of revenue generated by the Project SPVs and future toll projects will depend on a number of factors which can influence the level of traffic volume on those particular toll roads, including competition from other roads that operate in the same area, as well as from other modes of transportation (e.g. railways and airplanes).

We believe we face competition from other road operators, financial investors, private equity funds and from other InvITs, in acquiring lucrative concessions for existing and future projects. In respect of opportunities, the Trust will depend on the Sponsor and Investment Manager, which face competition from both domestic and international entities in the roads and highways infrastructure sector, as most of the contracts awarded by the Government and state governments are awarded on a competitive bidding basis and subject to satisfaction of other prescribed pre-qualification criteria. While service quality, technological capacity and performance, health and safety records and personnel, as well as reputation and experience, are important considerations in award decisions, price is a major factor in most tender awards.

Management

The Trust will be managed, upon the listing of the Units on the Stock Exchanges, by qualified personnel of the Investment Manager. These personnel will have management and operational experience in the roads and highways sector. For further details about the Investment Manager, please see, "*Parties to the Trust – The Investment Manager – Roadstar Investment Managers Limited*" on page 114.

The Investment Manager, in consultation with the Trustee, currently appoints the majority of the members of the board of directors of each of the Portfolio Assets, in accordance with the requirements prescribed under the InvIT Regulations.The Project SPVs' boards of directors have also formed committees, as required under the Companies Act, 2013 and rules made thereunder. For details, please see the section "*Corporate Governance*" on page 138.

Seasonality

Traffic volume tends to decrease during the monsoon season and conversely tends to increase during holiday seasons. While the northern parts of India experience monsoon rains during the period from June or July until September or October every year, the southern parts of India, especially coastal parts of Andhra Pradesh, experience monsoon rains even during the months of October to December. In some projects, the traffic seasonality also depends on agricultural produce and local cultural/religious events. The monsoon season may also restrict the Trust's ability to carry on activities related to its operation and maintenance of toll roads. For further details on risk associated with seasonality, please see, "*Risk Factors – Risks Related to Our Business and the Concession Agreements*" on page 63.

Insurance

The Trust's operations will be subject to hazards inherent in providing operation and maintenance services, such as risk of equipment failure, work accidents, fire, earthquake, flood and other force majeure events. This includes hazards that may cause injury and loss of life, damage and destruction of property, equipment and environmental damage. The Project SPVs' principal types of insurance coverage include, amongst others comprehensive or commercial general liability industrial all risk insurance, fire, terrorism, burglary and electronic equipment policy to the extent applicable to their operations. The Investment Manager and the Trustee confirm that the amount of insurance that each Project SPV presently maintains represents an adequate and appropriate level of coverage required to insure its business and operations and assets, and is in accordance with the relevant concession agreement and industry standards in India and as available on commercial and reasonable terms and will perform regular assessment on the adequacy of insurance coverage on a yearly basis.

Employees

As of September 30, 2024, the Project SPVs had no on roll employees.

Properties

The Investment Manager's registered office is located at The IL & FS Financial Centre Plot No. C 22 G Block Bandra Kurla Complex, Bandra, Mumbai, Maharashtra, India, 400051. The Investment Manager shall be conducting all its administrative and reporting activities from the registered office. The premises are taken on lease by the Investment Manager and the Investment Manager does not own any property.

Under the terms of the concession agreements, title to the roads and related infrastructure such as toll plazas and monitoring posts remains with NHAI or the state authority, as relevant, for the duration of the concession period. During the concession period, the Project SPVs are licensed to use the roads and the related infrastructure which constitute the concession assets and the Project SPVs are entitled to an income from the collection of tolls. Upon the expiration of a concession period, each Project SPV is required to transfer possession of its concession assets to the NHAI or concerned state authority, as relevant.

Summary of Our Toll Roads

The details of the toll road Project SPVs are as follows:

Particulars	PSRDCL	MBEL	BAEL	SBHL
Project stretch	Pune-Solapur section of NH-9 from km 144.400 to km 249	Moradabad-Bareilly section of NH-24 from km 148 to km 262	Barwa adda-Panagarh section of NH-2 from km 398.240 to km 521.120 including Panagarh bypass	Sikar-Bikaner section of NH-11 from km 340.188 of NH 11 to km 557.775 of NH-11 via Sikar bypass and Bikaner bypass from km 553.869 of NH-11 to km 267.325 of NH-89
Geographic location (state)	Maharashtra	Uttar Pradesh	Jharkhand/West Bengal	Rajasthan
Number of lanes	4	4	6	2/4
National Highway # (New | Old)	NH-65| NH-09	NH-24	NH-02	NH-52 | NH-11| NH62
Project length (km)	102.08 km	121 km	122.88	237.578
Number of toll plazas	2	2	2	4
Toll plazas	Warwade and Sawaleshwar	Niyamatpur Ekrotia and Thriyakhetal	Beliyad and Banskopa	Rasheedpura; Tidiyasar; Lakhasar and Udayramsar
Appointed date	September 28, 2011	December 4, 2010	April 1, 2014	February, 18, 2013
Calendar year of acquisition	2023	2021	2024	2022
Type of acquisition	Sale	Sale	Harmonious Substitution	Sale
Commercial operations date (COD) [(1)]	Provisional COD: August 23, 2013 Final Completion: February 3, 2016	Provisional COD: January 6, 2015; November 4, 2015 Final Completion: July 30, 2019	April 1, 2014 (Appointed date)	Provisional COD: October 10, 2015; August 16, 2016; and April 5, 2018
Tolling history (as of September 30, 2024) (in years)	11.11	9.74	10.51	8.98
End of concession[(2)]	July 20, 2031	December 4, 2035	March 31, 2034	February 18, 2038
Residual life (as of September 30, 2024) (in years)	6.79	11.17	9.49	13.38

Notes:

(1) As per the provisions of the concession agreement, the commercial operations date (COD) of the project highway shall be the date on which the independent consultant has issued the final completion certificate or the provisional certificate certifying completion of the project highway as per the relevant terms of the concession agreement. The project highway shall enter into commercial service on COD whereupon the concessionaire shall be entitled to demand and collect fee as per the relevant provisions of the concession agreement.

(2) Concession agreements provide for an extension or reduction of the concession period based on certain factors, including actual traffic volumes on specified target dates.

Projected Revenue for Toll SPVs:

The details of the projected revenue for the toll road Project SPVs based on the Traffic Reports for the last three fiscal years are as follows:

(in ₹ million)

Fiscal Year	PSRDCL	MBEL	BAEL	SBHL
Based on Traffic Reports prepared in April 2024				
FY 2026	2,623.95	4,103.52	3,112.59	1,017.45
FY 2027	2,882.21	4,579.72	3,432.41	1,136.01
FY 2028	3,158.15	5,044.85	3,790.12	1,257.70
Based on Traffic Reports prepared in October- November 2024				
FY 2026	2,626.80	3,769.30	3,052.65	974.60
FY 2027	2,899.60	4,127.80	3,373.61	1,093.20
FY 2028	3,190.20	4,612.30	3,739.85	1,221.30

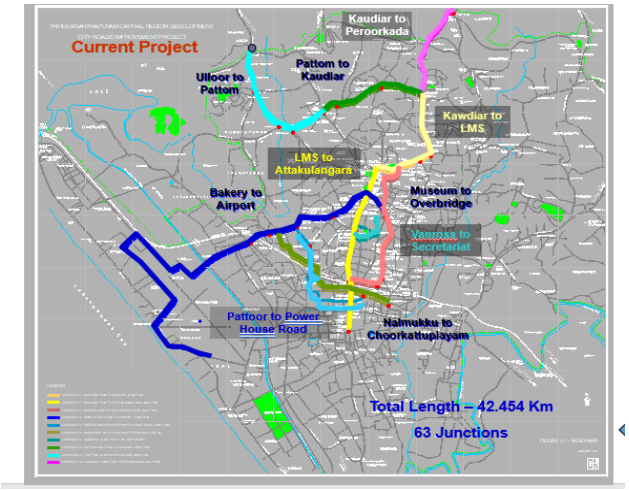
Note: There is an overall reduction in the projection of toll revenue based on the traffic reports prepared in October-November 2024 as compared to the traffic reports prepared in April 2024 for the Valuation Report and preparation of Audited Special Purpose Combined Financial Statements. The variation is 4.03% which is not material and is on account of various factors due to variation in traffic growth, changes in economy growth, reduction in wholesale price index projections and variation in traffic/travel pattern on short term basis. However, the Investment Manager and the Trust expect these variations to normalize over a longer-term period.

In addition to the assets mentioned above, Thiruvananthapuram Road Development Company Limited and Hazaribagh Ranchi Expressway Limited, the two annuity assets also form a part of the Project SPVs.

Description of Annuity Assets

1. Thiruvananthapuram Road Development Company Limited

The TRDCL Project included construction, operations and maintenance of ten corridors and three NH-bypass links aggregating to about 42.38 km in Thiruvananthapuram, Kerala. The final completion certificate was issued on May 8, 2017. Salient features of TRDCL are as follows:



Item	Particulars
Project Length (in kms)	28.12 (excluding phase I*)
Number of Lanes	2/3/4/6 lanes
Appointed Date	Not applicable
Concession Period	15 years from COD
Commercial Operations Date (COD)	Phase II- February 22, 2012 Phase III- February 20, 2015 Phase IV - May 31, 2016
End of Concession	May 31, 2031

Residual Concession Period (as of September 30, 2024)	Phase II- 2.39 years Phase III- 5.39 years Phase IV- 6.67 years
Annual payment receivable (in ₹ million)	236.98
Projected revenue in FY 2026 (in ₹ million)	76.98
Projected revenue in FY 2027 (in ₹ million)	260.17
Projected revenue in FY 2028 (in ₹ million)	66.01

**Phase I of this project was completed on July 4, 2007 and concession period for the same has ended on July 2022. Thereafter, Phase I stretches have been handed back to the concessioning authority.*

In an annuity project model, a fixed amount is paid semi-annually as annuity by the respective concessioning authority pursuant to the applicable concession agreement. Income from the project is thus assured to the extent of the annuity to be collected in accordance with the concession agreement, thus reducing our risk of income fluctuations resulted from changes in traffic volumes. Accordingly, monthly toll revenue collections are not applicable for TRDCL as an annuity project.

Capital Structure

As of September 30, 2024, total equity was negative ₹49.09 million and total liabilities including debt from lenders was ₹798.21 million, out of which ₹764.35 million was debt owed to the Trust.

Land

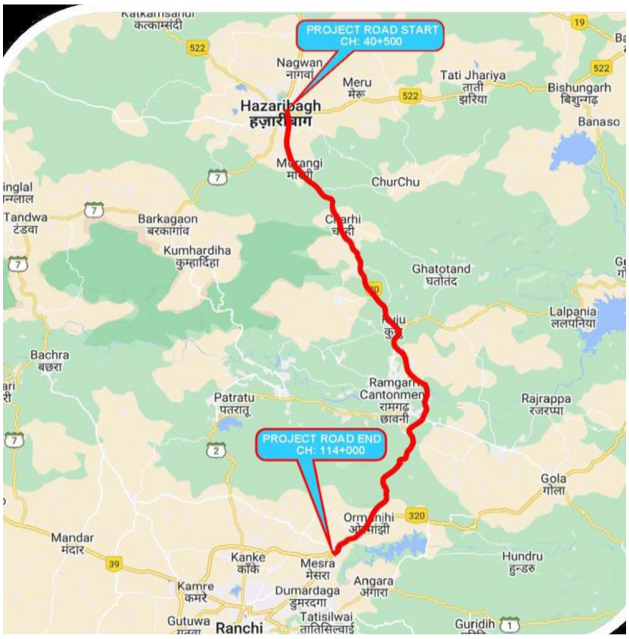
The land that underlies the TRDCL Project highway is owned by Roads and Bridges Division (Thiruvananthapuram), Public Works Department, Government of Kerala.

Ownership Structure

For information about the structure of ownership of the project by the Trust, please see the section "*Formation Transactions in Relation to the Trust"* on page 26.

2. Hazaribagh Ranchi Expressway Limited ("HREL")

The project included constructing and maintaining the 4-laning of the Hazaribagh - Ranchi section of NH-33 from 40.50 km to 114.00 km in Jharkhand on a Build Operate Transfer (BOT) - annuity basis. The final completion certificate was issued on April 1, 2015. Salient features of HREL are as follows:



Item	Particulars
Project Length (in kms)	73.50
Number of Lanes	4 lanes
Appointed Date	August 1, 2010
Concession Period	18 years
Commercial Operations Date (COD)	Provisional COD: September 15, 2012 Final COD: April 1, 2015
End of Concession	July 31, 2028
Residual Concession Period (as of September 30, 2024)	3.82
Annual payment receivable (in ₹ million)	1281.60
Projected revenue in FY 2026 (in ₹ million)	329.38
Projected revenue in FY 2027 (in ₹ million)	234.05
Projected revenue in FY 2028 (in ₹ million)	635.55

In an annuity project model, a fixed amount is paid semi-annually as annuity by the respective concessioning authority pursuant to the applicable concession agreement. Income from the project is thus assured to the extent of the annuity to be collected in accordance with the concession agreement, thus reducing our risk of income fluctuations resulted from changes in traffic volumes. Accordingly, monthly toll revenue collections are not applicable for HREL as an annuity project.

Capital Structure

As of September 30, 2024, total equity was (₹12.92 million) and total liabilities including debt from lenders was ₹ 4,256.97 million, of which ₹ 2,033.36 million was debt owed to the Trust.

Land

The land that underlies the HREL project highway is owned by NHAI.

Ownership Structure

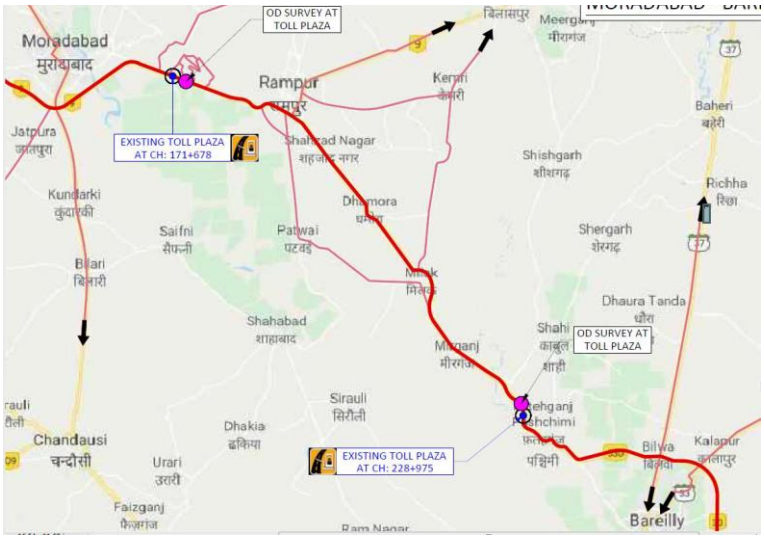
For information about the structure of ownership of the project by the Trust, please see the section "*Formation Transactions in Relation to the Trust"* on page 26.

See "*Summary of the Key Agreements – Summary of Concession Agreements*" on page 227 for a summary of the key terms of the concession agreements entered into by the Project SPVs with the NHAI and state road authorities.

Description of Toll Assets

1. *Moradabad Bareilly Project Project*

On February 19, 2010, the NHAI and MBEL entered into a concession agreement in relation to the Moradabad Bareilly Project. MBEL was engaged to augment a 114 km section of NH-24 between Moradabad and Bareilly in Uttar Pradesh by four-laning on a DBFOT basis. The concession period commenced on December 4, 2010 and the collection of toll began on January 6, 2015. As per the relevant concession agreement, the Moradabad Bareilly Project comprises the section of NH-24 from km 148.00 to km 262.00.



Corridor description

The Moradabad Bareilly Project corridor starts from Moradabad Bypass (km 148.000) and ends at Bareilly Bypass (km 262.00). The length of project road is 121 km. MBEL is a section of NH-24, which runs entirely in the state of Uttar Pradesh.

According to the relevant Traffic Consultant, a majority of the passenger traffic on the MBEL is originating or destined within Uttar Pradesh.

Concession period and revenue sharing arrangement

The NHAI granted MBEL a concession for a period of 25 years for this project. The concession period commenced on December 4, 2010 and is expected to expire on December 3, 2035. MBEL began collecting toll with respect to this project on January 6, 2015. The final completion certificate for this project was issued on July 30, 2019.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume, the concession period shall be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume, the concession period shall, subject to the payment of concession fee, be extended by 1.5% for every 1.00% shortfall, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its option, cause MBEL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, extensions of the concession period, if any, would be capped for a period of up to five years so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires MBEL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

For this project, the target date and target traffic volume in the concession agreement is October 1, 2020 and 30,700 PCUs, respectively.

MBEL submitted the actual traffic calculations on target date to the NHAI for average of three years i.e. one year prior to target date, on the target date and on the first anniversary of the target date. The actual traffic on target date was recorded as 29622 PCU's which is 3.50% lower than the target traffic of 30,700 PCU's. However, the final recommendation for extension in concession period is not yet received from NHAI.

In consideration of the grant of concession, MBEL pays the NHAI a concession fee of ₹1 per annum. Additionally, the NHAI provided MBEL with an outright grant of ₹4433.23 million.

Monthly toll revenue

The toll revenues received from the project for the periods indicated is set out below:

(in ₹ million)

S. No.	Relevant Project SPV	Month ended		
		January31, 2024	December 31, 2024	November 30, 2024
1.	Moradabad Bareilly Expressway Limited	279.26	304.12	317.10

Land

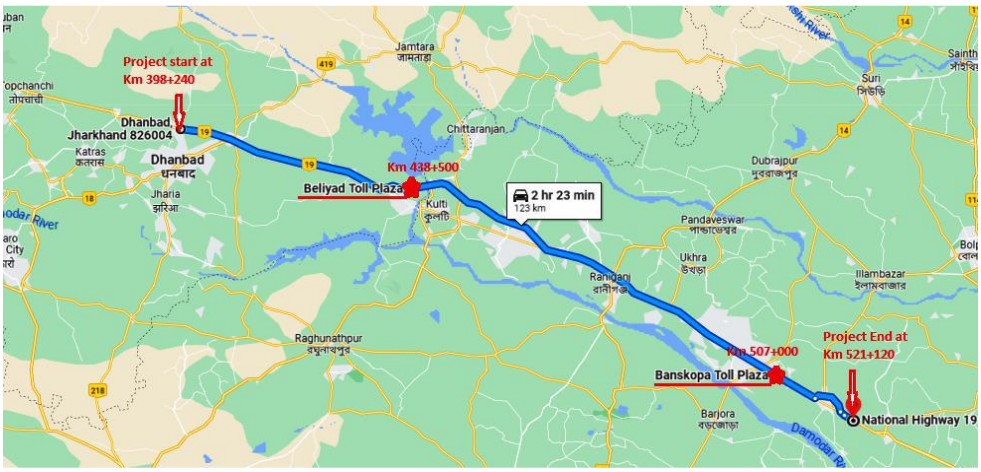
The NHAI owns the land that underlies the Moradabad Bareilly Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, please see the section "*Formation Transactions in relation to the Trust*" on page 26.

2. *Barwa Adda Expressway Limited*

On May 8, 2013, the NHAI and BAEL entered into a concession agreement in respect of the Barwa Adda Project. BAEL was engaged to augment a 122.88 km section of NH-2 between Barwa, Adda and Panagarh in Jharkhand by six laning on a DBFOT basis. The concession period and the collection of tolls commenced on April 1, 2014. As per the relevant concession agreement, the Barwa Adda Project comprises the section of NH-2 from km 398.240 to km 521.120. Further, on January 9, 2025, the NHAI and BAEL entered into a supplementary concession agreement for transfer of accrued claims against NHAI concerning the concession agreement and the BAEL project to the Trust.



Corridor description

The Barwa Adda Project corridor starts from Barwa Adda (Km 398.240) and ends at Bareilly (Km 521.120). The length of project road is 122.88 km. The project road is a section of NH-2, which connects the states of Jharkhand and West Bengal.

According to the relevant Traffic Consultant, a majority of the passenger traffic on the project road is originating from or destined to West Bengal and Jharkhand. In case of freight traffic, more than 65% of the goods traffic is originating

from or destined to West Bengal and Jharkhand States and rest of the traffic is generated from other Northern States like Bihar, UP and rest of India.

Concession period and revenue sharing arrangement

The NHAI granted BAEL a concession for a period of 20 years for this project. The concession period commenced on April 1, 2014 (appointed date) and is expected to expire on March 31, 2034. BAEL began collecting toll with respect to this project on April 5, 2014.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume, the concession period may be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume, the concession period may be extended by 1.5% for every 1.00%, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the NHAI may, at its option, cause BAEL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, extensions of the concession period, if any, would be capped for a period of up to five years so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the NHAI requires BAEL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

For this project, the target date and target traffic volume in the concession agreement is October 1, 2023 and 71,077 PCUs, respectively.

BAEL submitted the actual traffic calculations to the NHAI for average of three years i.e. one year prior to target date, on the target date and on the first anniversary of the target date. The actual traffic on target date was recorded as 42,113 PCU's which is 40.75% lower than the target traffic of 71,077 PCU's. However, the final recommendation for extension in concession period is not yet received from NHAI.

In consideration of the grant of concession, BAEL pays the NHAI a concession fee of ₹1 per annum. Additionally, from the Appointed Date, BAEL is required to pay a yearly premium in the form of an additional concession fee equal to ₹420.00 million as due to the NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year of the concession period, the premium will be determined by increasing the amount of premium in the respective year by an additional 5% as compared to the immediately preceding year.

Monthly toll revenue

The toll revenues received from the project for the periods indicated is set out below:

(in ₹ million)

S. No.	Relevant Project SPV	Month ended		
		January31, 2024	**December 31, 2024**	**November 30, 2024**
1.	Barwa Adda Expressway Limited	277.45	274.56	248.09

Land

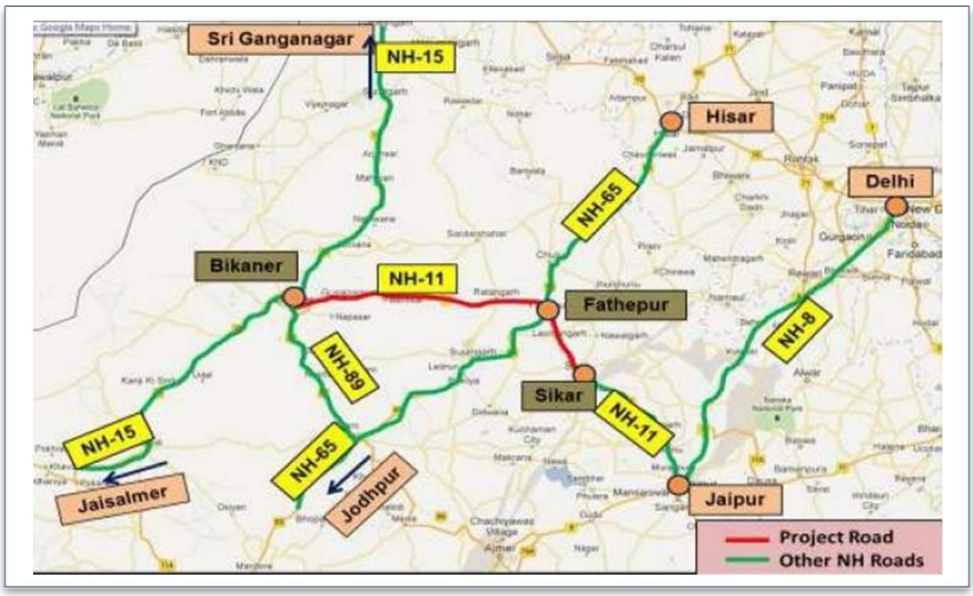
The NHAI owns the land that underlies the Barwa Adda Project.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, please see the section "*Formation Transactions in relation to the Trust*" on page 26.

3. Sikar Bikaner Highway Limited

On June 29, 2012, the Government of Rajasthan and SBHL entered into a concession agreement in relation to the Sikar Bikaner Project. SBHL was engaged to augment the existing road from km 340.188 of NH-11 to km 557.775 of NH-11 via Sikar Bypass and Bikaner Bypass from km 553.869 of NH-11 to km 267.325 of NH-89 on the Sikar-Bikaner section of the NH-11 (approximately 237.578 km) in the State of Rajasthan by two-laning with paved shoulder on a DBFOT basis. The concession period commenced on February 18, 2013 and the collection of toll began on October 10, 2015.



Corridor description

The Sikar Bikaner Project corridor starts from Sikar (km 340.188 of NH-11) and ends at Bikaner (km 267.325 of NH-89). The length of project road is 237.58 kms.

The project road is a section of NH-11 and NH-89, which runs entirely in the State of Rajasthan. The project road section forms an important part of NH-11 which provides important connectivity from Bikaner to Jaipur.

According to the relevant Traffic Consultant, Rajasthan has the highest influence on traffic on the project road. In case of freight traffic, more than 80% of the goods traffic is mainly bound within Rajasthan and rest of the traffic is generates from other Northern States like Haryana, Punjab and rest of India.

Concession period and revenue sharing arrangement

The Government of Rajasthan granted SBHL a concession for a period of 25 years for this project. The concession period commenced on February 18, 2013 and is expected to expire on February 17, 2038. SBHL began collecting toll with respect to this project on October 10, 2015. The provisional completion certificates for this project were issued on October 10, 2015; August 16, 2016; and April 5, 2018.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume, the concession period shall be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume,

provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume, the concession period shall, subject to the payment of concession fee, be extended by 1.5% for every 1.00% shortfall, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in any accounting year, the Government of Rajasthan may, at its option, cause SBHL to undertake suitable capacity augmentation of the project. If capacity augmentation is required, the concession period would be for a period of up to five years so as to yield a post-tax return on equity of 16% per annum. The concession agreement also states that in the event that the Government of Rajasthan requires SBHL to undertake capacity augmentation, there will be no reduction in the concession period pursuant to any other provision of the concession agreement.

For this project, the target date and target traffic volume in the concession agreement is April 1, 2023 and 12,357 PCUs, respectively.

SBHL submitted the actual traffic calculations on target date to the NHAI for average of three years i.e. one year prior to target date, on the target date and on the first anniversary of the target date. The actual traffic on target date was recorded as 10,323 PCU's which is 16.46% lower than the target traffic of 12,357 PCU's. Independent engineer recommended five year extension in Concession period. However, the final recommendation for extension in concession period is not yet received from Authority.

SBHL pays the Government of Rajasthan a concession fee of ₹1 per annum. Additionally, the Government of Rajasthan provided SBHL with an outright grant of ₹2,473.20 million.

Monthly toll revenue

The toll revenues received from the project for the periods indicated is set out below:

(in ₹ million)

S. No.	Relevant Project SPV	Month ended		
		January 31, 2025	**December 31, 2024**	**November 30, 2024**
1.	Sikar Bikaner Highway Limited	79.00	81.84	79.52

Land

The Government of Rajasthan owns the land that underlies SBHL.

Structure of ownership of the project

For information about the structure of ownership of the project by the Trust, please see the section "*Formation Transactions in relation to the Trust*" on page 26.

4. Pune Sholapur Road Development Company Limited

On September 30, 2009, the NHAI and PSRDCL entered into a concession agreement to undertake design, engineering, construction, development, finance and operation & maintenance of four-laning of Pune-Sholapur section of NH-9 from km 144.400 to km 249.000 in the State of Maharashtra under National Highways Development Project Phase III on DBFOT basis.

Corridor description

Project road starts from km. 144.40 (near Indapur in Pune district) and ends at km. 249.00 near Solapur with a length of 102.08 kms. The project road falls under two districts of Maharashtra, namely Pune and Solapur. The important towns and settlements along the project road are Indapur, Temburni, Mohol and Solapur. In addition to the through traffic (interstate traffic), the project stretch provides seamless connectivity between Pune and Solapur.

According to the relevant Traffic Consultant, in Maharashtra, the districts of Solapur (the project road falls), Pune and Mumbai are the districts influencing the traffic more. Impact of other districts are not significant in the case of goods vehicles. The interstate traffic is generated mainly to/from Gujarat in the north and Karnataka, Tamil Nadu and Andhra Pradesh in the south.

Concession period *and revenue sharing arrangement*

The NHAI granted PSRDCL a concession for a period of 20 years for this project. The concession period commenced on September 28, 2011 and is expected to expire on July 20, 2031. PSRDCL began collecting toll with respect to this project on August 31, 2013. The completion certificate for this project was issued on February 3, 2016.

The concession agreement provides that if the actual traffic volume falls short of or exceeds the target traffic volume on the target date, the concession period will be extended or reduced, respectively. As per the concession agreement, in the event the actual average traffic on the target date exceeds the target traffic volume, the concession period shall be reduced by 0.75% for every 1.00% excess in actual average traffic as compared to the target traffic volume, provided that such reduction in the concession period does not exceed 10% of the original concession period. In the event that the actual average traffic on the target date falls short of the target traffic volume, the concession period shall, subject to the payment of concession fee, be extended by 1.5% for every 1.00% shortfall, provided that such extension in the concession period does not exceed 20% of the original concession period. The concession agreement, however, also stipulates that, if the actual average traffic exceeds the design capacity in three accounting year, the NHAI may terminate the concession agreement.

For this project, the target date and target traffic volume in the concession agreement is April 1, 2020 and 36,900 PCUs, respectively.

PSRDCL submitted the actual traffic calculations on target date to the NHAI for average of three years i.e. one year prior to target date, on the target date and on the first anniversary of the target date. The actual traffic on target date was recorded as 31896 PCU's which is 13.56% lower than the target traffic of 36,900 PCU's. However, the final recommendation for extension in concession period is not yet received from NHAI.

In consideration of the grant of concession, PSRDCL pays the NHAI a concession fee of ₹1 per annum. Additionally, the NHAI provided PSRDCL with an outright grant of ₹2,850 million.

Monthly toll revenue

The toll revenues received from the project for the periods indicated is set out below:

(in ₹ million)

SUMMARY OF KEY AGREEMENTS

Summary of Concession Agreements

1. Concession agreement executed between HREL and National Highway Authority of India ("NHAI") dated October 8, 2009 for construction, operation and maintenance of road from Km 40.500 to Km 114 (approximately 71.16 Km) on the Hazaribagh Ranchi section of NH No. 33 on build, operate and transfer ("BOT") basis, for a period of 18 years under NHDP Phase III ("HREL Concession Agreement").

A. ***Grant of Concession***

Subject to the provisions of the HREL Concession Agreement, the applicable laws and applicable permits, NHAI has granted HREL exclusive right, license and authority during the subsistence of the HREL Concession Agreement to construct, operate and maintain the project for 18 years commencing from the appointed date as mentioned in the HREL Concession Agreement.

Subject to and in accordance with the HREL Concession Agreement, the concession grantor shall oblige or entitle (as the case maybe) HREL to:

(i) right of way, access and license to the site for the purpose of and to the extent conferred by the provisions of the HREL Concession Agreement;
(ii) construct the project highway;
(iii) manage, operate and maintain the project and regulate the use thereof by third parties;
(iv) allow and assist NHAI or NHAI's contractors in demanding, collecting and appropriate fee from vehicles and persons liable for payment of fee for using the project highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;
(v) perform and fulfil all the obligations under and in accordance with the HREL Concession Agreement;
(vi) bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of HREL under the HREL Concession Agreement; and
(vii) not assign, transfer or sublet or create any lien or encumbrances on the HREL Concession Agreement or the concession thereby granted or on the whole or any part of the project highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the HREL Concession Agreement or the substitution agreement.

B. ***Annuity***

Subject to the provisions of the HREL Concession Agreement, HREL upon achieving commercial operation date for the project highway and in consideration of HREL accepting the concession and undertaking to perform and discharge its obligation in accordance with the terms, conditions and covenants as mentioned in the HREL Concession Agreement, NHAI has agreed and undertaken to pay to HREL ₹640.80 million **("Annuity")** for each annuity payment period.

C. ***Concession Fees***

In consideration of the grants of concession under the HREL Concession Agreement, concession fee payable by HREL to NHAI shall be ₹1 per year during the term of the HREL Concession Agreement. (**"Concession Fees")**

D. ***Escrow Account***

HREL shall, prior to the appointed date, open and establish an escrow account **("Escrow Account")** and shall deposit the following inflows and receipts into it: i) all funds constituting the financial package; ii) all annuities and any other revenues from or in respect of the project highway, including the proceeds of insurance claims; and iii) all payments by NHAI, after deduction of any outstanding Concession Fees. The nature and scope of the Escrow Account shall be as per the agreement entered into amongst HREL, NHAI, the escrow bank and the senior lenders (**"Escrow Agreement"**).

E. ***Withdrawals during concession period***

HREL shall, at the time of opening of the Escrow Account, give irrevocable instructions, by way of an Escrow Agreement, to the escrow bank instructing that deposits in the Escrow Account shall be appropriated in the following order each month, or at a shorter intervals as necessary, and if not due in a month then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in the month when due:

(i) all taxes due and payable by HREL;
(ii) all payments relating to construction of the project highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;
(iii) operation and maintenance **("O&M")** expenses, subject to the ceiling, if any, set forth in the financing agreements;
(iv) O&M expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the HREL Concession Agreement and certified by NHAI as due and payable to it;
(v) Concession Fees due and payable to NHAI;
(vi) monthly proportionate provision of debt service due in an accounting year;
(vii) all payments and damages certified by NHAI as due and payable to it by HREL;
(viii) debt service in respect of subordinated debt;
(ix) any reserve requirements set forth in the financing agreements; and
(x) balance, if any, in accordance with the instructions of HREL.

HREL shall not in any manner modify the order of payment specified above, except with prior written approval of NHAI.

F. ***Withdrawals upon Termination***

Notwithstanding anything to the contrary contained in the HREL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination be appropriated in the following order:

(i) all taxes due and payable by HREL;
(ii) 90% of the debt due excluding subordinated debt;
(iii) outstanding Concession Fees;
(iv) all payments and damages certified by NHAI as due and payable to it by HREL;
(v) retention and payments relating to the liability for defects and deficiencies set forth in the HREL Concession Agreement;
(vi) outstanding debt service including the balance of debt due;
(vii) outstanding subordinated debt;
(viii) incurred or accrued O&M expenses;
(ix) any other payments required to be made under the HREL Concession Agreement; and
(x) Balance, if any, in accordance with the instructions of HREL provided that no appropriations shall be made until a vesting certificate has been issued by NHAI.

G. ***Change of Scope***

NHAI may, notwithstanding anything to the contrary contained in the HREL Concession Agreement, require the provision of additional works and services which are not included in the scope of the projects as contemplated in the HREL Concession Agreement (**"Change of Scope"**). Any such Change of Scope shall be made in accordance with the provisions of the HREL Concession Agreement and the costs thereof shall be expended by HREL and reimbursed to it by NHAI in accordance with the HREL Concession Agreement.

If HREL determines at any time that a Change of Scope is necessary for providing safer and improved services to the users, it shall by notice in writing require NHAI to consider such Change of Scope. NHAI shall within 15 days of receipt of such notice, either accept it with modifications, if any, and initiate proceedings thereof or inform HREL in writing of its reasons for not accepting it.

H. *Compensation for Breach of Agreement*

In the event of HREL being in material default or breach of the HREL Concession Agreement, it shall pay to NHAI by way of compensation, all direct costs suffered or incurred by NHAI as a consequence of such material default within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any breach or default in respect of which damages are expressly specified and payable under the HREL Concession Agreement.

In the event of NHAI being in material default or breach of the HREL Concession Agreement at any time after the appointed date**,** it shall pay HREL, by way of compensation, all direct costs suffered or incurred by HREL as a consequence of such material default within 30 days of receipt of the demand supported by necessary particulars thereof. No such compensation shall be payable for any breach or default in respect of which damages have been expressly specified in the HREL Concession Agreement.

I. *Termination of the HREL Concession Agreement*

Termination for HREL Default

Save as otherwise provided in the HREL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and HREL fail to cure the default within the cure period set forth in the HREL Concession Agreement, or where no cure period is specified, then within a cure period of 60 days, HREL shall be deemed to be in default of the HREL Concession Agreement **("SPV Default")** unless the default has occurred solely as a result of any breach of the HREL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

(i) the performance security has been encashed and appropriated and HREL fails to replenish or provide fresh performance security within a cure period of 30 days;
(ii) subsequent to the replenishment or furnishing of fresh performance security, HREL fails to cure within a cure period of 90 days, the SPV Default for which whole or part of the performance security was appropriated;
(iii) HREL does not achieve the latest outstanding project milestone and continues to be in default for 90 days;
(iv) HREL abandons or manifests intention to abandon the construction or operation of the project highway without prior written consent of NHAI;
(v) project completion date does not occur within the specified period;
(vi) punch list items have not been completed within the specified period;
(vii) HREL is in breach of the maintenance requirements;
(viii) HREL has failed to make any payment to NHAI within the period specified in the HREL Concession Agreement;
(ix) an escrow default has occurred and HREL fails to cure the default within a cure period of 15 days;
(x) upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension in accordance with the substitution agreement and HREL fails to cure the default within the cure period specified in the substitution agreement;
(xi) a breach of any of the project agreements by HREL has caused a material adverse effect;
(xii) HREL create any encumbrance in breach of the HREL Concession Agreement;
(xiii) HREL repudiate the HREL Concession Agreement or otherwise take any action or evidence or conveys an intention not to be bound by the HREL Concession Agreement;
(xiv) change in ownership has occurred in breach of the HREL Concession Agreement;
(xv) there is a transfer, pursuant to law either of (i) the rights and/or obligations of HREL under any of the project agreements, or of (ii) all or part of the assets or undertaking of HREL and such transfer causes a material adverse effect;
(xvi) an execution levied on any of the assets of HREL has cause material adverse effect;
(xvii) HREL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the HREL or for the whole or material part of its assets that has a material bearing on the project;

(xviii) HREL has been, or is in the process of being liquidated, dissolved, wound up, amalgamated or reconstituted in manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

(xix) a resolution for winding up of HREL is passed, or any petition for winding up of HREL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or HREL is ordered to wound up by court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of HREL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of HREL under the HREL Concession Agreement and project agreement; and provided that:

(i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the HREL Concession Agreement and the project agreements;
(ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the HREL Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the HREL as at the appointed date; and
(iii) each of the project agreements remains in full force and effect;

(xx) any representation or warranty of HREL herein contained which is, as of the date hereof, found to be materially false or HREL is at any time hereafter found to be in breach thereof;

(xxi) HREL submit to NHAI any statement, which has a material effect of NHAI's rights, obligations or interests and which is false in material particulars;

(xxii) HREL has failed to fulfil any obligation, for which failure termination has been specified in the HREL Concession Agreement; or

(xxiii) HREL commits default in complying with any other provision of the HREL Concession Agreement if such a default causes material adverse effect on NHAI.

Without prejudice to any other rights or remedies which NHAI may have under the HREL Concession Agreement, upon the occurrence of an SPV Default, the NHAI shall be entitled to terminate the HREL Concession Agreement by issuing a termination notice to HREL. Before issuing the termination notice, NHAI shall, by notice, inform of its intention to issue such termination notice and grant 15 days to HREL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the HREL Concession Agreement.

Termination for NHAI Default

In the event that any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the HREL Concession Agreement, NHAI shall be deemed to be in default of the HREL Concession Agreement **("NHAI Default")** unless the default has occurred as a result of any breach of the HREL Concession Agreement by HREL or due to force majeure. The defaults referred to herein shall include:

(i) NHAI commits a material default in complying with any of the provisions of the HREL Concession Agreement and such default has a material adverse effect on HREL;

(ii) NHAI has failed to make any payment to HREL within the period specified in the HREL Concession Agreement;

(iii) NHAI repudiates the HREL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the HREL Concession Agreement; or

(iv) the state commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on HREL and the breach continues for a period of 90 days from the date of notice given in this behalf by HREL to NHAI.

Without prejudice to any other right or remedy which HREL may have under the HREL Concession Agreement, upon occurrence of NHAI default, HREL shall, subject to the provisions of the substitution agreement, be entitled to terminate the HREL Concession Agreement by issuing a termination notice to NHAI; provided that

before issuing the termination notice, the HREL shall by notice inform NHAI of its intention to issue the termination notice and grant 15 days to NHAI to make a representation, and may after the expiry of such 15 days, whether or not it is in receipt of such representation, issue the termination notice.

J. ***Termination Payment***

Termination Payment shall become due and payable to HREL within 15 days of a demand being made to NHAI with the necessary particulars, and in the event of any delay, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. Provided that such delay shall not exceed 90 days. For the avoidance of any doubt, it is expressly agreed that termination payment shall constitute a full discharge by NHAI of its payment obligations in respect thereof hereunder.

K. ***Defects Liability after Termination***

HREL shall be responsible for all defects and deficiencies in the project highway for a period of 120 days after termination, and shall have the obligations to repair or rectify, at their own cost, all defects and deficiencies observed by the independent engineer in the project highway during the aforesaid period. In the event that HREL fail to repair or rectify such defect or deficiency within 15 days from the date of notice issued by NHAI in this behalf, NHAI shall be entitled to get the same repaired or rectified at HREL's risk and cost so as to make the project highway conform to the maintenance requirements. All costs incurred by NHAI hereunder shall be reimbursed by HREL to NHAI within 15 days of receipt of demand thereof, and in the event of default in reimbursing such costs, NHAI shall be entitled to recover the same from the Escrow Account.

L. ***Performance Security***

HREL shall, for the performance of its obligations under the HREL Concession Agreement during the construction period, provide to NHAI no later than 180 days from the date of HREL Concession Agreement, an irrevocable and unconditional guarantee from a bank for a sum equivalent to ₹312.50 million in the form set forth in the HREL Concession Agreement ("**Performance Security**"). Until such time the Performance Security is provided by HREL and the same comes into effect, the bid security shall remain in force and effect, and upon such provision of the Performance Security, NHAI shall release the bid security to HREL.

M. ***O&M obligations of HREL***

During the operation period, HREL shall operate and maintain the project highway in accordance with the HREL Concession Agreement either by itself, or through the O&M contractor and if required, modify, repair or otherwise make improvements to the project highway to comply with the provisions of the HREL Concession Agreement, applicable laws and applicable permits, and conform to good industry practice. The obligations of HREL shall include:

(i) permitting safe, smooth and uninterrupted flow of traffic on the project highway during normal operating conditions;
(ii) allowing and assisting NHAI or NHAI contractors in collecting and appropriating the fee;
(iii) minimising disruption to traffic in the event of accidents or other incidents affecting the safety and use of the project highway by providing a rapid and effective response and maintaining liaison with emergency services of the state;
(iv) carrying out periodic preventive maintenance of the project highway;
(v) undertaking routine maintenance including prompt repairs of potholes, cracks, joints, drains, embankments, structures, pavements markings, lighting, road signs and other traffic control devices;
(vi) undertaking major maintenance such as resurfacing of pavements, repairs to structures, and repairs and refurbishment of tolling system and other equipment;
(vii) preventing, with the assistance of concerned law enforcement agencies, any unauthorised use of the project highway;
(viii) preventing with the assistance of the concerned law enforcement agencies, any encroachments on the project highway;
(ix) protection of the environment and provision of equipment and materials thereof;

(x) operations and maintenance of all communication, control and administrative systems necessary for the efficient operation of project highway;
(xi) maintaining a public relations unit to interface with and attend to suggestions from the users, government agencies, media and other agencies; and
(xii) complying with safety requirements in accordance with the HREL Concession Agreement.

HREL shall remove promptly from the project highway all surplus construction machinery and materials, waste materials (including hazardous materials and waste water), rubbish and other debris (including, without limitation, accident debris) and keep the project highway in a clean, tidy and orderly condition, and in conformity with the applicable laws, applicable permits and good industry practice.

HREL shall maintain, in conformity with good industry practice, all stretches of approach roads, over passes, under passes or other structures situated on the site but not forming part of the carriageway.

N. ***Insurance during concession period***

HREL shall effect and maintain at its own cost, during the construction period and the operation period, such insurances for such maximum sums as may be required under the financing agreements, and the applicable laws, and such insurances as may be necessary or prudent in accordance with good industry practice. HREL shall also effect and maintain such insurances as may be necessary for mitigating the risks that may devolve on NHAI as a consequence of any act or omission of HREL during the construction period. For the avoidance of doubt, the level of insurance to be maintained by HREL after repayment of senior lenders' dues in full shall be determined on the same principles as applicable for determining the level of insurance prior to such repayment of senior lenders' dues.

O. ***Liability and Indemnity***

General Indemnity

HREL will indemnify, defend, save and hold harmless NHAI and its officers, servants, agents, government instrumentalities and government owned and/or controlled entities/enterprises, (the "**Authority Indemnified Persons**") against any and all suits, proceedings, actions, demands and third party claims for any loss, damage, cost and expense of whatever kind and nature, whether arising out of any breach by HREL of any of its obligations under the HREL Concession Agreement or any related agreement or on account of any defect or deficiency in the provision of services by HREL to any user except to the extent that any such suits, proceedings, actions, demands and claims have arisen due to any negligent act or omission, or breach of the HREL Concession Agreement on the part of Authority Indemnified Persons.

NHAI will indemnify, defend, save and hold harmless HREL against any and all suits, proceedings, actions, demands and third party claims for any loss, damage, cost and expense of whatever kind and nature arising out of (i) defect in title and/or the rights of NHAI in the land comprised in the site, and/or (ii) breach by NHAI of any of its obligations under the HREL Concession Agreement or any related agreement, which materially and adversely affect the performance by HREL of its obligations under the HREL Concession Agreement, save and except that where any such claim, suit, proceeding, action, and/or demand has arisen due to a negligent act or omission, or breach of any of its obligations under any provision of the HREL Concession Agreement or any related agreement and/or breach of its statutory duty on the part of HREL, its subsidiaries, affiliates, contractors, servants or agents, the same shall be the liability of HREL.

Indemnity by HREL

Without limiting the generality of the above clause, HREL shall fully indemnify, hold harmless and defend NHAI and the Authority Indemnified Persons from and against any and all loss and/or damages arising out of or with respect to:

(i) failure of HREL to comply with applicable laws and applicable permits;

(ii) payment of taxes required to be made by HREL in respect of the income or other taxes of HREL's contractors, suppliers and representatives; or
(iii) non-payment of amounts due as a result of materials or services furnished to HREL or any of its contractors which are payable by HREL or any of its contractors.

Without limiting the generality of the provisions of the HREL Concession Agreement, HREL shall fully indemnify, hold harmless and defend the Authority Indemnified Persons from and against any and all suits, proceedings, actions, claims, demands, liabilities and damages which the Authority Indemnified Persons may suffer, or pay by reason of any demands, claims, suits, or proceedings arising out of claims of infringement of any domestic or foreign patent rights, copyrights or other intellectual property, proprietary or confidentiality rights with respect to any materials, information, design or process used by HREL or by HREL's contractors in performing HREL's obligations or in any way incorporated in or related to the project. If in any such suit, action, claim or proceedings, a temporary restraint order or preliminary injunction is granted, HREL shall make every reasonable effort, by giving a satisfactory bond or otherwise, to secure the revocation or suspension of the injunction or restraint order. If, in any such suit, action, claim or proceedings, the project highway, or any part thereof or comprised therein, is held to constitute an infringement and its use is permanently enjoined, HREL shall promptly make every reasonable effort to secure for NHAI a licence, at no cost to NHAI, authorising continued use of the infringing work. If HREL is unable to secure such licence within a reasonable time, HREL shall, at its own expense, and without impairing the specifications and standards, either replace the affected work or part, or process thereof with non-infringing work or part or process, or modify the same so that It becomes non-infringing.

P. ***Effect of Force Majeure Event on the concession***

Upon occurrent of any force majeure event prior to the appointed date, the period set forth in the HREL Concession Agreement for achieving financial close shall be extended by a period equal in length to the duration of the force majeure event.

At any time after the appointed date, if any force majeure event occurs:

(i) before COD, the concession period and the dates set forth in the project completion schedule shall be extended by a period equal in length to the duration for which such force majeure event subsists;

Q. ***Suspension of HREL rights***

Suspension upon HREL default

Upon occurrence of HREL default, NHAI shall be entitled, without prejudice to its other rights and remedies under the HREL Concession Agreement including its rights of termination, to (i) suspend all rights of HREL under the HREL Concession Agreement including HREL's right to receive Annuity, and other revenues, and (ii) exercise such rights itself or authorise any other person to exercise the same on its behalf during such suspension. Suspension shall be effective forthwith upon issue of notice by NHAI to HREL and may extend up to a period not exceeding 180 days from the date of issue of such notice; provided that upon written request from HREL and lender's representative, NHAI shall extend the aforesaid period of 180 days by a further period not exceeding 90 days.

Authority to act on behalf of HREL

During the period of suspension, NHAI shall, on behalf of HREL, operate and maintain the project highway under and in accordance with the HREL Concession Agreement. NHAI shall be entitled to make withdrawals form the escrow account for meeting the costs incurred by it for remedying and rectifying the cause of suspension, and thereafter for defraying the expenses specified in the HREL Concession Agreement.

During the period of suspension hereunder, all rights and liabilities in relation to the project highway shall continue to vest in HREL and all things done or actions taken, including expenditure incurred by NHAI for discharging the obligations of HREL under and in accordance with the HREL Concession Agreement and the

project agreements, shall be deemed to have been done or taken for and on behalf of HREL and HREL undertakes to indemnify NHAI for all costs incurred during such period.

Revocation of Suspension

In the event that NHAI shall have rectified or removed the cause of suspension within a period not exceeding 90 (ninety) days from the date of suspension, it shall revoke the suspension forthwith and restore all rights of HREL under the HREL concession agreement.

Upon HREL having cured SBHL default within a period not exceeding 90 days from the date of suspension, the authority shall revoke the suspension forthwith and restore all rights of HREL under the HREL Concession Agreement.

Substitution of SBHL

At any time during the period of suspension, the lenders' representative, on behalf of senior lenders, shall be entitled to substitute HREL under and in accordance with the substitution agreement, and upon receipt of notice, thereunder from the lenders' representative, NHAI shall withhold termination for a period not exceeding 180 days from the date of suspension, and any extension thereof under the HREL Concession Agreement, for enabling the lenders' representative to exercise its rights of substitution on behalf of senior lenders.

Termination

At any time during the period of suspension under the HREL Concession Agreement, HREL may by notice require NHAI to revoke the suspension and issue a termination notice. Subject to the rights of the lenders' representative to undertake substitution in accordance with the provisions of the HREL Concession Agreement and within the period specified in the HREL Concession Agreement, the authority shall, within 15 days of receipt of such notice, terminate the HREL Concession Agreement under and in accordance with the HREL Concession Agreement.

Notwithstanding anything to the contrary contained in the HREL Concession Agreement, in the event that suspension is not revoked within 180 days from the date of suspension or within the extended period, if any, set forth in the HREL Concession Agreement, the HREL Concession Agreement shall, upon expiry of the aforesaid period, be deemed to have terminated by mutual agreement of the parties and all the provisions of the HREL Concession Agreement shall apply, *mutatis mutandis*, to such termination as if a termination notice had been issued by NHAI upon occurrence of a HREL default.

2. Concession agreement executed between MBEL and NHAI dated February 19, 2010 for four-laning of Moradabad-Bareilly Road Section of NH-24 from Km 148 to Km 262, in the State of Uttar Pradesh under NHDP Phase III on DBFOT basis, for a period of 25 years ("MBEL Concession Agreement")

A. *Grant of Concession*

Subject to the provisions of the MBEL Concession Agreement, the applicable laws and applicable permits, NHAI has granted MBEL exclusive right, license and authority during the subsistence of the MBEL Concession Agreement to construct, operate and maintain the project for 25 years commencing from the appointed date as mentioned in the MBEL Concession Agreement.

Subject to and in accordance with the MBEL Concession Agreement, the concession granted shall oblige or entitle (as the case maybe) MBEL to:

(i) right of way, access and license to the site for the purpose of and to the extent conferred by the provisions of the MBEL Concession Agreement;
(ii) finance and construct the project highway;
(iii) manage, operate and maintain the project highway and regulate the use thereof by third parties;

(iv) demand, collect and appropriate fee from vehicles and users liable for payment of fee for using the project highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;
(v) perform and fulfil all the obligations under and in accordance with the MBEL Concession Agreement;
(vi) bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of MBEL under the MBEL Concession Agreement; and
(vii) neither assign, transfer or sublet or create any lien or encumbrances on the MBEL Concession Agreement or the concessionaire thereby granted or on the whole or any part of the project highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the MBEL Concession Agreement or the substitution agreement.

B. ***Concession Fees***

In consideration of the grants of concession under this MBEL Concession Agreement, concession fee payable by MBEL to NHAI shall be ₹1 per year during the term of the MBEL Concession Agreement **("Concession Fees").**

C. ***Escrow Account***

MBEL shall, prior to the appointed date, open and establish an escrow account **("Escrow Account")** and shall deposit the following inflows and receipts into it: i) all funds constituting the financial package; ii) all fee and any other revenues from or in respect of the project highway, including the proceeds of any rentals, deposits, capital receipts or insurance claims; and iii) all payments by NHAI, after deduction of any outstanding Concession Fees. The nature and scope of the Escrow Account shall be as per the agreement entered into amongst MBEL, NHAI, the escrow bank and the senior lenders **("Escrow Agreement".)**

D. ***Withdrawals during concession period***

MBEL shall, at the time of opening of the Escrow Account, give irrevocable instructions, by way of an Escrow Agreement, to the escrow bank instructing that deposits in the Escrow Account shall be appropriated in the following order each month, or at a shorter intervals as necessary, and if not due in a month then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in the month when due:

(i) all taxes due and payable by MBEL for and in respect of the project highway;
(ii) all payments relating to construction of the project highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;
(iii) operation and maintenance **("O&M")** expenses, subject to the ceiling, if any, set forth in the financing agreements;
(iv) O&M expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the MBEL Concession Agreement and certified by NHAI as due and payable to it;
(v) Concession Fee due and payable to NHAI;
(vi) monthly proportionate provision of debt service due in an accounting year;
(vii) all payments and Damages certified by NHAI as due and payable to it by MBEL, including payment of revenue shortfall loan;
(viii) monthly proportionate provision of debt service due in an accounting year in respect of subordinated debt;
(ix) any reserve requirements set forth in the financing agreements; and
(x) balance, if any, in accordance with the instructions of MBEL.

MBEL shall not in any manner modify the order of payment specified above, except with prior written approval of NHAI.

E. ***Withdrawals upon Termination***

Notwithstanding anything to the contrary contained in the MBEL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination be appropriated in the following order:

(i) all taxes due and payable by MBEL in respect of the project highway;
(ii) 90% of the debt due excluding subordinated debt;
(iii) outstanding Concession Fees;
(iv) all payments and damages certified by NHAI as due and payable to it by MBEL including repayment of the revenue shortfall loan;
(v) retention and payments relating to the liability for defects and deficiencies set forth in the MBEL Concession Agreement;
(vi) outstanding debt service including the balance of debt due;
(vii) outstanding subordinated debt;
(viii) incurred or accrued O&M expenses;
(ix) any other payments required to be made under the MBEL Concession Agreement; and
(x) balance, if any, in accordance with the instructions of MBEL, provided that no appropriations shall be made until a vesting certificate has been issued by NHAI.

F. ***Change of Scope***

NHAI may, notwithstanding anything to the contrary contained in the MBEL Concession Agreement, require the provision of additional works and services which are not included in the scope of the projects as contemplated in the MBEL Concession Agreement (**"Change of Scope"**). Any such Change of Scope shall be made in accordance with the provisions of the MBEL Concession Agreement and the costs thereof shall be expended by MBEL and reimbursed to it by NHAI in accordance with the MBEL Concession Agreement.

If MBEL determines at any time that a Change of Scope is necessary for providing safer and improved services to the users, it shall by notice in writing require NHAI to consider such Change of Scope. NHAI within 15 days of receipt of such notice, either accept it with modifications, if any, and initiate proceedings thereof or inform MBEL in writing of its reasons for not accepting it.

G. ***Compensation for Breach of Agreement***

In the event of MBEL being in material default or breach of the MBEL Concession Agreement, it shall pay to NHAI by way of compensation, all direct costs suffered or incurred by NHAI as a consequence of such material default within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any breach or default in respect of which damages are expressly specified and payable under the MBEL Concession Agreement or for any consequential losses incurred by NHAI.

In the event of NHAI being in material default or breach of the MBEL Concession Agreement at any time after the appointed date**,** it shall pay MBEL, by way of compensation, all direct costs suffered or incurred by MBEL as a consequence of such material default within 30 days of receipt of the demand supported by necessary particulars thereof. No such compensation shall be payable for any breach or default in respect of which damages have been expressly specified in the MBEL Concession Agreement.

H. ***Termination of the MBEL Concession Agreement***

Termination for MBEL Default

Save as otherwise provided in the MBEL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and MBEL fails to cure the default within the cure period set forth in the MBEL Concession Agreement, or where no cure period is specified, then within a cure period of 60 days, MBEL shall be deemed to be in default of the MBEL Concession Agreement **("SPV Default")** unless the default has occurred solely as a result of any breach of the MBEL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

(i) the performance security has been encashed and appropriated and MBEL fails to replenish or provide fresh performance security within a cure period of 30 days;

(ii) subsequent to the replenishment or furnishing of fresh performance security, MBEL fails to cure within a cure period of 90 days, the SPV Default for which whole or part of the performance security was appropriated;
(iii) MBEL does not achieve the latest outstanding project milestone and continues to be in default for 120 days;
(iv) MBEL abandons or manifests intention to abandon the construction or operation of the project highway without prior written consent of NHAI;
(v) project completion date does not occur within the specified period;
(vi) punch list items have not been completed within the specified period;
(vii) MBEL is in breach of the maintenance requirements or the safety requirements, as the case maybe;
(viii) MBEL has failed to make any payment to NHAI within the period specified in the MBEL Concession Agreement;
(ix) an escrow default has occurred and MBEL fails to cure the default within a cure period of 15 days;
(x) upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case maybe, in accordance with the substitution agreement and MBEL fails to cure the default within the cure period specified in the MBEL Concession Agreement;
(xi) a breach of any of the project agreements by MBEL has caused a material adverse effect;
(xii) MBEL creates any encumbrance in breach of the MBEL Concession Agreement;
(xiii) MBEL repudiates the MBEL Concession Agreement or otherwise takes any action or evidence or conveys an intention not to be bound by the MBEL Concession Agreement;
(xiv) change in ownership has occurred in breach of the MBEL Concession Agreement;
(xv) there is a transfer, pursuant to law either of (i) the rights and/or obligations of MBEL under any of the project agreements, or of (ii) all or part of the assets or undertaking of MBEL and such transfer causes a material adverse effect;
(xvi) an execution levied on any of the assets of MBEL has caused material adverse effect;
(xvii) MBEL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the MBEL or for the whole or material part of its assets that has a material bearing on the project;
(xviii) MBEL has been, or is in the process of being liquidated, dissolved, wound up, amalgamated or reconstituted in manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;
(xix) a resolution for winding up of MBEL is passed, or any petition for winding up of MBEL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or MBEL is ordered to wound up by court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of MBEL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of MBEL under the MBEL Concession Agreement and project agreement; and provided that:

    (a) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the MBEL Concession Agreement and the project agreements;
    (b) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the MBEL Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the MBEL as at the appointed date; and
    (c) each of the project agreements remains in full force and effect;

(xx) any representation or warranty of MBEL herein contained which is, as of the date hereof, found to be materially false or MBEL is at any time hereafter found to be in breach thereof;
(xxi) MBEL submit to NHAI any statement, notice or other document, in written or electronic form, which has a material effect of NHAI's rights, obligations or interests and which is false in material particulars;
(xxii) MBEL has failed to fulfil any obligation, for which failure termination has been specified in the MBEL Concession Agreement; or
(xxiii) MBEL commits default in complying with any other provision of the MBEL Concession Agreement if such a default causes material adverse effect on NHAI.

Without prejudice to any other rights or remedies which NHAI may have under the MBEL Concession Agreement, upon the occurrence of an SPV Default, the NHAI shall be entitled to terminate the MBEL Concession Agreement by issuing a termination notice to MBEL. Before issuing the termination notice, NHAI shall, by a notice, inform MBEL of its intention to issue a termination notice and grant 15 days to MBEL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the MBEL Concession Agreement.

Termination for NHAI Default

In the event that any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the MBEL Concession Agreement, NHAI shall be deemed to be in default of the MBEL Concession Agreement **("NHAI Default")** unless the default has occurred as a result of any breach of the MBEL Concession Agreement by MBEL or due to force majeure. The defaults referred to herein shall include:

(i) NHAI commits a material default in complying with any of the provisions of the MBEL Concession Agreement and such default has a material adverse effect on MBEL;
(ii) NHAI has failed to make any payment to MBEL within the period specified in the MBEL Concession Agreement;
(iii) NHAI repudiates the MBEL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the MBEL Concession Agreement; or
(iv) the state commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on MBEL and the breach continues for a period of 90 days from the date of notice given in this behalf by MBEL to NHAI.

Without prejudice to any other right or remedy which MBEL may have under the MBEL Concession Agreement, upon occurrence of NHAI default, MBEL shall, subject to the provisions of the substitution agreement, be entitled to terminate the MBEL Concession Agreement by issuing a termination notice to NHAI; provided that before issuing the termination notice, the MBEL shall by notice inform NHAI of its intention to issue the termination notice and grant 15 days to NHAI to make a representation, and may after the expiry of such 15 days, whether or not it is in receipt of such representation, issue the termination notice.

I. *Termination Payment*

Termination Payment shall become due and payable to MBEL within 15 days of a demand being made to NHAI with the necessary particulars, and in the event of any delay, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. Provided that such delay shall not exceed 90 days. For the avoidance of any doubt, it is expressly agreed that termination payment shall constitute full discharge by NHAI of its payment obligations in respect thereof hereunder.

J. *Defects Liability after Termination*

MBEL shall be responsible for all defects and deficiencies in the project highway for a period of 120 days after termination, and shall have the obligations to repair or rectify, at their own cost, all defects and deficiencies observed by the independent engineers in the project highway during the aforesaid period. In the event that MBEL fail to repair or rectify such defect or deficiency within 15 days from the date of notice issued by NHAI in this behalf, NHAI shall be entitled to get the same repaired or rectified at MBEL's risk and cost so as to make the project highway conform to the maintenance requirements. All costs incurred by NHAI hereunder shall be reimbursed by MBEL to NHAI within 15 days of receipt of demand thereof, and in the event of default in reimbursing such costs, NHAI shall be entitled to recover the same from the Escrow Account.

K. *Performance Security*

MBEL shall, for the performance of its obligations under the MBEL Concession Agreement during the construction period, provide to NHAI no later than 180 days from the date of MBEL Concession Agreement, an irrevocable and unconditional guarantee from a bank for a sum equivalent to ₹633.50 million in the form set

forth in the MBEL Concession Agreement ("**Performance Security**"). Until such time the Performance Security is provided by MBEL and the same comes into effect, the bid security shall remain in force and effect, and upon such provision of the Performance Security, NHAI shall release the bid security to MBEL.

Notwithstanding anything to the contrary in the MBEL Concession Agreement, in the event Performance Security is not provided by MBEL within a period of 180 days from the date of MBEL Concession Agreement, NHAI may encash the bid security and appropriate the proceeds thereof as damages, and thereupon all rights, privileges, claims and entitlements of MBEL under and arising out of the MBEL Concession Agreement shall be deemed to have been waived by, and to have ceased with the concurrence of MBEL, and MBEL Concession Agreement shall be deemed to have been terminated by mutual agreement of the parties.

L. ***O&M obligations of MBEL***

During the operation period, MBEL shall operate and maintain the project highway in accordance with the MBEL Concession Agreement either by itself, or through the O&M contractor and if required, modify, repair or otherwise make improvements to the project highway to comply with the provisions of the MBEL Concession Agreement, applicable laws and applicable permits, and conform to specifications and standards and good industry practice. The obligations of MBEL shall include:

(i) permitting safe, smooth and uninterrupted flow of traffic on the project highway during normal operating conditions;
(ii) collecting and appropriating the fee;
(iii) minimising disruption to traffic in the event of accidents or other incidents affecting the safety and use of the project highway by providing a rapid and effective response and maintaining liaison with emergency services of the state;
(iv) carrying out periodic preventive maintenance of the project highway;
(v) undertaking routine maintenance including prompt repairs of potholes, cracks, joints, drains, embankments, structures, pavements markings, lighting, road signs and other traffic control devices;
(vi) undertaking major maintenance such as resurfacing of pavements, repairs to structures, and repairs and refurbishment of tolling system and other equipment;
(vii) preventing, with the assistance of concerned law enforcement agencies, any unauthorised use of the project highway;
(viii) preventing with the assistance of the concerned law enforcement agencies, any encroachments on the project highway;
(ix) protection of the environment and provision of equipment and materials thereof;
(x) operations and maintenance of all communication, control and administrative systems necessary for the efficient operation of project highway;
(xi) maintaining a public relations unit to interface with and attend to suggestions from the users, government agencies, media and other agencies; and
(xii) complying with safety requirements in accordance with the MBEL Concession Agreement.

MBEL shall remove promptly from the project highway all surplus construction machinery and materials, waste materials (including hazardous materials and waste water), rubbish and other debris (including, without limitation, accident debris) and keep the project highway in a clean, tidy and orderly condition, and in conformity with the applicable laws, applicable permits and good industry practice. For avoidance of doubt, it is agreed that the debris and material excavated shall be carried to and deposited at a place to be decided in consultation with NHAI, independent engineer and MBEL.

MBEL shall maintain, in conformity with good industry practice, all stretches of approach roads, over passes, under passes or other structures situated on the site but not forming part of the carriageway.

M. ***Insurance during concession period***

MBEL shall effect and maintain at its own cost, during the construction period and the operation period, such insurances for such maximum sums as may be required under the financing agreements, and the applicable laws, and such insurances as may be necessary or prudent in accordance with good industry practice. MBEL

shall also effect and maintain such insurances as may be necessary for mitigating the risks that may devolve on NHAI as a consequence of any act or omission of MBEL during the construction period. MBEL shall procure that in each insurance policy, NHAI shall be a co-insured and that the insurer shall pay the proceeds of insurance into the Escrow Account. For the avoidance of doubt, the level of insurance to be maintained by MBEL after repayment of senior lenders' dues in full shall be determined on the same principles as applicable for determining the level of insurance prior to such repayment of senior lenders' dues.

N. ***Liability and Indemnity***

General Indemnity

MBEL will indemnify, defend, save and hold harmless NHAI and its officers, servants, agents, government instrumentalities and government owned and/or controlled entities/enterprises, (the "**Authority Indemnified Persons**") against any and all suits, proceedings, actions, demands and claims from third parties for any loss, damage, cost and expense of whatever kind and nature, whether arising out of any breach by MBEL of any of its obligations under the MBEL Concession Agreement or any related agreement or on account of any defect or deficiency in the provision of services by MBEL to any user or from any negligence of MBEL under contract or tort or on any other ground whatsoever, except to the extent that any such suits, proceedings, actions, demands and claims have arisen due to any negligent act or omission, or breach or default of the MBEL Concession Agreement on the part of Authority Indemnified Persons.

NHAI will indemnify, defend, save and hold harmless MBEL against any and all suits, proceedings, actions, demands and claims from third parties for any loss, damage, cost and expense of whatever kind and nature arising out of (i) defect in title and/or the rights of NHAI in the land comprised in the site, and/or (ii) breach by NHAI of any of its obligations under the MBEL Concession Agreement or any related agreement, which materially and adversely affect the performance by MBEL of its obligations under the MBEL Concession Agreement, save and except that where any such claim, suit, proceeding, action, and/or demand has arisen due to a negligent act or omission, or breach of any of its obligations under any provision of the MBEL Concession Agreement or any related agreement and/or breach of its statutory duty on the part of MBEL, its subsidiaries, affiliates, contractors, servants or agents, the same shall be the liability of MBEL.

Indemnity by MBEL

Without limiting the generality of the above clause, MBEL shall fully indemnify, hold harmless and defend NHAI and the Authority Indemnified Persons from and against any and all loss and/or damages arising out of or with respect to:

(i) failure of MBEL to comply with applicable laws and applicable permits;
(ii) payment of taxes required to be made by MBEL in respect of the income or other taxes of MBEL's contractors, suppliers and representatives; or
(iii) non-payment of amounts due as a result of materials or services furnished to MBEL or any of its contractors which are payable by MBEL or any of its contractors.

Without limiting the generality of the provisions of the MBEL Concession Agreement, MBEL shall fully indemnify, hold harmless and defend the Authority Indemnified Persons from and against any and all suits, proceedings, actions, claims, demands, liabilities and damages which the Authority Indemnified Persons may suffer, or pay by reason of any demands, claims, suits, or proceedings arising out of claims of infringement of any domestic or foreign patent rights, copyrights or other intellectual property, proprietary or confidentiality rights with respect to any materials, information, design or process used by MBEL or by MBEL's contractors in performing MBEL's obligations or in any way incorporated in or related to the project. If in any such suit, action, claim or proceedings, a temporary restraint order or preliminary injunction is granted, MBEL shall make every reasonable effort, by giving a satisfactory bond or otherwise, to secure the revocation or suspension of the injunction or restraint order. If, in any such suit, action, claim or proceedings, the project highway, or any part thereof or comprised therein, is held to constitute an infringement and its use is permanently enjoined, MBEL shall promptly make every reasonable effort to secure for NHAI a licence, at no cost to NHAI, authorising continued use of the infringing work. If MBEL is unable to secure such licence within a reasonable

time, MBEL shall, at its own expense, and without impairing the specifications and standards, either replace the affected work or part, or process thereof with non-infringing work or part or process, or modify the same so that It becomes non-infringing.

O. ***Effect of Force Majeure Event on the concession***

Upon occurrent of any force majeure event prior to the appointed date, the period set forth in the MBEL Concession Agreement for achieving financial close shall be extended by a period equal in length to the duration of the force majeure event.

At any time after the appointed date, if any force majeure event occurs:

(i) before COD, the concession period and the dates set forth in the project completion schedule shall be extended by a period equal in length to the duration for which such force majeure event subsists; or

(ii) after COD, whereupon MBEL is unable to collect fee despite making best efforts or it is directed by NHAI to suspend the collection thereof during the subsistence of such force majeure event, the concession period shall be extended by a period, equal in length to the period during which MBEL was prevented from collection of fee on account thereof, provided that in the event of partial collection of fee where the daily collection if less than 90% of the average daily fee, NHAI shall extend the concession period in proportion to the loss of fee on a daily basis. For the avoidance of doubt, loss of 25% in collection of fee as compared to the average daily fee for four days shall entitle MBEL to extension of one day in the concession period.

P. ***Suspension of MBEL rights***

Suspension upon MBEL default

Upon occurrence of MBEL default, NHAI shall be entitled, without prejudice to its other rights and remedies under the MBEL Concession Agreement including rights of termination, to (i) suspend all rights of MBEL under the MBEL Concession Agreement including MBEL's right to collect fee, and other revenues, and (ii) exercise such rights itself and perform the obligations or authorise any other person to exercise or perform the same on its behalf during such suspension. Suspension shall be effective forthwith upon issue of notice by NHAI to MBEL and may extend up to a period not exceeding 180 days from the date of issue of such notice; provided that upon written request from MBEL and lender's representative, NHAI shall extend the aforesaid period of 180 days by a further period not exceeding 90 days.

Authority to act on behalf of MBEL

During the period of suspension, NHAI shall, on behalf of MBEL, collect all fee and revenues under and in accordance with the MBEL Concession Agreement and deposit the same in the escrow account. NHAI shall be entitled to make withdrawals form the escrow account for meeting the costs incurred by it for remedying and rectifying the cause of suspension, and thereafter for defraying the expenses specified in the MBEL Concession Agreement.

During the period of suspension hereunder, all rights and liabilities vested in MBEL in accordance with the provisions of the MBEL Concession Agreement shall continue to vest therein and all things done or actions taken, including expenditure incurred by NHAI for discharging the obligations of MBEL under and in accordance with the MBEL Concession Agreement and the project agreements, shall be deemed to have been done or taken for and on behalf of MBEL and MBEL undertakes to indemnify NHAI for all costs incurred during such period. MBEL hereby licenses and sub-licenses respectively, NHAI or any other person authorised by it under the MBEL Concession Agreement to use during suspension, all intellectual property belonging to or licenced to MBEL with respect to the project highway and its design, engineering, construction, operation and maintenance, and which is used or created by MBEL in performing its obligations under the MBEL Concession Agreement.

Revocation of Suspension

In the event that NHAI shall have rectified or removed the cause of suspension within a period not exceeding 90 days from the date of suspension, it shall revoke the suspension forthwith and restore all rights of MBEL under the MBEL Concession Agreement. For the avoidance of doubt, the parties expressly agree that the NHAI may, in its discretion, revoke the suspension at any time, whether or not the cause of suspension has been rectified or removed hereunder.

Upon MBEL having cured MBEL default within a period not exceeding 90 days from the date of suspension, NHAI shall revoke the suspension forthwith and restore all rights of MBEL under the MBEL Concession Agreement.

Substitution of MBEL

At any time during the period of suspension, the lenders' representative, on behalf of senior lenders, shall be entitled to substitute MBEL under and in accordance with the substitution agreement, and upon receipt of notice, thereunder from the lenders' representative, NHAI shall withhold termination for a period not exceeding 180 days from the day of suspension, and any extension thereof under the MBEL Concession Agreement, for enabling the lenders' representative to exercise its rights of substitution on behalf of senior lenders.

Termination

At any time during the period of suspension under the MBEL Concession Agreement, MBEL may by notice require the authority to revoke the suspension and issue a termination notice. Subject to the rights of the lenders' representative to undertake substitution in accordance with the provisions of the MBEL Concession Agreement and within the period specified in the MBEL Concession Agreement, NHAI shall, within 15 days of receipt of such notice, terminate the MBEL Concession Agreement under and in accordance with the MBEL Concession Agreement.

Notwithstanding anything to the contrary contained in the MBEL Concession Agreement, in the event that suspension is not revoked within 180 days from the date of suspension or within the extended period, if any, set forth in the MBEL Concession Agreement, the MBEL Concession Agreement shall, upon expiry of the aforesaid period, be deemed to have terminated by mutual agreement of the parties and all the provisions of the MBEL Concession Agreement shall apply, *mutatis mutandis*, to such termination as if a termination notice had been issued by NHAI upon occurrence of a MBEL default.

3. Concession agreement executed between PSRDCL and NHAI dated September 30, 2009 for design, engineering, construction, development, finance, operation and maintenance of four-laning of Pune-Solapur Section of NH-9 from Km 144.400 to Km 249 in the State of Maharashtra under NHDP Phase III on DBFOT basis, for a period of 19 years and 295 days, as amended ("PSRDCL Concession Agreement").

A. *Grant of Concession*

Subject to the provisions of the PSRDCL Concession Agreement, the applicable laws and applicable permits, NHAI has granted PSRDCL exclusive right, license and authority during the subsistence of the PSRDCL Concession Agreement to construct, operate and maintain the project for 19 years and 295 days commencing from the appointed date as mentioned in the PSRDCL Concession Agreement.

Subject to and in accordance with the PSRDCL Concession Agreement, the concession granted shall oblige or entitle (as the case maybe) PSRDCL to:

(i) right of way, access and license to the site for the purpose of and to the extent conferred by the provisions of the PSRDCL Concession Agreement;
(ii) finance and construct the project highway;
(iii) manage, operate and maintain the project and regulate the use thereof by third parties;

(iv) demand, collect and appropriate fee from vehicles and users liable for payment of fee for using the project highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;
(v) perform and fulfil all the obligations under and in accordance with the PSRDCL Concession Agreement;
(vi) bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of PSRDCL under the PSRDCL Concession Agreement; and
(vii) neither assign, transfer or sublet or create any lien or encumbrances on the PSRDCL Concession Agreement or the concession thereby granted or on the whole or any part of the project highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the PSRDCL Concession Agreement or the substitution agreement.

B. ***Concession Fees***

In consideration of the grant of concession under the PSRDCL Concession Agreement, concession fee payable by PSRDCL to NHAI shall be ₹1 per year during the term of the PSRDCL Concession Agreement **("Concession Fees")**.

C. ***Escrow Account***

PSRDCL shall, prior to the appointed date, open and establish an escrow account **("Escrow Account")** and shall deposit the following inflows and receipts into it: i) all funds constituting the financial package; ii) all fee and any other revenues from or in respect of the project highway, including the proceeds of any deposits, capital receipts or insurance claims; and iii) all payments by NHAI, after deduction of any outstanding Concession Fees. The nature and scope of the Escrow Account shall be as per the agreement entered into amongst PSRDCL, NHAI, the escrow bank and the senior lenders **("Escrow Agreement").**

D. ***Withdrawals during concession period***

PSRDCL shall, at the time of opening of the Escrow Account, give irrevocable instructions, by way of an Escrow Agreement, to the escrow bank instructing that deposits in the Escrow Account shall be appropriated in the following order each month, or at a shorter intervals as necessary, and if not due in a month then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in the month when due:

(i) all taxes due and payable by PSRDCL for and in respect of the project highway;
(ii) all payments relating to construction of the project highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;
(iii) operation and maintenance **("O&M")** expenses, subject to the ceiling, if any, set forth in the financing agreements;
(iv) O&M expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the PSRDCL Concession Agreement and certified by NHAI as due and payable to it;
(v) Concession Fee due and payable to NHAI;
(vi) monthly proportionate provision of debt service due in an accounting year;
(vii) all payment and damages certified by NHAI as due and payable to it by PSRDCL, including repayment of revenue shortfall loan;
(viii) monthly proportionate provision of debt service payments due in an accounting year in respect of subordinated debt;
(ix) any reserve requirements set forth in the financing agreements; and
(x) balance, if any, in accordance with the instructions of PSRDCL.

PSRDCL shall not in any manner modify the order of payment specified above, except with prior written approval of NHAI.

E. ***Withdrawals upon Termination***

Notwithstanding anything to the contrary contained in the PSRDCL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination be appropriated in the following order:

(i) all taxes due and payable by PSRDCL in respect of the project highway;
(ii) 90% of the debt due excluding subordinated debt;
(iii) outstanding Concession Fees;
(iv) all payments and damages certified by NHAI as due and payable to it by PSRDCL including repayment of the revenue shortfall loan;
(v) retention and payments relating to the liability for defects and deficiencies set forth in the PSRDCL Concession Agreement;
(vi) outstanding debt service including the balance of debt due;
(vii) outstanding subordinated debt;
(viii) incurred or accrued O&M expenses;
(ix) any other payments required to be made under the PSRDCL Concession Agreement; and
(x) balance, if any, in accordance with the instructions of PSRDCL, provided that no appropriations shall be made until a vesting certificate has been issued by NHAI.

F. ***Change of Scope***

NHAI may, notwithstanding anything to the contrary contained in the PSRDCL Concession Agreement, require the provision of additional works and services which are not included in the scope of the projects as contemplated in the PSRDCL Concession Agreement (**"Change of Scope"**). Any such Change of Scope shall be made in accordance with the provisions of the PSRDCL Concession Agreement and the costs thereof shall be expended by PSRDCL and reimbursed to it by NHAI in accordance with the PSRDCL Concession Agreement.

If PSRDCL determines at any time that a Change of Scope is necessary for providing safer and improved services to the users, it shall by notice in writing require NHAI to consider such Change of Scope. NHAI within 15 days of receipt of such notice, either accept it with modifications, if any, and initiate proceedings thereof or inform PSRDCL in writing of its reasons for not accepting it.

G. ***Compensation for Breach of Agreement***

In the event of PSRDCL being in material default or breach of the PSRDCL Concession Agreement, it shall pay to NHAI by way of compensation, all direct costs suffered or incurred by NHAI as a consequence of such material default within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any breach or default in respect of which damages are expressly specified and payable under the PSRDCL Concession Agreement.

In the event of NHAI being in material default or breach of the PSRDCL Concession Agreement at any time after the appointed date, it shall pay PSRDCL, by way of compensation, all direct costs suffered or incurred by PSRDCL as a consequence of such material default within 30 days of receipt of the demand supported by necessary particulars thereof. No such compensation shall be payable for any breach or default in respect of which damages have been expressly specified in the PSRDCL Concession Agreement.

H. ***Termination of the PSRDCL Concession Agreement***

Termination for PSRDCL Default

Save as otherwise provided in the PSRDCL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and PSRDCL fail to cure the default within the cure period set forth in the PSRDCL Concession Agreement, or where no cure period is specified, then within a cure period of 60 days, PSRDCL shall be deemed to be in default of the PSRDCL Concession Agreement **("SPV Default")** unless the default has occurred solely as a result of any breach of the PSRDCL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

(i) the performance security has been encashed and appropriated and PSRDCL fails to replenish or provide fresh performance security within a cure period of 30 days;

(ii) subsequent to the replenishment or furnishing of fresh performance security, PSRDCL fails to cure within a cure period of 90 days, the SPV Default for which whole or part of the performance security was appropriated;
(iii) PSRDCL do not achieve the latest outstanding project milestone and continues to be in default for 90 days;
(iv) PSRDCL abandons or manifests intention to abandon the construction or operation of the project highway without prior written consent of NHAI;
(v) project completion date does not occur within the specified period;
(vi) punch list items have not been completed within the specified period;
(vii) PSRDCL is in breach of the maintenance requirements or the safety requirements, as the case maybe;
(viii) PSRDCL has failed to make any payment to NHAI within the period specified in the PSRDCL Concession Agreement;
(ix) an escrow default has occurred and PSRDCL fails to cure the default within a cure period of 15 days;
(x) upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case maybe, in accordance with the substitution agreement and PSRDCL fails to cure the default within the cure period specified in the PSRDCL Concession Agreement;
(xi) a breach of any of the project agreements by PSRDCL has caused a material adverse effect;
(xii) PSRDCL creates any encumbrance in breach of the PSRDCL Concession Agreement;
(xiii) PSRDCL repudiates the PSRDCL Concession Agreement or otherwise takes any action or evidence or conveys an intention not to be bound by the PSRDCL Concession Agreement;
(xiv) change in ownership has occurred in breach of the PSRDCL Concession Agreement;
(xv) there is a transfer, pursuant to law either of (i) the rights and/or obligations of PSRDCL under any of the project agreements, or of (ii) all or part of the assets or undertaking of PSRDCL and such transfer causes a material adverse effect;
(xvi) an execution levied on any of the assets of PSRDCL has caused material adverse effect;
(xvii) PSRDCL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the PSRDCL or for the whole or material part of its assets that has a material bearing on the project;
(xviii) PSRDCL has been, or is in the process of being liquidated, dissolved, wound up, amalgamated or reconstituted in manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;
(xix) a resolution for winding up of PSRDCL is passed, or any petition for winding up of PSRDCL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or PSRDCL is ordered to wound up by court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of PSRDCL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of PSRDCL under the PSRDCL Concession Agreement and project agreement; and provided that:

    (a) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the PSRDCL Concession Agreement and the project agreements;
    (b) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the PSRDCL Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the PSRDCL as at the appointed date; and
    (c) each of the project agreements remains in full force and effect;

(xx) any representation or warranty of PSRDCL herein contained which is, as of the date hereof, found to be materially false or PSRDCL is at any time hereafter found to be in breach thereof;
(xxi) PSRDCL submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect of NHAI's rights, obligations or interests and which is false in material particulars;
(xxii) PSRDCL has failed to fulfil any obligation, for which failure termination has been specified in the PSRDCL Concession Agreement; or
(xxiii) PSRDCL commits default in complying with any other provision of the PSRDCL Concession Agreement if such a default causes material adverse effect on NHAI.

Without prejudice to any other rights or remedies which NHAI may have under the PSRDCL Concession Agreement, upon the occurrence of an SPV Default, the NHAI shall be entitled to terminate the PSRDCL Concession Agreement by issuing a termination notice to PSRDCL. Before issuing the termination notice, NHAI shall, by a notice, inform PSRDCL of its intention to issue such termination notice and grant 15 days to PSRDCL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the PSRDCL Concession Agreement.

Termination for NHAI Default

In the event that any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the PSRDCL Concession Agreement, NHAI shall be deemed to be in default of the PSRDCL Concession Agreement **("NHAI Default")** unless the default has occurred as a result of any breach of the PSRDCL Concession Agreement by PSRDCL or due to force majeure. The defaults referred to herein shall include:

(i) NHAI commits a material default in complying with any of the provisions of the PSRDCL Concession Agreement and such default has a material adverse effect on PSRDCL;
(ii) NHAI has failed to make any payment to PSRDCL within the period specified in the PSRDCL Concession Agreement;
(iii) NHAI repudiates the PSRDCL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the PSRDCL Concession Agreement; or
(iv) the state commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on PSRDCL and the breach continues for a period of 90 days from the date of notice given in this behalf by PSRDCL to NHAI.

Without prejudice to any other right or remedy which PSRDCL may have under the PSRDCL Concession Agreement, upon occurrence of NHAI default, PSRDCL shall, subject to the provisions of the substitution agreement, be entitled to terminate the PSRDCL Concession Agreement by issuing a termination notice to NHAI; provided that before issuing the termination notice, the PSRDCL shall by a notice inform NHAI of its intention to issue the termination notice and grant 15 days to NHAI to make a representation, and may after the expiry of such 15 days, whether or not it is in receipt of such representation, issue the termination notice.

I. ***Termination Payment***

Termination Payment shall become due and payable to PSRDCL within 15 days of a demand being made to NHAI with the necessary particulars, and in the event of any delay, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. Provided that such delay shall not exceed 90 days. For the avoidance of any doubt, it is expressly agreed that termination payment shall constitute full discharge by NHAI of its payment obligations in respect thereof hereunder.

J. ***Defects Liability after Termination***

PSRDCL shall be responsible for all defects and deficiencies in the project highway for a period of 120 days after termination, and shall have the obligations to repair or rectify, at their own cost, all defects and deficiencies observed by the independent engineers in the project highway during the aforesaid period. In the event that PSRDCL fail to repair or rectify such defect or deficiency within 15 days from the date of notice issued by NHAI in this behalf, NHAI shall be entitled to get the same repaired or rectified at PSRDCL's risk and cost so as to make the project highway conform to the maintenance requirements. All costs incurred by NHAI hereunder shall be reimbursed by PSRDCL to NHAI within 15 days of receipt of demand thereof, and in the event of default in reimbursing such costs, NHAI shall be entitled to recover the same from the Escrow Account.

K. ***Performance Security***

PSRDCL shall, for the performance of its obligations under the PSRDCL Concession Agreement during the construction period, provide to NHAI no later than 180 days from the date of PSRDCL Concession Agreement,

an irrevocable and unconditional guarantee from a bank for a sum equivalent to ₹417.50 million in the form set forth in the PSRDCL Concession Agreement ("**Performance Security**"). Until such time the Performance Security is provided by PSRDCL and the same comes into effect, the bid security shall remain in force and effect, and upon such provision of the Performance Security, NHAI shall release the bid security to PSRDCL.

L. ***O&M obligations of PSRDCL***

During the operation period, PSRDCL shall operate and maintain the project highway in accordance with the PSRDCL Concession Agreement either by itself, or through the O&M contractor and if required, modify, repair or otherwise make improvements to the project highway to comply with the provisions of the PSRDCL Concession Agreement, applicable laws and applicable permits, and conform to specifications and standards and good industry practice. The obligations of PSRDCL shall include:

(i) permitting safe, smooth and uninterrupted flow of traffic on the project highway during normal operating conditions;
(ii) collecting and appropriating the fee;
(iii) minimising disruption to traffic in the event of accidents or other incidents affecting the safety and use of the project highway by providing a rapid and effective response and maintaining liaison with emergency services of the state;
(iv) carrying out periodic preventive maintenance of the project highway;
(v) undertaking routine maintenance including prompt repairs of potholes, cracks, joints, drains, embankments, structures, pavements markings, lighting, road signs and other traffic control devices;
(vi) undertaking major maintenance such as resurfacing of pavements, repairs to structures, and repairs and refurbishment of tolling system and other equipment;
(vii) preventing, with the assistance of concerned law enforcement agencies, any unauthorised use of the project highway;
(viii) preventing with the assistance of the concerned law enforcement agencies, any encroachments on the project highway;
(ix) protection of the environment and provision of equipment and materials thereof;
(x) operations and maintenance of all communication, control and administrative systems necessary for the efficient operation of project highway;
(xi) maintaining a public relations unit to interface with and attend to suggestions from the users, government agencies, media and other agencies; and
(xii) complying with safety requirements in accordance with the PSRDCL Concession Agreement.

PSRDCL shall remove promptly from the project highway all surplus construction machinery and materials, waste materials (including hazardous materials and waste water), rubbish and other debris (including, without limitation, accident debris) and keep the project highway in a clean, tidy and orderly condition, and in conformity with the applicable laws, applicable permits and good industry practice.

PSRDCL shall maintain, in conformity with good industry practice, all stretches of approach roads, over passes, under passes or other structures situated on the site but not forming part of the carriageway.

M. ***Insurance during concession period***

PSRDCL shall effect and maintain at its own cost, during the construction period and the operation period, such insurances for such maximum sums as may be required under the financing agreements, and the applicable laws, and such insurances as may be necessary or prudent in accordance with good industry practice. PSRDCL shall also effect and maintain such insurances as may be necessary for mitigating the risks that may devolve on NHAI as a consequence of any act or omission of PSRDCL during the construction period. PSRDCL shall procure that in each insurance policy, NHAI shall be a co-insured and that the insurer shall pay the proceeds of insurance into the Escrow Account. For the avoidance of doubt, the level of insurance to be maintained by PSRDCL after repayment of senior lenders' dues in full shall be determined on the same principles as applicable for determining the level of insurance prior to such repayment of senior lenders' dues.

N. ***Liability and Indemnity***

General Indemnity

PSRDCL will indemnify, defend, save and hold harmless NHAI and its officers, servants, agents, government instrumentalities and government owned and/or controlled entities/enterprises, (the "**Authority Indemnified Persons**") against any and all suits, proceedings, actions, demands and third party claims for any loss, damage, cost and expense of whatever kind and nature, whether arising out of any breach by PSRDCL of any of its obligations under the PSRDCL Concession Agreement or any related agreement or on account of any defect or deficiency in the provision of services by PSRDCL to any user or from any negligence of PSRDCL under contract or tort or on any other ground whatsoever, except to the extent that any such suits, proceedings, actions, demands and claims have arisen due to any negligent act or omission, or breach or default of the PSRDCL Concession Agreement on the part of Authority Indemnified Persons.

NHAI will indemnify, defend, save and hold harmless PSRDCL against any and all suits, proceedings, actions, demands and third party claims for any loss, damage, cost and expense of whatever kind and nature arising out of (i) defect in title and/or the rights of NHAI in the land comprised in the site, and/or (ii) breach by NHAI of any of its obligations under the PSRDCL Concession Agreement or any related agreement, which materially and adversely affect the performance by PSRDCL of its obligations under the PSRDCL Concession Agreement, save and except that where any such claim, suit, proceeding, action, and/or demand has arisen due to a negligent act or omission, or breach of any of its obligations under any provision of the PSRDCL Concession Agreement or any related agreement and/or breach of its statutory duty on the part of PSRDCL, its subsidiaries, affiliates, contractors, servants or agents, the same shall be the liability of PSRDCL.

Indemnity by PSRDCL

Without limiting the generality of the above clause, PSRDCL shall fully indemnify, hold harmless and defend NHAI and the Authority Indemnified Persons from and against any and all loss and/or damages arising out of or with respect to:

(i) failure of PSRDCL to comply with applicable laws and applicable permits;
(ii) payment of taxes required to be made by PSRDCL in respect of the income or other taxes of PSRDCL's contractors, suppliers and representatives; or
(iii) non-payment of amounts due as a result of materials or services furnished to PSRDCL or any of its contractors which are payable by PSRDCL or any of its contractors.

Without limiting the generality of the provisions of the PSRDCL Concession Agreement, PSRDCL shall fully indemnify, hold harmless and defend the Authority Indemnified Persons from and against any and all suits, proceedings, actions, claims, demands, liabilities and damages which the Authority Indemnified Persons may suffer, or pay by reason of any demands, claims, suits, or proceedings arising out of claims of infringement of any domestic or foreign patent rights, copyrights or other intellectual property, proprietary or confidentiality rights with respect to any materials, information, design or process used by PSRDCL or by PSRDCL's contractors in performing PSRDCL's obligations or in any way incorporated in or related to the project. If in any such suit, action, claim or proceedings, a temporary restraint order or preliminary injunction is granted, PSRDCL shall make every reasonable effort, by giving a satisfactory bond or otherwise, to secure the revocation or suspension of the injunction or restraint order. If, in any such suit, action, claim or proceedings, the project highway, or any part thereof or comprised therein, is held to constitute an infringement and its use is permanently enjoined, PSRDCL shall promptly make every reasonable effort to secure for NHAI a licence, at no cost to NHAI, authorising continued use of the infringing work. If PSRDCL is unable to secure such licence within a reasonable time, PSRDCL shall, at its own expense, and without impairing the specifications and standards, either replace the affected work or part, or process thereof with non-infringing work or part or process, or modify the same so that It becomes non-infringing.

O. *Effect of Force Majeure Event on the concession*

Upon occurrent of any force majeure event prior to the appointed date, the period set forth in the PSRDCL Concession Agreement for achieving financial close shall be extended by a period equal in length to the duration of the force majeure event.

At any time after the appointed date, if any force majeure event occurs:

(i) before COD, the concession period and the dates set forth in the project completion schedule shall be extended by a period equal in length to the duration for which such force majeure event subsists; or
(ii) after COD, whereupon PSRDCL is unable to collect fee despite making best efforts or it is directed by NHAI to suspend the collection thereof during the subsistence of such force majeure event, the concession period shall be extended by a period, equal in length to the period during which PSRDCL was prevented from collection of fee on account thereof, provided that in the event of partial collection of fee where the daily collection if less than 90% of the average daily fee, NHAI shall extend the concession period in proportion to the loss of fee on a daily basis. For the avoidance of doubt, loss of 25% in collection of fee as compared to the average daily fee for four days shall entitle PSRDCL to extension of one day in the concession period.

P. *Suspension of PSRDCL rights*

Suspension upon PSRDCL default

Upon occurrence of PSRDCL default, NHAI shall be entitled, without prejudice to its other rights and remedies under the PSRDCL Concession Agreement including rights of termination, to (i) suspend all rights of PSRDCL under the PSRDCL Concession Agreement including PSRDCL's right to collect fee, and other revenues, and (ii) exercise such rights itself and perform the obligations or authorise any other person to exercise or perform the same on its behalf during such suspension. Suspension shall be effective forthwith upon issue of notice by NHAI to PSRDCL and may extend up to a period not exceeding 180 days from the date of issue of such notice; provided that upon written request from PSRDCL and lender's representative, NHAI shall extend the aforesaid period of 180 days by a further period not exceeding 90 days.

Authority to act on behalf of PSRDCL

During the period of suspension, NHAI shall, on behalf of PSRDCL, collect all fee and revenues under and in accordance with the PSRDCL Concession Agreement and deposit the same in the escrow account. NHAI shall be entitled to make withdrawals form the escrow account for meeting the costs incurred by it for remedying and rectifying the cause of suspension, and thereafter for defraying the expenses specified in the PSRDCL Concession Agreement.

During the period of suspension hereunder, all assets and liabilities in relation to project highway shall continue to vest in PSRDCL and all things done or actions taken, including expenditure incurred by NHAI for discharging the obligations of PSRDCL under and in accordance with the PSRDCL Concession Agreement and the project agreements, shall be deemed to have been done or taken for and on behalf of PSRDCL and PSRDCL undertakes to indemnify NHAI for all costs incurred during such period. PSRDCL hereby licenses and sub-licenses respectively, NHAI or any other person authorised by it under the PSRDCL Concession Agreement to use during suspension, all intellectual property belonging to or licenced to PSRDCL.

Revocation of Suspension

In the event that NHAI shall have rectified or removed the cause of suspension within a period not exceeding 90 days from the date of suspension, it shall revoke the suspension forthwith and restore all rights of PSRDCL under the PSRDCL Concession Agreement.

Upon PSRDCL having cured PSRDCL default within a period not exceeding 90 days from the date of suspension, NHAI shall revoke the suspension forthwith and restore all rights of PSRDCL under the PSRDCL Concession Agreement.

Substitution of PSRDCL

At any time during the period of suspension, the lenders' representative, on behalf of senior lenders, shall be entitled to substitute PSRDCL under and in accordance with the substitution agreement, and upon receipt of notice, thereunder from the lenders' representative, NHAI shall withhold termination for a period not exceeding 180 days from the day of suspension, and any extension thereof under the PSRDCL Concession Agreement, for enabling the lenders' representative to exercise its rights of substitution on behalf of senior lenders.

Termination

At any time during the period of suspension under the PSRDCL Concession Agreement, PSRDCL may by notice require the authority to revoke the suspension and issue a termination notice. Subject to the rights of the lenders' representative to undertake substitution in accordance with the provisions of the PSRDCL Concession Agreement and within the period specified in the PSRDCL Concession Agreement, NHAI shall, within 15 days of receipt of such notice, terminate the PSRDCL Concession Agreement under and in accordance with the PSRDCL Concession Agreement.

Notwithstanding anything to the contrary contained in the PSRDCL Concession Agreement, in the event that suspension is not revoked within 180 days from the date of suspension or within the extended period, if any, set forth in the PSRDCL Concession Agreement, the PSRDCL Concession Agreement shall, upon expiry of the aforesaid period, be deemed to have terminated by mutual agreement of the parties and all the provisions of the PSRDCL Concession Agreement shall apply, *mutatis mutandis*, to such termination as if a termination notice had been issued by NHAI upon occurrence of a PSRDCL default.

4. Concession agreement executed between BAEL and NHAI dated May 08, 2013 for six-laning of Barwa Adda-Panagarh Section of NH-2 from Km 398.240 to Km 521.120 including Panagarh Bypass in the States of Jharkhand and West Bengal under NHDP Phase V on Toll on DBFOT pattern, for a period of 20 years ("BAEL Concession Agreement") read with the Supplementary Concession Agreement dated January 9, 2025 entered into between BAEL and the National Highways Authority of India.

.

A. *Grant of Concession*

Subject to the provisions of the BAEL Concession Agreement, the applicable laws and applicable permits, NHAI has granted BAEL exclusive right, license and authority during the subsistence of the BAEL Concession Agreement to construct, operate and maintain the project for 20 years commencing from the appointed date as mentioned in the BAEL Concession Agreement.

Subject to and in accordance with the BAEL Concession Agreement, the concession granted shall oblige or entitle (as the case maybe) BAEL to:

(i) right of way, access and license to the site for the purpose of and to the extent conferred by the provisions of the BAEL Concession Agreement;
(ii) finance and construct the project highway;
(iii) manage, operate and maintain the project highway and regulate the use thereof by third parties;
(iv) demand, collect and appropriate fee from vehicles and users liable for payment of fee for using the project highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;
(v) perform and fulfil all the obligations under and in accordance with the BAEL Concession Agreement;
(vi) bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of BAEL under the BAEL Concession Agreement; and
(vii) neither assign, transfer or sublet or create any lien or encumbrances on the BAEL Concession Agreement or the concession thereby granted or on the whole or any part of the project highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the BAEL Concession Agreement and the substitution agreement.

B. ***Concession Fees***

In consideration of the grants of concession under this BAEL Concession Agreement, concession fee payable by BAEL to NHAI shall be ₹1 per year during the term of the BAEL Concession Agreement (**"Concession Fees"**).

C. ***Additional Concession Fee***

BAEL agrees to pay to NHAI, on the appointed date a premium in the form of an additional concession fee equal to ₹ 420.00 million as due to NHAI during that year, due and payable for the period remaining in that year; and for each subsequent year of the concession period, the premium shall be determined by increasing the amount of premium in the respective year by an additional 5% compared to the immediately preceding year.

D. ***Escrow Account***

BAEL shall, prior to the appointed date, open and establish an escrow account **("Escrow Account")** and shall deposit the following inflows and receipts into it: i) all funds constituting the financial package; ii) all fee and any other revenues from or in respect of the project highway, including the proceeds of any deposits, capital receipts or insurance claims; and iii) all payments by NHAI, after deduction of any outstanding Concession Fees. The nature and scope of the Escrow Account shall be as per the agreement entered into amongst BAEL, NHAI, the escrow bank and the senior lenders **("Escrow Agreement".)**

E. ***Withdrawals during concession period***

BAEL shall, at the time of opening of the Escrow Account, give irrevocable instructions, by way of an Escrow Agreement, to the escrow bank instructing that deposits in the Escrow Account shall be appropriated in the following order each month, or at a shorter intervals as necessary, and if not due in a month then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in the month when due:

(i) all taxes due and payable by BAEL for and in respect of the project highway;
(ii) all payments relating to construction of the project highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;
(iii) operation and maintenance **("O&M")** expenses, subject to the ceiling, if any, set forth in the financing agreements;
(iv) O&M expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the BAEL Concession Agreement and certified by NHAI as due and payable to it;
(v) Concession Fee due and payable to NHAI;
(vi) monthly proportionate provision of debt service due in an accounting year;
(vii) premium due and payable to NHAI;
(viii) all payment and damages certified by NHAI as due and payable to it by BAEL, including repayment of revenue shortfall loan;
(ix) monthly proportionate provision of debt service payments due in an accounting year in respect of subordinated debt;
(x) any reserve requirements set forth in the financing agreements; and
(xi) balance, if any, in accordance with the instructions of BAEL.

BAEL shall not in any manner modify the order of payment specified above, except with prior written approval of NHAI.

F. ***Withdrawals upon Termination***

Notwithstanding anything to the contrary contained in the BAEL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination be appropriated in the following order:

(i) all taxes due and payable by BAEL in respect of the project highway;

(ii) 90% of the debt due excluding subordinated debt;
(iii) outstanding Concession Fees;
(iv) all payments and damages certified by NHAI as due and payable to it by BAEL including premium and repayment of the revenue shortfall loan;
(v) retention and payments relating to the liability for defects and deficiencies set forth in the BAEL Concession Agreement;
(vi) outstanding debt service including the balance of debt due;
(vii) outstanding subordinated debt;
(viii) incurred or accrued O&M expenses;
(ix) any other payments required to be made under the BAEL Concession Agreement; and
(x) balance, if any, in accordance with the instructions of BAEL. Provided that no appropriations shall be made until a vesting certificate has been issued by NHAI.

G. ***Change of Scope***

NHAI may, notwithstanding anything to the contrary contained in the BAEL Concession Agreement, require the provision of additional works and services which are not included in the scope of the projects as contemplated in the BAEL Concession Agreement (**"Change of Scope"**). Any such Change of Scope shall be made in accordance with the provisions of the BAEL Concession Agreement and the costs thereof shall be expended by BAEL and reimbursed to it by NHAI in accordance with the BAEL Concession Agreement.

If BAEL determines at any time that a Change of Scope is necessary for providing safer and improved services to the users, it shall by notice in writing require NHAI to consider such Change of Scope. NHAI within 15 days of receipt of such notice, either accept it with modifications, if any, and initiate proceedings thereof or inform BAEL in writing of its reasons for not accepting it.

H. ***Compensation for Breach of Agreement***

In the event of BAEL being in material default or breach of the BAEL Concession Agreement, it shall pay to NHAI by way of compensation, all direct costs suffered or incurred by NHAI as a consequence of such material default within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any breach or default in respect of which damages are expressly specified and payable under the BAEL Concession Agreement.

In the event of NHAI being in material default or breach of the BAEL Concession Agreement at any time after the appointed date, it shall pay BAEL, by way of compensation, all direct costs suffered or incurred by BAEL as a consequence of such material default within 30 days of receipt of the demand supported by necessary particulars thereof. No such compensation shall be payable for any breach or default in respect of which damages have been expressly specified in the BAEL Concession Agreement.

I. ***Termination of the BAEL Concession Agreement***

Termination for BAEL Default

Save as otherwise provided in the BAEL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and BAEL fail to cure the default within the cure period set forth in the BAEL Concession Agreement, or where no cure period is specified, then within a cure period of 60 days, BAEL shall be deemed to be in default of the BAEL Concession Agreement **("SPV Default")** unless the default has occurred solely as a result of any breach of the BAEL Concession Agreement by the NHAI or due to force majeure. The defaults referred to herein shall include:

(i) the performance security has been encashed and appropriated and BAEL fails to replenish or provide fresh performance security within a cure period of 30 days;
(ii) subsequent to the replenishment or furnishing of fresh performance security, BAEL fails to cure within a cure period of 90 days, the SPV Default for which whole or part of the performance security was appropriated;

(iii) BAEL do not achieve the latest outstanding project milestone and continues to be in default for 90 days;
(iv) BAEL abandons or manifests intention to abandon the construction or operation of the project highway without prior written consent of NHAI;
(v) project completion date does not occur within the specified period;
(vi) punch list items have not been completed within the specified period;
(vii) BAEL is in breach of the maintenance requirements or the safety requirements, as the case maybe;
(viii) BAEL has failed to make any payment to NHAI within the period specified in the BAEL Concession Agreement;
(ix) an escrow default has occurred and BAEL fails to cure the default within a cure period of 15 days;
(x) upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case maybe, in accordance with the substitution agreement and BAEL fails to cure the default within the cure period specified in the BAEL Concession Agreement;
(xi) a breach of any of the project agreements by BAEL has caused a material adverse effect;
(xii) BAEL create any encumbrance in breach of the BAEL Concession Agreement;
(xiii) BAEL repudiate the BAEL Concession Agreement or otherwise take any action or evidence or conveys an intention not to be bound by the BAEL Concession Agreement;
(xiv) change in ownership has occurred in breach of the BAEL Concession Agreement;
(xv) there is a transfer, pursuant to law either of (i) the rights and/or obligations of BAEL under any of the project agreements, or of (ii) all or part of the assets or undertaking of BAEL and such transfer causes a material adverse effect;
(xvi) an execution levied on any of the assets of BAEL has cause material adverse effect;
(xvii) BAEL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the BAEL or for the whole or material part of its assets that has a material bearing on the project;
(xviii) BAEL has been, or is in the process of being liquidated, dissolved, wound up, amalgamated or reconstituted in manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;
(xix) a resolution for winding up of BAEL is passed, or any petition for winding up of BAEL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or BAEL is ordered to wound up by court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of BAEL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of BAEL under the BAEL Concession Agreement and project agreement; and provided that:

    (a) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the BAEL Concession Agreement and the project agreements;
    (b) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the BAEL Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the BAEL as at the appointed date; and
    (c) each of the project agreements remains in full force and effect;

(xx) any representation or warranty of BAEL herein contained which is, as of the date hereof, found to be materially false or BAEL is at any time hereafter found to be in breach thereof;
(xxi) BAEL submit to NHAI any statement, note or other document, in written or electronic form, which has a material effect of NHAI's rights, obligations or interests and which is false in material particulars;
(xxii) BAEL has failed to fulfil any obligation, for which failure termination has been specified in the BAEL Concession Agreement; or
(xxiii) BAEL commits default in complying with any other provision of the BAEL Concession Agreement if such a default causes material adverse effect on NHAI.

Without prejudice to any other rights or remedies which NHAI may have under the BAEL Concession Agreement, upon the occurrence of an SPV Default, the NHAI shall be entitled to terminate the BAEL Concession Agreement by issuing a termination notice to BAEL. Before issuing the termination notice, NHAI shall, by notice, inform of its intention to issue a termination notice and grant 15 days to BAEL to make a

representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the BAEL Concession Agreement.

Termination for NHAI Default

In the event that any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the BAEL Concession Agreement, NHAI shall be deemed to be in default of the BAEL Concession Agreement **("NHAI Default")** unless the default has occurred as a result of any breach of the BAEL Concession Agreement by BAEL or due to force majeure. The defaults referred to herein shall include:

(i) NHAI commits a material default in complying with any of the provisions of the BAEL Concession Agreement and such default has a material adverse effect on BAEL;
(ii) NHAI has failed to make any payment to BAEL within the period specified in the BAEL Concession Agreement;
(iii) NHAI repudiates the BAEL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the BAEL Concession Agreement; or
(iv) the state commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on BAEL and the breach continues for a period of 90 days from the date of notice given in this behalf by BAEL to NHAI.

Without prejudice to any other right or remedy which BAEL may have under the BAEL Concession Agreement, upon occurrence of NHAI default, BAEL shall, subject to the provisions of the substitution agreement, be entitled to terminate the BAEL Concession Agreement by issuing a termination notice to NHAI; provided that before issuing the termination notice, the BAEL shall by a notice inform NHAI of its intention to issue the termination notice and grant 15 days to NHAI to make a representation, and may after the expiry of such 15 days, whether or not it is in receipt of such representation, issue the termination notice.

J. ***Termination Payment***

Termination Payment shall become due and payable to BAEL within 15 days of a demand being made to NHAI with the necessary particulars, and in the event of any delay, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. Provided that such delay shall not exceed 90 days. For the avoidance of any doubt, it is expressly agreed that termination payment shall constitute full discharge by NHAI of its payment obligations in respect thereof hereunder.

K. ***Defects Liability after Termination***

BAEL shall be responsible for all defects and deficiencies in the project highway for a period of 120 days after termination, and shall have the obligations to repair or rectify, at their own cost, all defects and deficiencies observed by the independent engineers in the project highway during the aforesaid period. In the event that BAEL fail to repair or rectify such defect or deficiency within 15 days from the date of notice issued by NHAI in this behalf, NHAI shall be entitled to get the same repaired or rectified at BAEL's risk and cost so as to make the project highway conform to the maintenance requirements. All costs incurred by NHAI hereunder shall be reimbursed by BAEL to NHAI within 15 days of receipt of demand thereof, and in the event of default in reimbursing such costs, NHAI shall be entitled to recover the same from the Escrow Account.

L. ***Performance Security***

BAEL shall, for the performance of its obligations under the BAEL Concession Agreement during the construction period, provide to NHAI no later than 180 days from the date of BAEL Concession Agreement, an irrevocable and unconditional guarantee from a bank for a sum equivalent to ₹1071.90 million in the form set forth in the BAEL Concession Agreement ("**Performance Security**"). Until such time the Performance Security is provided by BAEL and the same comes into effect, the bid security shall remain in force and effect, and upon such provision of the Performance Security, NHAI shall release the bid security to BAEL.

M. ***O&M obligations of BAEL***

During the operation period, BAEL shall operate and maintain the project highway in accordance with the BAEL Concession Agreement either by itself, or through the O&M contractor and if required, modify, repair or otherwise make improvements to the project highway to comply with the provisions of the BAEL Concession Agreement, applicable laws and applicable permits, and conform to specifications and standards and good industry practice. The obligations of BAEL shall include:

(i) permitting safe, smooth and uninterrupted flow of traffic on the project highway during normal operating conditions;
(ii) collecting and appropriating the fee;
(iii) minimising disruption to traffic in the event of accidents or other incidents affecting the safety and use of the project highway by providing a rapid and effective response and maintaining liaison with emergency services of the state;
(iv) carrying out periodic preventive maintenance of the project highway;
(v) undertaking routine maintenance including prompt repairs of potholes, cracks, joints, drains, embankments, structures, pavements markings, lighting, road signs and other traffic control devices;
(vi) undertaking major maintenance such as resurfacing of pavements, repairs to structures, and repairs and refurbishment of tolling system and other equipment;
(vii) preventing, with the assistance of concerned law enforcement agencies, any unauthorised use of the project highway;
(viii) preventing with the assistance of the concerned law enforcement agencies, any encroachments on the project highway;
(ix) protection of the environment and provision of equipment and materials thereof;
(x) operations and maintenance of all communication, control and administrative systems necessary for the efficient operation of project highway;
(xi) maintaining a public relations unit to interface with and attend to suggestions from the users, government agencies, media and other agencies; and
(xii) complying with safety requirements in accordance with the BAEL Concession Agreement.

BAEL shall remove promptly from the project highway all surplus construction machinery and materials, waste materials (including hazardous materials and waste water), rubbish and other debris (including, without limitation, accident debris) and keep the project highway in a clean, tidy and orderly condition, and in conformity with the applicable laws, applicable permits and good industry practice. For avoidance of doubt, it is agreed that the debris and material excavated shall be carried to and deposited at a place to be decided in consultation with NHAI/independent engineer.

BAEL shall maintain, in conformity with good industry practice, all stretches of approach roads, over passes, under passes or other structures situated on the site but not forming part of the carriageway.

N. ***Insurance during concession period***

BAEL shall effect and maintain at its own cost, during the construction period and the operation period, such insurances for such maximum sums as may be required under the financing agreements, and the applicable laws, and such insurances as may be necessary or prudent in accordance with good industry practice. BAEL shall also effect and maintain such insurances as may be necessary for mitigating the risks that may devolve on NHAI as a consequence of any act or omission of BAEL during the construction period. BAEL shall procure that in each insurance policy, NHAI shall be a co-insured and that the insurer shall pay the proceeds of insurance into the Escrow Account. For the avoidance of doubt, the level of insurance to be maintained by BAEL after repayment of senior lenders' dues in full shall be determined on the same principles as applicable for determining the level of insurance prior to such repayment of senior lenders' dues.

O. ***Liability and Indemnity***

General Indemnity

BAEL will indemnify, defend, save and hold harmless NHAI and its officers, servants, agents, government instrumentalities and government owned and/or controlled entities/enterprises, (the "**Authority Indemnified Persons**") against any and all suits, proceedings, actions, demands and third party claims for any loss, damage, cost and expense of whatever kind and nature, whether arising out of any breach by BAEL of any of its obligations under the BAEL Concession Agreement or any related agreement or on account of any defect or deficiency in the provision of services by BAEL to any user or from any negligence of BAEL under contract or tort or on any other ground whatsoever, except to the extent that any such suits, proceedings, actions, demands and claims have arisen due to any negligent act or omission, or breach or default of the BAEL Concession Agreement on the part of Authority Indemnified Persons.

NHAI will indemnify, defend, save and hold harmless BAEL against any and all suits, proceedings, actions, demands and third party claims for any loss, damage, cost and expense of whatever kind and nature arising out of (i) defect in title and/or the rights of NHAI in the land comprised in the site, and/or (ii) breach by NHAI of any of its obligations under the BAEL Concession Agreement or any related agreement, which materially and adversely affect the performance by BAEL of its obligations under the BAEL Concession Agreement, save and except that where any such claim, suit, proceeding, action, and/or demand has arisen due to a negligent act or omission, or breach of any of its obligations under any provision of the BAEL Concession Agreement or any related agreement and/or breach of its statutory duty on the part of BAEL, its subsidiaries, affiliates, contractors, servants or agents, the same shall be the liability of BAEL.

Indemnity by BAEL

Without limiting the generality of the above clause, BAEL shall fully indemnify, hold harmless and defend NHAI and the Authority Indemnified Persons from and against any and all loss and/or damages arising out of or with respect to:

(i) failure of BAEL to comply with applicable laws and applicable permits;
(ii) payment of taxes required to be made by BAEL in respect of the income or other taxes of BAEL's contractors, suppliers and representatives; or
(iii) non-payment of amounts due as a result of materials or services furnished to BAEL or any of its contractors which are payable by BAEL or any of its contractors.

Without limiting the generality of the provisions of the BAEL Concession Agreement, BAEL shall fully indemnify, hold harmless and defend the Authority Indemnified Persons from and against any and all suits, proceedings, actions, claims, demands, liabilities and damages which the Authority Indemnified Persons may suffer, or pay by reason of any demands, claims, suits, or proceedings arising out of claims of infringement of any domestic or foreign patent rights, copyrights or other intellectual property, proprietary or confidentiality rights with respect to any materials, information, design or process used by BAEL or by BAEL's contractors in performing BAEL's obligations or in any way incorporated in or related to the project. If in any such suit, action, claim or proceedings, a temporary restraint order or preliminary injunction is granted, BAEL shall make every reasonable effort, by giving a satisfactory bond or otherwise, to secure the revocation or suspension of the injunction or restraint order. If, in any such suit, action, claim or proceedings, the project highway, or any part thereof or comprised therein, is held to constitute an infringement and its use is permanently enjoined, BAEL shall promptly make every reasonable effort to secure for NHAI a licence, at no cost to NHAI, authorising continued use of the infringing work. If BAEL is unable to secure such licence within a reasonable time, BAEL shall, at its own expense, and without impairing the specifications and standards, either replace the affected work or part, or process thereof with non-infringing work or part or process, or modify the same so that It becomes non-infringing.

P. ***Effect of Force Majeure Event on the concession***

Upon occurrent of any force majeure event prior to the appointed date, the period set forth in the BAEL Concession Agreement for achieving financial close shall be extended by a period equal in length to the duration of the force majeure event.

At any time after the appointed date, if any force majeure event occurs:

(i) before COD, the concession period and the dates set forth in the project completion schedule shall be extended by a period equal in length to the duration for which such force majeure event subsists; or

(ii) after COD, whereupon BAEL is unable to collect fee despite making best efforts or it is directed by NHAI to suspend the collection thereof during the subsistence of such force majeure event, the concession period shall be extended by a period, equal in length to the period during which BAEL was prevented from collection of fee on account thereof, provided that in the event of partial collection of fee where the daily collection if less than 90% of the average daily fee, NHAI shall extend the concession period in proportion to the loss of fee on a daily basis. For the avoidance of doubt, loss of 25% in collection of fee as compared to the average daily fee for four days shall entitle BAEL to extension of one day in the concession period.

Q. *Suspension of BAEL rights*

Suspension upon BAEL default

Upon occurrence of BAEL default, NHAI shall be entitled, without prejudice to its other rights and remedies under the BAEL Concession Agreement including rights of termination, to (i) suspend all rights of BAEL under the BAEL Concession Agreement including BAEL's right to collect fee, and other revenues, and (ii) exercise such rights itself and perform the obligations or authorise any other person to exercise or perform the same on its behalf during such suspension. Suspension shall be effective forthwith upon issue of notice by NHAI to BAEL and may extend up to a period not exceeding 180 days from the date of issue of such notice; provided that upon written request from BAEL and lender's representative, NHAI shall extend the aforesaid period of 180 days by a further period not exceeding 90 days.

Authority to act on behalf of BAEL

During the period of suspension, NHAI shall, on behalf of BAEL, collect all fee and revenues under and in accordance with the BAEL Concession Agreement and deposit the same in the escrow account. NHAI shall be entitled to make withdrawals form the escrow account for meeting the costs incurred by it for remedying and rectifying the cause of suspension, and thereafter for defraying the expenses specified in the BAEL Concession Agreement.

During the period of suspension hereunder, all assets and liabilities in relation to the project highway shall continue to vest in BAEL and all things done or actions taken, including expenditure incurred by NHAI for discharging the obligations of BAEL under and in accordance with the BAEL Concession Agreement and the project agreements, shall be deemed to have been done or taken for and on behalf of BAEL and BAEL undertakes to indemnify NHAI for all costs incurred during such period. BAEL hereby licenses and sub-licenses respectively, NHAI or any other person authorised by it under the BAEL Concession Agreement to use during suspension, all intellectual property belonging to or licenced to BAEL with respect to the project highway and its design, engineering, construction, operation and maintenance, and which is used or created by BAEL in performing its obligations under the BAEL Concession Agreement.

Revocation of Suspension

In the event that NHAI shall have rectified or removed the cause of suspension within a period not exceeding 90 days from the date of suspension, it shall revoke the suspension forthwith and restore all rights of BAEL under the BAEL Concession Agreement.

Upon BAEL having cured BAEL default within a period not exceeding 90 days from the date of suspension, NHAI shall revoke the suspension forthwith and restore all rights of BAEL under the BAEL Concession Agreement.

Substitution of BAEL

At any time during the period of suspension, the lenders' representative, on behalf of senior lenders, shall be entitled to substitute BAEL under and in accordance with the substitution agreement, and upon receipt of notice, thereunder from the lenders' representative, NHAI shall withhold termination for a period not exceeding 180 days from the day of suspension, and any extension thereof under the BAEL Concession Agreement, for enabling the lenders' representative to exercise its rights of substitution on behalf of senior lenders.

Termination

At any time during the period of suspension under the BAEL Concession Agreement, BAEL may by notice require the authority to revoke the suspension and issue a termination notice. Subject to the rights of the lenders' representative to undertake substitution in accordance with the provisions of the BAEL Concession Agreement and within the period specified in the BAEL Concession Agreement, NHAI shall, within 15 days of receipt of such notice, terminate the BAEL Concession Agreement under and in accordance with the BAEL Concession Agreement.

Notwithstanding anything to the contrary contained in the BAEL Concession Agreement, in the event that suspension is not revoked within 180 days from the date of suspension or within the extended period, if any, set forth in the BAEL Concession Agreement, the BAEL Concession Agreement shall, upon expiry of the aforesaid period, be deemed to have terminated by mutual agreement of the parties and all the provisions of the BAEL Concession Agreement shall apply, *mutatis mutandis*, to such termination as if a termination notice had been issued by NHAI upon occurrence of a BAEL default.

5. Concession agreement executed between SBHL ("Concessionaire") and The Governor of Rajasthan (acting through the Chief Engineer (NH), PWD, GoR) (the "Authority") on behalf of Ministry of Road Transport and Highways Government of India dated June 29, 2012 for development and operation of Sikar-Bikaner Section of NH-11 from Km 340.188 of NH 11 to Km 557.775 of NH 11 via Sikar bypass and Bikaner bypass from Km 553.869 of NH 11 to Km 267.325 of NH 89, by two-laning with paved shoulder in the State of Rajasthan on DBFOT basis, for a period of 25 years ("SBHL Concession Agreement").

A. *Grant of Concession*

Subject to the provisions of the SBHL Concession Agreement, the applicable laws and applicable permits, the Authority has granted SBHL exclusive right, license and authority during the subsistence of the SBHL Concession Agreement to construct, operate and maintain the project for 25 years commencing from the appointed date as mentioned in the SBHL Concession Agreement.

Subject to and in accordance with the SBHL Concession Agreement, the concession granted shall oblige or entitle (as the case maybe) SBHL to:

(i) right of way, access and license to the site for the purpose of and to the extent conferred by the provisions of the SBHL Concession Agreement;
(ii) finance and construct the project highway;
(iii) manage, operate and maintain the project highway and regulate the use thereof by third parties;
(iv) demand, collect and appropriate fee from vehicles and users liable for payment of fee for using the project highway or any part thereof and refuse entry of any vehicle if the fee due is not paid;
(v) perform and fulfil all the obligations under and in accordance with the SBHL Concession Agreement;
(vi) bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of SBHL under the SBHL Concession Agreement; and
(vii) neither assign, transfer or sublet or create any lien or encumbrances on the SBHL Concession Agreement or the concession thereby granted or on the whole or any part of the project highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the SBHL Concession Agreement or the substitution agreement.

B. *Concession Fees*

In consideration of the grants of concession under this SBHL Concession Agreement, concession fee payable by SBHL to the Authority shall be ₹1 per year during the term of the SBHL Concession Agreement (**"Concession Fees"**).

C. ***Escrow Account***

SBHL shall, prior to the appointed date, open and establish an escrow account **("Escrow Account")** and shall deposit the following inflows and receipts into it: i) all funds constituting the financial package; ii) all fee and any other revenues from or in respect of the project highway, including the proceeds of any rentals, deposits, capital receipts or insurance claims; and iii) all payments by the Authority, after deduction of any outstanding Concession Fees. The nature and scope of the Escrow Account shall be as per the agreement entered into amongst SBHL, the Authority, the escrow bank and the senior lenders **("Escrow Agreement").**

D. ***Withdrawals during concession period***

SBHL shall, at the time of opening of the Escrow Account, give irrevocable instructions, by way of an Escrow Agreement, to the escrow bank instructing that deposits in the Escrow Account shall be appropriated in the following order each month, or at a shorter intervals as necessary, and if not due in a month then appropriated proportionately in such month and retained in the Escrow Account and paid out therefrom in the month when due:

(i) all taxes due and payable by SBHL for and in respect of the project highway;
(ii) all payments relating to construction of the project highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;
(iii) operation and maintenance **("O&M")** expenses, subject to the ceiling, if any, set forth in the financing agreements;
(iv) O&M expenses and other costs and expenses incurred by the Authority in accordance with the provisions of the SBHL Concession Agreement and certified by the Authority as due and payable to it;
(v) Concession Fee due and payable to the Authority;
(vi) monthly proportionate provision of debt service due in an accounting year;
(vii) all payment and damages certified by the Authority as due and payable to it by SBHL, including repayment of revenue shortfall loan;
(viii) monthly proportionate provision of debt service payments due in an accounting year in respect of subordinated debt;
(ix) any reserve requirements set forth in the financing agreements; and
(x) balance, if any, in accordance with the instructions of SBHL.

SBHL shall not in any manner modify the order of payment specified above, except with prior written approval of the Authority.

E. ***Withdrawals upon Termination***

Notwithstanding anything to the contrary contained in the SBHL Concession Agreement, all amounts standing to the credit of the Escrow Account shall, upon termination be appropriated in the following order:

(i) all taxes due and payable by SBHL in respect of the project highway;
(ii) 90% of the debt due excluding subordinated debt;
(iii) outstanding Concession Fees;
(iv) all payments and damages certified by the Authority as due and payable to it by SBHL including premium and repayment of the revenue shortfall loan;
(v) retention and payments relating to the liability for defects and deficiencies set forth in the SBHL Concession Agreement;
(vi) outstanding debt service including the balance of debt due;
(vii) outstanding subordinated debt;
(viii) incurred or accrued O&M expenses;
(ix) any other payments required to be made under the SBHL Concession Agreement; and

(x) balance, if any, in accordance with the instructions of SBHL, provided that no appropriations shall be made until a vesting certificate has been issued by the Authority.

F. *Change of Scope*

the Authority may, notwithstanding anything to the contrary contained in the SBHL Concession Agreement, require the provision of additional works and services which are not included in the scope of the projects as contemplated in the SBHL Concession Agreement (**"Change of Scope"**). Any such Change of Scope shall be made in accordance with the provisions of the SBHL Concession Agreement and the costs thereof shall be expended by SBHL and reimbursed to it by the Authority in accordance with the SBHL Concession Agreement.

If SBHL determines at any time that a Change of Scope is necessary for providing safer and improved services to the users, it shall by notice in writing require the Authority to consider such Change of Scope. the Authority within 15 days of receipt of such notice, either accept it with modifications, if any, and initiate proceedings thereof or inform SBHL in writing of its reasons for not accepting it.

G. *Compensation for Breach of Agreement*

In the event of SBHL being in material default or breach of the SBHL Concession Agreement, it shall pay to the Authority by way of compensation, all direct costs suffered or incurred by the Authority as a consequence of such material default within 30 days of receipt of the demand supported by necessary particulars thereof. No compensation shall be payable for any breach or default in respect of which damages are expressly specified and payable under the SBHL Concession Agreement or for any consequential losses incurred by NHAI.

In the event of the Authority being in material default or breach of the SBHL Concession Agreement at any time after the appointed date, it shall pay SBHL, by way of compensation, all direct costs suffered or incurred by SBHL as a consequence of such material default within 30 days of receipt of the demand supported by necessary particulars thereof. No such compensation shall be payable for any breach or default in respect of which damages have been expressly specified in the SBHL Concession Agreement.

H. *Termination of the SBHL Concession Agreement*

Termination for SBHL Default

Save as otherwise provided in the SBHL Concession Agreement, in the event that any of the defaults specified below shall have occurred, and SBHL fail to cure the default within the cure period set forth in the SBHL Concession Agreement, or where no cure period is specified, then within a cure period of 60 days, SBHL shall be deemed to be in default of the SBHL Concession Agreement **("SPV Default")** unless the default has occurred solely as a result of any breach of the SBHL Concession Agreement by the Authority or due to force majeure. The defaults referred to herein shall include:

(i) the performance security has been encashed and appropriated and SBHL fails to replenish or provide fresh performance security within a cure period of 30 days;
(ii) subsequent to the replenishment or furnishing of fresh performance security, SBHL fails to cure within a cure period of 90 days, the SPV Default for which whole or part of the performance security was appropriated;
(iii) SBHL do not achieve the latest outstanding project milestone and continues to be in default for 120 days;
(iv) SBHL abandons or manifests intention to abandon the construction or operation of the project highway without prior written consent of the Authority;
(v) project completion date does not occur within the specified period;
(vi) punch list items have not been completed within the specified period;
(vii) SBHL is in breach of the maintenance requirements or the safety requirements, as the case maybe;
(viii) SBHL has failed to make any payment to the Authority within the period specified in the SBHL Concession Agreement;
(ix) an escrow default has occurred and SBHL fails to cure the default within a cure period of 15 days;

(x) upon occurrence of a financial default, the lenders' representative has by notice required the Authority to undertake suspension or termination, as the case maybe, in accordance with the substitution agreement and SBHL fails to cure the default within the cure period specified in the SBHL Concession Agreement;
(xi) a breach of any of the project agreements by SBHL has caused a material adverse effect;
(xii) SBHL creates any encumbrance in breach of the SBHL Concession Agreement;
(xiii) SBHL repudiates the SBHL Concession Agreement or otherwise takes any action or evidence or conveys an intention not to be bound by the SBHL Concession Agreement;
(xiv) change in ownership has occurred in breach of the SBHL Concession Agreement;
(xv) there is a transfer, pursuant to law either of (i) the rights and/or obligations of SBHL under any of the project agreements, or of (ii) all or part of the assets or undertaking of SBHL and such transfer causes a material adverse effect;
(xvi) an execution levied on any of the assets of SBHL has cause material adverse effect;
(xvii) SBHL is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the SBHL or for the whole or material part of its assets that has a material bearing on the project;
(xviii) SBHL has been, or is in the process of being liquidated, dissolved, wound up, amalgamated or reconstituted in manner that would cause, in the reasonable opinion of the Authority, a material adverse effect;
(xix) a resolution for winding up of SBHL is passed, or any petition for winding up of SBHL is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or SBHL is ordered to wound up by court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of SBHL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of SBHL under the SBHL Concession Agreement and project agreement; and provided that:

    (a) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the SBHL Concession Agreement and the project agreements;
    (b) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the SBHL Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the SBHL as at the appointed date; and
    (c) each of the project agreements remains in full force and effect;

(xx) any representation or warranty of SBHL herein contained which is, as of the date hereof, found to be materially false or SBHL is at any time hereafter found to be in breach thereof;
(xxi) SBHL submit to the Authority any statement, note or other document, in written or electronic form, which has a material effect of the Authority's rights, obligations or interests and which is false in material particulars;
(xxii) SBHL has failed to fulfil any obligation, for which failure termination has been specified in the SBHL Concession Agreement; or
(xxiii) SBHL commits default in complying with any other provision of the SBHL Concession Agreement if such a default causes material adverse effect on the Authority.

Without prejudice to any other rights or remedies which the Authority may have under the SBHL Concession Agreement, upon the occurrence of an SPV Default, the Authority shall be entitled to terminate the SBHL Concession Agreement by issuing a termination notice to SBHL. Before issuing the termination notice, the Authority shall, by a notice, inform SBHL of its intention to issue a termination notice and grant 15 days to SBHL to make a representation, and may, after the expiry of the 15 days, whether or not it is in receipt of such representation, issue the termination notice subject to the provisions of the SBHL Concession Agreement.

Termination for the Authority's Default

In the event that any of the defaults specified below shall have occurred, and the Authority fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the SBHL Concession Agreement, the Authority shall be deemed to be in default of the SBHL Concession Agreement

("the Authority's Default") unless the default has occurred as a result of any breach of the SBHL Concession Agreement by SBHL or due to force majeure. The defaults referred to herein shall include:

(i) the Authority commits a material default in complying with any of the provisions of the SBHL Concession Agreement and such default has a material adverse effect on SBHL;
(ii) the Authority has failed to make any payment to SBHL within the period specified in the SBHL Concession Agreement;
(iii) the Authority repudiates the SBHL Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the SBHL Concession Agreement; or
(iv) the state commits a material default in complying with the provisions of the state support agreement if such default has a material adverse effect on SBHL and the breach continues for a period of 90 days from the date of notice given in this behalf by SBHL to the Authority.

Without prejudice to any other right or remedy which SBHL may have under the SBHL Concession Agreement, upon occurrence of the Authority's default, SBHL shall, subject to the provisions of the substitution agreement, be entitled to terminate the SBHL Concession Agreement by issuing a termination notice to the Authority; provided that before issuing the termination notice, the SBHL shall by notice inform the Authority of its intention to issue the termination notice and grant 15 days to the Authority to make a representation, and may after the expiry of such 15 days, whether or not it is in receipt of such representation, issue the termination notice.

I. ***Termination Payment***

Termination Payment shall become due and payable to SBHL within 15 days of a demand being made to the Authority with the necessary particulars, and in the event of any delay, the Authority shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid. Provided that such delay shall not exceed 90 days. For the avoidance of any doubt, it is expressly agreed that termination payment shall constitute full discharge by the Authority of its payment obligations in respect thereof hereunder.

J. ***Defects Liability after Termination***

SBHL shall be responsible for all defects and deficiencies in the project highway for a period of 120 days after termination, and shall have the obligations to repair or rectify, at their own cost, all defects and deficiencies observed by the independent engineers in the project highway during the aforesaid period. In the event that SBHL fail to repair or rectify such defect or deficiency within 15 days from the date of notice issued by the Authority in this behalf, the Authority shall be entitled to get the same repaired or rectified at SBHL's risk and cost so as to make the project highway conform to the maintenance requirements. All costs incurred by the Authority hereunder shall be reimbursed by SBHL to the Authority within 15 days of receipt of demand thereof, and in the event of default in reimbursing such costs, the Authority shall be entitled to recover the same from the Escrow Account.

K. ***Performance Security***

SBHL shall, for the performance of its obligations under the SBHL Concession Agreement during the construction period, provide to the Authority no later than 180 days from the date of SBHL Concession Agreement, an irrevocable and unconditional guarantee from a bank for a sum equivalent to ₹325.40 million in the form set forth in the SBHL Concession Agreement ("**Performance Security**"). Until such time the Performance Security is provided by SBHL and the same comes into effect, the bid security shall remain in force and effect, and upon such provision of the Performance Security, the Authority shall release the bid security to SBHL.

Notwithstanding anything to the contrary in the SBHL Concession Agreement, in the event Performance Security is not provided by SBHL within a period of 180 days from the date of SBHL Concession Agreement, the Authority may encash the bid security and appropriate the proceeds thereof as damages, and thereupon all rights, privileges, claims and entitlements of SBHL under and arising out of the SBHL Concession Agreement

shall be deemed to have been waived by, and to have ceased with the concurrence of SBHL, and SBHL Concession Agreement shall be deemed to have been terminated by mutual agreement of the parties.

L. ***O&M obligations of SBHL***

During the operation period, SBHL shall operate and maintain the project highway in accordance with the SBHL Concession Agreement either by itself, or through the O&M contractor and if required, modify, repair or otherwise make improvements to the project highway to comply with the provisions of the SBHL Concession Agreement, applicable laws and applicable permits, and conform to specifications and standards and good industry practice. The obligations of SBHL shall include:

(i) permitting safe, smooth and uninterrupted flow of traffic on the project highway during normal operating conditions;
(ii) collecting and appropriating the fee;
(iii) minimising disruption to traffic in the event of accidents or other incidents affecting the safety and use of the project highway by providing a rapid and effective response and maintaining liaison with emergency services of the state;
(iv) carrying out periodic preventive maintenance of the project highway;
(v) undertaking routine maintenance including prompt repairs of potholes, cracks, joints, drains, embankments, structures, pavements markings, lighting, road signs and other traffic control devices;
(vi) undertaking major maintenance such as resurfacing of pavements, repairs to structures, and repairs and refurbishment of tolling system and other equipment;
(vii) preventing, with the assistance of concerned law enforcement agencies, any unauthorised use of the project highway;
(viii) preventing with the assistance of the concerned law enforcement agencies, any encroachments on the project highway;
(ix) protection of the environment and provision of equipment and materials thereof;
(x) operations and maintenance of all communication, control and administrative systems necessary for the efficient operation of project highway;
(xi) maintaining a public relations unit to interface with and attend to suggestions from the users, government agencies, media and other agencies; and
(xii) complying with safety requirements in accordance with the SBHL Concession Agreement.

SBHL shall remove promptly from the project highway all surplus construction machinery and materials, waste materials (including hazardous materials and waste water), rubbish and other debris (including, without limitation, accident debris) and keep the project highway in a clean, tidy and orderly condition, and in conformity with the applicable laws, applicable permits and good industry practice. For avoidance of doubt, it is agreed that the debris and material excavated shall be carried to and deposited at a place to be decided in consultation with the Authority/independent engineer.

SBHL shall maintain, in conformity with good industry practice, all stretches of approach roads, over passes, under passes or other structures situated on the site but not forming part of the carriageway.

M. ***Insurance during concession period***

SBHL shall effect and maintain at its own cost, during the construction period and the operation period, such insurances for such maximum sums as may be required under the financing agreements, and the applicable laws, and such insurances as may be necessary or prudent in accordance with good industry practice. SBHL shall also effect and maintain such insurances as may be necessary for mitigating the risks that may devolve on the Authority as a consequence of any act or omission of SBHL during the construction period. SBHL shall procure that in each insurance policy, the Authority shall be a co-insured and that the insurer shall pay the proceeds of insurance into the Escrow Account. For the avoidance of doubt, the level of insurance to be maintained by SBHL after repayment of senior lenders' dues in full shall be determined on the same principles as applicable for determining the level of insurance prior to such repayment of senior lenders' dues.

N. ***Liability and Indemnity***

General Indemnity

SBHL will indemnify, defend, save and hold harmless the Authority and its officers, servants, agents, government instrumentalities and government owned and/or controlled entities/enterprises, (the "**Authority Indemnified Persons**") against any and all suits, proceedings, actions, demands and claims from third parties for any loss, damage, cost and expense of whatever kind and nature, whether arising out of any breach by SBHL of any of its obligations under the SBHL Concession Agreement or any related agreement or on account of any defect or deficiency in the provision of services by SBHL to any user or from any negligence of SBHL under contract or tort or on any other ground whatsoever, except to the extent that any such suits, proceedings, actions, demands and claims have arisen due to any negligent act or omission, or breach or default of the SBHL Concession Agreement on the part of Authority Indemnified Persons.

the Authority will indemnify, defend, save and hold harmless SBHL against any and all suits, proceedings, actions, demands and claims from third parties for any loss, damage, cost and expense of whatever kind and nature arising out of (i) defect in title and/or the rights of the Authority in the land comprised in the site, and/or (ii) breach by the Authority of any of its obligations under the SBHL Concession Agreement or any related agreement, which materially and adversely affect the performance by SBHL of its obligations under the SBHL Concession Agreement, save and except that where any such claim, suit, proceeding, action, and/or demand has arisen due to a negligent act or omission, or breach of any of its obligations under any provision of the SBHL Concession Agreement or any related agreement and/or breach of its statutory duty on the part of SBHL, its subsidiaries, affiliates, contractors, servants or agents, the same shall be the liability of SBHL.

Indemnity by SBHL

Without limiting the generality of the above clause, SBHL shall fully indemnify, hold harmless and defend the Authority and the Authority Indemnified Persons from and against any and all loss and/or damages arising out of or with respect to:

(i) failure of SBHL to comply with applicable laws and applicable permits;
(ii) payment of taxes required to be made by SBHL in respect of the income or other taxes of SBHL's contractors, suppliers and representatives; or
(iii) non-payment of amounts due as a result of materials or services furnished to SBHL or any of its contractors which are payable by SBHL or any of its contractors.

Without limiting the generality of the provisions of the SBHL Concession Agreement, SBHL shall fully indemnify, hold harmless and defend the Authority Indemnified Persons from and against any and all suits, proceedings, actions, claims, demands, liabilities and damages which the Authority Indemnified Persons may suffer, or pay by reason of any demands, claims, suits, or proceedings arising out of claims of infringement of any domestic or foreign patent rights, copyrights or other intellectual property, proprietary or confidentiality rights with respect to any materials, information, design or process used by SBHL or by SBHL's contractors in performing SBHL's obligations or in any way incorporated in or related to the project. If in any such suit, action, claim or proceedings, a temporary restraint order or preliminary injunction is granted, SBHL shall make every reasonable effort, by giving a satisfactory bond or otherwise, to secure the revocation or suspension of the injunction or restraint order. If, in any such suit, action, claim or proceedings, the project highway, or any part thereof or comprised therein, is held to constitute an infringement and its use is permanently enjoined, SBHL shall promptly make every reasonable effort to secure for the Authority a licence, at no cost to the Authority, authorising continued use of the infringing work. If SBHL is unable to secure such licence within a reasonable time, SBHL shall, at its own expense, and without impairing the specifications and standards, either replace the affected work or part, or process thereof with non-infringing work or part or process, or modify the same so that It becomes non-infringing.

O. *Effect of Force Majeure Event on the concession*

Upon occurrent of any force majeure event prior to the appointed date, the period set forth in the SBHL Concession Agreement for achieving financial close shall be extended by a period equal in length to the duration of the force majeure event.

At any time after the appointed date, if any force majeure event occurs:

(i) before COD, the concession period and the dates set forth in the project completion schedule shall be extended by a period equal in length to the duration for which such force majeure event subsists; or
(ii) after COD, whereupon SBHL is unable to collect fee despite making best efforts or it is directed by the Authority to suspend the collection thereof during the subsistence of such force majeure event, the concession period shall be extended by a period, equal in length to the period during which SBHL was prevented from collection of fee on account thereof, provided that in the event of partial collection of fee where the daily collection if less than 90% of the average daily fee, the Authority shall extend the concession period in proportion to the loss of fee on a daily basis. For the avoidance of doubt, loss of 25% in collection of fee as compared to the average daily fee for four days shall entitle SBHL to extension of one day in the concession period.

P. *Suspension of SBHL rights*

Suspension upon SBHL default

Upon occurrence of SBHL default, the Authority shall be entitled, without prejudice to its other rights and remedies under the SBHL Concession Agreement including rights of termination, to (i) suspend all rights of SBHL under the SBHL Concession Agreement including SBHL's right to collect fee, and other revenues, and (ii) exercise such rights itself and perform the obligations or authorise any other person to exercise or perform the same on its behalf during such suspension. Suspension shall be effective forthwith upon issue of notice by the Authority to SBHL and may extend up to a period not exceeding 180 days from the date of issue of such notice; provided that upon written request from SBHL and lender's representative, the Authority shall extend the aforesaid period of 180 days by a further period not exceeding 90 days.

Authority to act on behalf of SBHL

During the period of suspension, the Authority shall, on behalf of SBHL, collect all fee and revenues under and in accordance with the SBHL Concession Agreement and deposit the same in the escrow account. the Authority shall be entitled to make withdrawals form the escrow account for meeting the costs incurred by it for remedying and rectifying the cause of suspension, and thereafter for defraying the expenses specified in the SBHL Concession Agreement.

During the period of suspension hereunder, all rights and liabilities vested in SBHL in accordance with the provisions of the SBHL Concession Agreement shall continue to vest therein and all things done or actions taken, including expenditure incurred by the Authority for discharging the obligations of SBHL under and in accordance with the SBHL Concession Agreement and the project agreements, shall be deemed to have been done or taken for and on behalf of SBHL and SBHL undertakes to indemnify the Authority for all costs incurred during such period. SBHL hereby licenses and sub-licenses respectively, the Authority or any other person authorised by it under the SBHL Concession Agreement to use during suspension, all intellectual property belonging to or licenced to SBHL with respect to the project highway and its design, engineering, construction, operation and maintenance, and which is used or created by SBHL in performing its obligations under the SBHL Concession Agreement.

Revocation of Suspension

In the event that the Authority shall have rectified or removed the cause of suspension within a period not exceeding 90 days from the date of suspension, it shall revoke the suspension forthwith and restore all rights of SBHL under the SBHL Concession Agreement. For the avoidance of doubt, the parties expressly agree that the Authority may, in its discretion, revoke the suspension at any time, whether or not the cause of suspension has been rectified or removed hereunder.

Upon SBHL having cured SBHL default within a period not exceeding 90 days from the date of suspension, the Authority shall revoke the suspension forthwith and restore all rights of SBHL under the SBHL Concession Agreement.

Substitution of SBHL

At any time during the period of suspension, the lenders' representative, on behalf of senior lenders, shall be entitled to substitute SBHL under and in accordance with the substitution agreement, and upon receipt of notice, thereunder from the lenders' representative, the Authority shall withhold termination for a period not exceeding 180 days from the day of suspension, and any extension thereof under the SBHL Concession Agreement, for enabling the lenders' representative to exercise its rights of substitution on behalf of senior lenders.

Termination

At any time during the period of suspension under the SBHL Concession Agreement, SBHL may by notice require the authority to revoke the suspension and issue a termination notice. Subject to the rights of the lenders' representative to undertake substitution in accordance with the provisions of the SBHL Concession Agreement and within the period specified in the SBHL Concession Agreement, the Authority shall, within 15 days of receipt of such notice, terminate the SBHL Concession Agreement under and in accordance with the SBHL Concession Agreement.

Notwithstanding anything to the contrary contained in the SBHL Concession Agreement, in the event that suspension is not revoked within 180 days from the date of suspension or within the extended period, if any, set forth in the SBHL Concession Agreement, the SBHL Concession Agreement shall, upon expiry of the aforesaid period, be deemed to have terminated by mutual agreement of the parties and all the provisions of the SBHL Concession Agreement shall apply, *mutatis mutandis*, to such termination as if a termination notice had been issued by the Authority upon occurrence of a SBHL default.

6. Concession agreement executed between TRDCL and Kerala Road Fund Board ("Board"), Executive Engineer, Public Works Department, Government of Kerala ("Government Agency") dated March 16, 2004 to undertake the project on build, operate and transfer basis for upgrading and expanding the transport facility network in the State of Kerala, for a period of 17.5 years ("TRDCL Concession Agreement").

A. *Grant of Concession*

Subject to and in accordance with the terms, conditions and covenants set forth in the Concession Agreement, the Board and the Government Agency (collectively the "**Concessioning Authority**")**,** has granted and authorized TRDCL to design, engineer, procure, finance, construct, operate and maintain the project/project facilities and to exercise and/or enjoy rights, powers, benefits, privileges, authorisations and entitlements as set forth in the TRDCL Concession Agreement.

B. *Annuity*

Subject to the provisions of the TRDCL Concession Agreement and in consideration of TRDCL accepting the concession and undertaking to perform and discharge its obligations in accordance with the terms, conditions and covenants set forth in the TRDCL Concession Agreement, the Board agrees and undertakes to pay to TRDCL, on each annuity payment date, the sum of ₹177.49 million ("**Annuity**").

C. *Change of Scope*

The Board/Government Agency may, notwithstanding anything to the contrary contained in the TRDCL Concession Agreement, require changes in the scope of the project ("**Change of Scope**"), involving additional capital expenditure or a reduction in capital expenditure, as the case may be, not exceeding in either case ₹64.00 million in aggregate. The Change of Scope may be required by the Board by an order issued in accordance with

the procedure set forth in the TRDCL Concession Agreement.

D. ***Termination of the TRDCL Concession Agreement***

TRDCL Event of Default

Any of the following events shall constitute an event of default by TRDCL ("**TRDCL Event of Default**") unless such event has occurred as a result of one or more reasons set out in the TRDCL Concession Agreement:

(i) TRDCL has failed to achieve financial close within 6 months from the date mentioned in the TRDCL Concession Agreement;

(ii) TRDCL has failed to adhere to the design requirements and/or construction requirements and such failure, in the reasonable estimation of the project engineer, is likely to delay achievement of commercial operations date ("**COD**") beyond 120 days of the scheduled project completion date;

(iii) TRDCL has failed to achieve COD within 120 days from the scheduled project completion date;

(iv) TRDCL is in material breach of operations & maintenance ("**O&M**") requirements;

(v) any representation made or warranties given by TRDCL under the TRDCL Concession Agreement is found to be false or misleading;

(vi) TRDCL has created any encumbrance on the project site/project facilities in favour of any person save as otherwise expressly permitted under the TRDCL Concession Agreement;

(vii) TRDCL has failed to ensure minimum shareholding requirements specified in the TRDCL Concession Agreement;

(viii) a resolution has been passed by the shareholders of TRDCL for the voluntary winding up of TRDCL;

(ix) any petition for winding up of TRDCL has been admitted and liquidator or provisional liquidator has been appointed or TRDCL has been ordered to be wound up by court of competent jurisdiction except for the purpose of amalgamation or reconstruction with the prior consent of the Board, provided that, as part of such amalgamation or reconstruction, the property, assets and undertaking of TRDCL are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of TRDCL under the TRDCL Concession Agreement and the project agreement, and provided further that:

  (i) the amalgamated or reconstructed entity has the technical capability and operating experience necessary for the performance of its obligations under the TRDCL Concession Agreement and the project agreements;

  (ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under the TRDCL Concession Agreement and the project agreements and has a credit worthiness at least as good as that of TRDCL as at the commencement date; and

  (iii) each of the project agreements remains in full force and effect;

(x) a default has occurred under any of the financing documents and any of the lender(s) has recalled its financial assistance and demanded payment of the amounts outstanding under the financing documents or any of them as applicable;

(xi) TRDCL has abandoned the project facilities;

(xii) TRDCL has repudiated the TRDCL Concession Agreement or has otherwise expressed an intention not to be bound by the TRDCL Concession Agreement;

(xiii) TRDCL has suffered an attachment levied on any of the assets located or comprised in the project site/project facilities, causing a material adverse affect on the project and such attachment has continued for a period exceeding 90 days;

(xiv) TRDCL has delayed any payment that has fallen due under the TRDCL Concession Agreement for 90 days or more; and

(xv) TRDCL has otherwise been in material breach of any of its other obligations under the TRDCL Concession Agreement.

Concessioning Authority Event of Default

Any of the following events shall constitute an event of default by Concessioning Authority ("**Concessioning Authority Event of Default**"), unless caused by a TRDCL Event of Default or a force majeure event:

(i) Concessioning Authority is in breach of any of its obligations under the TRDCL Concession Agreement and has failed to cure such breach within 30 days of receipt of notice thereof issued by TRDCL;

(ii) the Government Agency or the Board has repudiated the Concession Agreement or otherwise expressed its intention not to be bound by the TRDCL Concession Agreement;

(iii) the Government Agency or the Board has (a) failed to execute the substitution agreement in accordance with the TRDCL Concession Agreement, (b) or having executed the same is in breach of any of its obligations there under and such breach has not been cured within 30 days from the date of written notice thereof given by TRDCL;

(iv) the Government Agency or the Board has unreasonably withheld or delayed grant of any approval or permission, which TRDCL is obliged to seek under the TRDCL Concession Agreement, and thereby caused material adverse effect;

(v) any representation made or warranties given by the Government Agency or the Board under the TRDCL Concession Agreement has been found to be false or misleading; and

(vi) the Board has delayed the payment of any amount that has fallen due in terms of the TRDCL Concession Agreement beyond 90 days.

Termination for TRDCL Event of Default

(i) Without prejudice to any other right or remedy which the Government Agency or the Board may have in respect thereof under the TRDCL Concession Agreement, upon the occurrence of a TRDCL Event of Default, the Board shall, subject to the provisions of substitution agreement, be entitled to terminate the TRDCL Concession Agreement as hereinafter provided, under due intimate to the project engineer.

(ii) If the Board decided to terminate the TRDCL Concession Agreement, pursuant to clause (i) above, it shall in the first instance issue preliminary notice to TRDCL. Within 30 days of receipt of the preliminary notice, TRDCL shall submit to the project engineer and the Board, in sufficient detail, the manner in which it proposes to cure the underlying event of default. In case of non-submission of TRDCL's proposal to rectify within 30 days, the Board shall be entitled to terminate the TRDCL Concession Agreement by issuing termination notice and to appropriate the performance security, if subsisting.

(iii) If TRDCL's proposal to rectify is submitted within 30 days, TRDCL shall have further period of 30 days to remedy/cure the underlying event of default. If, however, TRDCL fails to remedy/cure the underlying event of default within such further period allowed, the Board shall be entitled to terminate the TRDCL Concession Agreement by issue of termination notice and to appropriate the performance security if subsisting.

Termination for Concessioning Authority Event of Default

(i) Without prejudice to any other right or remedy which the TRDCL may have in respect thereof under the TRDCL Concession Agreement, upon the occurrence of a Concessioning Authority Event of Default, TRDCL shall be entitled to terminate the TRDCL Concession Agreement as hereinafter provided, under due intimate to the project engineer.

(ii) If TRDCL decided to terminate the TRDCL Concession Agreement, pursuant to clause (i) above, it shall in the first instance issue preliminary notice to the Board. Within 30 days of receipt of the preliminary notice, the Government Agency or the Board shall forward to TRDCL its proposal to remedy/cure the underlying event of default. In case of non-submission of Concessioning Authority's proposal to rectify within 30 days, TRDCL shall be entitled to terminate the TRDCL Concession Agreement by issuing a termination notice.

(iii) If the Concessioning Authority's proposal to rectify is forwarded to TRDCL within 30 days, the Board or the Government Agency, as the case maybe, shall have further period of 30 days to remedy/cure the underlying event of default. If, however, the Board or the Government Agency fails to remedy/cure the

underlying event of default within such further period allowed, TRDCL shall be entitled to terminate the TRDCL Concession Agreement by issue of termination notice.

Termination Payments

Upon termination of the TRDCL Concession Agreement, after the commencement date or from the date of commencement of construction works, as notified by TRDCL to the project engineer, whichever is earlier, TRDCL shall be entitled to receive termination payment as under ("**Termination Payment**"):

(i) Prior to COD

If the TRDCL Concession Agreement is terminated due to Concessioning Authority Event of Default (including early determination referred to in the TRDCL Concession Agreement), TRDCL shall receive from the Board, Termination Payment equal to book value and interest thereon @ SBI PLR + 5% p.a. from the Commencement Date or from the commencement of construction works, as notified by TRDCL to the project engineer, whichever is earlier.

(ii) After COD

(a) If the TRDCL Concession Agreement is terminated due to TRDCL Event of Default, the Board shall pay Termination Payment equal to 70% of the book value or the debt due, whichever is lower, as on the termination date.

(b) If the TRDCL Concession Agreement is terminated due to TRDCL Event of Default (including early determination referred to in the TRDCL Concession Agreement), TRDCL shall receive from the Board, Termination Payment equal to the higher of debt due or 150% of book value.
Provided that the Board shall be entitled to deduct from the Termination Payment any amount due and recoverable under the TRDCL Concession Agreement by the Government Agency/the Board, from TRDCL as on the termination date.

E. ***Performance Security***

a. TRDCL shall, for due and punctual performance of its obligations during the implementation period, deliver to the Board, performance security of a sum of ₹25.00 million, within three business days.

b. The performance security shall be valid up to nine months after COD and shall be substantially in the format provided in the TRDCL Concession Agreement.

c. If the TRDCL Concession Agreement is terminated due to any event other than a TRDCL Event of Default, the performance security if subsisting as of the termination date shall, subject to Concessioning Authority's right to receive or recover amounts, if any, due from TRDCL under the TRDCL Concession Agreement, be duly discharged and released to TRDCL.

F. ***Insurance***

(i) Implementation period

TRDCL shall at its cost and expense, purchase and maintain by due re-instatement or otherwise, during the implementation period such insurance as are necessary including but not limited to the following:

(a) builders' all risk insurance;
(b) comprehensive third party liability insurance including injury or death to personnel/representatives of persons who may enter the project site;
(c) workmen's compensation insurance;

(d) any other insurance that may be necessary to protect TRDCL, its employees and its assets against loss, damage, destruction, business interruption or loss of profit including insurance against all force majeure events that are insurable.

(ii) Operations period

TRDCL shall at its cost and expense, purchase and maintain by re-instatement or otherwise, during the operations period insurance against:

(a) loss, damage or destruction of the project facilities, at replacement value;
(b) TRDCL's general liability arising out of the concession;
(c) liability to third parties;
(d) any other insurance that may be necessary to protect TRDCL, its employees and its assets against loss, damage, destruction, business interruption or loss of profit including insurance against all force majeure events that are insurable.

G. *General Liability and Indemnity*

TRDCL shall indemnify, defend and hold the Concessioning Authority harmless against any and all proceedings, actions and third party claims arising out of a breach by TRDCL of any of its obligations under the TRDCL Concession Agreement except to the extent that any such claim has arisen due to breach by Concessioning Authority of any of its obligations under the TRDCL Concession Agreement or a force majeure event which is a political event.

The Concessioning Authority shall, indemnify, defend and hold harmless TRDCL against any and all proceedings, actions, third party claims for loss, damage and expense of whatever kind and nature arising out of breach by Concessioning Authority, its officers, servants and agents of any obligations of Concessioning Authority under the TRDCL Concession Agreement except to the extent that any such claim has arisen due to breach by TRDCL of any of its obligations under the TRDCL Concession Agreement.

Other Agreements

1. Settlement Agreement executed between National Highways Authority of India and Barwa Adda Expressway Limited dated September 30, 2024 ("BAEL Settlement Agreement")

A. The amount of full and final settlement

(i) NHAI and BAEL agreed that the amount of full and final settlement against the claims and counter claims by both BAEL and NHAI is 42.70 million and payable to BAEL.
(ii) NHAI and BAEL acknowledge, undertake and agree that payment of the total amount shall constitute a valid discharge under the BAEL Settlement Agreement. All claims and counter claims by both parties are settled and there are no other past, present or there shall not be any future liabilities, claims or counter claims by either party pertaining to the claims and counter claims.

B. Obligations of parties to the BAEL Settlement Agreement

Obligations of NHAI

NHAI undertakes and agrees that the amount admissible in terms of the BAEL Settlement Agreement shall be paid to BAEL within the agreed time frame.

Obligations of BAEL

(i) BAEL undertakes and agrees that the case of harmonious substitution is dealt separately with the finance wing of NHAl, and it is informed that both premium and interest along with penalty will be deposited by BAEL to the finance wing of NHAI as per the terms decided between NHAI finance wing and BAEL.

(ii) BAEL agrees not to raise any claims or damages against NHAI for all the disputes settled in the BAEL Settlement Agreement including delay in handing over encumbrance free land by NHAI and delay in achievement of completion certificate under any clause of the BAEL Concession Agreement and otherwise. It will be treated as final settlement of claims and counter claims of BAEL and NHAI for the claims referred by the parties to conciliation.

(iii) BAEL agrees to indemnify and hold NHAI harmless against any claim of third party, including sub-contractor, statutory authority, if any, arising in relation to the claims being settled through the BAEL Settlement Agreement.

C. Terms of Settlement

(i) NHAI and BAEL acknowledge and agree that the amount for settlement included in the BAEL Settlement Agreement is the full and final amount due/payable by one party to the second party in relation to the disputes under the BAEL Concession Agreement and all matters ancillary or related thereto.

(ii) NHAI and BAEL, each confirms that it does not have any residual, pending or any other claim disputes or differences against each other in respect of the BAEL Project and all claims, demands, disputes and undertakings of the BAEL and NHAI for the disputes referred by both parties to conciliation including that arising out of or in relation to the BAEL Concession Agreement against the other party stands full settled without any further recourse whatsoever.

2. *Unit escrow agreements*

The escrow agreements entered into between (i) the Trustee, the Investment Manager, IL&FS, ITNL, IFSL, SCOL and the Unit Escrow Agent; and (ii) the Trustee, the Investment Manager, IL&FS, ITNL, IFSL, IDBI Trusteeship Services Limited and the Unit Escrow Agent, provide for an escrow mechanism for holding the Units for the Eligible Creditors and Eligible Creditors who are ECB lenders, respectively. For details, please see the section "*Unit Distribution Information and Procedure – Escrow Mechanism*" on page 397.

INFORMATION CONCERNING THE UNITS

Unitholding of the Trust

Particulars	Number of Units
Units	
Units issued and outstanding prior to this Unit Distribution	455,477,143
Units outstanding after this Unit Distribution	455,477,143

Unitholders holding more than 5% of the Units

[*] *Pursuant to the IL&FS Interim Distribution SOP as approved by the board of directors of IL&FS in its meeting held on May 15, 2024, IL&FS and ITNL will continue to hold 31,593,908 Units after the Unit Distribution which will be held by them for a period of one year from the date of Unit Distribution in accordance with Regulation 12(3) of the InvIT Regulations. These Units correspond to the recovery amount for contingent claims that are either ''admitted contingent claims' or 'contingent claims that are neither admitted nor rejected and under appeal/adjudication at various fora'. These Units will be locked in with IL&FS and ITNL for a period of at least one year from the date of listing of Units or until such time as the claims either crystallize into a debt requiring satisfaction through distribution of Units or are discharged / extinguished (as applicable). Post such time period, the board of IL&FS, in consultation with the Investment Manager, GT and A&M, will decide the treatment of any remaining Units. The Units which remain unallocated post finalisation of the contingent claims shall form part of pool of Units used for settlement of other creditors of the IL&FS Group which will be kept in separate demat accounts which will be controlled by the Investment Manager and will be released after a one year lock-in period, in consultation with SEBI. Prior to filing the Final Placement Memorandum, the Investment Manager shall enter into letter arrangements with IL&FS and ITNL for being a joint signatory to the demat accounts where such Units will be kept in relation to contingent claims. Under no circumstance such Units would be held in a beneficial interest capacity by any of the IL&FS entities.*

[#] *To be updated in the Final Placement Memorandum prior to filing with SEBI and the Stock Exchanges.*

Unitholding of the Sponsor and Sponsor Group

Please see below table for details in relation to the current unitholding of the Sponsor and Sponsor Group:

6.	Elsamex Maintenance Services Limited	Nil	-
TOTAL		455,400,005	99.98

Unitholding of the Investment Manager, Project Manager and Trustee

The Investment Manager, Project Manager and Trustee currently do not hold any Units.

Unitholding of the directors of the Investment Manager

The directors of the Investment Manager currently do not hold any Units.

Sponsor and Sponsor Group lock-in

Pursuant to SEBI's letter dated March 20, 2024, the Trust has received an exemption from strict enforcement of Regulation 12(3A) of the InvIT Regulations, with reference to the requirement of holding certain Units by the Sponsor and Sponsor Group entities for a certain period of time, subject to the Sponsor holding not less than 15% of the Units on a post-issue basis for a period of three years. Accordingly, 68,806,097 Units, equivalent to not less than 15% of total outstanding Units post the Unit Distribution, are proposed to be distributed to the Sponsor, which will be held by the Sponsor for a period of at least three years from the date of listing of the Units. For details see "*Unit Distribution Procedure and Information*" on page 392.

IL&FS and ITNL will be holding 31,593,908 Units for a period of at least one year from the date of listing or until such time as the claims either crystallize into a debt requiring satisfaction through distribution of Units, or are discharged / extinguished (as applicable). Post such time period, the board of IL&FS, in consultation with the Investment Manager, GT and A&M, will decide the treatment of any remaining Units. For details see "*Unit Distribution Procedure and Information*" on page 392.

Other Unitholders

As on the date of this Placement Memorandum, Bhopal E-governance Limited holds 77,138 Units, by way of a Deed of Assignment dated December 6, 2021, and will not be participating in the Unit Distribution.

Minimum offer size requirements

For exemptions granted by SEBI in relation to minimum offer size requirements as required under the InvIT Regulations, see "*Unit Distribution Procedure and Information*" on page 392.

Minimum investment requirements

For exemptions granted by SEBI in relation to minimum investment requirements as required under the InvIT Regulations, please see the section "*Unit Distribution Procedure and Information*" on page 392.

FINANCIAL INDEBTEDNESS AND DEFERRED PAYMENTS

^Will be determined upon completion of the Unit Distribution. To be updated in the Final Placement Memorandum prior to filing with SEBI and the Stock Exchanges.

Notes:

[a] In case of HREL, MBEL and TRDCL, entire amount of unsecured borrowings are owed to the Trust

[b] b In case of SBHL, unsecured borrowings amounting to ₹2359.61 million is owed to its related parties, i.e., the Trust and IFSL. Subsequent thereto, the Trust has acquired debt of Rs 299.14 million from IFSL and thereupon entire unsecured debt is owed to the Trust.

[c] In case of PSRDCL, unsecured borrowings amounting to ₹11,598.50 million is owed to its related party, i.e., the Trust

[d] In case of BAEL, secured borrowings amounting to ₹1,311.70 million are owed to its related party, i.e. IL&FS Financial Services Limited and unsecured borrowings amounting to ₹6,813.64 million (net of IND- AS adjustments ₹6,430.43 million) are owed to its related party, i.e. IL&FS Transportation Networks Limited. Post September 30, 2024 these related parties debt has been taken over by the Trust.

Principal terms of the borrowings availed by the Project SPVs from external lenders:

1. *Security:* The borrowings availed by the Project SPVs**,** are secured by, amongst others:

   (i) All movable tangible and intangible assets, receivables, cash and investments both present and future created

as part of the project;

(ii) The charge, assignment rights title, benefits, claims and demands under the relevant project agreements;

(iii) All the monies lying in the Escrow Account (*as defined under the relevant financing agreements*) into which all the investments in the project and all project revenues and insurance proceeds are to be deposited; and

(iv) First ranking assignment of all insurance, clearances and interests of the relevant Project SPV.

2. *Prepayment:* The Project SPVs may prepay the borrowings availed by them. For certain Project SPVs, prepayment may attract a prepayment penalty of 1.00%, subject to non-compliance with the terms set forth in the respective agreements. Prepayments are applied to outstanding debts in the inverse order of maturity.

3. *Restrictive covenants*: Without prior consent of the lenders, the Project SPVs shall not:

(i) Sell, assign or dispose off their assets as specified in the respective financing agreements;

(ii) Create any charge, lien, encumbrances or other security interests over their assets other than as specified in the respective financing agreements;

(iii) Enter into additional borrowing arrangements;

(iv) Effect changes in their business or capital structure;

(v) Enter into schemes for amalgamation, arrangement, reconstruction, consolidation or reorganisation; and

(vi) Not to induct onto their board any person identified as a wilful defaulter by the RBI.

If a lender turns down the Project SPVs' request for the above terms, but the Project SPV still goes ahead, the lender shall have the right to call up the facilities sanctioned.

4. *Events of default:* Borrowing arrangements entered into by the Project SPVs contain standard events affecting the Project SPVs, including but not limited to:

(i) failure to pay any sum under the relevant financing agreements;

(ii) breach of obligations in the performance of the financial covenants under the relevant financing agreements;

(iii) failure to create security within the time period stipulated; and

(iv) upon occurrence of an event which may have a material adverse effect.

5. *Consequence of event of default:* In terms of the borrowing arrangements entered into by the Project SPVs, the following, amongst others, are the consequences of default:

(i) Cancellation of suspension of available commitments; and

(ii) Enforcement of security interests.

Principal terms of the non-convertible debentures issued by HREL

HREL has issued and allotted 8.50% and 8.75% (later revised to 7.50%) redeemable, listed, rated, secured non-convertible debentures of a nominal value of ₹1,00,000 each on a private placement basis, amounting to ₹7,150.00 million ("**HREL Debentures**").

The principal terms of the debenture trust deed dated February 10, 2017, as amended (the "**Deed**") entered into by

HREL in relation to the HREL Debentures are as follows:

1. *Security:* The HREL Debentures are secured by (i) a first ranking *pari passu* charge over all of its tangible moveable properties and assets, both present and future, except project assets; (ii) first ranking *pari passu* charge over all bank accounts of the issuer including without limitation the escrow account and the debt service reserve account except the distribution account and any other bank account of HREL established pursuant to the transaction documents; (iii) first ranking *pari passu* charge/assignment on all intangible assets of the issuer; (iv) assignment by way of security in: (a) all the right, title, interest, benefits, claims and demands of the issuer in the project agreement, (b) the right, title and interest of the issuer in, to and under all the authorisations, (c) all the rights, titles, interest, benefits, claims and demands of the issuer in any guarantees, letters of credit, liquidated damages and performance bonds that may be provided by any party to the project agreements in favour of the issuer, and (d) all the right, title, interest, benefits, claims and demands of the issuer under all insurance contracts and insurance proceeds.

   Furthermore, so long as the monies remain due and outstanding to debenture holders: (a) HREL shall take prior written consent of the debenture trustee for any new project agreements that it may enter into and shall assign its rights and interests in such additional project agreements in favour of all the debenture holders by way of a first charge, and (b) HREL shall notify the debenture holders and/or debenture trustee of all its acquisitions of immovable properties and mortgage the same in favour of the debenture holders. The security shall be created and perfected within 30 days from the deemed date of allotment. The security created is a continuing security and will extend to the ultimate balance of debt, regardless of any intermediate payment or discharge and shall not be affected by winding up or by any merger or amalgamation, reconstruction of HREL.

2. *Tenor and Repayment:* HREL will, on the applicable redemption date as per the Deed, unconditionally pay to, or to the order of, each debenture holder in Indian Rupees, the aggregate of the applicable redemption amounts and all other amounts due to that debenture holder in respect of the debentures being redeemed on that redemption date in accordance with the terms and conditions and the financing agreements. Any payment so made will to that extent be a good discharge to HREL in respect to the amounts payable by HREL.

   HREL shall, on each coupon payment date as per the Deed, unconditionally pay to, or to the order of, each debenture holder in Indian Rupees, the accrued aggregate coupon in accordance with the terms and conditions and the financing agreements in respect of the debentures held by such debenture holder. Subject to other terms of the Deed, each coupon period for each series of debentures shall be for a duration of six months and not extend beyond the relevant final redemption date as per the Deed.

3. *Negative Covenants:* The Deed provides that HREL shall not affect any of the following, without the prior written consent of the senior lenders:

   (i) incur any additional indebtedness except for the permitted indebtedness as per the Deed;

   (ii) create or permit to subsist any guarantee or indemnity in respect of any financial indebtedness obtained by any person, including group companies;

   (iii) create or permit to subsist any encumbrance over any of its assets;

   (iv) enter into any amalgamation, demerger, merger or corporate reconstruction;

   (v) any change in the capital structure whereby the sponsor ceases to hold 51.00% of the issued and paid-up capital of HREL;

   (vi) engage in any other business or trade other than the project;

   (vii) shift of management control from the sponsor;

   (viii) amendment to its constitutional documents that adversely effects rights of debenture holders;

(ix) alter accounting policies or financial year; and

(x) make any loan or provide any form of credit accommodation, or give or issue any guarantee, indemnity, bond or letter or credit to or for the benefit of any person.

4. *Events of Default:* The Deed provides certain events of defaults, including:

(i) non-payment;

(ii) non-compliance with obligations under transaction documents;

(iii) initiation of insolvency proceedings against HREL;

(iv) HREL abandons or threatens to abandon the whole or part of the project;

(v) HREL ceases to have necessary rights to possess and use all or any material portion of any project site;

(vi) material adverse effect;

(vii) any administrative, regulatory or judicial action, suit or proceeding under or relating to any environmental law is instituted against HREL, or the operation and maintenance of the project poses a hazard to the environment, health or safety;

(viii) HREL debentures ceases to be rated by any rating agency; and

(ix) any amendment to the constitutional documents of HREL without prior approval of the debenture trustee which is prejudicial to rights of the secured parties or to the security created under the transaction documents.

5. *Consequences of Events of Default:* The Deed provides certain consequences of events of default, including:

(i) declaration by a written notice to HREL, by the debenture trustee, if directed by the majority debenture holders, that the debt shall be due and payable forthwith;

(ii) termination of concession agreement;

(iii) substitution of HREL under the concession agreement; and

(iv) enforcement of security and exercise of such other rights and remedies as may be available to the debenture trustee.

Principal terms of the non-convertible debentures issued by MBEL

MBEL has issued and allotted 9.20% (later revised to 8.75%) redeemable, unlisted, rated, secured non-convertible debentures of a nominal value of ₹1,00,000 each on a private placement basis, amounting to ₹3,550.00 million ("**MBEL Debentures**").

The principal terms of the debenture trust deed dated March 29, 2017, as amended (the "**Deed**") entered into by MBEL in relation to the MBEL Debentures are as follows:

1. *Security:* The MBEL Debentures are secured by, *inter alia*, including (i) a first mortgage and *pari passu* charge on all the MBEL's immovable properties, both present and future, except project assets; (ii) first *pari-passu* charge on all the MBEL's tangible moveable assets, both present and future except project assets; (iii) a first *pari-passu* charge over all accounts of MBEL including without limitation the escrow account and the debt service reserve account; and (iv) first *pari passu* charge on all intangible assets of the issuer.

2. *Covenant to Pay/Redemption:*

(i) MBEL will pay interest to the debenture holders, the interest on each interest payment date, the interest on application money on the first interest payment date, and the redemption installment on scheduled redemption date, and pay all other debenture payments on the relevant payment date;
(ii) MBEL will pay the debenture holders the aggregate debenture payments of all debentures in case of acceleration upon occurrence of even of default;
(iii) MBEL will comply with all obligations under the deed and pay and repay all monies payable by the issuer to the debenture trustee and the debenture holders pursuant to the terms of the deed; and
(iv) The debenture holders shall subscribe to the whole of debentures in two series, in one or more tranches, at the shole discretion of the initial subscriber.

3. *Representations and Covenants*: MBEL provides certain representations, *inter alia,* including that:

(i) MBEL and the sponsor are duly organized, have requisite authority to own its assets and is a public limited company;
(ii) MBEL has not incurred any liabilities other than those contemplated in the transaction documents, and has no subsidiary;
(iii) The MBEL Concession Agreement is in full force and effect, and no event of default has taken place thereunder;
(iv) There are no circumstances that are expected to result in material adverse effect;
(v) MBEL has delivered to the debenture trustee a true and complete certified copy of each of the project documents, and the conditions precedent thereunder have been satisfied in full or waived as per the terms; and
(vi) MBEL does not have any outstanding security interest except for what is permitted.

MBEL also covenants with the debenture trustee that at all times until the final settlement date, it is in compliance with the certain covenants including, *inter alia*, the following:

(i) Affirmative covenants: (a) MBEL shall use proceeds of the debentures only for the purpose as set forth in the deed; (b) MBEL shall establish to the debenture trustee that certain financial covenants have been maintained; (c) MBEL shall obtain a credit rating of itself from a credit rating agency; and (d) MBEL shall ensure compliance with environmental, health, safety and social requirements.

(ii) Negative covenants: (a) Unless with the prior consent of the debenture trustee or NHAI, MBEL shall not change its capital structure, agree to formulate any scheme for its merger or restructuring, or lease, transfer or dispose of its assets; (b) MBEL shall not make any capital expenditure or acquire fixed assets except as may be permitted under the debenture documents or with the prior approval of the debenture trustee, other than normal capital expenditure; (c) MBEL shall not make any restricted payments, unless the restricted payment conditions have been complied with; (d) MBEL shall not create any security interest on its assets other than permitted security interests; and (e) MBEL shall not abandon the MBEL Project.

4. *Events of Default*: The Deed provides certain events of defaults, *inter alia*, including:

(i) non-payment;
(ii) non-compliance with obligations under transaction documents;
(iii) Security has not been created or any event which is prejudicial to security has occurred
(iv) inability of MBEL to pay debts;
(v) initiation of insolvency proceedings against MBEL; and
(vi) change in ownership.

Principal terms of the non-convertible debentures issued by PSRDCL

PSRDCL has issued and allotted 8% redeemable, unlisted, unrated, secured/unsecured (as the case may be) non-convertible debentures of a nominal value of ₹1,000 each on a private placement basis, amounting to ₹8,894.90 million ("**PSRDCL Debentures**").

The principal terms of the debenture trust deed dated December 13, 2023, as amended (the "**Deed**") entered into by PSRDCL in relation to the PSRDCL Debentures are as follows:

1. *Security*: The secured PSRDCL Debentures are secured by way of a charge on (i) all the tangible moveable assets, except the project assets; (ii) all accounts of PSRDCL in relation to the PSRDCL Project; (iii) all intangible assets of PSRDCL; and (iv) assignment by way of security in: (a) all the right, title, interest, benefits, claims and demands of the issuer in the project documents, (b) the right, title and interest of PSRDCL in, to and under all clearances, (c) all the rights, titles, interest, benefits, claims and demands of PSRDCL in any guarantees, letters of credit, liquidated damages and performance bonds that may be provided by any party to the project documents, and (d) all the right, title, interest, benefits, claims and demands of PSRDCL under all insurance contracts.

2. *Covenant to Pay/Redemption*: PSRDCL shall pay to the debenture holders: (i) the principal amount of the PSRDCL Debentures, which are subject to redemption, on the redemption date; (ii) the interest on the debentures; (iii) in case of default in payment of interest, or other fees or any other default under the Deed or any other restructuring document on the redemption date, PSRDCL shall pay to the majority debenture holders, default interest in addition to the payment of interest on the defaulted amounts; and (iv) additional interest in case of non-submission of audited books of accounts/ balance sheet by PSRDCL, default/ breach by PSRDCL in complying with any conditions mentioned under the sanction letters and non-compliance with external debt service coverage ratio.

3. *Representations and Covenants*: PSRDCL provides certain representations, *inter alia*, including that:

   (i) PSRDCL and the Sponsor are duly organized, have requisite authority to own its assets and is a public limited company;
   (ii) PSRDCL has field all applicable tax returns;
   (iii) PSRDCL is in compliance with all relevant laws;
   (iv) There are no circumstances that are expected to result in material adverse effect; and
   (v) PSRDCL has obtained or caused the procurement of al comprehensive insurances.

PSRDCL also agrees that it shall abide by and ensure continued compliance with certain covenants, including, *inter alia*, the following:

Affirmative covenants: PSRDCL agrees and acknowledges (a) that the majority debenture holders shall appoint a specialized agency for specialized monitoring; (b) PSRDCL shall furnish certified true copies of certain financial documents as at the end of such year; (c) all assets should be kept fully insured and the related documents shall be submitted to the senior secured lenders / facility agent; and (d) it shall maintain proper and adequate books of records and accounts.

Negative covenants: Without approval of the majority debenture holders/debenture trustees, PSRDCL shall not (a) undertake any new project or scheme of expansion or acquisition of fixed assets; (b) effect any change in its capital structure which leads to any dilution in controlling stake / management control of the Sponsor; (d) create any subsidiary; and (f) undertake any merger, scheme of arrangement.

Financial covenants: (a) An escrow agreement shall be executed by all parties; (b) PSRDCL shall not open or maintain or operate any bank accounts other than the specified ones, without the permission of the majority debenture holders; (c) PSRDCL shall ensure that no change is made to the general nature and conduct of the business.

4. *Events of Default:* The Deed provides certain events of defaults, including:

(i) default in payments;
(ii) default in performance of covenants and conditions;
(iii) misrepresentation;

(iv) material adverse effect;
(v) cross default; and
(vi) abandonment of the PSRDCL Project.

Principal terms of the non-convertible debentures issued by BAEL

BAEL has issued and alloted 8% redeemable, unlisted, unrated, secured/unsecured (as the case may be) non-convertible debentures of a nominal value of ₹1,000 each on a private placement basis, amounting to ₹7,743.47 million ("**BAEL Debentures**").

The principal terms of the debenture trust deed dated November 12, 2024, as amended (the "**Deed**") entered into by BAEL in relation to the BAEL Debentures are as follows:

1. *Security:* The payments for the secured BAEL Debentures shall be secured by security interest in favour of the debenture trustee acting for the benefit of the debenture holder in a form satisfactory to the debenture The security created in favour of the debenture trustee shall rank *pari passu* inter se the debenture holder and shall also rank pari passu with the facilities made available under the master restructuring agreement. BAEL shall create security time period provided in the Deed or as may be prescribed by the debenture holder; and BAEL shall take all steps and actions to perfect the security granted by BAEL in the secured assets in terms of this Deed

2. *Covenant to Pay:* The Debentures constitute direct, senior, unconditional obligations of BAEL. BAEL shall, on each of the redemption date, unconditionally pay to, or to the order of, each debenture holder in Indian Rupee, the aggregate of the redemption amounts and all other amounts due in respect of the Debentures being redeemed on the redemption date in accordance with the Deed.

3. *Negative Covenants:* The Deed provides that BAEL shall not affect any of the following, without the prior written consent of the debenture trustee:

   (i) BAEL shall not, and shall not agree to, create, incur, assume or suffer to exist any encumbrance upon or with respect to any property, revenues or assets (real, personal or mixed, tangible or intangible) other than a permitted security interest; and

   (ii) BAEL shall not enter into any agreements with a 'related party' (as defined under Companies Act, 2013).

4. *Events of Default:* The Deed provides certain events of defaults, including:

   (i) non-payment;
   (ii) non-compliance with obligations under transaction documents;
   (iii) misrepresentation;
   (iv) material adverse effect;
   (v) cross default; and
   (vi) proceedings against BAEL.

This is an indicative list of the terms of the borrowings availed by the Project SPVs and there may be additional terms, conditions and requirements under the various borrowing arrangements entered into by the Project SPVs. Where applicable and in relation to any debentures issued by the Project SPVs, the term 'lenders' may include the relevant debenture trustee and/or the debenture holders.

Given the nature of these borrowings and the terms of prepayment, the aggregate outstanding borrowing amounts may vary from time to time. In addition to the above, the Project SPVs may, from time to time, enter into re-financing arrangements and draw down funds thereunder, prior to the filing of the Final Placement Memorandum.

Principal terms of the borrowings by HREL, MBEL, SBHL, BAEL and TRDCL from the Trust

The Trust has disbursed certain unsecured facilities on similar terms to HREL, MBEL, SBHL, BAEL and TRDCL (individually, a "**Borrower**", and collectively, the "**Borrowers**") through unsecured short-term loans by the Trust

(acting through its Trustee) to HREL, MBEL, SBHL, BAEL and TRDCL by way of certain loan agreements (the "**Trust Loan Agreements**").

The key terms of the Trust Loan Agreements include:

Lender	Roadstar Infra Investment Trust (acting through the Trustee) ("**Lender**").
Nature of the debt	Unsecured short-term loan from the Trust to the Borrower (the "**Trust Loan**").
Transaction Documents/Financing Documents	"**Transaction Documents**" shall mean, collectively, the relevant Trust Loan Agreement and any other agreement, undertaking, power of attorneys or document, as may be designated as a Transaction Document (as defined under the relevant Trust Loan Agreement) by the Lender.
Term	The Trust Loan shall remain in force until the earlier of: (a) the final settlement date (as defined under the relevant Trust Loan Agreement); and (b) the expiry or termination of the relevant concession agreement.
Grant of Facility and Purpose	Subject to the terms and conditions of the relevant Trust Loan Agreement and in accordance with the relevant deed of assignment and at the request of a Borrower, the Lender has granted to the Borrowers, unsecured financial assistance to the extent as mentioned in Schedule I of the relevant Trust Loan Agreement ("**Facility**")
Repayment	The Borrower shall repay the principal amount of the Facility to the Lender on such dates being the Repayment Date (as defined under the relevant Trust Loan Agreement). A Borrower may (at the discretion of, and as per the instructions of, the Investment Manager and in accordance with the provisions of the Trust Documents and Applicable Law) repay an amount which is less than the principal amount due on the Repayment Date. No penalty shall be payable on such unpaid amount. The non-payment of the unpaid amount in accordance with the Transaction Documents shall not be deemed to be an Event of Default (as defined under the relevant Trust Loan Agreement).
Interest	(a). The Facility shall carry an interest at such rate and on such terms as mentioned in Schedule I of the relevant loan agreement, which may be reset at the discretion of the Lender. Upon such reset, the Lender shall intimate the reset interest rate to the Borrower and the Borrower shall thereafter be liable to pay Interest on the Facility at the reset interest rate, which shall become the interest rate on and from the date from which Interest has been reset. (b). The Borrower shall pay, to the Lender other statutory levies as applicable, from time to time, if any, in relation to the Facility.
Conditions Subsequent	Without prejudice to the rights of the Lender under the relevant Trust Loan Agreement, the Lender shall be entitled to prescribe such other actions which the Borrower shall be obligated to fulfil in the manner and in the time limit as may be prescribed by the Lender.
Events of default	The occurrence of any of the following events or circumstances shall constitute an Event of Default: (a). **Non-Payment**: The Borrower fails to pay any amount under the relevant Trust Loan Agreement when the same becomes due and payable. Provided, if the failure of the Borrower to pay such amount is due to any technical fault in the banking system, and the Borrower makes such payment within 2 (two) business days therefrom, it shall not constitute an Event of Default. (b). **Misrepresentation**: Any representation or warranty made by the Borrower (or any of its officers) or any other information furnished by the Borrower in the report or otherwise provided by the Borrower from time to time in accordance with Trust Loan Agreement if proven to be incorrect in any material respect when made. (c). **Illegality**: It becomes unlawful for the Borrower to perform any of its obligations under the Trust Loan Agreement.

	(d). **Breach of Covenants and Undertakings**: The Borrower commits any breach of the covenants or undertakings under the Trust Loan Agreement or under the Transaction Documents and fails to remedy such breach within 90 (ninety) days from the date of such breach. (e). **Insolvency**: The Borrower fails to pay its debts as such debts become due, or admits in writing its inability to pay its debts, or makes a general assignment for the benefit of creditors, or any proceeding is instituted by or against the Borrower seeking to adjudicate it a bankrupt or insolvent, or seeking liquidation, winding up, reorganization of the Borrower, or seeking arrangement, compromise, adjustment, protection, relief, or composition of its debts under any law relating to bankruptcy, insolvency or reorganization or relief of debtors, or seeking the entry of an order for relief or the appointment of a liquidator, receiver, trustee, or other similar official for it or for any substantial part of its property and such proceeding is not dismissed within a period of 30 (thirty) days from the date of the filing of application in respect thereof. Any application is filed for a corporate insolvency resolution proceeding against the Borrower under the Insolvency and Bankruptcy Code, 2016 and such application is not dismissed within a period of 30 (thirty) days from the date of the filing of application thereof. (f). **Nationalisation or Expropriation**: Any government authority or any related agency, instrumentality or department thereof has taken or has threatened to take any action to expropriate, condemn, nationalize or seize the Borrower or whole or part of the assets of the Borrower or the whole or substantially whole or part the Project (as defined under the relevant Trust Loan Agreement), resulting in the Borrower being deprived or threatened to deprive to carry on its business or which will have an adverse effect on the operation of the business of the Borrower. (g). **Ownership**: Any change in ownership, control, shareholding of the Borrower without the prior written approval of the Lender. (h). **Termination of the Concession Agreement**: Termination of the relevant concession agreement for any reason whatsoever. (i). **Event of Default under the Concession Agreement**: An event of default under the relevant concession agreement and the Borrower fails to remedy such event of default within the timelines provided under the concession agreement for the same.
Consequences of event of default	If an Event of Default has occurred, the Lender may (subject to relevant loan agreement, law and without prejudice to any other rights it may have under law) accelerate the repayment of facility and all other amounts outstanding in relation thereto by delivery of a written notice to the Borrower (the "**EOD Notice**"). Upon receipt of the EOD Notice, all amounts outstanding under the facility (including accrued interest) shall become due and payable by the Borrower with immediate effect and shall be repaid immediately upon the issue of the EOD Notice. Notwithstanding the foregoing, upon receipt of a notice of Event of Default as specified in the relevant Trust Loan Agreement, the Lender may, waive such Event of Default, at its sole discretion.
Covenants	1. At all times until the Final Settlement Date under the relevant Trust Loan Agreement, the Borrower shall at all times: (a). Comply with all law;

	(b). Pay (including by way of making good faith estimated payments on a timely basis in accordance with appropriate procedures established for such purpose) (i) all taxes, assessments, reassessments and governmental charges or levies imposed upon it or upon its property and assets and (ii) all lawful claims and obligations that, if unpaid, might by law operate as a lien upon any of its property and/or assets; (c). Preserve and maintain its corporate existence, legal structure, legal name, rights, privileges and franchises; (d). Permit the Lender or its agents or representatives to examine the records, registers and books of account and visit and inspect any of the properties of the Borrower and discuss the affairs, finances and accounts of the Borrower with, and be advised as to the same by, any officers or directors and auditors of the Borrower. All costs of such inspection shall be borne by the Borrower; (e). Keep, proper books of records and accounts in which full and accurate entries shall be made of all financial transactions and the assets and business of the Borrower in accordance with applicable Indian accounting standards from time to time and in accordance with law; (f). Obtain, comply with and do all that is necessary to maintain in full force and effect and supply, on demand, certified copies to the Lender of all necessary authorisations: (i) required to enable it to perform its obligations under the Transaction Documents; (ii) to ensure the legality, validity, enforceability or admissibility of the Transaction Documents in evidence in India; and (iii) to enable it to carry on its business as it is being conducted from time to time. (g). Comply with the terms of the relevant project agreements (including the relevant concession agreement) and Trust Documents. 2. The Borrower shall: (a). immediately inform the Lender (i) if it has notice of any event which constitutes or might constitute an Event of Default, specifying the nature of such Event of Default and any steps the Borrower has taken or proposes to take to remedy the same, (ii) of any application having been made for its winding up or insolvency or any statutory notice of its winding up or insolvency under the provisions of the Companies Act, 2013 having been received, or other legal process intended to be filed or initiated against the Borrower and affecting the title to the Borrower's material properties or if a receiver is appointed of any of its properties or any part of its business or undertaking, (iii) of any litigation or governmental proceeding pending or threatened against the Borrower, and (iv) any proposal by any government authority to compulsorily acquire the Borrower; and (b). immediately on demand by the Lender, furnish to them such information and data as may be required by them. 3. The Borrower shall, do such acts, deeds, matters and things and execute such other documents in the form and substance satisfactory to the Lender which in the Lender's opinion shall be necessary or advisable.

	4. The Borrower undertakes, agrees and confirms that the availing of the facility will not increase or cause to increase the financial liability of the Authority in any manner, and the Borrower shall not jeopardize the interest of the Authority in any manner.
Security	Unsecured
Tax & Costs	Unless otherwise agreed to by the Lender, the Borrower shall: (a) during the currency of the Facility bear all such imposts, duties and taxes (including interest and other taxes, if any) as may be levied from time to time by any Government Authority, pertaining to or in respect of the Facility; and (b) pay all other costs, charges and expenses in any way incurred by the Lender (or any its agents or representatives) (including costs of investigation of title and requisite due diligence to protect the interests of the Lender) and such other costs if and when the Borrower is required to pay according to Law for the time being in force. In the event of a Borrower failing to pay the monies referred to in clauses (A) and (B) above, the Lender shall be at liberty (but shall not be obliged) to pay the same. The Borrower shall reimburse all sums paid by the Lender promptly on receiving intimation thereof from the Lender.
Governing Law	This Agreement shall in all respects be governed by and construed in accordance with the laws of India.

* *SBHL had availed certain financial facilities from Empower India Limited ("**Empower**") and Empower had in turn availed financial facilities from IFSL. The National Company Law Appellate Tribunal vide its order dated September 3, 2024 approved that the facilities between SBHL, Empower and IFSL be collapsed such that IFSL becomes the direct lender to SBHL (and such loan, being the "**IFSL SBHL Loan**"), instead of Empower. Accordingly, by way of a deed of assignment dated October 22, 2024, the IFSL SBHL Loan is now assigned by IFSL to the Trust, in consideration of which the Trust on October 23, 2024 has issued 29,91,438 Units to IFSL.*

Principal terms of the borrowing availed by PSRDCL from the Trust

The Trust has disbursed certain unsecured facilities to PSRDCL ("**Borrower**") for the purpose of repayment of debts to external lenders (the "**PSRDCL Trust Loan**") by way of a loan agreement, as amended ("**PSRDCL Trust Loan Agreement**"). The key terms of the PSRDCL Trust Loan are as follows:

Conditions Precedent	The conditions precedent, *inter alia*, include the following: (a). all related Restructuring Documents (as defined under the PSRDCL Trust Loan Agreement), including execution of necessary agreements between all the External Lenders (as defined under the PSRDCL Trust Loan Agreement), the Trust and the Borrower, creation and perfection of the security interest, are completed by the external lenders and other relevant parties concerned in consonance with the PSRDCL Resolution Plan (as defined under the PSRDCL Trust Loan Agreement) being implemented; (b). the new capital structure of the Borrower on account of and/or changes in the terms of conditions of the existing secured facility, the existing unsecured facility and the PSRDCL Trust Loan get duly reflected in the books of all the external lenders concerned and the Borrower; and (c). the Borrower is not in default with any of the External Lenders (as defined under the PSRDCL Trust Loan Agreement) and the Trust. (d). Requisite approvals have been procured by the Borrower towards the transfer and change in management and control of the Borrower from ITNL to the Trust and the restructuring of the existing secured and unsecured facilities.

	(e). The entire paid-up equity and voting share capital of the Borrower, along with its management and control, shall have been transferred from ITNL to the Trust and conditions precedent to such transfer, whether under contract or relevant laws, should either have been satisfied or waived. (f). Approval of NCLT/NCLAT: The PSRDCL Resolution Plan as defined in the must be approved by the NCLT and NCLAT in terms of the IL&FS Resolution Framework (as defined under the PSRDCL Trust Loan Agreement) and, conditions/objections (if any) in respect thereto should have been satisfied by the Borrower and/or the Trust.
Voluntary Prepayment	The Borrower shall have the option to prepay, at any time and after giving a prior notice of at least 30 (thirty) days to the Trust (being under insubordination to the rights of the external lenders as defined in the PSRDCL Trust Loan Agreement), the restructured InvIT rupee facility, in part before the Repayment Dates (as defined under the PSRDCL Trust Loan Agreement) as set forth in the relevant financing documents, together with all interests, other charges and monies due and payable to the Trust (being under insubordination to the rights of the external lenders) upto the date of such prepayment and subject to payment of the Prepayment Premium (as defined under the PSRDCL Trust Loan Agreement).
Representations and Warranties	(a). The Borrower makes the representations and warranties to the Trust as set out in Schedule 5 (Representations and Warranties) of the PSRDCL Trust Loan Agreement. Further, each of the representations and warranties set out in Schedule 5 (Representations and Warranties) are deemed to be made by the Borrower by reference to the facts and circumstances then existing on the date of PSRDCL Trust Loan Agreement and shall be repeated on each date until the Final Settlement Date (as defined under the PSRDCL Trust Loan Agreement). (b). The Borrower agrees and undertakes to abide by the covenants and undertakings set out in Schedule 4 (Covenants and Undertakings) of the PSRDCL Trust Loan Agreement on the date thereof and at all times until the restructured InvIT Rupee Facility (as defined under the PSRDCL Trust Loan Agreement) has been duly and irrevocably discharged in full only after repayment of the portion of the restructured secured facility and restructured unsecured facility of the external lenders in full.
Negative Pledge	The Borrower shall not: (a). undertake any guarantee obligations; (b). declare dividend for any year except as permitted under the Restricted Payments clause of the PSRDCL Trust Loan Agreement); (c). make any repayment of the loans and deposits and discharge other liabilities except its liability towards the existing project and existing debt which is shown in fund flow statement and liabilities/obligations under this (PSRDCL Trust Loan Agreement); and (d). make any change in the management set-up which has a material adverse effect (as defined under the PSRDCL Trust Loan Agreement).

Leverage

In accordance with and subject to the InvIT Regulations, the provisions of the Trust Deed, and the borrowing policy adopted by the Investment Manager, the aggregate consolidated borrowings and deferred payments of the Trust may be up to 49.00% of the aggregate of the value of the InvIT Assets, subject to compliance with the conditions prescribed under Regulation 20 of the InvIT Regulations. The SEBI pursuant to its letter dated December 3, 2021 has granted an exemption to the Trust from complying with the conditions specified under Regulation 20 of the InvIT Regulations until the completion of this Unit Distribution.

Post-Unit Distribution Indebtedness of the Trust

The post-Unit Distribution consolidated borrowings and deferred payments of the Trust will be formulated and approved by the Investment Manager in accordance with the Borrowing Policy. The indebtedness and deferred payments of the Trust, net of cash and cash equivalents, on a consolidated basis, shall not exceed 49.00% of the aggregate value of the InvIT Assets, subject to any additional indebtedness incurred after listing of Units in accordance with applicable law.

Status of lender consents

The Project SPVs have already been transferred to the Trust. The Project SPVs have availed debt from certain external lenders and financial institutions and consents from the respective lenders and financial institutions are required for and in connection with the Unit Distribution. As on the date of this Placement Memorandum, the Project SPVs do not require any consents from the lenders in relation to the Unit Distribution. For further details, please see the section "*Risk Factors*" on page 63.

Borrowing Policy

The Investment Manager shall ensure that all funds borrowed in relation to the Trust are in compliance with the InvIT Regulations. Accordingly, the Investment Manager has formulated a borrowing policy to outline the process for borrowing monies in relation to the Trust. For further details, please see the section "*Corporate Governance – Investment Manager – Policies of the Trust – Borrowing Policy of the Trust*" on page 144.

VALUATION

In accordance with Regulation 21(7) of the InvIT Regulations, the Valuer has undertaken a valuation of the Project SPVs. Consequent to the aforesaid valuation, the Valuer has prepared a valuation report dated December 17, 2024 (the "**Valuation Report**"), which has been included as Annexure A.

A. Summary of the Valuation and Valuation Methodology

For details in relation to the summary of the valuation and valuation methodology, see the Valuation Report, included as Annexure A. The Valuation Report sets out the Valuer's opinion as to the fair enterprise value of the Project SPVs as on June 30, 2024.

B. Frequency of Valuation

In accordance with the InvIT Regulations, after the listing of the Units pursuant to the Unit Distribution, a full valuation of the Trust Assets (including physical inspection of each of the Trust's infrastructure projects) shall be conducted by the Valuer not less than once every financial year, and that such a full valuation shall be conducted at the end of each financial year, within two months from the end of such financial year.

The valuation report received by the Investment Manager shall be submitted to Stock Exchanges within 15 days from the receipt of such valuation reports.

C. Declaration of NAV

The Investment Manager shall ensure that computation and declaration of NAV of the Trust is based on the valuation done by the Valuers, not later than 15 days from the date of valuation.

D. Traffic Reports and Technical Reports

The traffic and technical reports specific to the relevant sub-sector, will be relied upon for the purpose of the valuations of the Trust Assets, and the contents of such reports will be factored into the valuation reports. Accordingly, the traffic and technical reports shall be updated once a year and submitted to the Stock Exchanges within the time periods specified for the submission of valuation reports under the InvIT Regulations.

DISTRIBUTION

Statements contained in this section "Distribution" that are not historical facts are forward-looking statements. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those that may be projected. Under no circumstances should the inclusion of such information herein be regarded as a representation, warranty or prediction with respect to the accuracy of the underlying assumptions by the Trustee, the Sponsor, the Investment Manager, the Placement Agent or any other person. Eligible Creditors are cautioned not to place undue reliance on these forward-looking statements that are stated only as at the date of this Placement Memorandum. For details in relation to such forward-looking statements, please see the section "Forward-Looking Statements" on page 17.

The net distributable cash flows of the Trust (the "**Distributable Income**") are based on the cash flows generated from the underlying operations undertaken by the SPVs. For details of the business and operations presently undertaken by the SPVs, please see the section "*Our Business*" on page 207. Presently, cash flows receivable by the Trust may include, *inter alia*, dividends proceeds from buy-back or capital reduction from any Project SPV.

In terms of the InvIT Regulations, not less than 90.00% of the net distributable cash flows of the SPVs, shall be distributed to the Trust in proportion of its holding in such SPVs, subject to applicable provisions in the Companies Act, 2013, as amended, and not less than 90.00% of the net distributable cash flows of the Trust shall be distributed to the Unitholders.

However, if any infrastructure asset is sold by the Trust or holding company or an SPV, or if the equity shares or interest in the holding company/ SPV are sold by the Trust; (i) if the Trust proposes to re-invest the sale proceeds into another infrastructure asset, it shall not be required to distribute any sales proceeds to the Trust or to the unitholders; or (ii) if the Trust proposes not to invest the sale proceeds into any other infrastructure asset within a period of one year, it shall be required to distribute the same in accordance with the distribution Requirements.

Further, in terms of the InvIT Regulations, with regard to distribution of net distributable cash flows by any Holding Company to the Trust, 100.00% of cash flows received by the Holding Company from underlying SPVs shall be distributed to the Trust (net of any expenses and applicable taxes including withholding taxes) and with respect to the cash flows generated by a Holding Company on its own, not less than 90.00% of such net distributable cash flows shall be distributed by the Holding Company to the Trust.

Pursuant to the InvIT Regulations and the Distribution Policy, the Trust shall declare and distribute at least 90.00% of the Distributable Income to the Unitholders, at least once in every financial year such that the time period between any two declarations of distributions shall not exceed one year. However, if any infrastructure asset is sold by the Trust or the SPVs, or if the equity shares or interest in the SPVs are sold by the Trust; if the Trust proposes to re-invest the sale proceeds into another infrastructure asset within one year, it shall not be required to distribute any sales proceeds to the Trust or to the Unitholders. Further, if the Trust proposes not to invest the sale proceeds into any other infrastructure asset within one year, it shall be required to distribute the same in the manner specified above. In accordance with the InvIT Regulations, distributions by the Trust shall be made within five working days from the record date. The distribution, when made, shall be made in Indian Rupees. Any amount remaining unclaimed or unpaid out of the distributions declared by the Trust shall be transferred to the 'Investor Protection and Education Fund' constituted by SEBI, in such manner as may be specified by SEBI.

For details on the risks relating to distribution, please see the section "*Risk Factors*" on page 63.

Distribution Policy

Method of calculation of Distributable Income

The Distributable Income of Trust shall be calculated in accordance with the InvIT Regulations and any circular, notification or guidance issued thereunder. Presently, Trust proposes to calculate distributable income in the manner provided below:

I. *Calculation of net distributable cash flows at each SPV level:*

Cash flow from operating activities as per Cash Flow Statement of HoldCo/ SPV
(Add) Cash Flows received from SPV's which represent distributions of NDCF computed as per relevant framework *(refer note 1 and 9 below) (relevant in case of* Holdco***)***
(Add) Treasury income / income from investing activities (interest income received from FD, tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. Further clarified that these amounts will be considered on a cash receipt basis)
(Add) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations
(Add) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs or Investment Entity not distributed pursuant to an earlier plan to reinvest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently
(Less) Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss Account and any shareholder debt / loan from Trust
(Less) Debt repayment (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt, in any form or equity raise as well as repayment of any shareholder debt / loan from Trust)
(Less) any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with banks / financial institution from whom the Trust or any of its SPVs/ Holdco have availed debt, or (ii). terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ Holdco, or (iii). terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ Holdco, (iv). agreement pursuant to which the SPV/ HoldCo operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations; or – *(refer note 2)*
(Less) any capital expenditure on existing assets owned / leased by the SPV or Holdco, to the extent not funded by debt / equity or from reserves created in the earlier years *(refer note 10)*
NDCF for HoldCo/ SPV's

II. ***Calculation of net distributable cash flows at the consolidated Trust level:***

Cashflows from operating activities of the Trust
(Add) Cash flows received from SPV's / Investment entities which represent distributions of NDCF computed as per relevant framework **(***refer note 1 and 9 below***)**
(Add) Treasury income / income from investing activities of the Trust (interest income received from FD, any investment entities as defined in Regulation 18(5), tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. Further clarified that these amounts will be considered on a cash receipt basis).
(Add) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs/ Holdco or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs

Cashflows from operating activities of the Trust
• Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations
(Add) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs/ Hold cos or Investment Entity not distributed pursuant to an earlier plan to re-invest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently.
(Less) Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss account of the Trust.
(Less) Debt repayment at Trust level (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt in any form or funds raised through issuance of units).
(Less) any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with financial institution, or (ii). terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ Holdco, or (iii). terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ Holdco, or (iv). agreement pursuant to which the Trust operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations; or – *(refer note 2)*
(Less) any capital expenditure on existing assets owned / leased by the InvIT, to the extent not funded by debt / equity or from contractual reserves created in the earlier years *(refer note 10)*
NDCF at Trust level

Notes/ Other Rules:

1. NDCF computed at SPV level for a particular period to be added under this line item, even if the actual cashflows from SPV to InvIT has taken place post that particular period, but before finalization and adoption of accounts of the InvIT.

2. The specified agreements could be for either PPP or non-PPP projects. The Trust retains the option to distribute any surplus amounts, unless such surplus is required to create reserves for any subsequent period.

3. The option to retain 10% distribution under Regulation 18(6) of the InvIT Regulations needs to be computed by taking together the retention done at SPV level and Trust level.

Illustration:

Particulars	**SPV A**	**SPV B**	**Total at SPV level**
NDCF as computed	100	150	250
Amount retained by SPV	5	10	15
Net amount distributed to Trust	**95**	**140**	**235**

Trust	**Scenario 1**	**Scenario 2**
Received from SPV	235	235
Add:- other items at Trust level for computation of NDCF	65	(35)
Total NDCF	**300**	**200**
Combined NDCF for computing maximum retention		
NDCF of Trust (A)	300	200

Trust	Scenario 1	Scenario 2
NDCF of SPV's (B)	250	250
Less: - Amount distributed by SPV's (C)	(235)	(235)
D = A + B -C	**315**	**215**
Maximum retention amount – 10% of D	**31.5**	**21.5**
Amount already retained by SPV	15	15
Max amount that can be retained by Trust	16.5	6.5

4. Further, Trust along with its SPVs needs to ensure that minimum 90% distribution of NDCF be met for a given financial year on a cumulative periodic basis as specified for mandatory distributions in the InvIT regulations (subject to provisions of Note 1 above).

5. Surplus cash available in SPVs due to:

   (i) 10% of NDCF withheld in line with the Regulations in any earlier year or half year or

   (ii) Such surplus being available in a new SPV on acquisition of such SPV by InvIT

   (iii) Any other reason, excluding if such surplus cash is available due to any debt raise could be considered for distribution by the SPV to the InvIT, or by the Trust to its Unitholders in part or in full, but needs to be disclosed separately in the NDCF computation and Distribution.

6. Similarly, any restricted cash (disclosed as such) should not be considered for NDCF computation by the SPV or InvIT (e.g. unspent CSR balance for any year deposited in a separate account as per Companies Act which will be utilized in subsequent years, DSRA reserve, major maintenance reserve etc).

7. Further, it is expressly provided that no Trust or SPVs can distribute any cashflows by obtaining external debt, except to the extent clarified in note 2 above (this will exclude any working capital / OD facilities obtained by Trust/ SPVs as part of Treasury management / working capital purposes as long as they are squared off within the quarter).

8. Further, it is also clarified that Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs or investment entity adjusted for transaction costs or repayment of debt taken for such assets or other items as mentioned above which is intended to be reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations, could be temporarily parked in overdraft accounts or used to repay any additional/ unrelated debt. Further if such proceeds are not intended to be reinvested as per the timeline provided in the Regulations and such net proceeds are to be distributed back to Unitholders, then redrawing such temporarily parked funds to distribute such net proceeds will not be considered as a contravention of note 7 above.

9. Cash flows received from SPV's / Investment entities which represent distributions of NDCF computed as per relevant framework at the Trust level for further distribution to Unitholders shall exclude any such cash flows used by the Trust for onward lending to any other SPVs / Investment entities to meet operational / interest expenses or debt servicing of such other SPVs / Investment entities.

10. Capital expenditure include amounts incurred and paid towards asset enhancement and are capitalized to asset value in the financial statements including lease payments. It is further clarified that Existing Assets as referred to in this line item includes any new structure / building / other infrastructure constructed on an existing infrastructure asset which is already a part of the InvIT.

The Distributable Income of Trust shall be calculated in compliance with the InvIT Regulations and any circular, notification or guidance issued thereunder, Income-tax Act, 1961 ("**IT Act**") and other applicable law. The actual amount received by the unitholders will be subject to taxes and other statutory deductions, if applicable.

For the purposes of the IT Act, any income distributed by the Trust to the unitholders shall be deemed to be of the same nature and in the same proportion in the hands of the unitholder as it had been received by, or accrued to, the Trust. Accordingly, the Trust may follow either the receipt approach or the accrual approach subject to the provisions of the IT Act and applicable accounting standards.

In terms of the InvIT Regulations, if the distribution is not made within 15 days of declaration, the Investment Manager shall be liable to pay interest to the Unitholders at the rate of 15% per annum or such other rate as may be specified under applicable law, whichever is lower, until the distribution is made. Such interest shall not be recovered in the form of fees or any other form payable to the Investment Manager by the Trust.

Amendment

(i). Any amendment/variation of the distribution policy shall require the prior approval of the board of directors of the Investment Manager.

(ii). Notwithstanding the above, the distribution policy will stand amended to the extent of any change in applicable law, including any amendment to the InvIT Regulations, without any action from the Investment Manager or approval of the Unitholders of the Trust.

For risks in relation to distribution, please see the section "*Risk Factors*" on page 63.

History of Distributions

Details of the distributions distributed by the Project SPVs between the fiscals 2021 to 2024 to the Trust are as follows:

(in ₹ million)

Particulars	Fiscal 2023-24					
	SBHL	MBEL	HREL	PSRDCL	TRDCL	Total
Interest	164.95	617.46	144.60	314.99	64.64	1,306.64
Principal	1.30	79.99	196.50	1,074.87	40.23	1,392.89
Total	166.25	697.45	341.10	1,389.86	104.87	2,699.53

Note: The Trust acquired PSRDCL in Fiscal 2023-24.

(in ₹ million)

Particulars	Fiscal 2022-23				
	SBHL	MBEL	HREL	TRDCL	Total
Interest	177.22	836.94	-	17.99	1,032.15
Principal	15.70	157.36	300.00	-	473.06
Total	192.92	994.30	300.00	17.99	1,505.21

Note: The Trust acquired 2 (two) Project SPVs in Fiscal 2022-23, i.e. HREL and TRDCL.

(in ₹ million)

Particulars	Fiscal 2021-22		
	MBEL	SBHL	Total
Interest	244.57	-	244.57
Principal	36.72	-	36.72
Total	281.29	-	281.29

Note: As on March 31, 2022, the Trust had only acquired 2 (two) Project SPVs, i.e. MBEL and SBHL. However, please note that SBHL was acquired by the Trust towards the end of Fiscal 2021-22, i.e. on March 22, 2022, and the first distribution from SBHL to the Trust was made in Fiscal 2022-23, post the execution of debt restructuring documents with the senior lenders of SBHL.

DISCUSSION AND ANALYSIS BY THE DIRECTORS OF THE INVESTMENT MANAGER OF THE FINANCIAL CONDITION, RESULTS OF OPERATIONS AND CASH FLOWS OF THE PROJECT SPVS OF THE TRUST

You should read the following discussion and analysis of our financial condition, results of operations and cash flows in conjunction with the sections entitled "Summary of Combined Financial Statements" and "Audited Special Purpose Combined Financial Statements" on pages 29 and 425, respectively. This discussion contains forward-looking statements and involves numerous risks and uncertainties, including, but not limited to, those described in the section entitled "Risk Factors" on page 63. Actual results could differ materially from those contained in any forward-looking statements and for further details regarding forward-looking statements, kindly refer to the section entitled "Forward-Looking Statements" on page 17.

The Audited Special Purpose Combined Financial Statements are prepared in accordance with Ind AS, which differs in certain respects from Indian GAAP, International Financial Reporting Standards and U.S. GAAP. Our fiscal year ends on March 31 of each year, and references to a particular fiscal are to the twelve-month period ended March 31 of that year. For the sole purposes of the Special Purpose Financial Statements, references to "we", "us" and "our" are to the Project SPVs on a combined basis.

Overview

Unit Distribution and Trust Formation Overview

The Union of India, acting through the Ministry of Corporate Affairs, had filed a company petition under sections 241 and 242 of the Companies Act, 2013 against the IL&FS Group before the NCLT on the grounds of, *inter alia*, that the affairs of the IL&FS Group were being conducted in a manner prejudicial to public interest. Subsequently, the NCLT directed suspension of the then existing board of directors of IL&FS and constitution of a new board of directors of IL&FS comprising the nominees of the Ministry of Corporate Affairs (the "**New Board**"). The New Board, undertaking steps for designing and implementing a fair and orderly resolution of the outstanding debt of the entire IL&FS Group, and for the purposes of resolution of certain portion of the debt of ITNL proposed the setting up of an infrastructure investment trust.

Consequently, Roadstar Infra Investment Trust as sponsored by Roadstar Infra Private Limited, was established with the objective of owning, operating and investing in infrastructure projects in India, directly or indirectly, and is registered under the InvIT Regulations.

The Trust has acquired each of the Project SPVs. Please refer to the section "*Formation Transactions in relation to the Trust*" on page 26 for more information in relation to the shareholding of the Trust in the Project SPVs. The proposed Unit Distribution will be in accordance with (i) the Resolution Framework as approved by the NCLAT vide its order dated March 12, 2020 and/or any other appropriate judicial authority and in terms of the interim distribution as approved by the NCLAT vide its order dated May 31, 2022 and (ii) a distribution plan setting out the details and manner of distribution of, among other assets, the Units issued by the Trust as may be approved by the board of directors of IL&FS.

For more details in relation to the Resolution Framework and the holding of the Trust in the Project SPVs, please refer to sections "*Unit Distribution Background*" and "*Formation Transactions in relation to the Trust"* on pages 389 and 26, respectively.

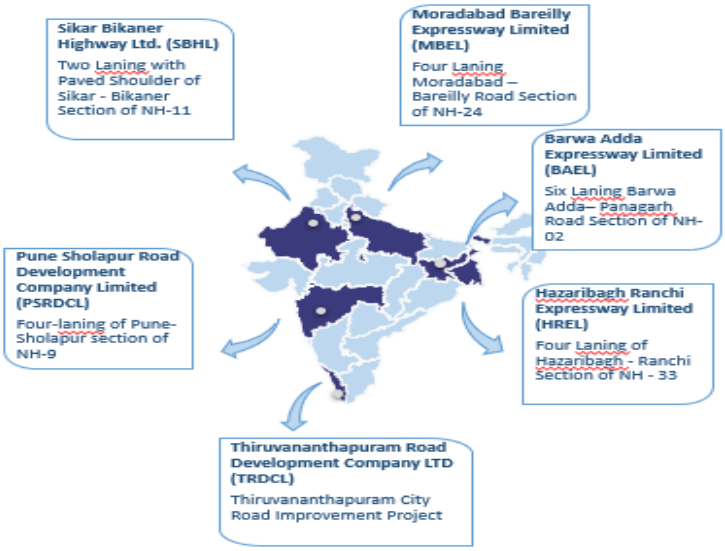
Business Overview

The Trust is established with the objective of owning, operating and investing in infrastructure projects in India, directly or indirectly, and is registered under the InvIT Regulations. The Trust, through its Project SPVs, together operates 6 road assets, aggregating to 685.16 kms, located across 6 states in India.

The Project SPVs had a weighted average residual concession life (weighted on the basis of residual life-time pre-MM EBITDA) of 13.54 years as on March 31, 2024 and a weighted average operating history (weighted on the basis

of Fiscal 2024 estimated pre-MM EBITDA, assuming COD and appointed date as the beginning date for BOT/DBFOT assets) of 9.19 years as on March 31, 2024.

The map below sets forth the location of our projects in the Project SPVs:



The tables below set forth an overview of the Project SPVs:

S. No.	Relevant Project SPV	Project length and number of lanes	State(s)	Residual Life (in years, as of September 30, 2024)	Model	Actual Revenue from Toll Fee / Annuities in FY 2024 (in ₹ million)
1.	Hazaribagh Ranchi Expressway Limited	73.50 kms 4 lanes	Jharkhand	3.82 years	Annuity	702.02
2.	Moradabad Bareilly Expressway Limited*	121.00 kms 4 lanes	Uttar Pradesh	11.17 years	Toll	3,390.09
3.	Pune Sholapur Road Development Company Limited*	102.08 kms 4 lanes	Maharashtra	6.79 years	Toll	2,165.67
4.	Sikar Bikaner Highway Limited*	237.58 kms 2/4 lanes	Rajasthan	13.38 years	Toll	826.02
5.	Thiruvananthapuram Road Development Company Limited**	28.12 kms (excluding phase I**) 2/3/4/6 lanes	Kerala	Phase II- 2.39 years Phase III- 5.39 years Phase IV-6.67 years	Annuity	143.95
6.	Barwa Adda Expressway Limited*	122.88 kms 6 lanes	Jharkhand/West Bengal	9.49 years	Toll	2,636.47
Total		685.16				9,864.22

Notes:
** Extendable based on target traffic as per provisions contained in the respective Concession Agreement*
*** Phase I concession period ended in July, 2022*

In addition to the Project SPVs, the Trust through the Investment Manager may also have the ability to acquire new projects. For further details, please see the sections "*Corporate Governance*" and "*Related Party Transactions*" on pages 138 and 325, respectively. The Investment Manager is responsible for managing the Trust and the Project SPVs, as well as undertaking investment decisions relating to us and our assets. The Investment Manager meets the experience criteria as required under the SEBI InvIT Regulations. As required under the InvIT Regulations, the experience of the Investment Manager in fund management or advisory services or development in the infrastructure sector is above 5 years. Further, the Investment Manager is responsible for defining our strategic direction, including in relation to our future acquisitions, divestments or enhancement of assets. For further details, please see "*Parties to the Trust – The Investment Manager – Roadstar Investment Managers Limited*" – on page 114.

The Trustee, Axis Trustee Services Limited, is a trusteeship company registered with SEBI as a debenture trustee under the Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, as amended. On behalf of our Unitholders, the Trustee is responsible for (a) ensuring that our business objectives and investment policies comply with the provisions of the InvIT Regulations and other applicable law, and (b) monitoring the activities of the Investment Manager (in terms of the Investment Management Agreement) and the Project Manager (in terms of the Project Implementation and Management Agreement). For further details, please see "*Parties to the Trust – The Trustee – Axis Trustee Services Limited*" on page 101.

The Project Manager, Elsamex Maintenance Services Limited, is responsible for the operations and management of the Trust and ensuring compliance with the respective concession agreements and project documents, making arrangements for appropriate maintenance, oversee the progress of development, status of approvals and other aspects of the projects of the SPVs. The Project Manager has been appointed as per the terms of the Project Implementation and Management Agreement. In addition, the Project Manager has entered into operations and maintenance agreements with the respective SPVs for providing operations and management for the SPVs. Neither the Project Manager nor any of the promoters or directors of the Project Manager (i) is debarred from accessing the securities market by SEBI; (ii) are or have been a promoter, director or person in control of any other company or a sponsor, investment manager or trustee of any other infrastructure investment trust or an infrastructure investment trust which is debarred from accessing the capital market under any order or direction made by SEBI; and/ or (iii) are or have been declared a wilful defaulter by any bank or financial institution or consortium thereof in accordance with the guidelines on wilful defaulters published by the RBI. For further details, please see "*Parties to the Trust – The Project Manager – Elsamex Maintenance Services Limited*" – on page 129.

Each financial year, we intend to distribute a minimum of 90.00% of the net distributable cash flows of the Trust available for distribution to our Unitholders. For further details, please see, "*Distribution*" on page 288.

Our revenue from operations for the six month period ended September 30, 2024, Fiscal 2024 Fiscal 2023, and Fiscal 2022 were ₹5,492.72 million, ₹11,658.14 million, ₹9,940.48 million, and ₹7,631.12 million, respectively. Our profit / (loss) after tax for the six month period ended September 30, 2024, Fiscals 2024, 2023, and 2022 were (₹ 6,858.39 million), (₹108.73 million), (₹1,131.52 million), and ₹995.87 million respectively.

For details of credit ratings obtained by the Trust, please see "*General Information – Credit ratings"* on page 100.

Factors Affecting Our Results of Operations

Our business, prospects, results of operations and financial condition have been, or are expected to continue to be, affected by a number of factors, including the following:

Fluctuating Revenue from Toll Road Projects

Tariff terms for our BOT Roads are determined and revised, in accordance with the relevant concession agreements and as per the NH Fee Rules, and wholesale price index variations. Traffic volume may be affected by a number of factors beyond our control, including general economic conditions, alternate routes, alternate means of transportation, location of toll plazas, weather conditions, demographic changes, fuel prices, reduction in commercial or industrial activities in the regions served by the roads and natural disasters, the COVID 19 pandemic or any public disturbances such as strikes. Our lenders may have the right to periodically reset our interest rates, which may increase based on

their review of our credit profile and perceived risks in our operations or a change in their cost of funding due to the overall interest rate regime.

Under the relevant concession agreements, our Project SPVs have rights to construct and operate the road projects exclusively for fixed periods of time and we receive annuities /or collect tolls, as the case may be, for the use of our roads. However, we may be faced with competition from new road projects developed by the central and state governments, that may be in the immediate vicinity of our roads and as such, are not within our control. There can be no assurance that our road projects will compete effectively against such roads that connect the same locations. Any material decrease in the actual traffic volume as compared to our forecasted traffic volume could have a material adverse effect on our cash flows from our tolling projects, which in turn can adversely affect our business, prospects, financial condition and results of operation.

Interest Rate Fluctuations

As our infrastructure business is capital intensive, our projects are funded to a large extent by debt, and as a result we are exposed to interest rate risks. Any increase in interest expense may have an adverse effect on our results of operations and financial condition. Our current debt facilities carry interest at variable rates as well as fixed rates with the provision for periodic reset of interest rates. As of September 30, 2024, the majority of our indebtedness was subject to variable interest rates. Considering the capital-intensive nature of the infrastructure business, an increase in interest expense at the Project SPV level is likely to have a significant adverse effect on our financial results.

General economic conditions in India and the level of investment and activity in the infrastructure sector

Other than HREL and TRDCL, which are annuity based projects, the Project SPVs derive almost all of their revenue from toll-road operations. Demand for toll roads is primarily dependent on sustained economic development in the regions that they operate in and government policies relating to infrastructure business. As a result, our performance and growth are dependent on the performance of the Indian economy, which, in turn, depends on various factors. The Indian economy has been affected by the recent global economic uncertainties, volatility in interest rates, currency exchange rates, commodity and electricity prices, adverse conditions affecting agriculture and various other macroeconomic factors.

Recent Indian governments have been focused on encouraging private participation in the infrastructure sector. Furthermore, pace of construction is expected to rise steadily to reach approximately 19 km per day by fiscal 2028 . (Source: CRISIL Report) However, there can be no assurance that similar policies and investment will be continued in the future. The rate of economic liberalization could decrease, and specific laws and policies affecting foreign investment, currency exchange rates and other matters affecting investment in India could change as well. In the road sector, there can be no assurance that the GoI's engagement with and outreach to private sector operators, including us, will continue in the future. A significant change in India's economic liberalization and deregulation policies, in particular, those relating to the road sector, could disrupt business and economic conditions in India generally and our business in particular. Additionally, an increase in trade deficit or a decline in India's foreign exchange reserves could negatively impact interest rates and liquidity, which could adversely impact the Indian economy and our business.

Dependence on support from governmental schemes and policies

Significant changes in government policy for the road infrastructure sector could have a significant effect on our revenues, expenditure and growth prospects as they relate to future projects (if any). For instance, on August 26, 2015, the Cabinet Committee on Economic Affairs amended its earlier approval dated May 13, 2015 to allow 100.00% equity divestment after two years of completion for all BOT projects, irrespective of the year of award. The earlier policy allowed such divestments only for projects awarded prior to September 30, 2009. The results of operations of future projects are likely to be affected by budgetary allocations made by various central and state government agencies for the infrastructure sector. Furthermore, trends in particular government's approach to infrastructure such as, slowdowns in the volume of BOT or TOT projects for which concessions are granted, may affect our business, financial condition and results of operations. Policies relating to tolling methodologies, exemptions and changing political or social imperatives can also affect our business.

Operational Enhancement, Maintenance Cost Optimization and Post-Acquisition Capital Structure Optimization

Our profitability is dependent on our ability to undertake efficient operational enhancements, optimize maintenance costs and create robust capital structures for our projects. For example, we use microsurfacing and crack sealing as preventive maintenance with the aim to enhance the life of the roads constructed as part of the Project SPVs. These operational enhancements allow to improve user experiences which may in turn also increase revenue. Any issues in deploying such technologies or a failure to maintain strong relationships with local communities may adversely affect our operations and results of operations.

We seek to use disciplined, prudent and innovative capital structure management to unlock value by reducing cost of debt and maximizing free cash flow. However, the availability of credit and cost of financing in India is also a significant factor, and if there is any adverse development leading to an increase in the cost of financing or decrease in availability of funds from lenders, we may have difficulty accessing the financial markets, which could make it more difficult or expensive to obtain funding.

Competition

We face competition from other road operators, financial investors and other InvITs in acquiring and managing profitable concessions for future projects. We also face competition from new road projects developed by the central and state governments, that may be in the immediate vicinity of our roads and as such, are not within our control. The competition for road projects varies depending on the size, nature and complexity of the project and on the geographical region in which the project is to be executed. Some competitors may have greater financial resources, economies of scale and operating efficiencies than us.

Tax benefits for road infrastructure sector in India

Certain Project SPVs are entitled to certain benefits under Section 80-IA of the Income-tax Act, 1961, as amended, if certain conditions are satisfied. However, the benefits to these Project SPVs may expire at various points of time. Any expiry, termination or GoI withdrawal of these tax benefits could result in an increase in the our tax expenses, thereby adversely affecting our results of operations and cash flows. There has been an increase in the GST rates applicable for O&M and construction of roads. The SPVS are eligible to claim such increases under "*change in law*" provision under the respective concession agreements, but recovery and the extent thereof, may be subject to various approvals from the authority.

Purpose and basis of accounting and preparation of special purpose Ind AS financial statements

The Audited Special Purpose Combined Financial Statements of the Project SPVs comprise the combined balance sheet as at September 30, 2024, March 31, 2024, March 31, 2023, and March 31, 2022 and the combined statement of profit and loss, combined cash flow statement, combined statement of changes in equity and a summary of significant accounting policies and other explanatory information for the six month period ended September 30, 2024, and for the fiscal years ended March 31, 2024 March 31, 2023, and March 31, 2022.

The Audited Special Purpose Combined Financial Statements of the Project SPVs have been prepared in accordance with the Indian Accounting Standards and/or any addendum thereto as defined in the Rule 2(1)(a) of the Companies (Indian Accounting Standard) Rule, 2015, as amended (Ind AS) and the InvIT Regulations. The Project SPVs have uniformly applied the accounting policies during the periods presented.

The Audited Special Purpose Combined Financial Statements are special purpose financial statements and have been prepared by the Investment Manager to meet the requirements of InvIT Regulations and for inclusion in this Placement Memorandum prepared by the Investment Manager in connection with the proposed private placement of units of Trust. As a result, the Audited Special Purpose Combined Financial Statements may not be suitable for another purpose. As permitted by para 41 of the Guidance Note, comparative figures for the six month period ended September 30, 2024 have not been given. Further, the Audited Special Purpose Combined Financial Statements are not prepared in accordance with the requirements of Schedule III notified under the Companies Act, 2013.

As required by the InvIT regulations, the Audited Special Purpose Combined Financial Statements are prepared, based on an assumption that all SPVs were part of Trust for such period when Trust was not in existence. However, the Audited Special Purpose Combined Financial Statements may not be representative of the position which may prevail after the Project SPVs are transferred to Trust.

The Audited Special Purpose Combined Financial Statements are presented in Indian Rupees which is also the functional currency of the Project SPVs and all values are rounded to the nearest millions, unless otherwise indicated. Certain amounts that are required to be disclosed and do not appear due to rounding-off or construes value less than Rupees five thousand, are expressed as 0.00 (zero).

These Audited Special Purpose Combined Financial Statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities, which are measured at fair values as explained in relevant accounting policies.

The Audited Special Purpose Combined Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If one of the Project SPVs uses accounting policies other than those adopted in the Audited Special Purpose Combined Financial Statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Project SPVs member's financial statements in preparing the Audited Special Purpose Combined Financial Statements to ensure conformity with the Project SPVs' accounting policies.

The financial statements of all entities used for the purpose of combination are drawn up to same reporting date as that of the Project SPVs, i.e., year ended on March 31 and the six month period ended September 30, 2024.

Basis of Combination

a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the SPVs, and;

b) The Audited Special Purpose Combined Financial Statements of all the SPVs have been combined by combining/adding like items of assets, liabilities, equity, income, expenses.

c) The Special Purpose Financial Statements of all the SPVs have been combined based on the assumption that all the SPVs are part of a single group for the entire period presented pursuant to the InvIT Regulations.

d) The tax expenses are combined for all the expenses actually incurred by the combining businesses in accordance with the Guidance Note on Combined and Carve-Out Financial Statements.

e) Share capital has been presented by adding the individual capitals of each of the Project SPVs. For the proportionate share of the capital attributable to the non-controlling interest. Management has disclosed this amount separately from the combined capital.

f) Other equity has been presented by adding the individual other equities of each of the SPVs. For the proportionate share of the other equity attributable to the non-controlling interest, management has disclosed this amount separately from the combined other equity.

g) Interests in following joint venture are accounted for using the equity method, after initially being recognized at the net book value of the entity as at April 1, 2020.

Name of SPV	Description of asset	Current shareholding
TRDCL	Set up to develop, widen, strengthen, operate, construct and maintain the Thiruvananthapuram City Roads Improvement Project ("TCRIP") under the Annuity Concession Agreement dated March 16, 2004 as amended.	IL&FS Transportation Networks Limited – 50.00% (upto December 18, 2022) The Trust (from December 19, 2022) Punj Lloyd Limited – 50.00%

Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. The principal accounting estimates used have been described under the relevant income/expense and/or asset/liability item in these financial statements. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

Project SPVs determine future estimated revenue, future estimated traffic count, discounting rate etc. at each balance sheet which is used to arrive at amortization & impairment of intangible Assets, deferred tax calculation, provision for overlay etc. During the current financial year management has obtained a traffic study report which is prepared by an independent consultant to estimate future traffic revenue/traffic count.

Further, the Group has applied the principles of prudence and substance over form for recognition and measurement of its assets and liabilities.

In the process of applying the Group's accounting policies, management has made the following judgements, which have a risk of causing a material adjustment to the carrying amounts of assets and liabilities within the current financial year in case of following:

1. Useful life of property, plant & equipment;
2. Amortization of intangible assets;
3. Provision for overlay;
4. Deferred tax;
5. Impairment testing of intangible asset(s) – based on independent assessment;

I. Key estimations in relation to provision for overlay

Provision for overlay is estimated based on the Technical Due Diligence Report obtained from an independent consultant taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, anticipated technological changes. All these evaluations and assessments involve judgements on part of the management in estimating future revenue, future estimated traffic count, discounting factor, requirement for incurring overlay expense, etc.

II. Key estimations in relation to deferred tax assets group

Project SPVs estimate whether the Project SPVs will earn sufficient taxable profit in future periods. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The amount of the deferred tax assets considered realizable could be reduced in the near term, if estimates of future taxable income during the carry forward period are reduced.

III. Key estimations in relation to useful lives of property, plant and equipment & intangible assets, Amortization of Intangible assets and Impairment assessment of Intangible asset

Useful lives of property, plant and equipment & intangible Assets (other than the life prescribed under Schedule II of the Companies Act, 2013) are estimated based on the Traffic Study Report obtained from an independent consultant taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, anticipated technological changes. Impairment assessment in respect of Intangible Asset has been carried based on net present value of future operating cash flow which is again based on certain estimates used by the Independent Valuer. All these evaluations and assessments involve judgements on part of the management in estimating future revenue, future estimated traffic count, future cash flows, discounting factor, etc.

IV. Contractual obligation to restore the infrastructure to a specified level of serviceability

The Project SPVs have contractual obligations to maintain the infrastructure to a specified level of serviceability or restore the infrastructure to a specified condition during the concession period and/or at the time of hand over to the grantor of the SCA. Such obligations are measured at the best estimate of the expenditure that would be required to settle the obligation at the balance sheet date. In case of concession arrangements under intangible asset model, the timing and amount of such cost are estimated and recognized on a discounted basis by charging costs to revenue on the units of usage method i.e. on the number of vehicles expected to use the project facility, over the period at the end of which the overlay is estimated to be carried out based on technical evaluation by independent experts.

Current versus Non-Current Classification

The Project SPVs' present assets and liabilities in the balance sheet based on current / non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period, or;
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Project SPVs have identified twelve months as their operating cycle.

Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Project SPVs and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The specific recognition criteria described below must also be met before revenue is recognised.

Accounting for rights under service concession arrangements and revenue recognition:

1. <u>Recognition and measurement</u>

The Project SPVs build, operate and maintain infrastructure assets under public-to-private Service Concession Arrangements ("**SCAs**"), which is an arrangement between the "grantor" (a public sector entity/authority) and the "operator" (a private sector entity) to provide services that give the public access to major economic and social facilities utilizing private-sector funds and expertise. The infrastructures accounted for by the Project SPVs as concessions are mainly related to the activities concerning roads, tunnels, and other infrastructure facilities.

Concession contracts are public-private agreements for periods specified in the SCAs including the construction, upgradation, restoration of infrastructure and future services associated with the operation and maintenance of assets in the concession period. Revenue recognition, as well as the main characteristics of these contracts.

With respect to service concession arrangements, revenue and costs are allocated between those relating to construction services and those relating to operation & maintenance services, and are accounted for separately. Consideration received or receivable is allocated by reference to the relative fair value of services delivered when the amounts are separately identifiable. The infrastructure used in a concession are classified as an intangible asset or a financial asset, depending on the nature of the payment entitlements established in the concession agreement.

When the demand risk to the extent that the Project SPVs have a right to charge the user of infrastructure facility, the Project SPVs recognize revenues from construction services for public facilities (infrastructures) by the percentage-of-completion method and recognize the consideration for construction services at its fair value, as an intangible asset. The Project SPVs accounts for such intangible asset (along with the present value of committed payments towards concession arrangement to the grantor at the appointed date e.g. negative grant, premium etc.) in accordance with the provisions of Ind AS 38 and is amortized based on projected traffic count or revenue, as detailed in Note 3.1.iv, taking into account the estimated period of commercial operation of infrastructure which generally coincides with the concession period. Intangible asset is capitalized when the project is complete in all respects and when the Project SPVs receive the final completion certification from the grantor as specified in the concession agreement and not on completion of component basis as the intended purpose and economics of the project is to have the complete length of the infrastructure available for use. The component-based certification which is received is an intermediate mechanism provided in the Concession Agreement to provide a right to collect eligible toll to compensate the Project SPVs for cost recovery during construction period and for any delays beyond the control of the Project SPVs. However, where there is other than temporary delay due to reasons beyond the control of the Project SPVs the management may treat constructed portion of the infrastructure as a completed project. Eligible toll revenue collected on receipt of the component-based certification is reduced from the cost of construction, as the construction work on remaining portion is still in progress and the entire asset is not ready for its intended purpose.

When the amount of the arrangement consideration for the provision of public services is substantially fixed by a contract, the Project SPVs recognize revenues from construction services for public facilities (infrastructures) by the percentage-of-completion method and recognizes the consideration as a financial asset and the same is classified as “Receivables against Service Concession Arrangements”. The Project SPVs account for such financial assets at amortized cost, calculates interest income based on the effective interest method and recognizes it in revenue as Finance Income.

Contractual obligation to restore the infrastructure to a specified level of serviceability

The Project SPVs have contractual obligations to maintain the infrastructure to a specified level of serviceability or restore the infrastructure to a specified condition during the concession period and/or at the time of hand over to the grantor of the SCA. Such obligations are measured at the best estimate of the expenditure that would be required to settle the obligation at the balance sheet date. In case of concession arrangements under intangible asset model, the timing and amount of such cost are estimated and recognised on a discounted basis by charging costs to revenue on the units of usage method i.e. on the number of vehicles expected to use the project facility, over the period at the end of which the overlay is estimated to be carried out based on technical evaluation by independent experts.

Revenue recognition

Once the infrastructure is in operation, the treatment of income is as follows:

Revenue for concession arrangements under intangible asset model is recognized in the period of collection of toll which generally coincides with the usage of public service or where from such rights have been auctioned, in the period to which auctioned amount relates.

i. Revenue from construction contracts

The Project SPVs recognize and measure revenue, costs and margin for providing construction services during the period of construction of the infrastructure in accordance with Ind AS 115 'Revenue from Contracts with Customers'.

When the outcome of a construction contract can be estimated reliably and it is probable that it will be profitable, contract revenue and contract costs associated with the construction contract are recognized as revenue and expenses respectively by reference to the percentage of completion of the contract activity at the reporting date. The percentage of completion of a contract is determined considering the proportion that contract costs incurred for work performed up to the reporting date bear to the estimated total contract costs.

For the purposes of recognizing revenue, contract revenue comprises the initial amount of revenue agreed in the contract, the variations in contract work, claims and incentive payments to the extent that it is probable that they will result in revenue and they are capable of being reliably measured.

The percentage of completion method is applied on a cumulative basis in each accounting period to the current estimates of contract revenue and contract costs. The effect of a change in the estimate of contract revenue or contract costs, or the effect of a change in the estimate of the outcome of a contract, is accounted for as a change in accounting estimate and the effect of which are recognised in the Statement of Profit and Loss in the period in which the change is made and in subsequent periods.

When the outcome of a construction contract cannot be estimated reliably, revenue is recognised only to the extent of contract costs incurred of which recovery is probable and the related contract costs are recognised as an expense in the period in which they are incurred.

ii. *Borrowing cost related to SCAs*

In case of concession arrangement under intangible asset model, borrowing costs attributable to the construction of infrastructure assets are capitalized up to the date of the final completion certificate of the asset / facility received from the authority for its intended use specified in the concession agreement. All borrowing costs subsequent to the capitalization of the intangible assets are charged to the Statement of Profit and Loss in the period in which such costs are incurred.

iii. *Amortization of intangible asset under SCA*

The intangible rights relating to infrastructure assets, which are recognised in the form of right to charge users of the infrastructure asset are amortized by taking proportionate of actual traffic count for the period over total projected traffic count from project to cost of intangible assets; i.e. proportionate of actual traffic for the period over total projected traffic count from the intangible assets expected to be earned over the balance concession period as estimated by the management. However, with respect to toll road assets constructed and in operation as at March 31, 2016, the amortization of such intangible rights are based on actual revenue earned compared to total projected revenue from the project over the balance concession period to cost intangible assets, instead of traffic count.

Total projected revenue / traffic count is reviewed at the end of each financial year and is adjusted to reflect any changes in the estimates which lead to the actual collection at the end of the concession period.

iv. Claims

Claims raised with the concession granting authority towards reimbursement for costs incurred due to delay in handing over of unencumbered land to the Project SPVs for construction or other delays attributable solely to the concession granting authority are recognised when there is a reasonable certainty that there will be inflow of economic benefits to the Project SPVs. The claims, when recognised as such, are reduced from the carrying amount of the intangible asset under the service concession arrangement, to the extent the claims relate to costs earlier included as a part of the carrying amount of these assets. Further, these claims are credited to profit or loss to the extent they relate to costs earlier debited to profit or loss. The claims are presented separately as a financial asset.

v. Accounting of receivable and payable from / to the grantor (Grants)

Receivable towards the concession arrangement from the grantor. When the arrangement has a contractual right to receive cash or other financial asset from the grantor specifically towards the concession arrangement (in the form of grants) during the construction period or otherwise, such a right, to the extent eligible, is recorded as financial asset in accordance with Ind AS 109 "Financial Instruments," at amortized cost.

For intangible assets where the Project SPVs have availed the exemption under D7AA of Ind AS 101, the Financial asset has to be recognized only for all such receivables post April 01, 2015.

Interest Income

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rates applicable. For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate ("**EIR**").

Dividends:

Revenue is recognised when the Project SPVs' right to receive the payment is established, which is generally when shareholders approve the dividend

Taxes

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Project SPVs operates and generates taxable income.

Current income tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments In subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse In the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive or directly in equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Goods and Service Tax Paid on Acquisition of Assets or on Incurring Expenses

Expenses and assets are recognised net of the amount of goods and service tax paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.

- When receivables and payables are stated with the amount of tax included. The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet.

Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of Project SPVs. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

Provisions

Provisions are recognised when the Project SPVs have a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Project SPVs expect some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Project SPVs or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Project SPVs do not recognise a contingent liability but discloses its existence in the financial statements. A contingent asset is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements. Contingent liabilities and contingent assets are reviewed at each balance sheet date.

Financial Instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets Initial Recognition and Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through Statement of Profit and Loss, directly attributable transaction cost to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Project SPVs commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories;

- at amortised cost
- at fair value through profit or loss ("**FVTPL**")
- at fair value through other comprehensive income ("**FVTOCI**")

Financial Assets at amortised Cost

A financial asset is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and;
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Project SPVs. All the Loans and other receivables under financial assets (except Investments) are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The losses arising from impairment are recognised in the Statement of Profit and Loss.

Financial Assets at Fair Value through Statement of Profit and Loss / Other Comprehensive Income

All investments in scope of Ind AS 109 are measured at fair value. The Project SPVs investment in Debt oriented mutual fund which are held for trading, are classified as at FVTPL. The Project SPVs makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. The gain / loss on sale of investments are recognised in the Statement of Profit and Loss.

Instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of the Project SPVs of similar financial assets) is primarily derecognised (i.e. removed from the Project SPVs balance sheet) when:

The rights to receive cash flows from the asset have expired, or;

The Project SPVs have transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Project SPVs have transferred substantially all the risks and rewards of the asset, or (b) the Project SPVs have neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Project SPVs have transferred their rights to receive cash flows from an asset or enters into a pass-through arrangement, they evaluate if and to what extent they have retained the risks and rewards of ownership. When they have neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Project SPVs continue to recognise the transferred asset to the extent of the Project SPVs continuing involvement. In that case, the Project SPVs also recognise an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Project SPVs have retained.

Property, plant and equipment

Property, plant and equipment acquired by the Project SPVs are reported at acquisition cost, with deductions for accumulated depreciation and impairment losses, if any.

The acquisition cost includes the purchase price (excluding refundable taxes) and expenses, such as delivery and handling costs, installation, legal services and consultancy services, directly attributable to bringing the asset to the site and in working condition for its intended use.

Where the construction or development of any asset requiring a substantial period of time to set up for its intended use is funded by borrowings, the corresponding borrowing costs are capitalised up to the date when the asset is ready for its intended use.

All assets are depreciated on a straight line method ("**SLM**") of depreciation, over the useful life of assets as prescribed under Schedule II of the Companies Act, 2013 other than assets specified in para below

Following assets are depreciated over a useful life other than the life prescribed under Schedule II of the Companies Act, 2013 based on internal technical evaluation, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes etc.:

Asset	Useful life based on SLM
Data processing equipment (server & networking)	4
Mobile phones and iPad /tablets	Fully depreciated in the year of purchase
Specialised office equipment	3
Vehicles	5
Assets provided to employees	3

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying of the asset and is recognised in profit or loss.

Intangible assets (other than those covered by SCAs)

Intangible assets, other than those covered by SCAs, comprise of software and amounts paid for acquisition of commercial rights under an "Operation and Maintenance" agreement for a toll road project and are depreciated as follow:

Asset Type	Useful Life
Licensed software	Over the license period
Intellectual property rights	5 - 7 years
Commercial rights acquired under operations and maintenance Agreement	The minimum balance period of the concession agreement relating to the corresponding toll road project

Intangible assets are reported at acquisition cost with deductions for accumulated amortisation and impairment losses, if any.

Acquired intangible assets are reported separately from goodwill if they fulfil the criteria for qualifying as an asset, implying they can be separated or they are based on contractual or other legal rights and that their market value can be established in a reliable manner.

An impairment test of such intangible assets is conducted annually or more often if there is an indication of a decrease in value. The impairment loss, if any, is reported in the Statement of Profit and Loss.

Intangible assets, other than those covered by SCAs, are amortised on a "straight line" basis over their estimated useful lives. The estimated useful life of software is four years. The amount paid for acquisition of the rights under the "Operations and Maintenance" agreement is amortised over the minimum balance period (as at the time of acquisition) of the concession agreement relating to the corresponding toll road project.

Impairment of tangible and intangible assets

At the end of each reporting period, the Project SPVs reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Group of cash-generating units for which a reasonable and consistent allocation basis can be identified. In assessing value in use, the estimated future cash flows are discounted to their present value using appropriate discount rate.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, or whenever there is an indication that the asset may be impaired. Recoverable amount is the higher of fair value less costs of disposal and value in use.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Impairment of Financial Assets

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category. For financial assets other than trade receivables, as per Ind AS 109, the Project SPVs

recognize 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial assets increases significantly since its initial recognition. The impairment losses and reversals are recognized in Statement of Profit and Loss.

Impairment of Non-financial Assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("**CGU**") fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset unless the asset does not generate cash inflows that are largely independent of those from other assets or Group's assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Financial Liabilities

Initial recognition and measurement:

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Project SPVs financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

1. Financial liabilities at fair value through Profit or Loss: Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for Trading are recognised in the Statement of Profit and Loss.

2. Loans and Borrowings: After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

   Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

3. De-recognition: A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

4. Offsetting of Financial Instruments: Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Investment in Subsidiaries

Investments (equity instruments as well as subordinate debt) in subsidiaries are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, the difference between net disposal proceeds and carrying amounts are recognised in the Statement of Profit and Loss.

Foreign Currencies

The Group's financial statements are presented in INR, which is also the Group's functional currency. The Group does not have any foreign operation and has assessed the functional currency to be INR.
Transactions and Balances Transactions in foreign currencies are initially recorded by the Group at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.
Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Fair value Measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Project SPVs use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Project SPVs' management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Project SPVs accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

On an annual basis, the management of Investment Manager presents the valuation results to the Audit Committee and the Group's independent auditors. This includes a discussion of the major assumptions used in the valuations. For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Contributed Equity

Units are classified as equity. Incremental costs attributable to the issue of units are directly recorded in equity, net of tax.

Distribution to Unit Holders

The Project SPVs recognise a liability to make cash distributions to unit holders when the distribution is authorised and a legal obligation has been created. As per the InvIT Regulations, a distribution is authorised when it is approved by the Board of Directors of the Investment Manager. A corresponding amount is recognised directly in equity.

Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

Earnings Per Unit (EPU)

Basic earnings per unit are calculated by dividing the net profit for the year attributable to unit holders by the weighted average number of units outstanding during the year.

For the purpose of calculating diluted earnings per unit, the weighted average number of units outstanding during the year are adjusted for the effects of all dilutive potential units.

Key source of information:

The preparation of financial statements in conformity with Ind AS requires the Group makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates include

allowance for doubtful loans /other receivables, fair value measurement etc. Difference, if any, between the actual results and estimates is recognized in the period in which the results are known.

Non-controlling interest

Non-controlling interest represents the share of reserve and capital attributable to the shareholders of the SPVs who have not agreed to exchange their share in the SPVs for Units of the Trust and will not become unitholders. Below is the list of shareholders of the SPVs for whom non-controlling interest has been recognised. Non-controlling interests in the results and equity of subsidiaries are shown separately in the Audited Special purpose Combined Statement of Profit and Loss, Combined Statement of Change in Equity and Combined Balance Sheet separately.

Name of SPV	Shareholder	% Shareholding in SPV (as on reporting date)
HREL	Punj Lloyd Limited	0.01%
TRDCL	Punj Lloyd Limited	50.00%
PSRDCL	East Nippon Expressway Company (NEXCO)	9.09%

Ind AS-110 requires entities to attribute the profit or loss and each component of other comprehensive income to the owner of Project SPVs and to the non-controlling interest. This requirement needs to be followed even if this results in the non-controlling interest having a deficit balance. Non-controlling interest balance is stated at cost. Ind AS 101 requires the above requirement to be followed prospectively from the date of transition.

Principal Components of Combined Statement of Profit and Loss

Income

Our total income consists of revenue from operations and other income.

Revenue from operations

Revenue from operations primarily comprises toll revenue, operation and maintenance income, overlay income, construction income, finance income.

- ***Toll revenue:*** Toll revenue represents revenue collected by the Project SPVs as per the respective concession agreements. Our toll revenue primarily consists of toll fees collected by Project SPVs in line with the respective concession agreements.

- ***Operation and maintenance income***: Operation and maintenance income represents the income accrued on the operation and maintenance expenses incurred along with a markup under the annuity model. Revenues from operations and maintenance services are recognized in each period as and when services are rendered in accordance with Ind AS 115.

- ***Overlay income:*** This income represents the income accrued on the overlay expenses incurred along with a markup under annuity model. Revenues from overlay services are recognized in each period as and when services are rendered in accordance with Ind AS 115.

- ***Construction income:*** This income represents cost of work performed on the contract and the proportionate margin, using the percentage of completion method.

- ***Finance income:*** Finance income consists of interest income on financial assets which is created in accordance with Ind AS by adopting financial asset model for future annuity receivables from the concessioning authorities.

Other income

Other income primarily consists of income from utility shifting and COS work interest on bank deposits, interest on income tax refund/others, gain on disposal of property, plant and equipment, excess provisions written back, gain on mutual fund investments, miscellaneous income, modification gain on financial instrument, insurance claim received / receivable, net gain/(loss) arising on financial assets designated as at FVTPL, reversal of expected credit loss on claim receivable from NHAI and reversal of provision for impairment of intangible asset (net).

Expenses

Our expenses consist of construction costs and cost of material consumed, operating expenses, employee benefits expense, finance costs, depreciation and amortization expense and other expenses.

- ***Construction cost and cost of material consumed:*** Construction cost and cost of material consumed comprise costs from consumption of material, expenses arising from changes in inventories of finished goods, work-in-progress and stock-in-trade, and costs arising of out construction costs.

- ***Operating expenses:*** Operating expenses comprise operation and maintenance expenses, provision for overlay expenses, utility shifting and cost of services expenses, expenses arising out of penalties for maintenance, and toll plaza expenses.

- ***Finance costs:*** Finance costs comprise interest on loans and debentures, finance charges, security trustee fees, finance charges on provision for overlay, others interests, expected credit loss on claims and receivables, and NHAI premium unwinding cost.

- ***Depreciation and amortization of expense:*** Depreciation and amortisation expense comprises depreciation of property, plant and equipment and amortisation of intangible assets.

Six month **period ended September 30, 2024**

Total Income

Our total income for the six month period ended September 30, 2024 was ₹7.425.50 million.

Revenue from operations

Our revenue from operations for the six month period ended September 30, 2024 was ₹5,492.72 million, on account of toll revenue of ₹4,570.94 million, recognition of construction income of ₹702.63 million and finance income, operation and maintenance income and overlay income pursuant to Ind AS 115 aggregating to ₹219.15 million

Other income

Other income for the six month period ended September 30, 2024 was ₹1,932.78 million, on account of excess provision of ₹1,302.06 million written back and balance primarily on account of interest income on financial assets at amortised cost and insurance claims received /receivables.

Total expenses

Total expenses for the six month period ended September 30, 2024 were ₹14,226.51 million, primarily on account of construction contract costs, operating expenses, depreciation and amortization expense, financial costs and other expenses.

Construction costs and cost of material consumed

Construction costs and cost of material consumed for the six month period ended September 30, 2024 were ₹667.58 million. This was primarily due to construction work undertaken for BAEL.

Operating Expenses

Operating expenses for the six month period ended September 30, 2024 were ₹1,126.89 million.

Employee Benefits Expenses

Employee benefit expenses were nil for the six month period ended September 30, 2024.

Finance costs

Finance costs for the six month period ended September 30, 2024 were ₹7,996.95 million, primarily attributable to interest on loans for fixed period, interest on debentures, finance charges on provision for overlay and unwinding cost of NHAI premium. This also includes interest cost of ₹4,008.58 million w.e.f. April 1, 2021 and ₹ 961.40 million interest on delayed payment of premium to NHAI in respect of BAEL

Depreciation and amortisation expense

Depreciation and amortization expense for the six month period ended September 30, 2024 was ₹1,489.17 million.

Other expenses

Other expenses for the six month period ended September 30, 2024 were ₹2,945.92 million, on account of one time modification loss of ₹1,526.50 million and provision for doubtful and bad debts of ₹1,325.05 million in BAEL and balance primarily on account of legal and consultation fees, deputation cost, modification loss on financial asset and corporate social responsibility expenses.

Tax Expenses

Tax expenses for the six month period ended September 30, 2024 were ₹57.38 million, primarily on account of deferred tax.

Loss before exceptional items and tax

As a result of the factors outlined above, our loss before exceptional items and tax for the six month period ended September 30, 2024 was ₹ 6,801.01 million.

Total comprehensive loss for the year

As a result of the factors outlined above, our loss for the six month period ended September 30, 2024 was ₹6,858.39 million.

Comparison of fiscal years ended March 31, 2023 and March 31, 2024

Total Income

Total income increased by 5.85 % from ₹12,206.55 million for the fiscal year ended March 31, 2023 to ₹12,920.20 million in fiscal year ended March 31, 2024. This was primarily due to an increase in toll revenue, increase of construction activities in BAEL and interest income.

Revenue from operations

Revenue from operations increased by 17.28 % from ₹9,940.48 million in the fiscal year ended March 31, 2023 to ₹11,658.14 million in the fiscal year ended March 31, 2024. This was primarily due to an increase in toll revenue from ₹8,471.81 million in the fiscal year ended March 31, 2023 to ₹9,018.25 million in the fiscal year ended March 31, 2024, increase in construction income from ₹679.65 million in March 2023 to ₹1,937.87 million in fiscal year ended March 31, 2024 and which was partially offset by a decrease in finance income from ₹498.26 million in the fiscal year ended March 31, 2023 to ₹388.89 million in the fiscal year ended March 31, 2024.

Other Income

Other income decreased by 44.31 % from ₹2,266.07 million in the fiscal year ended March 31, 2023 to ₹1,262.06 million in the fiscal year ended March 31, 2024. This was primarily due to recognition of one time write back of ₹ 1,283.30 million in fiscal year ended March 31, 2023.

Total Expenses

Total expenses decreased by 4.05 % from ₹13,671.03 million in the fiscal year ended March 31, 2023 to ₹13,117.03 million in the fiscal year ended March 31, 2024. This was primarily due to a significant decrease in provisions for overlay expenses, increase in interest cost and increase in depreciation and amortization expenses.

Construction costs and cost of material consumed

Construction costs and cost of material consumed increased by 187.51 % from ₹641.78 million in the fiscal year ended March 31, 2023 to ₹ 1,845.17 million in the fiscal year ended March 31, 2024. This was primarily due to increase in construction activity.

Operating expenses

Operating expenses decreased by 36.37 % from ₹ 3,044.23 million in the fiscal year ended March 31, 2023 to ₹1,936.99 million in the fiscal year ended March 31, 2024.

Employee benefits expenses

Employee benefit expenses were nil for the fiscal year ended March 31, 2023 and remained nil in the Fiscal year ended March 31, 2024.

Finance Costs

Finance costs decreased by 6.97% from ₹6,727.54 million in the fiscal year ended March 31, 2023 to ₹6,258.37 million in the fiscal year ended March 31, 2024. This was primarily due to decrease in interest on bank, overdrafts, loans and debentures**.**

Depreciation and amortisation expense

Depreciation and amortization expenses increased by 11.24% from ₹2,609.70 million in the fiscal year ended March 31, 2023 to ₹2,903.00 million in the fiscal year ended March 31, 2024. This was primarily due to increase in amortisation of intangible assets.

Other expenses

Other expenses decreased by 73.22% from ₹647.78 million in the fiscal year ended March 31, 2023 to ₹173.50 million in the fiscal year ended March 31, 2024. This was primarily due to modification loss on financial assets and provision for doubtful and bad debts

Loss before exceptional items and tax

As a result of the above outlined factors, our loss before exceptional items and tax decreased by 86.56% from loss of ₹ 1,464.48 million in the fiscal year ended March 31, 2023 to a loss of ₹196.83 million in the fiscal year ended March 31, 2024.

Tax expenses

Tax expenses decreased by 73.54% from negative ₹332.96 million in the fiscal year ended March 31, 2023 to negative ₹88.10 million in the fiscal year ended March 31, 2024. This was primarily due to adjustment of tax pertaining to previous year of ₹369.67 million in fiscal year ended March 31, 2023.

Total comprehensive income for the year

As a result of the factors outlined above, total comprehensive income for the year increased from losses of ₹1,131.52 million in the fiscal year ended March 31, 2023 to losses of ₹108.73 million in the fiscal year ended March 31, 2024.

Comparison of fiscal years ended March 31, 2022 and 2023

Total Income

Total income increased by 40.57% from ₹8,683.67 million for the fiscal year ended March 31, 2022 to ₹12,206.55 million in fiscal year ended March 31, 2023. This was primarily due to an increase in toll revenue, recommencement of construction activities in BAEL and write back of excess provisions.

Revenue from operations

Revenue from operations increased by 30.26% from ₹7,631.12 million in the fiscal year ended March 31, 2022 to ₹9,940.48 million in the fiscal year ended March 31, 2023. This was primarily due to an increase in toll revenue from ₹6,895.36 million in the fiscal year ended March 31, 2022 to ₹8,471.81 million in the fiscal year ended March 31, 2023, recognition of construction income of ₹679.65 million in fiscal year ended March 31, 2023 and which was partially offset by a decrease in finance income from ₹581.61 million in the fiscal year ended March 31, 2022 to ₹498.26 million in the fiscal year ended March 31, 2023.

Other Income

Other income increased by 115.29% from ₹1,052.55 million in the fiscal year ended March 31, 2022 to ₹2,266.07 million in the fiscal year ended March 31, 2023. This was primarily due to write back of excess provisions of ₹1,283.30 million.

Total Expenses

Total expenses increased by 75.82% from ₹7,775.66 million in the fiscal year ended March 31, 2022 to ₹13,671.03 million in the fiscal year ended March 31, 2023. This was primarily due to a significant increase in provisions for overlay expenses, increase in interest cost and increase in depreciation and amortization expenses.

Construction costs and cost of material consumed

There were no construction costs and cost of material consumed in the fiscal year ended March 31, 2022. Construction costs and cost of material consumed were ₹641.78 million in the fiscal year ended March 31, 2023, on account of recommencement of construction activity in BAEL.

Operating expenses

Operating expenses increased by 95.95% from ₹1,553.59 million in the fiscal year ended March 31, 2022 to ₹3,044.23 million in the fiscal year ended March 31, 2023.

Employee benefits expenses

Employee benefit expenses were nil for the fiscal year ended March 31, 2022 and remained nil in the Fiscal year ended March 31, 2023.

Finance Costs

Finance costs increased by 64.00% from ₹4,102.08 million in the fiscal year ended March 31, 2022 to ₹6,727.54 million in the fiscal year ended March 31, 2023. This was primarily due to recognition of interest cost in HREL and PSRDCL (for senior lenders) with effect from April 1, 2021 in the fiscal year ended March 31, 2023.

Depreciation and amortisation expense

Depreciation and amortization expenses increased by 33.24% from ₹1958.71 million in the fiscal year ended March 31, 2022 to ₹2,609.70 million in the fiscal year ended March 31, 2023. This was primarily due to increase in amortisation of intangible assets.

Other expenses

Other expenses increased by 301.65% from ₹161.28 million in the fiscal year ended March 31, 2022 to ₹647.78 million in the fiscal year ended March 31, 2023. This was primarily due to modification loss on financial assets and provision for doubtful and bad debts.

Profit before exceptional items and tax

As a result of the above outlined factors, our profit before exceptional items and tax decreased by 261.28% from profit of ₹908.01 million in the fiscal year ended March 31, 2022 to a loss of ₹1,464.48 million in the fiscal year ended March 31, 2023.

Tax expenses

Tax expenses increased by 278.97% from ₹87.86 million in the fiscal year ended March 31, 2022 to ₹332.96 million in the fiscal year ended March 31, 2023. This was primarily due to adjustment of tax pertaining to previous year, since no notice was received for the fiscal year ended March 31, 2017 for BAEL, and the assessment for the fiscal year ended March 31, 2018 had been concluded, therefore the excess tax provision was reversed during the fiscal year ended March 31, 2023.

Total comprehensive income for the year

As a result of the factors outlined above, total comprehensive income for the year decreased from ₹995.87 million in the fiscal year ended March 31, 2022 to losses of ₹1,131.52 million in the fiscal year ended March 31, 2023.

Liquidity and Capital Resources

Our main sources of liquidity are cash flow from operating activities, investing activities and financing activities.

Our main liquidity requirements are primarily for routine operations, maintenance expenses, capital expenditure and servicing of debt.

As of September 30, 2024 , our cash and cash equivalents totaled ₹ 2,073.35 million and bank balances other than cash and cash equivalents totaled ₹ 7,460.27 million. As of September 30, 2024, our total current liabilities were ₹ 25,476.96 million.

Cash flows

Cash and cash equivalents at the end of the period	**943.35**	**1,956.67**	**2,273.68**	**2,073.35**

Net cash generated from operating activities

Net cash generated from operating activities for the six month period ended September 30, 2024 was ₹3,485.45 million, primarily arising out of positive working capital and increase in operations of the Project SPVs.

Net cash generated from operating activities for the fiscal year ended March 31, 2024 was ₹7,224.57 million, primarily arising out of positive working capital and increase in operations of the Project SPVs.

Net cash generated from operating activities for the fiscal year ended March 31, 2023 was ₹9,148.39 million, primarily arising out of positive working capital and increase in operations of the Project SPVs.

Net cash generated from operating activities for the fiscal year ended March 31, 2022 was ₹6,945.96 million, primarily arising out of positive working capital and increase in operations of the Project SPVs.

Investing Activities

Net cash generated from investing activities for the six month period ended September 30, 2024 was ₹154.34 million.

Net cash generated in investing activities for the fiscal year ended March 31, 2024 was ₹1,903.10 million.

Net cash used in investing activities for the fiscal year ended March 31, 2023 was ₹85.89 million.

Net cash used in investing activities for the fiscal year ended March 31, 2022 was ₹7,643.01 million

Financing Activities

Net cash used in financing activities for the six month period ended September 30, 2024 was ₹3,840.12 million, primarily attributable to finance costs paid amounting to ₹1,946.24 million, repayment of borrowings amounting to ₹1,594.90 million and movement in term loan borrowings ₹298.98 million.

Net cash used in financing activities for the fiscal year ended March 31, 2024 was ₹8,810.66 million, primarily attributable to finance costs paid amounting to ₹4,992.45 million and repayment of borrowings amounting to ₹3,145.44 million.

Net cash used in financing activities for the fiscal year ended March 31, 2023 was ₹8,049.18 million, primarily attributable to finance costs paid amounting to ₹4,053.46 million and repayment of borrowings amounting to ₹3,995.72 million.

Net cash used in financing activities for the fiscal year ended March 31, 2022 was ₹2,444.18 million, primarily attributable to finance costs paid amounting to ₹2,282.30 million and repayment of borrowings amounting to ₹161.88 million.

Indebtedness

Our borrowings consist of term loans taken from banks, secured optionally convertible debentures and unsecured optionally convertible debentures and non-convertible debentures. The table below sets forth further details on our current and non-current financing obligations that were outstanding as at September 30, 2024; March 31, 2024. March 31, 2023; and March 31, 2022:

(in ₹ million)

As at September 30, 2024, the Project SPVs' total borrowings (secured and unsecured) was ₹71,841.69 million, consisting of unsecured borrowings of ₹33,966.78 million and secured borrowings of ₹37,874.91 million. As at March 31, 2024, the Project SPVs' total borrowings (secured and unsecured), was ₹73,346.88 million, consisting of unsecured borrowings of ₹33,986.94 million and secured borrowings of ₹39,359.93 million. Of the total borrowing as at September 30, 2024, ₹26,245.05 million is borrowing in the Project SPVs from the Trust and in respect of BAEL, an additional ₹6,813.64 million has been assigned to the Trust in accordance with the Deed of Assignment post September 30, 2024. Most of the Project SPVs' financing arrangements are secured by their movable and immovable assets, including charges on their equipment and intangible assets relating to financial assets relating to their respective projects.

Capital Expenditure

Historically, our capital expenditure requirements have principally consisted of construction cost and related expenses during development of intangible assets and periodic major maintenance expenses.

Our capital expenditures in the six month period ended September 30, 2024 and the fiscal years ended March 31, 2024 March 31, 2023, and March 31, 2022 totalled ₹964.73 million, ₹2,729.95 million ₹2,158.87 million, and ₹178.15 million, respectively. Historically, our capital expenditure needs have been financed through a combination of the cash flow generated by our operations, debt from related parties and debt financing from banks and financial institutions.

Sufficiency of Working Capital

The Investment Manager confirms that the Trust has the ability to meet its working capital requirements for at least 12 months from the date of this Placement Memorandum.

Related Party Transactions

We have in the past engaged, and in the future may engage, in related party transactions. For a description of our related party transactions, see the section entitled "*Related Party Transactions*" on page 325.

Historical and planned capital expenditure

Other than in the ordinary course of business and expenses incurred due to certain regulatory requirements, we do not anticipate any further capital expenditures for the Project SPVs as at September 30, 2024.

Seasonality

Traffic volume tends to decrease during the monsoon season and conversely tends to increase during holiday seasons. While the northern parts of India experience monsoon rains during the period from June or July until September or October every year, the southern parts of India, especially coastal parts of Andhra Pradesh, experience monsoon rains even during the months of October to December. The monsoon season may also restrict our ability to carry on activities related to its operation and maintenance of toll roads.

Unusual or Infrequent Events or Transactions

Except as described in this Placement Memorandum, there have been no events or transactions to our knowledge which may be described as "unusual" or "infrequent".

Off-Balance Sheet Arrangements

We did not have any material off-balance sheet arrangements during the fiscal periods presented.

Quantitative and Qualitative Information on Market Risks

We are exposed to various financial risks. These risks are primarily categorised into credit risk, liquidity risk and market risk.

Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Project SPVs are exposed to credit risk from its investing activities including deposits with banks and other financial instruments. As at June 30, 2024, the credit risk is considered low since, the investment is in the form of deposits with the bank, which are considered to have high degree of safety.

Liquidity Risk

Liquidity risk arises from the Project SPVs' inability to meet its cash flow commitments on time. Project SPVs' objective is to, at all times, maintain optimum level of liquidity to meet its cash and collateral requirements. The Project SPVs closely monitors their liquidity position and deploys a disciplined cash management system. Project SPVs' liquidity is managed centrally with operating units forecasting their cash and liquidity requirements. Treasury pools the cash surplus from across the different operating units and then arranges to either fund the net deficit or invest the net surplus in the market.

The Project SPVs manage liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. The endeavour of The Project SPVs is to constantly improve the ratio of short term to long term maturity profile so as to minimise the risk of having to refinance the borrowing at regular short intervals.

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits.

There has been no change to the Project SPVs' exposure to market risks or the manner in which these risks are managed and measured.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Project SPVs exposure to the risk of changes in market interest rates relates primarily to the Project SPVs long-term debt obligations with floating interest rates.

The Project SPVs manage their interest rate risk by having a balanced portfolio of fixed and variable rate borrowings. The interest rate risk exposure is mainly from changes in fixed and floating interest rates. The interest rate are disclosed in the respective notes to the financial statement of the Project SPVs.

Price Risk

The Project SPVs exposure to price risk arises from investments held and classified in the Combined Balance Sheet at fair value through profit or loss. To manage the price risk arising from investments, the Project SPVs diversify their portfolio of assets.

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Project SPVs do not have any foreign currency exposure.

Other price risks

The Project SPVs are exposed to equity price risks arising from equity investments which is not material. For further information, please see the section "*Audited Special Purpose Combined Financial Statements*" on page 425.

Significant developments since September 30, 2024

Pursuant to a debenture trust deed dated November 12, 2024, BAEL has issued and allotted 8% redeemable, unlisted, unrated, secured/unsecured (as the case may be) non-convertible debentures of a nominal value of ₹1,000 each on a private placement basis, amounting to ₹7,743.47 million. For more details, please see the section "*Financial Indebtedness - Principal terms of the non-convertible debentures issued by BAEL"* on page 280**.**

Except as disclosed above and elsewhere in this Placement Memorandum, to our knowledge no circumstances have arisen since September 30, 2024, that could materially and adversely affect or are likely to affect, our operations, trading or profitability, or the value of our assets or our ability to pay our material liabilities within the next 12 months.

The month-wise unaudited revenue for the Project SPVs from the date of the latest financial statements included in this Placement Memorandum until the completed month before the filing of this Placement Memorandum has been provided below:

(in ₹ million)

RELATED PARTY TRANSACTIONS

In terms of Regulation 2(1)(zv) of the InvIT Regulations, a related party shall be as defined as under the Companies Act, 2013 or under the applicable accounting standards and shall also include: (i) Parties to the Trust; and (ii) promoters, directors, and partners of the Parties to the Trust. Further, related parties also include such persons and entities as defined in terms of the applicable accounting standards, being Ind AS 24 on "*Related Party Disclosures*" ("**Related Parties**") in relation to related party transactions for the financial years ended March 31, 2024, March 31 2023 and March 31, 2022 as per Ind AS 24. For further details in relation to related party transactions, please see the section "*Audited Special Purpose Combined Financial Statements*" on page 425. The Parties to the Trust, may, from time to time, enter into related party transactions, in accordance with applicable law.

Procedure for dealing with Related Party Transactions

To ensure proper approval, supervision and reporting of the transactions between the Trust and its Related Parties, the IM Board has adopted the policy in relation to related party transactions and conflict of interests ("**RPT Policy**"), pursuant to its resolution dated January 25, 2024, to regulate the transactions between the Trust and its Related Parties. The key terms of the RPT Policy are provided below:

RPT Policy

A brief description of the RPT Policy is as follows:

The RPT Policy is adopted to regulate the transactions of the Trust with its Related Parties (as defined below), based on the laws and regulations applicable to the Trust and best practices.

"Related Party of the Trust"/ "Related Parties" shall be defined under the Companies Act, 2013, as amended or under applicable accounting standards and shall also include (a) the Sponsor and its sponsor group (as defined under the InvIT Regulations), the Investment Manager, the Project Manager and the Trustee; and (b) any promoters, directors and partners of persons mentioned in (a) above.

A. Some other key definitions in the RPT Policy are as below:

a) "**Act**" means the Companies Act, 2013, as amended.

b) "**Associate**" of any person shall have the meaning ascribed to such term under the InvIT Regulations.

c) "**Audit Committee**" means the audit committee constituted by the Board pursuant to Section 177 of the Act and in compliance with the applicable provisions of the InvIT Regulations.

d) "**Board**" means the board of directors of Roadstar Investment Managers Limited.

e) "**Director**" means a director on the Board.

f) "**Investment Manager**" means Roadstar Investment Managers Limited, the investment manager of the Trust.

g) "**Project Manager**" means Elsamex Maintenance Services Limited, the project manager of the Trust.

h) **"Related Party Transactions"** shall mean any transactions between the Trust and any Related Party of the Trust. Further, any transaction between the Trust and one or more infrastructure investment trusts having a common investment manager or sponsor, or a transaction where any of the Investment Manager or the sponsor is an associate of the investment manager or sponsor of the other infrastructure investment trust(s), shall be deemed to be related party transactions for such parties.

i) "**Sponsor**" shall mean Roadstar Infra Private Limited, the sponsor of the Trust.

j) "**SPV**" shall have the meaning ascribed to such term under the InvIT Regulations.

k) "**Trustee**" means Axis Trustee Services Limited, the trustee to the Trust.

l) "**Unit**" shall mean an undivided beneficial interest of the InvIT, and such Units together represent the entire beneficial interest of the InvIT.

m) "**Unitholder**" means any person who owns Units of the Trust.

B. Objectives of the RPT Policy

a) The objective of the RPT Policy is to ensure proper approval, supervision and reporting of the transactions between the Trust and its Related Parties.

b) In accordance with the InvIT Regulations, the Investment Manager will ensure that all future Related Party Transactions shall be:

(i) on an arm's length basis;
(ii) in accordance with the relevant accounting standards;
(iii) in the best interest of the Unitholders;
(iv) consistent with the strategy and investment objectives of the Trust; and
(v) in compliance with applicable law.

C. Review and approval

a) The Investment Manager will ensure that an approval from the Unitholders shall be obtained prior to entering into any transaction after the initial public offer, with any Related Party, in accordance with Regulation 22 of the InvIT Regulations:

(i) if the total value of all the Related Party Transactions entered in a financial year, pertaining to acquisition or sale of assets, whether directly or through an SPV, or investments into securities, exceeds 5% of the value of the assets of the Trust or any other threshold prescribed by the InvIT Regulations,

(ii) if the value of the funds borrowed from Related Parties exceeds 5% of the total consolidated borrowings of the Trust and the SPVs, or any other threshold prescribed by the InvIT Regulations.

b) As a general rule, the Investment Manager must demonstrate to the Board that future Related Party Transactions satisfy the criteria set out in Paragraph B above at the time of recommending the same for the approval of the Board.

c) The Investment Manager will maintain a register to record all Related Party Transactions entered into by the Trust and the basis on which they are entered into.

d) The Investment Manager will establish an internal control system so as to ensure that all future Related Party Transactions are compliant with the InvIT Regulations and applicable accounting standards. The Investment Manager shall also ensure compliance with any additional guidelines issued in this regard by SEBI and other relevant regulatory, statutory or governmental authorities from time to time.

e) In addition to any other requirement that may be prescribed in terms of the InvIT Regulations or other applicable laws, all Related Party Transactions to be entered into will be reviewed, approved and/or ratified by the Audit Committee.

f) The Audit Committee may grant omnibus approval for Related Party Transactions. Each such omnibus approval shall be valid for a period not exceeding one year from the date of such approval, and Related Party Transactions undertaken after the expiry of such period shall require fresh approval of the Audit Committee. The Audit Committee shall review, on a periodic basis, the details of Related Party Transactions entered into by the Trust pursuant to the omnibus approval.

g) The Board shall review at least quarterly in each financial year the Related Party Transactions entered into during such quarter to ascertain that the guidelines and procedures established to monitor the Related Party Transactions have been complied with. The review by the Board may include the examination of the nature of the transaction and its supporting documents or such other data as may be deemed necessary by the Board.

h) While considering a Related Party Transaction, any director on the Board who has a potential interest in any Related Party Transaction will recuse himself or herself and abstain from discussion, review and voting on the Related Party Transaction. Further, while considering voting on a Related Party Transaction which requires approval of the Unitholders, voting by any person who is a related party in such transaction as well as associate of such person(s) shall not be considered on the specific issue.

i) The Investment Manager shall ensure that the profits from Related Party Transactions have arisen from legitimate business transactions.

D. Disclosure and Reporting

a) The Investment Manager shall submit to the Trustee, quarterly reports on the activities of the Trust, including the status of compliance with the requirements specified under the InvIT Regulations in relation to Related Party Transactions, within such time as may be prescribed in the InvIT Regulations and applicable law.

b) Related Party Transactions shall be disclosed: (a) in the placement memorandum with respect to any such transactions entered into prior to the offer of units and any such proposed transactions subsequent to the offer; and (b) to the stock exchanges and the Unitholders periodically, in accordance with the InvIT Regulations and the agreements to be entered into with the stock exchanges in relation to the listing of the Units. The Investment Manager shall adequately disclose the details of any fees or commissions received or to be received by such Related Party(ies), with respect to any Related Party Transaction, to the stock exchanges.

c) If any Related Party has an interest in the business which competes or is likely to compete (directly or indirectly) with the activities of the Trust, the placement memorandum shall disclose: (a) details of such business including an explanation as to how such business shall compete with the Trust, (b) a declaration that Related Party shall perform its duty in relation to the Trust independent of its related business, (c) declaration as to whether acquisition of such business by the Trust is intended and its details, if applicable.

d) In accordance with the InvIT Regulations, the annual report to be submitted by the Investment Manager to all Unitholders, electronically or by physical copies, and to the stock exchanges within three months from the end of the financial year, shall contain, *inter alia*, details of all Related Party Transactions during the year, value of which exceeds 5.00% of value of the Trust Assets; and details of monies lent by the Trust to the SPV it has investment in.

E. The Board may specify any additional guidelines with respect to Related Party Transactions in compliance with applicable law, as it deems fit.

F. Notwithstanding the above, this RPT Policy will stand amended to the extent of any change in applicable law, including any amendment to the InvIT Regulations, without any action from the Investment Manager or approval of the Unitholders of the Trust.

Related Party Transactions

Acquisition of the Project SPVs by the Trust

Share Purchase Agreements ("SPAs")

IL&FS Transportation Networks Limited (the "**Seller**"), the Trustee (acting on behalf of the Trust), the Investment Manager and each of the Project SPVs, have entered into an SPA by way of which, the Trust has purchased, and the relevant seller has sold, the entire issued, subscribed and paid-up share capital of the relevant Project SPVs ("**Sale Shares**") (other than HREL and TRDCL, where the third-party shareholder will continue to hold certain percentage of the equity share capital, subject to compliance with the InvIT Regulations). The key indicative terms of the SPAs are as follows:

Sale and purchase: The Seller agrees to sell and transfer the Sale Shares to the Trust and the Trust agrees to acquire the Sale Shares, free and clear of all set-off or counter claim or encumbrances, together with the rights, title, interest and benefits appertaining thereto, on the Closing Date (*as defined in the SPAs*). In consideration for the purchase of the Sale Shares, the Trust and Investment Manager hereby agrees to allot Units (the "**Consideration Units**") to the seller.

Conditions precedent: The obligation of the parties to proceed with the Closing (*as defined in the SPAs*) is conditional upon the fulfilment (or waiver) of each of the following conditions:

a. All necessary consents required to be obtained by the Seller ("**Seller Consents**") in connection with the completion of the Proposed Transaction (*as defined in the SPAs*), as set out in Schedule III of the SPA, have been obtained;

b. Save and except the IL&FS Group entities that are: (i) creditors of the Company (*as defined in the relevant SPAs*); and (ii) proposing to assign the receivables (owed to them by the Company) to the Trust in the manner described in the Company Receivables Assignment Deed (*as defined in the SPAs*), final sanction letters have been issued by the other financial creditors of the Company in a form and manner acceptable to the Trustee and Investment Manager in connection with the proposed restructuring of such financial debt of the Company which is outstanding on Closing Date;

c. Provision of the certified management accounts of the Company as of a date not earlier than fifteen days from (but excluding) the Closing Date;

d. The delivery of the Final Equity Value (*as defined in the SPAs*) by the Investment Manager to the other parties along with:

   (i) The valuation report based on which the Final SPV Value (*as defined in the SPAs*) and Final Equity Value have been determined; and

   (ii) A written confirmation on whether the Final Equity Value is lower or higher than the Initial Equity Value (*as defined in the SPAs*) (as set out in Clause 3 of the SPA) along with details of the difference between the Final Equity Value and the Initial Equity Value;

e. Written intimation by the Investment Manger on behalf of the Trust to the other parties of the face value of each Consideration Unit to be allotted to the Seller; and

f. Each Party (*as defined in the SPAs*) confirming to the other Party that: (i) there is no writ, judgement, injunction, decree, or similar order passed by any Indian Court restraining that Party from consummating or undertaking the actions to be taken by that Party on Closing; or (ii) where such judgement, injunction, decree, or similar order (referred to above) if passed, has been stayed.

Closing: The closing shall occur on such time and place and/or on date as the parties may mutually agree in writing. The date on which all the actions set out as set out in the 'Closing Actions' below are completed shall be referred to as the Closing Date.

Closing Actions: Subject to the terms and conditions of the SPAs, the parties undertake to comply with their respective obligations as specified under the SPAs below on the Closing date:

a. The Investment Manager (on behalf of the Trust) shall:

   (i) Undertake and execute corporate actions and forms for the issue and credit of the relevant number of Consideration Units to the Seller proportionate to its shareholding of the Sale Shares and cause the credit of (i) the Consideration Units proportionate to its respective shareholding of the Sale Shares to such designated account as notified by the Seller at the time of the Closing in accordance with Applicable Law (*as defined under the SPAs*) where the Final Equity Value is more than nil; or (ii) cash to the designated accounts of the Seller in terms of the SPAs where the Final Equity Value is negative or nil.

   (ii) Deliver irrevocable and unconditional instructions to the depository participant to credit such number of Consideration Units based on the Final Consideration (*as defined under the SPAs*) determined in terms of the SPAs to such designated account as notified by the Seller at the time of Closing, free and clear of any Encumbrances (*as defined under the SPAs*), as applicable;

   (iii) In order to meet the minimum number of shareholders required under the Companies Act, it shall designate and nominate, prior to or on the Closing Date by written intimation to the Seller and the Company (*as defined under the relevant SPAs*), the nominees of the Trust to purchase such number of Sale Shares as may be set out in such written intimation in order to satisfy the aforementioned requirement; and

   (iv) In consultation with the Trustee, appoint nominees of the Trust as additional directors on the board of directors of the Company in order to comply with requirement under Regulation 18(3)(b) of the InvIT Regulations and undertake all such corporate actions as may be necessary for such appointment.

b. Upon receipt of the Consideration Units in accordance with (a) above, the Seller shall undertake the actions below:

   (i) Deliver an irrevocable and unconditional delivery instruction slip to its depository participant, instructing the depository participant to transfer the Sale Shares held by it to the Trust Demat Account (*as defined under the SPAs*), free and clear of any Encumbrances;

   (ii) Procure that the relevant depository participant acknowledges such instructions and provide a copy of such acknowledgement to the Trust and the Investment Manager; and

   (iii) Do all such acts and deeds as may be required to procure the depository participant to transfer the Sale Shares to the relevant Trust Demat Account on the Closing Date.

c. Upon delivery of the relevant requisite documents as specified above the Company shall hold a meeting of its board of directors whereby a resolution noting the transfer of the Sale Shares from the Seller to the Trust shall be passed.

   Notwithstanding anything contained to the contrary herein, no transaction or event set out in the SPA shall have been deemed to have been completed unless the transactions as contemplated in the Company Receivables Assignment Deed are completed.

Representations and Warranties: Each party to the SPAs declares, states, represents and warrants and affirms in respect of itself as of the date hereof and as of the Closing Date that:

a. It has been duly incorporated and validly exists under applicable law;

b. The execution and delivery by it of the SPAs and the performance by it of the obligations has been duly authorised by all necessary corporate action; and

c. The SPAs have been duly executed and delivered by each Party and constitutes legal, valid and binding obligations of such Party enforceable against the relevant Party in accordance with its terms.

d. The Seller (either individually and/or jointly as the case may be) is the owner of the relevant Sale Shares and has legal title to the relevant Sale Shares owned by the Seller.

e. The transfer of the Sale Shares to the Trust, upon receipt of the approval from the Hon'ble NCLT, shall be free and clear of all Encumbrances as on the Closing Date.

f. The Trust (acting through the Trustee) declare, represent, warrant and affirm in respect of itself as of the date hereof and as of the Closing Date that:

   (i) The execution, delivery and performance of the SPAs by the Trust and the consummation of the Proposed Transaction by the Trust does not and shall not (a) conflict with or result in a breach of the terms, conditions or provisions of, (b) constitute a default under (whether with or without the passage of time, the giving of notice or both), or (c) result in a violation of, the Trust Documents.

   (ii) The Trust has complied with and is currently in compliance with all applicable laws.

   (iii) As on the date of the SPAs and the Closing Date, all Consents (as defined under the SPAs) (other than Seller Consents) required to be obtained for the execution and delivery of the SPAs, in the country of its incorporation, have been obtained and are in full force and effect. As on the Closing Date, all Consents (other than Seller Consents) required to be obtained by the Trust for the performance of its obligations under the SPAs have been obtained and are in full force and effect, unless otherwise provided for in the SPAs.

g. That there are no proceedings pending or threatened (that the Trust is aware of) in writing, against or affecting the Trust in which it is sought to restrain or prohibit the Proposed Transaction, or that prohibits the Trust from, entering into the SPA or performing its obligations hereunder, including purchasing the Sale Shares.

h. The Parties irrevocably and unconditionally agree and acknowledge that the Sale Shares are being sold on an "as is where is" basis and "as is what is" basis and the parties make no representation or warranties other than the representations and warranties set out in the SPA, whether express, implied, oral, collateral statutory, customary or otherwise.

Termination: The SPAs shall be effective from the date of execution of the SPAs and shall continue to be valid and in full and effect for a period of nine months from the Execution Date (*as defined under the SPAs*) or such other period as may be agreed upon by mutual consent of the parties to the SPA.

Notwithstanding, the SPAs may be terminated by mutual consent of the parties to the respective SPAs in writing at any time. Termination of the SPA shall be without prejudice to the accrued rights and obligations of any of the parties to the SPA.

Deed of Assignments ("DOAs")

Each of the Project SPVs has entered into separate deed of assignments with the Trustee (acting on behalf of the Trust) ("**Assignee Lender**"), the Investment Manager, ITNL and their respective lenders forming part of the IL&FS Group (ITNL and other respective lenders of the relevant Project SPVs referred to collectively as "**IL&FS Unitholders**" and such deeds "**Deed of Assignments**"). By way of such Deed of Assignments, the IL&FS Unitholders have received Units of the Trust as consideration for the transfer and assignment of the entire amount of receivables (as contemplated under the respective Deed of Assignment) due from the relevant Project SPVs, to the Assignee Lender.

Operations and Maintenance Agreements ("O&M Agreements")

Pursuant to the concession agreements, each of the Project SPVs has entered into O&M Agreements with the Project Manager, the Investment Manager and the Trustee. By way of such O&M Agreements, the Project Manager, undertakes to conduct, *inter alia*, routine maintenance and periodic overlay, toll user/fee collection and toll operation activities of the Project SPVs, as applicable.

Debt Restructuring Agreements

Each of the Project SPVs have entered into debt restructuring agreements with their respective lenders, to modify the terms of the borrowings and align such terms of the borrowings with the ability of the respective Project SPVs to service the amounts falling due for payment from their respective cash flows.

Present and On-going Related Party Transactions

Related Party Transactions of the Trust in relation to the setting up of the Trust and this Unit Distribution

A number of present and on-going transactions with certain Related Parties have been, or will be, entered into in relation to the setting up of the Trust and the functioning of the Trust. The Trustee and the Investment Manager confirm that the following related party transactions have been, or shall be, entered into, on an arm's length basis in accordance with the relevant accounting standards, in the best interest of the Unitholders, consistent with:

(i). Trust Deed
Please see the section "*Parties to the Trust – Key Terms of the Trust Deed*" on page 103 for a description of the terms of the Trust Deed. The Trustee has received a sum ₹0.001 million towards the initial settlement of the Trust from the Sponsor.

(ii). Investment Management Agreement
Please see the section "*Parties to the Trust – Key Terms of the Investment Management Agreement*" on page 117 for a description of the terms of the Investment Management Agreement.

(iii). Project Implementation and Management Agreements
Please see the section "*Parties to the Trust – Key terms of the Project Implementation and Management Agreements*" on page 130 for a description of the terms of the Project Implementation and Management Agreements.

(iv). Share Purchase Agreement
Please see this section "*Related Party Transactions – Share Purchase Agreements*" on page 328 for the description of the terms of the Share Purchase Agreement entered into for the transfer of Project SPVs by the Trust.

Borrowings from Related Parties

Borrowings in the form of inter-corporate deposits, and other short term and subordinated loans were provided to certain Project SPVs. For details, please see the section "*Financial Indebtedness and Deferred Payments*" on page 274.

Potential Conflicts of Interest

The Investment Manager has established certain procedures to deal with conflict of interest issues. For further details on management of potential conflicts of interest, please see this section "*Related Party Transactions – Procedure for dealing with Related Party Transactions*" on page 325.

REGULATIONS AND POLICIES

The following description is a summary of certain sector specific laws currently in force in India, which are applicable to the business of the Project SPVs, and the Trust, in the road infrastructure sector. The information summarized in this section has been obtained from statutes, regulations, publications, and sector-specific policies available in the public domain. The description set out below is not exhaustive and is only intended to provide general information to Eligible Creditors, and is neither designed as, nor intended to substitute, professional legal advice and regulatory approvals. The interpretations, as provided hereinbelow, are subject to modification or clarification by subsequent legislative, judicial or administrative decisions. For information regarding regulatory approvals obtained by the Project SPVs and the Trust, please see the section "Regulatory Approvals" on page 342.

Regulatory Framework on Road Infrastructure

The regulatory framework in India in the highways sector, implemented on a public-private partnership ("**PPP**") basis, mainly derives its source from the primary legislations of National Highways Authority of India Act, 1988 (the "**NHAI Act**") and the National Highways Act, 1956 (the "**NH Act**") enacted by the Indian parliament, each as amended or supplemented.

The National Highways Act, 1956

The policy of the MoRTH, in implementing the NH Act, is to vest the MoRTH with the power to declare a national highway and for acquisition of land for this purpose. The GoI, by notification, can declare the intention to acquire any land for a 'public purpose' as envisaged by the law and such land can be used for building, maintenance, management and operation of the declared national highways throughout the country. The NH Act prescribes the procedure for such land acquisition. The procedure includes, *inter alia*, a declaration of an intention to acquire, entering and surveying such land, hearing of objections, a declaration of the acquisition and the power to take possession. The NH Act also provides for payment of compensation to owners and any other person whose right of enjoyment or ownership in the land has been affected. The NH Act vests MoRTH with the power to appoint a competent authority for the effective implementation of the NH Act and its policies. The said appointed authority retains the right and power to (a) survey, make any inspection, valuation or enquiry; (b) take levels; (c) dig or bore into sub-soil; (d) set out boundaries and intended lines of work; (e) mark such levels, boundaries and lines placing marks and cutting trenches; or (f) do such other acts or things as may be laid down by rules made in this behalf by that government.

All the notified national highways shall vest in the name of the Union and for the purposes, shall include all lands appurtenant thereto and all the bridges, culverts, tunnels and other enlisted constructions under the said NH Act. The Central Government shall assume the responsibility of maintaining and construction of national highways in proper condition in accordance to the law. The Central Government also retains the right to levy fee over the services and benefits rendered in relation to the use of such national highways.

The GoI is responsible for the development and maintenance of national highways. However, it may direct that such functions may also be exercised by the government of a state in which the highway is located or by any officer or authority subordinate to the GoI or to the state government. Further, the GoI has the power to enter into an agreement with any person for the development and maintenance of a part or whole of the highway. Such person would have the right to collect and retain fees at such rates as may be notified by the GoI and will also have the powers to regulate and control the traffic, for proper management of the highway, in accordance with the provisions of the Motor Vehicles Act, 1988, as amended. The GoI also has the power to make rules for carrying out the purposes of the NH Act.

The National Highways (Amendment) Act, 2017, entails the competent authority to issue reports to the Central Government in respect of any land (either acquired or proposed to be acquired) which is, either under incorrect revenue record or which is not required due to change in geometry or alignment of the construction, to issue order for the de-notification of such land from the acquisition for development and maintenance of the national highway. In pursuance of the foregoing amendment to the statute, the National Highways Rules, 1957, have been amended to ensure the exercise of the power under the NH Act. These rules provide for periodic regulatory compliance and reporting standards to be followed by the competent authority in reporting to the Central Government.

The National Highways Authority of India Act, 1988

The NHAI Act was enacted in pursuance of the powers of the Central Government for appointing a competent authority under the NH Act and provides for the constitution of an authority for the development, maintenance and management of national highways and for matters connected therewith or incidental thereto. In accordance with the NHAI Act, the GoI carries out development and maintenance of the national highways through NHAI. Subject to the provisions of the NHAI Act, the NHAI has the power to enter into and perform any contract necessary for the discharge of its functions. The NHAI has the power to acquire any land to discharge its functions, and such acquired land will be deemed to be land needed for a 'public purpose'. The NHAI Act prescribes a limit in relation to the value of the contracts that may be entered into by NHAI. However, the NHAI may enter into contracts exceeding the specified value, on obtaining prior approval of the GoI. The NHAI Act provides that the contracts for acquisition, sale, or lease of immovable property on behalf of the NHAI cannot exceed a term of 30 years unless previously approved by the GoI.

NHAI's objective is to ensure that all contract awards and procurements conform to the best industry practices with regard to transparency of process, adoption of bid criteria to ensure healthy competition in award of contracts. In accordance with the NHAI Act, the NHAI shall consist of a full time chairman, not more than 6 full time members and not more than 6 part time members who are being appointed by the Central Government.

In view of the challenging task of construction, development, and management of national highways being undertaken by NHAI, the Committee on Public Undertakings selected the subject "National Highways Authority of India (NHAI)" for comprehensive examination and report. National Highways Development Project ("**NHDP**") was launched in 1998 with the objective of developing roads of international standards which facilitate smooth flow of traffic. The NHDP envisages creation of roads with enhanced safety features, better riding surface, grade separator and other salient features.

As per the NHAI Works Manual, 2006, NHAI's function is to develop maintain and manage the national highways and any other highways vested in, or entrusted to it by the government. The sources of finance available to the NHAI include fund assistance from external funding agencies like the World Bank and the Asian Development Bank. NHAI's role encompasses involving the private sector in provision, maintenance, and operation of the national highways.

Financing of the NHDP

The GoI, under the Central Road and Infrastructure Fund Act, 2000 created a fund which is required to be utilized for the development and maintenance of national highways (the "**Central Road Fund**"). Section 18 of the NHAI Act also provides for the creation of a separate NHAI Fund. Any capital grant or aid received, loan taken, borrowing made, or any other sum received by the NHAI is credited to the NHAI Fund. Certain sources for financing of the NHDP are through dedicated accruals under the Central Road Fund by levy of cess on fuel as well as involving the private sector and encouraging public private partnerships. The NHDP is also financed through long-term external loans from the International Bank of Reconstruction and Development, the Asian Development Bank and the Japan Bank for International Cooperation as well as through tolling of roads for different projects undertaken by the NHAI.

Private Participation in NHDP

In an effort to attract private sector participation in the NHDP, the NHAI has issued model concession agreements ("**MCAs**") which have been formulated by Planning Commission of India or NITI Aayog and other departments of Central Government where a private entity, being the concessionaire, is, through an international competitive bidding ("**ICB**") process, awarded a concession (in form of a bundle of licenses) to build, own, operate and collect toll on a road for a specified period of time. The concession to develop highway projects is given by the NHAI or other governmental authorities under various models of PPP like:

(i) Build, Operate, Transfer (BOT)/ Design, Build, Finance, Operate and Transfer (DBFOT) – In this model, the entire designing, financing and construction is undertaken by the concessionaire at its own cost. The concessionaire is entitled to collect toll or receive annuity payments from the NHAI, as the case may be, during the concession period after the construction of the highway project. The bid for the project may either be selected basis the lowest grant wanted by the private developer from the NHAI or the highest premium the private developer is willing to pay to NHAI, in the form of additional concession fee. The concessionaire at the end of the concession period transfers the highway project to the NHAI (free of charge and clear of all encumbrances). The concessionaire's investment in the highway project is recovered directly through user fees collected by way of tolls. Under the BOT model, the projects which are generally not viable based on toll revenue alone, the NHAI or the relevant governmental authority provides concessionaire with a capital grant upto certain percentage of the project cost to increase the viability of projects and the quantum of such grant is determined on a case to case basis. For certain projects with high traffic volumes, concessionaire also offers a negative grant (i.e., premium) to the NHAI.

(ii) Hybrid Annuity Model (HAM) – In this model, the NHAI or the relevant governmental authority invests 40% (forty percent) of the construction cost of the project in (five) equal instalments and the balance amount is infused by the private developer. The private developer recovers his investment in the form of annuity payments received by it over a period of 15 (fifteen) years. Additionally, there is no revenue risk for the private developer under HAM model because the toll is collected by the NHAI or relevant governmental authorities unlike the BOT model where the private developer collects it.

(iii) Toll, Operate and Transfer (TOT) – In this model, the road projects which are in operational phase are awarded by the NHAI or relevant governmental authorities to the concessionaire. The NHAI passes on the toll collection rights and operation and maintenance obligations to the concessionaire against payment of upfront concession fees quoted by the concessionaire as a part of the bidding process.

The bidding for the projects takes place in two stages as per the process provided below:

1. in the pre-qualification (RFQ) stage, the NHAI selects certain applicants on the basis of technical and financial expertise, prior experience in implementing similar projects and previous track record; and

2. in the bidding (RFP) stage, the NHAI invites financial bids from the pre-qualified applicants at the RFQ-stage on the basis of which the concession is awarded to the successful bidder by the NHAI for implementation of the project.

In accordance with the MCAs for projects above ₹1,000 million, the concessionaire meets the upfront cost and expenditure on annual maintenance and recovers the entire cost along with the interest from toll collections during the concession period. As per the 'Guidelines for Investment in Road Sector' issued by MoRTH in 2009, in order to increase the viability of projects, a capital grant of up to 40% of the project cost is provided by the NHAI or the GoI. The quantum of grant is determined on a case to case basis and typically constitutes the bid parameter in Build, Operate, Transfer ("**BOT**") projects which are generally not viable based on toll revenue alone. For certain projects with high traffic volumes, concessionaire also offers a negative grant (i.e., premium) to the NHAI. The concessionaire at the end of the concession period transfers the road back to the Government (free of charge and clear of all encumbrances). The concessionaire's investment in the road is recovered directly through user fees collected by way of tolls. As per the MCAs for annuity based projects, the concessionaire is required to meet the entire upfront cost (no grant is paid by the NHAI or the GoI) and the expenditure on annual maintenance for annuity based projects. The concessionaire recovers the entire investment through pre- determined annuity payments to be made by the NHAI or the GoI. Furthermore, MoRTH approved certain amendments to the model concession agreement, inter-alia, in relation to deferment of premium payments.

Exit Policy

The CCEA in May 2015 approved a comprehensive exit policy framework with the objective to mobilize funds in the market. In pursuance thereto, NHAI, *vide* Circular No. NHAI/1103/CGM(FA)/4/2015 dated June 9, 2015 permitted divestment of 100% equity by concessionaires/developers after two years of completion of construction to facilitate unlocking of funds for new infrastructure projects. The equity divested is required to be invested by promoters in new projects. This comprehensive exit policy framework is expected to harmonize certain conditions across all concessions signed prior to 2009 with the policy framework for post 2009 contracts which permit divestment of equity up to 100%, two years after completion of construction. In line with the spirit of quoted circular, the NHAI issued another circular dated September 9, 2015 followed by the circular dated November 19, 2015, on the same subject, allowing the promoter to use the proceeds from the sale of divested equity of the concessionaire in one or more of the following:

(i). to reinvest in incomplete NHAI projects;
(ii). to reinvest any other highway projects;
(iii). any other power sector projects; or
(iv). to retire their debt to financial institutions in any other infrastructure projects.

Relaxation in the 'change in ownership' clause in Hybrid Annuity Model (HAM) projects

The MoRTH, *vide* circular dated November 10, 2020 and November 27, 2020, read along with the NHAI circular dated December 31, 2020, amended the MCAs in respect of project implemented under the HAM model, and permitted the selected bidder/consortium members, for the new as well as subsisting national highways project under the HAM-model, to dilute their equity six months after COD is achieved for the respective project.

Rationalized Compensation

The CCEA in November 2015 approved a policy for rationalized compensation to concessionaires for languishing national highway projects in BOT mode for delays that are not attributable to the concessionaires. Under the policy, the NHAI is authorized to allow an extension of the concession period for BOT (Toll) projects while keeping the original operation period unchanged. The NHAI has also been authorised to pay compensatory annuities to the concessionaire corresponding to the actual period of delay that is not attributable to the concessionaire upon successful completion of the project. In these cases, the construction period will be enhanced but the tenure of the concession will remain unchanged.

One Time Fund Infusion Scheme

The CCEA in October 2015 gave its approval to the NHAI for a one-time infusion of funds with the purpose of reviving and physically completing stalled projects in the advanced stages of completion. As per the policy, the amount of funds required in each case shall be approved by NHAI on a case to case basis.

Bidder Information

MoRTH has developed the Bidder Information Management System ("**BIMS**") to streamline the process of pre-qualification of bidders for EPC mode of contracts for all national highway works, with enhanced transparency and objectivity. BIMS works as a data base of bidder information that covers basic details, civil works experience, cash accruals and network, and annual turnover so that bidders' pre-qualification can be assessed based on evaluation parameters like threshold capacity and bid capacity from already stored data and the technical evaluation can be carried out in a faster manner.

Land Acquisition

While land is acquired for national highway projects under the NH Act, the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (the "**Land Acquisition Act**") must also be complied with. MoRTH has issued comprehensive guidelines on land acquisition for national highways taking into account the applicability of the Land Acquisition Act.

Arbitral Awards

CCEA on August 31, 2016 approved various measures to revive the construction sector. An office memorandum dated September 5, 2016 was issued by the National Institute for Transforming India with certain proposals. On November 20, 2019, the CCEA approved certain proposals in relation to the arbitrations by or against government entities, for the effective implementation of the CCEA's decision on August 31, 2016 on its initiatives to revive the construction sector. Initially, the CCEA had approved the proposal that government agencies will be required to pay 75% of the arbitral award to the concessionaire against a bank guarantee, in cases where the award already announced is challenged. However, pursuant to a press release dated November 20, 2019, the CCEA approved, inter-alia, that where a government entity has challenged an arbitral award, resultant of which the amount of the arbitral award has not been paid, 75% of such award will be paid by the government entity to the contractor or the concessionaire against a bank guarantee only for the said 75% and not for its interest component. In relation to interest payable to the government entity, if a subsequent court order required the refund of 75% of the amount, the payment of such amounts will be required to be made as per the court orders.

Applicable Rules

As per the NH Act and the NHAI Act, the Central Government is empowered to make rules in order to further the objects of NH Act and NHAI Act. In exercise of such power, the Central Government has framed certain rules which are, amongst others, as follows:

- The National Highways Rules, 1957, as amended;
- National Highways Authority of India (Budget, Accounts Audit, Investment of Funds and Powers to enter Premises) Rules, 1990, as amended;
- The National Highways Tribunal (Procedure for Appointment as Presiding Officer of the Tribunal) Rules, 2003, as amended;
- The National Highways Tribunal (Procedure) Rules 2003;
- National Highways Authority of India (The Term of Office and Other Conditions of Service of Members) Rules, 2003, as amended;
- The Central Road Fund (State Roads) Rules, 2007;
- The National Highways Tribunal (Financial and Administrative Powers) Rules, 2004;
- The National Highways Tribunal (Procedure for Investigation of Misbehaviour or Incapacity of Presiding Officer) Rules, 2003;
- The National Highways Fee (Determination of Rates and Collection) Rules, 2008, as amended;
- The Highway Administration Rules, 2004;
- The National Highways (Collection of Fees by any person for the use of Section of National Highways/Permanent Bridges/Temporary bridge on National Highways) Rules, 1997
- The National Highways (Fee For The Use Of National Highways and Permanent Bridge-Public Funded Project) Rules, 1997;
- The National Highways (Rate of Fee) Rules, 1997;
- Building and Other Construction Workers (Regulation of Employment and Conditions of Services) Act, 1996 and the rules framed thereunder, as amended;
- C.E.A. (Measures Relating to Safety and Electric Supply) Regulations, 2010;
- Central Electronical Authority (Measures Relating to Safety and Electric Supply) Regulations, 2020; and
- Indian Electricity Rules, 1956

Environmental Compliances and Regulations

Infrastructure projects must also ensure compliance with environmental legislations such as the Water (Prevention and Control of Pollution) Act, 1974 ("**Water Pollution Act**"), the Air (Prevention and Control of Pollution) Act, 1981 ("**Air Pollution Act**") and the Environment Protection Act, 1986, as amended ("**Environment Act**", together with the Water Pollution Act and the Air Pollution Act, the "**Environment Protection Acts**"). The Water Pollution Act aims to prevent and control water pollution. This legislation provides for the constitution of a central pollution control

board ("**Central Pollution Control Board**" or "**CPCB**") at the Central level and state pollution control boards ("**State Pollution Control Boards**" or "**SPCBs**", together with the Central Pollution Control Board, the "**PCBs**") at the State levels. The functions of the CPCB includes, among other things, coordination of activities of the SPCBs, collecting data relating to water pollution and the measures devised for the prevention and control of water pollution and prescription of standards for streams or wells. The SPCBs are responsible for, among other things, the planning for programmes for prevention and control of pollution of streams and wells, collecting and disseminating information relating to water pollution and its prevention and control, inspection of sewage or trade effluents, works and plants for their treatment and to review the specifications and data relating to plants set up for treatment and purification of water, laying down or annulling the effluent standards for trade effluents and for the quality of the receiving waters, and laying down standards for treatment of trade effluents to be discharged. These authorities issue consent to establish and consent to operate which are to be required to be renewed periodically. These authorities also have the power of search, seizure and investigation if the authorities are aware of or suspect violation of such regulations. This legislation prohibits any person from establishing any industry, operation or process or any treatment and disposal system, which is likely to discharge trade effluent into a stream, well or sewer, or bring into use any new or altered outlet for discharge of sewage, or begin to make any new discharge of sewage without taking prior consent of the SPCBs.

In context of the environmental compliances and regulations, the National Green Tribunal Act, 2010 (the "**NGT Act**") is an important legislation which provides for the establishment of a National Green Tribunal ("**NGT**") for the effective and expeditious disposal of cases relating to environmental protection and conservation of forests and other natural resources including enforcement of any legal right relating to environment and giving relief and compensation for damages to persons and property and for matters connected therewith or incidental thereto.

In accordance with the Forest (Conservation) Act, 1980, state governments are not permitted to make any order de-reserving any reserved forest or directing the use of forest land for a non-forest purpose, or assignment of any forest land through lease or otherwise to any private person or corporation without the approval of the GoI. The Ministry of Environment, Forest and Climate Change ("**MoEF**") mandates the Environment Impact Assessment ("**EIA**") must be conducted for specified projects. In the process, the MoEF receives proposals or the setting up of projects and assesses their impact on the environment before granting clearances to the projects.

The EIA Notification S.O. 1533, issued on September 14, 2006 (the "**EIA Notification**") as amended and amended from time to time, under the provisions of the Environment Protection Act, prescribes that new construction of specified projects require prior environmental clearance from the MoEF. The environment clearance must be obtained from MoEF according to the procedure specified in the EIA Notification. No construction work or preparation of land by the project management except for securing the land, relating to the setting up of a specified project can be undertaken until such clearance is obtained. Under the EIA Notification, the environmental clearance process for new projects consists of four stages – screening, scoping, public consultation and appraisal. After completion of public consultation, the applicant is required to make appropriate changes in the draft 'EIA Report' and the 'Environment Management Plan.' The final EIA Report has to be submitted to the concerned regulatory authority for appraisal. The regulatory authority is required to give its decision within 105 days of the receipt of the final EIA Report. The EIA Guidance Manual for Highways, 2010 explains the four stages of the environmental clearance process and the contents of the EIA Report required to be submitted by highway projects.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016

The Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, as amended, impose an obligation and duty on the owners and operators of any facility or industry with a capability to create hazardous materials to safely dispose of such material in transport and other means of collecting and storing. Each occupier and operator of any facility generating hazardous waste is required to obtain an approval from the relevant state pollution control board for collecting, storing and treating the hazardous waste.

Green Highways (Plantation, Transplantation, Beautification and Maintenance) Policy, 2015

In September 2015, MoRTH has launched Green Highways (Plantation, Transplantation, Beautification and Maintenance) Policy, 2015, which will require road developers to earmark 1% of a project's total cost for planting of

trees and shrubs along the national highways. Under this policy, the maintenance of such plantations will be outsourced through a bidding process to plantation agencies. MoRTH/NHAI will appoint the authorized agency for empanelment of such plantation agencies.

Public Liability Insurance Act, 1991

The Public Liability Insurance Act, 1991 (the "**Public Liability Act**"), imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of 'hazardous substances' covered by the legislation has been enumerated by the GoI by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the Environment Relief Fund, a sum equal to the premium paid on the insurance policies. This amount is payable to the insurer.

Labour Laws and Other Regulations

The laws and regulations to employment that may be applicable to the Trust, the Investment Manager, the Sponsor, and the Project SPVs include the following:

- Factories Act, 1948;
- Contract Labour (Regulation and Abolition) Act, 1970;
- Payment of Bonus Act, 1965;
- Employees' State Insurance Act, 1948;
- Employees' Provident Funds and Miscellaneous Provisions Act, 1952;
- Payment of Gratuity Act, 1972;
- Shops and Commercial Establishments Acts, where applicable;
- Minimum Wages Act, 1948;
- Industrial Disputes Act, 1947;
- Employees' Compensation Act, 1923;
- Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013;
- Child Labour (Prohibition and Regulation) Act, 1986; and
- Maternity Benefit Act, 1961.

The Occupational Safety, Health and Working Conditions Code, 2020 (enacted by the Parliament of India and assented to by the President of India on September 28, 2020) will come into force on such date as may be notified in the official gazette by the Central Government and different dates may be appointed for different provisions of the Occupational Safety, Health and Working Conditions Code, 2020. Once effective, it will subsume, amongst others, the Factories Act, 1948 and the Contract Labour (Regulation and Abolition) Act, 1970.

The Code on Social Security, 2020 (enacted by the Parliament of India and assented to by the President of India on September 28, 2020) has been notified to the extent of Section 142 of the Code on Social Security, 2020 and will come into force in its entirety on such date as may be notified in the official gazette by the Central Government. Different dates may be appointed for different provisions of the Code on Social Security, 2020. Once effective, it will subsume, amongst others, the Employees' Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employee's Provident Fund and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961 and the Payment of Gratuity Act, 1972.

The Code on Wages, 2019 (enacted by the parliament of India and assented to by the President of India on August 8, 2019) was notified in the official gazette by the Central Government on September 18, 2020 to the extent of the rules governing the constitution and functions of the central advisory board under the Code on Wages. Once notified and effective in its entirety, it will subsume the Equal Remuneration Act, 1976, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Payment of Wages Act, 1936. Further, multiple states have been issuing draft rules in relation to the same.

In addition to the above, various state shops and commercial establishments acts are also applicable to the Project SPVs.

Other applicable law

The Motor Vehicles Act, 1988

The development, maintenance and management as well as control of the National Highways are regulated by the NH Act and the NHAI Act. Under the Motor Vehicles Act, 1988, some powers have been delegated to the Transport Department of the State Governments.

Section 138 of the Motor Vehicles Act, 1988 further empowers the State Governments to make rules for the control of traffic, including for the purpose of the removal and the safe custody of vehicles including their loads which have broken down or which have been left standing or have been abandoned on roads; the installation and use of weighing devices; the maintenance and management of wayside amenities complexes; the exemption from all or any of the provisions of relating to fire brigade vehicles, ambulances and other special classes or descriptions of vehicle, subject to such conditions as may be prescribed; the maintenance and management of parking places and stands and the fee, if any, which may be charged for their use; prohibiting the taking hold of or mounting of a motor vehicle in motion; prohibiting the use of foot-paths or pavements by motor vehicles, generally, the prevention of danger, injury or annoyance to the public or any person, or of danger or injury to property or of obstruction to traffic.

Motor Vehicles (Amendment) Act, 2019

The Motor Vehicles (Amendment) Act, 2019, is targeted towards bringing changes in the transport sector to encourage safer driving practices among Indian motor vehicle drivers. It proposes to create a National Road Safety Board, which has been notified by the MoRTH in September 2021. The National Road Safety Board shall be responsible for promoting road safety, innovation and adoption of new technology and for regulating traffic and motor vehicles.

Indian Trusts Act, 1882

The Indian Trusts Act, 1882 ("**Trusts Act**") governs all private trusts in India.

The Trusts Act sets out the purpose for which private trusts can be established, the manner in which they may be created, executed and extinguished. The person creating a trust under the Trusts Act is the author of such trust, the person to whom the author grants the power and authority to regulate the trust is the trustee and the persons for whose benefit such trust has been created are the beneficiaries of such trust. The Trust Act sets out the rights, duties, liabilities and powers of the trustees and the beneficiaries vis-a-vis the trust. The Trust has been settled in accordance with the provisions of the Trusts Act.

Control of National Highways (Land and Traffic) Act, 2002

The Control of National Highways (Land and Traffic) Act, 2002 (the "**Control of NH Act**") provides for control of land within national highways, right of way and traffic moving on national highways and also for removal of unauthorised occupation thereon.

In accordance with the provisions of the Control of NH Act, the Central Government has established Highway Administrations. Under the Control of NH Act, all land that forms part of a highway which vests in the Central Government, or that which does not already vest in the Central Government but has been acquired for the purpose of highways shall be deemed to be the property of the Central Government. The Control of NH Act prohibits any person from occupying any highway land or discharging any material through on such land without the permission of the Highway Administration or any officer authorised by such administration. The Control of NH Act permits the grant of lease and license for use of highway land for temporary use.

Indian Tolls Act, 1851

In accordance with the Indian Tolls Act, 1851 (the "**Tolls Act**"), the state governments have been vested with the power to levy tolls at such rates as they deem fit, to be levied upon any road or bridge, made or repaired at the expense of the Central or any state government. The tolls levied under the Tolls Act, are deemed to be 'public revenue' and the collection of tolls can be placed under any person the State governments' deem fit. Such persons are enjoined with the same responsibilities as if they were employed in the collection of land revenue. Further, all police officers are bound to assist the toll collectors when required in the implementation of the Tolls Act. The Tolls Act further gives power for recovery of toll and exempts certain category of people from payment of toll.

National Highways Fee (Determination of Rates and Collection) Rules, 2008

The National Highways Fee (Determination of Rates and Collection) Rules, 2008 (the "**NH Fee Rules**"), regulates the collection of fee for the use of national highways. In accordance with the NH Fee Rules, the GoI may, by a notification, levy fee for use of any section of a national highway, permanent bridge, bypass or tunnel forming part of a national highway, as the case may be. However, the GoI may, by notification, exempt any section of a national highway, permanent bridge, bypass or tunnel constructed through a public funded project from levy of such fee.

The NH Fee Rules supersede the National Highways (Temporary Bridges) Rules, 1964, the National Highways (Collection of Fees by any Person for the Use of Section of National Highways/ Permanent Bridge/ Temporary Bridge on National Highways) Rules, 1997, the National Highways (Fees for the use of National Highways Section and Permanent Bridges Public Funded Project) Rules, 1997 and the National Highways (Rate of Fees) Rules, 1997 other than in respect of things done or omitted to be done under such rules prior to supersession. The NH Fee Rules do not apply to agreements and contracts executed or bids invited prior to the publication of such rules i.e. prior to December 5, 2008.

The collection of fee in case of a public funded project shall commence within 45 days from the date of completion of the project. The NH Fee Rules further provide for the base rate of fee applicable for the use of a section of the national highway for different categories of vehicles and the fees collected by the executing authority shall be remitted to the GoI. However, the GoI may, by notification, allow any or all of the executing authorities to appropriate the whole, or part of such fees for purposes as may be specified.

FASTag lanes on fee plazas is a policy initiative of the GoI in which there is an exclusive lane in the fee plaza for movement of vehicles fitted with FASTag. The FASTag is a device which is fitted on the front windscreen of vehicles to indicate online toll payment. The amended NH Fee Rules impose a penalty equivalent to two times the fee applicable if a vehicle not fitted with FASTag enters the exclusive FASTag lane. However, in case a user is unable to pay, due to malfunctioning electronic toll collection infrastructure, the user will be permitted to pass the fee plaza without payment.

The NH Fee rules were also amended to provide that the driver or owner of a mechanical vehicle which is loaded in excess of permissible load specified for its category, (i) shall not be permitted to use the national highway or cross the fee plaza until the excess load has been removed, and (ii) shall be liable to pay a fee to the toll collection agency equal to ten times of the fee applicable to such category of mechanical vehicle. However, in case no weighbridge has been installed at the toll plaza, no fee for overloading shall be levied.

The National Highways Rules, 1957 (the "NH Rules")

The NH Rules provide that in situations where the estimate cost of the execution of any original work on a national highway exceeds ₹ 1,000,000, a detailed estimated of the cost is to be forwarded to the GoI. An application for allotment of funds for meeting expenditure on an original work on a national highway must also be made to the GoI. The executing agency of the highway is required to furnish monthly progress reports and a completion report on the conclusion of the work. The NH Rules also give the consulting engineer of the GoI the right to inspect the work while it is in progress or after completion.

National Monetisation Pipeline (NMP)

NITI Aayog has developed the pipeline, in consultation with infrastructure line ministries, based on the mandate for 'Asset Monetisation' for roads and highways, amongst others, under Union Budget 2021-22. The framework for monetisation of core asset monetisation has three key imperatives: (i) monetization of 'rights' not 'ownership' i.e. assets will be handed back to the government at the end of transaction life; (ii) brownfield de-risked assets and stable revenue streams; and (iii) structured partnerships under defined contractual frameworks with strict performance standards. This shall include selection of de-risked and brownfield assets with stable revenue generation profile with the overall transaction structured around revenue rights. The primary ownership of the assets under these structures shall be with the government.

Provisions under the Constitution of India and other legislations in relation to collection of toll

Entry 59, List II of Schedule VII read with Article 246 of the Constitution of India vests state governments with the power to levy tolls. Further, in accordance with the Tolls Act, state governments have been vested with the power to levy tolls at such rates as they deem fit.

Foreign Investment Regulations

Foreign investment in Indian securities is governed by the provisions of the FEMA, as amended, read with the applicable FEMA Rules, the FEMA (Mode of payment and Reporting of Non-Debt Instruments) Regulations, 2019 and the consolidated FDI Policy issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government. Foreign investment is permitted (except in the prohibited sectors) either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. Under the FEMA Rules and the current consolidated FDI Policy, effective from October 15, 2020, an infrastructure investment trust registered and regulated by the SEBI under the InvIT Regulations, being an 'investment vehicle', is permitted to receive foreign investment from a person resident outside India (subject to Press Note 3 (2020 series)), including an FPI or an NRI subject to the terms and conditions specified in the FEMA Rules.

Downstream investment by an infrastructure investment trust shall be regarded as indirect foreign investment if neither the sponsor nor the investment manager of such an infrastructure investment trust is Indian 'owned and controlled' as defined in FEMA Rules.

Downstream investment by an 'investment vehicle' shall have to conform to the sectoral caps and conditions/restrictions, if any, as applicable to the company in which the downstream investment is made as per the FDI Policy. Foreign investment of up to 100% through the automatic route is permitted in the infrastructure sector in India. An infrastructure investment trust that receives foreign investment shall be required to make such report and in such format to the RBI or to the SEBI as may be prescribed by them from time to time.

The payment for the units of an infrastructure investment trust acquired by a person resident or registered/ incorporated outside India shall be made by an inward remittance from abroad through banking channels or by way of swap of shares of an SPV, or out of funds held in a Non-resident External ("**NRE**") or Foreign Currency Non-resident Bank ("**FCNR(B)**") account maintained in accordance with the Foreign Exchange Management (Deposit) Regulations, 2016.

Further, any person who is a non-resident and holds units of an infrastructure investment trust in accordance with the FEMA Rules may pledge such units (i) in favour of a bank in India to secure the credit facilities being extended to the Indian company for bona fide purposes; (ii) in favour of an overseas bank to secure the credit facilities being extended to the person, or a person resident outside India who is the promoter of the Indian company or the overseas group company of the Indian company; (iii) in favour of a Non-Banking Financial Company registered with the RBI to secure credit facilities being extended to the Indian company for bona fide purposes; and (iv) subject to the authorized dealer bank satisfying itself of the compliance of the conditions stipulated by the RBI in this regard.

In addition to the above, compliance with the provisions of various tax-related legislations, intellectual-property related legislations and other applicable law for our day-to-day operations is also required.

REGULATORY APPROVALS

Provided below are the material consents, licenses, permissions, registrations and approvals from the Government, various governmental agencies and other statutory and/or regulatory authorities with which (i) the Trust and the Project SPVs can undertake the Unit Distribution and the transactions contemplated in relation to the Unit Distribution; and (ii) the Trust and the Project SPVs can undertake their respective current business activities, as applicable. Unless otherwise stated, these approvals are valid as of the date of this Placement Memorandum. In the event that any of the approvals and licenses that are required for the Project SPV's business operations expire in the ordinary course of business, the Project SPVs will apply for such renewal from time to time. For details in connection with the regulatory and legal framework within which the Trust and the Project SPVs operate, please see the section "Regulations and Policies" on page 332.

A. Approvals in relation to the Unit Distribution

1. Resolution dated April 2, 2024, passed by the board of directors of the Investment Manager in relation to the Unit Distribution and other incidental matters.

2. In-principle listing approval from NSE dated July 22, 2024, extended by way of its letters dated October 28, 2024 and February 10, 2025.

3. In-principle listing approval from BSE dated July 22, 2024, extended by way of its letters dated November 7, 2024 and February 10, 2025.

4. Final approval issued by NHAI in relation to the transfer of BAEL to the Trust by harmonious substitution dated November 18, 2024.

5. Approval dated November 29, 2022, to HREL issued by the NHAI in relation to transfer of HREL to the Trust and other related matters.

6. Approval dated December 22, 2021, to MBEL issued by the NHAI in relation to transfer of 85.50% shareholding of MBEL to the Trust and other related matters.

7. Approval dated May 13, 2024 issued by the NCLT in relation to the transfer of remaining 14.50% shareholding of MBEL to the Trust.

8. Approval dated April 18, 2023, to PSRDCL issued by the NHAI in relation to transfer of PSRDCL to the Trust and other related matters.

9. Approval dated September 6, 2021, to SBHL issued by the Office of the Chief Engineer, Public Works Department, Rajasthan, Jaipur in relation to 100% divestment in shareholding of SBHL to the Trust and other related matters.

B. Approvals in relation to the Trust

1. Certificate of registration dated December 22, 2020, bearing registration number IN/InvIT/20-21/0015, issued by SEBI to the Trust pursuant to Regulation 3 of the InvIT regulations, for registration of the Trust as an infrastructure investment trust.

C. Material Business Approvals in relation to Project SPVs

1. HREL

a. Provisional Completion Certificate dated April 12, 2013 issued by Unihorn India Private Limited, Independent Engineer for four-laning of the Hazaribagh-Ranchi section of NH-33 (Km 40.500 to Km 114.000) in the state of Jharkhand on BOT (Annuity) basis.

b. Completion Certificate dated April 28, 2015 issued by Unihorn India Private Limited, Independent Engineer for four-laning of the Hazaribagh-Ranchi section of NH-33 (Km 40.500 to Km 114.000) in the state of Jharkhand on BOT (Annuity) basis.

c. Intimation receipt under Rule 9 of the Maharashtra Shops & Establishment (Regulation of Employment and Condition of Service) Act, 2017 dated October 25, 2023.

d. License issued under Section 12(1) of the Contract Labour (Regulation and Abolition) Act, 1970 by the Office of the Licensing Officer, Government of India, renewed on April 1,2024, valid upto March 31, 2025, for construction, operation & maintenance of Hazaribagh-Ranchi section of NH-33 from Km 40.500 to 114.00 in the state of Jharkhand, for 443/A, Hazaribagh Ranchi Express Limited, Road No-5, Ashok Nagar, Ranchi, Jharkhand- 840032.

2. SBHL

a. Provisional Completion Certificate dated October 10, 2015 issued by TP Velayudhan (Independent Engineer, Intercontinental Consultants and Technocrats Private Limited) for development and operation of Sikar-Bikaner section of NH-11 (Km 340.188 of NH-11 to Km 557.775 of NH-11 via Sikar Bypass and Bikaner Bypass from Km 553.869 of NH-11 to Km 267.325 of NH-89) by two-laning with paved shoulder in the State of Rajasthan on DBFOT basis.

b. Additional Provisional Completion Certificate dated August 16, 2016 issued by TP Velayudhan (Independent Engineer, Intercontinental Consultants and Technocrats Private Limited) for additionally completed length of 22.091 Km in the development and operation of Sikar-Bikaner section of NH-11 (Km 340.188 of NH-11 to Km 557.775 of NH-11 via Sikar Bypass and Bikaner Bypass from Km 553.869 of NH-11 to Km 267.325 of NH-89) by two-laning with paved shoulder in the State of Rajasthan on DBFOT basis.

c. Provisional Completion Certificate dated April 5, 2018 issued by TP Velayudhan (Independent Engineer, Intercontinental Consultants and Technocrats Private Limited) for completion of balance 2.91 Km of the project in development and operation of Sikar-Bikaner section of NH-11 (Km 340.188 of NH-11 to Km 557.775 of NH-11 via Sikar Bypass and Bikaner Bypass from Km 553.869 of NH-11 to Km 267.325 of NH-89) by two-laning with paved shoulder in the State of Rajasthan on DBFOT basis.

d. License issued under Section 12(1) of the Contract Labour (Regulation and Abolition) Act, 1970 by the Office of the Licensing Officer, Government of India renewed on December 22, 2023, valid upto December 21, 2025 for operation & maintenance work of Road of Sikar-Bikaner Section, for Rashidpura-Khuri Toll Plaza, Vpo-Laxmangarh, Sikar, Rajasthan- 332315.

e. Intimation receipt under Rule 9 of the Maharashtra Shops & Establishment (Regulation of Employment and Condition of Service) Act, 2017 dated November 7, 2023.

3. PSRDCL

a. Provisional Completion Certificate dated August 23, 2013 issued by A.P Singh (Independent Engineer, Intercontinental Consultants and Technocrats Private Limited.) for four-laning of Pune-Solapur section of NH-9 (Km 144.400 to Km 249.000) in the State of Maharashtra on DBFOT basis.

b. Completion Certificate dated February 3, 2016 issued by Lt. Gen. (Retd.) S. Ravi Shankar (Independent Engineer, Intercontinental Consultants and Technocrats Private Limited) for four-laning of Pune-Solapur section of NH-9 (Km 144.400 to Km 249.000) in the State of Maharashtra on DBFOT basis.

c. License issued under Section 12(1) of the Contract Labour (Regulation and Abolition) Act, 1970 by the Office of the Licensing Officer, Government of India renewed on July 1, 2024, valid upto May 26, 2025 for operation & maintenance work of four-laning of Pune-Solapur section of NH-65 from Km 150.050 to Km 251.325 under NHDP phase III pkg., for at post Sawaleshwar toll plaza, Tal- Mohol, Dist- Solapur- 413213, Tal- Mohol, Dist- Solapur, Maharashtra- 413213.

d. Intimation receipt under Rule 9 of the Maharashtra Shops & Establishment (Regulation of Employment and Condition of Service) Act, 2017 dated November 2, 2023.

4. MBEL

a. Provisional Completion Certificate dated January 6, 2015 issued by Edward Haire (Independent Engineer, Louis Berger Group Inc.) for four-laning of the Moradabad-Bareilly section of NH-24 (Km. 148.000 to Km. 262.000) on DBFOT basis.

b. Provisional Completion Certificate dated November 4, 2015 issued by Edward Haire (Independent Engineer, Louis Berger Group Inc.) for four-laning of the Moradabad-Bareilly section of NH-24 (Km. 148.000 to Km. 262.000) on DBFOT basis.

c. Completion certificate dated July 30, 2019 issued by Anupam Gupta (Executive Director, LEA Associates South Asia Private Limited) for four-laning of the Moradabad-Bareilly section (Km. 148.000 to Km 262.000) of NH 24 on DBFOT basis.

d. License issued under Section 12(1) of the Contract Labour (Regulation and Abolition) Act, 1970 by the Office of the Licensing Officer, Government of India on November 28, 2023, valid upto November 27, 2025, for operation & maintenance of toll plaza road for Km 148.00 to Km 269.800 for toll plaza Niyamatpur, Ekrotiya, NH-09 old NH-24, vill. Harsainpur PO Dalatpur, Moradabad, Uttar Pradesh-244926.

e. Intimation receipt under Rule 9 of the Maharashtra Shops & Establishment (Regulation of Employment and Condition of Service) Act, 2017 dated October 25, 2023.

5. TRDCL

a. Provisional Completion Certificate dated March 6, 2008, issued by Kerala Road Fund Board for completion of Phase I in Thiruvananthapuram City Road Improvement Project, divided in 4 phases.

b. Provisional Completion Certificate dated November 8, 2012, issued by Kerala Road Fund Board for completion of Phase II in Thiruvananthapuram City Road Improvement Project, divided in 4 phases.

c. Provisional Completion Certificate dated February 20, 2015, issues by Kerala Road Fund Board for completion of Phase III in Thiruvananthapuram City Road Improvement Project, divided in 4 phases.

d. Provisional Completion Certificate dated November 15, 2016, issued by Kerala Road Fund Board for completion of Phase IV in Thiruvananthapuram City Road Improvement Project, divided in 4 phases.

e. Completion Certificate dated May 8, 2017, issued by Kerala Road Fund Board for Thiruvananthapuram City Road Improvement Project, divided in 4 phases.

f. Intimation receipt under Rule 9 of the Maharashtra Shops & Establishment (Regulation of Employment and Condition of Service) Act, 2017 dated October 31, 2023.

g. Certificate of registration issued under Section 7 of the Contract Labour (Regulation and Abolition) Act, 1970 by the Office of the Registering Officer, Government of Kerela valid upto December 31, 2025.

6. BAEL

a. License issued under Section 12(1) of the Contract Labour (Regulation and Abolition) Act, 1970 by the Office of the Licensing Officer, Government of India renewed on August 6, 2024, valid upto August 2, 2025, for tolling operation at Banskopa, Panagarh, for Plot No.-A0105 and A-106, SSB Sarani, Secgor-2A, Bidhannagar Durgapur, Purba Bardhaman, West Bengal- 713212.

b. License issued under Section 12(1) of the Contract Labour (Regulation and Abolition) Act, 1970 by the Office of the Licensing Officer, Government of India on November 30, 2023, valid upto August 2, 2025, for operation maintenance and tolling activity for the project in various stretches within Km 398.240 to km 521.120 in the state of Jharkhand and West Bengal for Belyad Toll Plaza, Maithan near Maithan Police Station, PO- Maithan, Dhanbad, Jharkhand- 828207.

c. Intimation receipt under Rule 9 of the Maharashtra Shops & Establishment (Regulation of Employment and Condition of Service) Act, 2017 dated October 15, 2023.

D. Approvals applied for but not yet received

1. Trademark registration for the corporate logo and name of the Trust.

E. Approvals for which applications are yet to be made

Nil

LEGAL AND OTHER INFORMATION

Except as stated in this section, there is no material civil litigation, criminal litigation or actions by regulatory authorities, in each case involving the Project SPVs, the Trust, the Sponsor and the Sponsor Group, the Investment Manager, the Project Manager, or any of their respective Associates and the Trustee, that are currently pending as on the date of this Placement Memorandum.

For the purpose of this section, details of all criminal matters and regulatory actions involving the Trust (including the Project SPVs), the Sponsor, the Investment Manager, the Project Manager, or any of their respective Associates, the Trustee and the Sponsor Group, that are currently pending have been disclosed. Further, any civil matter (including all outstanding cases, litigations, claims and legal notices) involving an amount equivalent to, or more than, the amounts as disclosed below, in respect of the (i) Trust, its associates and the Project SPVs; (ii) the Sponsor, the Project Manager, the Investment Manager and each of their respective Associates and Sponsor Group; and (iii) the Trustee has also been disclosed. Details of proceedings related to direct and indirect taxes have been disclosed in a consolidated manner, indicating the number of cases and the total amount.

For the Trust (including the Project SPVs), the consolidated revenue for the period ended March 31, 2024, was ₹ 6884.79 million. Accordingly, in respect of the Trust, its Associates (apart from entities which are Associates of the Sponsor, Investment Manager and the Project Manager) and each of the Project SPVs, all outstanding civil matters (including all outstanding cases, litigations, claims and legal notices) which involve an amount exceeding ₹ 344.24 million (being 5.00% of the consolidated revenue of the Trust and the Project SPVs for the financial year ended March 31, 2024) have been considered material. Additionally, all cases where an adverse outcome would materially and adversely affect the business, operations or financial position or reputation of each of the Trust or the Project SPVs, irrespective of the amount involved, may also be identified as material litigation and disclosed.

For the Sponsor, the consolidated revenue for the year ended March 31, 2024, was ₹ 95.46 million. Accordingly, in respect of the Sponsor and its Associates and the Sponsor Group, all outstanding civil matters (including all outstanding cases, litigations, claims and legal notices) which involve an amount exceeding ₹4.77 million (being 5.00% of the consolidated revenue for the year ended March 31, 2024) have been considered material.

Additionally, all outstanding cases involving the Sponsor, its Associates and the Sponsor Group, where an adverse outcome would materially and adversely affect the business, operations or financial position or reputation of the Sponsor and Sponsor Group, irrespective of the amount involved, have been considered as material and disclosed.

For the Investment Manager, the standalone revenue for the year ended March 31, 2024, was ₹ 95.46 *million. Accordingly, in respect of the Investment Manager and its Associates, all outstanding civil matters which involve an amount exceeding ₹ 4.77 million (being 5.00% of the standalone revenue for the year ended March 31, 2024) have been considered material.*

For the Project Manager, the standalone revenue for the year ended March 31, 2024, was ₹ 1,979.33 million Accordingly, in respect of the Project Manager and its Associates, all outstanding civil matters (including all outstanding cases, litigations, claims and legal notices) which involve an amount exceeding ₹ 98.97 million (being 5.00% of the standalone revenue for the year ended March 31, 2024) have been considered material.

Additionally, all outstanding cases involving the Investment Manager, the Project Manager or any of their Associates, where an adverse outcome would materially and adversely affect the business, operations or financial position or reputation of the Investment Manager or the Project Manager, irrespective of the amount involved, have been considered as material and disclosed.

For the Trustee, the total consolidated income for the financial year ended March 31, 2024, was ₹ 578.78 million. Accordingly, in respect of the Trustee, all outstanding cases which involve an amount exceeding ₹ 28.94 million (being 5.00% of the total consolidated income for the financial year ended March 31, 2024) have been considered material.

For entities which are common Associates of the Sponsor, the Investment Manager and/or the Project Manager, where

the abovementioned materiality thresholds in relation to the Sponsor, the Investment Manager and the Project Manager apply, the higher of the thresholds in terms of amount applicable to the Sponsor, the Investment Manager and the Project Manager have been considered material.

Further, in cases where outcome of one litigation impacts one or more other litigations, which individually are below materiality threshold, but collectively above, such cases have also been disclosed.

I. Litigation and Regulatory Actions against the Trust and its Associates

Nil

II. Litigation involving the Project SPVs

Material civil proceedings filed against the Project SPVs

MBEL

(i) The Collector of Stamps, Moradabad, passed an *ex-parte* order dated August 17, 2022 ("**Ex-parte Order**"), directing MBEL to pay stamp duty of ₹253.4 million in relation to a concession agreement dated February 19, 2010, entered into between MBEL and NHAI. MBEL had filed a restoration application before the Collector of Stamps against the Ex-parte Order, which was dismissed by an order dated July 27, 2023. Consequently, a writ petition was filed before the Allahabad High Court against the dismissal order dated July 27, 2023, and the Ex-parte Order. On May 8, 2024, the Allahabad High Court quashed both impugned orders and remanded the matter back to the Collector of Stamps, Moradabad for reconsideration. The Collector of Stamps at Moradabad disposed the case *vide* order dated October 16, 2024. and levied a stamp duty of ₹164.7 million, along with an interest at the rate of 1.5% per month. Thereafter, MBEL filed a writ petition challenging the order dated October 16, 2024. The writ petition is admitted and recovery is stayed by the High Court of Allahabad. Matter is currently pending.

PSRDCL

(i) Roadway Solutions India Private Limited ("**Roadway Solutions**") has filed a suit before the Court of Hon'ble Civil Judge, Senior Division, Pune, against ITNL, IL&FS Engineering and Construction Company Limited ("**IECCL**"), and PSRDCL for recovery of an amount of ₹820.77 million together with future interest of 24.00% per annum from the due date till realisation of the entire amount. This pertains to the construction of the four-laning project at Pune Solapur site, wherein IECCL issued a work order and subsequently assigned it to Roadway Solutions on June 15, 2012. Additionally, IECCL issued a letter of intent dated October 14, 2011. As per the letter, Roadway Solutions was obligated to commence mobilization activities immediately for the timely execution of the project. However, allegedly IECCL failed to hand over the clear site and make the due payments and hence the suit. The matter is currently pending.

Material civil proceedings filed by the Project SPVs

PSRDCL

(i) Arbitration proceedings were initiated by PSRDCL against NHAI claiming compensation for, *inter alia*, delays in handing over land for development of project, idling of resources, change of scope etc., under the concession agreement dated September 30, 2009, resulting in an arbitral award of ₹5,479.60 million in favour of PSRDCL ("**Award**"). NHAI filed an application under Section 34 of the Arbitration and Conciliation Act, 1996, ("**Act**") for setting aside the arbitral award which was dismissed by the Delhi

High Court ("**High Court**"). The said dismissal has been impugned by way of an appeal under Section 37 of the Act before the High Court by NHAI. In addition to this, PSRDCL has also filed an execution petition for seeking execution of the Award before the High Court. The matter is currently pending.

(ii) PSRDCL has filed a writ petition before the Delhi High Court challenging the unreasoned dismissal of its claim under Vivad Se Vishwas II (Contractual Disputes) One-Time Settlement Scheme ("**Scheme**"). PSRDCL has sought direction against NHAI for consideration of its awarded claim of ₹ 4657.66 million under the Scheme, along with a post-award interest at the rate of 9% per annum. The matter is currently pending.

TRDCL

Arbitration proceedings were initiated by TRDCL on December 17, 2020, against Kerala Road Fund Board (**"Board"**) claiming ₹3,586.70 million towards material contractual breaches on part of the Board, repayment of allegedly wrongly deducted annuity payments, and escalation in cost for construction, under the concession agreement dated March 16, 2004. A statement of defence has been filed by the Board on June 9, 2022. The final arguments have been concluded and the matter is now reserved for an award.

III. Litigation involving the common associates of the Sponsor, the Project Manager and the Investment Manager

Material Civil proceedings filed against ITNL

(i) 63 Moons Technologies Limited (**"63 Moons"**) has filed a suit before the Bombay High Court against IL&FS and ITNL, as well as former and present directors and key management personnel of ITNL (collectively, **"defendants"**) seeking a collective amount of ₹2,823.16 million, comprising principle and accrued interest, owing to a default in servicing of the non-convertible debentures of ITNL that 63 Moons had purchased from the capital markets. Summons were served to some of the defendants and subsequently, a written statement has been filed by the defendants. The matter is currently pending.

(ii) Savronik System India Private Limited ("**Savronik**") had filed an operational claim against ITNL before National Company Law Tribunal, Mumbai (**"NCLT"**) for an amount of ₹1,539.14 million for the work completed by it for the Chenani Nashri Tunnelway Limited project ("**Project**"). The claim has been made in relation to the contract signed between Savronik BCC JV Private Limited, a joint venture company of Savronik, Beigh Construction Company Limited and ITNL on March 21, 2015 ("**Contract**") for four-laning of Chenani/Nashri section of NH 1A. NCLT by way of its order dated July 27, 2020, instructed a claims management advisor (**"CMA"**) to verify the claim which was quantified at ₹183.47 million by the CMA. In relation to the claim quantified by the CMA, ITNL has filed an application seeking the following: i) setting aside of the admitted amount; ii) taking into considering an amount of ₹232.80 million that is due to be paid by Savronik to ITNL to be deducted from the claim made by Savronik. This payment was in relation to mobilisation advance paid to Savronik; direct deposit in Savronik's bank account towards payment for the 18 running bills/invoices; and payment to various third parties engaged by Savronik. NCLT clubbed both applications and directed the CMA to further verify the disputed claims. Following this, Grant Thornton Bharat LPP filed its report, and ITNL has subsequently filed an additional affidavit challenging the non-acceptance of certain claims by Grant Thornton Bharat LLP. The matter is currently pending.

Material Civil proceedings filed by ITNL

(i) ITNL has filed a summary suit before the Bombay High Court ("**High Court**") against Kohinoor Projects Private Limited (**"Kohinoor"**) claiming an amount of ₹883.13 million along with interest in relation to

a short-term unsecured loan of ₹360.00 million that was granted to Kohinoor on October 29, 2009, for one year at an interest rate of 16.00% per annum, in accordance with the agreement dated October 29, 2009, singed between Kohinoor and ITNL, which remains unpaid despite repeated demand being raised by ITNL. The matter is currently pending.

(ii) ITNL has filed writ petitions in the Karnataka High Court against the Government of Karnataka ("**GoK**) over the wrongful invocation of bank guarantees amounting to ₹220.60 million for two greenfield airport projects at Shimoga and Gulbarga. ITNL contends that GoK wrongfully invoked bank guarantees of ₹123.70 million for Shimoga and ₹96.90 million for Gulbarga, breaching the project development agreements ("**PDA**") and land lease deeds ("**LLD**") signed between GoK instrumentalities and the airport developers. ITNL has investments in Regional Airports Holdings International Limited which managed the affairs of Gulbarga Airport Developer Private Limited and Shimoga Airport Developer Private Limited. The matter is currently pending.

(iii) ITNL has filed a petition under Section 131 of the Companies Act, 2013, for the revision of financial statements for the FY 2018-2019 and 2019-2020. The matter is currently pending.

Regulatory proceedings involving ITNL

(i) A show cause notice dated October 20, 2021, was issued to ITNL, under Section 23E of the Securities Contracts (Regulation) Act, 1956 (**"SCRA"**). The notice found ITNL to be in violation of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Uniform Listing Agreement dated November 24, 2015, between ITNL and the National Stock Exchange (**"ULA"**), the erstwhile Equity Listing Agreement (ELA) until November 30, 2015, and the Accounting Standard on 'Related Party Disclosures'. As a result of these violations, the adjudication order dated September 15, 2022, was passed by the SEBI which imposed a penalty of ₹10.00 million on ITNL under Section 23E of the SCRA (**"Order"**). ITNL has filed an appeal against the Order seeking review and possible modification. The matter is currently pending.

(ii) A show cause notice dated May 19, 2022, was issued to IL ITNL by SEBI under Rule 4(1) of SEBI (Procedure for Holding Inquiry and Imposing Penalties) Rules, 1995, read with Section 15-I of SEBI Act, 1992. This notice is for adjudication under Section 15 A(b) of the SEBI Act concerning alleged non-compliance with Regulation 8 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The matter involves the alleged failure to cooperate with Credit Rating Agencies (CRAs) and submit no default statement/information regarding servicing of its debt obligations to CRAs. The case is currently pending.

(iii) ITNL has filed an appeal against the order of SEBI dated September 15, 2022, which levied a penalty on ITNL for alleged violations of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 relating to related party transactions. SEBI has suo moto stayed the enforcement of the penalty against ITNL pending the outcome of the decision in the civil appeal pending before the Supreme Court. The Securities Appellate Tribunal has also stayed the effect and operation of the SEBI order against all parties. The matter is currently pending.

(iv) A show cause notice dated March 12, 2024, was issued by the Registrar of Companies, Mumbai, under sections 454 and 197, read with section 198 of the Companies Act, 2013. The notice alleges contravention of section 198, i.e. calculation of profits leading to a purported breach of section 197 i.e payment of managerial remunerations to managing directors and a whole-time director for the financial years 2016-2017 and 2017-2018. ITNL duly replied to this notice *vide* letter dated April 17, 2024.

(v) A show cause notice dated July 15, 2024, was issued by Punjab National Bank (SASTRA division, New Delhi) identifying the default in the loan account of ITNL as 'wilful defaulter'. ITNL has duly responded to this notice with a letter dated August 21, 2024.

Material Civil Proceedings filed against IL&FS

(i) An individual ("**Plaintiff**") has filed a declaration suit against the State of Uttar Pradesh, IL&FS, and others ("**Defendants**"), before civil judge, Noida, alleging that certain portion of the land provided to IL&FS and Noida Toll Bridge Company Limited ("**NTBCL**") under the concession agreement dated November 12, 1997, executed among New Okhla Industrial Development Authority, IL&FS and Noida Toll Bridge Company Limited for construction of the Noida Toll bridge by the State of Uttar Pradesh, was disputed and hence could not have been provided. The Plaintiff has prayed for the appointment of a receiver for toll collection since it has been alleged that pending disposal of the suit, NTBCL would not have any right to collect tolls. Preliminary objections raised by NTBCL on jurisdiction and cause of action have been rejected. The matter is currently pending.

(ii) Arbitration proceedings have been initiated by Ambience Developers and Infrastructure Private Limited (**"Ambience"**) against IL&FS in relation to a business centre services agreement executed between IL&FS and Ambience in 2008 for a premises of 83,660.00 square feet being occupied by IL&FS in Ambience Park, Gurgaon (**"Agreement"**). Pursuant to an issue in relation to renewal of the Agreement, Ambience had asked IL&FS to vacate the premises and has claimed damages of ₹894.49 million for occupying the premises thereafter, along with ₹9.035 million per day till the premises are vacated and interest at 2.00% per annum. In response to the arbitration, IL&FS has filed an injunction suit before the District Court, Gurgaon ("**Court**") against which an application under section 8 of the Arbitration and Conciliation Act, 1996 was filed by Ambience which was rejected by the Court by way of its order dated December 19, 2017. **The order of the Court has been challenged by Ambience which is currently pending**. IL&FS has also filed an interim application before District Court Gurgaon under Order 39, Rule 1 & 2, read with Section 151 of the Code of Civil Procedure, 1908, seeking injunction of the arbitration proceedings pending the injunction suit in the Court. Arbitral proceeding has been stayed in view of the order dated July 5, 2024 in civil revision passed by the Punjab & Haryana High Court till final adjudication and disposal. The matter is currently pending.

(iii) Oman International Bank SAOG (**"Bank"**) has filed a civil suit against Iridium India Telecom Limited (**"IITL"**) and IL&FS under Code of Civil Procedure, 1908 before Bombay High Court, claiming ₹109.11 million along with interest at 15.18% per annum from August 2000 till the payment. This suit is in relation to default of a short-term loan of ₹100.00 million provided by the Bank to IITL for which security was provided by IL&FS by way of letter of support dated April 7, 1999 in which misrepresentations were allegedly made by IL&FS. However, in view of the moratorium order passed by the NCLAT, the suit has been adjourned *sine die* on July 15, 2019 with liberty to mention as and when the moratorium comes to an end. The matter is currently pending.

(iv) Small Industries Development Bank of India (**"SIDBI"**) has filed an application under Section 45QA of the Reserve Bank of India Act, 1934, before the National Company Law Tribunal, Mumbai, against IL&FS pursuant to default in repayment of inter corporate deposits of ₹5,000.00 million issued by SIDBI to IL&FS. Upon continuous follow ups by SIDBI for releasing the due payments towards the corporate deposits, IL&FS released only part sum of ₹500.00 million on August 31, 2018. IL&FS *vide* its letter dated September 3, 2018, said that this payment is towards the principal dues against FDR No. STD/M/R/2017-2018/0024. However, on November 5, 2019, the matter was adjourned *sine die* in view of the moratorium order passed by NCLAT dated October 15, 2018. The matter is currently pending.

(v) An individual (**"Plaintiff**") has filed a public interest litigation ("**PIL**") against IL&FS and others before the Gujarat High Court alleging (a) appointment of IL&FS as joint venture partner by the Government of Gujarat without inviting public bids in relation to management services contract under the garb of Gujarat International Financial Tec-City Co. Ltd. (JVC) on a pre-selected basis**,** (b) IL&FS through its nominated directors & with the connivance of Government of Gujarat nominated directors, appointed various consultants some of them being affiliates of IL&FS to outsource core services.(c) offering development rights i.e. development rights were granted at a discounted price without inviting bids awarded to subsidiary of IL&FS. These rights were first proposed to be allotted only through a bidding process which was not done. The price of these rights was given at a significant discount to the general price agreed for award of these rights to other interested parties. These rights were awarded to IL&FS at a discounted price without inviting bids who, in turn transferred to its subsidiary which prejudicially affected income of the Government of Gujarat i.e. 1.00% premium over landed project cost because the same was not collected. Therefore, causing loss to public at large. Such rights were offered at discounted prices under agreement dated May 15, 2007 (d) squandering/ siphoning of public money belonging to Gujarat International Financial Tec-City Co. Ltd. (GIFT) as a government company by IL&FS resulting in a loss to the exchequer among other things. The matter is currently pending.

(vi) Certain individuals ("**Plaintiffs**") have filed a suit before Bombay High Court against IL&FS and others seeking an order directing IL&FS to not effect transfer of 500 equity shares of Ashapura Minechem Limited lying with IL&FS as a depository participant and to freeze the demat account to the extent of 500 equity shares of Ashapura Minechem Limited. It has been submitted by IL&FS that it is not a depository participant of 500 shares and hence not a necessary party to the suit. IL&FS has moved a notice of motion for deleting its name from the suit. The matter is currently pending.

(vii) Nina Waterproofing Systems Private Limited ("**Nina**") has filed a petition before National Company Law Tribunal, Mumbai, under Section 45QA of the Reserve Bank of India Act, 1934, against IL&FS in relation to default in repayment of inter corporate deposits of ₹110.00 million placed by Nina with IL&FS. However, on September 6, 2021, the matter was adjourned s*ine die* in view of the moratorium order passed by NCLAT dated October 15, 2018. The matter is currently pending.

(viii) A commercial suit has been filed by Arcons Infrastructure and Construction Private Limited ("**Arcons**") before the Bombay High Court against India Factoring and Finance Solutions Private Limited (**"IFFSPL**"), ITNL, IL&FS and others for restraining IFFSPL from acting upon the factoring agreement dated July 5, 2018**,** executed among India Factoring & Finance Solutions Private limited and Arcons**,** and calling upon ITNL to honour the bill of exchange dated July 9, 2018**.** IL&FS has been made a party because there is a direct prayer against it i.e. IL&FS along with ITNL be directed to furnish security to satisfy the Plaintiffs' claim and also direct the defendants (including IL&FS), their agents, persons claiming through them be restrained from selling, transferring, or in any manner dealing with the immovable & fixed assets in India. The matter is currently pending.

(ix) Certain individuals ("**Plaintiffs**") have filed a writ petition against State of Uttar Pradesh, IL&FS and others before the Allahabad High Court being aggrieved by the fact that a parcel of land owned by them, which was agreed to be acquired by Nagar Nigam, Saharanpur for a Municipal Solid Waste Unit to be developed as part of the Saharanpur Smart City Project, was not acquired. IL&FS has been made a party to this suit because IL&FS Township & Urban Assets Limited which is a subsidiary of IL&FS is the project management consultant for the Saharanpur Smart City Project as per the contract agreement dated August 2, 2018. The matter is currently pending.

(x) A suit for permanent injunction has been filed by Hill County Villa Owners Association and Hill County Apartment Owners Association ("**Plaintiffs**") before Junior civil judge, Medchal, against Hill County Properties Limited and IL&FS (**"Defendants"**) under Section 26 of the Code of Civil Procedure, 1908,

seeking direction for restraining the Defendants from interfering with the lawful possession and enjoyment of the property situated at Kinder Garden Community Center admeasuring 12768.47 swaure metres in Sy. No. Part of 192/p, 201/p and 282/p situated in the layout of Hill County at Bachupally village, Quthbullapur Mandal, Medchal district bounded by North : Hill County Villas, South : amenities (religious places earmarked), East : Road, West : Hill County Apartments by the plaintiffs. Matter is currently pending.

(xi) A suit for recovery has been filed by Deeplok Financial Services Limited and others ("**Plaintiffs**") before the commercial court, Alipore, against certain individuals ("**Defendants**"), IL&FS, IFSL and A.K. Capital Services Limited in relation to a total sum of ₹95.52 million taken by Defendants from the Plaintiffs from time to time with a promise of payment of principal sum after expiry of seven years and payment of an assured sum for those seven years at the rate of 7.85% to 8.56% on the principal sum. As a way of security, the Defendants had assured allotment of preference shares of any of their blue-chip companies i.e. IL&FS and IFSL which were promised to be purchased back by the Defendants. In return of these preference shares as security, the Plaintiffs were made to make payment of the principal sum in the name of IL&FS and IFSL. After receiving the principal sum, the assured sum promised to be paid annually was paid for about two and a half year after which no further payments have been made by the Defendants who keep refusing to make any payments. Hence, the suit for recovery of money has been filed. The matter is currently pending.

The arbitration concerns disputes arising from a concession agreement between Noida Toll Bridge Company Limited ("**NTBCL**"), IL&FS, and New Okhla Industrial Development Authority ("**NOIDA**"). NTBCL, a special purpose vehicle incorporated by IL&FS, developed the Delhi Noida Toll Bridge Project. NTBCL has alleged breaches by NOIDA, including failure to grant development rights and failure to revise fees annually. NTBCL seeks compensation under and modifications to the concession agreement. Further, IL&FS, who is also a party to the agreement, filed a separate claim based on misrepresentation, loss of shares' value, and reduced returns. NOIDA had raised an objection regarding the jurisdiction of the arbitral tribunal which was subsequently dismissed by the tribunal. The dismissal order was challenged by NOIDA before the Delhi High Court. However, the High Court also dismissed the said application *vide* order dated January 31, 2019. Thereafter, NOIDA filed a special leave petition before the Supreme Court challenging the order of the Delhi High Court. The Supreme Court stayed the arbitration proceeding *vide* order dated April 04, 2019. The matters are currently pending. In the *interregnum*, a public interest litigation was filed before the Allahabad High Court by the Federation of Noida Residents Welfare Association ("**FONRWA**"), seeking, *inter alia*, to restrain NTBCL from collecting tolls on the DND flyway, a direct 8-lane expressway connecting New Delhi to Noida. The Allahabad High Court allowed the petition *vide* its order dated October 26, 2016. This order was challenged through a special leave petition; however, the Supreme Court, *vide* its order dated December 20, 2024, upheld the Allahabad High Court's decision and further directed that the arbitration proceedings between NOIDA and NTBCL be heard and decided separately on their own merits. NTBCL has filed a review petition before the Supreme court against the order dated December 20, 2024. Both the matters are currently pending.

(xii) Certain appeals have been filed before the Hon'ble Supreme Court challenging the March 12, 2020 order passed by the NCLAT, particularly contesting the moratorium granted and the resolution framework established by the NCLAT. It is to be noted that the next tentative date of hearing, as indicated on the Hon'ble Supreme Court's website, is scheduled for February 19, 2025. The following appeals have been clubbed and are heard by the Supreme Court together:

S. No.	Appeals	Appellant v/s IL&FS
1.	C.A.2989-2990/2020	Hindustan Zinc Limited Employees Contributory Provident Fund Trust
2.	C.A. No. 496-497 / 2021	India Infrastructure Finance Company Limited

S. No.	Appeals	Appellant v/s IL&FS
3.	C.A. No. 2356 / 2021	Bharat Heavy Electricals Ltd (Bap Unit) Employees Provident Fund Trust
4.	C.A. No. 5011 / 2021	BHEL Employees Provident Fund Trust, Jhansi
5.	C.A. No. 4675 / 2021	BHEL Employees Provident Fund Trust, Bangalore
6.	C. A. No. 6220 of 2021	Bharat Heavy Electricals Limited New Delhi Provident Fund
7.	C.A. No. 6211 / 2021	BHEL Employees Provident Fund Trichy
8.	C.A. No. 6210 / 2021	BHEL PPD EPF Trust, Chennai
9.	C.A. No. 6209 / 2021	Bharat Heavy Electricals Employees Gratuity Fund
10.	C.A (D) No. 9513 / 2021	SREI Infrastructure Finance Limited
11.	C.A. No. 2392 / 2021	BHEL Employees Provident Fund Trust, Ranipur, Hardwar
12.	C.A. No. 4567 / 2021	Maharashtra Metro Rail Corporation Limited

16.	C.A. No. 3323-3324/2020	L&T Infra Debt Fund Limited
17.	C.A. NO. 3529-3520/2020	63 Moons Technologies Ltd.
18.	C.A. NO. 6800-6801/2021	IL&FS Infrastructure Debt Fund
19.	C.A. NO. 334-335/2021	Yes Bank Limited
20.	C.A. NO. 189/2021	Aditya Birla Finance Limited
21.	C.A. No. 253 / 2021	Zuari Industries Ltd. Employees Provident Fund
22.	C.A. NO. 3752-3754/2022	GAIL (India) Limited
23.	SLP (C) NO. 27471/2023	DLF LIMITED v IECCL
24.	C.A. 3209/2019	Sanjay Kumar Ruia v IECCL

(i) An appeal was filed by DSP Asset Managers Private Limited before NCLAT seeking condonation of delay in filing a claim with Grant Thornton Bharat LLP. The matter is currently pending.

(ii) An application was filed by New Tirupur Area Development Corporation Limited ("**NTADCL**") on April 3, 2024. The application aims to set off ₹1162.00 million owed by IL&FS to NTADCL with the amount of ₹1729.00 million payable by NTADCL to IL&FS.

(iii) An application was filed by Yes Bank Limited (now substituted with J.C. Flowers Asset Reconstruction Company Private Limited). The application seeks the transfer of Chenani Nashri Tunnelway Limited into the Trust. The next date for proceedings in this case has not been intimated.

(iv) An application was filed by the administrator of SREI Infrastructure Finance Ltd. ("**SIFL**") under section 66 of the Insolvency & Bankruptcy Code, 2016, before the NCLT Kolkata bench against Fagne Songadh Expressway Limited ("**FSEL**"), SIFL group entities, and ex-management. The application aims to impugn the SIFL Loan, purportedly further on-lent by FSEL, as a fraudulent transaction. It seeks directions against FSEL and two promoters of the SREI Infrastructure Finance Ltd. group to reimburse ₹ 2704.5 million, and 18% interest from October 1, 2021. This application was filed on April 8, 2024. In the proceedings related to applications filed under section 66 of the Insolvency & Bankruptcy Code, 2016, NCLT directed third parties included in this application to submit requests for discharge. The matter is currently pending.

(v) I.A. (IB) 470 of 2024 was filed by Fagne Songadh Expressway Limited ("**FSEL**") before the NCLT Kolkata Bench against SREI Infrastructure Finance Ltd. ("**SIFL**") group entities and ex-management. FSEL submitted a discharge application seeking to be removed as a respondent to the Section 66 Application filed by SIFL before the NCLT, Kolkata Bench. This application was filed on April 10, 2024. The matter is currently pending.

(vi) The Union of India has initiated proceedings against IL&FS and others under sections 241-242 of the Companies Act, 2013, with various company applications, including IL&FS, ITNL and IL&FS Financial Services Limited. These proceedings involve multiple petitions filed against IL&FS Group entities. The next date for these proceedings is yet to be determined.

(vii) Small Industries Development Bank of India ("**SIDBI**") has filed petitions against IFSL under section 45 QA of the Reserve Bank of India Act, 1934, seeking recovery of deposits amounting to ₹5000 million, each. These cases has been adjourned *sine die* due to the moratorium order passed by NCLAT. The matters are currently pending.

(viii) Cube Highways & Infrastructure II Ltd. ("**Cube**") filed commercial suit against IL&FS Transportation Networks Ltd. and others in the Bombay High Court. IL&FS and ITNL are defendants to the suit. The suit was filed by Cube seeking an injunction restraining the transfer of the shares of Chenani Nashri Tunnelway Limited (**"CNTL"**) to the IL&FS InvIT and specific performance of the SPA dated December 4, 2020. Additionally, Cube filed two interim applications, both seeking an injunction restraining the transfer of the shares of CNTL. The matter is currently pending.

(ix) In a lawsuit filed by 63 Moons Technologies Limited and others against IL&FS and ITNL, the plaintiffs seek damages amounting to ₹ 2,823.16 million for allegedly causing financial loss by manipulating the books of accounts of ITNL. IL&FS and ITNL, as defendants, have filed limited written statements seeking dismissal of the suit due to the subsisting moratorium. The matter is currently pending.

(x) In a summary suit, Mukund Sapre filed a suit against IL&FS and another. IL&FS and ITNL are defendants to the suit. The suit was filed for the recovery of outstanding dues and termination benefits from the defendants. It's worth noting that this suit will be transferred to the Bombay City Civil Court due to a change in the pecuniary jurisdiction of the High Court. The matter is currently pending

(xi) ICICI Bank Limited ("**ICICI Bank**") filed a writ petition against Union of India and others. IL&FS and IL&FS Engineering and Construction Company Limited ("**IECCL**") are respondents to the writ petition. The petition seeks, among other things, expeditious hearing of an interim application in a company petition filed before the NCLT, Mumbai Bench. The matter is currently pending.

Material Civil Proceedings filed by IL&FS

(i) IL&FS has initiated arbitration proceedings against Madhya Pradesh Audyogik Kendra Vikas Nigam (Indore) Limited **("MPAKVN")** and Madhya Pradesh State Industrial Development Corporation **("MPSIDC")** claiming ₹261.35 million for recovery of the amounts spent by IL&FS, for the construction and maintenance of the Rau Pithampur Bridge and approach road under concession agreement dated June 15, 1990 executed between MPAKVN, MPSIDC and IL&FS**.** The arbitration tribunal passed an award, dated September 16, 2008, directing MPAKVN and MPSIDC to pay ₹129.30 million to IL&FS along with interest of 6.00% per annum from September 2008 until the payment. This award has been challenged by MPAKVN and MPSIDC under section 34 of the Arbitration and Conciliation Act, 1996 before the District Judge, Indore. The matter is currently pending.

(ii) IL&FS has filed a suit for specific performance before District Court, Gurgaon, against Ambience Developers and Infrastructure Private Limited (**"Ambience"**) in relation to the business centre services agreement executed between IL&FS and Ambience in 2008 for a premises of 83,660 square feet being occupied by IL&FS in Ambience Park, Gurgaon (**"Agreement"**). As per the Agreement, the period of occupation was an initial period of nine years and a subsequent three years of rent free period. However, pursuant to some confusion regarding the renewal of the Agreement, IL&FS was asked to vacate the

premises by Ambience. The suit seeks to enforce IL&FS's right for the rent free period and to secure the security deposit of ₹105.10 million. Ambience has filed an application under Section 8 of the Arbitration and Conciliation Act, 1996. The matter is currently pending.

For details of the arbitration proceedings initiated by Ambience in this matter, please refer to "Material Proceedings filed against IL&FS".

(iii) A memorandum of agreement **("MoA")** was entered into between IL&FS and Government of Rajasthan **("GoR")** for the project under Bhamashah Financial Empowerment Scheme **("BFFS project").** The BFFS Project was put on hold and IL&FS claimed compensation of ₹722.10 million from GoR for expenses incurred during implementation phase but the claim was rejected by GoR along with IL&FS's notice of arbitration. An application under Section 11 of the Arbitration and Conciliation Act, 1996 **("Act")** was filed by IL&FS before the Rajasthan High Court **("High Court")** seeking appointment of arbitrator. An arbitration award dated April 24, 2021, was passed in favor of IL&FS allowing its entire claim of ₹1340.80 million excluding interest **("Arbitration Award").** Opposing the Arbitration Award, an application under section 34 of the Act was filed by GoR before the Commercial Court, Jaipur **("Commercial Court")** which was dismissed, and the Arbitration Award was upheld by way of an order dated April 12, 2022. The order dated April 12, 2022, was appealed against by GoR under Section 37 of the Act before the High Court which by way of its order dated October 14, 2022, set aside the Arbitration Award and the order dated April 12, 2022 of the Commercial Court. A special leave petition has been filed by IL&FS under Article 136 of the Constitution of India before the Supreme Court of India against the order of the High Court dated October 14, 2022. Further, GoR has also filed a special leave petition on November 9, 2023 against IL&FS before the Supreme Court impugning the order dated October 14, 2022. Both the cross appeals are currently pending.

(iv) A company petition has been filed by IL&FS and others before the National Company Law Tribunal, Mumbai, (**"NCLT**") against Digital Port Limited Dighi Port Limited ("**DPL**"), Balaji Infra Projects Limited ("**BIPL**"), Vijay Kalantri, Vishal Kalantri, Vinay Kalantri, Mohini Kalantri, Sangeeta Kalantri, and Vikas Kalantri, alleging illegal issuance of shares by DPL to BIPL, in violation of certain shareholders' agreement executed among the parties to the company petition to reduce IL&FS's shareholding in DPL below 51.00%. NCLT, by way of its order dated August 8, 2016, has directed DPL to maintain status quo in respect of the disputed shares. The matter is currently pending.

(v) IL&FS filed an application for approval for the sale/resolution process of Chenani Nashri Tunnelways Limited ("**CNTL**"), eventually approved by Justice (Retd.) D.K. Jain. Cube subsequently filed an application to be impleaded and seek approval in the same case. Later, Cube filed another application seeking urgent listing of the previous case and requesting an injunction against the transfer of CNTL to the Trust.

(vi) IL&FS filed C.A. No. 9 of 2023 seeking approval of an OTS agreement between IFSL and Amrit Environmental Technologies Private Limited ("AETPL") facilitated through Orient Green Power Company Limited, AETPL's Corporate Guarantor. Justice Jain's approval was received on August 7, 2022. Subsequently, the NCLT application related to this matter was filed on December 12, 2022, and is currently pending.

(vii) IL&FS has filed an application against the insolvency resolution professional /resolution professional of Attivo Economic Zone Pvt. Ltd. ("**AEZ***"*) before the NCLAT, Delhi for setting aside and quashing the letter dated September 12, 2023, issued by AEZ to IL&FS Financial Services Limited rejecting the claim of the ₹5,049.03 million and ousting it from the committee of creditors of AEZ.

(viii) An application filed by IL&FS before the NCLAT seeks to challenge the impugned notice dated June 28, 2021 ("**Impugned Notice**"), issued by the Assistant Commissioner of Sales Tax in Mumbai. The notice aims to recover an amount from the company's account with Punjab National Bank, aggregating ₹2,249.10 million, pertaining to FY 2011 and 2012, and FY 2015 and 2016. IL&FS contends that the recovery notice is invalid due to the company being under a moratorium, preventing any recovery actions. The matter is currently pending.

(ix) An application was filed on behalf of IL&FS and other group companies against various banks ("**Respondents**") before the NCLAT, Delhi that had issued show cause notices for the declaration of the companies and its directors as wilful defaulters. The application sought orders of restraint against the banks from initiating and/or pursuing such proceedings. This matter was heard on March 19, 2024, and the court granted interim relief stating that no coercive actions are to be taken against the companies and directors until further orders are issued. The NCLAT was pleased to issue notice on the application and has restrained the Respondents from taking any actions in contravention of the directions contained in the order dated October 15, 2018. The NCLAT, *vide* its order dated March 19,2024, has restrained banks from taking any such coercive actions, as they are in contravention of the directions contained in the order dated October 15, 2018, which accorded protection against such actions to the newly appointed directors by the New Board of IL&FS. The matter is currently pending.

(x) IL&FS filed a writ petition against the Assistant Commissioner of Income Tax – Circle 14(1)(1) and others. The petition challenges the reassessment proceedings initiated by the income tax authorities for the assessment year 2015-16. Reassessment has been stayed pursuant to an order dated February 12, 2024, passed by the High Court, which was extended on March 19, 2024. The matter is currently pending.

(xi) IL&FS filed a writ petition against the Assistant Commissioner of Income Tax – Circle 14(1)(1) and others. The petition challenges the reassessment proceedings initiated by the income tax authorities for the assessment year 2017-18. Reassessment has been stayed pursuant to an order dated February 12, 2024, passed by the High Court, which was extended on March 19, 2024. The matter is currently pending.

Material Criminal proceedings filed against IL&FS

(i) Oman International Bank SAOG (**"Bank"**) has filed a criminal complaint against Iridium India Telecom Limited (**"IITL"**), IL&FS and others under Sections 420, 465, 467 read with section 120 of Indian Penal Code, 1860 before Additional Chief Metropolitan Magistrate Court at 47th Court, Esplanade, Mumbai alleging misrepresentation regarding financial position of IITL in the letter of support dated April 7, 1999 issued by IL&FS, based on which a short term loan of ₹100.00 million was sanctioned to IITL by the Bank. Prior to this, the Bank had also filed similar complaint before the Economic Offences Wing, Mumbai which was dismissed. The matter was also taken up to the Supreme Court contending that the letter of support should be treated as guarantee, but the claim was rejected. The criminal complaint is currently pending.

(ii) Certain individuals have filed criminal miscellaneous petition before Punjab and Haryana High Court, under section 482 of the Code of Criminal Procedure, 1973, against Union of India, Emerald Lands (India) Private Limited **("Emerald"),** IL&FS, IL&FS Financial Services Limited and others, alleging that Emerald, along with IL&FS, IFIN, and other entities, engaged in public money laundering and fraudulent activities. The petitioners sought a directive for the Central Bureau of Investigation, Enforcement Directorate, and Central Vigilance Commissioner to investigate these allegations. The case highlighted overvaluation of land, illegal land transactions, and misuse of funds. The petition was

dismissed on April 3, 2023, for want of prosecution. Subsequently, another criminal miscellaneous petition was filed by the petitioners seeking to recall the dismissal order of April 3, 2024. The matter is currently pending.

(iii) Gilroy Rodrigues has filed a company petition against IL&FS under section 74(2) of the Companies Act, 2013. The matter is currently pending.

Material Criminal proceedings filed by IL&FS

(i) IL&FS has filed a criminal complaint against Dhanashree Vhatkar, an ex-employee of IL&FS (**"Accused"**) under sections 427, 441 and 453 of the Indian Penal Code, 1860, before Metropolitan Magistrate Court, Bandra alleging criminal trespass on the premises of IL&FS after working hours on December 19, 2015. The Accused was granted anticipatory bail opposing which an intervention application was filed by IL&FS which was rejected. A petition under section 482 of Cr.P.C. 1973 for quashing the complaint has been filed by the Accused before the Bombay High Court where the matter is currently pending.

Note: Common associates of the Sponsor, Project Manager and the Investment Manager viz. ITNL and IL&FS also form part of the Sponsor Group.

IV. Litigation involving the common associates of the Sponsor and the Project Manager

Material Civil proceedings filed against common associates of the Sponsor and the Project Manager

*Srinagar Sonamarg Tunnelway Limited ("**SSTL**")*

(i) IL&FS filed an application before the NCLAT on behalf of SSTL, seeking direction upon the National Highways and Infrastructure Development Corporation Limited ("**NHIDCL**") to grant its consent for the foreclosure of the SSTL project and to execute the settlement agreement, subject to the approval of Justice (Retd.) D.K. Jain without imposing any further conditions or deductions. By an order dated November 22, 2024, the NCLAT allowed the application filed by SSTL. Consequently, NHIDCL has filed a civil appeal before the Supreme Court challenging the NCLAT's order dated November 22, 2024. The matter is currently pending.

Fagne Songadh Expressway Limited ("FSEL")

(i) SREI Equipment Finance Limited (**"SREI"**) has filed an application against FSEL through its administrator under section 66 of the Insolvency and Bankruptcy Code, 2016 before National Company Law Tribunal, Kolkata alleging fraudulent/related party transactions between SREI and FSEL and have made a claim of ₹2,705.40 million with interest in relation to the loan sanctioned by SREI to FSEL. Furthermore, ILFS filed the discharge application on behalf of FSEL because FSEL is not a necessary party, not a proper party. The matter is currently pending.

Karyavattom Sports Facility Limited ("KSFL")

(i) Premier International Convention Centre and Hotel ("**Premier**") has filed a writ petition before the High Court of Kerala at Ernakulam against the Government of Kerala (GoK), KSFL, ITNL and IL&FS. The NCLT had initially approved the sale of 100% shareholding held by ITNL in KSFL to a consortium led by Premier through its order dated June 4, 2024. However, following a meeting with the Minister of

Sports and IL&FS on August 14, 202414, the government declared the share sale approval illegal and invalid. The government then proposed to take over the Greenfield Stadium for ₹ 1,750 million, the highest bid amount, and instructed IL&FS to freeze the share sale process. Premier has challenged this government decision before the High Court. The Kerala High Court subsequently stayed the government's decision on September 5, 2024. IL&FS has filed a common reply on behalf of KSFL and ITNL. The matter is currently pending.

Jharkhand Road Projects Implementation Company Limited ("JRPICL")

(i) Sadbhav Engineering Limited (**"Sadbhav"**) had initiated arbitration proceedings against JRPICL claiming a sum of ₹1,519.40 million on the basis of non- fulfilment of the terms of the contract executed between parties dated October 16, 2009, for execution of all design, engineering, procurement, construction, completion, and maintenance during the implementation period in respect of Ranchi Ring Road of Jharkhand ring. An arbitration award dated August 6, 2022 was passed in favour of Sadbhav for ₹726.50 million plus interest at 10.00% from the date of claim (**"Arbitration award"**) against which JRPICL has filed an application under section 34 of the Arbitration and Conciliation Act, 1996 (**"Act")** before the Delhi High Court. Sadbhav filed an application before the Ranchi Commercial Court ("**Court**") under section 36 of the Act, seeking the execution of the arbitration award. On April 10, 2024. The Court allowed the execution application, issued a garnishee notice to the Government of Jharkhand (GoJ), and directed Sadbhavto obtain an order from the NCLAT confirming that no stay existed against the execution of the arbitral award. Consequently, Sadbhav filed an application with the NCLAT for further clarification. IL&FS has also filed an application on behalf of JRPICL for clarification. In its order dated August 28, 2024, the NCLAT clarified that the stay against enforcement actions concerning JRPICL remained unchanged. IL&FSbrought the NCLAT's clarification to the attention of the Court and requested appropriate orders for the dismissal or disposal of the execution petition in line with the protection granted by the stay order. Matter is currently pending.

(ii) GKC Projects Limited **("GKC Projects")** had initiated arbitration proceedings against JRPICL in relation to the Adityapur Kandra Project, claiming a sum of ₹1,730.10 million, as compensation for losses due to underutilization of plants, equipment, and resources during the original tenure of the construction agreement dated June 11, 2015, along with compensation for damages during extended stay under the construction agreement. An arbitration award dated March 28, 2023, was passed in favour of GKC Projects for ₹1,130.00 million (**"Arbitration award"**) against which JRPICL has filed an application under section 34 of the Arbitration and Conciliation Act, 1996 (**"Act")** before Ranchi commercial court. GKC Projects has also filed an application before the Ranchi District Court (**"Court**") under Section 36 of the Act seeking execution of the Arbitration award. On April 10, 2024, the court allowed the execution application, issued a garnishee notice to the Government of Jharkhand (GoJ), and directed GKC to obtain an order from the NCLAT confirming that no stay existed against the execution of the arbitral award. Consequently, GKC filed an application with the NCLAT for further clarification. IL&FS also filed an application on behalf of JRPICL for clarification. In its order dated August 28, 2024, the NCLAT clarified that the stay against enforcement actions concerning JRPICL remained unchanged. IL&FS brought the NCLAT's clarification to the attention of the Court and requested appropriate orders for the dismissal or disposal of the execution petition in line with the protection granted by the stay order. This matter is currently pending.

(iii) GKC Projects Limited **("GKC Projects")** had initiated arbitration proceedings against JRPICL in connection with the construction agreement dated July 28, 2011, that relates to the Chaibasa Kandra Chowk Project, claiming ₹2,182.30 million for deployment of necessary equipment and manpower. An arbitration award was passed on May 4, 2023, in favour of JRPICL, rejecting all the claims of GKC Projects (**"Arbitration Award"**). GKC Projects has challenged the Arbitration Award before the Ranchi District Court. This matter is currently pending.

(iv) An application is filed by Sadbhav Engineering Limited and GKC Projects Limited before the NCLAT, seeking reliefs *inter alia* to restrain the IL&FS and JRPICL from making any payment to its related party unsecured creditor i.e. ITNL from the annuity amounts (both outstanding and due) received or to be received from the Government of Jharkhand pending disposal of clarification application filed by the Sadbhav Engineering Limited & GKC Projects Limited. The matter is currently pending.

(v) Sadbhav Engineering Limited ("**Petitioner**") has filed a writ petition before the Jharkhand High Court ("**Court**") against the State of Jharkhand, Jharkhand Accelerated Road Development Company Limited ("**JARDCL**") and JRPICL challenging the non-payment of a ₹1,138.9 million bonus verified under a concession agreement. The Petitioner has sought the deposit of ₹1,138.9 million with the Court, interest at State Bank of India prime lending rate + 2% per annum from May 8, 2013, and the immediate release of 50% of the bonus with proportionate interest. The matter is currently pending.

(vi) State of Jharkhand filed a letters patent appeal ("**LPA**") before the Jharkhand High Court on December 9, 2024, challenging the order dated April 9, 2024. The order directed the Government of Jharkhand to pay ₹1,064.78 million to JRPICL and Jharkhand Accelerated Road Development Company Limited. This payment pertained to claims approved under an administrative order dated March 30, 2016, issued by the Government of Jharkhand, which remains unpaid despite the directive. The matter is currently pending.

Baleshwar Kharagpur Expressway Limited ("BKEL")

State Bank of India ("**SBI**") filed an application before the NCLAT ("**Application"**), seeking a declaration that the premium payment to NHAI is not a going concern payment and that NHAI should be restrained from taking any coercive action that would jeopardize the recovery of the dues owed to the lenders. NCLAT *vide* order dated April 2, 2024, allowed the Application. civil appeal (**"Appeal"**) has been filed by the NHAI before the Supreme Court, against the impugned order dated April 2, 2024, passed by the NCLAT. . The matter is currently pending.

MP Border Checkpost Development Company Limited ("MPBCDCL")

(i) Canara Bank has filed an application against MPBCDCL, seeking reliefs related to the termination of the Project. The bank has requested an order to restrain MPBCDCL from claiming any monies in its escrow account as 'going concern' expenses, as MPBCDCL and the Madhya Pradesh Road Development Corporation Limited have terminated the project, and MPBCDCL is no longer operational. Additionally, Canara Bank seeks permission to withdraw the funds lying in the escrow account of MPBCDCL in accordance with the escrow agreement and concession agreement. Further, Canara Bank contends that claims related to concession fees or other expenses cannot be consider as 'going concern' expenses because the project is no longer operational. The matter is currently pending.

(ii) Canara Bank has filed an application seeking relief against MP Road Development Corporation Limited ("**MPRDCL**") and MPBCDCL. It has sought a direction that MPRDCL cannot recover and MPBCDCL is not obligated to pay, amounts such as concession fees, independent engineer fees, delay damages, or other claims. These claims include interest, default interest, and penal interest. The payments must comply with the waterfall mechanism under an escrow agreement. This mechanism prioritizes debt repayment to senior lenders by MPBCDCL before any such payments are made. The application also seeks a declaration that payments like concession fees, additional concession fees, and related interest demanded by MPRDCL do not qualify as 'going concern' payments for MPBCDCL. It emphasizes adherence to the escrow agreement's provisions. It also disputes the classification of certain claims as 'going concern' expenses. The matter is currently pending.

IL&FS Rail Limited ("IRL")

(i) Enso Infrastructure Limited (**"Enso"**) has filed a petition before National Company Law Tribunal, Chandigarh ("**NCLT"**) against ITNL, IRL and its subsidiaries (Rapid Metro Rail Gurgaon Limited and Rapid Metro Rail Gurgaon South Limited) under sections 241 and 242 read with sections 210, 213, 244 and 246 of the Companies Act, 2013 alleging oppression and mismanagement in relation to the operation and mismanagement**.** The matter is currently pending.

(ii) Enso Infrastructure Limited (**"Enso"**) has filed a petition before National Company Law Appellate Tribunal ("**NCLAT"**) against IL&FS, IRL and its subsidiaries (Rapid Metro Rail Gurgaon Limited ("**RMGL**") and Rapid Metro Rail Gurgaon South Limited ("**RMGSL**")) for contempt of the moratorium order dated October 15, 2018 passed by NCLAT and disposing off assets of the company by seeking termination of the concession agreement dated December 9, 2009 and January 3, 2013 executed among RMGL and Haryana Urban Development Authority ("**HUDA**") and RMGSL and HUDA. The act has been alleged to be against section 14(1)(b) of the Insolvency and Bankruptcy Code, 2016 and also against the interest of the company's lenders and creditors. The matter is currently pending.

Rapid Metro Rail Gurgaon South Limited ("RMGSL")

Note: Kindly refer to the matter disclosed under IL&FS Rail Limited ("IRL") above, initiated by Enso Infrastructure Limited since those also involve RMGSL as a party.

Rapid Metro Rail Gurgaon Limited ("RMGL")

Note: Kindly refer to the matters disclosed under IL&FS Rail Limited ("IRL") above, initiated by Enso Infrastructure Limited, since those also involve RMGL as a party.

(i) An individual ("**Plaintiff**") has filed a case against RMGL and others ("**Defendants**") before the Civil Court, Gurugram. RMGL had an agreement with the legitimate owners of the depot land. However, due to an internal dispute among the plaintiff and other defendants in relation to the depot land, the former has filed the case claiming his share in the land. The matter is currently pending.

(ii) A special leave petition ("**SLP**") has been filed by the National Media Centre ("**NMC**") against State of Haryana, RMGL and others ("**Defendants**") before the Supreme Court, against dismissal of a writ petition by the Punjab and Haryana High Court. The writ petition was filed challenging the taking over of a portion of a society's land by the government of Haryana without acquiring it under the Land Acquisition Act and without providing any compensation. The land fell within the part earmarked for widening of the road and installation of utilities. The matter is currently pending. RMGL during implementation of its Metro project has erected few pillars on the captioned land parcel hence was included as party.

RIDCOR Infra Projects Limited ("RIPrL")

(i) Punjab National Bank has initiated recovery proceedings against RIPrL before the Debt Recovery Tribunal in relation to the loan of ₹2,594.30 million including interest. The matter is currently pending.

(ii) Bank of Baroda has initiated recovery proceedings against RIPrL before the Debt Recovery Tribunal in relation to the loan of ₹462.60 million including interest. The matter is currently pending.

(iii) Central Bank of India has initiated recovery proceedings against RIPrL before the Debt Recovery Tribunal in relation to the loan of ₹470.60 million including interest. The matter is currently pending.

(iv) State Bank of India has initiated recovery proceedings against RIPrL before the Debt Recovery Tribunal in relation to the loan of ₹450.00 million including interest. The matter is currently pending.

Road Infrastructure Development Company of Rajasthan Limited ("RIDCOR")

(i) RIDCOR had given a contract for toll collection to the applicant, R.K. Jain Infra Projects Private Limited on its road Alwar Bhiwadi. Due to Covid-19, the traffic on the roads was reduced and the collection also dipped and was not as per the expected revenue. The contractor demanded relief in depositing the toll collection proceeds by seeking force majeure relief. The company has provided relief mirroring that of another government-owned toll operator and aggrieved with such relief, the Contractor invoked Arbitration. The High Court has passed an order appointing Justice Mohammed Rafiq as the sole arbitrator. The parties have submitted their pleadings. Since the arbitrator has been appointed in the in the matter, the application was declared infructuous.

(ii) RK Jain Infra Projects Pvt. Ltd. initiated arbitration proceedings against RIDCOR concerning a contract for toll collection along the Alwar-Sikandara Road. The onset of the Covid-19 pandemic resulted in a decrease in road traffic, leading to a corresponding decline in toll collection revenue below anticipated levels. Seeking relief, the contractor invoked force majeure provisions to request adjustments in toll collection proceedings, which were granted by the Company in accordance with the relief given by another government owned toll operator. Dissatisfied with the relief provided, the Contractor pursued arbitration. The High Court intervened, appointing (retd.) Justice Sabina as the sole arbitrator. Both parties have submitted their respective pleadings. With the arbitrator now appointed and the arbitration process underway.

(iii) Prakash Asphaltings & Toll Highways (India) Limited ("**Plaintiff**") has initiated arbitration proceedings against RIDCOR in relation to the contract dated June 26, 2020**,** awarded to the Plaintiff for collection of user fees and operation of toll plazas along the Hanumangarh -Kishangarh Road ("**Contract**"). Due to the Kisan Andolan/ Farmers agitation, the toll collection at the plazas was disrupted and Plaintiff had requested concession in depositing the toll collection under the force majeure clause. However, being unsatisfied with the concession granted, based on the Plaintiff's request, the Contract was terminated, and arbitration was invoked. The matter is currently pending before the Arbitration Tribunal.

(iv) RIDCOR appointed IVRCL for Integrated Improvement cum Performance based maintenance of Alwar-Sikandra stretch and Pachpadra to Ramji Ki Gol. IVRCL claimed additional charges incurred during the contract due to cost escalations and other factors amounting to ₹250.00 million. IVRCL initiated arbitration seeking payment Claims and counterclaims were made. However, due to the moratorium, the arbitration proceedings are on hold.

(v) Punjab National Bank has filed an application before the National Company Law Tribunal, Delhi ("**NCLT**") against RIDCOR in its capacity as the lead bank of the consortium team under Rule 11 read with Rule 31 of National Company Law Appellate Tribunal Rules, 2018 seeking clarification of the order dated October 15, 2018 alleging that RIDCOR cannot be prevented from servicing its debts in light of the order dated October 15, 2018 as there are sufficient monies in its Trust and Retention Account (TRA). The matter is currently pending.

(vi) Suits have been filed by certain individuals ("**Plaintiffs**") before Rajasthan High Court, Jodhpur, against RIDCOR and others ("**Defendants**") in relation to land acquisition for establishment of toll plaza at Hanumangarh. RIDCOR is merely a proforma party and no relief has been sought against it, as RIDCOR

has entered into concessions agreements with the Government of Rajasthan. The matter is currently pending.

(vii) An individual ("**Plaintiff**") has filed a public interest litigation before the Rajasthan High Court against RIDCOR, alleging violation of Rule 8 of the Rajasthan State Highway Fees (Determination of Rates and Collection) Rules, 2015, in light of installation of illegal toll plaza in Bhiwadi, demanding shift of the toll plaza outside Bhiwadi The matter is currently pending.

(viii) Civil suits have been filed by certain individuals (**"Plaintiffs"**) who have illegally constructed shops and sheds on the sides of the mega highway road from Hanumangarh to Ratangarh, before Rajasthan High Court, Jodhpur *vide* civil writ petition against Government of Rajasthan and RIDCOR (**"Defendants"**) seeking direction to the defendants for determining line of centre on the highway and then removing the encroachments and till then a stay on removal of shops. The matter is currently pending.

(ix) A Writ Petition before High Court, Jaipur Bench is filed by RIDCOR against the order passed by the District Judge, Bundi, in the matter of reference petition filed by the Respondents Mahavir Prasad Sharma and others under section 18 of the Land Acquisition Act, 1894. The Respondents claimed additional compensation amounting to approximately ₹146.20 million. The matter is pending before the High Court.

Road Infrastructure Development Company of Rajasthan Limited ("RIDCOR")

(i) Indian Bank has filed an application before the NCLAT seeking to change and declare the classification of the account of RIDCOR as a "green entity" and to declare that the moratorium order dated October 15, 2018 is not applicable to RIDCOR, as it is a profit-making entity. Indian Bank seeks from NCLAT to direct RIDCOR to pay the outstanding dues to the lenders banks. The matter is currently pending.

Civil Cases filed by Rajasthan Land Holding Limited:

(i) Rajasthan Land Holding Limited ("**RLHL**"), through a facility letter dated January 7, 2017, provided an unsecured term loan of ₹ 520 million to Kaleidoscope Developers Private Limited ("**KDPL**") at an interest rate of 13.75%, with the due date for repayment set as January 7, 2018. KDPL failed to repay the loan within the stipulated time. On July 10, 2024, KDPL requested RLHL to transfer the unsecured loan to Kaleidoscope Island Estates Private Limited ("**KIEPL**") books of account. KIEPL made a partial payment of ₹40 million to RLHL on behalf of KDPL, but the remaining loan amount is still outstanding. Consequently, RLHL has initiated corporate insolvency resolution process under section 7 of the Insolvency and Bankruptcy Code, 2016 against KIEPL to recover the outstanding loan of ₹ 520 million, plus interest, totaling ₹1000.50 million. *Vide* order dated October 4, 2024, NCLT Mumbai has issued a notice to KIEPL. The matter is currently pending.

Noida Toll Bridge Company Limited (NTBCL)

(i) Osmanabad Janata Sahakari Bank Limited ("**Bank**") has filed a special appeal before the Allahabad High Court (**"Court"**) against its order dated October 24, 2005, by which it had sanctioned a scheme of arrangement of NTBCL with its creditors, seeking a stay of the judgment. Further, an application has been moved by the Bank against NTBCL seeking directions for prosecuting NTBCL along with Textile Co-operative Bank Limited and Jain Sahkari Bank, Hirabagh for misleading the Bank for purchase of 4,400 deep discount bonds and the loss suffered by the Bank due to the same. The matter is currently pending.

(ii) A suit has been filed by certain individuals ("**Plaintiffs**") before the court of civil judge, senior division, Noida, against NTBCL and others ("**Defendants**") seeking directions for restraining the Defendants from dispossessing the Plaintiffs from, and/or interfering in the use of the property situated at Milkiat Sarkar Village Naya Bas, near DND Flyway and also preventing them from causing injury to the crops of the Plaintiffs cultivating on the land. This is a suit filed before the Court of Civil Judge, Senior Division, Noida Phase-II Court, Gautam Budh Nagar, seeking to restrain the Defendants from dispossessing the Plaintiff from, and/or interfering in the use of, and/or causing injury to the crops of the Plaintiffs cultivating upon the property situated at Milkiat Sarkar Village Naya Bas, Near NTBCL/ Delhi Noida Direct Flyway. The said land is being utilized by NTBCL as part of the project. The matter is currently pending The matter was dismissed *vide* order dated April 23, 2024 for want for prosecution. However, a restoration application has been filed. The matter is currently pending. A suit has been filed by an individual ("**Plaintiff**") before the court of civil judge, senior division, Noida, against NTBCL and others ("**Defendants**") seeking directions for the competent authorities to cancel the allotment of land given for construction of the Delhi Noida Bridge project as per the agreement dated November 12, 1997, entered into between NTBCL, IL&FS & NOIDA. The matter is currently pending.

(iii) NAKS Creators, a sole proprietor ("**NAKS**") and another has initiated arbitration proceedings against Noida Toll Bridge Company Limited **("NTBCL")** under the following license agreements signed between NAKS and NTBCL. The first license agreement was signed on August 23, 2018, for advertising on the erstwhile South Delhi Municipal Corporation ("**SDMC**") side of the Delhi Noida Direct ("**DND**") flyway. The second license agreement was dated November 1, 2018, for advertising on the erstwhile East Delhi Municipal Corporation ("**EDMC**") and New Okhla Industrial Development Authority ("**Noida**") side of the DND flyway. These agreements were terminated by NTBCL, following which arbitration proceedings were initiated by NAKS**.** The matter is currently pending.

Material civil proceedings filed by common associates of the Sponsor and the Project Manager

Karyavattom Sports Facilities Limited ("KSFL")

(i) A writ petition has been filed by KSFL against the Directorate of Sports & Youth Affairs of Kerala and others to release the amount of ₹3,178.9 million to KSFL, along with applicable taxes, for the outstanding annuities for the financial years 2019 to 2024. The matter is currently pending.

East Hyderabad Expressway Limited ("EHEL")

(i) EHEL has initiated arbitration under the Arbitration and Conciliation Act, 1996 ("**Act**") in relation to missed annuity payments, delays in annuity payments, and the wrongful deduction of a maintenance penalty amounting to ₹1,174.30 million by the Hyderabad Metropolitan Development Authority ("**Authority**") under the concession agreement dated August 3, 2007. EHEL has filed its statement of claim. As per the direction on the Arbitral Tribunal, the respondent has filed their statement of defence and counter claim total amounting to ₹746.10 million on September 13, 2024. EHEL is due to file the rejoinder to the statement of defence and counter claim filed by the Authority. The matter is currently pending.

Vansh Nimay Infraprojects Limited ("VNIL")

(i) VNIL has initiated arbitration proceedings against Nagpur Municipal Corporation (**"NMC"**) for claims aggregating to ₹5,413.69 million under the concessional agreement dated March 9, 2007 executed between VNIL and NMC on account of loss in concessional fares, non-revision of fares, loss due to illegal competing transport, and non-utilisation of the bus advertisement potential. The matter is currently pending.

MP Border Checkpost Development Company Limited ("MPBCDCL")

(i) MPBCDCL had initiated arbitration proceedings against the Madhya Pradesh Road Development Corporation **("MPRDC")** before Madhya Pradesh Arbitration Tribunal (**"Tribunal"**) claiming ₹27,743.20 million that includes compensation of ₹13,402.60 million and termination payment of ₹13,370.00 million in relation to the agreement dated November 10, 2010 executed between MPBCDCL and MPRDC for development of 24 border check post in Madhya Pradesh. For speedy resolution of the matter, a writ petition was filed before the Madhya Pradesh High Court (**"High Court"**), Jabalpur. This petition was clubbed with a public interest litigation filed by a third party on the larger issue of pendency of matters before the Tribunal. The matter is currently pending.

(ii) MPBCDCL has filed a reference petition before the Madhya Pradesh Arbitration Tribunal, Bhopal **("Tribunal")** claiming an amount of ₹27,743.20 million against Madhya Pradesh Road Development Corporation **("MPRDC")** under the concession agreement dated November 10, 2010. MPRDC had awarded the contract of construction, operation and maintenance of border check posts at 24 locations in Madhya Pradesh to MPBCDL. Owing to MPRDC's failure to perform obligations, the concession agreement was terminated by MPBCDCL on October 31, 2018. Till the termination, MPBCDCL could complete work on 19 check posts but could not successfully operate these due to traffic leakages and failure of the transport department to grant permission for unloading overloaded commercial vehicles and filed the reference petition. The matter is currently pending.

(iii) IL&FS has filed an application at NCLAT on behalf of MPBCDCL against Canara Bank, seeking directions to release necessary funds to maintain MPBCDCL operational status. This request is based on prior orders from the NCLAT dated February 11, 2019 and May 29, 2019, which Canara Bank has violated by not releasing the required funds, putting MPBCDCL viability at risk. IL&FS seeks prayed to release the monies required by MPBCDCL for its going concern expenses. The matter is currently pending.

Jharkhand Road Projects Implementation Company Limited ("JRPICL")

(i) JRPICL filed a writ petition before the Jharkhand High Court **("High Court")** against the State of Jharkhand and others in relation to non-payment of its claim amounting to ₹1,064.70 million in relation to the concession agreement dated October 14, 2009, executed between JRPICL, State of Jharkhand and Jharkhand Accelerated Road Development Company Limited for Ranchi Patratu Ramgarh Project-II. This payment pertained to claims approved under an administrative order dated March 30, 2016, issued by the Government of Jharkhand, which remains unpaid despite the directive. The High Court allowed the petition and directed the Government of Jharkhand to pay ₹1,064.70 million to JRPICL. In view of the non-compliance of the order, JRPICL filed a contempt petition against the Government of Jharkhand. The matter is currently pending.

(ii) IL&FS has filed an application before National Company Law Appellate Tribunal (**"NCLAT"**) for recategorization of JRPICL's solvency status from 'green' to 'red' with effect from July 1, 2023, based on an 'objective solvency test' conducted by a resolution consultant i.e. Alvarez and Marsal India Private Limited ("**A&M**"). IL&FS contended that JRPICL was expected to receive annuities of ₹1,790.00 million for the period of April to September 2023 from the Government of Jharkhand. However, since no such annuities have been received till date, the solvency status of JRPICL may be recategorized. This matter is currently pending.

Jharkhand Infrastructure Implementation Company Limited ("JIICL")

(i) IL&FS has filed an application before National Company Law Appellate Tribunal (**"NCLAT"**) for taking on record the updated solvency categorization exercise carried out by A&M which recommends continuing the classification of JIICL as a red entity in light of further defaults by the Government of Jharkhand in paying annuities which fell due in May, 2023. This matter is currently pending.

(ii) IL&FS has filed an application before National Company Law Appellate Tribunal (**"NCLAT"**) against Punjab National Bank seeking refund amounting to ₹1,450.00 million from the senior lenders under the loan agreement as a result of their failure to comply with the NCLAT order dated May 11, 2023 which required them to grant certain waivers in lieu of recategorization of JIICL's solvency status from "Green to Red". No such waivers were granted and the said amount was allegedly unlawfully debited from the escrow account of JIICL which was made under the escrow agreement dated May 12, 2023. The matter is currently pending.

(iii) A writ petition has been filed against the Government of Jharkhand seeking the release of ₹ 2232.28 million to JIICL, along with interest thereon, for the outstanding annuities payable under the concession agreement dated August 7, 2015. The matter is currently pending.

Rapid Metro Rail Gurgaon Limited ("RMGL")

(i) RMGL has filed a petition before the Punjab and Haryana High Court (**"High Court"**), against Municipal Corporation of Gurgaon **("MCG")** against MCG's notice dated January 27, 2015, directing RMGL to deposit ₹300.00 million for putting advertisements on RMGL metro site (stations and alignment) in contravention to the Haryana state government's letter dated March 20, 2013, that exempted RMGL from sharing any revenue with MCG for five years. The High Court by way of its order dated February 4, 2015, had asked MCG to not remove advertisements and had asked RMGL to furnish surety for ₹300.00 million which was duly furnished. The matter is currently pending.

Enterprises for collection of user fee on Mathura (U.P

Border) - Bharatpur at user fee collection plaza Gundwa for the period March 31, 2017 till March 31, 2019. The matter is currently pending.

V. Litigation involving the Sponsor and Sponsor Group

There are no material pending litigations involving the Sponsor.

Material civil proceedings filed against IL&FS Financial Services Limited ("IFSL")

(i) Corporation Bank filed a case against Ind Bharat Thermal Power Limited & Others before the Debt Recovery Tribunal, Delhi under section 19 of the Recovery of Debts and Bankruptcy Act, 1993 for a claim of ₹9.074 million. There is no claim against IFSL which has been made a party along with the consortium of banks and financial institutions. The matter is currently pending.

(ii) Punjab National Bank has filed recovery proceedings before the Debts Recovery Tribunal, Delhi, against Ind Bharat Thermal Power Limited and all consortium banks including IFSL ("**Defendants**") for recovery of its dues from Ind Bharat Thermal Power Limited in relation to loan facility. The matter is currently pending.

(iii) SKIL Infrastructure Limited has filed a case against IFSL in the Commercial Civil Court, Ahmedabad. This case has been filed by the borrower. The case pertains to the restructuring of the account. The matter is currently pending.

(iv) Small Industries Development Bank of India ("**SIDBI**") had placed an Inter-Corporate Deposit (ICD) of ₹5000.00 million with IFSL. Due to IFSL 's failure to repay, SIDBI has filed an application against IFSL under section 45QA of the Reserve Bank of India Act, 1934, before the National Company Law Tribunal (NCLT) Bench at Mumbai. The application seeks directions for the repayment of ₹5000.00 million (under commercial papers), along with interest and other charges. However, the proceedings are currently stayed due to the a moratarium order of the NCLAT. The matter is currently pending.

(v) Visa Energy Ventures Limited ("**VEVL**") and Visa Infrastructure Limited ("**VIL**") (collectively, the "**Plaintiffs**") have filed a civil suit before the Calcutta High Court against IFSL, State Bank of India ("**SBI**") and Karvy Stock Broking Limited (collectively the "**Defendants**") seeking declaration that the deed of assignment dated September 9, 2015, executed between IFSL and SBI for assignment of debt and underlying pledge of shares held by VEVL and VIL in Visa Steel Limited ("**VSL**") is illegal, null and void, and further declaration that IFSL is bound to accept repayment of ₹250.00 million along with interest. The matter is currently pending.

(vi) Edelweiss ARC initiated an insolvency proceeding under section 7 of IBC against Adel Landmarks Limited. IFSL provided a term loan of ₹1370.00 million to Adel Landmarks Limited, another loan of ₹600.00 million to the same company, and a loan of ₹2400.00 million ("**Golden Glow Facility**") to Golden Glow Estates Private Limited. Legal proceedings for recovery are ongoing. IFSL is a financial creditor and has filed its claim with the RP. IFSL had filed an application before the NCLT for rejecting the claims for EARC since the said claims were already admitted in Adel Landmarks CIRP. After much contest, IFSL's application was allowed and EARC claims were rejected. EARC has filed an appeal against the said order. The appeal of EARC is pending adjudication.

(vii) IFCI initiated insolvency proceedings against Hi-Point Investment and Finance Private Limited and IFSL has sanctioned a term Loan of ₹1250.00 million under the loan agreement dated June 21, 2011, along with supplemental loan agreements dated May 29, 2013, and October 21, 2013, to the Hi-Point Investment and Finance Private Limited. IFSL is a financial creditor and has filed its claim with the

resolution professional ("**RP**"). IFSL is also a party to the various applications filed by the RP before the NCLT under the ongoing corporate insolvency resolution process. The settlement deed/ offer has been shared by Art Construction (Akshay Dhawan) and sent to IFSL by RP (Vikram Kumar) of Hi-point Investment. The liquidation order has been passed by NCLT, New Delhi. IFSL has filed its claim before the liquidator. The matter is currently pending.

(viii) Milky Investment and Trading Company filed a case against IFSL before the Debt Recovery Tribunal, Delhi under section 19 of the Recovery of Debts and Bankruptcy Act, 1993 seeking possession of the Second Floor in Anand Lok Property. The second floor of the property along with the proportionate portion on land is being claimed by Milky Investment. The matter is currently pending.

(ix) Resolution proceedings have been initiated by Union Bank of India, before National Company Law Tribunal, Delhi, against Era Infra Engineering Limited ("**Era**"). IFSL has extended a subordinate loan to one of the subsidiaries of Era i.e. West Haryana Highways Limited ("**WHHL**"). The resolution professional has filed a consolidated application seeking consolidation of all subsidiaries of Era including WHHL even though no resolution proceeding has been initiated against WHHL. This consolidated application is being contested by IFSL. The matter is currently pending.

(x) United Breweries Holdings Limited ("**UBHL**") had sought permission of Karnataka High Court to sell United Spirits Limited ("**USL**") shares (that were pledged to IFSL) to Diageo and Relay B V and from out of the sale proceeds to make payment of dues to the secured creditors. The Single judge bench of Karnataka High Court had allowed UBHL to sell USL shares and pay to its Creditors including IFSL. IFSL was paid approximately ₹1550.00 million. UBHL repaid amounts due to IFSL and got the release of pledged shares. The matter is currently pending.

(xi) Corporation Bank filed a case against Monet Power Company Limited ("**MPC**") and others before the Debt Recovery Tribunal, Delhi under the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002 for a claim of ₹515.60 million. IFSL being a financial intuition was one of the lenders of MPC and hence IFSL has been made a pro forma defendant in the matter. The matter is currently pending.

(xii) Corporation Bank has filed an application before DRT Delhi seeking recovery of Rs. 146.45 million dues as on May 30, 2018 payable along with the future interest till payment from May 31, 2018, further the applicant has sought permission to sell the hypothecated assets of the borrower company and personal assets of respondent no. 1 to 4 (which includes IFSL). Monnet Power Company Limited approached the consortium of banks and financial institutions for subordinate financial facility of ₹2,300.00 million/ to set up a 1050 MW coal fired power plant at village Malibrahmani in Angul District. IFSL (i.e. respondent no. 4) was appointed as the facility manager to manage, operate and monitor a soft matter characterization facility till its completion and IL&FS Trust Company Limited (i.e. respondent no. 5) was appointed as lenders agent, as per the structured mezzanine credit facility memorandum of association. Due to continuous defaults in payment of the loan amount, the account of respondent no. 1 was classified as non-performing asset on September 28, 2014. A recall notice dated December 12, 2017 was issued by IFSL to respondent no. 1 on behalf of all subordinate lenders.

(xiii) Nina Concrete Systems Pvt. Ltd. has filed a petition against IFSL, seeking recovery of monies under section 45Q of the Reserve Bank of India Act, 1934. The next date for this case is yet to be determined, as it has been adjourned *sine die* on September 6, 2021, due to the the moratorium order passed by NCLAT. The matter is currently pending.

(xiv) Nina Water-proofing Systems Pvt. Ltd. has filed CP 447 of 2019 against IFSL, seeking recovery of monies under sections 45Q of the Reserve Bank of India Act, 1934. Similar to the previous case, this

matter has been adjourned sine die on September 6, 2021, due to the moratorium order passed by NCLAT. The matter is currently pending.

(xv) Nina Water-proofing Systems Pvt. Ltd. has filed CP 457 of 2019 against IFSL, seeking recovery of monies under sections 45Q of the Reserve Bank of India Act, 1934. This case has also been adjourned sine die on September 6, 2021, due to the moratorium order passed by NCLAT. The matter is currently pending.

Material civil proceedings filed by IL&FS Financial Services Limited ("IFSL")

(i) IFSL has filed 27 applications under section 7 of the Insolvency and Bankruptcy Code of India, 2016, between the years 2005 and 2023 against different entities, involving a total amount of ₹ 43.03 billion.

(iii) IFLS has filed 35 civil suits/proceedings and commercial suits before different forums, between the years 2009 to 2021 in relation to recovery of loans, etc. granted to different entities, involving a total amount of ₹ 33.69 billion**.**

(iv) IFLS has filed 4 winding up petitions before different forums, between 2001 and 2013 under sections 433 and 439 of the Companies Act, 1956 in relation to loans granted to different entities, involving a total amount of ₹ 1.11 billion.

(v) IFLS has filed 8 recovery proceedings before the debts recovery tribunals, between the years 2015 and 2019 under section 19 of the Recovery of Debts and Bankruptcy Act, 1993, involving a total amount of ₹ 8.67 billion.

(vi) IFSL has filed suit against La Fin Financial Services Private Limited ("**La Fin**") before the Bombay High Court, seeking specific performance of letter of understanding dated August 20, 2009, issued by La Fin in favour of IFSL. Bombay High Court had granted an injunction restraining La Fin from assigning, transferring or encumbering any of its assets or properties, which was unsuccessfully challenged by La-Fin by way of an appeal. The matter is currently pending.

(vii) IFSL has filed a suit against Multi Commodity Exchange of India Limited ("**MCX-SX**") and another **("Defendants")** before the Bombay High Court in relation to the share purchase agreement executed between the parties as per which the Defendants had undertaken not to increase their share capital without prior written approval of IFSL. In March 2014, MCX – SX proposed a rights issue without obtaining prior written consent of IFSL. The suit has been filed seeking specific performance by MCX – SX to obtain prior consent from IFSL. The matter is currently pending.

(viii) IFSL has filed an application under section 14 of the Securitisation and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002 before the court of chief metropolitan magistrate, Delhi ("**Court**"), against Collage Group Infrastructure Private Limited ("**Collage**") for enforcement of security granted to ILFS in relation to the term loan of ₹900.00 million granted to Collage under the loan agreement dated March 21, 2016 and ₹80.00 million granted to MNT Infratech Private Limited under the loan agreement dated March 22, 2018. An order allowing the application was passed by the Court and the same was challenged by the promoters of collage group before DRT. The matter is currently pending.

(ix) IFSL has filed an application under section 45QA of the Reserve Bank of India Act, 1934, before National Company Law Tribunal, Kolkata, against Vistar Financiers Private Limited, in relation to a term loan facility of ₹1550.00 million extended under the term loan agreement that turned into a non-performing asset on December 30, 2018. The matter has been dismissed by the NCLT Kolkata and the said dismissal order has been challenged by IFSL before the NCLAT. The matter is currently pending.

(x) IFSL has filed a civil suit against Accel Frontline Limited ("**Accel**") before the Madras High Court in relation to outstanding payment of rent as per the lease agreement. Accel has proposed to settle. The matter is currently pending.

(xi) IFSL has filed an application under section 45QA of the Reserve Bank of India Act, 1934, before National Company Law Tribunal, Chenani, against Trichem Holdings Limited, in relation to a term loan facility of ₹100.00 million extended under the term loan agreement that turned into a non-performing asset on June 1, 2018. The matter is currently pending.

(xii) IFSL has filed an application under section 14 of the Securitisation and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002 before the court of chief metropolitan magistrate, Mumbai, against SKIL Infrastructure Limited ("**SKIL**") for enforcement of security granted to ILFS in relation to the term loan of ₹ 2500.00 million granted to SKIL under the loan agreement dated September 28, 2015. The matter is currently pending.

(xiii) IFSL has filed a writ petition before the Bombay High Court regarding the adjudication of stamp duty payable on its demerger from IL&FS. The superintendent of stamps by way of its order dated December 23, 2013, had demanded a stamp duty of ₹70.72 million and a penalty of ₹ 97.60 million in relation to the demerger. The imposed penalty was disputed by IFSL, but the dispute was rejected by the superintendent of stamps following which the demand notice was challenged before the chief controlling revenue authority, Pune which was also dismissed. The writ petition has been filed challenging the dismissal. The matter is currently pending.

(xiv) Himachal Sorang Power Private Limited ("**HSPPL**") was awarded with a hydroelectric power project. This project was to be acquired by TATA India Power Venture Private Limited. ("**TATA**") from the owners of HSPPL which comprised of Nagarjuna Construction Company ("**NCC**"), NHAI Consortium of Canara Bank and India Infrastructure Finance Company Limited Holding ("**NCCIHL**") and IECCL. Pending share transfer, NCC group submitted certain bank guarantees to TATA which were deposited with IFSL for safe custody and were to be returned to NCC on completion of the share transfer. Upon seeking clarification from TATA on whether to release the bank guarantee, TATA informed that certain conditions were not met and hence not to release the BGS. As the bank guarantees were expiring on January 30, 2019, IFSL and Aditya Birla Finance Limited filed an interpleader suit before the Bombay High Court.

(xv) IFSL has filed a petition under section 131 of the Companies Act, 2013, for the revision of financial statements for the FY 2018-2019 and 2019-2020 in case number 2709138 / 00977 / 2024. This petition is currently pending.

(xvi) A special leave petition has been filed by IFSL before the Supreme Court challenging the Bombay High Court's judgment dated August 12, 2021, refusing to quash SEBI's notice seeking to re-open proceedings which were dropped earlier on account of moratorium.

Material criminal proceedings filed against IL&FS Financial Services Limited ("IFSL")

(i) GC Property Private Limited (under liquidation) has filed a securitisation application under section 17 of the Securitisation and Reconstruction of Financial Assets and Enforcement of Securities Interest Act, 2002, against IFSL, before the Debts Recovery Tribunal, Mumbai. The matter is currently pending.

(ii) Quashing petition has been filed under section 482 of the Code of Criminal Procedure, 1973, by two of the directors of ARM Telecom Services Limited ("**ARM Telecom**") before the Bombay High Court in relation to the proceedings under section 138 of the Negotiable Instruments Act, 1881, filed by IFSL against ARM Telecom and its directors. The matter is currently pending.

(iii) Quashing petition has been filed under section 482 of the Code of Criminal Procedure, 1973, by one of the directors of Serveall Construction Private Limited ("**Serveall**") before the Bombay High Court in relation to the proceedings under section 138 of the Negotiable Instruments Act, 1881, filed by IFSL against Serveall and its directors. The matter is currently pending.

(iv) The case, involves IFSL as defendant, acting as the mortgagee of a property concerning SIVA Group. The legal proceedings concern the attachment of assets under the Prevention of Money Laundering Act (PMLA). The central issue is whether the provisions of the PMLA take precedence over other laws, including the Insolvency and Bankruptcy Code, 2016 and the Securitization and Reconstruction of Financial Assets and Enforcement of Security Interest Act. This matter is presently under adjudication before the Supreme Court.

Material criminal proceedings filed by IL&FS Financial Services Limited ("IFSL")

(i) IFSL has filed 34 criminal proceedings before different forums, between the years 2013 and 2021 under sections 138/141 of the Negotiable Instruments Act, 1881, against different entities/individuals, involving a total amount of approximately ₹ 21.28 billion.

(ii) An intervention application was filed by IFSL before the Supreme Court in a criminal case seeking permission for recovery as per law in relation to the loan of ₹2,350.00 million granted to Unitech Limited ("**Unitech**") under the loan agreement dated December 3, 2015, and the ₹550.00 million granted to Havelock Properties Limited under the loan agreement dated August 4, 2017. As per Supreme Court's order dated January 20, 2020, a new board of Unitech was constituted allowing them to formulate a resolution framework for the project lands. The resolution framework has been shared by the board and IFSL has also shared its suggestions towards the same. The matter is currently pending.

Material regulatory proceedings against by IL&FS Financial Services Limited ("IFSL")

(i) In the matter of IL&FS Financial Services Limited, a Show Cause Notice (SCN) dated July 8, 2021, was issued under section 15-I (3) of the Securities and Exchange Board of India Act, 1992. This notice re-opens adjudication proceedings for violations of the SEBI LODR Regulations, 2015, pursuant to a Show Cause Notice dated July 28, 2020. The previous adjudication proceedings were disposed of by an order of the adjudicating officer dated December 24, 2020. However, the proceedings have been adjourned sine die due to pending matters before the Hon'ble Supreme Court in SLP (C) No. 13107 of 2021 filed by IFSL.

Notes:
(1) ITNL and IL&FS also form part of the Sponsor Group and disclosures in relation to these have been made under "Litigation involving the common associates of the Sponsor, the Project Manager and the Investment Manager" above.
(2) Roadstar Infra Private Limited and Sabarmati Capital One Limited are other entities forming part of the Sponsor Group having no litigation involving them.

VI. Litigation involving the Project Manager and its associates

Material civil proceedings filed against EMSL

(i) A civil case under the Minimum Wages Act, 1948 has been filed by Mr. Binod Singh along with 29 other claimants against EMSL claiming alleged overtime wages from the year 2012 to 2020 in respect of their employment for works at Ranchi Patratu Highway and Ranchi Ring Road. The main allegation therein is that despite the actual work hours of the claimants being 12 hours, the wages have only been paid for 8 hours. The principal claim amount as per the allegations is ₹15.59 million, while the compensation demanded is ₹155.86 million, amounting to a total of ₹171.45 million. EMSL has filed a writ petition for quashing the case wherein the lower court proceedings have been stayed. The matter is currently pending.

Material criminal proceedings filed against EMSL

(i) A criminal case has been instituted by the Government of Gujarat under sections 304 and 114 of the Indian Penal Code, 1860 against some of the employees of EMSL before the Principal Sessions Judge, Rajkot, in relation to the collapse of a wall of the overbridge on the Jetpur-Gondal Rajkot national highway near Aji Dam at Rajkot at the (West Gujarat Expressway Limited project site) leading to the death of two persons. The matter is currently pending.

(ii) A criminal case has been instituted by the State of Maharashtra under sections 323, 353, 354-A, 504, 506 and 509 of the Indian Penal Code, 1860 against some of the employees of EMSL before II Adhoc District Judge and Assistant Sessions Judge, Khed, Maharashtra, in relation to an altercation between some police officers and the employees of EMSL when the former refused to pay the toll fee at the Chlakwadi Toll Plaza. The matter is currently pending.

(iii) A criminal case has been instituted by the State of Maharashtra under section 304(A) of the Indian Penal Code, 1860 against an employee of EMSL before the II Joint Judicial Magistrate First Class, Mohol, Maharashtra. The matter pertains to a fatal accident that happened on September 6, 2021, resulting in the death of one person on the Pune-Solapur Highway near Shivavarun village. The deceased was riding his motorbike at the time of the incident when unfortunately, he skidded on some water that had accumulated on the road due to the rainy season and met with an accident. Subsequent to the investigation, the case has been instituted in the year 2024 against the then Project Manager of EMSL at the site. The matter is currently pending.

Material criminal proceedings filed by EMSL

(i) A criminal case has been filed by EMSL through is authorized representative/employee, Mr. Kanak Singh, against Ahilya Developers Private Limited (**"Ahilya"**) and its directors under sections 420, 406, 465, 467 and 468 of the Indian Penal Code, 1860, before the Judicial Magistrate, Senior Division, Gandhinagar, for furnishing fake bank guarantee no. 00483722FG503439 dated 16.10.2017 of ₹20.00 million. In 2017, EMSL was sub-contracted the work of major road upgradation in Madhya Pradesh by ITNL – IECCL (JV) under agreement dated November 23, 2017, for (Madhya Pradesh Road Development Corporation Ltd.) Package 02 for which services of Ahilya were availed and an advance of ₹10.00 million was given against which the bank guarantee was furnished. Due to deficiency in services, Ahilya's services were terminated. At the time when EMSL tried encashing the bank guarantee, the same was found to be a fabricated document. The matter is currently pending.

(ii) A criminal case has been instituted by EMSL against the directors of Randal Infrastructure Private Limited (**"Randal"**) under sections 420, 406, 467 and 468 of the Indian Penal Code, 1860, before the additional Chief Judicial Magistrate, Patna, Bihar, for furnishing fake bank guarantee no. 4470PIBG1000007 dated June 20, 2017, of ₹5.50 million. In 2017, EMSL was sub-contracted the work of major road upgradation in Madhya Pradesh by ITNL – IECCL (JV) under agreements dated November 23, 2017, for Madhya Pradesh Road Development Corporation Limited ("**MPRDC**") Package 02 and agreement dated August 3, 2017, for MPRDC Package 10, for which services of Randal were availed and an advance of ₹5.50 million was given against which the bank guarantee was furnished. Due to deficiency in services, Randal's services were terminated. When EMSL tried encashing the bank guarantee, the same was found to be a fabricated document. The matter is currently pending.

(iii) An application under section 156(3) of the Code of Criminal Procedure, 1973 filed against Ms. Hemlata and other accused for offences under sections 379 and 406 of the Indian Penal Code, 1860 before Chief Judicial Magistrate, Seoni, Madhya Pradesh, for theft and criminal breach of trust regarding the construction equipment, machines and miscellaneous assets belonging to EMSL from the project site at Madhya Pradesh. EMSL was sub-contracted the work of major road upgradation in Madhya Pradesh by ITNL – IECCL (JV) under agreement dated August 3, 2017, for Madhya Pradesh Road Development Corporation Limited Package 11. Due to financial crunch, EMSL could not continue the work and many of the regional contractors and workers stole the construction equipment, machines and miscellaneous assets belonging to EMSL. The matter is currently pending.

(iv) A revision petition has been filed before I Sessions Judge, Waraseoni, Madhya Pradesh against the order dated December 4, 2020, of the Judicial Magistrate, First Class, Balaghat (M.P.) dismissing the application under section 156(3) of the Code of Criminal Procedure, 1973. The application was filed against M/s Kamakhya Suppliers (Proprietorship) through Mr. Mohan Sohane and other accused for offences under sections 379 and 406 of the Indian Penal Code, 1860 for theft and criminal breach of trust regarding the construction equipment, machines and miscellaneous assets belonging to EMSL from the project site at Madhya Pradesh. EMSL was sub-contracted the work of major road upgradation in Madhya Pradesh by ITNL – IECCL (JV) under agreement dated August 3, 2017, for Madhya Pradesh Road Development Corporation Limited Package. Due to financial crunch, EMSL could not continue the work and many of the regional contractors and workers stole the construction equipment, machines and miscellaneous assets belonging to EMSL. The matter is currently pending.

(v) A criminal complaint has been filed against M/s Aaryan Construction Company (Through Mr. Sanju) and other accused under sections 379, 406 and 420 of the Indian Penal Code, 1860, before the Judicial Magistrate, First Class, Bidar, Karnataka, for theft of materials/assets/machines of EMSL from the Bidar Humnabad Road Project ("**BHRP Project**") site. EMSL was sub-contracted the work of road widening/construction at the BHRP Project site, by IL&FS Engineering and Construction Company Ltd. through a sub-contract agreement dated April 13, 2017, for which services of the accused were availed by EMSL. Due to financial crunch, EMSL could not make the payment to the accused following which materials/assets/machines were lifted from the project site. The matter is currently pending.

(vi) A criminal complaint has been filed against Mr. Vishwanath Papde and other accused under sections 379, 406 and 420 of the Indian Penal Code, 1860 before the Judicial Magistrate Senior Division, Bhalki, Bidar, (Kar) for theft of materials/assets/machines belonging to EMSL from the Bidar Humnabad Road Project ("**BHRP Project**") site. EMSL had been sub-contracted the work of road widening/construction at the BHRP Project site, by M/s IL&FS Engineering and Construction Company Limited through a sub-contract agreement dated April 13, 2017, and for the said purpose EMSL has availed the services of the Accused. Due to financial crunch, EMSL could not make the payment to the Accused persons following which materials/assets/machines were lifted from the project site. The matter is currently pending.

SECURITIES MARKET OF INDIA

The information in this section has been extracted from documents available on the website of SEBI and the Stock Exchanges and has not been prepared or independently verified by the Parties to the Trust or the Placement Agent or any of their respective affiliates or advisors. The information below is given for the benefit of Eligible Creditors in the Unit Distribution. Eligible Creditors are advised to make their independent investigations and ensure that they are eligible to receive and hold the Units under Indian laws or regulations.

The Indian Securities Market

India has a long history of organized securities trading. In 1875, the first stock exchange was established in Mumbai. The BSE and the NSE, together hold a dominant position among the stock exchanges in terms of the number of listed companies, market capitalisation and trading activity.

Stock Exchange Regulation

Indian stock exchanges are regulated primarily by SEBI, as well as by the Government acting through the Ministry of Finance, Capital Markets Division, under the Securities Contracts (Regulation) Act, 1956 ("**SCRA**") and the Securities Contracts (Regulation) Rules, 1957 ("**SCRR**"). SEBI, in exercise of its powers under the SCRA and the SEBI Act, notified the SCR (SECC) Regulations, which regulate *inter alia* the recognition, ownership and governance of stock exchanges and clearing corporations in India together with providing for minimum capitalisation requirements for stock exchanges. The SCRA, the SCRR and the SCR (SECC) Regulations along with various rules, bye-laws and regulations of the respective stock exchanges, regulate the recognition of stock exchanges, the qualifications for membership thereof and the manner, in which contracts are entered into, settled and enforced between members of the stock exchanges.

The SEBI Act empowers SEBI to regulate the Indian securities markets, including stock exchanges and intermediaries in the capital markets, promote and monitor self-regulatory organisations and prohibit fraudulent and unfair trade practices. Regulations concerning minimum disclosure requirements by public companies, rules and regulations concerning investor protection, insider trading, substantial acquisitions of shares and takeover of companies, buy-backs of securities, employee stock option schemes, stockbrokers, merchant bankers, underwriters, mutual funds, foreign portfolio investors, credit rating agencies and other capital market participants have been notified by the relevant regulatory authority.

Listing and Delisting of Units

The InvIT Regulations provide for listing and delisting of units of infrastructure investment trusts on the stock exchanges.

BSE

Established in 1875, it is the oldest stock exchange in India. In 1957, it became the first stock exchange in India to obtain permanent recognition from the Government under the SCRA. It has evolved over the years into its present status as one of the premier stock exchanges of India.

NSE

NSE was established by financial institutions and banks to provide nationwide online, satellite-linked, screen-based trading facilities with market-makers and electronic clearing and settlement for securities including government securities, debentures, public sector bonds and units. It has evolved over the years into its present status as one of the premier stock exchanges of India. NSE was recognised as a stock exchange under the SCRA in April 1993 and commenced operations in the wholesale debt market segment in June 1994. The capital market (equities) segment commenced operations in November 1994 and operations in the derivatives segment commenced in June 2000.

Internet-based Securities Trading and Services

Internet trading takes place through order routing systems, which route client orders to exchange trading systems for execution. Stockbrokers interested in providing this service are required to apply for permission to the relevant stock exchange and also have to comply with certain minimum conditions stipulated by SEBI. The NSE became the first exchange to grant approval to its members for providing internet-based trading services. Internet trading is possible on both the "equities" as well as the "derivatives" segments of the NSE.

Trading Hours

Trading on both the NSE and the BSE occurs from Monday to Friday, between 9:15 a.m. and 3:30 p.m. IST (excluding the 15 minutes pre-open session from 9:00 a.m. to 9:15 a.m. that has been introduced recently). The NSE and the BSE are closed on public holidays. The recognised stock exchanges have been permitted to set their own trading hours (in the cash and equity derivatives segments) subject to certain conditions.

Trading Procedure

NSE has introduced a fully automated trading system called National Exchange for Automated Trading ("**NEAT**"), which operates on strict time/price priority besides enabling efficient trade. NEAT has provided depth in the market by enabling large number of members all over India to trade simultaneously, narrowing the spreads.

Depositories

The Depositories Act provides a legal framework for the regulation of depositories in securities and for matters connected therewith or incidental thereto. Further, SEBI has framed regulations in relation to the registration of such depositories, the registration of participants as well as the rights and obligations of the depositories, participants, companies and beneficial owners.

SELLING AND TRANSFER RESTRICTIONS

The distribution of this Placement Memorandum and the offer, sale, delivery or distribution of the Units is restricted by law in certain jurisdictions. Persons who may come into possession of this Placement Memorandum are advised to consult with their own legal advisors as to what restrictions may be applicable to them and to observe such restrictions. This Placement Memorandum may not be used for the purpose of an offer or invitation in any circumstances. Due to the following restrictions, Eligible Creditors are advised to consult legal counsel prior to purchasing or subscribing to the Units or making any resale, pledge or transfer of the Units.

Republic of India

This Placement Memorandum may not be distributed directly or indirectly in India or to residents of India and any Units may not be offered, sold or distributed directly or indirectly in India to, or for the account or benefit of, any resident of India except as permitted by applicable Indian laws and regulations.

The Units may not be offered, sold or distributed, directly or indirectly, and this Placement Memorandum, any offering materials and any advertisements in connection with the offering or distribution of the Units may be distributed or published in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of any such country or jurisdiction. The Unit Distribution will be made in compliance with the applicable SEBI InvIT Regulations.

Canada

Prospective Canadian investors/ Eligible Creditors are advised that the information contained within this Placement Memorandum has not been prepared with regard to matters that may be of particular concern to Canadian investors/ Eligible Creditors. Accordingly, prospective Canadian investors/ Eligible Creditors should consult with their own legal, financial and tax advisers concerning the information contained within this Placement Memorandum and as to the suitability of an investment in the Units in their particular circumstances.

The Units may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are both (i) accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and (ii) permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Such sales will be made only by a dealer duly registered under the applicable securities laws of the applicable province or in accordance with an exemption from the applicable registered dealer requirements. Any resale of the Units must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Placement Memorandum (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Under Canadian securities law, National Instrument 33-105 *Underwriting Conflicts* (NI 33-105) provides disclosure requirements with respect to potential conflicts of interest between an issuer and underwriters, dealers or placement agents, as the case may be. To the extent any conflict of interest between us and any of the underwriters (or any other placement agent acting in connection with this offering) may exist in respect of this offering, the applicable parties to this offering are relying on the exemption from these disclosure requirements provided to them by section 3A.3 of NI 33-105 (Exemption based on U.S. disclosure).

Upon receipt of this Placement Memorandum, each Canadian purchaser/ Eligible Creditors hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the securities described herein (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. *Par la réception de ce document, chaque acheteur canadien confirme par les présentes qu'il a expressément*

exigé que tous les documents faisant foi ou se rapportant de quelque manière que ce soit à la vente des valeurs mobilières.

Dubai International Financial Centre

The Placement Memorandum relates to an Exempt Offer in accordance with the Markets Rules Module of the Dubai Financial Services Authority ("**DFSA**") Rulebook. The Placement Memorandum is intended for distribution only to persons of a type specified in the Markets Rules Module. It must not be delivered to, or relied on by, any other person. The DFSA has no responsibility for reviewing or verifying any documents in connection with Exempt Offers. The DFSA has not approved the Placement Memorandum nor taken steps to verify the information set forth herein and has no responsibility for this Placement Memorandum. The securities to which the Placement Memorandum relates may be illiquid and/or subject to restrictions on their resale. Prospective purchasers or Eligible Creditors of the securities/ units offered or distributed should conduct their own due diligence on the securities. If you do not understand the contents of the Placement Memorandum, you should consult an authorized financial advisor.

In relation to its use in the Dubai International Financial Centre, the Placement Memorandum is strictly private and confidential and is being distributed to a limited number of investors/ Eligible Creditors and must not be provided to any person other than the original recipient and may not be reproduced or used for any other purpose. The interests in the securities/ units may not be offered, sold or distributed directly or indirectly to the public in the Dubai International Financial Centre.

European Economic Area

In relation to each member state of the European Economic Area and the United Kingdom (each, a "**Relevant State**"), no Units have been offered or distributed or will be offered or distributed pursuant to the Unit Distribution to the public in that Relevant State prior to the publication of a prospectus in relation to the Units that has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, all in accordance with the Prospectus Regulation, except that offers of the Units may be made to the public in that Relevant State at any time under the following exemptions under the Prospectus Regulation.

a) to any legal entity which is a qualified investor as defined under the Prospectus Regulation;

b) to fewer than 150 natural or legal persons (other than qualified investors as defined under the Prospectus Regulation), subject to obtaining the prior consent of the Placement Agent and the Syndicate Members for any such offer; or

c) in any other circumstances falling within Article 1(4) of the Prospectus Regulation,

provided that no such offer of the Units shall require the InvIT or any manager to publish a prospectus pursuant to article 3 of the Prospectus Regulation or supplement a prospectus pursuant to article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression "**offer to the public**" in relation to any Units in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and any Units to be offered so as to enable an investor to decide to purchase or subscribe for any Units and the expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129.

Hong Kong

The Placement Agent has represented, warranted and agreed that:

(i) it has not offered, sold or distributed and will not offer, sell or distribute in Hong Kong, by means of any document, any Units other than (a) to "professional investors" as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (the "**SFO**") and any rules made under the SFO; or (b) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies

(Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong (the "**CWUMPO**") or which do not constitute an offer to the public within the meaning of the CWUMPO; and

(ii) it has not issued or had in its possession for the purposes of the issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere any advertisement, invitation or document relating to the Units, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong), other than with respect to Units which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the SFO and any rules made under the SFO.

Mauritius

The Units may not be offered, sold or distributed, directly or indirectly, to the public in Mauritius. Neither the Placement Memorandum nor any offering material or information contained herein relating to the offer or distribution of the Units may be released or issued to the public in Mauritius or used in connection with any such offer. The Placement Memorandum does not constitute an offer to sell the Units to the public in Mauritius and is not a prospectus as defined under the Companies Act 2001.

Singapore

The Placement Memorandum has not been and will not be registered as a prospectus in Singapore with the Monetary Authority of Singapore. Accordingly, the Placement Memorandum and any other document or material in connection with the offer, sale or distribution, or invitation for subscription, purchase or distribution, of the Units may not be circulated or distributed, nor may the Units be offered, sold or distributed, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor (as defined in Section 4A of the Securities and Futures Act, (Chapter 289), of Singapore as modified and amended from time to time (the "**Securities and Futures Act**")) pursuant to Section 274 of the Securities and Futures Act, (ii) to a relevant person (as defined in Section 275(2) of the Securities and Futures Act) pursuant to Section 275(1) of the Securities and Futures Act, or any person pursuant to Section 275(1A) of the Securities and Futures Act, and in accordance with the conditions specified in Section 275 of the Securities and Futures Act, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the Securities and Futures Act.

Where the Units are subscribed or purchased under Section 275 of the Securities and Futures Act by a relevant person which is:

(a) a corporation (which is not an accredited investor (as defined in Section 4A of the Securities and Futures Act)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or

(b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

securities or securities-based derivatives contracts (each as defined in Section 239(1) of the Securities and Futures Act) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the Units pursuant to an offer made under Section 275 of the Securities and Futures Act except:

(1) to an institutional investor or to a relevant person, or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the Securities and Futures Act;

(2) where no consideration is or will be given for the transfer;

(3) where the transfer is by operation of law;

(4) as specified in Section 276(7) of the Securities and Futures Act; or

(5) as specified in Regulation 37A of the Securities and Futures (Offers of Investments) (Securities and Securities-based Derivatives Contracts) Regulations 2018 of Singapore.

Notification under Sections 309B(1)(a) and 309B(1)(c) of the SFA: The InvIT determined, and hereby notifies all relevant persons (as defined in Section 309A of the SFA) that the Units are: (A) prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and (B) Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAAN16: Notice on Recommendations on Investment Products).

Taiwan

The Units have not and will not be registered with the Financial Supervisory Commission of Taiwan pursuant to relevant securities laws and regulations and may not be sold, issued, offered or distributed within Taiwan through a public offering or in circumstances which constitutes an offer within the meaning of the Securities and Exchange Act of Taiwan that requires a registration or approval of the Financial Supervisory Commission of Taiwan. No person or entity in Taiwan has been authorized to offer, sell, give advice regarding or otherwise intermediate the offering, sale and distribution of the Units in Taiwan.

United Arab Emirates (excluding the Dubai International Financial Centre)

This document does not constitute or contain an offer and distribution of securities/ units to the general public in the United Arab Emirates ("**UAE**"). No offering, marketing, promotion, advertising or distribution (together, "**Promotion**") of this document or the Units may be made to the general public in the UAE unless: (a) such Promotion has been approved by the UAE Securities and Commodities Authority (the "**SCA**") and is made in accordance with the laws and regulations of the UAE, including SCA Board of Directors' Chairman Decision no. (3/R.M.) of 2017 (the "**Promotion and Introduction Regulations**"), and is made by an entity duly licensed to conduct such Promotion activities in the UAE; or (b) such Promotion is conducted by way of private placement made: (i) only to non-natural persons "Qualified Investors" (as such term is defined in the Promotion and Introduction Regulations); or (ii) otherwise in accordance with the laws and regulations of the UAE; or (c) such Promotion is carried out by way of reverse solicitation only upon an initiative made in writing by an investor in the UAE. None of the SCA, the UAE Central Bank, the UAE Ministry of Economy or any other regulatory authority in the UAE has reviewed or approved the contents of this document nor does any such entity accept any liability for the contents of this document.

United Kingdom

The Placement Memorandum is only directed at, and will only be provided to, persons to whom interests may lawfully be promoted pursuant to section 21 of the Financial Services and Markets Act 2000 (the "**FSMA**"). In particular, this Placement Memorandum is only directed at, and will only be provided to, investment professionals ("**Relevant Persons**") within the meaning of article 19 of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 ("**FPO**"). Any investment or investment activity to which the Placement Memorandum relates is available only to Relevant Persons and dealings hereunder will be made only with Relevant Persons. Persons who are not investment professionals within the meaning of article 19 of the FPO should not rely on the Placement Memorandum.

The Placement Memorandum has not been delivered for approval to the United Kingdom Financial Conduct Authority in the United Kingdom or to an authorized person within the meaning of the FSMA. No approved prospectus within the meaning of section 85 of the FSMA or of the Prospectus Regulation has been published or is intended to be published in relation to the Offer. The Placement Memorandum does not constitute a prospectus for the purposes of the FSMA or the Prospectus Regulation.

United States of America

Each purchaser/ Eligible Creditor acknowledges and represents that:

i. it understands and agrees that the Units have not been and will not be registered under the U.S. Securities Act or with any securities regulatory authority of any state, territory or other jurisdiction of the United States and may not be offered, resold, pledged or otherwise transferred, except (1) in an offshore transaction

complying with Rule 903 or Rule 904 of Regulation S, (2) pursuant to an exemption from the registration requirements of the U.S. Securities Act, or (3) pursuant to an effective registration statement under the U.S. Securities Act and (4) in accordance with all applicable securities laws of any state, territory or other jurisdiction of the United States;

ii. it understands that in the event Units are held in certificated form, such certificated Units will bear a legend substantially to the following effect:

"THE SECURITY EVIDENCED HEREBY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "U.S. **SECURITIES ACT**"), ANY STATE SECURITIES LAWS IN THE UNITED STATES OR THE SECURITIES LAWS OF ANY OTHER JURISDICTION AND MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, EXCEPT: (A) IN AN OFFSHORE TRANSACTION IN ACCORDANCE WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE U.S. SECURITIES ACT; (B) PURSUANT TO AN EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT; OR (C) PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE U.S. SECURITIES ACT, IN EACH CASE IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES. NO REPRESENTATION CAN BE MADE AS TO THE AVAILABILITY OF THE EXEMPTION PROVIDED UNDER THE U.S. SECURITIES ACT FOR RESALES OF THIS SECURITY.";

iii. any resale made other than in compliance with the above stated restrictions shall not be recognised by the InvIT;

iv. it agrees that it will give to each person to whom it transfers Units notice of any restrictions on transfer of such Units; and

v. it acknowledges that the InvIT, the Sponsor and the Placement Agent and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that, if any of such acknowledgements, representations or agreements deemed to have been made by virtue of its purchase of Units are no longer accurate, it will promptly notify the InvIT, the Sponsor and the Placement Agent, and if it is acquiring any Units as a fiduciary or agent for one or more accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such account.

Other Jurisdictions

The distribution of this Placement Memorandum and the distribution of the Units may be restricted by law in certain jurisdictions. Persons into whose possession this Placement Memorandum comes are required to inform themselves about, and to observe, any such restrictions to the extent applicable.

RIGHTS OF UNITHOLDERS

The rights and interests of Unitholders are included in this Placement Memorandum and the InvIT Regulations. Under the Trust Deed and the Investment Management Agreement, these rights and interests are safeguarded by the Trustee and the Investment Manager, respectively. Any rights and interests of Unitholders as specified in this Placement Memorandum would be deemed to be amended to the extent of any amendment to the InvIT Regulations.

Beneficial Interest

Each Unit represents an undivided beneficial interest in the Trust. A Unitholder has no equitable or proprietary interest in the InvIT Assets and is not entitled to transfer of the InvIT Assets (or any part thereof) or any interest in the InvIT Assets (or any part thereof) of the Trust. A Unitholder's right is limited to the right to require due administration of the Trust in accordance with the provisions of the Trust Deed and the Investment Management Agreement.

Ranking

No Unitholder of the Trust shall enjoy superior voting or any other rights over another Unitholder. Further, the Units shall not have multiple classes, except for any subordinate Units that may be issued only to the Sponsor and their Associates, where such subordinate units carry only inferior voting or any other rights compared to other Units in the future in accordance with Regulation 4(2)(h) of the InvIT Regulations.

Redressal of grievances

The Investment Manager shall ensure adequate and timely redressal of all Unitholders' grievances pertaining to the activities of the Trust, and the Trustee shall periodically review the status of Unitholders' complaints and their redressal undertaken by the Investment Manager. The Stakeholders' Relationship Committee of the Investment Manager shall monitor the status of complaints and their redressal, and maintain records of grievances and actions taken for the same. For details, please see the section "*Corporate Governance*" on page 138.

Distribution

The Unitholders shall have the right to receive distribution in accordance with the InvIT Regulations, the Distribution Policy and in the manner provided in this Placement Memorandum. For details, please see the section "*Distribution*" on page 288.

Nominee Directors

Unitholder(s), holding not less than 10.00% of the total outstanding Units, either individually or collectively, shall be entitled to nominate one director on the board of directors of the Investment Manager. In this regard, we shall undertake the relevant actions in due course in accordance with the SEBI Circular dated September 11, 2023 entitled "SEBI/HO/DDHS-PoD-2/P/CIR/2023/153" and the InvIT Regulations. We have also adopted the Policy on Unitholder Nominee Directors on January 25, 2024, and such policy has been uploaded on the website of the Investment Manager. For details, please see the section "*Corporate Governance*" on page 138.

Meeting of Unitholders

Meetings of Unitholders will be conducted in accordance with the InvIT Regulations.

Passing of resolutions

1. With respect to any matter requiring approval of the Unitholders:

(i) a resolution shall be considered as passed when the votes cast by Unitholders, so entitled and voting, in favour of the resolution exceed a certain percentage as specified in the InvIT Regulations, of votes cast against;

(ii) the voting may be done by postal ballot or electronic mode;

(iii) a notice of not less than 21 (twenty one) days shall be provided to the Unitholders;

(iv) voting by any person who is a related party in such transaction, as well as associates of such person(s) shall not be considered on the specific issue; and

(v) the Investment Manager shall be responsible for all the activities pertaining to conducting of meeting of the Unitholder, subject to oversight by the Trustee.

However, for issues pertaining to the Investment Manager, including a change in Investment Manager, removal of Investment Manager or change in control of Investment Manager; the Trustee shall convene and handle all activities pertaining to conduct of the meetings. Additionally, for issues pertaining to the Trustee, including change in Trustee, the Trustee shall not be involved in any manner in the conduct of the meeting.

2. For the Trust:

(i) an annual meeting of all Unitholders shall be held not less than once a year within 120 days from the end of each financial year and the time between two meetings shall not exceed 15 months;

(ii) with respect to the annual meeting of Unitholders,

(a) any information that is required to be disclosed to the Unitholders and any issue that, in the ordinary course of business, may require approval of the Unitholders may be taken up in the meeting including:

- latest annual accounts and performance of the Trust;
- approval of auditors and fee of such auditors, as may be required;
- latest valuation reports;
- appointment of valuer, as may be required; and
- any other issue;

(b) for any issue taken up in such meetings which require approval from the Unitholders other than as specified in Regulation 22(6) of the InvIT Regulations and paragraph 4 below, votes cast in favour of the resolution shall be more than the votes cast against the resolution.

3. In case of the following, approval from the Unitholders shall be required where the votes cast in favour of the resolution shall be more than the votes cast against the resolution:

(i) any approval from the Unitholders required in terms of Regulation 18 (*Investment conditions and dividend policy)*, Regulation 19 (*Related Party Transactions*) and Regulation 21 *(Valuation of assets*) of the InvIT Regulations;

(ii) any borrowings, in excess of the limits specified under Regulation 20(2) of the InvIT Regulations;

(iii) any transaction, other than any borrowing, the value of which is equal to or greater than 25% (twenty five per cent) of the InvIT Assets;

(iv) increasing period for compliance with investment conditions to one year in accordance with Regulation 18(5)(c) of the InvIT Regulations;

(v) any issue, in the ordinary course of business, which in the opinion of the Sponsor or the Trustee or the Investment Manager, is material and requires approval of the Unitholders, if any;

(vi) any issue for which SEBI or the stock exchanges requires approval; and

(vii) de-classification of the status of Sponsor.

4. In case of the following, approval from the Unitholders shall be required where the votes cast in favour of the resolution shall not be less than one and a half times the votes cast against the resolution:

(i) any change in Investment Manager including removal of the Investment Manager or change in control of the Investment Manager;

(ii) the Trustee and Investment Manager proposing to seek delisting of units of the Trust under clause (e) of sub-regulation (1) of regulation 17 of the InvIT Regulations;

(iii) any issue, not in the ordinary course of business, which in the opinion of the Sponsor or Investment Manager or Trustee requires approval of the Unitholders;

(iv) any material change in investment strategy or any change in the management fees of the Trust;

(v) any issue for which SEBI or the designated stock exchanges require approval;

(vi) any issue taken up on request of the Unitholders including:

(a) removal of the Investment Manager and appointment of another investment manager to the Trust;

(b) removal of the Auditors and appointment of another auditors to the Trust;

(c) removal of the Valuer and appointment of another valuer to the Trust;

(d) any issue which the Unitholders have sufficient reason to believe that is detrimental to the interest of the Unitholders;

(e) change in the Trustee, if Unitholders have sufficient reason to believe that acts of the Trustee are detrimental to the interest of Unitholders; and

(f) delisting of the Trust, if the Unitholders have sufficient reason to believe that such delisting would act in the interest of the Unitholders

With respect to the rights of the Unitholders under clause 4(vi) above:

(i) not less than 25% of the Unitholders by value, other than any party related to the transactions and its associates, shall apply, in writing, to the Trustee for the purpose;

(ii) on receipt of such application, the Trustee shall require, with the Investment Manager to place the issue for voting in the manner as specified in the InvIT Regulations;

(iii) with respect to clause 4(iv)(e) above, not less than 60% of the Unitholders by value shall apply, in writing, to the Trustee for the purpose.

5. In case of the following, approval from 75% of Unitholders by value shall be required:

(i) In case of any borrowing by the Trust in terms of limit specified in clause (b) of sub-regulation 3 of Regulation 20 of the InvIT Regulations;

(ii) In case that any person other than the Sponsor, its related parties and its associates, acquires Units of the Trust, which taken together with Units held by such person and by persons acting in concert with such persons in the Trust, exceeds 25% of the value of the outstanding Units of the Trust (value of Units held by parties related to the transaction shall not be considered for this specific purpose);

Provided that if the required approval is not received, the person acquiring the Units shall provide an exit option to the dissenting Unitholders to the extent and in the manner as may be specified by SEBI;

(iii) Prior to any change in Sponsor or inducted sponsor or change in control of Sponsor or inducted sponsor (value of Units held by parties related to the transaction shall not be considered for this specific purpose).

If the required approval is not received:

a. in case of change in Sponsor or inducted sponsor, the proposed inducted sponsor shall provide the dissenting Unitholders an option to exit by buying their units in the manner specified by SEBI; and

b. in case of change in control of the Sponsor or inducted sponsor, the said Sponsor or inducted sponsor shall provide the dissenting Unitholders an option to exit by buying their Units in the manner specified by SEBI.

Information rights

The Investment Manager, on behalf of the Trust, shall also submit such information to the Stock Exchanges and Unitholders, on a periodical basis as may be required under the InvIT Regulations and the Listing Agreement entered into with the Stock Exchange. The Investment Manager (on behalf of the Trust) shall disclose to the Stock Exchange, Unitholders and SEBI, all such information and in such manner as specified under the InvIT Regulations and such other requirements as may be specified by SEBI. The Investment Manager, on behalf of the Trust, shall also provide disclosures or reports specific to the sector or sub-sector in which the Trust has invested or proposes to invest, in the manner as may be specified by SEBI.

Dispute Resolution

All claims, differences or disputes between the Unitholders and the Investment Manager arising out of or in relation to the activities of the Investment Manager in the securities market shall be submitted to a resolution mechanism that includes mediation and/or conciliation and/or arbitration, in accordance with the procedure specified by SEBI pursuant to the Master Circular for Online Resolution of Disputes in the Indian Securities Market dated July 31, 2023 issued by the SEBI and bearing reference number SEBI/HO/OIAE/OIAE_IAD-1/P/CIR/2023/145, as amended.

No loss or damage or expenses incurred by the Investment Manager or officers of the Investment Manager, including those in relation to resolution of claims or disputes of unitholders, shall be met out of the trust property.

The Investment Manager shall redress investor grievances within the timelines specified under the InvIT Regulations in the manner as specified by SEBI.

Buy-back, Listing and Delisting of Units

Any buy-back, listing or delisting of Units, shall be in accordance with the Trust Deed and the InvIT Regulations.

DILUTION

Dilution is the amount by which the Unit Value exceeds the net asset value ("**NAV**") per Unit, immediately after the completion of this Unit Distribution. NAV per Unit is determined by subtracting the total liabilities of the Trust from the total assets of the Trust and dividing by the number of Units issued and outstanding immediately before this Unit Distribution. There was no *pro forma* NAV before this Unit Distribution for the Units.

The Trust will distribute up to 455,477,143 Units valued at ₹100 for each Unit, resulting in a combined NAV of the Trust of approximately ₹ [●] million or ₹ [●] per Unit based on the total number of Units outstanding after the completion of this Unit Distribution. This represents an immediate dilution in combined NAV of approximately ₹ [●] per Unit to the Sponsor and an immediate dilution in combined NAV of approximately ₹ [●] per Unit to other Unitholders, receiving Units in this Unit Distribution.

The following provides the per Unit dilution as on [●]:

Combined NAV per Unit before this Unit Distribution	₹ [●]
Combined NAV per Unit after this Unit Distribution	₹ [●]
Dilution in NAV per Unit to the Sponsor attributable to the Sponsor	[●]
Dilution in NAV per Unit to Unitholders (other than the Sponsor)	[●]
Dilution to Unitholders (other than the Sponsor)	[●]

* *To be updated in Final Placement Memorandum prior to filing with SEBI and the Stock Exchanges.*

UNIT DISTRIBUTION BACKGROUND

A. Resolution Process

The Union of India, acting through the MCA, had filed a company petition under Sections 241 and 242 of the Companies Act, 2013 against IL&FS Group entities before the NCLT, Mumbai Bench ("**NCLT**") on the grounds of, among others, that the affairs of the IL&FS Group entities were being conducted in a manner prejudicial to public interest. Subsequently, the NCLT directed suspension of the then existing board of directors of IL&FS and constitution of a new board of directors of IL&FS comprising the nominees of the MCA (the "**New Board**"). The New Board undertook various steps for implementing a fair and orderly resolution of the outstanding debt of the IL&FS Group entities with a view to maximize value and balance various stakeholder interests.

The New Board also submitted a report titled "*Report on Progress and Way Forward*" dated October 30, 2018, to the MCA setting out, *inter alia*, the various options for the resolution of a certain portion of the debt of the IL&FS Group entities and the indicative way forward. Accordingly, an asset monetization process was initiated in December 2018 which included 14 operating assets owned by ITNL. On August 30, 2019, ITNL received bids for 10 such operating assets. However, bids wherein the highest bid price was higher than the average fair market value, as computed by an independent valuer, were received for only 4 out of the 10 operating assets. The New Board, in conjunction with its independent advisors, decided to proceed with the divestment process for such assets.

Therefore, for the remaining assets, the New Board proposed the setting up of an InvIT under the InvIT Regulations and other applicable laws. Accordingly, this proposal was identified by the New Board which in turn was filed by the MCA with the NCLAT vide an affidavit dated January 9, 2020, and was reiterated *vide* an affidavit filed by the MCA with the NCLAT on February 7, 2020. Subsequently, the NCLAT, has approved in entirety the resolution procedure for the IL&FS Group entities set out by the MCA in its affidavits, vide its order and judgment dated March 12, 2020 (the "**March 2020 Order**").

Accordingly, the proposal for the formation of the InvIT was tabled for the consideration of the committee of creditors of ITNL ("**ITNL COC**") and a meeting of the ITNL COC was held on June 15, 2020 ("**First COC Meeting**"). The e-voting, seeking in-principle approval on the InvIT structure, commenced on June 23, 2020, and was completed on July 11, 2020. A majority of the members of the ITNL COC voted in favor of the InvIT structure.

A subsequent meeting of the ITNL COC was held on November 20, 2020 (the "**Second COC Meeting")** wherein the proposal of the InvIT was explained to the ITNL COC in detail. Post the Second COC Meeting, a detailed note relating to the InvIT proposal was shared with the members of the ITNL COC on November 27, 2020, providing a detailed update on, *inter alia*, the status of resolution of ITNL (including the various modes of resolution) and mechanism for computation of the Units that are proposed to be issued by the InvIT to ITNL.

Additionally, as part of the voting pursuant to the Second COC Meeting, which voting commenced on December 4, 2020, the ITNL COC, *inter alia*, assented to the final approval for the structure and implementation of the proposed InvIT by the Trust.

In parallel to the abovementioned, an application was filed before Hon'ble (Justice) D.K. Jain on July 16, 2020, which was further supplemented vide a supplementary memorandum dated August 8, 2020. Pursuant to such applications, Hon'ble (Justice) D.K. Jain vide letter dated September 5, 2020, inter alia, approved the setting up of the proposed InvIT.

B. Formation of the InvIT

Consequently, the Trust, as sponsored by the Sponsor, was established with the objective of owning, operating and investing in infrastructure projects in India, directly or indirectly. In-principle approval was received from SEBI for registration of the InvIT under the InvIT Regulations on September 2, 2020, and subsequently, the Trust was granted registration as an InvIT by the SEBI by way of a registration certificate bearing no. IN/InvIT/20-21/0015 on December

22, 2020.

C. Approval from the Competition Commission of India and the NCLT

Further, as per the requirements contemplated under the Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations, 2011, as amended, the Sponsor (on behalf of the Trust) and the creditors of the IL&FS Group entities had filed a notification in Form-I under the 'Green Channel' route notification with the CCI on January 20, 2021. Prior to making this filing, the parties had attended pre-filing consultations with officers of the CCI on April 27, 2020, August 25, 2020, September 2, 2020 and January 6, 2021, to confirm the satisfaction of the 'Green Channel' criteria and other filing requirements. Consequently, the CCI issued an acknowledgment of such filing on January 20, 2021, pursuant to which the transaction had been deemed to be approved by the CCI as of January 20, 2021.

Subsequently, by way of its order dated September 15, 2021, the NCLT, inter alia, approved the implementation of the Trust.

D. Current Status

Currently, the Trust has completed the acquisition of Hazaribagh Ranchi Expressway Limited, Moradabad Bareilly Expressway Limited, Pune Sholapur Road Development Company Limited, Sikar Bikaner Highway Limited, Thiruvananthapuram Road Development Company Limited and Barwa Adda Expressway Limited and has issued Units of the Trust to IL&FS Transportation Networks Limited and certain IL&FS Group entities, namely, Infrastructure Leasing & Financial Services Limited, IL&FS Cluster Development Initiative Limited, IL&FS Airports Limited, IL&FS Financial Services Limited, and Sabarmati Capital One Limited, against the sale of shares and assignment of debt owed by such Project SPVs to the respective IL&FS Group entities, which Units are further proposed to be distributed by way of the Unit Distribution, to the Eligible Creditors in terms of the Resolution Framework, setting out the details and manner of interim distribution of, among other assets, the Units issued by the Trust as may be approved by the NCLT and/or any other appropriate judicial authority (such plan, the "**Distribution Plan**").

Further, the proposed Unit Distribution does not involve any fund raising and is being undertaken with the sole objective of debt resolution. Considering the foregoing and in the interest of the resolution of the debt provided by the Eligible Creditors to the IL&FS Unitholders, SEBI, in furtherance of the March 2020 Order and orders passed by the NCLAT approving the Interim Distribution Framework, has in the past by way of its letters dated September 2, 2020, December 3, 2021, June 23, 2022 and June 7, 2023, granted exemptions from compliance with certain provisions of the InvIT Regulations, for, inter alia, the purposes of registration of the Trust.

Pursuant to the receipt of registration by the Trust and in terms of the March 2020 Order approving the Resolution Framework, the Investment Manager undertook steps towards the timely completion of the acquisition of special purpose vehicles and towards the completion of the Unit Distribution. However, the process got delayed due to various factors, such as (i) the delay in receipt of sanction of debt restructuring from lenders of certain special purpose vehicles, (ii) delays in receipt of certain necessary approvals from relevant judicial authorities, and (iii) the COVID-19 global pandemic. Hence, despite its best efforts, the Trust was unable to complete the Unit Distribution within a period of 3 years from the date of its registration. Subsequently, pursuant to a requests for extension addressed by the Trust to SEBI, SEBI has extended the validity of the registration of the Trust till March 31, 2025. Subsequently, by way of letter for exemption dated March 12, 2024, the Trust has sought, and SEBI by way of its letter dated March 20, 2024, has granted, certain exemptions from compliance with specific provisions of the InvIT Regulations and the Master Circular, for the purposes of completion of this Unit Distribution.

E. Distribution

As indicated above, it is contemplated that the Units allotted to (and currently held by) the IL&FS Group entities as consideration of the transfer of their respective interests in the Project SPVs would be distributed to the creditors of such IL&FS Group entities. For further details, please see the section "*Formation Transactions in Relation to the*

Trust" and "*Unit Distribution Procedure and Information*" on pages 26 and 392, respectively.

While the intention of the Unit Distribution is to ensure that external creditors (i.e., non-IL&FS Group entities) receive Units from the IL&FS Group entities as part of the Resolution Framework, in certain cases, the creditors of the IL&FS Unitholders are actually other IL&FS Group entities themselves ("**Intragroup Creditors**").

Considering that the second proviso to Regulation 12(3) of the InvIT Regulations specifies that any units held by the sponsor and sponsor group members in excess of 15.00% shall be held for a period of not less than one year from the date of listing of the units, the Units held by the Intragroup Creditors (being part of the Sponsor Group) would be incapable of being distributed to their respective external creditors (i.e., non-IL&FS Group entities) for the entirety of such period. Accordingly, the objective of distributing the Units to external creditors would not be achieved. Accordingly, a preliminary distribution ("**Preliminary Distribution**") was implemented in terms of the exemption granted by SEBI by way of its letter dated March 20, 2024.

UNIT DISTRIBUTION PROCEDURE AND INFORMATION

Please see below a summary, intended to provide a general outline of the procedures for the Allocation and Allotment of the Units to Eligible Creditors pursuant to the Unit Distribution.

Eligible Creditors are advised to inform themselves of any restrictions or limitations that may be applicable to them under applicable law to which they are subject and should consult their respective advisors in this regard. Eligible Creditors will be required to confirm, and will be deemed to have represented, to the Trustee, the Investment Manager, the Placement Agent, the Distributing Unitholders and their respective directors, officers, agent, affiliates and representatives, that they are eligible under all applicable laws, rules, regulations, guidelines and approvals to receive the Units. The Investment Manager, the Sponsors, the Distributing Unitholders and the Placement Agent and their respective directors, officers, agent, affiliates and representatives accept no responsibility or liability for advising any Eligible Creditor on whether such Eligible Creditor is eligible to receive the Units.

Authority for the Unit Distribution

The Trust is undertaking this Unit Distribution in accordance with Regulation 14(2) of the InvIT Regulations and pursuant to the Resolution Framework, subject to certain exemptions granted by SEBI. The Unit Distribution was authorised and approved by the IM Board on April 2, 2024. This Placement Memorandum has been approved by the IM Board on February 11, 2025.

The Trust has received the in-principle approvals of NSE and BSE for the listing of the Units on NSE and BSE respectively pursuant to the letters each dated July 22, 2024. The validity of the in-principle approval of NSE has been extended by way of letters dated October 28, 2024 and February 10, 2025. The validity of the in-principle approval of BSE has been extended by way of letters dated November 7, 2024 and February 10, 2025. The Investment Manager has filed a copy of the Draft Placement Memorandum and this Placement Memorandum and will file a copy of the Final Placement Memorandum, with SEBI and the Stock Exchanges, in compliance with the provisions of the InvIT Regulations.

Neither the Trust, Trustee, Project Manager, Investment Manager or any of its directors have been declared as 'Fraudulent Borrowers' by the lending banks or financial institution or consortium, in terms of RBI master circular dated July 1, 2016, as amended.

The Units have not been, and will not be, registered, listed or otherwise qualified in any jurisdiction outside India and may not be distributed, and Unit Distribution may not be made to persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Eligible Creditors should note that Allotment will only be in the dematerialized form. Eligible Creditors will not have the option of receiving Allotment in physical form. On Allotment, the Units will be traded only on the dematerialized segment of the Stock Exchanges.

Unit Distribution Information

Minimum offer size requirements

Exemption from strict enforcement of Regulation 14(1)(c) of the InvIT Regulations, with reference to requirement of the minimum issue size of an initial offer of units has been granted by SEBI way of its letter dated March 20, 2024. Accordingly, minimum issue size requirements as stipulated under Regulation 14(1)(c) of the InvIT Regulations are not applicable to this Unit Distribution. The Units will be distributed to the Eligible Creditors based on a predetermined formula as per the manner of distribution of proceeds revised by the New Board ("**Revised Distribution Framework**") in accordance with (and for the reasons set out in) the "*Second Addendum to the Third Progress Report*" dated December 5, 2019, with no actual subscription or investment by the Eligible Creditors. For details in relation to the process of this Unit Distribution, see "*Unit Distribution Procedure and Information - Process of Allotment and Allocation of Units*" and "*Unit Distribution Procedure and Information - Timelines for Allotment and Listing of Units*" on page 395.

Minimum investment requirements

Exemption from strict enforcement of Regulation 14(2)(c) of the InvIT Regulations, with reference to requirement of the minimum investment from any investor has been granted by SEBI way of its letter dated March 20, 2024. Considering the unique nature of the current Unit Distribution and taking into account that no actual investment is being made in the Trust and only Units are being distributed to Eligible Creditors, minimum investment requirements are not applicable to this Unit Distribution. For details in relation to the process of this Unit Distribution, see "*Unit Distribution Procedure and Information – Process of Allotment and Allocation of Units*" on page 395.

Sponsor and Sponsor Group lock-in

Exemption from strict enforcement of Regulation 12(3A) of the InvIT Regulations, with reference to the minimum holding requirement of Units as a percentage of total outstanding units by the Sponsor and Sponsor Group entities for the specified periods of time, has been granted SEBI by way of its letter dated March 20, 2024. Accordingly, the Sponsor is only required hold the mandatory unitholding, being not less than 15.00% of post distribution unit capital, post the Unit Distribution, as contemplated under Regulation 12(3) of the InvIT Regulations for a period of 3 years from the date of listing and accordingly, minimum unitholding by the Sponsor and Sponsor Group on a staggered scale is not applicable to the Sponsor and the Sponsor Group. The Sponsor currently holds no Units in the Trust and will be distributing Units as part of the Unit Distribution to comply with the aforestated lock-in requirements.

Pursuant to the IL&FS Interim Distribution SOP as approved by the board of directors of IL&FS in its meeting held on May 15, 2024, IL&FS and ITNL will continue to hold 31,593,908 Units after the Unit Distribution which will be held by them for a period of one year from the date of Unit Distribution in accordance with Regulation 12(3) of the InvIT Regulations. These Units correspond to the recovery amount for contingent claims that are either 'admitted contingent claims' or 'contingent claims that are neither admitted nor rejected and under appeal/adjudication at various fora'. These Units will be locked in with IL&FS and ITNL for a period of at least one year from the date of listing of Units or until such time as the claims either crystallize into a debt requiring satisfaction through distribution of Units or are discharged / extinguished (as applicable). Post such time period, the board of IL&FS, in consultation with the Investment Manager, GT and A&M, will decide the treatment of any remaining Units. The Units which remain unallocated post finalisation of the contingent claims shall form part of pool of Units used for settlement of other creditors of the IL&FS Group which will be kept in separate demat accounts which will be controlled by the Investment Manager and will be released after a one year lock-in period, in consultation with SEBI. Prior to filing the Final Placement Memorandum, the Investment Manager shall enter into letter arrangements with IL&FS and ITNL for being a joint signatory to the demat accounts where such Units will be kept in relation to contingent claims. Under no circumstance such Units would be held in a beneficial interest capacity by any of the IL&FS entities.
See "*Information Concerning the Units*" on page 272.

Preliminary distribution

The Units allotted to (and currently held by) the IL&FS Group as consideration of the transfer of their respective interests in the Project SPVs to the Trust were distributed to the Eligible Creditors of such IL&FS Group entities as per the Resolution Framework.

While the intention of the Unit Distribution is to ensure that Eligible Creditors (i.e., non-IL&FS Group entities) receive Units from the IL&FS Group entities as part of the Resolution Framework, in certain cases, the creditors of the IL&FS Unitholders are actually other IL&FS Group entities themselves ("**Intragroup Creditors**"). To prevent a situation where in the Units held by the relevant IL&FS Unitholders would be distributed to (and held by) Intragroup Creditors even after the Unit Distribution, a preliminary distribution of such Units to the Intragroup Creditors was undertaken. The details of the Preliminary Distribution are set forth below:

The unitholding of the IL&FS Group entities that currently hold Units ("**IL&FS Unitholders**"), before and after the Preliminary Distribution is set out below:

S. No.	Name of Entity	Pre-Preliminary Distribution		Post Preliminary Distribution	
		No. of units held *	% of holding	No. of units held	% of holding
1.	IL&FS Transportation Networks Limited	259,230,728	56.91	219,993,908	48.30
2.	IL&FS	89,114,264	19.57	124,870,622	27.42
3.	Sabarmati Capital One Limited	14,160,483	3.11	2,000,000	0.44
4.	IL&FS Financial Services Limited	72,621,899	15.94	108,535,475	23.83
5.	IL&FS Airports Limited*	2,663,185	0.58	-	-
6.	IL&FS Cluster Development Initiative Limited*	17,609,446	3.87	-	-

* *Pursuant to the Preliminary Unit Distribution, these entities have divested their unitholding in the Trust and hence are no longer participating in the Unit Distribution.*

The Units distributed to the Intragroup Creditors pursuant to the Preliminary Distribution are, in turn, distributed in terms of the Resolution Framework to their external creditors (i.e., non-IL&FS Group entities) pursuant to the Unit Distribution.

In this regard exemption from strict enforcement (i) of second proviso of Regulation 12(3) of the InvIT Regulations, with reference to requirement of holding of Units in excess of the minimum 15% of the Units for one year to allow the Preliminary Distribution to the Intragroup Creditors and subsequently to the Eligible Creditors; and (ii) of Regulation 16(10) of the InvIT Regulations, with reference to requirement of Units to be held by persons other than the Sponsor Group for one year from the date of listing has been granted by SEBI by way of its letter dated March 20, 2024.

Pursuant to the IL&FS Interim Distribution SOP as approved by the board of directors of IL&FS in its meeting held on May 15, 2024, IL&FS and ITNL will continue to hold 31,593,908 Units after the Unit Distribution which will be held by them for a period of one year from the date of Unit Distribution in accordance with Regulation 12(3) of the InvIT Regulations. These Units correspond to the recovery amount for either 'admitted contingent claims' or 'contingent claims that are neither admitted nor rejected and under appeal/adjudication at various fora'. These Units will be locked in with IL&FS and ITNL for a period of at least one year from the date of listing of Units or until such time as the claims either crystallize into a debt requiring satisfaction through distribution of Units or are discharged / extinguished (as applicable). Post such time period, the board of IL&FS, in consultation with the Investment Manager, GT and A&M, will decide the treatment of any remaining Units. The Units which remain unallocated post finalisation of the contingent claims shall form part of pool of Units used for settlement of other creditors of the IL&FS Group which will be kept in separate demat accounts which will be controlled by the Investment Manager and will be released after a one year lock-in period, in consultation with SEBI. Prior to filing the Final Placement Memorandum, the Investment Manager shall enter into letter arrangements with IL&FS and ITNL for being a joint signatory to the demat accounts where such Units will be kept in relation to contingent claims. Under no circumstance such Units would be held in a beneficial interest capacity by any of the IL&FS entities.

The Resolution Framework, *inter alia*, contemplates that the proceeds of resolution received by any IL&FS Group entity can only be distributed in accordance with the Revised Distribution Framework which was approved by way of the March 12 Order. The March 12 Order also provides for October 15, 2018 to be 'cut-off date' and only those liabilities existing as of that date be admitted by the claims management advisor i.e. GT and consequently form part of the overall pool of creditors.

Further, the amount distributable to each class of creditors, including for those to whom the Unit Distribution will be made, will be computed by the resolution consultant i.e. A&M in accordance with the Revised Distribution Framework. The March 12 Order also grants power to the board of IL&FS to suitably modify the distribution framework with respect to the Unit Distribution, considering various factors such as existing contractual arrangements, jurisdictional issues, regulatory requirements, and cost-benefit analysis.

Accordingly, GT shall update the report on the revised claim amount which is due to creditors as of cut-off date considering the changes i.e. payouts post October 15, 2018 ('**Cut-off Date**'), crystallisation of liabilities, contingent claims etc. and review treatment of auto debits occurred and review of the same post Cut-off Date. The revised report shall be shared with A&M and the board of directors of IL&FS. A&M shall prepare calculations for the proposed Unit Distribution to the Eligible Creditors in accordance with the Revised Distribution Framework and the calculations shall be validated by GT.

Process of Allotment and Allocation of Units

Considering the unique nature of the current Unit Distribution and taking into account that no actual investment is being made in the InvIT and only Units are being distributed to Eligible Creditors, the following steps will be undertaken for the purposes of completion of the Unit Distribution:

S. No.	Steps for Unit Distribution*
1.	Filing of Draft Placement Memorandum with SEBI;
2.	Seeking in-principle approval from the Stock Exchanges;
3.	Receipt of Stock Exchanges comments on the Draft Placement Memorandum and granting of the in-principle approvals;
4.	Receipt of SEBI comments on the Draft Placement Memorandum and subsequently filing of an updated draft placement memorandum with SEBI;
5.	Identification of the Eligible Creditors to whom the Units will be distributed in terms of the Unit Distribution, in accordance with the Resolution Framework as approved by March 2020 Order, and the interim distribution as approved by the orders passed by the NCLAT from time to time order will be undertaken by a duly appointed intermediary on or prior to filing of the Placement Memorandum. See "*The Unit Distribution*" on page 19 for details of the identified Eligible Creditors.
6.	Filing of the Placement Memorandum with SEBI – the Placement Memorandum will be filed not less than 5 days prior to the allocation of Units to Eligible Creditors, instead of five days prior to the opening of the issue as required in terms of Regulation 14(2) of the InvIT Regulations;
7.	Allocation of Units to the Eligible Creditors;
8.	Finalization of the Final Placement Memorandum and circulation of the Final Placement Memorandum along with an intimation letter/e-mail to the Eligible Creditors as per the allotment determined; and
9.	Allotment and Unit Distribution to be completed within a period which is not less than 30 days from the filing of the Placement Memorandum.

**The Trust is permitted to undertake the allotment and listing of Units in accordance with framework mentioned above, the Revised Distribution Framework and the Distribution Plan approved by the NCLAT by the SEBI by way of its letter dated March 20, 2024.*

Timelines for Allotment and Listing of Units

Exemption from strict enforcement of paragraph 15.1 of the InvIT Master Circular, with reference to requirement of listing of Units within six working days from the closure of the issue has been granted by SEBI way of its letter dated March 20, 2024. Considering the unique nature of the current Unit Distribution, there will be no opening and closing of issue, also see "*The Unit Distribution*" on page 19 in this regard.

The Allotment and Unit Distribution shall be completed within a period which is not less than 30 days from the filing of this Placement Memorandum. Thereafter, the Investment Manager shall make the requisite applications for listing of the Units on the Stock Exchanges.

An indicative series of steps to be undertaken from the date of allocation of Units have been provided below:

S. No.	Details of Activities	Due Dates*
1.	Filing of the Placement Memorandum with SEBI – the Placement Memorandum will be filed not less than 5 days prior to the allocation of Units to Eligible Creditors, instead of five days prior to the opening of the issue as required in terms of Regulation 14(2) of the InvIT Regulations;	Tuesday, February 11, 2025
2.	Board meeting for approval of Allocation of Units	On or about Wednesday, February 19, 2025
3.	Finalization of the Final Placement Memorandum and circulation of the Final Placement Memorandum along with an intimation letter/e-mail to the Eligible Creditors as per the allotment determined	On or about Monday, March 3, 2025
4.	Allotment of Units	On or about Tuesday, March 4, 2025
5.	Investment manager on behalf of the Trust and the relevant IL&FS Group Entities to initiate corporate action for credit of units of the Trust to the demat account of the Eligible Creditors in the private placement.	On or about Tuesday, March 4, 2025
6.	Receipt of confirmation by Investment Manager from depositories for credit of Units in demat accounts the Eligible Creditors in the private placement, and lock-in of units to the extent applicable.	On or about Wednesday, March 5, 2025
7.	Post successful allotment, Investment Manager on behalf of Trust shall make listing application to stock exchange(s) for listing and trading permission	On or about Thursday, March 6, 2025
8.	Stock exchange(s) to issue notice for listing and commencement of trading.	On or about Thursday, March 6, 2025
9.	Stock exchange to send the notice to depositories in order to change the status of ISIN to active.	On or about Thursday, March 6, 2025
10.	Trading commences	On or about Friday, March 7, 2025

** Timelines are indicative and subject to change.*

Additional Procedures in relation to the Unit Distribution

1. GT, shall electronically circulate serially numbered copies of this Placement Memorandum to Eligible Creditors, along with an intimation letter/e-mail which will include the details of the Eligible Creditors' claim, recovery amount and demat account details. The list of Eligible Creditors to whom the serially numbered copies of this Placement Memorandum will be circulated, shall be determined by the Investment Manager, and the board of directors of IL&FS, in accordance with the Resolution Framework.

2. Unless a serially numbered Placement Memorandum is addressed to a particular Eligible Creditor, no intention to allotment shall be deemed to have been made to such Eligible Creditor. Even if such documentation were to come into the possession of any person other than the intended recipient, no distribution shall be deemed to have been made to such person and such person shall not be eligible to participate in the Unit Distribution.

3. Upon determination of the Eligible Creditors to whom Allocation shall be made, GT, in consultation with Investment Manager and the board of directors of IL&FS, will send the intimation letter/e-mail, along with a serially numbered Final Placement Memorandum, to the Eligible Creditors who have been Allocated Units.

The dispatch of an intimation letter/e-mail shall be deemed a valid, binding and irrevocable contract in respect of the number of Units Allocated to the Eligible Creditor.

4. Upon the dispatch of intimation letter/e-mail to successful Eligible Creditors, the Investment Manager and Distributing Unitholder shall Allot Units of the Trust as per the details in the intimation letter/e-mail sent to successful Eligible Creditors. The Investment Manager will intimate the Stock Exchanges about the details of the Allotment and apply for approval of the Units for listing and trading of the Units on the Stock Exchanges after the credit of Units into the demat accounts of the successful Eligible Creditors.

5. Allottees are advised to instruct their respective depository participant to accept the Units that may be Allotted to them pursuant to the Unit Distribution into their respective demat accounts.

6. The Units that have been credited to the demat accounts of the Eligible Creditors shall be listed and eligible for trading on the Stock Exchanges only upon the receipt of final listing and trading approvals from the Stock Exchanges. Eligible Creditors are advised to apprise themselves of the status of the receipt of the permissions from the Stock Exchanges or the Investment Manager.

Escrow Mechanism

- The Trustee (on behalf of the Trust), the Investment Manager, the Distributing Unitholders, Unit Escrow Agent has entered into a Unit Escrow Agreement and the Trustee (on behalf of the Trust), the Investment Manager, the Distributing Unitholders, IDBI Trusteeship Services Limited (acting on behalf of and in its capacity as the trustee to ECB lenders) and the Unit Escrow Agent has entered into a ECB Unit Escrow Agreement (together, the "**Escrow Agreements**").

- The Escrow Agreements relate to the deposit of Units by the Distributing Unitholders into escrow accounts for the purposes of crediting the Units to the demat account of the relevant Eligible Creditors. The Escrow Agreements contemplate the opening of three distinct escrow accounts, i.e., (i) account designated as "ROADSTAR INFRA INVESTMENT TRUST - Unit Distribution Escrow Account", wherein the total Distributed Units will be credited ("**Main Escrow Account**") before their distribution to the relevant Eligible Creditor's demat account; (ii) account designated as "ROADSTAR INFRA INVESTMENT TRUST - Unclaimed Units Account – Resident", wherein units pertaining to such Eligible Creditors will be held until all necessary consents, governmental or otherwise, and authorizations, legal opinions and other documentations, as applicable for relevant Eligible Creditors (for the purpose of holding the Units of the Trust), are obtained by the Investment Manager (on behalf of the Trust) and GT ("**Second Escrow Account**"); and (iii) account designated as "ROADSTAR INFRA INVESTMENT TRUST - Unclaimed Units Account – Non Resident", wherein units pertaining to eligible ECB lenders are lenders will be held ("**Third Escrow Account**").

- The Units in the Second Escrow Account and the Third Escrow Account will be kept for maximum period of seven years from the date of listing of the Units on the Stock Exchanges ("**Second Escrow Period**"). In the event where such Units are not claimed by the relevant Eligible Creditor by the end of the Second Escrow Period, the board of directors of the Investment Manager will prepare a plan for the treatment of such Units, in consultation with GT and A&M.

- The credit of Units to ECB Eligible Creditors from the Third Escrow Account shall be made upon receipt of relevant regulatory approvals in relation to such foreign holders and the credit of Units to the remaining Eligible Creditors from the Second Escrow Account shall be made upon receipt of the relevant undertakings and approvals, as applicable.

- Further, a Unit escrow bank account is contemplated to keep any distributions on the Distributed Units in escrow.

- As part of the Unit Distribution process, and as detailed above, Eligible Creditors are required to execute the Clawback Undertaking and share it with GT in order to receive the Units. Thereafter, GT shall provide the copy of the Clawback Undertakings received from the Eligible Creditors and a list of such Eligible Creditors who were unable to share the executed Undertakings, to the Investment Manager and the Placement Agent, and the

Investment Manager shall provide a copy of the resolution of its board of directors (or a duly authorized committee thereof) approving the distribution of the Units to the Eligible Creditors, pursuant to the Unit Distribution to the Unit Escrow Agent, the Distributing Unitholders and the Placement Agent. For avoidance of doubt, please note that such Distributed Units shall be distributed from the relevant Unit Escrow Account to the Eligible Creditors, upon a confirmation from Investment Manager to GT, stating that they have obtained the necessary Undertaking from the relevant Eligible Creditor, which confirms that the relevant Eligible Creditor can receive the Distributed Units through the Unit Distribution.

Allotments, if any, made to FVCIs in the Unit Distribution are subject to the respective rules and regulations that are applicable to each of them.

Please note that the onus of getting relevant approvals with respect to receiving the Units of the Trust in different jurisdictions is on the Eligible Creditors, and such units which are supposed to be credited to such foreign Eligible Creditors would be kept in a separate escrow account until such approvals are obtained by the Eligible Creditors.

ELIGIBLE CREDITORS MUST PROVIDE THEIR DEMAT ACCOUNT DETAILS, THEIR DEPOSITORY PARTICIPANT'S NAME, DEPOSITORY PARTICIPANT IDENTIFICATION NUMBER, BENEFICIARY ACCOUNT NUMBER AND BANK ACCOUNT DETAILS IN THE IDENTIFICATION FORM TO BE CIRCULATED TO THEM BY THE INVESTMENT MANAGER/ DULY APPOINTED INTERMEDIARY. ELIGIBLE CREDITORS MUST ENSURE THAT THE NAME GIVEN IN THE IDENTIFICATION FORM IS EXACTLY THE SAME AS THE NAME IN WHICH THE DEMAT ACCOUNT IS HELD.

IT IS THE SOLE RESPONSIBILITY OF THE ELIGIBLE CREDITORS TO ENSURE THEIR ELIGIBILITY TO RECEIVE UNITS IN THEIR DEMAT ACCOUNTS AND TO COMPLY WITH APPLICABLE LAW FOR RECIPT OF SUCH UNITS IN THEIR RESPECTIVE DEMAT ACCOUNTS.

Method of Allocation

The Investment Manager shall determine the Allocation in terms of the procedure specified in "*Unit Distribution Procedure and Information - Process of Allotment and Allocation of Units*" and "*Unit Distribution Procedure and Information - Timelines for Allotment and Listing of Units*" on page 395 and subject to the InvIT Regulations, SEBI Guidelines and other applicable laws.

THE DECISION OF THE INVESTMENT MANAGER AND THE BOARD OF DIRECTORS OF IL&FS, IN ACCORDANCE WITH THE RESOLUTION FRAMEWORK FOR THE ALLOCATION OF ALLOCATION OF UNITS SHALL BE FINAL AND BINDING ON ALL ELIGIBLE CREDITORS. ELIGIBLE CREDITORS MAY NOTE THAT ALLOCATION OF THE UNITS IS AT THE DISCRETION OF THE INVESTMENT MANAGER AND THE BOARD OF DIRECTORS OF IL&FS, SUBJECT TO THE RESOLUTION FRAMEWORK. NEITHER THE INVESTMENT MANAGER, THE BOARD OF DIRECTORS OF IL&FS NOR THE PLACEMENT AGENT ARE OBLIGED TO ASSIGN ANY REASON FOR ANY SUCH NON-ALLOCATION.

Intimation Letter/E-mail

Based on the allocation, the Investment Manager, in consultation with a duly appointed intermediary and the board of directors of IL&FS, in their sole and absolute discretion, will decide the Eligible Creditors to whom the serially numbered intimation letter/e-mail shall be sent, pursuant to which the details of Units Allocated to them shall be notified to such Eligible Creditors. Further, details of the amounts payable for Allotment of the Units in their respective names shall be notified to such Eligible Creditors. Additionally, the intimation letter/e-mail will include the probable designated date, being the date of credit of the Units to the respective Eligible Creditor's demat account ("**Designated Date**").

Eligible Creditors, who have been Allocated Units, would also be sent a serially numbered Final Placement Memorandum either in electronic form or by physical delivery along with the intimation letter/e-mail. The dispatch

of the serially numbered Final Placement Memorandum and the intimation letter/e-mail to Eligible Creditors shall be deemed a valid, binding and irrevocable contract in respect of the number of Units Allocated to each successful Eligible Creditors.

Eligible Creditors are advised to instruct their Depository Participant to accept the Units that may be Allotted to them pursuant to the Unit Distribution.

Eligible Creditors' Demat Account and Bank Account Details

Eligible Creditors should note that on the basis of Eligible Creditors' PAN, DP ID and Client ID provided by them, the Registrar will obtain from the Depository the demographic details including the Eligible Creditors' address and bank account details (including the nine-digit Magnetic Ink Character Recognition ("**MICR**") code as appearing on a cheque leaf) (the "**Demographic Details**"), from the Depository. Eligible Creditors are advised to immediately update their bank account details, PAN and Demographic Details as appearing in the records of the Depository Participant and ensure that they are true and correct.

Closing Date and Allotment of the Units

The Trustee and the Investment Manager will endeavour to complete the Allotment by the Closing Date.

In accordance with the InvIT Regulations, the Units will be issued and Allotment shall be made only in dematerialised form to the Allottees. The Investment Manager (on behalf of the Trust) and the Registrar have entered into:

- Tripartite agreement dated October 8, 2021 with NSDL; and
- Tripartite agreement dated October 28, 2021 with CDSL.

Following the Allotment of the Units, the Investment Manager will apply for final listing and trading approval from the Stock Exchanges. The Investment Manager and the Placement Agent shall endeavour to list the Units on the Stock Exchanges within 30 Working Days from the Closing Date.

Other Instructions

Units in Dematerialised form with NSDL or CDSL

The Allotment shall be only in dematerialised form (i.e., not in physical certificates but represented by the statement issued through the electronic mode).

Allotment to a successful Eligible Creditor will be credited in electronic form directly to the beneficiary account (with the Depository Participant) of such Eligible Creditor.

Units in electronic form can be traded only on the Stock Exchanges having electronic connectivity with NSDL and CDSL. The Stock Exchanges have electronic connectivity with NSDL and CDSL. The trading of the Units would be in dematerialised form only for all Unitholders in the respective demat segment of the Stock Exchanges. For details in respect of the minimum trading lot, please see the section entitled "*The Unit Distribution* " on page 19.

Undertakings of the Investment Manager:

(i). There shall be only one denomination for the Units of the Trust; and

(ii). It shall comply with such disclosure and accounting norms specified by SEBI from time to time.

Sponsor de-linkage

Pursuant to the Unit Distribution, the process of liquidation of assets of the certain IL&FS Group entities would be initiated and accordingly, the Sponsor, being a wholly-owned subsidiary of ITNL, will be required to be divested or

liquidated. Considering that the Sponsor is required to hold a minimum continuing interest for 3 years as per the InvIT Regulations, in order to facilitate the Sponsor in holding such continuing interest, the Sponsor will be de-linked from the IL&FS Group. The aforementioned de-linkage may be achieved in one of the following ways:

(i). Divestment of shareholding - Pursuant to the listing of the Units on the Stock Exchange, the IL&FS Group may initiate steps to divest the complete shareholding of the Sponsor to a third-party investor, thereby de-linking the Sponsor from the IL&FS Group; or

(ii). Conversion into a self-sponsored InvIT - Regulation 22(8) of the InvIT Regulations allows an existing sponsor of an InvIT to disassociate from the InvIT by seeking to convert the investment manager to a 'self-sponsored investment manager', and consequently, the InvIT to a 'self-sponsored InvIT' subject to satisfaction of the certain conditions specified therein. Subject to Unitholder approval and receipt of further exemptions from SEBI in that regard, the Trust may be converted to a self-sponsored InvIT by concluding the process of selling the Sponsor entity within a period of 3 years from the listing of the Units. If such sale of the Sponsor is concluded, the proceeds so received will be distributed to the Eligible Creditors.

STATEMENT OF TAX BENEFITS

(*The remainder of this page is intentionally left blank*)

STATEMENT OF POSSIBLE TAX BENEFITS AVAILBLE TO ROADSTAR INFRA INVESTMENT TRUST AND ITS UNIT HOLDERS UNDER THE INCOME TAX ACT, 1961 IN CONNECTION WITH PROPOSED DISTRIBUTION OF UNITS OF ROADSTAR INFRA INVESTMENT TRUST

To,
The Board of Directors,
Roadstar Investment Managers Limited (the "**Investment Manager**") in its capacity as an Investment Manager of the Roadstar Infra Investment Trust (the "Issuer" or the "Trust")
The IL&FS Financial Centre, Plot no C22, G-Block,
Bandra Kurla Complex, Bandra (E),
Mumbai – 400071, Maharashtra, India.

Axis Capital Limited
1st Floor, Axis House
Pandurang Budhkar Marg, Worli
Mumbai 400 025
Maharashtra, India
(the "**Placement Agent**")

Roadstar Infra Investment Trust
acting through Axis Trustee Services Limited, as the trustee (the "**Trustee**")
Axis House
Bombay Dyeing Mills Compound
Pandurang Budhkar Marg
Worli,
Mumbai 400 025
(the "**Trust**" or the "**InvIT**")

Roadstar Infra Private Limited
The IL&FS Financial Centre,
Plot No. C-22, G Block,
Bandra Kurla Complex,
Bandra (E), Mumbai – 400051
(the "**Sponsor**")

Dear Sirs,
Ref: Statement of tax benefits available to the Roadstar Infra Investment Trust and its unitholders on proposed distribution of units ("**Unit Distribution**").

We refer to the proposed distribution of units of Roadstar Infra Investment Trust ('the Trust' or 'the InvIT'). We enclose herewith the statement showing the current position of possible special/general direct tax benefits available to the InvIT, and its unitholders (hereinafter referred to as "**the Statement**") as per the provisions of the Income-tax Act 1961 (read with Income Tax Rules, circulars, notifications) as amended by the Finance Act, 2024 (hereinafter referred to as the "Act"), as applicable as on date, for inclusion in the placement memorandum and the final placement memorandum (collectively, the "**Placement Documents"**) for the proposed distribution of units of the InvIT.

Several of these benefits are dependent on the InvIT or its unitholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence the ability of the InvIT or its unitholders to derive these direct tax benefits is dependent upon their fulfilling such conditions, which based on the business imperatives, the InvIT or its unitholders may or may not choose to fulfil.

The benefits discussed in the enclosed the Statement are neither exhaustive nor conclusive. The contents stated in the Statement are based on the information and explanations obtained from the Investment Manager. This Statement is

only intended to provide general information to guide the eligible creditors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each eligible creditor is advised to consult their own tax consultant with respect to the specific tax implications arising out of their participation in the Unit Distribution. We are neither suggesting nor are we advising the investor to invest money or not to invest money based on this Statement.

1. Our engagement was undertaken in accordance with the Standard on Related Service (SRS) 4400 on "Engagements to Perform Agreed-upon Procedures regarding Financial Information" issued by the Institute of Chartered Accountants of India ('ICAI').

2. We conducted our examination in accordance with the "Guidance Note on Reports or Certificates for Special Purposes (Revised 2016)" (the "Guidance Note") issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with ethical requirements of the Code of Ethics issued by the Institute of Charted Accountants of India. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for firms that perform audits and reviews of Historical Financial information, and Other Assurance and Related Service Engagements.

3. Because the above procedures do not constitute an audit or a review made in accordance with generally accepted auditing standards in India, we do not express any assurance.

4. Had we performed additional procedures, or had we performed an audit in accordance with generally accepted auditing standards in India, other matters might have come to our attention that would have been reported.

In our opinion, the Statement presents tax benefits available as of 30 September 2024, to the Trust and its unitholders in accordance with the Act as at the date of our report.

We do not express any opinion or provide any assurance whether:

- The InvIT or its unitholders will continue to obtain these benefits as per the Statement in future; or
- The conditions prescribed for availing the benefits as per the Statement have been/would be met.

We hereby give our consent to include enclosed the Statement regarding the tax benefits available to the InvIT and its unitholders in the Placement Documents and other documents in connection with the proposed private placement of units, which the Investment Manager (on behalf of the InvIT) intends to submit to the Securities and Exchange Board of India, BSE Limited and National Stock Exchange of India Limited and any other authority, provided that the below statement of limitation is included in the Placement Documents.

The statement has been prepared solely in connection with the offering of units by the InvIT under the Securities and Exchange Board of India ("SEBI") (Infrastructure Investment Trusts) Regulations, 2014, as amended.

This certificate is issued at the request of the management of InvIT for use by the addresses mentioned herein and legal advisors appointed for the Unit Distribution, to be relied upon by all these addressees in course of their assignment and is not to be copied or circulated to any other person for any other purpose without our prior consent in writing. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

ANNEXURE TO STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO ROADSTAR INFRA INVESTMENT TRUST AND ITS UNITHOLDERS UNDER THE APPLICABLE LAWS IN INDIA

The information provided below sets out the possible tax benefits available to the unitholders in a summary manner only and is not a complete analysis or listing of all potential tax consequences of purchase, ownership and disposal of equity shares or units, under the Tax Laws presently in force in India. It is not exhaustive or comprehensive analysis and is not intended to be a substitute for professional tax advice.

UNITHOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS CONCERNING THE INDIAN TAX IMPLICATIONS AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF UNITS, INCLUDING TAX IMPLICATIONS ON ANY DISTRIBUTIONS BY/ RECEIPTS FROM ROADSTAR INFRA INVESTMENT TRUST, IN THEIR PARTICULAR SITUATION.

The following is based on the provisions of the Income-tax Act, 1961 ('the Act') presently in force in India as amended by the Finance (No.2) Act, 2024 applicable for Financial Year ending 31 March 2025 relevant to the Assessment Year 2025-26. The Act is amended from time to time.

1. TAX BENEFITS AVAILABLE TO ROADSTAR INFRA INVESTMENT TRUST UNDER THE ACT

The following benefits are available to Roadstar Infra Investment Trust ('hereinafter referred to as 'the Trust' or 'InvIT') after fulfilling conditions as per the applicable provisions of the Act and the guidelines prescribed by the Securities and Exchange Board of India ('SEBI') including the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time ('SEBI Regulations').

The Trust is a business trust within the meaning of section 2(13A) of the Act which includes a trust registered as an Infrastructure Investment Trust under the SEBI Regulations made under the Securities and Exchange Board of India Act, 1992.

I. PROVISIONS UNDER THE ACT

1.1. Interest income received/ receivable from the underlying Special Purpose Vehicle(s) ('SPV'):

Interest received or receivable by the Trust from the SPVs (being Indian companies) shall be exempt from tax in case of receipt from SPVs as defined under section 10(23FC) of the Act.

As per the Explanation to section 10(23FC) of the Act, the expression "special purpose vehicle" means an Indian company in which the business trust holds controlling interest and any specific percentage of shareholding or interest, as may be required by the regulations under which such trust is granted registration.

In view of the provisions of section 14A of the Act, any expenditure incurred in relation to earning any exempt income shall not be tax deductible. In case the Tax Authorities are not satisfied with the disallowance, the quantum of disallowance shall be computed in accordance with the provisions of section 14A read with Rule 8D of the Income-tax Rules, 1962 ('the Rules').

As per section 194A(3)(xi) SPVs are exempted from provisions of tax deduction at source ('TDS') in respect of interest paid or payable to the Trust, provided such interest is in relation to interest other than 'interest on securities'.

Further, as per provisions of section 193 pertaining to 'interest on securities' no Tax is deductible in respect of interest as referred to in section 10(23FC) which is received by the business trust from SPV as defined under section 10(23FC) of the Act.

1.2. Dividend income received/ receivable from the underlying SPVs:

Dividend received or receivable by the Trust from the SPVs shall be exempt from tax in case of receipt from SPV as defined under section 10(23FC) of the Act.

As per the explanation to section 10(23FC) of the Act, the expression "special purpose vehicle" means an Indian company in which the business trust holds controlling interest and any specific percentage of shareholding or interest, as may be required by the regulations under which such trust is granted registration.

In view of the provisions of section 14A of the Act, any expenditure incurred in relation to earning any exempt income shall not be tax deductible. In case the Tax Authorities are not satisfied with the disallowance, the quantum of disallowance shall be computed in accordance with the provisions of section 14A read with Rule 8D of the Rules.

As per section 194, SPVs are exempted from provisions of TDS in respect of dividend distributed or paid to the Trust

1.3. Income from buy back of shares

The provisions of section 115QA of the Act mandate domestic companies i.e., SPV to pay an additional tax at the rate of 20% (plus applicable surcharge and cess) on buy-back of shares that takes place before 1 October 2024. Such tax is payable on the distributed income which means the consideration paid by the company on buy-back of shares as reduced by the amount, which was received by the company for issue of such shares, determined as per Rule 40BB of the Rules.

As per amendment made by Finance (No.2) Act, 2024 Section 115QA would not apply in respect of any buy-back of shares, that takes place on or after the 1 October 2024. Income arising from buy-back of shares that takes place before 1 October 2024 and which are subject to tax as per provisions of Section 115QA shall not be taxable as per section 10(34A) of the Act in the hands of the shareholders.

The entire consideration received by shareholders upon buyback of shares that takes place on or after the 1 October 2024 would be treated as dividend income and subject to tax in the hands of shareholders. As per section 194, SPVs are exempted from provisions of TDS in respect of dividend distributed or paid to the Trust. The cost incurred for purchase of such shares would be treated as capital loss in the hands of the shareholders.

In view of the provisions of section 14A of the Act, any expenditure incurred in relation to earning any exempt income shall not be tax deductible in the hands of the trust. In case the Tax Authorities are not satisfied with the disallowance, the quantum of disallowance shall be computed in accordance with the provisions of section 14A read with Rule 8D of the Rules.

1.4. Taxability of income of the business trust in general unless exempted / specified otherwise under the provisions of the Act

As per section 115UA(2), the taxable total income of a business trust (including dividend and interest income from company other than SPV) shall be charged to tax at the Maximum Marginal Rate ('MMR') except for the income

chargeable to tax on transfer of short-term capital assets ('STCA') as per section 111A and transfer of long-term capital assets ('LTCA') as per section 112 of the Act. MMR refers to the rate of income-tax (including surcharge and cess on income-tax, if any) applicable in relation to the highest slab of income as specified in the Finance Act of the relevant year. Section 112A is not explicitly mentioned in section 115UA(2) of the Act.

Further, as per section 57 of the Act, no deduction shall be allowed against dividend income (which is taxable in the hands of the Trust) other than deduction on account of interest expense incurred wholly and exclusively for the purpose of earning such dividend and such interest expense shall not exceed 20% of the dividend income included in the total income for that year, without deduction under section 57 of the Act.

1.5. Taxability of capital gains

a. Period of holding:

Capital assets are classified as LTCA or STCA, based on the period of holding of those assets. Depending upon the said classification, the resultant gains on transfer of such capital assets shall be taxable either as short-term capital gains ('STCG') or as long-term capital gains ('LTCG'). As per the provisions of section 2(42A) of the Act as amended by Finance (No. 2) Act, 2024, a capital asset is regarded as STCA, if:

Sr. No.	Nature of asset	Period of holding before the date of transfer
(i)	Securities listed in a recognized stock exchange in India or units of the Unit Trust of India or units of an equity-oriented fund or zero coupon bonds	12 months or less
(ii)	Capital asset other than those covered in (i) above	24 months or less

b. STCG:

As per the provisions of section 111A of the Act, any income arising from transfer of STCA being an equity share in a company or a unit of an equity-oriented fund or a unit of a business trust transacted through a recognized stock exchange and chargeable to Securities Transaction Tax ('STT'), shall be taxable in the hands of the Trust at a concessional rate of 15% (plus applicable surcharge and cess). The rate of tax as amended by Finance (No. 2) Act, 2024 is increased from 15% to 20% for transfers taking place after 23 July 2024. However, the condition of chargeable to STT shall not apply to a transaction undertaken on a recognized stock exchange located in any International Financial Services Centre ('IFSC') and where the consideration for such transaction is paid or payable in foreign currency. STCG arising from transfer of STCA other than the shares and securities covered under section 111A of the Act, shall be taxed at the MMR in case of trust.

c. LTCG:

As per the provisions of section 112(1)(d) of the Act, gains arising on the transfer of LTCA shall be chargeable to tax in the hands of the Trust at the rate of 20% (plus applicable surcharge and cess). The rate of tax as amended by Finance (No. 2) Act, 2024 is reduced from 20% to 12.5% for transfers taking place after 23 July 2024.

For transfers taking place on or before 23 July **For transfers taking place after 23 July 2024**

2024 LTCG on transfer of listed securities (other than units) or zero- coupon bonds shall be taxable at lower of the following: - 10% (plus applicable surcharge and cess) without indexation benefit under second proviso to section 48; or - 20% (plus applicable surcharge and cess) with indexation benefit under second proviso to section 48	LTCG on all LTCA shall be taxed at 12.5% without indexation benefit.

Further, as per section 112A of the Act, gains exceeding INR 0.125 million arising on the transfer of LTCA, being an equity share in a company or a unit of an equity-oriented fund or a unit of a business trust, transacted through a recognized stock exchange on which STT has been paid, shall be chargeable to tax in the hands of the Trust at the rate of 10% (plus applicable surcharge and cess) without applying the benefit under the first and second provisos to section 48 of the Act. The tax rate of 10% as amended by Finance (No. 2) Act, 2024 is increased to 12.5% for transfers taking place after 23 July 2024.

The condition of chargeable to STT shall not apply to a transaction undertaken on a recognized stock exchange located in any IFSC and where the consideration for such transaction is received or receivable in foreign currency.

d. Cost of acquisition:

Section 48 of the Act prescribes the mode of computation of capital gains and provides for deduction of cost of acquisition/ improvement and expenses incurred in connection with the transfer of a capital asset, from the sale consideration to arrive at the amount of capital gains. However, in certain situations, in respect of LTCG, section 48 of the Act provides for substitution of cost of acquisition/ improvement with indexed cost of acquisition/ improvement, which adjusts the cost of acquisition/ improvement by a cost inflation index as prescribed from time to time. Such indexation benefit shall not be available in respect of LTCA being bonds (other than specified bonds), debentures, and listed equity shares in a company or units of equity-oriented funds or units of a business trust referred to in section 112A of the Act.

e. Deemed sales consideration:

As per section 50CA of the Act, where the consideration on transfer of unquoted shares of a company, is less than the fair market value of such share determined in the manner prescribed under Rule 11UAD of the Rules, the value so determined shall for the purpose of section 48 of the Act, be deemed as the full value of consideration of such transfer.

f. Set-off and carry forward of capital losses:

Section 71 of the Act provides that long-term capital loss ('LTCL')/ short-term capital loss ('STCL') arising during the year cannot be set-off against income under any other head other than capital gains for the same year.

As per section 70 read with section 74 of the Act, LTCL, if any arising during the year can be set-off only against LTCG arising during the year and balance loss, if any, shall be allowed to be carried forward for eight assessment years immediately succeeding the assessment year for which the loss was first computed. Such carried forward LTCL can be set off only against LTCG during subsequent eight assessment years.

As per section 70 read with section 74 of the Act, STCL, if any arising during the year can be set-off against STCG as well as against the LTCG arising during the year and balance loss, if any, shall be allowed to be carried forward for eight assessment years immediately succeeding the assessment year for which the loss was first computed. Such carried forward STCL can be set off against both LTCG and STCG during subsequent eight assessment years.

2. TAX BENEFITS AVAILABLE TO THE UNITHOLDERS OF ROADSTAR INFRA INVESTMENT TRUST

2.1. Special benefits available to the Unitholders of the Trust

Following tax benefits are potentially available to the unitholders of the Trust subject to fulfillment of the conditions specified in the Act and SEBI Regulations:

a. Income distributed by the Trust:

As per the provisions of section 115UA(1) of the Act, any income distributed by the Trust to its unitholders shall be deemed to be of the same nature and in the same proportion in the hands of the unitholders as if such income had been received by or accrued to the Trust.

As per the provisions of section 10(23FD), any distributed income referred to in section 115UA received by the unitholders from the business trust, shall not be included in the total income of the unitholders except for the following income:

- Interest referred to in Section 10(23FC)(a) of the Act; and
- Specified dividend i.e., dividend income referred to in Section 10(23FC)(b) of the Act received in cases where SPV has exercised the option under section 115BAA of the Act.

SPVs have the option, subject to certain conditions, to choose a concessional tax rate of 22% (plus applicable surcharge and cess) under section 115BAA of the Act. In case, SPV has exercised the option under section 115BAA of the Act, any dividend distributed by the Trust out of the dividend paid by such SPV, shall be taxable in the hands of the unitholders. In other cases, the dividend distributed by the Trust out of the dividend paid by SPV which has not exercised the option under section 115BAA of the Act, shall be exempt in the hands of the unitholders under section 10(23FD) of the Act.

In view of the provisions of section 14A of the Act, any expenditure incurred in relation to earning any exempt income shall not be tax deductible. In case the Tax Authorities are not satisfied with the disallowance, the quantum of disallowance shall be computed in accordance with the provisions of section 14A read with Rule 8D of the Rules.

Finance Act, 2023 has brought in an exception to the above by adding a new clause (xii) under section 56(2) of the Act to provide that any distribution received by unitholders that is not covered under section 10(23FC) or 10(23FCA) of the Act and that which is not chargeable to tax under section 115UA(2) of the Act in hands of trust, shall be charged to tax as 'income from other sources' in hands of unit holder provided such amount received (including similar distributions in earlier years to the same unitholders or any other unitholders) is in excess of the amount at which units were issued by the InvIT, as reduced by the amount charged to tax under this provision in earlier year. Such income shall be chargeable to tax at the rates applicable based on the status of the unitholder.

b. Transactions not regarded as a transfer under section 47(xvii) of the Act:

(The below implications are only relevant for the Sponsor)

According to section 47(xvii) of the Act, any transfer of a capital asset, being shares of an SPV to a business trust in exchange of units allotted by that trust to the transferor, shall not be regarded as a transfer and accordingly not be liable to capital gains tax.

According to section 49(2AC) of the Act, the cost of units acquired in lieu of shares in SPV, shall be deemed to be cost of acquisition of shares in SPV.

As per the amendment by the Finance Act, 2023, the amount of distribution received to the extent not chargeable to tax under section 56(2)(xii) of the Act and not covered under sections 10(23FC), 10(23FCA) or 115UA(2) of the Act, shall be reduced from the cost of acquisition of units.

As per clause (hc) of Explanation 1 to section 2(42A), for ascertaining the period of holding of such units, the period of holding of shares in SPV shall also be included.

Any notional gain or loss arising on transfer of shares of SPV to a business trust in exchange of units allotted by the trust as referred to in section 47(xvii), is to be excluded while calculating book profit for the purpose of Minimum Alternate Tax ('MAT') under section 115JB of the Act. Similarly, any notional gain or loss arising upon change in carrying amount of the said units, is to be excluded in calculating book profit for the levy of MAT under section 115JB of the Act.

In case of Sponsor other than company that is liable for Alternate Minimum Tax ('AMT') under the provisions of section 115JC of the Act, any gain or loss arising on transfer of shares of SPV to a business trust in exchange of units allotted by the trust as referred to in section 47(xvii), is to be included as part of the adjusted total income for the purpose of computing AMT liability. AMT paid by such Sponsor should be available as credit for set-off against future tax liability, provided it does not opt to be governed by the concessional tax rates under sections 115BAC or 115BAD of the Act. Further, actual gain or loss on disposal of units held by the unitholders as referred to in section 47(xvii), is considered for the purpose of MAT under section 115JB of the Act.

However, if the unitholder opts for concessional tax regime under section 115BAA or under section 115BAB of the Act, then MAT provisions under section 115JB shall not be applicable to such unitholder and the entire MAT credit available at the time of exercising the option for concessional tax-regime shall have to be foregone.

2.2. General benefits available to the Unitholders of the Trust:

2.2.1. Tax benefits in relation to resident Unitholders:

a. Income distributed by the Trust:

As stated in Para 2.1(a) above, income distributed by a business trust being in the nature of dividend from SPVs which is not exempt under section 10(23FD) of the Act, interest from SPVs, and income chargeable to tax under section 56(2)(xii) of the Act, shall be taxable in the hands of resident unitholders as under:

Status of unitholder	Tax rate (excluding surcharge and cess)
Domestic companies (refer Note 1, 2, and 3)	30%

Firms, Limited Liability Partnerships ('LLPs')	30%
Others (refer Note 4)	As per applicable rates, e.g., in case of individuals, income shall be taxed as per applicable slab rates, maximum being 30%

Note 1: As per Finance (No.2) Act, 2024, a tax rate of 25% (plus applicable surcharge and cess) shall be applicable to a domestic company for Financial Year 2024-25 relevant to the Assessment Year 2025-26 if the total turnover or gross receipts of such company in the Financial Year 2022-23 relevant to the Assessment Year 2023-24, did not exceed INR 4,000 million.

Note 2: Further, domestic companies exercising the option provided under section 115BAA or section 115BAB of the Act shall be chargeable to a concessional tax rate of 22% (plus surcharge at the rate of 10% and health and education cess at the rate of 4%), subject to fulfilment of conditions prescribed in the said sections.

Note 3: Finance Act, 2020 has inserted section 80M of the Act to eliminate the cascading tax effect in case of intercorporate dividends by providing a deduction in respect of dividends received from a company (including foreign company) and business trust to the extent such dividend is distributed before the specified time.

Note 4: Finance Act, 2023 has amended section 115BAC of the Act to provide that Individuals, HUF, Association of Persons ('AOP') (other than a co-operative society), Body of Individuals ('BOI') and Artificial Juridical Person ('AJP') will be taxed on its total income at the reduced tax rates ('New Regime'), subject to satisfaction of certain conditions. The income would however have to be computed without claiming prescribed deductions or exemptions.

b. Taxation as business income

Where the gains arising on the transfer of the units of INVIT are included in the business income of an assessee assessable under the head "Profits and Gains from Business or Profession" and on which securities transaction tax has been charged, such securities transaction tax shall be a deductible expense from business income as per the provisions of section 36(1)(xv) of the Act. The characterization of gains/ losses, arising from sale / transfer of units, as capital gains or business income would depend on the nature of holding in the hands of the unit holder and various other factors.

c. Capital gains on sale of units of the Trust:

Capital assets are classified as LTCA or STCA, based on the period of holding of these assets. As per provisions of Section 2(42A) as amended by Finance (No. 2) Act 2024, the determinative period of holding for units of the Trust held by the unitholders to qualify as LTCA is more than 12 months (36 months for transfers before 23 July 2024). Units held for less than 12 months (36 months for transfers before 23 July 2024) would be STCA.

While determining the period of holding for units of business trust allotted pursuant to exchange of shares of SPV as per clause (hc) of Explanation 1 to section 2(42A) of the Act, the period of holding for the units shall include the period for which the shares were held in the SPV.
Taxation of capital gains on sale of units of the Trust:

Nature of capital gains	Tax rate (excluding surcharge and cess)		
	Unitholders being domestic companies	**Unitholders being Firms / LLPs**	**Other Unitholders**
STCG on sale of units of the Trust being a listed InvIT, subject to STT	20% 15% (if transfer takes place before 23 July 2024)	20% 15% (if transfer takes place before 23 July 2024)	20% 15% (if transfer takes place before 23 July 2024)
LTCG (exceeding INR 0.125 million) on sale of units of the Trust being a listed InvIT, subject to STT	12.5% without the benefit of first and second provisos to section 48 10% for transfers before 23 July 2024	12.5% without the benefit of first and second provisos to section 48 10% for transfers before 23 July 2024	12.5% without the benefit of first and second provisos to section 48 10% for transfers before 23 July 2024

As per the amendment made by the Finance Act, 2023, the amount of distribution to the extent not chargeable to tax under section 56(2)(xii) of the Act and not covered under sections 10(23FC), 10(23FCA) or 115UA(2) of the Act, shall be reduced from the cost of acquisition of units for computing capital gains.

d. Set-off of losses:

Please refer to Para 1.5(f) above.

e. Applicability of MAT/ AMT:

In case of domestic companies that are liable to pay MAT under the provisions of section 115JB of the Act, the gains arising, if any, on sale of units of the Trust are to be included as part of book profits for the purpose of computing MAT liability. MAT paid by such companies should be available as credit for set-off against future tax liability, provided such companies do not opt to be governed by the concessional tax rates under sections 115BAA or 115BAB of the Act. Companies exercising the option to be taxed as per section 115BAA or section 115BAB of the Act have been excluded from the applicability of MAT.

However, as per clauses (iie)/(fc) of Explanation 1 to section 115JB of the Act, the following shall not be considered while computing book profits for levy of MAT:

- notional gain/loss on transfer of shares of SPV in exchange of units allotted by the business trust referred to in clause (xvii) of section 47; or
- notional gain/loss resulting from any change in carrying amount of said units; or
- gain on transfer of units allotted by the business trust referred to in clause (xvii) of section 47.

Further, as per clauses (k)/(iif) of Explanation 1 to section 115JB of the Act, any gain/loss on transfer of units referred to in clause (xvii) of section 47 of the Act shall be considered while computing the book profit for levy of MAT by taking into account the cost of the shares exchanged with the units referred to in the said clause or the carrying amount of the shares at the time of exchange where such shares are carried at a value other than the cost through statement of profit and loss, as the case may be.

In case of unitholders other than companies that are liable to AMT under the provisions of section 115JC of the Act, the gains arising, if any, on sale of units of the Trust are to be included as part of the adjusted total income for the

purpose of computing AMT liability. AMT paid by such unitholders should be available as credit for set-off against future tax liability, provided they do not opt to be governed by the concessional tax rates under sections 115BAC or 115BAD of the Act.

2.2.2. Tax benefits in relation to non-resident Unitholders:

A non-resident shall be liable to tax in India in respect of:

- Income received or deemed to be received in India; or
- Income accrued or arisen or deemed to have accrued or arisen in India in terms of the provisions of the Act.

As per section 90(2) of the Act, the provisions of the Act shall apply to the extent they are more beneficial than the provisions of the Double Taxation Avoidance Agreement ('DTAA') between India and the country of residence of the non-resident unitholder. However, for claiming DTAA benefit, the non-resident would have to provide relevant documents/declarations viz. tax residency certificate, e-filed Form 10F, etc. as per the requirements of the Act/ DTAA.

a. Dividend which is not exempt under section 10(23FD) of the Act (i.e., dividend received by the Trust from SPV who has exercised the option under section 115BAA of the Act):

The said dividend income will be taxable at the rate of 20% (plus applicable surcharge and cess) as per Section 115A of the Act. This is subject to relief, if any, under the applicable DTAA.

b. Interest income earned from the SPV and distributed by the Trust:

Any interest income which is not exempt under section 10(23FD) of the Act in the hands of the non-resident unitholders would be taxable at 5% (plus applicable surcharge and cess) as per Section 115A of the Act. This is subject to relief, if any, under the applicable DTAA.

c. Other distribution by the Trust not covered under section 115UA(2) of the Act:

As per section 56(2)(xii) of the Act, any distribution received by non-resident unitholders that is not covered under section 10(23FC) or 10(23FCA) of the Act and which is not chargeable to tax under section 115UA(2) of the Act, shall be chargeable to tax as 'income from other sources' provided such amount received (including similar distributions in earlier years to the same unitholder or any other unitholder) is in excess of the amount at which units are issued by the business trust, as reduced by the amount charged to tax earlier under this provision.

Subject to relief, if any, under the applicable DTAA, such other distribution of income shall be chargeable to tax in the hands of the non-resident unitholders as under:

Status of unitholder	**Tax rate under the Act (excluding surcharge and cess)**
Foreign companies	40%
Firms, LLPs	30%
Others	As per applicable rates, e.g., in case of individuals, income shall be taxed as per applicable slab rates, maximum being 30%

d. Capital gains on sale of units of the Trust:

Capital assets are classified as LTCA or STCA, based on the period of holding of these assets. The determinative period of holding for units of the Trust to qualify as LTCA is more than 12 months (36 months for units transferred before 23 July 2024). Units held for less than 12 months (36 months for units transferred before 23 July 2024) , would be STCA.

While determining the period of holding for units of business trust allotted pursuant to exchange of shares of SPV as per clause (hc) of Explanation 1 to section 2(42A) of the Act, the period of holding for the units shall include the period for which the shares were held in the SPV.

Subject to applicable DTAA relief, if any, taxation of capital gains on sale of units of the Trust shall be as under:

Nature of Capital gains	**Tax rate under the Ac (excluding surcharge and cess)**
STCG on sale of units of the Trust being a listed InvIT, subject to STT	20% / 15% (For transfer before 23 July 2024)
LTCG on sale of units of the Trust being a listed InvIT, subject to STT	12.5%/ 10% (For transfers before 23 July 2024)

As per the amendment made by the Finance Act, 2023, the amount of distribution to the extent not chargeable to tax under section 56(2)(xii) of the Act and not covered under sections 10(23FC), 10(23FCA) or 115UA(2) of the Act, shall be reduced from the cost of acquisition of units for computing capital gains.

e. Set-off of losses:

Please refer to Para 1.5(f) above.

Applicability of MAT/ AMT:
While computing book profits to determine the applicability of MAT, in respect of income a foreign company being interest or dividend, or capital gains accruing or arising on transactions in "securities" within the meaning of section 2(h) of the Securities Contracts (Regulation) Act, 1956 should be excluded if such income is credited by the foreign company to its statement of profit and loss account and the income-tax payable thereon under the Act is at a rate less than rate of tax on book profits presently being 15% (excluding surcharge and cess).

Further, the MAT provisions shall not be applicable in case of a foreign company:

- if such foreign company is a resident of a country with which India has entered into a DTAA and such foreign company does not have a permanent establishment in India in terms of provisions of the applicable DTAA; or

- if such foreign company is a resident of a country with which India does not have a DTAA and such foreign company is not required to seek registration under any law for the time being in force relating to companies.

In case of unitholders other than companies that are liable to AMT under the provisions of section 115JC of the Act,

the gains arising, if any, on sale of units of the Trust are to be included as part of the adjusted total income for the purpose of computing AMT liability. AMT paid by such unitholders should be available as credit for set-off against future tax liability, provided they do not opt to be governed by the concessional tax rates under sections 115BAC or 115BAD of the Act.

2.2.3. Special tax benefits in relation to Unitholders being Foreign Institutional Investors ('FIIs') / Foreign Portfolio Investors ('FPIs')

a. As per the provisions of section 2(14) of the Act, any securities held by an FII which has invested in such securities in accordance with the regulations made under the Securities and Exchange Board of India Act, 1992, shall be regarded as a capital asset. Accordingly, any income arising on transfer of such capital assets shall be in the nature of capital gains.

b. The determinative period of holding for such units to qualify as LTCA is more than 12 months (36 months for units transferred before 23 July 2024). Thus, units held for up to 12 months (36 months for units transferred before 23 July 2024) shall qualify as STCA.

c. LTCG exceeding INR 0.125 million arising in the hands of FIIs/ FPIs on transfer of units of the Trust through a recognized stock exchange on which STT has been paid, shall be taxable under section 112A of the Act – please refer to Para 1.5I above.

d. LTCG arising in the hands of FIIs/ FPIs on transfer of units of the Trust, which is not effected through a recognized stock exchange and not subject to STT, shall be chargeable to tax at 10%, without the benefit contained in the first and second provisos to section 48 of the Act (plus applicable surcharge and cess) in accordance with section 115AD of the Act. For transfers after 23 July 2024, as amended by Finance (No. 2) Act, 2024, the tax rate has increased to 12.5% without the benefit contained in the first and second provisos to section 48 of the Act (plus applicable surcharge and cess). (Subject to applicable DTAA relief, if any).

e. Similarly, STCG on transfer of the units of the Trust shall be chargeable to tax at the rate of 15% (plus applicable surcharge and cess) as per the provisions of section 111A of the Act provided such transfer is made through a recognized stock exchange and the transaction is subject to STT. For transfers after 23 July 2024, as amended by Finance (No. 2) Act, 2024, the tax rate has increased to 20% (plus applicable surcharge and cess). (Subject to applicable DTAA relief, if any).

f. However, as per section 115AD(1)(ii) of the Act, STCG arising to the FIIs/ FPIs on transfer of units of the Trust, which is not through a recognized stock exchange and not subject to STT, shall be taxable at the rate of 30% (plus applicable surcharge and cess).

g. As per section 196D(2) of the Act, TDS shall not apply in respect of income by way of capital gains arising from the transfer of securities referred to in section 115AD of the Act payable to FIIs/ FPIs.

h. On any other income in respect of securities referred to in section 115AD(1)(a) of the Act, other than capital gains and interest income subject to TDS under section 194LD of the Act, TDS shall apply at 20% (plus applicable surcharge and cess) as per section 196D of the Act, subject to applicable DTAA relief, if any.

2.2.4. Special tax benefits in relation to Unitholders being Mutual Funds:

a. Exemption is provided under section 10(23D) of the Act in respect of income of:

- Mutual Funds registered under the Securities and Exchange Board of India Act, 1992 or Regulations made thereunder; and
- Mutual Funds set up by public sector banks or public financial institutions and Mutual Funds authorised by the Reserve Bank of India will be exempt from income tax, subject to such conditions as the Central Government may, by notification in the Official Gazette, specify in this behalf.

b. As per the provisions of section 196 of the Act, TDS shall not apply on any sum payable to a Mutual Fund specified under section 10(23D) of the Act. Accordingly, the Trust is not required to withhold tax on any sum payable to Mutual Fund specified under section 10(23D) of the Act.

2.2.5. Special tax benefits in relation to Unitholders being Venture Capital Companies ('VCC') / Venture Capital Funds ('VCF'):

For VCC/ VCF registered prior to 21 May 2012

Under Section 10(23FB) of the Act, any income from investment in a Venture Capital Undertaking ('VCU') arising to a VCC/ VCF (not being an investment fund specified in clause (*a*) of Explanation 1 to section 115UB) to whom a certificate of registration has been granted before 21 May 2012 under SEBI (Venture Capital Funds) Regulations, 1996, or as a sub-category of Category I Alternative Investment Fund ('AIF') as is regulated under SEBI (AIF Regulations), 2012 made under the SEBI Act, 1992, shall be exempt from income tax, subject to conditions specified therein.

Further, as per Section 115U of the Act, any income derived by a person out of investments made in a VCC/ VCF shall be taxable in the hands of the person making the investment in the same manner as if it were the income accruing or arising to or received by such person had the investments been made directly in the VCU.

For VCC/ VCF registered post 21 May 2012

VCC/VCF registered post 21 May 2012 shall be classified as a Category 1 AIF which shall be governed by the SEBI (AIF) Regulations, 2012. For such fund, benefit of section 10(23FB) and section 115U shall not be applicable and the AIF shall be governed by section 115UB read with section 10(23FBA) and 10(23FBB) which states that business income earned by such AIF shall be taxable in the hands of the AIF and exempt in the hands of the unitholders, and other income earned viz. capital gains, income from other sources shall be exempt in the hands of the AIF and taxable in the hands of the unitholders.

2.2.6. Special tax benefits in relation to Unitholders being certain specified person

a. As per section 10(23FE) of the Act, dividend, interest, income taxable under section 56(2)(xii) of the Act and LTCG arising from investments made by 'specified person' in India, whether in the form of debt or share capital or unit, shall be exempt, if such investment is:

- made on or after 1 April 2020 but on or before 31 March 2024;
- is held for at least 3 years; and
- inter alia, is in a business trust

b. Further, such specified person (subject to certain conditions prescribed in section 10(23FE)) shall include:

- Wholly owned subsidiary of Abu Dhabi Investment Authority

- Sovereign Wealth Funds as notified by the Central Government
- Pension funds as notified by the Central Government

II. TAX DEDUCTION AT SOURCE

a. Withholding of tax by SPV:

As per section 193 and 194A of the Act, the SPV shall not be required to withhold taxes when they make payment of interest to the Trust.

As per section 194 of the Act, the SPV shall not be required to withhold taxes when they make payment of dividend to the Trust.

b. Withholding of tax by the Trust:

As per the provisions of section 115UA(1) of the Act, the income distributed by the Trust shall be deemed to be of the same nature and in the same proportion in the hands of the unitholders as if such income was received by or accrued to the Trust.

The distribution of income, in the nature of interest or dividend, by the trust to the unitholders, would be subject to TDS under section 194LBA of the Act at the time of credit of such payment to the account of the unitholders, or at the time of payment thereof, whichever is earlier. The rate of withholding as per section 194LBA of the Act shall be as under:

- On interest income:
  - 10% in case of resident unitholder; and
  - 5% in case of non-resident unitholder

- On dividend income, being that proportion of dividend earned from an SPV which has exercised the option of beneficial tax regime under section 115BAA of the Act
  - 10% in case of resident unitholder; and
  - 20% in case of non-resident unitholder

- On dividend income, being that proportion of dividend earned from an SPV which has not exercised the option of beneficial tax regime under section 115BAA of the Act, no TDS shall apply.

- The TDS rates above shall be subject to surcharge, cess and DTAA benefit, if applicable.

- On certain distributions proposed to be considered as income for the unitholders, as per the amendment introduced in the Finance Act, 2023, it would be pertinent to note that the Finance Act, 2023 has not introduced any separate withholding tax provisions with respect to such distributions. Accordingly, the Trust may be required to withhold tax under section 195 of the Act. The withholding tax rate applicable on such distributions shall be determined on the basis of the tax residential status of the unitholder and applicable DTAA benefits, if any.

c. Withholding of tax in case of transfer of shares/securities:

No tax is deductible at source from income by way of capital gains arising to a resident unitholder under the present provisions of the Act.

However, as per the provisions of section 195 of the Act, any income on transfer of units of the Trust by non-resident unitholders may be subject to TDS at the rate under the domestic tax laws or under the DTAA, whichever is beneficial to the assessee (other than FIIs/ FPIs which are subject to provisions of section 196D(2) of the Act – please refer to Para 2.2.3 above). The TDS shall be subject to any lower withholding tax certificates that may have been issued by the Tax Authorities to the unitholders under the provisions of the Act.

Applicability of DTAA benefit, if any, shall be subject to furnishing of relevant documents/declarations viz. tax residency certificate, e-filed Form 10F, etc. by the non-resident unitholders.

Buyer and seller of unlisted shares/securities also need to check the applicability of TDS under section 194Q of the Act read with the Tax Collection at Source ('TCS') provisions under section 206C(1H) of the Act. As per the clarification issued by the Central Board of Direct Taxes ('CBDT') vide Circular No. 17/2020 dated 29 September 2020, the provisions of section 206C(1H) shall not apply in relation to transactions in securities and commodities which are traded through recognized stock exchanges or cleared and settled by recognized clearing corporation, including recognized stock exchanges or recognized clearing corporation located in IFSC.

Further, vide Circular No. 13/ 2021 dated 30 June 2021, the CBDT has clarified that if buyer has deducted tax on a transaction under section 194Q of the Act, the seller is not required to collect tax under section 206C(1H) of the Act on the same transaction. However, if, for any reason, tax has been collected by the seller under section 206C(1H) before the buyer could deduct tax under section 194Q of the Act on the same transaction, then buyer need not to deduct tax at source under section 194Q of the Act.

d. **TDS at higher rate where Permanent Account Number ('PAN') details are not furnished by the unitholders - section 206AA of the Act**

As per section 206AA of the Act, where a taxpayer does not possess a PAN, taxes have to be withheld on payment of income to the taxpayer (where chargeable to tax) at higher of the following:

- At the rate specified in the Act; or
- At the rate or rates in force; or
- At the rate of 20% / 5% where tax is required to be deducted under sections 194-O or 194Q

Rule 37BC was introduced with effect from 24 June 2016 to provide for relaxation from higher TDS under section 206AA if the non-resident payee furnishes prescribed details and documents to the payer of specified income. Similar provisions are there under section 206CC of the Act in relation to TCS.

e. **TDS at higher rate in case of non-filers of income-tax return - section 206AB of the Act**

The Finance Act, 2021 had introduced a new provision - section 206AB in the Act for deducting tax at higher rates on payments made to non-filers of income-tax returns. Section 206AB of the Act applies where any sum or income or amount is paid, or payable or credited, by a person to a specified person and tax is required to be deducted at source as per provisions of the Act (except under sections 192, 192A, 194B, 194BB, 194-IA, 194-IB, 194LBC, 194M or 194N of the Act).

Specified person means a person who has not filed the return of income for the assessment year relevant to the previous year immediately preceding the financial year in which tax is required to be deducted for which time limit for furnishing return of income under section 139(1) of the Act has expired and the aggregate of TDS and TCS is INR 50,000 or more in the said previous year. Further, specified person shall not include a non-resident who does not have a permanent establishment in India or any other person who is not required to furnish return of income for the assessment year relevant to the said previous year and is notified by the Government in this regard.

In case the aforesaid section is applicable, tax shall be deducted at higher of the followings rates:

- twice the rate specified in the relevant provision of the Act; or
- twice the rate or rates in force; or
- the rate of 5%.

If provisions of section 206AA and section 206AB of the Act are applicable to a specified person, then, tax shall be deducted at higher of the two rates provided under the respective sections of the Act. Similar provisions are there under section 206CCA of the Act in relation to TCS.

III. OTHER PROVISIONS

a. Section 94(7) of the Act (commonly known as dividend stripping)

Section 94(7) of the Act provides that where:

(i) Any person buys or acquires any securities or unit within a period of three months prior to the record date[1];

(ii) Such person sells or transfers such securities within three months after such record date or such unit within nine months after such record date;

(iii) The dividend or income on such securities or unit received or receivable by such person is exempt then, the loss, if any, arising on account of such purchase and sale of securities or unit, to the extent of the dividend or income received or receivable on such securities or unit, shall be ignored for computing income chargeable to tax.

Finance Act, 2022 has extended the applicability of section 94(7) to a business trust as defined in section 2(13A) of the Act.

b. Section 94(8) of the Act (commonly known as bonus stripping)

Section 94(8) of the Act provides that where:

(i) Any person buys or acquires any securities or units within three months prior to the record date[2];

(ii) Such person is allotted additional securities or units without any payment on the basis of holding of such securities or units on such date;

(iii) Such person sells or transfers all or any of the securities or units within nine months after the record date, while continuing to hold all or any of the additional securities or units referred in clause (ii) above

then, the loss, if any, arising on account of such purchase and sale of all or any of the securities or units shall be ignored

---

[1] *Record date means a date fixed for the purposes of entitlement of the holder of the securities or units, as the case may be, to receive dividend, income, or additional securities or units without any consideration, as the case may be*

[2] *Record date means a date fixed for the purposes of entitlement of the holder of the securities or units, as the case may be, to receive dividend, income, or additional securities or unit without consideration, as the case may be*

for computing income chargeable to tax and notwithstanding anything contained in any other provision of the Act, the amount of loss so ignored shall be deemed to be the cost of purchase or acquisition of such additional securities or units referred to in clause (ii) above as are held on the date of such sale or transfer.

Finance Act, 2022 has extended the applicability of section 94(8) to a business trust as defined in section 2(13A) of the Act.

Notes to statement

General tax rates and provisions:

1. The income-tax rates specified in this note are as applicable for the Financial Year 2024-25 relevant to the Assessment Year 2025-26, and are exclusive of surcharge and cess, if any. Rates of surcharge and Health and Education cess are as provided below:

Surcharge:
Domestic companies:

(i) If the total income does not exceed INR 10 million – Nil
(ii) If the total income exceeds INR 10 million but does not exceed INR 100 million - 7 %
(iii) If the total income exceeds INR 100 million - 12 %

Foreign companies:

(i) If the total income does not exceed INR 10 million - Nil
(ii) If the total income exceeds INR 10 million but does not exceed INR 100 million – 2%
(iii) If the total income exceeds INR 100 million – 5%

Individuals, HUF, AOP, BOI:

(i) If the total income does not exceed INR 5 million - Nil
(ii) If the total income (including dividend income or income under the provisions of section 111A, section 112 and section 112A of the Act) exceeds INR 5 million but does not exceed INR 10 million – 10%
(iii) If the total income (including dividend income or income under the provisions of section 111A, section 112 and section 112A of the Act) exceeds INR 10 million but does not exceed INR 20 million – 15%
(iv) If the total income (excluding dividend income or income under the provisions of section 111A, section 112 and section 112A of the Act) exceeds INR 20 million but does not exceed INR 50 million – 25%
(v) If the total income (excluding dividend income or income under the provisions of section 111A, section 112 and section 112A of the Act) exceeds INR 50 million – 37%
(vi) If the total income (including dividend income or income under the provisions of section 111A. section 112 and section 112A of the Act) exceeds INR 20 million, but is not covered under (iv) and (v) above – 15%

However, in case the total income includes any income by way of dividend or income under the provisions of

section 111A, section 112 or section 112A of the Act, surcharge in respect of that part of income shall not exceed 15%.

In case of an Association of Persons consisting of only companies as its members, surcharge shall not exceed 15% even if the total income exceeds INR 10 million.

The above surcharge is subject to marginal tax benefit as per the Act.

As per the Finance (No.2) Act, 2024, in case of Individuals, HUF, AOP (other than a co-operative society), BOI, AJP taxable under the New Regime prescribed under section 115BAC of the Act, the surcharge shall not exceed 25% even if the total income exceeds INR 20 million.

Firms, LLPs

(i) If the total income does not exceed INR 10 million – Nil
(ii) If the total income exceeds INR 10 million - 12 %

The above surcharge is subject to marginal tax benefit as per the Act.

Health and Education cess:

In all cases, Health and Education cess will be levied at the rate of 4% of the aggregate of income-tax and surcharge.

2. The stated benefits will be available only to the sole/ first named holder in case the units are held by joint holders.

3. The TDS rates mentioned in the given document may be subject to any concessions introduced/ allowed by the Government under any policy, press release, etc. Also, the same may also be subject to lower/ nil withholding tax certificates which may be furnished by the unitholders.

4. In respect of non-residents, the tax rates and the consequent taxation mentioned above shall be further subject to any benefits available under the applicable DTAA, if any, between India and the country in which the non-resident has fiscal domicile. Further, it is pertinent to meet the terms and conditions viz. tax residency, Principal purpose test, beneficial ownership test etc. as enacted in DTAAs entered into by India with various countries based on Multilateral Instrument ('MLIs') to implement tax treaty related measures to prevent Base Erosion and Profit Shifting ('BEPS').

5. The tax implications/ benefits stated in this document are subject to General Anti Avoidance Rules ('GAAR') provisions under the Act. GAAR may be invoked by the Indian Income Tax Authorities in case arrangements are found to be impermissible avoidance arrangements. Further, in case GAAR provisions are invoked, the onus to prove that the main purpose of an arrangement was not to obtain any tax benefit is on the taxpayer. Also, any resident or non- resident may approach the Board for Advance Rulings (earlier Authority for Advance Rulings) to determine whether an arrangement can be regarded as an impermissible avoidance arrangement.

6. This statement does not discuss any tax consequences in a country outside India of an investment in the units of The Trust. The unitholders / investors in the country outside India are advised to consult their own

professional advisors regarding possible tax consequences that apply to them in such country outside India.

7. This statement is intended only to provide general information to the investors and is neither designed nor intended to be substituted for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his/her own tax advisor with respect to specific tax consequences of his/her participation in the scheme.

8. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes. We shall not be liable for any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to any other person in respect of this statement.

9. This statement of possible direct tax benefits enumerated above is as per the Act as amended by the Finance (No.2) Act, 2024 applicable for the Financial Year ending 31 March 2025 relevant to the Assessment Year 2025-26. The above statement of possible Direct-tax Benefits sets out the possible tax benefits available to the Trust and its unitholders under the current tax laws presently in force in India. Several of these benefits available are dependent on the Trust or its unitholders fulfilling the conditions prescribed under the relevant tax laws.

10. The information provided above sets out the possible tax benefits available to the unitholders in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership, transfer and disposal of equity shares and units, under the current tax laws presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax advisor with respect to the tax implications arising on account of any investment in equity shares or units (including tax implications on account of any distributions by/ receipts from the Trust), particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation impacting the benefits, which an investor can avail.

Independent Auditor's Report on Special Purpose Combined Financial Statements

To,
Board of Directors,
Roadstar Investment Managers Limited (the "Investment Manager")
[As the Investment Manager of Roadstar Infra Investment Trust (the "InvIT")]
The IL&FS Financial Centre
Plot No. C22, G-Block
Bandra Kurla Complex, Bandra (E)
Mumbai - 400051

Opinion

1. We have audited the accompanying "Special Purpose Combined Financial Statements" of the Special Purpose Vehicles (SPVs) of the InvIT, subsidiary companies namely, (i) Moradabad Bareilly Expressway Limited (MBEL),(ii) Sikar Bikaner Highway Limited (SBHL), (iii) Hazaribagh Ranchi Expressway Limited, (HREL), (iv) Pune Sholapur Road Development Company Limited (PSRDCL), (v) Barwa Adda Expressway Limited (BAEL) and (vi) Joint Venture namely, Thiruvananthapuram Road Development Company Limited (TRDCL); (each individually referred to as "SPVs" and together referred to as the "SPV Group"), which comprise the Combined Special Purpose Balance Sheets as at period ended 30 September 2024 and for the year ended 31 March 2024 ,31 March 2023 and 31 March 2022, the Combined Special Purpose Statements of Profit and Loss (including Other Comprehensive Income), the Combined Special Purpose Cash Flow Statements, the Combined Special Purpose Statements of Changes in Equity for the year ended on those dates, Combined Statement of net assets at fair value for the six months ended 30 September 2024 and for the year ended 31 March 2024, Combined Statement of Total Returns for the six months ended 30 September 2024 and for the year ended 31 March 2024, and a Summary of Significant Accounting Policies and Other Explanatory Information (the "Special Purpose Combined Financial Statements").

2. In our opinion and to the best of our information and according to the explanations given to us, Special Purpose Combined Financial Statements give a true and fair view of the combined state of affairs of the SPV Group as at period ended 30 September 2024, and for the year ended 31 March 2024, 31 March 2023 and 31 March 2022, its combined loss including other comprehensive income, its combined cash flows and its combined changes in equity for the period and year ended on those dates, its combined statement of net asset at fair value, as at 30 September 2024 and for the year ended 31 March 2024, and its combined statement of total returns at fair values, for the Period ended 30 September 2024 and for the year ended 31 March 2024 in accordance with the basis of preparation as set out in Note No. 1.2.2.1 to the Special Purpose Combined Financial Statements.

Basis of Opinion

3. We conducted our audit in accordance with the Standards of Auditing (SAs) issued by the Institute of Chartered Accountants of India (the "ICAI"). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Combined Financial Statements section of our report. We are independent of the InvIT in accordance with the Code of Ethics issued by the ICAI together with the ethical requirements that are relevant to our audit of the Combined Financial Statements, and we have fulfilled our

ethical responsibilities in accordance with these requirements and Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Combined Financial Statements.

Material Uncertainty on Going Concern

In case of Barwa Adda Expressway Limited (BAEL) :

4. We draw attention to Note No. 41(b), 41(j), 41(k), 41(f),44(c),44(d), and 45 of the accompanying special purpose Combined Financial Statements the Company has accumulated losses and its net worth has been fully eroded, the Company has earned profit during current period, however, there are losses in previous years and it may be unable to meet its obligations (financial and operational) as and when they fall due. As at 30 September 2024, the Company has a negative net worth of Rs. 17,378.18 million and its Current financial Liabilities exceeds the Current financial Assets by Rs. 10,308.99 million. These conditions along with other matters including the mitigating factor considered by the management, set forth in Note No. Note No. 34 to 38, 40 and 43, indicate the existence of a material uncertainty that may cast significant doubt about the company's ability to continue as a going concern. Our Opinion is not modified in respect of this matter.

Emphasis of Matter – (EOM)

5. We draw attention to Note 1.2.2.1 to the Special Purpose Combined Financial Statements, which describes the purpose and basis of preparation of the said Special Purpose Combined Financial Statements. The Special Purpose Combined Financial Statements have been prepared by the management of the Investment Manager solely for inclusion in Placement Memorandum in accordance with the requirements of Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended from time to time including any circulars issued thereunder (the "InvIT Regulations") in connection with the proposed distribution of units by the InvIT on private placement basis. As a result, the Special Purpose Combined Financial Statements may not be suitable for any another purpose.

6. **Summary of EOMs by Auditors of SPVs**

The respective auditors of a subsidiary and a joint venture have drawn attention in their respective audit reports, without modifying their respective opinion, on following matters:

Sr No	Name of entity	Year	EOM
01	BAEL	30 September 2024	a. We draw attention to Note No. 34 of the accompanying special purpose financial statements wherein the company has stated that the Ministry of Corporate Affairs (MCA), Government of India, has vide its letter dated

			October 1, 2018 initiated investigation by Serious Fraud Investigation Office (SFIO) against IL&FS (erstwhile ultimate holding company) and its group companies under Section 212 (1) of the Companies Act, 2013. As a part of investigation of affairs of ITNL (the erstwhile Holding Company), SFIO has also been seeking from ITNL various information including relating to project undertaken by the Company (for which ITNL acted as Development Contractor and promoter). The investigation is in progress and it is understood that the relevant information is being provided by ITNL to the agency. At this stage, no material impact/ implications had arisen from the aforesaid developments. As part of resolution process, post September 30, 2024, the equity capital of the Company has been acquired by Roadstar Infra Investment Trust (RIIT) and as per Company's assessment there will not be any impact for the aforesaid exercise. b. We draw attention to Note No. 35 of the accompanying special purpose financial statements wherein the company has stated that National Company Law Appellate Tribunal ("NCLAT") had passed an order on October 15, 2018 ("Interim Order") in Company Appeal (AT) 346 of 2018, imposing moratorium on the creditors of IL&FS and its 348 group companies, which includes the Company. Further, NCLAT vide its order dated February 11, 2019 had also classified the Company under the "Red Category" based on a 12 month cash flow solvency test, indicating it is not in a position to discharge its entire Debt as and when due. Accordingly, the Company is permitted to make only those payments necessary to maintain and preserve the going concern status. This consequently also resulted in downgrade of debt ratings of the Company. NCLAT wide its order dated March 12, 2020, had upheld its interim order of October 15, 2018. The said order specifies October 15, 2018 as the date of initiation of the Resolution Process of the Company. Accordingly the Company has not accrued any interest, default interest, penal interest and any other similar

			charges after the said cut-off date of October 15,2018 and also not repaid any principal amount of debt due. As a result, Rs. 411.01 million (during the period October 2018 to March 2020) recovered by the banks (towards interest and principal) from the Escrow accounts of the Company maintained with them is being treated as Receivable from banks in these financial statements. The Company has written to the banks for recoveries of the same amounts in view of moratorium extended by the October 15, 2018 Order of NCLT. These amounts have not been handed back to the Company till date. Further, the balances as confirmed by the lenders, in some cases, are not in agreement with the books of the company which is under reconciliation. During the current financial period, further Rs. 1039.70 million (Previous year: Rs. 1935.00 million) recovered by the banks from the Escrow accounts of the Company maintained with them. The company has disclosed the amount of such recoveries as at September 30, 2024 amounting to Rs. 3,385.71 million (Previous Year Rs. 2,346.01 million) as an Amount Receivable from Bank. c. We also draw attention to Note No. 36 of the accompanying special purpose financial statements wherein the company has stated that in line with the affidavit filed by Ministry of Corporate Affairs (MCA) to the Hon'ble NCLAT on May 21, 2019, the cut-off date of October 15, 2018 ("Cut-Off Date") was proposed, on account of inter alia the fact that the Hon'ble NCLAT had passed the Order on October 15, 2018, which inter alia granted certain reliefs to the IL&FS Group and also restricted certain coercive actions by the creditors of the IL&FS Group. In terms of the Resolution Framework Reports, the proposal made is that all liabilities relating to the relevant IL&FS Group Entity, whether financial (including interest, default interest, indemnity claims and additional charges), operational debt (including interest, indemnity or other claims) as well as statutory claims (including tax, employment and labour related claims), whether existing at or relating to a

			period prior to the Cut-Off Date should not continue accruing. Accordingly, the interest expenses are accounted on borrowings until October 15, 2018. With the approval of NCLT, NHAI, and the lenders, post September 30, 2024, the Company's shareholding was acquired by Roadstar Infra Investment Trust (RIIT). As part of this resolution, the entire debt of the Company has been restructured. Accordingly, interest amounting to ₹ 4,008.58 million on secured senior lender borrowings, accrued for the period from April 1, 2021, to September 30, 2024, has been recognized during the current year. This includes interest on a portion of the senior debt, against which Non-Convertible Debentures (NCDs) issued post-September 30, 2024, considering an extension of the concession period by four years. Interest on unsecured group debt will be accrued starting October 17, 2024, the effective date of the Company's acquisition by RIIT. d. We draw attention to Note No. 40 of the accompanying special purpose financial statements wherein the company has stated that as per the Minutes of Meeting with Lenders Consortium held on dated March 16, 2023, the company is to incur capital cost of Rs. 5,339.30 million for completing the remaining construction activities, these costs shall not provide any incremental revenue for the company beyond the revenue stream as of now. However, these would be required to complete the entire stretch of the project and is one of the contractual obligations of the company. The amount is as determined by the Independent Engineer of NHAI, and the company is reassessing the same. The costs as and when incurred will be treated as part of the cost of the intangible assets. The Company has already awarded a contract for substantial amount work to be executed. e. We draw attention to Note No. 43 of the accompanying special purpose financial statements wherein the company has stated that the project concession period is 20 years and the appointed date of the project was April 1, 2014.

			Accordingly, the project concession ends in March 2034. As per the Clause 29.1.2, in the event Actual Average Traffic shall have fallen short of the Target Traffic, then for every 1% (one per cent) shortfall as compared to the Target Traffic, the Concession Period shall, subject to payment of Concession Fee in accordance with this Agreement, be increased by 1.5% (one point five per cent) thereof; provided that such increase in Concession Period shall not in any case exceed 20% (twenty per cent) of the Concession Period. As per the traffic projections, there will be lower traffic as on target date and hence, the Company is eligible for extension of the concession period of 5 years 3 months (subject to maximum of 4 years) i.e. the concession period will be till June 2038 including 3 months extension for Covid. Such an extension of concession period has been considered for accounting of amortisation, impairment and negative premium payable to NHAI. f. We draw attention to Footnote to Note No. 7 of the accompanying special purpose financial statements wherein the company has stated that in prior periods, the Company had recognized a claim receivable from the Authority amounting to ₹1,286.36 million, based on Paragraph 6 of the letter issued by NHAI (Reference No. 15017/1/2013/PIU(DUP)/1832 dated September 25, 2019). Additionally, the Company had recorded liabilities of ₹1,237.88 million towards the negative change of scope related to de-scoped works and other claims by NHAI, and ₹124.70 million for a possible penalty for overloading. As part of a comprehensive settlement agreement dated September 30, 2024, with NHAI, these claims have been resolved, resulting in a net recoverable amount of ₹42.70 million from NHAI. Accordingly, the remaining balances have been adjusted during the current period, with ₹1,237.88 million written back and ₹1,324.39 million written off. The amounts written off include ₹80.55 million of other recoverable and ₹0.18 million recoverable from other parties (Refer to Notes 19 and 23). Further, as part of the settlement, the Company was required

			to pay ₹166.50 million as a penalty for harmonious substitution. Consequently, an additional liability of ₹41.80 million (₹166.50 million less ₹124.70 million already provided) has been recorded in the books of accounts.
02	PSRDCL	30 September 2024	a. We would like to draw your attention to Note no. 38 of the Special purpose financial statements, wherein it is mentioned that, During the previous financial year ended March 31, 2024, the Company's shareholding was transferred to Roadstar Infra Investment Trust (RIIT), an InvIT, following due approvals from the lenders, the authority, and the NCLT. Pursuant to this transfer, no interest was payable to the lenders for the period from October 16, 2018, to March 31, 2021. Interest accrued up to October 15, 2018, was converted into a loan, and the lenders executed a loan agreement with restructured terms. Debt servicing under these revised terms commenced in June 2023.Additionally, the senior lenders had recovered ₹230.48 million post-October 15, 2018, which was adjusted against the outstanding debt as per the distribution plan approved by the NCLAT. While the senior lenders have incorporated the restructuring of debt into their books, a review of the statements of account received from them indicates a variance in the balances for five out of twelve lenders. As of September 30, 2024, the net variance between the debt balances reported by the senior lenders and those recorded in the Company's books is ₹22.89 million. The Company is actively engaging with the senior lenders to reconcile and resolve this discrepancy. Management is of the view that the resolution of these matters will not have any impact on the financial statements of the Company
03	SBHL	31 March 2024	a. *"We draw attention to Note No. 12.2 to the Interim Special Purpose financial statements, wherein it has been mentioned that a loan from the unrelated party obtained in 2017-18 has not been restructured with other loans due the reasons mentioned in the said note. As stated in the said note the unrelated lender has not provided balance confirmation as on March*

			31, 2024. Further, the outstanding balance of the said unrelated lender is not in agreement with the books of the company due to reasons mentioned in the said note. Our opinion is not modified for the above matters." The details pertaining to above-mentioned point have been placed at Note No 14 to the Special Purpose Combined Financial Statements.
04	PSRDCL	31 March 2024	a. *"We draw your attention to Note no. 38 of the Special purpose financial statements wherein it is mentioned that, During the current financial year, the Company's shareholding was transferred to Roadstar Infra Investment Trust (RUT), an InvIT, after receiving due approval from the lenders, authority, and NCLT. Pursuant to this transfer, no interest was payable to the lenders for the period from 16th October 2018 to 31st March 2021. The interest accrued until 15th October 2018 was converted into a loan. The revised debt amount as of October I 5, 2018 was agreed by the lenders as a part of restructuring of debt, subject to approval from NHAI for extension of concession period. However, based on representation from Company, some lenders have given waiver of such condition. The lenders executed a loan agreement with restructured terms, and the debt was serviced from June 2023 onwards in accordance with these revised terms. The senior lenders had also recovered Rs. 230.48 million post-October 15, 2018 and in accordance with the distribution plan approved by NCLAT, this amount was adjusted against the outstanding debt."* *"However, based on the statement of account received from the senior lenders, it appears that eight out of twelve lenders have not given effect to the execution of the debt restructuring agreement and the recovery of Rs. 230.48 million and continued to charge interest at a higher rate on old outstanding debt numbers. This has resulted in a net variance of Rs. 2,697.86 million between the debt balances reported in the statement of account provided by the*

			senior lenders and the Company's records. The Company is in discussions with the senior lenders to resolve this discrepancy." *"The debt restructuring proposal has been approved by all the senior lenders. However, Bank of Baroda has added provisions seeking right to recompense subject to the same being allowed by NCLA T. The company has submitted an application seeking directives from NCLAT, praying that lenders are not entitle to interest during moratorium and right to recompense. The issue is currently awaiting decision by NCLAT and has been disclosed as contingent liability (Ref Note 30). Management is of the opinion that the outcome of these discussions will not have any impact on the financial statements of the Company. Our audit opinion is not modified in respect of the above matter."* The details pertaining to above-mentioned point have been placed at Note No 44(b) to the Special Purpose Combined Financial Statements. b. *"We draw your attention to Note no. 34 of the Special Purpose financial statements wherein it is mentioned that, During the financial year 2021-22, senior lenders had initiated forensic audit of the Company through independent third party for the period 1st Jun 2010 to 31st Mar 2016. The Forensic Audit closed by lenders with a remark as "Fraud Account". Company has made representation based on the facts strongly contesting the classification of the account and challenged the wrong classification of the account by the forensic auditors. Notwithstanding the above, it is to be noted that al l the lenders have approved the transfer of asset by ITNL to InvIT and have sanctioned the debt restructuring proposal. The company is not envisaging any impact on account of this in the financial statements. Our audit opinion is not modified in respect of the above matter."*

			The details pertaining to above-mentioned point have been placed at Note No.41(m) to the Special Purpose Combined Financial Statements.
05	BAEL	31 March 2024	a. *"We draw attention to the Note No. 34 of the accompanying Ind AS Special Purpose Financial Statements wherein the company has stated that The Ministry of Corporate Affairs (MCA), Government of India, has vide its letter dated October 1, 2018 initiated investigation by Serious Fraud Investigation Office (SFIO) against IL&FS (ultimate holding company) and its group companies under Section 212 (1) of the Companies Act, 2013. As a part of investigation of affairs of ITNL (the Holding Company), SFIO has also been seeking from ITNL various information including relating to project undertaken by the Company (for which ITNL acted as Development Contractor and promoter). The investigation is in progress and it is understood that the relevant information is being provided by ITNL to the agency. At this stage, no material impact/ implications had arisen from the aforesaid developments. However, an uncertainty relating to the future outcome of the regulatory actions is not determinable at this stage;"* The details pertaining to above-mentioned point have been placed at Note No 41(b) to the Special Purpose Combined Financial Statements. b. *"We draw attention to the Note No. 35 of the accompanying Ind AS Special Purpose Financial Statements wherein the company has stated that pursuant to the "Third Progress Report - Proposed Resolution Framework for the IL&FS Group" dated 17 December, 2018 and the "Addendum to the Third Progress Report - Proposed Resolution Framework for IL&FS Group" dated January 15, 2019 ("Resolution Framework Report") submitted by the Company to the Ministry of Corporate Affairs, Government of India which, in turn, was filed with the Hon'ble National Company Law Appellate Tribunal ("NCLAT"), the creditors of the Company were invited*

			(via advertisement(s) dated May 22, 2019) to submit their claims as at October 15, 2018 with proof, on or before 5 September, 2019 (later extended till February 5, 2020)) to a Claims Management Advisor ("CMA") appointed by the IL&FS Group. The amounts claimed by the financial and operational creditors are assessed for admission by the CMA. *The CMA, vide their various communications to the management of the Company, have submitted their report on the status of the claims received and its admission status. The report is subject to updation based on additional information / clarification that may be received from the creditors in due course.* *Management of the Company has reviewed the claims made by third parties with the CMA, and reconciled them with the books of accounts and accounted in the books of accounts appropriately.* The details pertaining to above-mentioned point have been placed at Note No 41(i) to the Special Purpose Combined Financial Statements. c. *"We draw attention to the footnote to Note No. 35 of the accompanying Ind AS Special Purpose Financial Statements wherein the company has stated that the National Company Law Appellate Tribunal ("NCLAT") had passed an order on October 15, 2018 ("Interim Order") in Company Appeal (AT) 346 of 2018, imposing moratorium on the creditors of IL&FS and its 348 group companies, which includes the Company. Further, NCLAT vide its order dated February 11, 2019 had also classified the Company under the "Red Category" based on a 12-month cash flow solvency test, indicating it is not in a position to discharge its entire Debt as and when due. Accordingly, the Company is permitted to make only those payments necessary to maintain and preserve the going concern status. This consequently also resulted in downgrade of debt ratings of the Company. NCLAT wide its order dated March 12, 2020, had upheld its interim order of October 15,*

			2018. The said order specifies October 15, 2018 as the date of initiation of the Resolution Process of the Company. Accordingly, the Company has not accrued any interest, default interest, penal interest and any other similar charges after the said cut-off date of October 15,2018 and also not repaid any principle amount of debt due. As a result, Rs.411.01 Million (during the period October 2018 to March 2020) recovered by the banks (towards interest and principal) from the Escrow accounts of the Company maintained with them is being treated as Receivable from banks in these financial statements. The Company has written to the banks for recoveries of the same amounts in view of moratorium extended by the October 15, 2018 Order of NCLT. These amounts have not been handed back to the Company till date. Further, the balances as confirmed by the lenders, in some cases, are not in agreement with the books of the company which is under reconciliation. *During the current financial year, further Rs. 1,935.00 Million recovered by the banks from the Escrow accounts of the Company maintained with them. The company has disclosed the amount of such recoveries as at March 31, 2024 amounting to Rs. 2,346.01 Million (Previous Year Rs.411.01 Million) as an Amount Receivable from Bank.* *We also draw attention to the Note No. 36 of the accompanying Ind AS Financial Statements wherein the company has stated that, in line with the affidavit filed by Ministry of Corporate Affairs (MCA) to the Hon'ble NCLAT on May 21, 2019, the cut-off date of October 15, 2018 ("Cut-Off Date") was proposed, on account of inter alia the fact that the Hon'ble NCLAT had passed the Order on October 15, 2018, which inter alia granted certain reliefs to the IL&FS Group and also restricted certain coercive actions by the creditors of the IL&FS Group.* *In terms of the Resolution Framework Reports, the proposal made is that all liabilities relating to the relevant IL&FS Group Entity, whether financial*

			(including interest, default interest, indemnity claims and additional charges), operational debt (including interest, indemnity or other claims) as well as statutory claims (including tax, employment and labour related claims), whether existing at or relating to a period prior to the Cut-Off Date should not continue accruing. *Accordingly, the interest expenses are accounted on borrowings until October 15, 2018;"* The details pertaining to above-mentioned point have been placed at Note No 44(c)&(d) to the Special Purpose Combined Financial Statements. d. *"We draw attention to the Note No. 40 of the accompanying Ind AS Special Purpose Financial Statements wherein the company has stated that, as per the Minutes of Meeting with Lenders Consortium held on dated March 16, 2023, the company is to incur capital cost of Rs. 533.93 Crore for completing the remaining construction activities, these costs shall not provide any incremental revenue for the company beyond the revenue stream as of now. However, these would be required to complete the entire stretch of the project and is one of the contractual obligation of the company. The amount is as determined by the Independent Engineer of NHAI and the company is reassessing the same. The costs as and when incurred will be treated as part of the cost of the intangible assets. The Company has already awarded contract for remaining work to be executed; "* The details pertaining to above-mentioned point have been placed at Note No 41(k) to the Special Purpose Combined Financial Statements. e. *"We draw attention to the Note No. 43 of the accompanying Ind AS Special Purpose Financial Statements wherein the company has stated that, the project concession period is 20 years and the*

			appointed date of the project was April 1, 2014. Accordingly, project concession ends in March 2034. As per the Clause 29 .1.2, in the event Actual Average Traffic shall have fallen short of the Target Traffic, then for every 1 % (one per cent) shortfall as compared to the Target Traffic, the Concession Period shall, subject to payment of Concession Fee in accordance with this Agreement, be increased by 1.5%(one point five per cent) thereof; provided that such increase in Concession Period shall not in any case exceed 20% (twenty per cent) of the Concession Period. As per the traffic projections, there will be lower traffic as on target date and hence, the Company is eligible for extension of concession period of 5 years 3 months (subject to maximum of 4 years) i.e. the concession period will be till June 2038. Such extension of concession period has been considered for accounting of amortisation, impairment and negative premium payable to NHAI. In view of this, an addition of Rs. 787.35 Million was recognised as addition to Intangible asset during previous year ended March 31, 2020, being the net present value of premium payable for extended period." The details pertaining to above-mentioned point have been placed at Note No 45 to the Special Purpose Combined Financial Statements. f. We draw attention to Footnote to Nole No. 7 of the accompanying special purpose financial statements wherein the company has staled that in prior periods, the Company had recognized a claim receivable from the Authority amounting to 1,286.36 million, based on Paragraph 6 of the letter issued by NHAI (Reference No. I 50I7/I/2013/PIU(DUP)/I 832 dated September 25, 2019). Additionally, the Company had recorded liabilities of 1,237.88 million towards the negative change of scope related to de-scoped works and other claims by NHA1, and 124. 70 million for a possible penalty for overloading.

			As part of a comprehensive settlement agreement dated September 30, 2024, witl1 NHAJ, these claims have been resolved, resulting in a net recoverable amount of 70 million from NHAI. Accordingly, the remaining balances have been adjusted during the current period, with 1,237.88 million written back and 1,324.39 million written off The amounts written off include 80.55 million of other recoverable and 0.18 million recoverable from other parties (Refer to Notes 19 and 23). Further, as part of the settlement, the Company was required to pay 166.50 million as a penalty for harmonious substitution. Consequently, an additional liability ofNI.80 million (166.50 million less 124.70 million already provided) has been recorded in the books of accounts. The details pertaining to above-mentioned point have been placed at Note No 5 note(A) to the Special Purpose Combined Financial Statements
06	PSRDCL	31 March 2023	a. *"We draw your attention to Note no. 32 of the financial statements wherein it is mentioned that, The Ministry of Corporate Affairs (MCA), Government of India, has vide its letter dated October I, 2018 initiated investigation by Serious Fraud Investigation Office (SFIO) against IL&FS (ultimate holding company) and its group companies under Section 212 (I) of the Companies Act, 2013. As a part of investigation of affairs of ITNL (the Holding Company), SFIO has also been seeking from ITNL various information including relating to project undertaken by the Company (for which ITNL acted as Development Contractor and promoter). The investigation is in progress, and it is understood that the relevant information is being provided by ITNL to the agency. At this stage, no material impact/ implications had arisen from the aforesaid developments. However, an uncertainty relating to the future outcome of the regulatory actions is not determinable at this stage.* b. *"We draw your attention to Note no. 35 of the financial statements wherein it is mentioned that, During the current financial year owing to approval*

			by NCLT on October 14, 2022, for transfer of asset to InvIT and restructuring process being approved by the secured lenders , the company has accounted interest for senior secured loan effective April I, 2021 as per the new terms and conditions mentioned in revised sanction letters received from secured lenders. The lenders have agreed to the balances as of April I, 2021, which align with the claims submitted by all lenders as of October 15, 2018. These claims have been admitted by the Claim Management Advisor, as part of the Resolution Process approved by the NCL T. However, no debt servicing is done for any lender in current period as the loan agreement with the senior and other lenders for revised term & conditions are yet to be executed. Under the circumstances, the lenders have continued to classified the loan account as Non-Performing Asset. Company expects the loan account to be re-classified as standard, once the company makes the payment upon execution of loan agreement. *Based on the statement of account received from the senior lenders, it appea1·s that they have not given effect of the debt restructuring and the recovery of Rs. 230.48 million, which they did post October 15, 2018 and continued to charge interest at a higher rate on old outstanding debt numbers, the company has recognised interest based on revised sanction letters received from the secured lenders. This has resulted in a variance of Rs. Rs. 1453.58 million between the debt balances reported in the statement of account provided by the senior lenders and the Company's records. Company is in the process of complying the conditions as stated in sanction letters and is not envisaging any additional interest burden over and above interest rates as specified in revised sanction letters from secured lenders."*
07	SBHL	31 March 2023	a. *"We draw attention Note No 33 (b) of the financial statement, company and senior lenders have entered into a restructuring agreement, however the said plan has not been implemented by the lenders*

			due to reasons as stated in note. Consequently the outstanding balances of borrowings as per lenders and books of the company are not in agreement due to different interest rates, recovery amount debited after October 15th 2018 etc." b. *"We draw attention to Foot note (2) to Note No. 12 of the financial statement, the outstanding balance of one of the unrelated lenders is not in agreement with the books of the company due to reasons as mentioned in the said note. Further restructuring agreement with said lender has not yet been finalized."*
08	BAEL	31 March 2023	a. *"We draw attention to Note No. 30 of the accompanying financial statements, the National Company Law Tribunal has ordered for reopening and recasting of the books of accounts for the financial years 2012-13 to 2017-18 of the holding company IL&FS Transportation Networks Limited, ultimate holding company IL&FS India Limited and a subsidiary thereof viz. IL&FS Financial Services Limited only and management is of the view that it is not applicable to the company, it is expected that impact, if any, arising out of the said reopening / recasting would be limited to above mentioned three entities only. The process of reopening and recasting is still ongoing and hence the resultant / consequent impact, if any, that it may have on the financial statements of the company is not presently ascertainable"* b. *"We draw attention to Note No. 31 to the accompanying financial statements, the Ministry of Corporate Affairs, Government of India, has vide its letter dated October 1, 2018 initiated investigation by Serious Fraud Investigation Office (SFIO) against IL&FS Ltd. (ultimate holding company) and its group companies under Section 212 (1) of the Companies Act, 2013. As a part of its investigation of affairs of ITNL (the holding company), SFIO has been seeking from ITNL various information including relating to project undertaken by the Company (for which ITNL acted as development contractor and promoter).*

			The investigation is in progress and it is understood that the related information is being provided by ITNL to the agency. At this stage, no material impact / implications had arisen from the aforesaid developments. However, an uncertainty relating to future outcome of the regulatory action is not determinable at this stage." c. *"As mentioned in Note No. 32 of the accompanying financial statements, the books of accounts of IL & FS India Ltd. (the ultimate holding company) and certain companies of the group are being subject to a forensic audit by an independent third party who had submitted its report. Since the report does not related to the operations of the company, the company does not envisage any adjustments to its financial statements.* d. *We draw your attention to Note No. 40 to accompanying financial statements wherein the company has disclosed that Independent Engineer of NHAI has assessed that the company is required to incur an amount of Rs. 533.93 Crore to complete the pending work for which though contractually liable, the company shall not have any incremental revenue generation, which shall be shown as part of asset as and when incurred.* e. *We draw your attention to Note No. 34 & 35 to accompanying financial statements regarding NCLAT Order on Moratorium for financial creditors of the Company based on which Company has stopped servicing and accruing interest and repayment to financial creditors effective from October 15, 2018. Consequently, no interest has been accrued after October 15, 2018.* f. *Interest and principal aggregating to Rs. 41.10 Crore recovered by the financial creditors, still not being refunded to the company, is being shown as Receivable from such financial creditors and there is a corresponding difference between the balances as per banks vis-à-vis the balances as per books.*

			Pending completion of the resolution process, the ultimate impact on the financial statements is not presently determinable."
09	TRDCL	31 March 2023	*"We would like to draw your attention to Note no. 35 of the Financial Statements, wherein it is mentioned that,* *a. The Ministry of Corporate Affairs (MCA), Government of India, initiated an investigation by the Serious Fraud Investigation Office (SFIO) against IL&FS erstwhile ultimate holding company) and its group companies, as conveyed in the MCA's letter dated October 1, 2018. SFIO's investigation also includes the affairs of ITNL (the erstwhile Holding Company), and they have been requesting various information from ITNL, particularly related to the projects undertaken by the company where ITNL acted as the Development Contractor and promoter. ITNL has been cooperating with SFIO by providing the requested information as part of the ongoing investigation. As of now, no material impact or implications have arisen from these developments. The equity capital of ITNL has been transferred to RIIT (InvIT) as part of the resolution process, and based on the company's assessment, there is no expected impact from this exercise.* *b. The Board of Directors of ITNL (erstwhile holding company) has approved the restatement of its accounts and submitted them to the MCA. This restatement does not affect the financial statements of the Company for the current year.* *c. Additionally, an independent third party appointed by IL&FS Board (erstwhile ultimate holding company) submitted forensic audit report to ITNL (erstwhile holding company) during previous year ended March 31, 2022. Since the audit is primarily relating to operations of ITNL, Company is not envisaging*

			any adjustment in financial statement in this regard."
09	SBHL	31 March 2022	*a. We draw attention to Foot note to Note No. 34 of the financial statement, company has accounted for interest expense (excluding other charges by lenders) on its borrowings based on sanction letter/deed of assignment for restructuring received from the senior lenders/group companies and pursuant to the same interest expense of Rs. 361.17 million has been booked by the company during the current financial year. As stated in the said note the presently the loan agreement with lenders has not been executed, hence the repayments have not started and due to the same (Refer note no. 12 (2) (b)) the outstanding balances of debts with lenders are not in agreement with the books of accounts.*

Our opinion is not modified in respect of the above matter.

Key Audit Matters

7. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Special Purpose Combined Financial Statements of the year. These matters were addressed in the context of our audit of the Special Purpose Combined Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

8. **Summary of Key Audit Matters by Auditors of SPVs:**
The respective auditors of a subsidiary and a joint venture have drawn attention in their respective audit reports, without modifying their respective opinion, on following matters:

Sr No	Name of entity	Year	Key Audit Matters	Auditors Response to Key Audit Matters
01	BAEL	31 March 2024	Intangible Asset - Rights under Service Concession Arrangement	*"We assessed the Company's process for determining the expense on account of amortization of the Intangible Asset which involved testing of the design and operating effectiveness of the internal controls and substantive testing procedures as described below:*

				a) Assessed the management significant judgements I estimates used in evaluation of inputs for the purpose of determination of such amortisation in accordance with Ind AS 38. We carried out a combination of procedures involving enquiry and observation, and inspection of evidence in respect of verification of the same. *b)We assessed the process of preparation of and modifications in the amortisation schedule over the rema1mng concession period for determination of amortisation expense for the period under audit.* *c)Performed analytical procedures by comparing assumptions and fair values of the asset, basis the computed amortisation schedule on year-on-year basis and obtained reasons for the variances, wherever identified.*
02	BAEL	31 March 2024	Intangible Asset under Development	*"We assessed the Company's process for determining the additions to the Intangible Asset under development which involved testing of the design and operating effectiveness of the internal controls and substantive testing procedures as described below:* *a)Assessed the management significant judgements I estimates used in evaluation of inputs for the purpose of determination of such addition to the Intangible Asset under development in accordance with Ind AS 38. We carried out a combination of procedures involving enquiry and observation, and inspection of evidence in respect of verification of the same.* *b) We assessed the process of preparation of and modifications in the IRR Model over the concession period including relevant judgements and estimates for determination of margin over construction cost for the period under audit.* *c) Performed analytical procedures by comparing assumptions and fair values of the asset under development, basis the computed IRR Model on*

				year-on-year basis and obtained reasons for the variances, wherever identified."
03	BAEL	31 March 2024	Revenue Recognition	*"We assessed the Company's process for determining the revenue from operations on account of Toll Revenue and the Construction Income which involved testing of the design and operating effectiveness of the internal controls and substantive testing procedures as described below:* *a) Assessed the correctness, completeness and relevance of the management data gathered through multiple reporting platforms and performed a comparative analysis to assess the completeness of the revenue recorded on account of Toll Collections during the period under audit in accordance with Ind AS 115. We carried out a combination of procedures involving enquiry and observation, and inspection of evidence in respect of verification of the same.* *b) We assessed the process of preparation of and modifications in the IRR Model over the concession period including relevant judgements and estimates for determination of margin over construction cost for the period under audit.* *c) Performed analytical procedures by comparing assumptions and year-on- year comparison of the income in order to assess the relevant trends and obtained reasons for the variances, wherever identified."*

Management's Responsibility for the Combined Financial Statement

9. The Investment Manager of the InvIT is responsible for the preparation of these Special Purpose Combined Financial Statements that give a true and fair view of the combined financial position, combined financial performance including other comprehensive income, combined cash flows, combined net asset at fair value, combined total returns at fair values, combined statement of change in equity in accordance with the basis of preparation specified in note 1.2.2.1 to the Special Purpose Combined Financial Statements. The respective Board of Directors of the SPVs are responsible for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013; for safeguarding the assets of the SPVs and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design,

implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of these Special Purpose Combined Financial Statements by the Investment Manager, as aforesaid.

10. In preparing the Special Purpose Combined Financial Statements, the Board of Directors of the Investment Manager and the respective Board of Directors of the SPVs are responsible for assessing the ability of the SPVs to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the SPVs or to cease operations or has no realistic alternative but to do so. The Board of Directors of the Investment Manager and the respective Board of Directors of the SPVs are also responsible for overseeing the financial reporting process of the SPVs.

Auditor's Responsibility for the Combined Financial Statement

11. Our objectives are to obtain reasonable assurance about whether the Special Purpose Combined Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Special Purpose Combined Financial Statements.

12. As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Combined Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Combined Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the preparation of the Combined Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for expressing an opinion on the effectiveness of the internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Investment Manager, as well as evaluating the overall presentation of the Combined Financial Statements.

    We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

    We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

13. We did not audit the financial statements and other financial information as at 30 September 2024,31 March 2024, 31 March 2023 and 31 March 2022 in respect of SPVs, whose financial statements are included in the Special Purpose Combined Financial Statements. These financial statements and other financial information have been audited by other auditors, for which financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the Combined Financial Statements, in so far as it relates to the amounts and disclosures included in respect of the SPVs, is based solely on the reports of such other auditors.

Restriction on Distribution and Use

14. This report is addressed to and is provided to the Investment Manager solely for the purpose of inclusion in the Placement Memorandum in connection with the proposed distribution of units by the InvIT on private placement basis. Our report should not be used, referred to or distributed for any other purpose or to any other party without our prior written consent. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

* as on 30th September 2024

#Post September 30, 2024, the trust completed the acquisition of 100% ownership of BAEL.

The financial statements were authorised for issue in accordance with resolution passed by the board of directors of the Investment manager on 04 January 2025 .

1.2. Material accounting policies

1.2.1 Overall consideration

The combined financial statements have been prepared using the material accounting policies and measurement bases summarised belothrew. These were used throughout all periods presented in the financial statement.

1.2.2 Basis of preparation and presentation

1.2.2.1 Basis of preparation/Combination

The Combined Financial Statements of the SPV Group comprise the Combined Balance Sheet as at 30 September 2024, 31 March 2024, 31 March 2023 and 31 March 2022 and the Combined Statement of Profit and Loss, Combined Cash Flow Statement, Combined Statement of Changes in Equity and a Summary of Material Accounting Policies and Other Explanatory Information for the period ended September 30, 2024, year ended 31 March 2024, 31 March 2023 and 31 March 2022

The combined financial statements of the SPV Group have been prepared in accordance with the Indian Accounting Standards and/or any addendum thereto as defined in the Rule 2(1)(a) of the Companies (Indian Accounting Standard) Rule, 2015, as amended (Ind AS) and SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and the circulars issued thereunder ("InvIT Regulations"). The SPV Group has uniformly applied the accounting policies during the periods presented.

The Combined Financial Statements are special purpose financial statements and have been prepared by the Investment Manager to meet the requirements of InvIT Regulations and for inclusion in the placement memorandum prepared by the Investment Manager in connection with the proposed private placement of units of Trust. As a result, the Combined Financial Statements may not be suitable for another purpose. As permitted by para 41 of the Guidance Note, comparative figures for the six-months period ended 30 September 2023 have not been given. Further, the Combined Financial Statements are not prepared in accordance with the requirements of Schedule III notified under the Companies Act, 2013

As required by the InvIT regulations, the Combined Financial Statements are prepared, based on an assumption that all SPV's were part of Trust for such period when Trust was not in existence. However, the Combined Financial Statements may not be representative of the position which may prevail after the SPV Group is transferred to Trust

The Combined financial statements are presented in India Rupees which is also the functional currency of the SPV Group and all values are rounded to the nearest millions, unless otherwise indicated.

KKC & associates LLP Chartered Accountants
Roadstar Infra Investment Trust

Certain amounts that are required to be disclosed and do not appear due to rounding-off or construes value less than Rupees five thousand, are expressed as 0.00 (Zero)

These Combined Financial Statements have been prepared on going concern basis in accordance with accounting principles generally accepted in India. Further, the financial statements have been prepared on historical cost basis except for certain financial assets and financial liabilities, which are measured at fair values as explained in relevant accounting policies.

Combined financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the SPV Group uses accounting policies other than those adopted in the combined financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that SPV Group member's financial statements in preparing the combined financial statements to ensure conformity with the SPV Group's accounting policies.

The financial statements of all entities used for the purpose of combination are drawn up to same reporting date as that of the SPV Group, i.e., year ended on March 31 and stub period September 30, 2024

Basis of Combination:

(a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the SPV, and

(b) The Special purpose Combined Financial Statements of all the SPVs have been combined by combining/adding like items of assets, liabilities, equity, income, expenses.

(c) The Special purpose Combined Financial Statements of all the SPVs have been combined based on the assumption that all the SPVs are part of a single group for the entire period presented pursuant to the InvIT Regulations.

(d) The tax expenses are combined for all the expenses actually incurred by the combining businesses in accordance with the Guidance Note on Combined and Carve-Out Financial Statements.

(e) Share capital has been presented by adding the individual capitals of each of the SPVS. For the proportionate share of the Capital attributable to the Non-controlling interest. management has disclosed this amount separately from the combined capital.

(f) Other equity has been presented by adding the individual other equity's of each of the SPVs. For the proportionate share of the other equity attributable to the Non-controlling interest, management has disclosed this amount separately from the combined other equity

(g) Interests in following joint venture are accounted for using the equity method, after initially being recognised at the net book value of the entity as at April 1, 2020

Name of SPV	Description of asset	Current shareholding
TRDCL	Set up to develop, widen, strengthen, operate, construct and maintain the Thiruvananthapuram City Roads Improvement Project	1) IL&FS Transportation Networks Limited – 50% (upto 18th December 2022)

	(TCRIP) under the Annuity Concession Agreement	The Trust (from 19th December 2022) 2) Punj Lloyd Limited – 50%

1.2.2.2. Summary of Material Accounting Policies

a) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. The principal accounting estimates used have been described under the relevant income/expense and/or asset/liability item in these financial statements. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

SPV Group determines future estimated revenue, future estimated traffic count, discounting rate etc. at each balance sheet which is used to arrive at Amortization & Impairment of Intangible Assets, Deferred Tax Calculation, provision for overlay etc. During the Current financial year management has obtained a traffic study report which is prepared by an independent consultant to estimate future traffic revenue/traffic count.

Further, the Group has applied the principles of prudence and substance over form for recognition and measurement of its assets and liabilities.

In the process of applying the Group's accounting policies, management has made the following judgements, which have a risk of causing a material adjustment to the carrying amounts of assets and liabilities within the current financial year in case of following:

I. Useful life of Property, Plant & Equipment.

II. Amortization of Intangible assets;

III. Provision for Overlay;

IV. Deferred Tax;

V. Impairment testing of Intangible Asset – based on independent assessment;

i) Key estimations in relation to Provision for Overlay

Provision for Overlay is estimated based on Traffic Study report obtained from an independent consultant taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, anticipated technological changes. All these evaluations and

assessments involve judgements on part of the management in estimating future revenue, future estimated traffic count, discounting factor, requirement for incurring overlay expense, etc.

ii) Key estimations in relation to deferred tax assets Group

SPV Group estimates whether the SPV Group will earn sufficient taxable profit in future periods. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. The amount of the deferred tax assets considered realizable could be reduced in the near term, if estimates of future taxable income during the carry forward period are reduced

iii) Key estimations in relation to Useful lives of Property, plant and equipment & Intangible assets, Amortization of Intangible assets and Impairment assessment of Intangible asset

Useful lives of Property, plant and equipment & Intangible Assets (other than the life prescribed under Schedule II of the Companies Act, 2013) are estimated based on Traffic Study report obtained from an independent consultant taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, anticipated technological changes. Impairment assessment in respect of Intangible Asset has been carried based on NPV of future operating cash flow which is again based on certain estimates used by the Independent Valuer. All these evaluations and assessments involve judgements on part of the management in estimating future revenue, future estimated traffic count, future cash flows, discounting factor, etc.

iv) **Contractual obligation to restore the infrastructure to a specified level of serviceability**

The SPV Group has contractual obligations to maintain the infrastructure to a specified level of serviceability or restore the infrastructure to a specified condition during the concession period and/or at the time of hand over to the grantor of the SCA. Such obligations are measured at the best estimate of the expenditure that would be required to settle the obligation at the balance sheet date. In case of concession arrangements under intangible asset model, the timing and amount of such cost are estimated and recognised on a discounted basis by charging costs to revenue on the units of usage method i.e. on the number of vehicles expected to use the project facility, over the period at the end of which the overlay is estimated to be carried out based on technical evaluation by independent experts.

b) Current Versus Non-Current Classification

The SPV Group presents assets and liabilities in the balance sheet based on current / non-current classification. An asset is treated as current when it is:
- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:
- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The SPV Group has identified twelve months as its operating cycle.

c) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the SPV Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government. The specific recognition criteria described below must also be met before revenue is recognised.

Accounting for rights under service concession arrangements and revenue recognition

c.1 Recognition and measurement

The SPV Group's SPV builds, operates and maintains infrastructure assets under public-to-private Service Concession Arrangements (SCAs), which is an arrangement between the "grantor" (a public sector entity/authority) and the "operator" (a private sector entity) to provide services that give the public access to major economic and social facilities utilizing private-sector funds and expertise. The infrastructures accounted for by the SPV Group's SPV as concessions are mainly related to the activities concerning roads, tunnels, and other infrastructure facilities.

Concession contracts are public-private agreements for periods specified in the SCAs including the construction, upgradation, restoration of infrastructure and future services associated with the operation and maintenance of assets in the concession period. Revenue recognition, as well as, the main characteristics of these contracts.

With respect to service concession arrangements, revenue and costs are allocated between those relating to construction services and those relating to operation & maintenance services, and are accounted for separately. Consideration received or receivable is allocated by reference to the relative fair value of services delivered when the amounts are separately identifiable. The

Associates LLP UN Chartered Accountants
Roadstar Infra Investment Trust

infrastructure used in a concession are classified as an intangible asset or a financial asset, depending on the nature of the payment entitlements established in the concession agreement.

When the demand risk to the extent that the SPV Group's SPV has a right to charge the user of infrastructure facility, the SPV Group's SPV recognizes revenues from construction services for public facilities (infrastructures) by the percentage-of-completion method, and recognizes the consideration for construction services at its fair value, as an intangible asset. The SPV Group's SPV accounts for such intangible asset (along with the present value of committed payments towards concession arrangement to the grantor at the appointed date e.g Negative Grant, premium etc) in accordance with the provisions of Ind AS 38 and is amortized based on projected traffic count or revenue, as detailed in Note 3.1.iv, taking into account the estimated period of commercial operation of infrastructure which generally coincides with the concession period. Intangible asset is capitalized when the project is complete in all respects and when the SPV Group's SPV receives the final completion certification from the grantor as specified in the Concession Agreement and not on completion of component basis as the intended purpose and economics of the project is to have the complete length of the infrastructure available for use. The component-based certification which is received is an intermediate mechanism provided in the Concession Agreement to provide a right to collect eligible toll to compensate the SPV Group's SPV for cost recovery during construction period and for any delays beyond the control of the SPV Group's SPV. However, where there is other than temporary delay due to reasons beyond the control of the SPV Group's SPV the management may treat constructed portion of the infrastructure as a completed project. Eligible toll revenue collected on receipt of the component based certification is reduced from the cost of construction, as the construction work on remaining portion is still in progress and the entire asset is not ready for its intended purpose.

When the amount of the arrangement consideration for the provision of public services is substantially fixed by a contract, the SPV Group recognizes revenues from construction services for public facilities (infrastructures) by the percentage-of-completion method, and recognizes the consideration as a financial asset and the same is classified as "Receivables against Service Concession Arrangements". The SPV Group accounts for such financial assets at amortized cost, calculates interest income based on the effective interest method and recognizes it in revenue as Finance Income.

Contractual obligation to restore the infrastructure to a specified level of serviceability

The SPV Group's SPV has contractual obligations to maintain the infrastructure to a specified level of serviceability or restore the infrastructure to a specified condition during the concession period and/or at the time of hand over to the grantor of the SCA. Such obligations are measured at the best estimate of the expenditure that would be required to settle the obligation at the balance sheet date. In case of concession arrangements under intangible asset model, the timing and amount of such cost are estimated and recognised on a discounted basis by charging costs to revenue on the units of usage method i.e. on the number of vehicles expected to use the project facility, over the period at the end of which the overlay is estimated to be carried out based on technical evaluation by independent experts.

Revenue recognition

Once the infrastructure is in operation, the treatment of income is as follows:

Revenue for concession arrangements under intangible asset model is recognized in the period of collection of toll which generally coincides with the usage of public service or where from such rights have been auctioned, in the period to which auctioned amount relates.

i. **Revenue from construction contracts**

The SPV Group's SPV recognizes and measures revenue, costs and margin for providing construction services during the period of construction of the infrastructure in accordance with Ind AS 115 'Revenue from Contracts with Customers'.

When the outcome of a construction contract can be estimated reliably and it is probable that it will be profitable, contract revenue and contract costs associated with the construction contract are recognized as revenue and expenses respectively by reference to the percentage of completion of the contract activity at the reporting date. The percentage of completion of a contract is determined considering the proportion that contract costs incurred for work performed upto the reporting date bear to the estimated total contract costs.

For the purposes of recognizing revenue, contract revenue comprises the initial amount of revenue agreed in the contract, the variations in contract work, claims and incentive payments to the extent that it is probable that they will result in revenue and they are capable of being reliably measured.

The percentage of completion method is applied on a cumulative basis in each accounting period to the current estimates of contract revenue and contract costs. The effect of a change in the estimate of contract revenue or contract costs, or the effect of a change in the estimate of the outcome of a contract, is accounted for as a change in accounting estimate and the effect of which are recognised in the Statement of Profit and Loss in the period in which the change is made and in subsequent periods.

When the outcome of a construction contract cannot be estimated reliably, revenue is recognised only to the extent of contract costs incurred of which recovery is probable and the related contract costs are recognised as an expense in the period in which they are incurred.

ii. **Borrowing cost related to SCAs**

In case of concession arrangement under intangible asset model, borrowing costs attributable to the construction of infrastructure assets are capitalized up to the date of the final completion certificate of the asset / facility received from the authority for its intended use specified in the Concession Agreement. All borrowing costs subsequent to the capitalization of the intangible assets are charged to the Statement of Profit and Loss in the period in which such costs are incurred.

iii. Amortization of intangible asset under SCA

The intangible rights relating to infrastructure assets, which are recognised in the form of right to charge users of the infrastructure asset are amortized by taking proportionate of actual traffic count for the period over total projected traffic count from project to cost of intangible assets; i.e. proportionate of actual traffic for the period over total projected traffic count from the intangible assets expected to be earned over the balance concession period as estimated by the management. However, with respect to toll road assets constructed and in operation as at March 31, 2016, the amortization of such intangible rights are based on actual revenue earned compared to total projected revenue from the project over the balance concession period to cost intangible assets, instead of traffic count.

Total projected revenue / traffic count is reviewed at the end of each financial year and is adjusted to reflect any changes in the estimates which lead to the actual collection at the end of the concession period.

iv. Claims

Claims raised with the concession granting authority towards reimbursement for costs incurred due to delay in handing over of unencumbered land to the SPV Group's SPV for construction or other delays attributable solely to the concession granting authority are recognised when there are is a reasonable certainty that there will be inflow of economic benefits to the SPV Group's SPV. The claims when recognised as such are reduced from the carrying amount of the intangible asset under the service concession arrangement, to the extent the claims relate to costs earlier included as a part of the carrying amount of these assets. Further, these claims are credited to profit or loss to the extent they relate to costs earlier debited to profit or loss. The claims are presented separately as a financial asset

v. Accounting of receivable and payable from / to the grantor (Grants)

a) Receivable towards the concession arrangement from the grantor
When the arrangement has a contractual right to receive cash or other financial asset from the grantor specifically towards the concession arrangement (in the form of grants) during the construction period or otherwise, such a right, to the extent eligible, is recorded as financial asset in accordance with Ind AS 109 *"Financial Instruments,"* at amortized cost.

For Intangible assets where the [the SPV Group / the Group's SPV has availed the exemption under D7AA of Ind AS 101, the Financial asset has to be recognized only for all such receivables post April 01, 2015

kkc & associates llp Chartered Accountants

Roadstar Infra Investment Trust

c.2 Interest Income :

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rates applicable. For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR).

c.3 Dividends :

Revenue is recognised when the SPV Group's right to receive the payment is established, which is generally when shareholders approve the dividend.

d) Taxes

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the SPV Group operates and generates taxable income.

Current income tax relating to items recognised outside the Statement of Profit and Loss is recognised outside the Statement of Profit and Loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

- In respect of taxable temporary differences associated with investments In subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse In the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it

kkc & associates LLP Chartered Accountants
Roadstar Infra Investment Trust

is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Goods and Service Tax Paid on Acquisition of Assets or on Incurring Expenses

Expenses and assets are recognised net of the amount of goods and service tax paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the tax authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of tax included. The net amount of tax recoverable from, or payable to, the tax authority is included as part of receivables or payables in the balance sheet.

e) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of SPV Group's. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

f) Provisions

Provisions are recognised when the SPV Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will

kkc & associates llp Chartered Accountants
Roadstar Infra Investment Trust

be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the SPV Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

g) Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the SPV Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The SPV Group does not recognise a contingent liability but discloses its existence in the financial statements. A contingent assets is not recognised unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of economic benefits is probable, contingent assets are disclosed in the financial statements. Contingent liabilities and contingent assets are reviewed at each balance sheet date.

h) Financial Instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets Initial Recognition and Measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through Statement of Profit and Loss, directly attributable transaction cost to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the SPV Group commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories;

- at amortised cost
- at fair value through profit or loss (FVTPL)
- at fair value through other comprehensive income (FVTOCI)

Financial Assets at Amortised Cost

A financial asset is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual

KKC & associates LLP VN Chartered Accountants
Roadstar Infra Investment Trust

cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the SPV Group. All the Loans and other receivables under financial assets (except Investments) are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The losses arising from impairment are recognised in the Statement of Profit and Loss.

Financial Assets at Fair Value through Statement of Profit and Loss / Other Comprehensive Income

All investments in scope of Ind AS 109 are measured at fair value. The SPV Group investment in Debt oriented mutual Fund which are held for trading, are classified as at FVTPL. The SPV Group makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable. The gain / loss on sale of investments are recognised in the Statement of Profit and Loss.

Instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

Derecognition
A financial asset (or, where applicable, a part of a financial asset or part of a the SPV Group of similar financial assets) is primarily derecognised (i.e. removed from the SPV Group's balance sheet) when:

The rights to receive cash flows from the asset have expired, or

The SPV Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the SPV Group has transferred substantially all the risks and rewards of the asset, or (b) the SPV Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the SPV Group has transferred its rights to receive cash flows from an asset or enters into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the SPV Group continues to recognise the transferred asset to the extent of the SPV Group's continuing involvement. In that case, the SPV Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the SPV Group has retained.

i) Property, plant and equipment

Property, plant and equipment acquired by the SPV Group are reported at acquisition cost, with deductions for accumulated depreciation and impairment losses, if any.

The acquisition cost includes the purchase price (excluding refundable taxes) and expenses, such as delivery and handling costs, installation, legal services and consultancy services, directly attributable to bringing the asset to the site and in working condition for its intended use.

Where the construction or development of any asset requiring a substantial period of time to set up for its intended use is funded by borrowings, the corresponding borrowing costs are capitalised up to the date when the asset is ready for its intended use.

All assets are depreciated on a Straight Line Method (SLM) of Depreciation, over the useful life of assets as prescribed under Schedule II of the Companies Act, 2013 other than assets specified in para below

Following assets are depreciated over a useful life other than the life prescribed under Schedule II of the Companies Act, 2013 based on internal technical evaluation, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes etc.:

Asset	Useful life based on SLM
Data Processing Equipment (Server & Networking)	4
Mobile Phones and I pad / Tablets	Fully depreciated in the year of purchase
Specialised office equipment's	3
Vehicles	5
Assets provided to employees	3

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the

difference between the sales proceeds and the carrying of the asset and is recognised in profit or loss.

Intangible assets (other than those covered by SCAs)

Intangible assets, other than those covered by SCAs, comprise of software and amounts paid for acquisition of commercial rights under an "Operation and Maintenance" agreement for a toll road project and are depreciated as follow:

Asset Type	Useful Life
Licensed Software	Over the licence period
Intellectual Property Rights	5 - 7 years
Commercial Rights acquired under Operations and Maintenance Agreement	The minimum balance period of the concession agreement relating to the corresponding toll road project

Intangible assets are reported at acquisition cost with deductions for accumulated amortisation and impairment losses, if any.

Acquired intangible assets are reported separately from goodwill if they fulfil the criteria for qualifying as an asset, implying they can be separated or they are based on contractual or other legal rights and that their market value can be established in a reliable manner.
An impairment test of such intangible assets is conducted annually or more often if there is an indication of a decrease in value. The impairment loss, if any, is reported in the Statement of Profit and Loss.

Intangible assets, other than those covered by SCAs, are amortised on a "straight line" basis over their estimated useful lives. The estimated useful life of software is four years. The amount paid for acquisition of the rights under the "Operations and Maintenance" agreement is amortised over the minimum balance period (as at the time of acquisition) of the concession agreement relating to the corresponding toll road project.

j) Impairment of tangible and intangible assets

At the end of each reporting period, the SPV Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

MKC & associates LLP UN Chartered Accountants
Roadstar Infra Investment Trust

In assessing value in use, the estimated future cash flows are discounted to their present value using appropriate discount rate.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually, or whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.
A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Impairment of Financial Assets

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category. For financial assets other than trade receivables, as per Ind AS 109, the Group recognizes 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial assets increases significantly since its initial recognition. The impairment losses and reversals are recognized in Statement of Profit and Loss.

Impairment of Non-financial Assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset unless the asset does not generate cash inflows that are largely independent of those from other assets or Group's assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through Profit or Loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or Losses on Liabilities held for Trading are Recognised in the Statement of Profit and Loss.

Loans and Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are de-recognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the standalone balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

KKC & associates LLP Chartered Accountants
Roadstar Infra Investment Trust

k) Investment in Subsidiaries

Investments (equity instruments as well as subordinate debt) in subsidiaries are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, the difference between net disposal proceeds and carrying amounts are recognised in the Statement of Profit and Loss.

l) Foreign Currencies

The Group's financial statements are presented in INR, which is also the Group's functional currency. The Group does not have any foreign operation and has assessed the functional currency to be INR.

Transactions and Balances Transactions in foreign currencies are initially recorded by the Group at their respective functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

m) Fair value Measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's Management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for distribution in discontinued operations.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Group's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

On an annual basis, the Management of Investment Manager presents the valuation results to the Audit Committee and the Group's independent auditors. This includes a discussion of the major assumptions used in the valuations.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Financial instruments (including those carried at amortised cost) (note 31)
- Quantitative disclosure of fair value measurement hierarchy (note 31)

n) Contributed Equity

Units are classified as equity. Incremental costs attributable to the issue of units are directly recorded in equity, net of tax.

o) Distribution to Unit Holders

The Group recognises a liability to make cash distributions to unit holders when the distribution is authorised and a legal obligation has been created. As per the InvIT Regulations, a distribution is authorised when it is approved by the Board of Directors of the Investment Manager. A corresponding amount is recognised directly in equity.

p) Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

q) Earnings Per Unit (EPU)

Basic earnings per unit are calculated by dividing the net profit for the year attributable to unit holders by the weighted average number of units outstanding during the year.

For the purpose of calculating diluted earnings per unit, the weighted average number of units outstanding during the year are adjusted for the effects of all dilutive potential units.

Key source of information

The preparation of financial statements in conformity with Ind AS requires the Group makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates include allowance for doubtful loans /other receivables, fair value measurement etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

r) Non-Controlling Interest

Non-Controlling Interest represent the share of reserve and capital attributable to the shareholders of the SPVs who have not agreed to exchange their share in the SPVs for Units of Trust and will not become unitholders. Below is the list of shareholders of the SPVs for whom Non-controlling interest has been recognised. Non-controlling interests in the results and equity of subsidiaries are shown separately in the Special purpose Combined Statement of Profit and Loss, Combined Statement of Change in Equity and Combined Balance Sheet separately

Name of SPV	Shareholder	% Holding in SPV (as on reporting date)
HREL	Punj Lloyd Limited	0.01%
TRDCL	Punj Lloyd Limited	50.00%
PSRDCL	East Nippon Expressway Company (NEXCO)	9.09%

Ind AS-110 requires entities to attribute the profit or loss and each component of other comprehensive income to the owner of SPV Group and to the non-controllig interest. This requirement needs to be followed even if this results in the non-controlling interest having a deficit balance. Non-controlling interest balance is stated at cost. Ind AS 101 requires the above requirement to be followed prospectively from the date of transition.

Roadstar Infra Investment Trust
Notes forming part of the Combined Financial Statements

3.1 Estimates under Service Concession Arrangements :

Note :

1) Under the Service Concession Arrangements, the Group has received the right to charge users of the public services, such rights are recognized and classified as "Intangible Assets". Such a right is not an unconditional right to receive consideration because the amounts are contingent to the extent that the public uses the service and thus are recognized and classified as intangible assets.

2) The book value of such an intangible asset is recognized by the company at the fair value of the constructed asset. The intangible assets is amortised on the basis of units of usage or revenue over the remaining concession period

3) In respect of BAEL:

Based on the provisions of the concession agreement, the company is entitled to an extension in the concession period due to shortfall in traffic and premium fees shall be payable to NHAI in respect of the said extended period. Accordingly, amortisation over the increased concession period has been charged.

The construction cost includes GST. The Company has the right to claim this GST from NHAI under the "Change in Law" provisions of the concession agreement and will recognize this claim in the financial statements upon approval of the claim by NHAI.

4) In respect of SBHL:

a) The book value of an intangible asset is recognized by the company at the fair value of the constructed asset which comprise the actual construction cost plus the margins @ 11%. The intangible assets is amortised on the basis of units of usage over the lower of the remaining concession period

These factors are consistent with the assumptions made in the all previous years.

Note (A) (i): The Arbitral Tribunal had passed an award on November 30, 2017 directing NHAI to pay PSRDCL a sum of Rs. 547.96 Crores. (including interest till the date of award) towards claims filed against NHAI. NHAI had thereafter filed an appeal before the Delhi High Court. The Delhi High Court during hearing of the appeal ordered NHAI to deposit the entire award amount with the Court. NHAI deposited the entire amount with the Court. PSRDCL had recognised interest on claim recoverable upto March 31, 2018. Since NHAI has already deposited the award amount with Court and appeal is pending disposal, as a matter of prudence no further interest on claim recognised in the books since 1st April 2018 till reporting date.
An execution petition has been filed by PSRDCL for release of the award money. The said execution petition was listed on April 15, 2019, & November 15, 2019. The matter was adjourned to 16th Feb, 2021
This matter is again adjourned to future date however the date is awaited as court are not in regular flow or working due to ongoing pandemic.
PSRDCL expects to settle the matter by end of the financial year March 31, 2025 and hence no further provision for expected credit loss is required.

Note (A) (ii) In respect of BAEL, the Company had recognized a claim receivable from the Authority amounting to ₹1,286.36 million, based on Paragraph 6 of the letter issued by NHAI (Reference No. 15017/1/2013/PIU(DUP)/1832 dated September 25, 2019). Additionally, the Company had recorded liabilities of ₹1,237.88 million towards the negative change of scope related to de-scoped works and other claims by NHAI, and ₹124.70 million for a possible penalty for overloading.
As part of a comprehensive settlement agreement dated September 30, 2024, with NHAI, these claims have been resolved, resulting in a net recoverable amount of ₹42.70 million from NHAI. Accordingly, the remaining balances have been adjusted during the current period, with ₹1,237.88 million written back and ₹1,324.39 million written off. The amounts written off include ₹80.55 million of other recoverable and ₹0.18 million recoverable from other parties (Refer to Notes 19 and 23).
Further, as part of the settlement, the Company was required to pay ₹166.50 million as a penalty for harmonious substitution. Consequently, an additional liability of ₹41.80 million (₹166.50 million less ₹124.70 million already provided) has been recorded in the books of accounts.

6. Deferred Tax

₹ in Millions

The following is the analysis of Deferred Tax Assets/(Liabilities) presented in the balance sheet:

Particulars	As at September 30, 2024	As at March 31, 2024	As at March 31, 2023	As at March 31, 2022
Deferred Tax Assets	2,222.45	2,206.16	2,137.39	2,033.02
Deferred Tax Liabilities	(1,659.92)	(1,586.24)	(1,605.57)	(1,464.49)
Deferred Tax Asset / (Liabilities) (Net)	**562.53**	**619.92**	**531.82**	**568.53**

The income tax expense for the period can be reconciled to the accounting profit as follows:

Particulars	As at September 30, 2024	Year ended March 31, 2024	Year ended March 31, 2023	Year ended March 31, 2022
Profit/(Loss) before tax from continuing operations	(103.81)	(241.27)	(502.88)	(149.31)
Substantively Enacted Rate (%)	29.12%	29.12%	29.12%	29.12%
Accounting Profit multiplied by Tax Rate	(30.23)	(70.26)	(146.44)	(43.48)
Effect of income that is exempt from taxation	-	-	-	0.00
Effect of deferred taxes reversal in the tax holiday period	(2729.41)	(2178.89)	(2084.03)	(2046.27)
Effect of expenses that are not deductible in determining taxable profit	537.19	43.00	93.07	56.73
Effect of excessive depreciation disallowed in Taxation	1828.10	1815.33	1823.65	1616.92
Deferred Tax on Overlay Provision	(168.18)	(229.10)	(218.07)	(152.43)
Total	**(562.53)**	**(619.92)**	**(531.82)**	**(568.53)**

Footnotes :

a) Deferred Tax assets and Deferred Tax liabilities have been offset wherever the Group has a legally enforceable right to set off Current Tax Assets against Current Tax Liabilities and where the Deferred Tax Assets and Deferred Tax Liabilities relate to income taxes levied by the same taxation authority

b) Deferred Tax Asset in respect of Unabsorbed Business Loss/ Depreciation and Provision for overlay has been recognized to the extent reversals of Deferred Tax Liability and Taxable Profits are available before tax holiday period.

c) Significant management judgement is considered in determining provision for income tax, Deferred Tax Assets and liabilities and recoverability of Deferred Tax Assets. The recoverability of Deferred Tax Assets is based on estimate of the taxable income for the period over which Deferred Tax Assets will be recovered. The Group has unabsorbed business losses/depreciation and Provision for Overlay which according to the management will be used to set off taxable profit arising in subsequent years from operation of the Group

The profitability projections used for determining the recoverability of Deferred Tax Asset has number of variables viz. Revenue projections, restructuring of debt, incurrence of overlay etc which are subject to change Group has appointed an outside agency for traffic study and technical study for major maintenance , which have been used in profitability projections.

The carrying amount of Deferred Tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered

Total	**112.86**	**221.43**	**91.65**	**197.81**	**40.00**	**192.40**	**25.71**	**154.99**
B) Current Tax Liabilities								
Provision for Tax	-	-			-		-	377.94
Total	-	-			-		-	377.94

In respect of BAEL:

As against the tax liability of Rs. 37.79 crores the Company had made provision of Rs. 37.64 crores and Rs. 50.08 crores in the financial for FY 2016-17 & FY 2017-18 respectively considering profit as per accounting done under IND-AS, however in the return of income, the Company has eliminated notional adjustment in profits under IND-AS and paid the tax of Rs. 15.83 crores and Rs. 35.46 crores for the financial for FY 2016-17 & FY 2017-18 respectively. The company has filed the letter to the tax authorities, fully disclosing the facts and the stand taken for filing the return of income. The above views has been taken on the basis of ;

(i) various judicial precedents on " Notional Vs Real Income" concept and
(ii) CBDT Circular no 24 of 2017 clarifying that "adjustments on account of Service Concession Arrangements would be included in the Transition Amount and also on an ongoing basis" is not binding on the company.

Pending final outcome / completion of assessment for the respective year, the company continues to carry the excess provision.
As no notice was received for FY 2016-17, and the assessment for FY 2017-18 has been concluded, the excess tax provision has been reversed during the financial year 2022-23.
In view of change in Income Tax Act, for then existing clause (iih) of Explanation 1 to sub-section (2) of section 115JB by the Finance (No. 2) Act, 2019, w.e.f. 1-4-2020, Company does not have any MAT Tax liability for the year ended September 30, 2024.

In case of HREL :

i) In light of the Company's decision to adopt the new tax regime, the tax liability for the current year is nil. This is due to the utilization of carry-forward tax losses, which have offset the taxable income for the year.

ii) The Deferred Tax Assets/Liability has not been recognised as the same if provided would be reversed in the tax holiday period

Initial contribution in Equity accounted investee, TRDCL is recognized at Net Book value as at April 01, 2021. Since Net Book value was negative, the same is restricted to Re 1/-

Footnotes :

1. Debenture Redemption Reserve relates to Debentures to be redeemed to external Borrowers

2. Since HREL had issued non convertible debentures in the year ended March 31, 2017, in terms of Section 71 of the Companies Act, 2013 read with the Rule 7 (B) of The Companies (Share Capital and Debentures) Rules, 2014 is required to create Debenture Redemption Reserve to the extent of 10% of the value of outstanding privately placed Debentures until such debentures are redeemed, to which adequate amounts shall be credited from out of its profits every year. Company has investment of Rs 658.57 mn (March 31, 2024 : Rs 635.43 mn, March 31, 2023: Rs 592.31 Mn : March 31, 2022 Rs 684.32 mn) (FVTPL) in BOI AXA Liquid Fund - Regular Plan - Growth (LFRGG) and HDFC Liquid Fund - Growth, towards Debt Service Reserve Account.

3. In case of HREL, during FY 2016-17 loan aggregating Rs 1980.00 mn from IL&FS Transportation Networks Limited (ITNL) were converted into zero coupon with repayment at the end of the concession period. Accordingly, HREL had recognized deemed equity of Rs 1285.40 mn in FY 2016-17 in accordance with IND-AS. Company had done unwinding of interest aggregating of Rs 137.17 mn on the said deemed equity till October 15, 2018 through statement of profit and loss account. In view of change in terms of the above mentioned debt of Rs 1980.00 mn, the deemed equity has been reversed during the financial year 2022-23.

4. In case of MBEL, since the company had issued non convertible debentures , in terms of Section 71 of the Companies Act, 2013 read with the Rule 7 (B) of The Companies (Share Capital and Debentures) Rules, 2014 is required to create Debenture Redemption Reserve to the extent of 10% of the value of outstanding privately placed Debentures until such debentures are redeemed, to which adequate amounts shall be credited from out of its profits every year. Accordingly, for the year ended March 31, 2022, 10% of the value of debenture outstanding has transferred to Debenture Redemption Reserve.

5. Pursuant to loan agreement of entered with RIIT during FY 2021-22, zero coupon debt converted into Unsecured loan post transfer of shares from ITNL to RIIT

6. Capital Reserve represents grant received by the Company from NHAI during construction period prior to April 1, 2015

1) in respect of SBHL:
a) During the previous financial year 2021-22, the Company's shareholding was transferred to Roadstar Infra Investment Trust (RIIT), an InvIT, after receiving due approval from the lenders, authority, and NCLT. Pursuant to this transfer, no interest was payable to the lenders for the period from 16th October 2018 to 31st March 2021. The interest accrued until 15th October 2018 was converted into a loan. The revised debt number as of October 15, 2018 was agreed by the lenders as a part of restructuring of debt.

b) During the financial year 2017-18, the Company availed a short-term loan of ₹290 million from M/s Empower India Limited. The loan carried an interest rate of 13.35% and was to be repaid within 13 months from the date of disbursement. However, pursuant to the NCLT order dated October 15, 2018, and subsequent order dated March 12, 2020, neither interest nor principal payments were made to the lender. Additionally, the Company has not recognized any interest for the period from October 15, 2018, to March 31, 2021.
In the financial year 2022-23, the Company entered into a restructured loan agreement with its senior lenders and the holding entity. However, no restructuring agreement was executed with Empower India Limited. The lender continued to charge compounding interest at the rate of 13.35% along with penal interest for non-payment. During the current financial year, as per the NCLAT order, Empower India Limited was substituted by IL&FS Financial Services Limited ("IFIN") effective September 2, 2024. Furthermore, on October 22, 2024, IFIN assigned all economic interests in this loan to the Roadstar Infra Investment Trust, effective retrospectively from March 22, 2022

c) During the year 2023-24, as a part of giving effect of the loan restructuring process, one of the consortium senior lenders given an additional credit of Rs 6.53 million to the loan account. This action of bank deviated from the terms outlined in the restructuring agreement and was not consistent with the actions of the other consortium lenders. Efforts were made to address this discrepancy with the senior lender in question. However, the matter remains unresolved at present. As a result, the outstanding balance in the company's books does not align with the lender's records, basis confirmation received.

2) in respect of BAEL:
Hon'ble NCLAT vide its order dated 12th March 2020 affirmed the stay on servicing of debts vide its earlier order dated 15th October 2018, in view of which, the company has stopped making repayments falling due after October 15, 2018. Details of scheduled repayments, which have fallen due as on March 31, 2024 are as under:
Further, in view of the liquidity constraints, the company has not been able to comply with the loan covenants including the maintenance of DSRA.
In respect of unsecured loans from related parties, the compliance of the terms of the loan documents such as repayment, interest etc. could not be done due to the aforesaid NCLAT order.

3) In respect of PSRDCL, in September 2018 Indusind bank adjusted, against the various loans which Indusind bank advanced to various ITNL's subsidiaries, fixed deposit of IL&FS Ltd maintained with Indusind Bank without the permission of IL&FS Ltd. For PSRDCL, Indusind bank adjusted principal amount of Rs 194.11 mn against the fixed deposit. IL&FS Ltd has accepted such adjustment in FY 2021-22 and hence accordingly adjustment was made in the books of accounts of the PSRDCL during FY 2021-22.

Footenote (A) : In accordance with the terms of the concession agreement, the Company is obligated to make monthly payments toward additional concession fees (premium) to NHAI. However, since February 2019, the Company was unable to remit these payments as the escrow bankers did not permit the disbursement. As part of an overall settlement with NHAI, the Company has paid the outstanding premium dues along with applicable interest during the current year.

Interest Over due in respect of BAEL:

Note :

1. Provision for Overlay/ Replacement Cost in respect of Service Concession Assets

Provision for Overlay in respect of Toll Roads maintained by the Group under Service Concession Arrangements and classified as Intangible Assets represents contractual obligations to restore an infrastructure facility to a specified level of serviceability in respect of such asset. Estimate of the provision is measured using a number of factors, such as contractual requirements, technology, expert opinions and expected price levels. Because actual cash flows can differ from estimates due to changes in laws, regulations, public expectations, technology, prices and conditions, and can take place many years in the future, the carrying amounts of provision is reviewed at regular intervals and adjusted to take account of such changes.

26.2 Expenditure incurred for Corporate Social Responsibility

₹ in Millions

In terms of Section 135 of the Companies Act, 2013, a Corporate Social Responsibility (CSR) Committee has been formed by the Group The areas for CSR activities as per the CSR policy are (i) Promotion of education, (ii) promoting gender equality and empowering women, (iii) reducing child mortality and improving maternal health, (iv) ensuring environmental sustainability, (v) employment enhancing vocational skills, (vi) social business projects, (vii) contribution to the Prime Minister's National Relief Fund or any other fund set up by the Central Government or the State Governments for socioeconomic development and relief and funds for the welfare of the Scheduled Castes, the Scheduled Tribes, other backward classes, minorities and women and (viii) such other matters as may be prescribed.

In line with Guidance Note on Accounting for Expenditure on Corporate Social Responsibility Activities, issued by the Institute of Chartered Accountants of India, the disclosure of the CSR expenditure during the year, is as under:

Particulars	For the period ended September 30, 2024	For the year ended March 31, 2024	For the year ended March 31, 2023	For the year ended March 31, 2022
(a) Gross amount required to be spent by the Group during the year:	**8.10**	**9.25**	**31.91**	**7.27**
(b) Amount of Expenditure incurred for Previous year	5.03	6.67	2.17	-
(c) Amount of Expenditure incurred for Current year	-	-	8.95	-
(d) Total of previous years Shortfall	-	-	-	-
(e) Shortfall	29.31	-	20.79	7.27
Total	**29.31**	**6.67**	**31.91**	**7.27**

As per section 135(6) of the Companies Act, 2013, the unspent amount is required to be deposited in a designated bank account within 6 months of the end of the financial year. In case of SBHL, the Board of the SBHL has since passed a resolution to deposit the amount with the approved funds within stipulated time in accordance with Schedule VII of the Companies Act,2013 and Companies (Corporate Social Responsibility Policy) Rules,2014 ("the Rules") before December 31, 2022. Though SBHL has processed the payment within due date, lenders have not released the said payment, which is beyond the control of SBHL.

In respect of HREL, the Company has spent Rs. 1.64 mn during the current financial year as final payment. As a part of the agreement with IIT Bombay, Company is required make the donation over the period of three years.
Since the company does not have profit as computed under section 198 of the Company's Act, no corporate social responsibility expenditure is applicable for current year.

In resepct of BAEL, As per section 135(6) of the Companies Act, 2013, the unspent amount is required to be deposited in a designated fund defined under schedule VII within 6 months of the end of the FY. In view of moratorium granted by NCLAT (refer note 35) and Company was required to spend only those expenses which are required to maintain the going concern status and hence, Company was unable to release funds towards CSR amounting to Rs. 26.24 mn till the previous year.
During the previous year, the Company decided to undertake Research Projects on Pavements with Indian Institute of Technology, Bombay. The Company has spent Rs. Nil (Previous year: Rs. 9.25 mn) during the current financial period for the said Project and donated Rs. 5.03 mn of previous years to PM Cares Fund. As a part of the said projects, Company is required make the donation over the period of three years. Hence, the balance amount will be paid in the ensuing financial period/year.

In resepct of PSRDCL, in accordance with Section 135(6) of the Companies Act, 2013, the Company is required to deposit the unspent amount allocated for Corporate Social Responsibility (CSR) in a designated bank account within 6 months from the end of the financial year (FY). However, due to the moratorium granted by NCLAT and the need to prioritize expenses essential for maintaining the going concern status, the Company was unable to release funds towards CSR activities during the specified period. However, following the transfer of shareholding of the Company to the InvIT after March 31, 2024. CSR amount of Rs 17.63 mn has been paid to Clean Ganga Fund on 30th March 2024.

27. Tax Expense

Control Total	57.38	(88.10)	(332.96)	(87.86)

28. Earnings per unit

Up to September 30, 2024, the Trust acquired five SPVs, against which 38,48,00,000 units were issued in exchange for the assignment of debt to the respective creditors and the purchase of shares from the respective shareholders since the financial year 2021-22.

Post September 30, 2024, the Trust acquired an additional SPV, BAEL, and issued 6,76,85,705 units as partial consideration for the assignment of debt and settlement of payables. Further, post September 30, 2024, the Trust executed a Deed of Assignment and acquired a loan of Rs. 291.91 million in SBHL, against which 29,91,438 units were issued. Accordingly, in total, 45,54,77,143 units have been considered for the calculation of Earnings per Unit (EPU).

Particulars	Unit	For the period ended September 30, 2024	For the year ended March 31, 2024	For the year ended March 31, 2023	For the year ended March 31, 2022

29.1. Categories of Financial Instruments

₹ in Millions

Particulars	As at September 30, 2024	As at March 31, 2024	As at March 31, 2023	As at March 31, 2022
Financial Assets				
Investment	658.57	635.43	592.31	1,579.61
Cash and Bank Balances	9,533.62	10,604.31	14,182.93	13,585.16
Trade Receivable	37.00	52.29	142.81	26.32
Other Financial Assets measured at Amortised cost	11,000.21	11,476.10	10,091.01	11,956.06
Financial liabilities				
Borrowings (including Interest Accrued)	78,905.01	76,356.16	79,422.40	82,283.67
Trade Payables	6,352.24	6,798.56	7,144.20	6,579.97
Other Financial Liabilities	11,358.83	8,847.34	11,874.23	11,181.40

Foote note: The Carrying amount of current financial assets and current trade and other trade payables measured at amortised cost are considered to be same as their fair valuse, due to their short term in nature.
The Carrying value of Rupee Term Loan and Loan from Related Party are approximately at fair value as the instruments are at prevailing market rate.

29.2. Financial Risk Management Objectives

The SPV Group's fund's risk management policies are established to identify and analyse the risks faced by the fund, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the fund's activities.
The Board of Directors of Investment Manager have overall responsibility for the establishment and oversight of the fund's risk management framework.
In performing its operating, investing and financing activities, the fund is exposed to the Credit risk, Liquidity risk and Market risk.

29.2 (a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings, deposits.
There has been no change to the SPV Group's exposure to market risks or the manner in which these risks are managed and measured.

29.2 (b) Credit Risk

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The SPV Group is exposed to credit risk from its investing activities including deposits with banks and other financial instruments. As at March 31, 2023, the credit risk is considered low since low transactions of the SPV Group with external parties.

29.2 (c) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The SPV SPV Group exposure to the risk of changes in market interest rates relates primarily to the SPV SPV Group long-term debt obligations with floating interest rates.
The SPV SPV Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate borrowings. The interest rate risk exposure is mainly from changes in fixed and floating interest rates. The interest rate are disclosed in the respective notes to the financial statement of the SPV SPV Group.

29.2 (d) Liquidity Risk

Liquidity risk arises from the SPV Group's inability to meet its cash flow commitments on time. SPV Group's objective is to, at all times, maintain optimum level of liquidity to meet its cash and collateral requirements. The SPV Group closely monitors its liquidity position and deploys a disciplined cash management system. SPV Group's liquidity is managed centrally with operating units forecasting their cash and liquidity requirements. Treasury pools the cash surplus from across the different operating units and then arranges to either fund the net deficit or invest the net surplus in the market.

The SPV Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities. The endeavour of The SPV Group is to constantly improve the ratio of short term to long term maturity profile so as to minimise the risk of having to refinance the borrowing at regular short intervals.

29.2.(d) (1) Liquidity and interest risk tables

The following tables detail the SPV Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the SPV Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the SPV Group may be required to pay.

KKC & associates LLP Chartered Accountants
Roadstar Infra Investment Trust

The amounts included above for financial guarantee contracts are the maximum amounts the SPV Group could be forced to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee. Based on expectations at the end of the reporting period, the SPV Group considers that it is more likely than not that such an amount will not be payable under the arrangement. However, this estimate is subject to change depending on the probability of the counterparty claiming under the guarantee which is a function of the likelihood that the financial receivables held by the counterparty which are guaranteed suffer credit losses.

The amounts included above for variable interest rate instruments for both non-derivative financial assets and liabilities is subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

The following table details the SPV Group's liquidity analysis for its derivative financial instruments. The table has been drawn up based on the undiscounted contractual net cash inflows and outflows on derivative instruments that settle on a net basis, and the undiscounted gross inflows and outflows on those derivatives that require gross settlement. When the amount payable or receivable is not fixed, the amount disclosed has been determined by reference to the projected interest rates as illustrated by the yield curves at the end of the reporting period.

Upto 1 year 1-3 years 3-5 years More than 5 years	NIL			

29.2 (e) Foreign currency risk management

The SPV SPV Group does not have any foreign currency exposure.

29.2 (f) Interest rate sensitivity analysis

The SPV Group manages interest rate risk by having a balanced portfolio of fixed and variable rate of interest on loans and borrowings.
The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the SPV Group's:

Particulars	As at September 30, 2024	As at March 31, 2024	As at March 31, 2023	As at March 31, 2022
0.50% Increase in basis points- INR				
Effect on profit before tax- INR	(361.12)	(368.65)	(376.05)	(393.72)
0.50% Decrease in basis points- INR				
Effect on profit before tax- INR	361.12	368.65	376.05	393.72

29.2 (g) Other price risks

The SPV Group is exposed to equity price risks arising from equity investments which is not material.

30. Capital Management ₹ in Millions

Capital includes amount attributable to the Unit holders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise unitholder value. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Group may adjust the dividend payment to unitholders, return capital to unitholders or issue new units.
In case of HREL, the company manages its capital to ensure that it will be able to continue as going concern while maximising the return to shareholders and also complying with the ratios stipulated in the loan agreements through the optimisation of debt and equity balance .
The Group endeavours to maintain sufficient levels of working capital, current assets, and current liabilities which helps the company to meet its expense obligations while also maintaining sufficient cash flow

In resepct of BAEL, National Company Law Appellate Tribunal ("NCLAT") had passed an order on October 15, 2018 ("Interim Order") in Company Appeal (AT) 346 of 2018, imposing moratorium on the creditors of IL&FS (Ultimate Parent Company) and its 348 group companies, which includes the Company. Further, NCLAT vide its order dated February 11, 2019 has also classified the Company under the "Red Category" based on a 12 month cash flow solvency test. As a result of the foregoing, the Company's ability to raise funds has been substantially impaired, with normal business operations being substantially curtailed.
The IL&FS (Ultimate Parent Company) Board had been working on a resolution plan, with a view to enable value preservation for stakeholders of IL&FS (ultimate Parent Company) Group. The resolution plan, inter alia, involved sale of assets/ businesses/ companies owned by IL&FS (Parent of Joint Venture) Group. The framework and the strategies for effective capital management, thus, will be formulated post the implementation of the Resolution Plan. Similarly, the financial risk profile and the strategies for mitigation of such risks will be formulated post the implementation of the Resolution Plan.
Presently, the Capital and Financial Management activities are restricted to make only those payments necessary to maintain and preserve the going concern status.
The capital structure of the company consists of net debt (outside borrowings offset by cash and bank balances and subordinated debts from Sponsors and including accrued interest) and total equity of the Company (comprising issued capital, reserves, retained earnings and interest free debts from Sponsors).
The networth of the Company is negative, standing at Rs. (17,378.18) millions as at September 30, 2024. On the basis of cashflow projections of the next 12 months, the management is of the view that the going concern status of the company is not affected.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. Net debt is calculated as loans and borrowings less cash and cash equivalents.

30.1.1 Gearing Ratio

The Gearing Ratio at end of the reporting period was as follows.

Particulars	As on September 30, 2024	As on March 31, 2024	As on March 31, 2023	As on March 31, 2022
Borrowings (refer note 14)	71,841.68	73,346.87	74,825.98	78,361.74
Trade and Other Payables (refer note 15)	6,354.13	6,799.79	7,144.35	6,580.19
Other Financial Liabilities (refer note 16)	18,057.95	11,996.64	13,249.24	11,686.63
Less: Cash and Bank Balances	(9,533.62)	(10,604.31)	(14,182.93)	(13,585.16)
Net Debt (A)	**86,720.14**	**81,538.99**	**81,036.64**	**83,043.41**
Share Capital	8,801.97	8,801.97	8,801.97	8,801.97
Total Equity (B)	**8,801.97**	**8,801.97**	**8,801.97**	**8,801.97**
Gearing ratio (A / B)	**9.85**	**9.26**	**9.21**	**9.43**

Footnote:
(i) Debt is defined as long- and short-term borrowings including interest accrued (excluding derivative), as described in notes 14

(ii) Equity includes all capital and reserves of the Company that are managed as capital.

In order to achieve this overall objective, the fund's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing borrowings in the current period

Sub Total	**261.95**	**261.95**	**8.55**	**2.72**
As per the completion certificate provided by the Authority company was required to complete certain work as per punch list attached with "Provisional Completion Certificate ". Authority has proposed to levy penalty for non completion of certain items in the punch list.	13.08	13.08	13.08	59.12
Penalty by Independent Engineer for operation and maintenance	Note 1	Note 1	Note 1	
Sub Total	**13.08**	**13.08**	**13.08**	**59.12**
Grand Total	**3,523.41**	**4,210.60**	**3,315.26**	**867.74**

Note:1 In SBHL, the IE has proposed to levy penalty as per Concession Agreement for certain operation and maintenance (O&M) non compliances (Plantation etc) amounting to Rs. 73714/- per day from November 2018 till compliance of these O&M issues. Group SPV - Sikar Bikaner Highway Limited has entered into an O&M Agreement with contractor, where in, penalty, if any is levied by authority for maintenance deficiency the same will be recovered from the Contractor

Note 2: SBHL received notice under section 37 of Rajasthan Stamp Act for stamp duty demand. During the current financial year 2023-24, Company settled the liability under the amnesty Scheme.

Note 3:The IE has proposed to levy penalty as per Concession Agreement for certain operation and maintenance (O&M) non compliances. BAEL has contested the same. Further, BAEL has entered into an O&M Agreement with contractor, where in, penalty, if any levied by authority for maintenance deficiency shall be recovered from the Contractor. Hence, the BAEL does not anticipate any costs towards the same.

BAEL has filed appeal against the order by paying pre-deposit of 10% of Tax amount.

Note 4: In case of PSRDCL, the debt restructuring proposal is approved by senior lenders, but Bank of Baroda includes provisions for right to recompense. The company has applied to NCLAT, contesting lenders' entitlement to interest during moratorium and recompense rights.

*Note 5: In case of MBEL, with reference to the Hon'ble Allahabad High Court Order dated 05 February 2024, the company has deposited demand draft No. 184364 dated 13 February 2024 of Rs. 15 Crore with the State Government.

33 Name of the Related Parties and Description of Relationship:

The name of the related parties and nature of relationship are as identified by the management with reference to the Trust and its proposed subsidiaries which are considered for the Special Purpose Combined Financial Statements pursuant to SEBI (Infrastructure Investment Trusts) Regulations, 2014, as amended and are disclosed only with whom the Proposed Trust Group had transactions during the reported years.

a) **List of related parties**

Roadstar Infra Private Limited	Sponsor
Roadstar Investment Managers Limited	Investment Manager
Axis Trustee Services Limited	Trustee

b) Immediate Holding Company (SPV wise)

IL&FS Transportation Networks Limited	MBEL (upto 23 December 2021), SBHL (upto 21 March 2022), HREL (upto December 15, 2022), PSRDCL (upto 15 May 2023) and BAEL
Roadstar Infra Investment Trust	MBEL (w.e.f. 24 December 2021), SBHL (w.e.f. 22 March 2022), HREL (w.e.f. December 16, 2022), and PSRDCL (w.e.f. 16 May 2023)

c) Entities having Significant Influence over TRDCL

IL&FS Transportation Networks Limited	upto December 18, 2022
Roadstar Infra Investment Trust	w.e.f. December 19, 2022

d) Other related parties with whom the SPV Group have transactions during the reported years/period

Elsamex Maintenance Services Limited	Fellow subsidiary / Project Manager to the Trust
Infrastructure Leasing & Financial Services Lir	Ultimate Holding Company
IL&FS Financial Services Limited	Fellow Subsidiary
Elsamex Maintenance Services Limited	Fellow Subsidiary
Sabarmati Capital One Limited	Fellow Subsidiary
Bhopal E-Governance Limited	Fellow Subsidiary
IL&FS Cluster Development Initiative Limited	Fellow Subsidiary
IL&FS Airport Limited	Fellow Subsidiary
Sabarmati Capital One Limited	Fellow Subsidiary
ITNL Road Infrastructure Development Comp	Fellow Subsidiary
Punj Lloyd Limited	Entity having significant influence
Unique Waste Processing Company Limited	Fellow Subsidiary

Key Managerial Personnel (SPV wise)

The Concession Agreement envisages concession for a period of 18 years commencing from the Appointed date August 01, 2010 including construction period of 910 days required for 4 laning of the Project. The Company is entitled to receive half yearly Annuity of Rs.64.08Cr
Nature of Assets	Financial Asset
Year when SCA granted	2010
Period	18 years
Stage	Under Operation and Maintenance
Premature Termination	Force Majeure or on event of default by either party
Overlay	Has to be incurred as and when the riding quality falls below the standards specified in the Concession Agreement

Thiruvananthapuram Road Development Company Limited:

Particulars	Project
Nature of Assets	Financial Asset
Year when SCA granted	16 March 2004
Period	As per the below explanation given
Extension of period	
Construction	
Premature Termination	
Special Term	
Brief description of Concession	

Nature of Operations:

The Company has been set up to develop, widen, strengthen, operate, construct and maintain the Thiruvananthapuram City Roads Improvement Project (TCRIP) under the Annuity Concession Agreement. The Annuity Concession Agreement entered into between the Company and Government of Kerala on March 16, 2004, conferred the right to implement the project and recover the project cost and operating cost including returns thereon by way of a fixed annuity amount payable semi-annually over 17.5 years of concession period.

The Scheduled Project Completion Date (SPCD) for the Thiruvananthapuram City Road Improvement Project (TCRIP/the Project) was November 15, 2006 as per the Concession Agreement (CA) dated March 16, 2004. On account of delay in land delivery in accordance with the CA, the completion of the Thiruvananthapuram City Road Improvement Project (TCRIP/the Project) has been delayed. The Company had submitted a detailed plan/proposal for completion of the TCRIP to the Government of Kerala (GoK), based on revised land delivery schedule. The detailed plan/proposal included the revised cost of completion based on prevailing market rates and cost incurred on the Project by the Company on construction and incidental expenses. Accordingly a supplementary agreement was signed with Kerala Road Fund Board (KRFB) on January 4, 2008. The following are the salient features of the said supplemental agreement:

(a) GoK has provided financial assistance of Rs 15 Crores to the Company in the form of advance annuity, in two equal instalments to partly meet the cost of the project.

(b) The Project is divided into three phases based on the progress achieved so far. The stretches of roads which are substantially completed as per the Schedule DD of the Original Concession Agreement is identified as Phase – I. The remaining project as per the provisions of Original Agreement treated as the Phase – II & III.

(c) The commercial operations of all the Phases commenced

(d) The Company shall operate and maintain the project for a period of 15 years starting from COD.

(e) The Company formed for the construction and maintenance of the road project was unable complete the entire road project as the timelines to hand over encumbrance free land, were never met by the KRFB. In addition the land stretches handed over were too small and provided too late to justify the economics of the road project, under annuity. Despite the follow up by the Company with KRFB, there were no adequate satisfactory responses from KRFB to hand over encumbrance free land.

Considering the incomplete portion of the project, idling of resources, cost of capital, cost of increase in material due to price escalation and mobilization & demobilization to construct the road, the company had informed KRFB that it would be constrained to terminate the contract. Subsequently the Company and KRFB agreed to resolve through arbitration, to ensure the project is completed. The arbitration award was received in favour of the Company amounting to Rs 124.97 crores in the financial year 2009-2010.

Since the delivery of the project site could not be achieved by KRFB as per the revised schedule agreed under the Resumption agreement, the project got further delayed. Since both the company and KRFB were keen to complete the project, a new supplement agreement was entered into on 1st May, 2009. The revised project details as per new agreement are as follows

The Concessionaire to operate and maintain the Project/Project Facilities in accordance with the original agreement for period of 15 years after completion of the project Phase as given in the table below or till termination of these agreement.

Company has achieved substantial completion of work for 15.739 Kms. as on 22.02.2012 vide substantial completion certificate dated 08.11.2012 and proportionate annuity of Rs. 6.59 Crores have been awarded to the Company. Further, on 20.02.2015 Company has received substantial provisional completion certificate issued by the Kerala Road Fund Board (KRFB) and certify by Independent Engineer dated 20.02.2015 for 7.6 Kms under Phase III, Executive Committee of KRFB issue COD for the 4.774 Kms of corridors completed as on 31st May 2016.

Summary of various phases of the project is as under:

Phase	Length (Km)	Annuity Dates	COD	Hand Back date	Annuity Amount (Rs Cr)
Phase I	14.268	4th January and 4th July#	04-Jul-07	04-Jul-22	6.90
Phase II	15.739	22nd August and 22nd February	22-Feb-12	22-Feb-27	6.59
Phase III	7.600	20th August and 20th February	20-Feb-15	20-Feb-30	3.33
Phase IV	4.453	20th November and 30th May	30-May-16	30-May-31	1.92

 # Company has issued hand-back letter to the Authority 4th May 2022.

(e) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006.	-	-	-	-

37. Disclosure as Per Ind AS 115 Revenue from Contracts with Customers

A. Applicability of Ind AS 115

Ind AS 115 was issued on 28 March 2018 and supersedes Ind AS 11 Construction Contracts and Ind AS 18 Revenue and it applies, with limited exceptions, to all revenue arising from contracts with its customers. Ind AS 115 establishes a five-step model to account for revenue arising from contracts with customers and requires that revenue be recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The Ministry of Corporate Affairs(MCA), on March 28, 2018, notified Ind AS 115"Revenue from Contracts with Cutomers" as a part of the Companies (Indian Accounting Standards) Amendment Rules, 2018. The Company has followed the IND AS 115 accordingly.

Service contracts relating to Change of Scope have an original duration of one year or less and therefore the SPV Group uses practical expedient to not disclose unsatisfied performance obligations

B. Disaggregation of revenue

Set out below is the disaggregation of the SPV Group's revenue from contracts with customers:

Roadstar Infra Investment Trust

Roadstar Infra Investment Trust
Notes forming part of the Combined Financial Statements
40. Segment Reporting

The SPV Group is engaged in to invest in infrastructure assets primarily being in the road sector in India which in the context of Ind AS 108 - Operating Segments is considered as the only segment. The Trust's activities are restricted within India and hence no separate geographical segment disclosure is considered necessary.

41. Significant Events

(a) Non-Compliance of various provisions of Companies Act 2013 and other regulations:
The SPV Group is not in compliance pertaining to the filing of various forms relating appointment/ resignation of Directors, under the provisions of Companies Act 2013. Management with its best estimates has identified the potential financial implications and the same has been disclosed in contingent liability

(b) Investigations by Serious Fraud Investigation Office ("SFIO") and Forensic Audit :
The Ministry of Corporate Affairs (MCA), Government of India, has vide its letter dated October 1, 2018 initiated investigation by Serious Fraud Investigation Office (SFIO) against IL&FS (erstwhile ultimate holding company of MBEL, SBHL, HREL, PSRDCL and having significant influence in TRDCL and existing ultimate holding company of BAEL) and its group companies under Section 212 (1) of the Companies Act, 2013. As a part of investigation of affairs of ITNL (erstwhile holding company of MBEL, SBHL, HREL, PSRDCL and having significant influence in TRDCL and existing holding company of BAEL), SFIO has requested various information from ITNL, including details related to projects undertaken by the Company, where ITNL served as the Development Contractor and promoter.

The IL&FS Ltd has informed that the investigation by SFIO has now been completed, but the Company has not yet received any report from the agency or IL&FS Ltd. Consequently, at this stage, there are no known material impacts or implications arising from these developments. However, an uncertainty relating to the future outcome of the regulatory actions is not determinable at this stage.

(c) The Board of Directors of ITNL (erstwhile holding company) approved the restatement of its accounts and submitted them to the MCA. This restatement does not affect the financial statements of the Company for the any year / period.
(d) Additionally, an independent third party appointed by IL&FS Board (erstwhile ultimate holding company) submitted forensic audit report to ITNL (erstwhile holding company) during year ended March 31, 2023. Since the audit is primarily relating to operations of ITNL, SPV Group is not envisaging any adjustment in financial statement in this regard.

(e) Impairment On Intangible Asset
i) As part of the divestment process, during year ended March 31, 2020, MBEL, SBHL BAEL and PSRDCL had carried out independent valuation to determine the Fair Market Value (FMV) of the assets of the Company through 2 registered valuers appointed by the Board of Directors of IL & FS. The valuers had used the discounted cash flow methodology and provided the FMV. Shortfall in such FMV as compared to the carrying cost of the assets in the books of the these entities as on December 31, 2018 was recognized as impairment in the financial statements of the Company in the financial year ended March 31, 2019.
Company has carried out impairment testing of the intangible asset as March 31, 2021 based on discounting of future operating cash flow. The net present value of the future operating cash flows was more than then carrying value of the intangible asset. based on the revised traffic study report and discounting factor and hence a reversal of provision for impairment has been done during the year ended March 31, 2021 and March 31, 2023. The discount rate considered to determine net present value is based on the independent third party valuation report obtained by the holding company adjusted for company's specific borrowings rate

ii) The SPV Group has tested impairment of intangible by comparing the Value in use of the intangible asset with carrying amount where in the value in use is calculated based on present value of future cash flows expected to be derived from intangible assets. Based on the traffic survey report and technical study report for maintenance cost obtained from an independent expert agency, there is no impairment of asset during the year.

(f) The senior and other lenders have approved the restructuring of the debt of SBHL, MBEL, TRDCL, HREL & PSRDCL. Considering the restructuring of the debt, management believes that use of the going concern assumption for preparation of financial results is appropriate as the business operations of these entities will continue in foreseeable future

In respect of BAEL:
The Company has negative networth of Rs. 17378.18 Million as at September 30, 2024 and Current financial Liabilities exceeds the Current financial Assets by Rs. 10,379.73 million.
However, under the resolution framework approved by the Hon'ble NCLAT, with the necessary approvals from NHAI and lenders, the shareholding of the Company has been acquired by Roadstar Infra Investment Trust (RIIT), and the Company's entire debt has been restructured.

Pursuant to the aforesaid, management believes that use of the going concern assumption for preparation of these financial results is appropriate as the business operations of the Company will continue in foreseeable future.

(g) In respect of SBHL, during the financial year ended March 31, 2023, the lenders executed a loan agreement with restructured terms, and the debt was serviced in March 2023 in accordance with these revised terms. The senior lenders had also recovered Rs. 93.76 million post-October 15, 2018 and in accordance with the NCLT order, this amount was adjusted against the outstanding debt.

(h) Impact of Covid -19

The Government of India had announced the nationwide lock down with effect from Mar 25, 2020. The local administration of the state, has imposed ban on movement of public, across the state and imposed Sec 144 in entire state, which has resulted in significant reduction in traffic movement in the state. The authority ordered suspension of Toll operations with effect from March 25, 2020. However, the operations at Toll Plazas continued with respect to the regular maintenance of the Plazas. Tolling operations were subsequently resumed w.e.f. Apr 20, 2020. No toll revenue recognised for the period from Mar 25, 2020 to Mar 31, 2020 and period up to April 20, 2020.
State imposed lock down during the second wave of Covid-19 pandemic. Though there was no suspension of toll operations, the overall traffic was low during April and May 2021. Company has filed the claim for extension of concession period of three months in accordance with circular issued by MoRTH.

There was no major impact observed on Toll Traffic during the third wave of Covid-19 pandemic.

(i) Pursuant to the "Third Progress Report – Proposed Resolution Framework for the IL&FS Group" dated 17 December, 2018 and the "Addendum to the Third Progress Report – Proposed Resolution Framework for IL&FS Group" dated January 15, 2019 ("Resolution Framework Report") submitted by the Company to the Ministry of Corporate Affairs, Government of India which, in turn, was filed with the Hon'ble National Company Law Appellate Tribunal ("NCLAT"), the creditors of the Company were invited (via advertisement(s) dated May 22, 2019) to submit their claims as at October 15, 2018 with proof, on or before 5 June, 2019 (later extended till February 5, 2020)) to a Claims Management Advisor ("CMA") appointed by the IL&FS Group. The amounts claimed by the financial and operational creditors are assessed for admission by the CMA.

The CMA, vide their various communications to the management of the Company, have submitted their report on the status of the claims received and its admission status. The report is subject to Updation based on additional information / clarification that may be received from the creditors in due course.

Management of the SPV Group has reviewed the claims made by third parties with the CMA, and reconciled them with the books of accounts and accounted in the books of accounts appropriately

(j) In respect of BAEL, in view of NCLT orders, the Company has not serviced its debts to banks, financial institution and others. As a result of the same, there have been breach of covenants. The Banks and other have charged penal interest on defaults. The Company has not accounted for the same. Due to unforeseen circumstances, the Company has not been able to comply and report on various regulatory and other covenants. Aforesaid has resulted in downgrade of debt ratings of the Company.

(k) In respect of BAEL, as per the Minutes of Meeting with Lenders Consortium held on dated March 16, 2023, the company is to incur capital cost of Rs. 533.93 Crore for completing the remaining construction activities, these costs shall not provide any incremental revenue for the company beyond the revenue stream as of now. However, these would be required to complete the entire stretch of the project and is one of the contractual obligation of the company. The amount is as determined by the Independent Engineer of NHAI and the company is reassessing the same. The costs as and when incurred will be treated as part of the cost of the intangible assets. The Company has already awarded contract for remaining work to be executed.

l) In respect of BAEL, The National Company Law Tribunal ("NCLT"), vide order dated January 1, 2019, had allowed a petition filed by the Union of India, for re-opening of the books of accounts and re-casting the financial statements under the provisions of Section 130 of the Companies Act, 2013 for the financial years from 2012-13 to 2017-18, of Infrastructure Leasing & Financial Services Limited ("IL&FS"), and its subsidiaries namely IL&FS Financial Services Limited ("IFIN") and IL&FS Transportation Network Limited ("ITNL"), the holding Company.

During the year ended Marhc 2023, the Board of Directors of ITNL has taken on records restatement of its accounts for financial years 2014 to 2018 and approved the submission of the same to the MCA. This restatement does not affect the financial statements of the Company for the current period.

m) In respect of PSRDCL, during the financial year 2021-22, senior lenders initiated a forensic audit of the Company, conducted by an independent third party, covering the period from June 1, 2010, to March 31, 2016. The forensic audit was concluded by the lenders with the account being classified as a "Fraud Account." The Company has strongly contested this classification and has made representations based on the facts, challenging the accuracy of the forensic auditors' findings.
Despite this, it is important to note that all lenders have approved the transfer of the asset by ITNL to InvIT and have sanctioned the debt restructuring proposal. Furthermore, out of the 12 lenders, seven have upgraded the account, removing the "Fraud Account" classification. The Company is actively following up with the remaining lenders and does not anticipate any adverse impact on the financial statements as a result of this matter

42. Impact of Farmers Agitation (Kisan Aandolan)

Due to Farmers Agitation ("Kisan Aandolan"), against the Farm Bill introduced by Central Government, the toll operations at various toll plazas were suspended by farmers at various dated starting 13th January 2021. This is a Force Majeure due to indirect political event. SBHL has filed a claim with the Authority for compensation against the same. The insurance company has also been informed about compensating the loss of toll. Pending receipt of compensation, SBHL has not recognised any loss of toll revenue on account of this Force Majeure during the financial year. On 19-11-21, Central Government has announced repeal of Farm Bill and toll operations resumed on 9th December 2021. SBHL had claimed this loss under Special Contingency Policy which was not admitted by Insurance Company.

43. Balance Confirmation

Balance of trade payable and other financial Asset are subject to confirmation for SBHL.

Roadstar Infra Investment Trust
Notes forming part of the Combined Financial Statements
44. Debt Servicing and Interest Accrual

a) In respect of HREL, in line with the affidavit filed by Ministry of Corporate Affairs (MCA) to the Hon'ble NCLAT on May 21, 2019, the cut-off date of October 15, 2018 ("Cut-Off Date") was proposed, on account of inter alia the fact that the Hon'ble NCLAT had passed wide its order dated March 12, 2020, had upheld its interim order of October 15, 2018, which inter alia granted certain reliefs to the IL&FS Group and also restricted certain coercive actions by the creditors of the IL&FS Group.
In terms of the Resolution Framework Reports, the proposal made is that all liabilities relating to the relevant IL&FS Group Entity, whether financial (including interest, default interest, indemnity claims and additional charges), operational debt (including interest, indemnity or other claims) as well as statutory claims (including tax, employment and labour related claims), whether existing at or relating to a period prior to the Cut-Off Date should not continue accruing.
Accordingly, the interest expense were accounted on borrowings only until October 15, 2018.
Therefore, the interest expense from October 16, 2018 to March 31, 2021 were not accounted in line with above facts till March 31, 2023. This excluded any penal interest and other charges, that might be levied by the lenders.
During the financial year ended March 31, 2024, owing to restructuring process being approved by the secured lenders and related parties as lenders, HREL has accounted interest w.e.f April 1, 2021, in financial year 2022-23 as per the new terms and conditions mentioned in revised sanction letters received from secured lenders and agreement with related parties.

b) In case of PSRDCL, during the financial year ended March 31, 2024, the Company's shareholding was transferred to Roadstar Infra Investment Trust (RIIT), an InvIT, following due approvals from the lenders, the authority, and the NCLT. Pursuant to this transfer, no interest was payable to the lenders for the period from October 16, 2018, to March 31, 2021. Interest accrued up to October 15, 2018, was converted into a loan, and the lenders executed a loan agreement with restructured terms. Debt servicing under these revised terms commenced in June 2023.

Additionally, the senior lenders had recovered ₹230.48 million post-October 15, 2018, which was adjusted against the outstanding debt as per the distribution plan approved by the NCLAT. While the senior lenders have incorporated the restructuring of debt into their books, a review of the statements of account received from them indicates a variance in the balances for four out of twelve lenders. As of September 30, 2024, the net variance between the debt balances reported by the senior lenders and those recorded in the Company's books is ₹20.89 million. The Company is actively engaging with the senior lenders to reconcile and resolve this discrepancy.

Management is of the view that the resolution of these matters will not have any impact on the financial statements of the Company

c) In case of BAEL, National Company Law Appellate Tribunal ("NCLAT") had passed an order on October 15, 2018 ("Interim Order") in Company Appeal (AT) 346 of 2018, imposing moratorium on the creditors of IL&FS and its 348 group companies, which includes the Company. Further, NCLAT vide its order dated February 11, 2019 had also classified the Company under the "Red Category" based on a 12 month cash flow solvency test, indicating it is not in a position to discharge its entire Debt as and when due. Accordingly, the Company is permitted to make only those payments necessary to maintain and preserve the going concern status. This consequently also resulted in downgrade of debt ratings of the Company. NCLAT wide its order dated March 12, 2020, had upheld its interim order of October 15, 2018. The said order specifies October 15, 2018 as the date of initiation of the Resolution Process of the Company. Accordingly the Company has not accrued any interest, default interest, penal interest and any other similar charges after the said cut-off date of October 15,2018 and also not repaid any principle amount of debt due. As a result, Rs. 411.01 Million (during the period October 2018 to March 2020) recovered by the banks (towards interest and principal) from the Escrow accounts of the Company maintained with them is being treated as Receivable from banks in these financial statements. The Company has written to the banks for recoveries of the same amounts in view of moratorium extended by the October 15, 2018 Order of NCLT. These amounts have not been handed back to the Company till date. Further, the balances as confirmed by the lenders, in some cases, are not in agreement with the books of the company which is under reconciliation.
During the current financial year, further Rs. 1039.70 Million (Previous Year March 31, 2024 1935.00 Million and March 31, 2023: Rs. 411.01 Million) recovered by the banks from the Escrow accounts of the Company maintained with them. The company has disclosed the amount of such recoveries as at September 30, 2024 amounting to Rs.3385.71 Million (Previous Year March 31, 2024 2,346.01 Million and March 31, 2023: Rs. 411.01 Million) as an Amount Receivable from Bank.

d) In case of BAEL, In line with the affidavit filed by Ministry of Corporate Affairs (MCA) to the Hon'ble NCLAT on May 21, 2019, the cut-off date of October 15, 2018 ("Cut-Off Date") was proposed, on account of inter alia the fact that the Hon'ble NCLAT had passed the Order on October 15, 2018, which inter alia granted certain reliefs to the IL&FS Group and also restricted certain coercive actions by the creditors of the IL&FS Group. In terms of the Resolution Framework Reports, the proposal made is that all liabilities relating to the relevant IL&FS Group Entity, whether financial (including interest, default interest, indemnity claims and additional charges), operational debt (including interest, indemnity or other claims) as well as statutory claims (including tax, employment and labour related claims), whether existing at or relating to a period prior to the Cut-Off Date should not continue accruing. Accordingly, the interest expense are accounted on borrowings until October 15, 2018.
With the approval of NCLT, NHAI, and the lenders, post September 30, 2024, the Company's shareholding was acquired by Roadstar Infra Investment Trust (RIIT). As part of this resolution, the entire debt of the Company has been restructured. Accordingly, interest amounting to ₹ 4,008.58 million on secured senior lender borrowings, accrued for the period from April 1, 2021, to September 30, 2024, has been recognized during the current year. This includes interest on a portion of the senior debt, against which Non-Convertible Debentures (NCDs) issued post-September 30, 2024, considering an extension of the concession period by four years. Interest on unsecured group debt will be accrued starting October 17, 2024, the effective date of the Company's acquisition by RIIT.

45. Extension of Concession Period:

In case of PSRCL , the project concession period is 19 years 295 days commencing from the appointed date 28/9/2011 and the appointed date of the project was September 28, 2011. Accordingly project concession ends in September 28, 2031. As per the Clause 29.1.2, in the event Actual Average Traffic shall have fallen short of the Target Traffic (as on April 1, 2020), then for every 1% (one per cent) shortfall as compared to the Target Traffic, the Concession Period shall, subject to payment of Concession Fee in accordance with this Agreement, be increased by 1.5% (one point five per cent) thereof; provided that such increase in Concession Period shall not in any case exceed 20% (twenty per cent) of the Concession Period. As per the traffic projections, there will be lower traffic as on target date and hence, the Company is eligible for extension of concession period of 3.96 years i.e. the concession period will be till July 28, 2035 including extension of 23 days on account of demonetisation. Such extension of concession period has been considered for accounting of amortisation and impairment for financial year ended March 31, 2021 and March 31, 2023. However, NHAI has granted an extension of the concession period for the Project for a total of 450 days, in response to the Company's request of equivalent to 3.96 years. The Company is currently contesting the decision made by NHAI regarding the lower extension granted. For accounting purposes, the extension of the concession period (450 days) has been considered for the amortization and impairment of the project for March 31, 2024 and period ended September 30, 2024.

In case of BAEL, the project concession period is 20 years and the appointed date of the project was April 1, 2014. Accordingly, project concession ends in March 2034. As per the Clause 29.1.2, in the event Actual Average Traffic shall have fallen short of the Target Traffic, then for every 1% (one per cent) shortfall as compared to the Target Traffic, the Concession Period shall, subject to payment of Concession Fee in accordance with this Agreement, be increased by 1.5% (one point five per cent) thereof; provided that such increase in Concession Period shall not in any case exceed 20% (twenty per cent) of the Concession Period. As per the traffic projections, there will be lower traffic as on target date and hence, the Company is eligible for extension of concession period of 5 years 3 months (subject to maximum of 4 years) i.e. the concession period will be till September 2039. Such extension of concession period has been considered for accounting of amortisation, impairment and negative premium payable to NHAI. In view of this, an addition of Rs 787.35 Million was recognised as addition to Intangible asset during previous year ended March 31, 2020, being the net present value of premium payable for extended period.

In case of SBHL, the concession period for the project commenced on February 18, 2013, for a duration of 25 years, ending on February 18, 2038. As per Clause 29.1.2 of the agreement, if the Actual Average Traffic falls short of the Target Traffic as of April 1, 2020, the concession period may be extended by 1.5% for every 1% shortfall, subject to the payment of the stipulated Concession Fee. However, the total extension of the concession period is capped at 20% of the original concession period.
Accordingly, the Company filed a claim for extension, and Independent Engineer recommended an additional concession period, vide letter dated September 14, 2024, for a period of a five-years i.e. up to March 31, 2043. For accounting purposes, this five-year extension of the concession period has been considered in the amortization and impairment calculations for the project.

Roadstar Infra Investment Trust

PROJECTIONS OF REVENUE FROM OPERATIONS AND CASH FLOW FROM OPERATING ACTIVITIES

(*This page has been left intentionally blank*)

AUDITORS' REPORT ON PROJECTIONS OF REVENUE FROM OPERATIONS AND CASH FLOWS FROM OPERATING ACTIVITIES

To,
The Board of Directors,
Roadstar Investment Managers Limited (the "Investment Manager") in its capacity as an Investment Manager of Roadstar Infra Investment Trust (the "Issuer" or the "Trust")
IL&FS Financial Centre
Plot C, G Block
Mumbai 400051

1. We, KKC and Associates LLP (earlier Khimji Kunverji & Co LLP), being the statutory auditors of the Trust, have been approached by the management of the Investment Manager for issuing this report in terms of the Letter of Engagement dated 01 December 2023. We have carried out our verification procedures in accordance with Standard on Assurance Engagement 3400, "The examination of Prospective Financial Information" ("SAE 3400") issued by the Institute of Chartered Accountants of India ("ICAI").

2. We have examined the accompanying statements ("the Projection information"), which are stamped and initialled by us for identification purpose only, of projections of revenue from operations and cash flows from operating activities and the underlying assumptions of Roadstar Infra Investment Trust (the "Issuer" or the "Trust") and its subsidiaries and joint venture, comprising of:

   I. Moradabad Bareilly Expressway Limited (MBEL)
   II. Sikar Bikaner Highway Limited (SBHL)
   III. Hazaribagh Ranchi Expressway Limited (HREL)
   IV. Thiruvananthapuram Road Development Company Ltd (TRDCL)
   V. Pune Sholapur Road Development Co Ltd (PSRDCL)
   VI. Barwa Adda Expressway Ltd (BAEL)

   (collectively, the "group") as described in Note (a) to project information i.e. the prospective combined financial information for the years ending March 31, 2026, 2027 and 2028.

3. **Responsibilities of management and Assumptions in the Projection Information**

   3.1 The preparation and presentation of the projections including the underlying assumptions and the basis of combination, set out in Note (b) to the Projection Information, is the responsibility of the Investment Manager and has been approved by the Board of Directors of the Investment Manager. Our responsibility is to examine the evidence supporting the assumptions (excluding the hypothetical assumptions) and other information in the Projection Information.

   3.2 The assumptions used for the preparation of these Statement of Projections have been provided to us by the Investment Manager to the Trust and relied upon by us as regards certain matters, including but not limited to estimates as under:
   a) Technical estimates of expected traffic.
   b) Future toll tariff.
   c) Changes in wholesale price index based on traffic study reports.
   d) Estimated future expenditure for major maintenance of roads.

kkc & associates llp Chartered Accountants

e) Assumptions/ expectations pertaining to future events and factors such as country's gross domestic product growth; general economic conditions; current and future traffic mix; per capita income and demographic changes; development of alternate/ feeder routes; alternate means of transportation; fuel prices; reduction in commercial or industrial activities in the regions served by the roads and natural disasters; government polices around mining, extraction of minerals etc.

All the above are based on reports issued by various third-party external experts.

Variation of any of the above factors may cause differences in the actual traffic volumes and monetary estimates, which may be materially different from the estimates thereof.

3.3 Our responsibility does not include verification of the accuracy of projections (including quantitative details). Therefore, we do not vouch for the accuracy of the same.

4. The Projection Information have been prepared for the proposed private placement of units (the "Issue") of the Trust in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended ("InvIT Regulations"). The projections have been prepared using a set of assumptions that include hypothetical assumptions about future events and the Investment Manager's actions that are not necessarily expected to occur, as set out in Note (b) to the Projection Information and has been approved by the Board of Directors of the Investment Manager. Consequently, users are cautioned that the Projection Information may not be appropriate for purposes other than that described above.

5. We have performed verification procedures in accordance with the Guidance Note on Audit Reports and Certificates (Revised 2016) for Special Purposes issued by ICAI, which requires that we comply with the ethical requirements of the Code of ethics issued by the ICAI. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Performs Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

6. This Report is required by InvIT Regulations requiring the independent auditor to issue a report on the projections and is issued for the sole purpose of the proposed Issue in accordance with the InvIT Regulations.

7. We have carried out our examination of the Projection Information on a test basis. Based on our examination of the evidence supporting the assumptions (excluding the hypothetical assumptions), nothing has come to our attention which causes us to believe that these assumptions do not provide a reasonable basis for the Projection Information assuming that the Trust, post offer capital structure and corporate structure, are in existence from October 06, 2020, as more fully described in Note (b) to the basis of preparation of the Projection Information.

8. Further, in our opinion, nothing has come to our attention that causes us to believe, that the Projection Information read with the basis of preparation and notes thereon, has not been properly prepared on the basis of the assumptions as set out in Note (b) to the Projection Information, to the extent applicable, with the accounting policies and the basis of preparation used for the preparation of the historical special purpose combined financial statements of Roadstar Infra Investment Trust which is included in the Draft Placement Memorandum (the "DPM"). Even if the events anticipated under the hypothetical assumptions described above occur, actual results are still likely to be different from the projection since other anticipated events frequently do not occur as expected and the variation may be material.

kkc & associates llp UN Chartered Accountants

9. This report is addressed to and is provided to enable the Investment Manager to include it in the DPM in connection with the Issue of units of Roadstar Infra Investment Trust and the Projection Information may not be meaningful for any other purpose. It should not be used, referred to or distributed for any other purpose or by any person other than the addressees of this report. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

Notes to the Projection Information of Roadstar Infra Investment Trust

a) General Information

Roadstar Infra Investment Trust (the "Trust") was settled on October 06, 2020, as a contributory irrevocable trust under the provision of the Indian Trusts Act, 1882. The Trust was registered as an infrastructure investment trust under the Securities Exchange Board of India ("SEBI") (Infrastructure Investment Trust) Regulations, 2014, as amended read together with circulars and guidelines issued thereunder (the "SEBI InvIT Regulations") on December 22, 2020, having registration number IN/InvIT/20-21/0015. The registered office address of the Trust is 6th Floor, IL&FS Financial Centre, Plot C, G Block, Bandra Kurla Complex, Mumbai 400051.

- Roadstar Infra Private Limited (the "Sponsors"), are companies registered in India are the Sponsor of the Trust.
- The Trustee to the Trust is Axis Trustee Services Limited (the "Trustee").
- Investment manager for the Trust is Roadstar Investment Managers Limited (the "Investment Manager").

The investment objective of the Trust is to carry on the activities of an infrastructure investment trust, as permissible under the SEBI InvIT Regulations. The Trust has been formed to invest in infrastructure assets primarily being in the road sector in India. All the Trust's Road projects are implemented and held through special purpose vehicles ("SPVs" together with the Trust referred to as " Trust").

Under the share purchase agreements entered amongst the Sponsors, the Trustee, the Investment Manager, and the relevant SPVs and their respective shareholders, Roadstar Infra Investment Trust has acquired / to be acquired 100% of fully paid-up equity shares of the SPVs except

I. TRDCL where 50% of fully paid-up equity shares has been acquired from their respective holders who has been issued and allotted units of Roadstar Infra Investment Trust.
II. PSRDCL where 90.91 % of fully paid-up equity shares has been acquired from their respective holders who has been issued and allotted units of Roadstar Infra Investment Trust.
III. HREL where 99.99 % of fully paid-up equity shares has been acquired from their respective holders who has been issued and allotted units of Roadstar Infra Investment Trust.
IV. BAEL where 100 % of fully paid-up equity shares has been acquired on October 17, 2024 from their respective holders who has been issued and allotted units of Roadstar Infra Investment Trust.

SPV wise profile has been indicated in below table:

Name of SPV	Residual Concession Life**	Shareholding by Trust*	Proposed Shareholding by Trust	Nature of Proposed Investment	Status	Principal Activities	Date of incorporation	Date of Commercial operation
MBEL	11.4 Years	100.00%	100.00%	Subsidiary	Operating	Construction and operation of road including toll collection	11-01-2010	06-01-2015
SBHL	18.5 Years	100.00%	100.00%	Subsidiary	Operating	Construction and operation of road including toll collection	13-04-2012	10-10-2015

PSRDCL	11.0 Years	90.91%	90.91%	Subsidiary	Operating	Construction and operation of road including toll collection	21-08-2009	23-08-2013
BAEL	13.7 Years	#	100.00%	Subsidiary	Operating	Construction and operation of road including toll collection	23-04-2013	13-10-2017

* as on 30th Sep 2024

** Residual concession life has been considered including estimated extension period based on target traffic.

Post September 30,2024, the Trust has completed the acquisition of 100% ownership, following the necessary approvals received from the NHAI.

KKC & Associates LLP Chartered Accountants

Roadstar Infra Investment Trust

The prospective combined financial information of the Trust comprises of the projected revenue from operations and projected cash flows from operating activities of Trust's subsidiaries comprising of

I. Moradabad Bareilly Expressway Limited (MBEL)
II. Sikar Bikaner Highway Limited (SBHL)
III. Hazaribagh Ranchi Expressway Limited (HREL)
IV. Pune Sholapur Road Development Co Ltd (PSRDCL)
V. Barwa Adda Expressway Ltd (BAEL)

Interests in below mentioned joint venture are accounted for using the equity method and hence has not been considered in Projected Revenue from operation and projected cash flow from operating activities.

Name of SPV	Description of asset	Current shareholding
TRDCL	Set up to develop, widen, strengthen, operate, construct and maintain the Thiruvanthapuram City Roads Improvement Project (TCRIP) under the Annuity Concession Agreement	1) IL&FS Transportation Networks Limited – 50% (up to 18th December 2022) The Trust (from 19th December 2022) 2) Punj Lloyd Limited – 50%

b) Basis of preparation of Projection Information

The statements of projection of revenue from operations and projection of cash flows from operating activities of the subsidiaries as stated in Note a) above and the Trust for the financial years ending March 31, 2026, 2027 and 2028 along with the underlying assumptions and other explanatory information (the "Projection Information") have been compiled by the Investment Manager to the Trust solely for the purpose of inclusion in the Placement Memorandum and final Placement Memorandum in continuation with the draft private placement of the units of the Trust filed. Therefore, Projection Information should not be used or relied upon for any purpose other than described above.

The Projection Information have been prepared based on the accounting policies used for preparation of the historical Special Purpose Combined Financial Statements of the Trust as required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended including circulars and guidelines issued thereunder ("InvIT Regulations"), which are prepared in accordance with accounting principles of Indian Accounting Standards ("Ind AS") as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended prescribed under Section 133 of the Companies Act, 2013 read with InvIT Regulations and the Guidance Note on Combined and Carve- Out Financial Statements issued by the Institute of

Chartered Accountants of India. Projected cash flow from operating activities have been calculated using the direct method under Ind AS 7 - Statement of Cash Flows and is computed by deducting the projected operating expenses and income taxes from the projected revenue from operations and adjusted for projected non- cash expenses (if any). Projected cash flow from operating activities do not include any items pertaining to financing or investing in nature.

The Projection Information are presented in Indian Rupees. All values are rounded to the nearest million, unless otherwise indicated.

The Trust follows March 31st as its accounting year end. Accordingly, the Projection Information are prepared for the financial years ending March 31, 2026, March 31, 2027 and March 31, 2028 ('Projections Period').

It is clarified that the Projection Information have been prepared on the basis of a mixture of best-estimate (i.e. assumptions as to future events which are expected to take place and the actions expected to take place as of the date the information is prepared) and hypothetical assumptions (about future events and actions which may or may not necessarily take place).

Projection Information contains forecasts and projections that relate to future events including hypothetical assumptions, which are, by their nature, subject to significant risks and uncertainties. Events and circumstances may not occur as expected. Even if the events anticipated under the hypothetical assumptions described in the Projection Information occur, actual results are still likely to be different from those stated in the Projection Information since other anticipated events frequently do not occur as expected and the variation may be material. The actual results may therefore differ materially from those forecasted and projected.

These Projection Information has been adopted by the Board of Director of the Investment Manager on 04/01/2025.

A. Significant assumptions

The Projection Information has been prepared based on significant assumptions including hypothetical assumptions summarized below. The Investment Manager considers the assumptions to be appropriate and reasonable as at the date of the reporting. However, the investors should consider these assumptions as well as the Projection Information and make their own assessment of the future performance of the Trust.

The Investment Manager has obtained reports from a Independent third-party traffic consultant expert ("GMD Consultants for MBEL, Segmental Consulting & Infrastructure advisory P Ltd for SBHL and PSRDCL, HBS Infra Engineers India P Ltd for BAEL) ("Traffic Consultant") in assessment of the assumptions, market fundamentals, industry drivers and outlook amongst other things for the preparation of the Projection Information. The assumptions used in the Projection Information by the Investment Manager are substantially in line with the information and assumptions as per the analysis of Traffic Consultant.

The projections of the Trust have been prepared by combining the projections of revenue from operations and cash flows from operating activities of the Trust and SPVs, eliminating transactions between the Trust and SPVs and after considering the following:

I. REVENUE FROM OPERATIONS:

The SPVs' revenue from operations primarily consists of as below:

- For operational Toll Projects: Income from toll collection (Refer Para I (a))
- For under construction Toll projects: Income from toll collection and construction income (Refer Para I (a), (b))
- For operational Annuity Projects: O&M Income, Finance Income and Overlay Income derived from financial assets. (Refer Para I (c), (d), (e), (f))

a. Toll income:

The base data for the projections for toll income is based on the actual traffic data and tariff rates for the financial year 2023-24. Key variables for toll revenue growth are traffic growth, the wholesale price index ('WPI') which are based on Management estimates and details of the assumptions are as set forth below:

Project*	FY 2025-26	FY 2026-27	FY 2027-28
	Average Traffic Growth Rate (including diversion)		
MBEL	4.98%	6.12%	5.45%
SBHL	6.56%	5.67%	5.71%
PSRDCL	5.38%	3.93%	3.94%
BAEL	5.45%	5.47%	5.49%

* No assumptions involved for HREL and TRDCL since it receives fixed annuity income from NHAI / GOK.

WPI Assumptions	Reference WPI for Rate Revision (December of Previous Year) MBEL, SBHL and PSRDCL	Reference WPI for Rate Revision (December of Previous Year) BAEL	Reference Month
FY 2025-26	3.5%	3.5%	Dec 2024
FY 2026-27	6.5%	5.0%	Dec 2025
FY 2027-28	6.5%	5.0%	Dec 2026

b. Construction income:

All the Project SPVs are operational, and except in the case of BAEL, no major capital expenditure is expected and accordingly considered for arriving at construction income. Contract revenue associated with the construction of road is derived at cost of work expected to be performed on the contract plus proportionate margin (assumed at 5.25%), where required, using the percentage of completion method. Percentage of completion is the proportion of cost of work performed to date,

to the total estimated contract costs. Percentage of completion is determined based on the proportion of actual cost incurred to the total estimated cost of the project. The percentage of completion method is applied on a cumulative basis in each accounting period to the current estimates of contract revenue and contract costs. Contract cost include projected costs that relate directly to the specific contract and allocated cost that are attributable to the Construction of the road.

The cost of construction assumed is based on requirements as per the respective concession agreements and in line with management estimates based on current market practice. It is assumed that the construction will be completed within the estimated timelines considered for the purpose of these projections. The details of construction income assumed is as follows:

INR MN

SPV	FY 2025-26	FY 2026-27	FY 2027-28
BAEL	(822.5) *	-	-

*(822.5) assumed refund of GST on construction income on account of change in law.

c. Annuity Income from NHAI for Hazaribagh Ranchi Expressway Limited (HREL):
Annuity Income from PWD, GOK for Thiruvananthapuram Road Development Co Ltd (TRDCL):
HREL / TRDCL has the right to receive fixed annuity payments from NHAI / PWD, GOK during the concession period and has adopted financial asset model as prescribed by Appendix to Ind AS 115 "Revenue from Contracts with Customers" "Service Concession Arrangements". The key inputs of the financial asset model comprise of revenue inflows (annuity), projected expenses to earn the revenue, estimations on cost to build and maintain the asset, interest obligations based on financing pattern and other operational efficiencies. These inputs are based on circumstances existing and management judgement / assumption on the future expectations based on current situations. Judgements include estimates on changes in interest rates, cost inflation, government policy changes, etc. which are reviewed periodically by the management.

d. Finance Income on annuity receivable from NHAI / GOK
HREL and TRDCL have right to receive annuity payments from NHAI / GOK during the concession period and has adopted financial asset model as prescribed in para (I(c) Ind AS 115 "Revenue from Contracts with Customers" "Service Concession Arrangements".

e. Operation and Maintenance Income: Revenue from operation and maintenance of road based on operation and maintenance cost has been shown under revenue from operation in relation to HREL and TRDCL as explained in para (I(c) Ind AS 115 "Revenue from Contracts with Customers" "Service Concession Arrangements."

f. Periodic Maintenance Income: Revenue from periodic maintenance of road based on periodic maintenance cost has been shown under revenue from operation in relation to HREL and TRDCL as explained in para (I(c) Ind AS 115 "Revenue from Contracts with Customers" "Service Concession Arrangements"

II. CASH FLOW FROM OPERATION:

The SPVs' cash flow from operations primarily consists of as below:

- For operational Toll Projects: Income from toll collection, Operation & Maintenance Cost, Admin expense, change in working capital, taxes. Refer para I (a), II (a), (c), (f), (g)

Roadstar Infra Investment Trust

- For under construction Toll projects: Income from toll collection, NHAI Premium Paid, Operation & Maintenance Cost, Admin expense, change in working capital, taxes. Refer para I (a), II (a), (b), (c), (f), (g)
- For operational Annuity Projects: Annuity Receipts, Operation & Maintenance Cost, Admin expense, change in working capital, taxes. (Refer Para I (c) II (a), (c), (f), (g))
- For RIIT Trust: IM Fee, PM Fee, InvIT expense (Refer II (d) (e)

a. **OPERATING AND MAINTENANCE COST**

The operating and maintenance cost includes routine maintenance, manpower costs and operational expenses, including, but not limited to, road and site work expenses, employee benefit expenses and other operating and maintenance costs.

Those costs are projected based on management estimates in line with the technical report (the "Technical Report") provided by the technical consultant for each of the Project SPVs

The projected operating and maintenance cost corresponds with the projected traffic and is primarily based on the currently available information on actual operating and maintenance cost associated with the operation of the Project SPVs.

Based on the concession agreements, the potential periodic / major maintenance cost is provided for in the Statement of profit and loss for each year, and in the year of actual expenditure the same is adjusted against the provision created for the same. The projections do not envisage any unanticipated expenses which may be incurred due to any unforeseen circumstances.

Details of assumptions are as follows:

Particulars	Descriptions
Operational and Maintenance Expenditure	O&M expense: escalation at 5% per annum
Major maintenance expenditure	Major Maintenance Expense – Escalation at 5% per annum

The summary of projection of operation and maintenance cost is given below:

INR Million

* Major Maintenance has been considered as cash flow from Investing activity.

b. Premium paid to National Highway Authority of India (NHAI)

As per concession agreement, BAEL are obliged to pay an annual amount of premium to NHAI. Total premium payable as per concession agreement has been capitalized as Intangible Assets.

c. Admin Expense

Admin expenses are included as part of the operating expenses of SPVs.

d. InvIT expenses

The Trust expenses are mainly projected based on the terms and conditions of the relevant agreements and / or based on Management's experience and judgement. The nature for the Trust expenses is described below:

1) Investment Manager fee

The Investment Manager is entitled to Management Fees shall be calculated annually and shall be an amount equal to 107.00 % (one hundred-and-seven per cent) of the costs incurred by the Investment Manager in providing the investment management services to the Trust under the Investment Management Agreement. For the purposes of this proposal, "costs" shall include all manpower expenses, administrative expenses, audit fees and operating expenses that may be, or are, debited to the Investment Manager's statement of profit and loss, excluding depreciation.

2) Project manager fee

The Project Manager is entitled to a Project Manager fee to be calculated @ 1.5% per annum, exclusive of applicable taxes, of the consolidated gross O&M and MM expense of the Trust at

KKC & Associates LLP Chartered Accountants
Roadstar Infra Investment Trust

the end of the reporting period.

e. Other InvIT expenses:

These include the other operating expenses of the InvIT. It is escalating at the rate of 5% of previous year.

f. Taxes

Current income tax is measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in India where the Trust operates and generates taxable income.

Certain SPVs are eligible for deduction under section 80IA of the Income Tax Act, 1961 for ten consecutive years. The tax is calculated under MAT provisions of Section 115JB of the Income Tax Act, 1961 based on the book profits of the Project SPVs. Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the entity will pay normal income tax.

The Trust will receive interest and dividend income from the SPVs, which is considered exempt under the Income Tax Act, 1961. Hence, no income tax expense/cash flow is assumed during the projection period (except income tax on treasury income). The transaction of receipt of interest income will be eliminated in the Consolidated Statement of Profit and Loss and in the Consolidated Statement of Cashflows.

g. Changes in working capital.

The entire collection of tolls is in cash and routine expenses are in cash or a credit period is available. In these cases, the effective working capital deployed is relatively small or negative in certain instances. Further we believe the working capital is stable and not expected to vary drastically over a period. The impact of changes in working capital has been considered in the projected cash flows.

h. Other assumptions

a. The initial portfolio of SPVs remains unchanged through the Projection Period.
b. No further assets are acquired or divested during the Projection Period.
c. It has been assumed that no outflow on account of any litigation related matters including current pending litigations/contingent liabilities is expected to become due during the Projection Period.
d. There will be no material change in taxation legislation or other applicable legislation.
e. It has been assumed that no liability or liquidated damages on account of default in concession agreement shall devolve upon the Project SPVs during the Projections Period.
f. The relevant tax exemptions, tax remissions, and preferential tax treatments granted remain valid and applicable and that the terms and conditions thereto are complied with.
g. The Projections are based on assumptions and are subject to several factors. Investors should be aware that future events, including actual traffic growth rates, cannot be predicted with

Chartered Accountants
Roadstar India Investment Trust

any certainty and there may be deviations from the figures projected in the Projection Information.

h. The Projections have been prepared based on the Traffic Report's for traffic volume growth rates.

Report on Enterprise Valuation of the Specified Companies of Roadstar Infra Investment Trust

Private and Confidential

Report Ref No: RVA2425BOMREP293 Date: 17/12/2024

Roadstar Infra Investment Trust
The IL&FS Financial Centre,
Plot No. C22, G-Block, Bandra Kurla Complex,
Bandra East, Mumbai – 400051

Kind attention: **Danny Samuel, Chief Executive Officer**

Sub: Valuation of the Specified Companies pursuant to Securities Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended (the "SEBI InvIT Regulations")

Dear Sir,

We refer to our engagement letter dated November 29, 2024, wherein RBSA Valuation Advisors LLP ("RBSA") has been appointed by Roadstar Infra Investment Trust ("RIIT" / "Trust" / "InvIT"), as an independent valuer, as defined under Regulation 2(zzf) of the SEBI InvIT Regulations, to carry out the enterprise valuation of the following companies, as of September 30, 2024, of the Trust,

- Moradabad Bareilly Expressway Limited ("MBEL");
- Sikar Bikaner Highway Limited ("SBHL");
- Hazaribagh Ranchi Expressway Limited ("HREL");
- Thiruvananthapuram Road Development Company Ltd ("TRDCL");
- Pune Sholapur Road Development Company Limited ("PSRDCL") and;
- Barwa Adda Expressway Limited ("BAEL")[1].

The aforementioned companies are hereinafter together referred to as the "Specified Companies" or individually as the "Company" as the context may require. The Specified Companies are primarily engaged in operating and maintaining road projects on toll/annuity basis.

The Trust is registered with the Securities and Exchange Board of India ("SEBI") as an infrastructure investment trust under the SEBI InvIT Regulations bearing registration number IN/InvIT/20-21/0015. RIIT is sponsored by Roadstar Infra Private Limited ("RIPL" or the "Sponsor"). The Sponsor established RIIT on October 6, 2020, and RIIT was registered with SEBI on December 22, 2020, as an InvIT pursuant to the InvIT Regulations. Roadstar Investment Managers Limited ("RIML" / "Investment Manager") is the investment manager to the Trust, RIPL is the Sponsor to the Trust and Axis Trustee Services Limited (the "Trustee") is Trustee to the Trust, within the meaning of the SEBI InvIT Regulations.

We have been requested by the management of RIML (the "Management"), on behalf of the Trust, to carry out the enterprise valuation of the Specified Companies as per Regulation 21(7) contained in the Chapter V of the SEBI InvIT Regulations, in connection with the proposed listing of units of the Trust (the "Private Offering"). This Report has been prepared solely for the purpose of inclusion as part of the draft placement memorandum and the final placement memorandum and such other documents as may be required in accordance with the SEBI InvIT Regulations requiring an independent valuation.

[1] Acquired by the Trust on October 17, 2024

RBSA VALUATION ADVISORS LLP

We have analysed the information provided by the Management through broad inquiry, analysis and review but have not carried out a due diligence or audit of such information. We have relied on the explanations and information provided by/ on behalf of the Management. We have no present or planned future interest in the Sponsor, Trust, or the Specified Companies except to the extent of our appointment as an independent valuer. Our professional fees for the valuation are not contingent upon the values reported herein. Our valuation analysis should not be construed as an investment advice specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Trust / Specified Companies.

We enclose our valuation report (the "Report") providing our opinion on the fair enterprise valuation of the Specified Companies as of September 30, 2024 ("Valuation Date"), on a 'going concern value' premise. The attached Report details the valuation approach and methodologies, calculations, and conclusions with respect to this valuation.

Our valuation analysis must be considered as a whole. Selecting portions of our analysis or the factors we considered, without considering all factors and analysis together could create a misleading view of the process underlying the valuation conclusions. Valuation is a complex process and is not necessarily susceptible to partial analysis or summary description. Any attempt to do so could lead to undue emphasis on any particular factor or analysis.

Our valuation conclusion included herein, and Report complies with the SEBI InvIT Regulations and guidelines, circular or notification issued by SEBI thereunder.

Please note that the Report must be read in conjunction with the Assumptions and Limiting Conditions, which are contained in Section 3 of this Report. This letter, the Report and the summary of valuation included herein may be provided to the Trust's advisors, the Securities and Exchange Board of India, other regulatory and supervisory authority, as may be required in connection with the Private Offering.

This letter should be read in conjunction with the attached Report.

Valuation Analysis

Discounted Cash Flow ("DCF") method under the Income Approach has been adopted for determining the enterprise valuation of the Specified Companies. Free Cash Flow to Firm method under DCF has been applied based on the projected financial statements of the Specified Companies provided by the Management. The Business Enterprise Value has been computed by discounting the free cash flows to the firm, beginning October 1, 2024, until the end of the concession period using an appropriate Weighted Average Cost of Capital ("WACC").

The Trust had appointed independent consultants to carry out traffic study and estimation of toll revenue ("Traffic Study Reports") and technical study ("Technical Reports") for estimation of operating and maintenance expenses and major maintenance expenses, for the balance concession period of the Specified Companies. We have relied upon such Traffic Study Reports and Technical Reports provided by the Management for the Specified Companies for working out the enterprise valuation of the Specified Companies.

RBSA VALUATION ADVISORS LLP 3

Valuation of a company/ business is not a precise science, and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgment. There is, therefore, no indisputable single value and we normally express our opinion on the value as falling within a likely range. However, considering the nature of the engagement we have provided a single point value estimate. While we have provided our opinion on the enterprise value of the Specified Companies based on the information made available to us and within the scope and constraints of our engagement, others may have a different opinion. Accordingly, we expressly disclaim all liability for any loss or damage of whatever kind which may arise from any person acting on any information and estimates contained in this Report which are contrary to the stated purpose.

While our work has involved an analysis of financial and other information provided by/ on behalf of the Management, our engagement does not include an audit in accordance with generally accepted auditing standards of the Specified Companies. We have not carried out any independent technical evaluation or appraisal or due diligence of the assets or liabilities of the Specified Companies. Accordingly, we assume no responsibility and make no representations with respect to the accuracy or completeness of any information provided by/ on behalf of the Management. Our Report is subject to the scope, assumptions and limitations detailed hereinafter. As such the Report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to herein and in the context of the purpose for which it is made.

Enterprise Valuation of the Specified Companies as of September 30, 2024 ("Valuation Date") has been carried out considering *inter-alia* historical performance of the Specified Companies, Traffic Study Reports and Technical Reports of independent consultants, business plan/ projected financial statements of the Specified Companies and other information provided by the Management, industry analysis and other relevant factors.

The valuation summary of the Specified Companies as of September 30, 2024, is as follows:

In INR Mn

Name of the Company	WACC	Business Enterprise Value #	Adjusted Enterprise Value *
MBEL	10.8%	29,830.0	30,548.4
SBHL	10.7%	9,286.6	10,046.7
HREL	9.4%	2,676.1	4,187.8
TRDCL	10.7%	383.3	686.5
PSRDCL	10.8%	17,771.8	19,098.9
BAEL @	11.1%	11,841.5	21,353.6
Total		**71,789.3**	**85,921.9**

 # Comprising present value of free cash flow to firm for the explicit period and release of net working capital at the end of explicit period. Excludes Contingent Claims.
** After considering adjustments, as appropriate, for cash and cash equivalents, advance tax, and contingent liabilities, etc.*
@ Read in conjunction with Note 2 on Page 43.

2. Engagement Overview

2.1 Roadstar Infra Investment Trust is registered with the Securities and Exchange Board of India as an infrastructure investment trust under the SEBI InvIT Regulations. RIML is the investment manager to the Trust, RIPL is the Sponsor to the Trust and Axis Trustee Services Limited is the Trustee to the Trust in accordance with the SEBI InvIT Regulation.

2.2 In accordance with Regulation 21(7) of SEBI InvIT Regulations, RBSA has been appointed as an independent valuer to undertake enterprise valuation of Specified Companies as on September 30, 2024, in connection with proposed listing of the units on one or more Indian stock exchanges consequent to the proposed private placement of the units of the Trust. (the "Private Offering").

2.3 RBSA Valuation Advisors LLP is a registered valuer entity under the Section 247 of the Companies Act, 2013 registered with the Insolvency and Bankruptcy Board of India having Registered Valuer Entity No. IBBI/RV-E/05/2019/110.

2.4 We declare that:

- We are competent to undertake the valuation;
- We are independent and have prepared the Report on a fair and unbiased basis; and
- We have valued the Specified Companies based on the valuation standards as specified/ applicable as per the SEBI InvIT Regulations.

2.5 The Valuation Date considered for the Enterprise Valuation of the Specified Companies is September 30, 2024. Valuation analysis and results are specific to the Valuation Date. A valuation of this nature involves consideration of various factors including the financial position of the Specified Companies as at the Valuation Date, trends in the equity stock market and fixed income security market, macro-economic and industry trends, etc.

3. Assumptions and Limiting Conditions

3.1. RBSA has been appointed as a Registered Valuer to carry out enterprise value of the Specified Companies of the Trust as per Regulation 21(7) of the SEBI InvIT Regulations as on the Valuation Date.

3.2. The basis of value applied in this engagement is fair value. Fair Value has been defined as per the valuation standards issued by the Institute of Chartered Accountants of India ("ICAI VS") as, "*Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date.*" Valuation is carried out on a 'going concern value' premise.

3.3. This Report, its contents and the results herein are specific to (i) the purpose of valuation agreed as per the terms of our engagement; (ii) the Valuation Date, and (iii) are based on the data detailed in the section - Sources of Information. The Management has represented that the business activities of the Specified Companies have been carried out in normal and ordinary course between Valuation Date and the Report Date and that no material changes have occurred in their operations and financial position between Valuation Date and the Report date.

3.4. Valuation is not a precise science, and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgement. In the ultimate analysis, our valuation will have to be tempered by the exercise of judicious discretion and judgment considering all the relevant factors. There will always be several factors, e.g., management capability, present and prospective competition, yield on comparable securities, market sentiment, etc. which may not be apparent from the Balance Sheet but could strongly influence the value. There is, therefore, no indisputable single value and while we normally express our opinion on the value as falling within a likely range, considering the nature, purpose, and requirement of the engagement we have provided a single point value. While we have provided our opinion on valuation based on the information available to us and within the scope and constraints of our engagement, others may have a different opinion.

3.5. Our valuation is based on the market, financial and other information provided by the Management and other information that was publicly available or sourced from subscribed databases, which have been relied upon for the purpose of valuation. The Management has represented to us that the information provided for valuation is complete, accurate, true, and correct to the best of their knowledge. We have relied on the Management representation concerning the financial data and operational data. We have carried out relevant analyses and evaluations through discussions, calculations, and such other means, as appropriate.

3.6. In accordance with the terms of our engagement letter and in accordance with the customary approach adopted in valuation exercise, our valuation does not constitute an audit or review in accordance with the auditing standards applicable in India, accounting / financial / commercial / legal / tax / environmental due diligence or forensic / investigation services and does not include verification or validation work. Accordingly, we express no audit opinion or any other form of assurance on the information provided.

RBSA VALUATION ADVISORS LLP

3.7. The Management has indicated to us, and they understand that any omissions, inaccuracies, or misstatements may materially affect our valuation analysis/conclusion. Accordingly, we assume no responsibility for any errors in the information provided by the Management and their impact on the Report. We reserve our right to alter our conclusions if it is found that the information provided to us by the Management was not reliable, accurate or complete.

3.8. We have relied on data from external sources to conclude the valuation. These sources are believed to be reliable and therefore, we assume no liability for the truth or accuracy of any data, opinions or estimates furnished by others that have been used in this analysis. Where we have relied on data, opinions or estimates from external sources, reasonable care has been taken to ensure that such data has been correctly extracted from those sources and /or reproduced in its proper form and context.

3.9. Valuation analysis may contain and/ or are based on estimates of future financial performance or opinions that represent reasonable expectations at a particular point of time. During the course of the valuation, we were provided with both written and verbal information. We have evaluated the information provided to us for Specified Companies by the Trust through inquiry, analysis and review but have not carried out a due diligence or audit of the information provided for the purpose of this engagement. Accordingly, such information, estimates or opinions are not offered as our predictions or our assurance that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Because events and circumstances frequently do not occur as expected, there will usually be differences between predicted and actual results, and those differences may be material. We take no responsibility for the achievement of the predicted results as it is dependent on the actions, plans, and assumptions of the Management.

3.10. Our Report and the opinion contained herein is not nor should it be construed as advice relating to investing in, purchasing, selling, or otherwise dealing in securities of the Trust / Specified Companies or as providing management services or carrying out management functions. It is understood that this analysis does not represent a fairness opinion. The valuation analysis and results are governed by the concept of materiality.

3.11. This Report has been prepared for the purpose as stated herein and should not be relied upon for any other purpose. This Report is only for the sole use of the Trust and is restricted to the purpose indicated in the engagement letter. We shall not assume any responsibility to any third party to whom the Report is disclosed or otherwise made available. This restriction does not preclude RIML from providing a copy of the Report to third-party advisors ("Permitted Recipient'') whose review would be consistent with the intended use. We do not take any responsibility for the unauthorized use of this Report.

3.12. We owe responsibility only to the Trust that has appointed RBSA under the terms of the engagement letter. We will not be liable for any losses, claims, damages, or liabilities arising out of the actions taken, omissions of or advice given by any other third party to the Trust. In no event shall we be liable for any loss, damages, cost, or expenses arising in any way from fraudulent acts, misrepresentations, or willful default on part of the Trust, their directors, employees, or agents. In no circumstances shall the liability of the Valuer, its partners, directors, or employees, relating to the services provided in connection with the engagement set out in this Report exceed the amount paid to the Valuer in respect of the fees charged by it for these services.

RBSA VALUATION ADVISORS LLP * 3

3.13. Any person/ party intending to provide finance to the Trust/ Specified Companies, invest/ divest shares of the Specified Companies/ units of Trust, if any, shall own do so after seeking their professional advice and after carrying out their own due diligence procedures to ensure that they are making an informed decision. If any person/ party (other than the Trust) chooses to place reliance on any matters included in the Report, they shall do so at their own risk and without recourse to RBSA. It is hereby notified that usage, reproduction, distribution, circulation, copying or otherwise quoting of this Report or any part thereof, except for the purpose as set out earlier in this Report, without our prior written consent, is not permitted, unless there is a statutory or a regulatory requirement to do so. RBSA accepts no responsibility or liability to any other party (including Permitted Recipient), in connection with this Report. It is clarified that reference to this Report in any document and / or filing or possession of this Report by any party, shall not be deemed to be an acceptance by RBSA of any responsibility or liability to any person/ party other than the Trust. RBSA accepts no duty, obligation, liability, or responsibility to any party, other than the Trust with respect to the services and/ or this Report.

3.14. Our valuation is primarily from a business perspective and does not consider various legal and other corporate structures beyond the limited information provided to us by the Management. Valuation is based on business, economy, market, and other conditions as they existed as of the Valuation Date. Subsequent events or circumstances could affect the conclusions set forth in our valuation include, without limitation, adverse changes in industry performance or market conditions and changes to the business, financial condition, and results of operations of the Specified Companies and therefore enterprise value of the Specified Companies. This Report is issued on the understanding that the Management has drawn our attention to all the matters, which they are aware of concerning the financial position of the Trust / Specified Companies and any other matter, which may have an impact on our opinion, on the valuation analysis as on the Valuation Date. Due to possible changes in market forces and circumstances, this Report can only be regarded as relevant as at the Valuation Date. RBSA is under no obligation to update, revise or reaffirm the valuation.

3.15. We have provided a copy of our draft Report to the Trust to review factual information in our Report as part of our standard practice to make sure that factual inaccuracies/omissions/etc. are avoided in our final Report.

3.16. The Report assumes that the Specified Companies comply fully with relevant laws and regulations applicable in their area of operations and usage unless otherwise stated, and that the Specified Companies will be managed in a competent and responsible manner. Further, unless specifically stated, this Report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigations and other contingent liabilities that are not recorded/reflected in the financial statements provided to us. Valuation may be significantly influenced by adverse legal, title or ownership, encumbrance issues; we reserve our right to alter the conclusions should any such issues are brought to our knowledge at a later date.

3.17. In performing the valuation analysis set forth herein, we have made certain assumptions with respect to industry performance and general business and economic conditions, many of which are outside the control of the Specified Companies and subject to change.

3.18. We do not have any financial interest in the Trust, nor do we have any conflict of interest in carrying out this valuation. Further, the information provided by the Management has been appropriately reviewed in carrying out the valuation.

3.19. Certain clarifications were provided by the Management orally, without confirmation in writing. We have assumed that such verbal information or clarifications provided to us is reliable, accurate and complete in all respects. We reserve the right to alter our conclusions should any information that we are not aware of at the time of preparing this Report comes to light that has a material impact on the conclusions herein.

3.20. The numbers in the tables may not add up due to rounding off.

Limitation of Liabilities:

- It is agreed that, having regard to RBSA's interest in limiting personal liability and exposure to litigation of its personnel, the Sponsor, the Trust, or the Trustee will not bring any claim in respect of any damage against any of RBSA's personnel.

- In no circumstances, RBSA shall be responsible for any consequential, special, direct, indirect, punitive or incidental loss, damages or expenses (including loss of profits, data, business, opportunity cost, goodwill or indemnification) in connection with the performance of the services whether such damages are based on breach of contract, tort, strict liability, breach of warranty, negligence, or otherwise.

- In the particular circumstances of this case, our liability (in contract or under statute or otherwise) for any loss or damage caused, shall be limited to the amount of fees actually received by us, as laid out in the engagement letter, for such valuation work.

- It is clarified that RIML / Trust will be solely responsible for any delays, additional costs, or other liabilities caused by or associated with any deficiencies in their responsibilities, misrepresentations, incorrect and incomplete information including information provided to determine the assumptions.

- We have relied upon the information provided by the Management in respect of the material claims/ litigations/ penalties/ tax disputes for the purposes of disclosure in this Report.

4. Sources of Information

For the purpose of undertaking this valuation exercise, we have relied on the following sources of information provided by/on behalf of the Management:

- Audited special purpose financial statements of Specified Companies for the six months period ended September 30, 2024;
- Concession agreement for the Specified Companies;
- Reports of independent consultants appointed by Trust for traffic study and estimation of toll revenue for the balance concession period of the Specified Companies, beginning October 1, 2024, for toll road projects;
- Report of independent consultants appointed by the Trust for technical study for estimation of operating and maintenance expenses and major maintenance expenses,
  - beginning October 1, 2023, till the balance concession period for MBEL, HREL, TRDCL, PSRDCL and BAEL;
  - beginning April 1, 2024, till the balance concession period for SBHL; ("Technical Reports") and
  - managements' estimate of the said expenses for the period ending March 31, 2025, based on actual expenses incurred till September 30, 2024;
- Projected financial statements of the Specified Companies for the balance period of the concession agreement which the Management expects to be their best estimate of the expected performance of the Specified Companies going forward ("Management Projections");
- Discussions with the Management to *inter-alia* understand historical and expected future performance of the Specified Companies, key value drivers and other factors affecting the business of Specified Companies;
- Capital IQ's database of publicly traded companies.

We have also obtained the explanations, information, and representations, which we believed were reasonably necessary and relevant for our exercise from the Management.

RBSA VALUATION ADVISORS LLP * 3

5. Procedures

We have carried out the Enterprise Valuation of the Specified SPVs, to the extent applicable, in accordance with ICAI Valuation Standards, 2018 ("ICAI VS") issued by the Institute of Chartered Accountants of India.

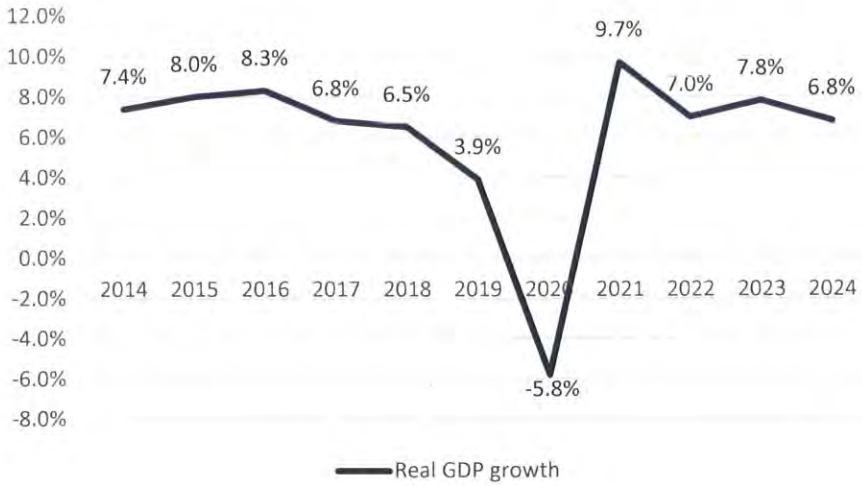
We have adopted the following procedures for carrying out the valuation analysis:

- Considered audited special purpose financial statements of Specified Companies for the period ended September 30, 2024;
- Considered the key terms of concession agreement;
- Analysis of the Management Projections;
- Considered the Traffic Study Reports and Technical Reports;
- Analysis of the key economic and industry factors which may affect the valuation of the Specified Companies;
- Analysis of the information available in public domain/ subscribed databases in respect of the comparable companies as considered relevant by us;
- Selection of valuation approach and valuation methodology/(ies), in accordance with ICAI VS, as considered appropriate and relevant by us;
- Analysis of other publicly available information, as considered relevant by us;
- Determination of Business Enterprise Value and Adjusted Enterprise Value of the Specified Companies.

6. Industry Overview

Indian Economy

- India, ranked as the fifth largest economy, has been amongst the fastest growing economies in the world over the past few years, with a GDP growth of 6.8% in Financial Year 2024 (*Source: IMF*)



Road Infrastructure in India

- India has the second-largest road network in the world, spanning a total of ~6.67 Mn kilometers (kms). This road network transports 64.5% of all goods in the country and 90% of India's total passenger traffic uses road network to commute.

Particulars	In Km	% Share
National Highways	1,46,145	2%
State Highways	1,79,535	3%
Other Roads	6,345,403	95%
Total	**6,671,083**	

Source: IBEF Roads Industry Report August 2024

Strong momentum in expansion of roadways

- In FY24, ~12,349 km of National Highways have been constructed. In FY23, the Ministry of Road Transport and Highways constructed national highways extending ~10,993 kms. In FY 22 the same was ~10,457 kms.
- National Highways increased from 91,287 km in 2013-14 to 1,46,145 km in 2023-24, and the pace of construction had improved from 12.1 km a day in 2014-15 to 42.03 km in FY23.
- The length of 4 lanes and above NH increased by 2.6 times from 18,371 km (2014) to 48,422 km.
- The length of operational High-Speed Corridors of NHs network has increased from 93 km in 2014 to about 2,138 km in 2024.

RBSA VALUATION ADVISORS LLP

- As of March 2023, the Pradhan Mantri Gram Sadak Yojana (PMGSY) has constructed over 7 lakh kilometers of rural roads since its inception in 2000, aiming to provide all-weather road connectivity to unconnected villages across India. Madhya Pradesh being the highest contributor followed by Rajasthan accounting for 88,425 Kms and 72,875 Kms respectively.
- Bharatmala Pariyojana, a flagship government program, aims to develop about 34,800 kilometers of highways for improving connectivity across India. As part of Phase 1, about 35 Multimodal Logistics Parks and 500 projects have been planned, with a significant focus on highways.
- Summary of Phase 1 Components and approved outlay of for the same are as follows: -

Sr. No.	Components	Length (Km)	Length completed up to 31.03.2024	Outlay (INR crore)
1	Economic corridors development	9,000	5,432	120,000
2	Inter- corridors & feeder roads	6,000	2,245	80,000
3	National Corridors Efficiency Improvement	5,000	2,003	100,000
4	Border and International Connectivity Roads	2,000	1,345	25,000
5	Coastal and port connectivity roads	2,000	178	20,000
6	Expressways	800	1,565	40,000
7	Balance Road works under NHDP	10,000	4,461	1,50,000
	Total		**17,411**	**5,35,000**

Source: MoRTH Website

Highway construction in India

Source: IBEF Roads Industry Report August 2024

Growth Drivers

Growing Demand	•Rise in two and four wheeler population •Increasing freight traffic •Strong trade and tourist flows between states
Policy Support	•Greater Government focus on infrastructure •Standardised processes for bidding and tolling and clear policy framework •Tax SOPS, FDI,FII encouragement
Increasing Investment	•In the Union Budget 2024-25, ~INR 2.72 Lakh Crore has been allocated to MorTH. •A surge in private investments is projected in the highway sector from Rs. 20,000 Cr to almost Rs. 1 trillion in 6-7 years. •Cumulative FDI Inflows in construction development stood at US$ 33.91 billion between April 2000-March 2024.

Source: IBEF Roads Industry Report August 2024

Future growth prospects:

- Under "Parvatmala Pariyojana", the Government of India plans to develop 250+ projects with a Ropeway length of 1,200+ km over five years.
- A total of 600+ sites are planned to be awarded by 2024-25 of which 144 Wayside Amenities (WSAs) have already been awarded.
- The Union Ministry of Environment, Forests and Climate Change (MoEF & CC) has asked the National Highways Authority of India (NHAI) and other agencies to use fly ash to build roads within a 300-km radius of coal or lignite-based thermal power plants.

RBSA VALUATION ADVISORS LLP

7. Valuation Approach and Methodology

VALUATION APPROACHES		
INCOME APPROACH	**MARKET APPROACH**	**ASSET APPROACH**
Estimates value based on the present value of future earnings of cash	Estimates value based on the multiples of comparable companies and precedent comparable transactions	Estimates value based on the fair value of the business' assets less the fair value of its liabilities
Applied	Not applied	Not Applied

Basis and Methodology of Valuation:

- **Basis of Valuation**
  It means the indication of the type of value being used in an engagement. Fair Value as per ICAI VS defined as under:
  "Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date."

  Fair value basis has been adopted for enterprise valuation of the Specified Companies.

- **Valuation Date**
  Valuation date is the specific date at which the value of the assets to be valued gets estimated or measured. Valuation is time specific and can change with the passage of time *inter-alia* due to changes in the condition of the asset to be valued and market parameters. Accordingly, valuation of an asset as at a particular date can be different from other date(s).
  The Valuation Date considered for the enterprise value of the Specified Companies is September 30, 2024 ("Valuation Date"). The attached Report is drawn up by reference to accounting and financial information as of the Valuation Date.

- **Premise of Value**
  Premise of Value refers to the conditions and circumstances how an asset is deployed. In the present case, we have determined the enterprise value of the Specified Companies on a Going Concern Value defined as under:

  "Going concern value is the value of a business enterprise that is expected to continue to operate in the future."

RBSA VALUATION ADVISORS LLP

Approach & Method	Applied/Not Applied	Description	Rationale
Income Approach Discounted Cash Flow Method (DCF)	Applied	▪ In the DCF method under the Income approach, forecast cash flows are discounted back to the valuation date, estimating a net present value of the cash flow stream of the business. A terminal value at the end of the explicit forecast period is then determined and that value is also discounted back to the valuation date to give an overall value for the business ▪ A discounted cash flow methodology typically requires the forecast period to be of such a length to enable the business to achieve a stabilized level of earnings, or to be reflective of an entire operation cycle for more cyclical industries ▪ The rate at which the future cash flows are discounted (the "discount rate") should reflect not only the time value of money, but also the risk associated with the business' future operations. The discount rate most generally employed is Weighted Average Cost of Capital ("WACC") or Cost of Equity (Ke), reflecting an optimal as opposed to actual financing structure	• Management has provided financial projections for the Specified Companies, which represents their best estimate of the expected performance of the Specified Companies for the balance tenor of their respective concession period. Considering the aforementioned, DCF method has been adopted to estimate the enterprise value of the Specified Companies
Market Approach • Market Price Method	Not Applied	▪ Under this method, the value of a company is arrived at considering its market price over an appropriate period	▪ As the Specified Companies are not listed, this method is not applied
Market Approach • Comparable Companies Multiples ("CCM") Method	Not Applied	▪ Under the Comparable Companies Method, the value of shares / business of a company is determined based on market multiples of publicly traded comparable companies. Although no two companies are entirely alike, the companies selected as comparable companies should be engaged in the same or a similar line of business as the subject company	▪ The Specified Companies are operational and do not have project implementation risk. Further, the projected income and cash flows of the Specified Companies primarily depend on the key terms of the respective concession agreements, residual tenor, project-specific characteristics/ factors, etc. which may

RBSA VALUATION ADVISORS LLP
3

Approach & Method	Applied/Not Applied	Description	Rationale
		▪ The appropriate multiple is generally based on the performance of listed companies with similar business models and size	differ from the other projects. Accordingly, this method is not adopted
Market Approach • Comparable Transaction Multiples ("CTM") Method	Not Applied	▪ Under Comparable Transaction Multiples Method, the value of shares /business of a company is determined based on market multiples of publicly disclosed transactions in the similar space as that of the subject company ▪ Multiples are generally based on data from recent transactions in a comparable sector, but with appropriate adjustment after consideration is given to the specific characteristics of the business being valued	▪ The projected income and cash flows of the Specified Companies primarily depend on the key terms of the respective concession agreements, residual tenor, project-specific characteristics/ factors, etc. which may differ from the other projects. We have not adopted this methodology due to unavailability of information in public domain involving recent transactions in similar projects
Asset based Approach • Adjusted Net Asset Value Method	Not Applied	▪ Under the Adjusted Net Asset Value Method, a Valuation of a 'going concern' business is computed by adjusting the assets and liabilities to the fair market value as of the Valuation Date ▪ A net asset value methodology is typically most appropriate when: ▪ Valuing a holding company or a capital-intensive company. ▪ Losses are continually generated by the business; or ▪ Valuation methodologies based on a company's net income or cash flow levels indicate a value lower than its adjusted net asset value	▪ The Specified Companies have entered into concession agreements and their revenues are largely predetermined for the residual period of the project. In such a scenario, the true worth of the business is reflected in its future earning capacity rather than the historical cost of the project. The valuation of the Specified Companies is carried out on a 'going concern' premise ▪ Since the Net Asset value does not capture the future earning potential of the businesses, we have not adopted the Asset approach for the valuation of the Specified Companies

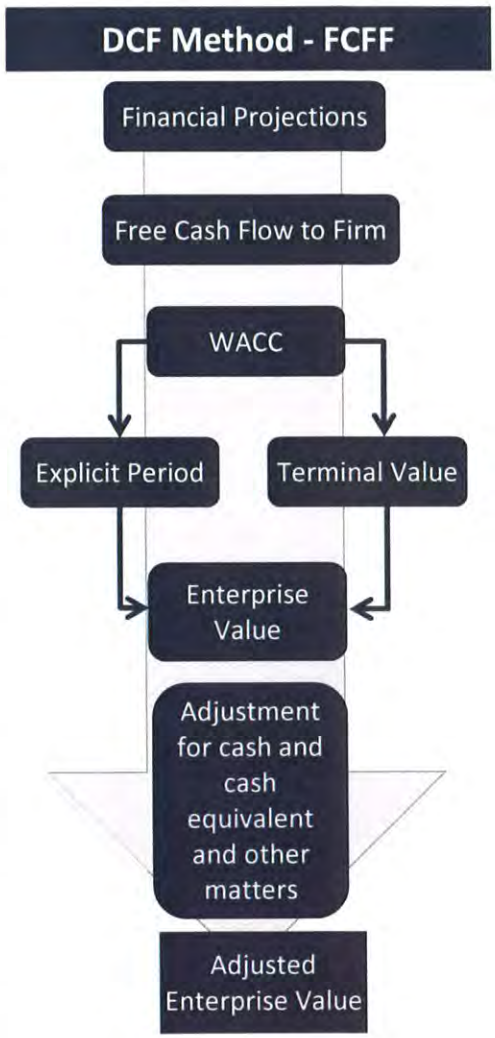
RBSA VALUATION ADVISORS LLP

Income Approach

The Income Approach is widely used for valuation under "Going Concern" basis. It focuses on the income generated by a company in the past as well as its future earning capability.

Discounted Cash Flow ("DCF") Method

- Under the DCF method, the business is valued by discounting its free cash flows for the explicit forecast period and the perpetuity value thereafter.
- Free Cash Flows to Firm ("FCFF") under the DCF method has been applied for estimating the enterprise value of the Specified Companies.
- FCFF represent the cash available for distribution to both, the owners, and creditors of the business. FCFF for the explicit period and perpetuity value is discounted by the Weighted Average Cost of Capital ("WACC") to derive the net present value. The WACC is an appropriate rate of discount to calculate the present value of the future cash flows as it considers equity–debt risk by incorporating debt–equity ratio of the firm.
- Enterprise Value ("EV") is derived by aggregating the present value of FCFF for the balance tenor of the Concession Agreement ("Explicit period") and Terminal value at the end of the Explicit period.
- Terminal value is estimated based on the business' potential for further growth beyond the Explicit period. Considering *inter-alia,* the estimated economic life of the projects, Terminal value has been estimated considering release of net working capital, at the end of the Explicit period.
- The Enterprise Value of the Specified Companies have been determined as an aggregate of the present value of FCFF for the Explicit period and Terminal value. Company specific adjustments have been done to estimate the Adjusted enterprise value.



Weighted Average Cost of Capital (WACC)

WACC has been estimated as under:

Particulars	Definition/Formula
WACC	Ke * (E/ (D + E)) + Kd * (1-T) * (D/ (D + E))
Where:	
Ke	cost of equity
E	market value of equity
Kd	cost of debt
D	market value of debt
T	effective tax rate

For the purpose of valuation, the cost of equity is derived using the Capital Asset Pricing Model ("CAPM") as follows:

Particulars	Definition/Formula
Ke	Rf + ß * (Rm – Rf) + α
Where:	
Rf	the return on risk-free assets
Rm	the expected average return of the market
(Rm – Rf)	the average risk premium above the risk – free rate that a "market" portfolio of assets is earning
ß	the beta factor, being the measure of the systematic risk of a particular asset relative to the risk of a portfolio of all risky assets
α	Company specific risk factor (alpha) if any

A summary of WACC for the Specified Companies is appended as per **Appendix 1**.

8. Valuation of the Specified Companies

Key assumptions underlying the projections as provided by the Management are as follows:

- **Operating Revenues:** Operating revenues for Specified Companies are projected based on the Traffic Study Reports of independent consultants appointed by the Trust / annuity payments to be received as per the concession agreements.

  - **Tollable traffic growth projections**
    Tollable traffic growth projected by the traffic consultant is summarized below in terms of the compound annual growth rate (CAGR) for the period from FY2025 to the financial year in which the concession period ends.

Particulars	Expected year in which the concession period ends	Average PCU* CAGR (base year FY2025)
MBEL	March 31, 2036	~5.3%
SBHL	March 31, 2043	~4.5%
PSRDCL	March 31, 2036	~3.7%
BAEL	March 31, 2039	~3.7%

** PCU – Passenger Car Units*

  - **Toll Rates**
    The traffic consultant has estimated the toll rates for the forecast years based on the National Highway Fee (Determination of Rates and Collection) Rules, 2008 and amendment thereto and considering a WPI inflation factor of ~5%.

  - **Projected Toll Revenue**
    The toll revenue growth as projected in terms of the compound annual growth rate (CAGR) for the period from FY2025 till the financial year in which the concession period ends is as below,

Particulars	CAGR (base year FY2025)
MBEL	~10.6%
SBHL	~10.0%
PSRDCL	~9.3%
BAEL	~8.5%

- **Operating Expenses**: Operating expenses include cost to collect toll, including staff and consumables for manual toll collection, violation enforcement, agency contract administration and oversight costs. Operating & maintenance expenses through the concession period were provided by the Management, which are based on the Technical Reports. The Management has projected that these cost would generally escalate at ~4-5% for the forecast years for all the Specified Companies.

  The said expenses are

  - **Corporate Social Responsibility Expenses**: As per the Management input, we have accounted for the CSR expenses in the DCF analysis.

RBSA VALUATION ADVISORS LLP

- **Major Maintenance & Repair Expenses (MMR / Periodic maintenance)**: Maintenance expenses are costs incurred on a regular basis to keep an asset working in its optimal condition. For the year FY25, MMR expenditure estimated by the Management and for the Projected Period, the same is supported by Technical Reports of independent consultants.

- **Depreciation and Amortization**: Amortization of toll collection rights is calculated on a revenue-based model for MBEL, SBHL, PSRDCL and BAEL. The ratio of toll revenues generated in a year to the total toll revenue expected over the term of the concession agreement is used to amortise the concession rights over the term.

- **Taxes:** Income taxes are estimated considering, as appropriate, brought forward business losses and unabsorbed depreciation, MAT credit, balance tax holiday period, tax depreciation/ amortisation policy followed by the Specified Companies, MAT rate and corporate income tax rate.

- **Working Capital:** Considering the nature of the business of operating toll road projects, the additional working capital requirement is not expected to be significant for the projected period.

- **GST on Annuity:** Effective Jan 1, 2023, BOT annuity projects have been brought under the purview of Goods and Sales Tax. Accordingly, HREL and TRDCL have paid GST on the annuities received from authority. The Management has represented that GST will be reimbursed by NHAI/ Kerela Road Fund Board along with annuity payments. Accordingly, the receivables pertaining to GST have been assumed to be received in FY25.

- **Contingent Liabilities:** These have been factored considering the nature of liabilities and our discussions with the Management.

- **COVID/ Other Extensions:** NHAI has issued a circular granting 90 days extension in the concession period as a relief on account of the impact of Covid-19 pandemic. Further, the Management has also considered extension of concession period considering shortfall in projected traffic (vis-a-vis actuals) and other reasons. Management has applied for this extension and is certain of its approval. Consequently, such extended concession period or the period which has been approved by independent engineer subsequently has been considered for the valuation exercise.

- The projected figures for the period ending March 31, 2025, are the balancing figure between projected full financial year ending March 31, 2025, and the audited figures up to September 30, 2024.

8.1 Moradabad Bareilly Expressway Limited ("MBEL")

8.1.1 Company Overview

- Moradabad Bareilly Expressway Limited (MBEL) is a Special Purpose Vehicle (SPV) incorporated in January 2010. MBEL was engaged to expand the existing two-lane road to a four-lane road in the Moradabad-Bareilly section of National Highway 24 from 148.000 Km to 262.000 Km (design length of approximately 114 Km) in the state of Uttar Pradesh under National Highway Development Program Phase III on a Design-Build-Finance-Operate-Transfer basis (DBFOT") basis. A concession agreement dated February 19, 2010, was entered between the NHAI and MBEL. The project commenced tolling on January 6, 2015.

- **Details of MBEL:**

Parameters	Details
Length of Project	~ 121.0 Km
Concession Period – Start	December 4, 2010
Concession Period – End	March 3, 2036 (including extension period)
Extension of concession period	90 days on account of Covid 19
Concession Type	DBFOT

Source: Management information

8.1.2 Valuation Analysis

- We have considered the Management Projections of MBEL (including projected income statement, working capital requirement and MMR) for the period from October 1, 2024, till the end of the concession period and other information as mentioned in Section 4.
- WACC of 10.8% has been considered for the valuation. **Refer Appendix 1**
- Considering inter-alia, the aforementioned, Business Enterprise Value and Adjusted Enterprise Value of MBEL as on September 30, 2024, is estimated at INR 29,830.0 Mn and INR 30,548.4 Mn respectively. For details, **refer Appendix 2.**

8.1.3 Additional Procedures to be complied with in accordance with SEBI InvIT Regulations

A. <u>List of one-time sanctions/approvals which are obtained or pending:</u>
The list of sanctions/ approvals obtained by MBEL till September 30, 2024, is provided in **Appendix 3.**

B. <u>List of up to date/ overdue periodic clearances:</u>
The Management represented that there are no up to date/overdue periodic clearances in relation to MBEL as of September 30, 2024.

C. <u>Statement of assets included:</u>
The statement of assets of MBEL as of September 30, 2024, is provided in **Appendix 4.**

D. <u>Estimates of already carried out as well as proposed major repairs and improvements along with estimated time of completion:</u>

Historical Major Maintenance Expenses: In INR Mn

Particulars for the year/ period ended	FY 21	FY 22	FY 23	FY 24	H1 FY25	H2 FY 25
No. of Months	12	12	12	12	6	6
Major Maintenance Expenses	85.3	117.1	936.4	569.4	16.6	204

RBSA VALUATION ADVISORS LLP

Forecasted Major Maintenance Expenses:

Particulars for the year/ period ended	FY 26	FY 27	FY 28	FY 29	FY 30	FY 31
No. of Months	12	12	12	12		12
Major Maintenance Expenses	-	15.3	27.7	1,656.6	689.6	10.9

Particulars for the year/ period ended	FY 32	FY 33	FY 34	FY 35	FY 36
No. of Months	12	12	12	12	11
Major Maintenance Expenses	5.3	-	-	919.1	1074.8

E. Revenue pendency including local authority taxes associated with InvIT asset and compounding charges, if any:
The Management represented that there is no revenue pendency including local authority taxes associated with InvIT asset and compounding charges in relation to MBEL as of September 30, 2024.

F. On-going material litigations including tax disputes and claims in relation to the assets, if any;
The list of on-going material litigations including tax disputes and claims in relation to MBEL are provided in **Appendix 5 and 6.**

G. Vulnerability to natural or induced hazards that may not have been covered in town planning building control:
Management has confirmed that there are no such natural or induced hazards which have not been considered in town planning/ building control.

H. Latest Pictures of the project along with date of physical inspection:
Please refer to **Appendix 7.**

8.2 Sikar Bikaner Highway Limited ("SBHL")

8.2.1 Company Overview

- Sikar Bikaner Highway Limited (SBHL) is a Special Purpose Vehicle (SPV) incorporated in April 2012 to operate a two/four lane highway project with paved shoulders on Sikar Bikaner Section of NH-11 providing connectivity between Jaipur and Bikaner along with Eastern and Western region of Rajasthan on Design, Build, Finance, Operate and Transfer (DBFOT) basis. The project provides connectivity to tourist locations of Agra, Jaipur, Bikaner, and Jaisalmer which is expected to have high density of passenger traffic. The concession agreement dated June 29, 2012, was entered into between the Government of Rajasthan and SBHL.

- **Details of SBHL:**

Parameters	Details
Length of Project	~237.6 Km
Concession Period – Start	February 18, 2013
Concession Period – End	March 30, 2043 (including extension period)
Extension of concession period	~5.11 years (41 days on account of Covid 19 and 5 years for the shortfall in projected traffic, based on recommendation of independent engineer)
Concession Type	DBFOT

E. On-going material litigations including tax disputes and claims in relation to the assets, if any;
The list of on-going material litigations including tax disputes and claims in relation to SBHL are provided in **Appendix 5 and 6.**

F. Revenue pendency including local authority taxes associated with InvIT asset and compounding charges if any:
The Management represented that there are no revenue pendency including local authority taxes associated with InvIT asset and compounding charges in relation to SBHL as of September 30, 2024.

G. Vulnerability to natural or induced hazards that may not have been covered in town planning building control:
Management has confirmed that there are no such natural or induced hazards which have not been considered in town planning/ building control.

H. Latest Pictures of the project along with date of physical inspection:
Please refer to **Appendix 7.**

8.3 Hazaribagh Ranchi Expressway Limited ("HREL")

8.3.1 Company Overview

- HREL road project involved four-laning of the road which is a ~73.5 Km road stretch from Hazaribagh to Ranchi section of NH-33 in Jharkhand on BOT basis, under the National Highways Development Program of NHAI. The expressway has improved the connectivity between the two cities and has also boosted economic activity in the region. The concession agreement dated October 8, 2009, was entered into between NHAI and HREL.

- **Details of HREL:**

Parameters	Details
Length of Project	~73.5 Km
Concession Period – Start	August 1, 2010
Concession Period – End	August 1, 2028
Extension of concession period	NA
Concession Type	Annuity

Source: Management information

8.3.2 Valuation Analysis

- We have considered the Management Projections of HREL (including projected income statement, working capital requirement and MMR) for the period from October 1, 2024, till the end of the concession period and other information as mentioned in Section 4.
- WACC of 9.4% has been considered for the valuation. **Refer Appendix 1**
- Considering inter-alia, the aforementioned, Business Enterprise value and Adjusted Enterprise Value of HREL as on September 30, 2024, is estimated at INR 2,676.1 Mn and INR 4,187.8 Mn respectively. For details, refer to **Appendix 2**.

8.3.3 Additional Procedures to be complied with in accordance with SEBI InvIT Regulations

A. List of one-time sanctions/approvals which are obtained or pending:
The list of sanctions/ approvals obtained by HREL till September 30, 2024, is provided in **Appendix 3.**

B. List of up to date/ overdue periodic clearances:
The Management represented that there are no up to date/overdue periodic clearances in relation to HREL as of September 30, 2024.

C. Estimates of already carried out as well as proposed major repairs and improvements along with estimated time of completion:

Historical Major Maintenance Expenses: In INR Mn

Particulars for the year/ period ended	FY 21	FY 22	FY 23	FY 24	H1 FY25
No. of Months	12	12	12	12	6
Major Maintenance Expenses	208.1	72.9	181.6	186.5	-

RBSA VALUATION ADVISORS LLP

9. Valuation Conclusion

Enterprise Valuation of the Specified Companies as of the Valuation Date has been carried out considering *inter-alia* historical performance of the Specified Companies, Traffic Study Reports and Technical Reports of independent consultants, business plan/ projected financial statements of the Specified Companies and other information provided by/ on behalf of the Management, industry analysis and other relevant factors.

The valuation summary of the Specified Companies as of September 30, 2024, is as follows:

In INR Mn

Name of the Company	WACC	Business Enterprise Value #	Adjusted Enterprise Value *
MBEL	10.8%	29,830.0	30,548.4
SBHL	10.7%	9,286.6	10,046.7
HREL	9.4%	2,676.1	4,187.8
TRDCL	10.7%	383.3	686.5
PSRDCL	10.8%	17,771.8	19,098.9
BAEL @	11.1%	11,841.5	21,353.6
Total		**71,789.3**	**85,921.9**

 # Comprising present value of free cash flow to firm for the explicit period and release of net working capital at the end of explicit period. Excludes Contingent Claims.
** After considering adjustments, as appropriate, for cash and cash equivalent, advance tax, and contingent liabilities, etc.*
@ Read in conjunction with Note 2 on Page 43.

Appendix

Appendix 1 - WACC

The cost of equity and debt are weighted in terms of a typical industry capital structure to arrive at an estimated WACC.

Particulars	MBEL	SBHL	HREL	TRDCL	PSRDCL	BAEL
Cost of Equity (Ke)						
Risk Free Rate (Rfr)	6.7%	6.7%	6.6%	6.7%	6.7%	6.7%
Market Risk Premium (Rm)	7.0%	7.0%	7.0%	7.0%	7.0%	7.0%
Levered Beta	0.96	0.96	0.96	0.96	0.96	0.96
Additional Risk Premium	0.5%	0.5%	-2.0%	-1.0%	0.5%	0.5%
Cost of Equity (Ke)	**13.9%**	**13.9%**	**11.3%**	**12.4%**	**13.9%**	**13.9%**
Cost of Debt (Kd)						
Pre-Tax - Cost of Debt (Kd)	9.0%	9.0%	7.5%	9.0%	9.0%	9.0%
Effective tax rate	14.7%	16.9%	0.0%	0.0%	15.6%	9.1%
Post Tax - Cost of Debt (Kd)	**7.7%**	**7.5%**	**7.5%**	**9.0%**	**7.6%**	**8.2%**
Debt / Equity	1.0	1.0	1.0	1.0	1.0	1.0
Rounded off WACC	**10.8%**	**10.7%**	**9.4%**	**10.7%**	**10.8%**	**11.1%**

Basis of calculation of each parameter of WACC:

Particulars	Remarks
Risk Free Rate (Rfr)	Risk free rate for the Specified Companies is estimated based on 10-year/ Balance life, Zero coupon yield curve ("ZCYC") for Government of India securities as of September 30, 2024. (Source: The Clearing Corporation of India Limited)
Beta (ß)	Beta is a measure of the risk of the shares of a company. ß is the co-variance between the return on sample stock and the return on the market. In order to determine the appropriate beta factor for the Company, consideration must be given either to the market beta of the Company or betas of comparable quoted companies. The unlevered beta has been worked out considering *inter-alia* 5-year monthly beta of comparable companies and long-term debt equity ratio (Market weights). The following companies were considered relevant to Specified Companies - IRB Infrastructure Developers Limited, Bharat Road Network Limited, and Ashoka Buildcon Limited, selected on the basis of their business operations and other relevant factors. (Source: S&P Capital IQ).
Equity Risk Premium	Equity Market equity risk premium is estimated considering *inter-alia* historical equity market returns over a risk-free rate and forward-looking equity market risk premium estimates. Data sources reviewed generated a range of equity risk premium indications. However, a 7% equity market risk premium was considered reasonable representative of the equity risk premium for India based on RBSA's understanding of the market risk premium as of the Valuation Date.
Company specific risk factor	Considering the company specific risk factors, including, operational nature of the underlying projects, revenue terms (toll/ annuity), limited risk for annuity projects, annuity held back, projected performance, etc.
Pre-Tax Cost of Debt (Kd)	Considering Management inputs on terms of the borrowings and the current average borrowing cost that a market participant would pay, to obtain debt financing assuming the target capital structure of the Specified Companies.
Effective tax rate	Estimated considering *inter-alia* brought forward business losses and unabsorbed depreciation, balance tax holiday period, tax depreciation/ amortization policy followed by the Specified Companies and corporate income tax rate.
Debt-to-equity	Considering *inter-alia* typical funding pattern for road infrastructure projects, long-term debt equity ratio and permissible leverage under the SEBI InvIT Regulations and other relevant factors.

Note: As of the Valuation Date, the Company has recorded claims receivable (award money) from NHAI of INR 4,558.1 Mn (net) in the financials, which has been pending to be received since FY18. The Delhi High Court during hearing of the appeal ordered NHAI to deposit the entire award amount with the Court. The Company had recognised interest on claim recoverable up to March 31, 2018, which has been deposited by NHAI with the Court. Since NHAI has already deposited the award amount with Court and appeal is pending disposal, the Company as a matter of prudence has not recognised any further interest on claim. An execution petition has been filed by the Company for release of the award money. Considering that the matter is sub-judice and that the ultimate realisation of the claim cannot be determined with reasonable certainty, the projected cashflows provided by the Management do not factor any inflow of aforementioned claim.

Note 1:
The National Company Law Appellate Tribunal vide its judgement dated March 12, 2020 ("NCLAT Order"), has approved a revised distribution framework for IL&FS Group entities and has accepted October 15, 2018, as cut-off date for crystallisation of claims/ liabilities of creditors. As per the financials for the period ended September 30, 2024, the amount due to operational creditors aggregating to INR 4,031.6 Mn has not been adjusted in the above workings. We understand from the Management that the said amount is proposed to be converted into interest free loan and the agreement thereof giving effect to the same is expected to be executed soon.

Note 2:
The Management has informed us that, in accordance with the terms of restructuring agreement being finalised with the lenders, interest shall accrue on Bank loans effective from April 1, 2021. Basis this interest accrued for the period April 1, 2021, to March 31, 2023, aggregating to INR 1,553.7 Mn shall be added to the outstanding loan, would be repaid as per the restructuring agreement. Interest for the period from April 1, 2023, to Sep 30, 2024, aggregating to INR 1,280.6 Mn would be payable immediately on restructuring. However, the entire interest effective April 1, 2021, has been accounted in the financials considering that the Company was transferred to RIIT Trust after balance sheet date but before the balance sheet signing date.

CHAPTER 1
INTRODUCTION

1.1 General

Moradabad Bareilly Expressway Limited (MBEL) was engaged to expand the existing two-lane road to a four-lane road in the Moradabad-Bareilly section of National Highway 24 from Km. 148.000 to Km. 262.000 (design length of approximately 114 km) in the State of Uttar Pradesh under National Highway Development Program Phase III on a Design-Build Finance-Operate-Transfer (DBFOT) basis. A concession agreement dated February 19, 2010, was entered into between the NHAI and MBEL. The project commenced tolling on January 6, 2015. The concession period for this project is 25 years commencing from December 4, 2010. As per the concession agreement, MBEL is entitled to collect fees from project highway users, subject to the National Highways fee rules**.** There are 2 No of toll plazas exist on the project road.

Project corridor is section of NH-24 (Now NH-30), which starts from Km 148.000 (Pakbara, at beginning of Moradabad Bypass) and ends after Bareilly Bypass at Km 262.000 (End of Bareilly Bypass) in the state of Uttar Pradesh. Location of project road in regional context is given as below.

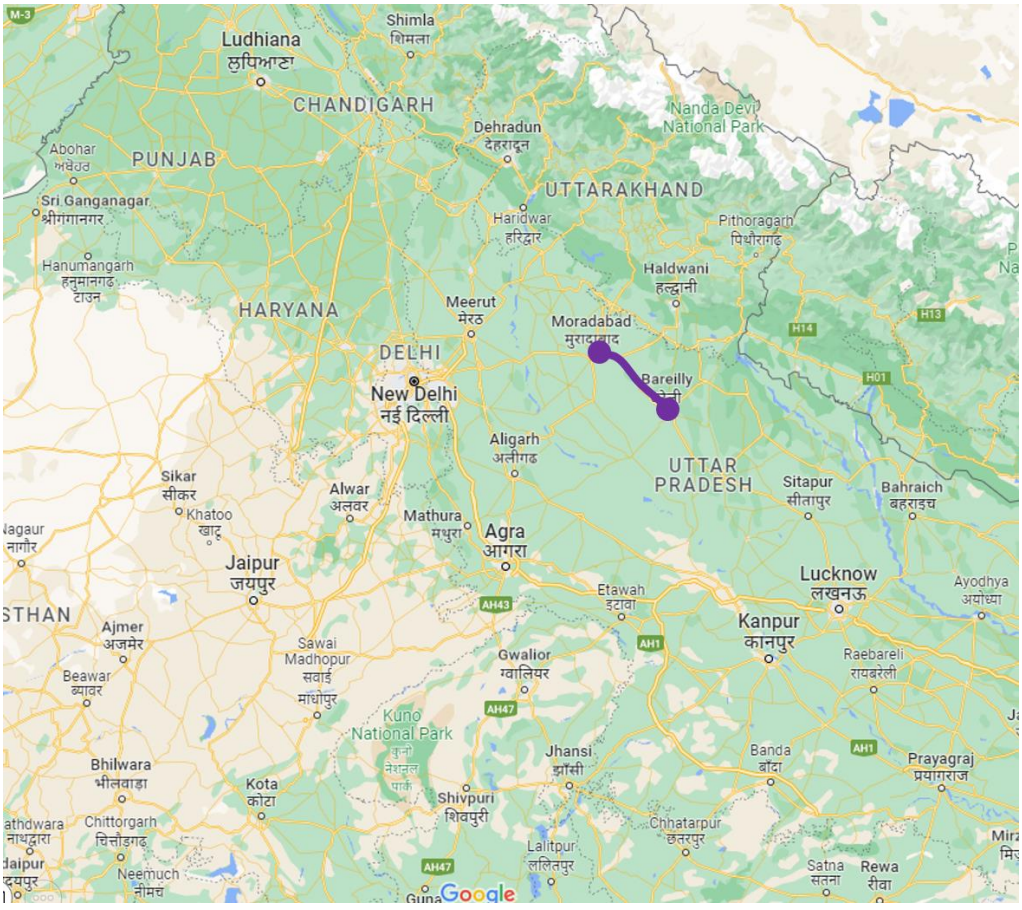

Figure 1-1 : Project Road Location in Regional Context

The area in which the project stretches from Moradabad to Bareilly falls is part of Rohilkhand region of western Uttar Pradesh. The area has witnessed a good pace of urbanization due to its proximity of NCR (National Capital Region). It is the primary link of transportation between western and eastern Uttar Pradesh and the now newly created Uttarakhand. The cities of Moradabad, Rampur and Bareilly, which are district centers as well, have major influence on traffic on project corridor.

Project corridor achieved COD in year 2015 and is in operation & maintenance phase since then.

Roadstar Infra Investment Trust (RIIT) owner of the project desires Independent Assessment of Traffic Forecast and Tol Revenue Estimation of project. This report fulfils part of the above scope.

There are Two toll plazas on this section. The following table provides details of these toll plazas.

Details of toll plaza on project stretch are given in table below.

Table 1-1: **Details of Toll Plaza on Project Stretch**

Name of the section	Location	Toll Plaza Name
Moradabad-Milak	Km. 172.00	Niyamatpur Ekrotiya Toll Plaza
Milak-Bareilly	Km. 228.00	Triyakhetal Toll Plaza

1.2 Project Location

AS mentioned previously project road section from Moradabad to Bareilly falls is western Uttar Pradesh and is major link of transportation connecting Eastern Uttar Pradesh and then Bihar and West Bengal to northern part of India.

The following figure shows the location and layout of the project stretch which is part of Delhi Lucknow Road which was called NH-24 previously. Now in the new National Nomenclature this highway is assigned as NH-30.

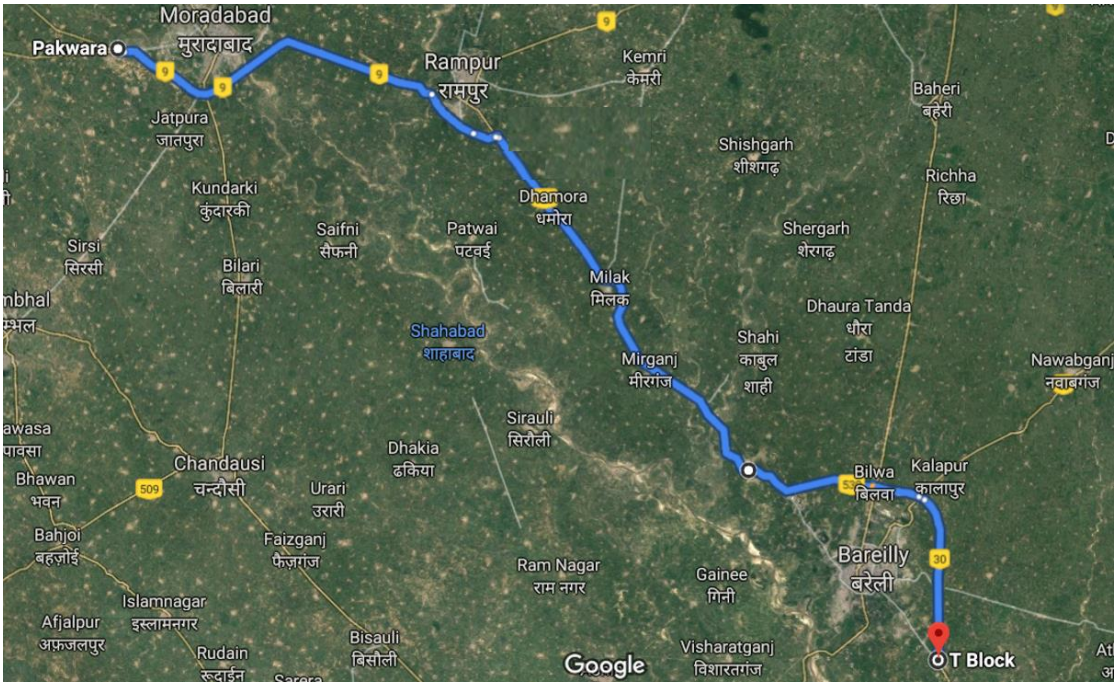

Figure 1-2 : Location of Project Stretch

1.3 Project Intent

M/s Moradabad Expressway Limited is concessionaire to project stretch NH-24 from Moradabad to Bareilly. **M/s Moradabad Expressway Limited** is a Special Purpose Vehicle (SPV) company under umbrella of **Roadstar Infra Investment Truct (RIIT).** M/s **GMD Consultants** has been assigned the work of Independent Assessment of Traffic Forecast and Toll Revenue Estimations of project stretch.

For making the proper assessment of traffic pattern and volume on project stretch, GMD Consultants have carried out necessary traffic surveys and field investigations. The base year traffic data supplied by client as fast tag data of toll plazas has been taken as the primary input for determination of base year traffic. With a view to understanding the traffic pattern and influence zones of traffic, an Origin-Destination (O-D) survey for 48 Hrs. was conducted in April 2023. Traffic study report was submitted in May 2023 taking the year 2022-23 as base year. Now concessionaire has made available additional traffic data from April 2024 to September 2024. The Traffic Study Report is now updated with additional traffic data available. The year 2024-25 has been taken as the base year for this updated report.

1.4 Scope of Work

Following is the detailed scope of this assignment as per TOR.

- Undertaking traffic survey on the highway section as per the following:
- Collection of Class wise Traffic data from the TMS System/Toll Records for the month from April 2024 to September 2024 from the operational toll plazas on the project road to derive the Average Daily Traffic (ADT)
- Two-day Origin-Destination (OD) survey at existing operational toll plaza locations to assess the existing travel pattern of vehicles playing on the

project road – origin and destination, commodity carried for freight vehicles, purpose of travel for cars.

- Establishing seasonality factors using available past traffic data and/or from using fuel sales data or using the past actual traffic data or any relevant data
- Estimation of the base year Annual Average Daily Traffic (AADT) using available toll data for the year or seasonality factors for conversion of ADT to AADT
- Reviewing past traffic studies, analysis of past traffic data and other relevant reports as may be available to determine category wise volume of traffic for past years.
- Identifying any competing route(s) and analyze network conditions, traffic characteristics & level of toll charged and the advantage/ disadvantage of the competing road(s) and their impact on project traffic – the extent of surveys to be carried out on alternate route(s), if needed, will be decided after site reconnaissance. If required, three-day volume counts and one (1) day OD at one (1) location on alternate route(s) to be carried out.
- Analyzing OD data – OD matrices, regional distribution of traffic, commodity composition, top OD pairs, identification of Project Influence Area from analysis of travel pattern
- Carrying out a study of past economic performance of influence area
- Diversion analysis, if needed – cost ratio-based diversion analysis to be carried for respective potential OD pairs
- Estimation of traffic growth rates for each category of vehicle (using the perspective growth of economic indicators and projected elasticities) under 3 scenarios – most likely, optimistic (high) and pessimistic (low) growth scenario
- Preparation of traffic projections for the concession period in three scenarios – most likely, high, and low
- Analysis of trip frequency in Daily, Return, Monthly, Local Passenger & Local Commercial vehicles as per their category/class as per applicable toll schedule - estimation of toll able traffic streams by toll category
- Estimation of toll revenue as per categories of traffic streams stipulated in the tolling schedule for the concession period.
- Identifying factors which may have a positive and / or negative impact on the traffic.
- Upcoming developments and future development potential of the region would be assessed for the induced/newly generated traffic.
- Scenario Analysis of toll revenue – Critical parameters of diversion (if applicable) and three scenarios of traffic growth (most likely, low and high).

MBEL, the concessionaire, shall provide all project related documents to the Consultant for carrying out the services including:

- Past Traffic Data and Revenue as per the toll records for last five years or COD to Till Date
- Available Past Traffic Reports if any

1.5 Organization of Report

The traffic study report covers the traffic study along the project corridor. The entire analysis, modeling and traffic and toll forecast have been covered in following three sections:

i. Traffic Surveys and Analysis
ii. Traffic Forecasting
iii. Toll Revenue Forecasting

CHAPTER 2
TRAFFIC SURVEY ANLAYSIS

2.1 Traffic Surveys

Historical traffic data including base year traffic data has been made available by the client as fast tag data. The same has been used for various analyses. Additionally, Origin – Destination surveys and competing routes surveys were conducted at the project section as per TOR scope.

The following table provides details of OD surveys conducted at the project site.

Table 2-1 : Traffic Survey Locations & Schedule

Sr. No	Survey Location	Description	Origin – Destination Survey Date
1	Toll Plaza at Km 172 (TP-1)	Niyamatpur Ekrotiya	25th April & 26th April 2023
2	Toll Plaza at Km 228 (TP-2)	Triyakhetal	27th April & 28th April 2023

These locations have been referred to as TP-1 to TP-2 respectively in the report. The following figure shows locations of Origin Destination survey done at Toll Plazas.

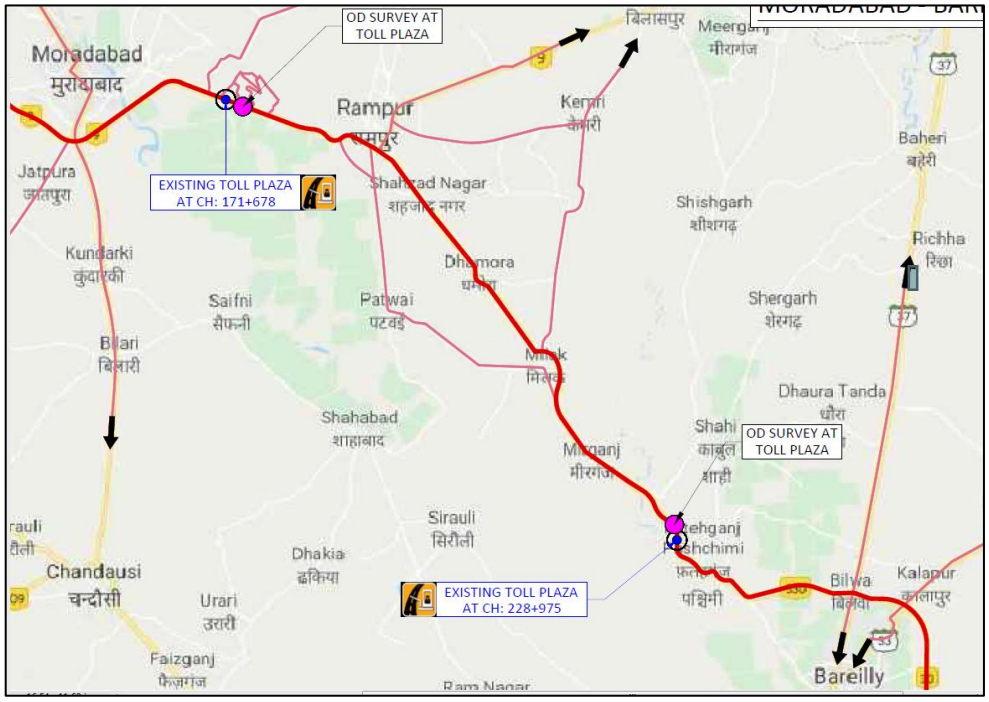

Figure 2-1 : Location of Traffic Surveys

Origin - Destination studies were conducted at the above locations with the aim to capture traffic pattern and characteristics in various segments of project road from Moradabad to Bareilly. Since Origin Destination Survey was carried on at Toll Plaza location good sample of OD survey was collected. The following photographs show traffic surveys in progress.

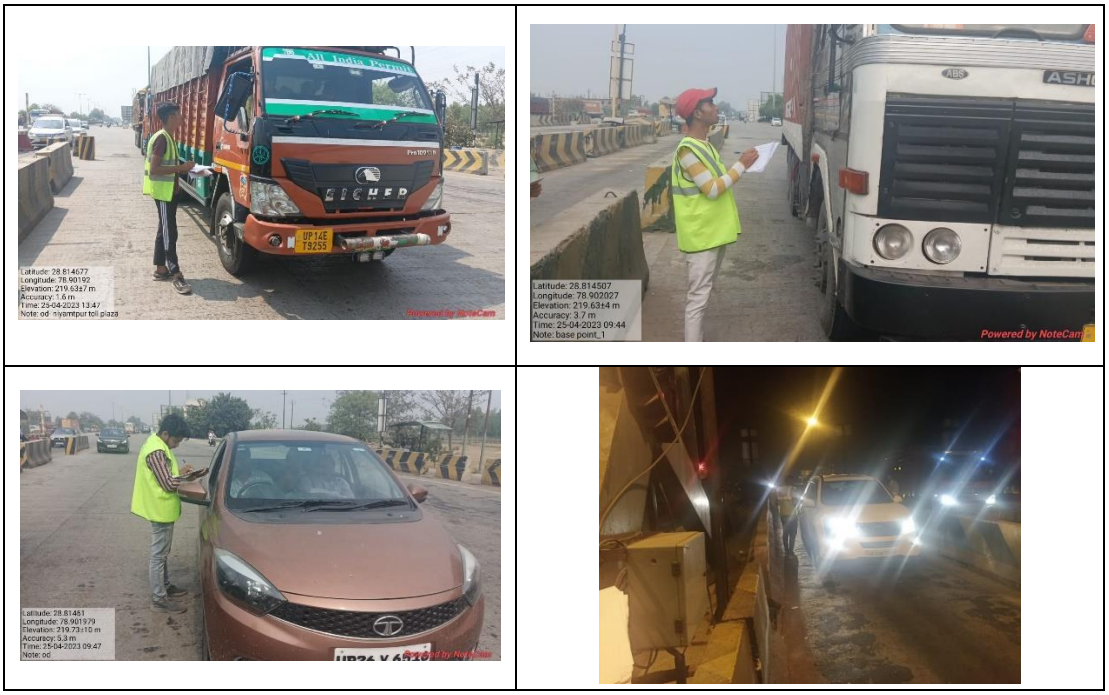

Figure 2-2 : Origin & Destination Traffic Survey @ 172.000

Figure 2-3 : Origin & Destination Traffic Survey @ 228.000

2.2 Classified Traffic Volume

The objective of conducting Classified Traffic Volume Count is to understand the traffic flow pattern and characteristics on a roadway. Fast tag data of traffic at both the toll plaza was made available by client for previous years and current year. Same has been used for traffic analysis and establishing base year traffic. The data is classified as per categories provided in IRC. Such classification is given as below.

Table 2-2 : Vehicle Classification System

Vehicle Type	
Auto Rickshaw	
Passenger Car	Car, Jeep, Taxi & Van (Old / new technology)
Bus	Minibus
	Standard Bus
Truck	Light Goods Vehicle (LCV)
	2 – Axle Truck
	3 Axle Truck (HCV)
	Multi Axle Truck (4-6 Axle)
	Oversized Vehicles (7 or more axles)
Other Vehicles	Agriculture Tractor, Tractor & Trailer, Two-Wheeler, Three-Wheeler

Source - IRC: 64 – 1990

These were then grouped into tollable and non-tollable categories as per Fee Notification of project.

2.3 Origin Destination Survey

In order to understand the travel pattern in the influence area of the project, Origin and Destination (O-D) Surveys were carried out for two days (48 hours) at both the toll plaza locations.

The O-D survey was carried out based on the roadside interview method as described in IRC: 102-1988. Police assistance was arranged at the survey locations for successfully carrying out these surveys. Both passenger and commercial vehicles plying on the project road were stopped on a random sampling basis and interviewed.

Trained enumerators under the supervision of transport engineers collected the trip characteristics using the survey forms designed for this purpose. The O-D survey elicited characteristics like origin, destination, frequency, commodity, length of trip, etc., both for passenger and goods vehicles. The information collected during roadside interviews was analyzed to obtain the influence zone, commodity, pattern of traffic based on a zoning system suitably designed in the study.

2.3.1 Sample Size

As per normal standards and sound engineering practices, 10-15% sample in each category of vehicle is considered as good representative sample on which traffic analysis can be done to arrive at probable traffic patterns on project highway. Since the

O-D survey was done at Toll Plaza location in controlled atmosphere good sample size was achieved. The following table provides sample size.

Table 2-3 : Sample size for O-D Surveys

Survey Location	Sample Type	OD SAMPLE (48Hrs)	TOTAL ADT (48 Hrs.)	% SAMPLE
Km. 172.000	Goods	3616	11457	31.6%
	Passenger	6715	33585	20.0%
Km. 228.000	Goods	3384	10119	33.5%
	Passenger	4759	20858	22.8%

2.4 Data Analysis

2.4.1 Analysis of Traffic Volume Count

Data collected from the site checked and analyzed with predesigned excel spreadsheet. The various vehicle types having different sizes and characteristics were converted into a single unit called Passenger Car Unit (PCU) for assessing the road capacity and its usage. Passenger Car equivalents for various vehicles are adopted based on recommendations of Indian Road Congress prescribed in "IRC-64-1990: Guidelines for Capacity of Roads in Rural areas". The adopted passenger car unit values (PCU) are presented in ***Table 2-4.***

Table 2-4 : PCU Factors Adopted for Study

Vehicle Type	PCUs
Car	1.0
Minibus	1.5
Standard Bus	3.0
LCV/LGV	1.5
2 Axle Truck	3.0
3 Axle Truck	3.0
MAV	4.5
Auto Rickshaw	1.0
Van/Tempo	1.0
Agriculture Tractor with Trailer	4.5
Agriculture Tractor without Trailer	1.5

Source: IRC: 64-1990

2.4.2 Annual Average Daily Traffic (AADT)

Fast tag data as provided by client, has been analyzed and compiled for base year traffic data. As per the toll notification 3 Axle truck and 4-6 Axle MAVs fall in same category and hence have been provided as one category of MAV in fast tag data.

PCU factor and growth of 3 Axle truck and 4-6 Axle MAVs is not same. Hence for the purpose of PCU working and growth of traffic numbers, 3 Axle truck and 4-6 Axle MAV have been segregated in following ratio on the basis of detail provided by Concessionaire.

- For TP-1: 35% 3 Axle and 65% MAV (4-6 Axle)

- For TP-2: 33% 3 Axle and 67% MAV (4-6 Axle)

Seasonal Correction Factor (SCF)

Since only six-month traffic data (from April 2024 to September 2024) is available for the year 2024-25, a seasonal correction factor (SCF) has been applied to arrive at Annual Average Daily Traffic (AADT). It is observed that traffic remains low in this period from April to September due to monsoon. The above factors have been considered while applying seasonal correction factor for AADT.

Table 2-5 : Seasonality working from Traffic data of Previous Year 2023-24

TP-01	12-Month Traffic 2023-24	6-Month Traffic 2023-24	SCF	TP-02	12-Month Traffic 2023-24	6-Month Traffic 2023-24	SCF
Car	16376	15636	1.05	**Car**	9460	9093	1.04
LCV	863	843	1.02	**LCV**	573	572	1.00
Bus	1711	1606	1.07	**Bus**	1169	1128	1.04
Truck	1525	1482	1.03	**Truck**	1232	1243	0.99
MAV	2831	2645	1.07	**MAV**	2797	2653	1.05
OS	1	1	1.08	**OS**	1	1	1.03
Total	**23307**	**22213**	**1.05**	**Total**	**15232**	**14690**	**1.04**

Table 2-6 : Growth from Previous Year 2023-24

TP-01	6-Month Traffic 2023-24	6-Month Traffic 2024-25	Growth from previous Year	TP-02	6-Month Traffic 2023-24	6-Month Traffic 2024-25	Growth from previous Year
Car	15636	17020	8.85%	**Car**	9093	9455	3.98%
LCV	843	891	5.69%	**LCV**	572	578	1.02%
Bus	1606	1759	9.48%	**Bus**	1128	1208	7.17%
Truck	1482	1509	1.82%	**Truck**	1243	1234	-0.76%
MAV	2645	2408	-8.95%	**MAV**	2653	2369	-10.70%
OS	1	0	0%	**OS**	1	1	0.00%
Total	**22213**	**23586**		**Total**	**14690**	**14845**	

It may note that commercial traffic, especially MAV's, is reduced as compared to similar periods (April to September) of the previous year. Which could be a temporary phenomenon.

Hence a Seasonality factor of 5% is considered to arrive at Annual Average Daily Traffic (AADT) for base year 2024-25. The following table provides average daily traffic (ADT) at both the toll plazas in the base year 2024-25 is after application of seasonality as discussed above.

Table 2-7 : Total traffic (AADT) at TP-01 of Base Yr.2024-25

Vehicle Type	Tollable Vehicles	Exempt Vehicles	Total AADT (2024-25)	PCU (2024-25)
Car	16400	1471	17871	17871
Minibus/LCV	915	20	935	1403
Bus	1842	5	1847	5541
Truck-2Axle	1564	20	1584	4752
Truck-3Axle	884	1	885	2655
Multi axle (4-6 Axle)	1642	1	1643	7394
Oversized Vehicles	1	0	1	5
Total	**23248**	**1518**	**24766**	**39621**

Above base year is analyzed for modal split of traffic. The modewise distribution of tollable traffic at TP-01 Km 172.000 is illustrated in pie charts below.

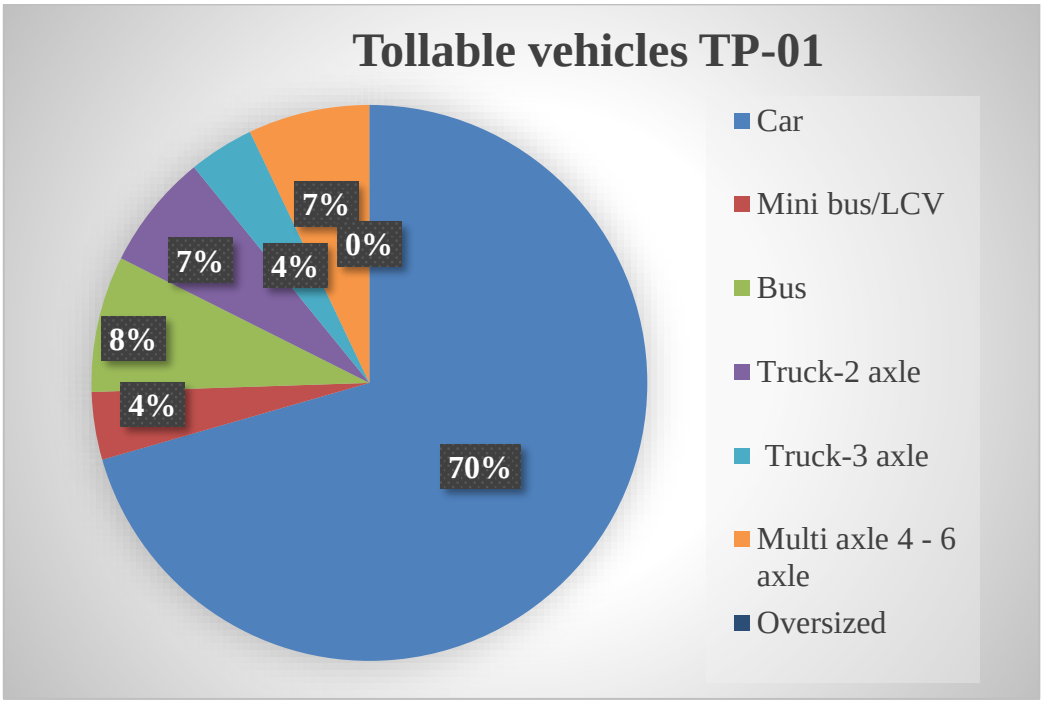

Figure 2-4 Mode wise Composition of Traffic at Km 172.000

Similarly, traffic volume at TP-2 is given as below.

Table 2-8 : Total traffic (AADT) at TP-02 of Base Yr.2024-25

Vehicle Type	Tollable Vehicles	Exempt Vehicles	Total AADT (2024-25)	PCU (2024-25)
Car	9036	891	9927	9927
Minibus/LCV	595	12	607	911

Vehicle Type	Tollable Vehicles	Exempt Vehicles	Total AADT (2024-25)	PCU (2024-25)
Bus	1266	3	1269	3807
Truck-2Axle	1280	15	1295	3885
Truck-3Axle	820	1	821	2463
Multi axle (4-6 Axle)	1666	1	1667	7502
Oversized Vehicles	1	0	1	5
Total	**14664**	**923**	**15587**	**28500**

Above base year is analyzed for modal split of traffic. The modewise distribution of tollable traffic at TP-02 Km 228.000 is illustrated in pie charts below.

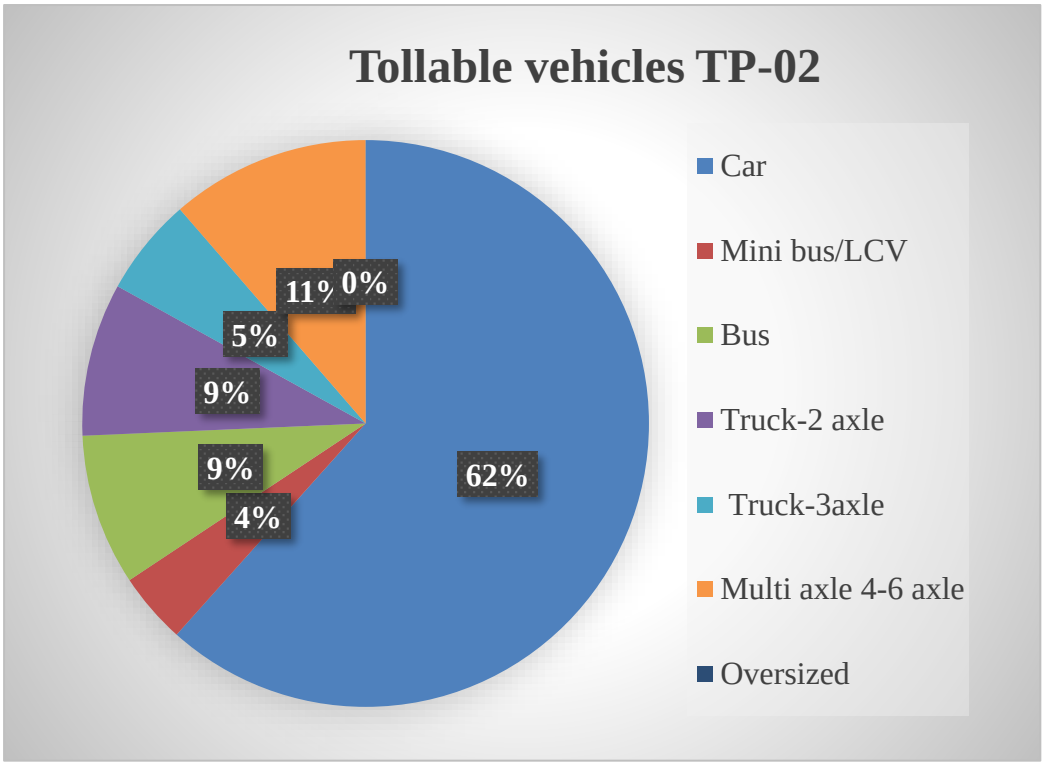

Figure 2-5 Mode wise Composition of Traffic at Km 228.000

It is observed that the share of passengers is higher at TP-1 as compared to TP-2. At TP-1 about 78% of vehicles are passengers (Car + Bus) while at TP-2 it is 71%. This is due to the fact that some traffic of Haldwani, Rudrapur and Nainital diverts after TP-1.

The following graph shows a comparison of traffic at both the toll plazas.

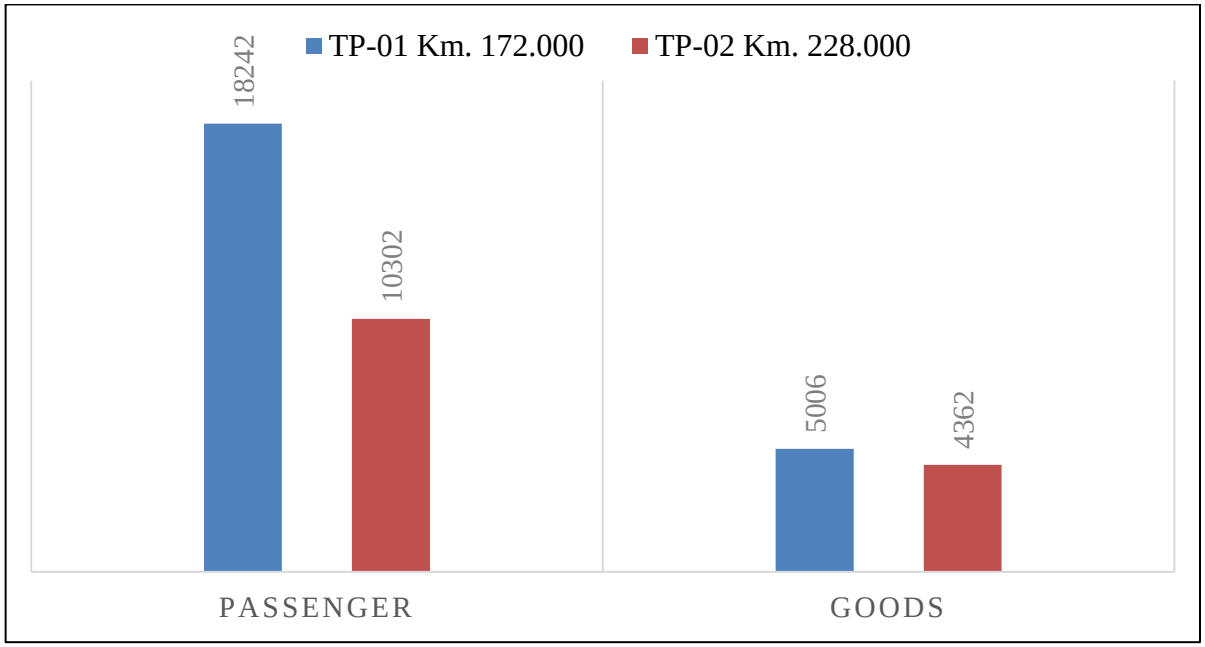

Figure 2-6 Comparison b/w Passenger & Commercial Traffic @ both Toll plazas.

It can be observed from above that traffic at first toll plaza which is just before Rampur is higher as compared to second toll plaza. This phenomenon is true for both commercial and passenger traffic. This is due to the fact that traffic going towards Rudrapur, Haldwani, Nainital, Bilaspur diverts from project highway just after Rampur.

2.4.3 PCU Index

PCU index is a good indicator of share of commercial and passenger traffic on project road. It is the ratio of total PCU and total number of vehicles on project road. PCU index in Less of 2 indicates dominating Passenger traffic share. The following table contains the comparison of PCU Index of both toll plaza locations.

Table 2-9 Comparison of PCU Index of Toll Plaza

LOCATION	AADT	PCU	PCU INDEX
Km. 172.000	24766	39620	1.60
Km. 228.000	15587	28501	1.83

PCU index at all plaza locations is between 1.6 to 2.0 which is another indication of the relative dominance of Passenger traffic on project corridor at both Toll Plazas.

2.4.4 Origin - Destination Survey

In order to understand the travel pattern in the influence area of the project, Origin and Destination (O-D) Surveys were carried out. The O-D survey was carried out at both the survey locations as shown in table given previously. At all locations, OD survey was done at existing toll plaza location. Analysis of OD data is done with the help of pivot table and same is presented in this section.

2.4.4.1 Data Validation

The data collected was entered into the computer and checked manually. Incorrect entries were corrected by cross-checking it with original field data sheets. The data was also checked for inconsistencies like OD travel pair within same zone or irrelevant journey pairs.

2.4.4.2 Zoning System

For understanding the spatial dimensions of the trip characteristics of the vehicles interviewed during the O-D survey, a scientifically derived zoning system was adopted.

While defining zone boundaries, the following were considered:

- Important towns and industrial centers along the project corridor.
- Administrative boundaries of district and state.
- Configuration of the project roads in the regional road network with respect to other National Highways.

States were assigned codes from 1 to 100. Location of toll plaza as used as water shed for local codes.

Major cities and urban locations were assigned three-digit codes while local villages along project road were given four-digit codes. Directional logic was built in while assigning the codes to cities and villages.

The following table presents the Zoning System considered in this study.

States before Moradabad	Code
New Delhi	1
Himachal Pradesh	2
Haryana	3
Punjab	4
MadhyaPradesh	5
Gujarat	6
Maharahstra	8
Rajasthan	10
Jammu and Kashmir	23

Figure 2-7 : OD Coding

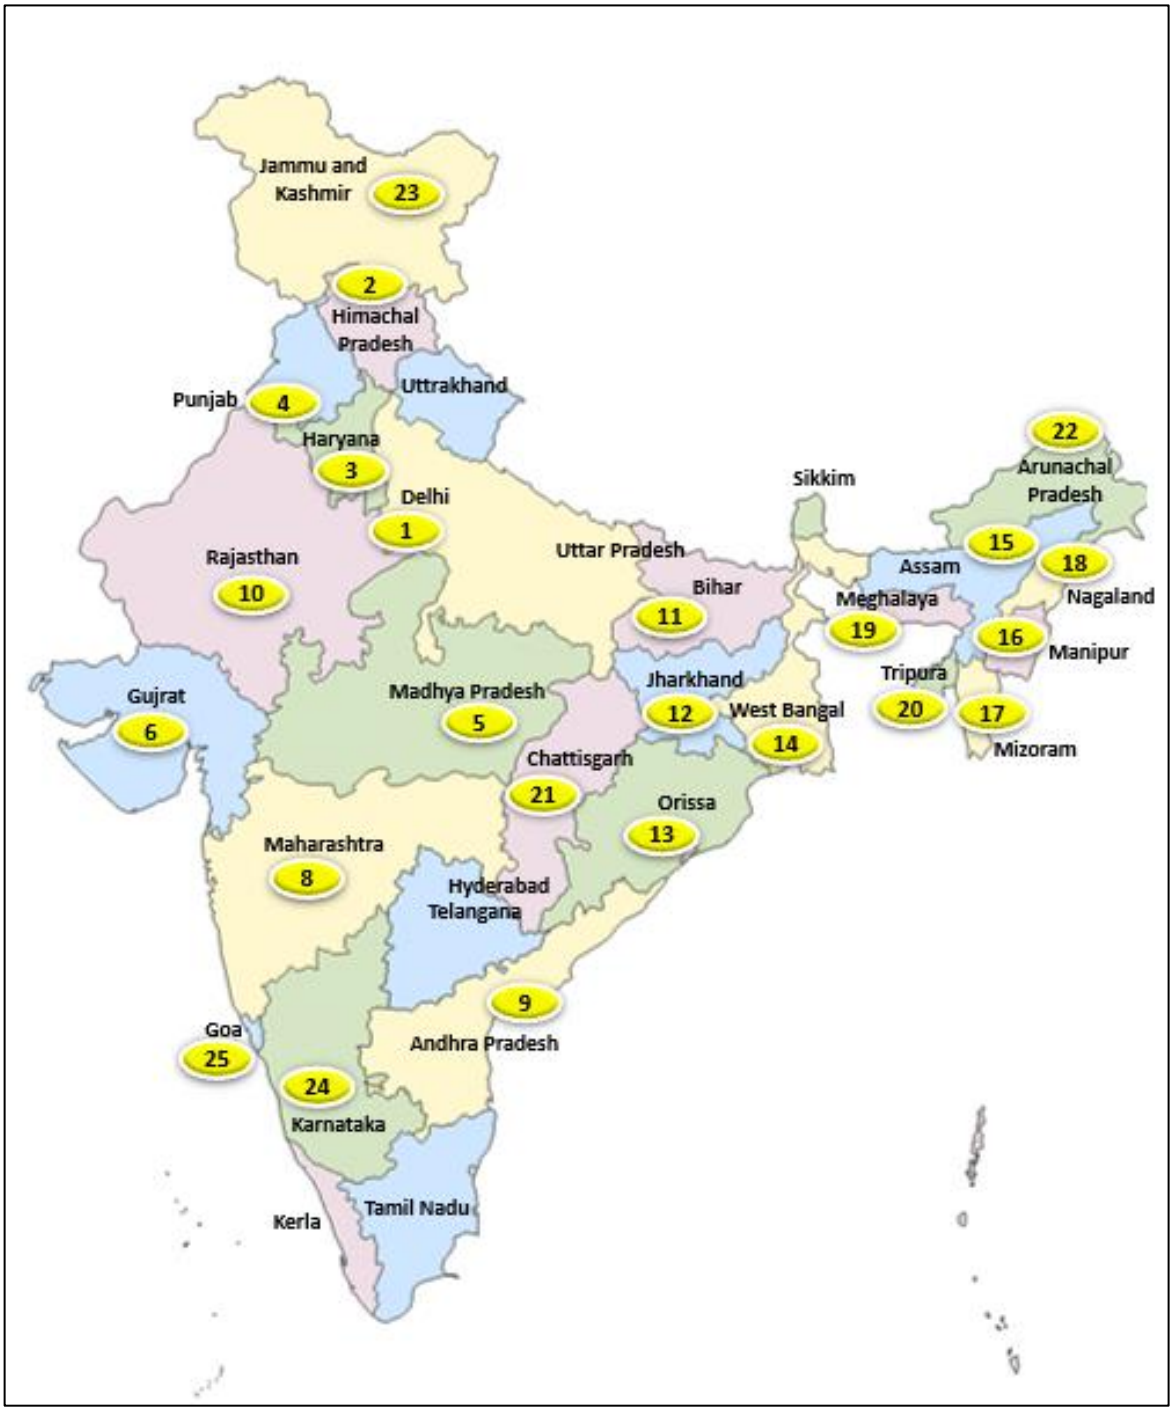

Figure 2-8 : Zoning System for India

Similarly, OD zones for state levels are presented below.

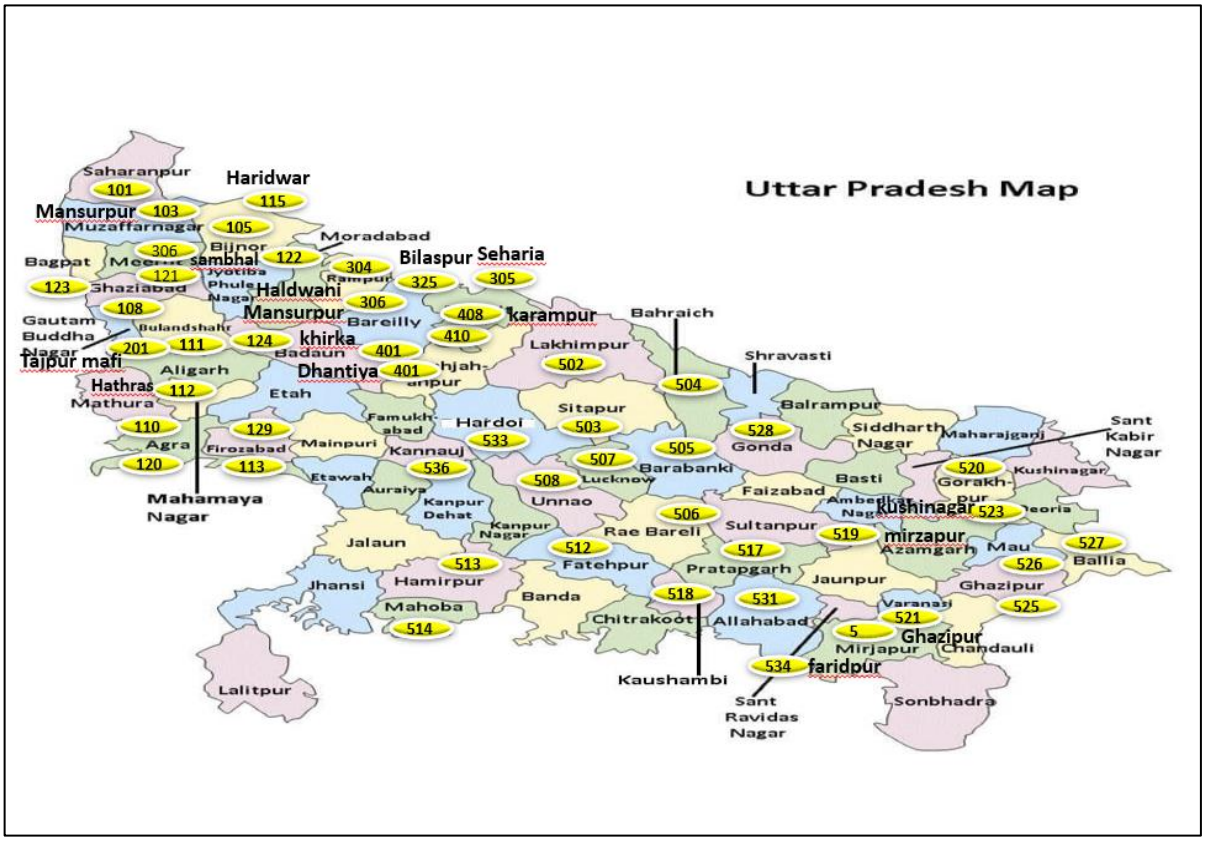

Figure 2-9 : Zoning System for Moradabad-Bareilly

After due verification and sanctity checking, OD survey data was analyzed for important patterns of influence zone share, commodity etc. The same is discussed in the following sections.

2.4.4.3 State Wise Distribution of All Stretches

Vehicles from various states use project road. The share of various states in traffic volume is an important parameter which influences the growth forecast of traffic on project.

The following table shows the state wise and mode wise distribution of vehicles. It can be appreciated that local states dominate share in volume for passenger traffic at both locations with slight variation.

Table 2-10 : State Dominance – Passenger Traffic Toll Plaza -1Km 172.000

State Code	Car	Taxi/jeep	Minibus	Bus
UP	63.46%	61.19%	67.69%	67.28%
UK	13.85%	13.98%	9.23%	17.50%
DL	12.85%	11.61%	9.23%	7.68%
HR	6.46%	9.25%	7.69%	4.41%
PB	0.94%	1.79%	4.62%	1.42%
Rest of India	2.43%	2.17%	1.54%	1.71%
Grand Total	**100.00%**	**100.00%**	**100.00%**	**100.00%**

Table 2-11 : State Dominance – Passenger Traffic Toll Plaza -2Km 228.000

State Code	Car	Taxi/jeep	Minibus	Bus
UP	79.33%	72.36%	85.11%	87.24%
UK	6.05%	6.84%	3.19%	3.50%
DL	7.95%	9.21%	7.45%	4.90%
HR	4.36%	8.02%	3.19%	2.80%
PB	1.14%	2.67%	0.00%	1.05%
Rest of India	1.17%	0.89%	1.06%	1%
Grand Total	**100.00%**	**100.00%**	**100.00%**	**100.00%**

States of Uttarakhand and Uttar Pradesh put together contribute to about 75-80% in car / jeep category. Shares of Uttarakhand and other states fall at toll plaza -2 which is after Rampur from where Uttarakhand traffic goes off the project section through Bilaspur Road.

Similarly, state share of traffic in case of commercial vehicles is given in following table.

Table 2-12 : State Dominance – Commercial Traffic Toll Plaza -1 Km 172.000

State Code	LCV	2-Axle Truck	3-Axle Truck	4-6 Axle
UP	77.82%	61.34%	63.43%	47.87%
DL	6.55%	7.77%	3.17%	2.61%
HR	5.82%	13.89%	16.27%	18.64%
PB	3.27%	6.30%	6.00%	11.14%
UK	2.55%	5.26%	3.28%	4.90%
RJ	1.45%	1.90%	2.40%	5.69%
HP	1.09%	1.38%	1.09%	0.95%
NL	0.36%	0.78%	2.18%	3.32%
Rest of India	1.10%	1.38%	2.19%	4.89%
Grand Total	**100.00%**	**100.00%**	**100.00%**	**100.00%**

Table 2-13 : State Dominance – Commercial Traffic Toll Plaza -2 Km 228.000

State Code	LCV	2-Axle Truck	3-Axle Truck	4-6 Axle
UP	82.31%	68.88%	65.62%	55.39%
DL	7.44%	5.78%	4.27%	3.09%
HR	1.54%	11.23%	11.54%	16.32%
PB	2.56%	5.45%	6.52%	11.97%
UK	5.13%	5.35%	5.02%	4.20%
RJ	0.26%	0.75%	1.63%	1.98%
HP	0.26%	0.96%	1.00%	0.95%
NL	0.00%	1.18%	2.13%	2.69%
Rest of India	0.51%	0.43%	2.26%	3.41%
Grand Total	**100.00%**	**100.00%**	**100.00%**	**100.00%**

Uttar Pradesh is the dominating state in commercial traffic at both the toll plazas. Next important states contribution comes from Delhi, Haryana, and Uttarakhand.

2.4.4.4 Influence Zone Analysis

Intra-Regional (destination within project corridor influence zone) and Regional Traffic:

The growth of traffic on any project corridor is affected by the growth potential of its catchment areas. It is observed that the project road provides connectivity between Delhi NCR, Western Uttar Pradesh, Uttarakhand on one side and Lucknow/ Eastern Uttar Pradesh on other side. For an understandable differentiation, total catchment of project traffic is divided in to following regional areas.

Regional Catchments

1. **North-West** of Moradabad- Including Delhi NCR, West UP, Himachal, J&K, Haryana, Punjab and parts of Rajasthan etc.

2. **North-East** side of Project Road- Including Haldwani, Nainital, Rudrapur, etc

3. Eastern Zone – Lucknow, Sitapur, Varanasi, Allahabad, Gorakhpur, West Bengal, Assam and other NE states

4. Local Catchment

Areas between Garhmukteshwar on west and Shahjahanpur on east side are taken as local catchment of project road traffic or the Internal Zone.

The following maps depict these areas for better understanding.

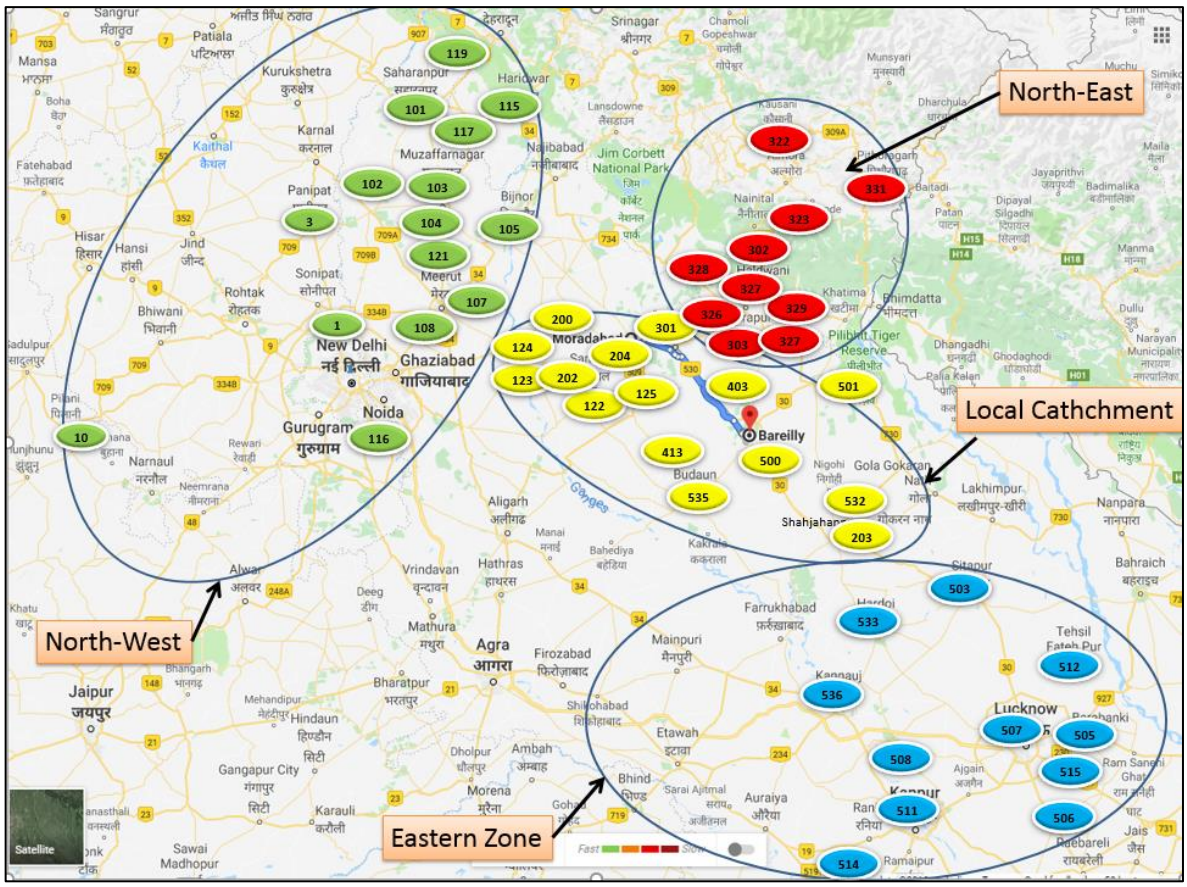

Figure 2-10 : Regional and Local catchment.

In order to understand the impact of above influence zones on project road traffic having either origin or destination in particular influence zone was extracted and compared with total sample. In this analysis some traffic would have overlapped in more than one zone. Hence sum total of such shares will be more than 100%. Thus, for ease of understanding such impact share is converted to common denominator of 100% by assigning due weightage in proportion of influence zone share.

The share of influence zone in traffic volume on particular stretch helps in understanding the contributor zones of traffic and adds value in predicting forecast of future traffic growth on corridor. In most cases passenger traffic has limited influence zone and is mostly around stretch. Hence detailed analysis of influence zone is done for commercial traffic only.

The following tables provide share of various origin / destination of commercial traffic in total traffic.

Table 2-14 : Influence zone of Commercial Traffic Toll Plaza -2 Km 228.000

Origin/ Destination	Share traffic (%)
Moradabad	16.4%
Rampur	16.3%
Bareilly	13.8%
New Delhi	8.6%
Ghaziabad	4.0%
